HES 5940 Intensive Studies in Health and Exercise Science 1-6 Credit Hours
1 to 6 hours. Prerequisite: graduate standing or permission. Completion of research project under faculty supervision. Meets research requirement for non-thesis option. (F, Sp, Su)

HES 5953 Research Methods in Health and Exercise Science 3 Credit Hours
Prerequisite: graduate standing. Methods and techniques used in the design and interpretation of health promotion and exercise science research. Emphasis on scientific writing and library use. (Sp)

HES 5960 Directed Readings in Health and Exercise Science 1-6 Credit Hours
1 to 6 hours. Prerequisite: graduate standing, permission. Designed for graduate students to provide them with an opportunity to investigate selected problems in the field. Thirty hours library and research work for each credit hour. Consultations with instructor required. Written report. Required for all students in a nonthesis program. (F, Sp, Su)

HES 5963 Statistical Applications in Health and Exercise Science 3 Credit Hours
Prerequisite: graduate standing or permission of instructor. The application of techniques used to organize, analyze, and interpret statistical data unique to health and exercise science. Topics include measures of central tendency, measures of variability, percentiles, sampling, correlation, regression, standard scores, and tests of significance through repeated measures ANOVA and including parametric, non-parametric tests. (Irreg.)

HES 5970 Seminar in Health and Exercise Science 1-4 Credit Hours
1 to 4 hours. Prerequisite: graduate standing. May be repeated with change of subject matter; maximum credit six hours. Study of pertinent and current problems of research. Students may use seminars to identify and develop thesis projects. Required written paper and research. (Sp)

HES 5980 Research for Master's Thesis 2-9 Credit Hours
Variable enrollment, two to nine hours; maximum credit applicable toward degree, four hours. Required of all students writing master's thesis. Consultations with major professor required as thesis progresses. (F, Sp, Su)

HES 5990 Independent Study in Health and Exercise Science 1-6 Credit Hours
1 to 6 hours. Prerequisite: graduate standing or permission. A study of selected problems under guidance of instructor. At least twenty-five hours of library and research time required for each hour of credit carried. Final paper required. (F, Sp, Su)

HES 6000 Variable Topics in Health and Exercise Science 1-3 Credit Hours
Prerequisite: graduate standing or permission of instructor. Course will consist of variable topics in health and exercise science. (Irreg.)

HES 6253 Legal and Econometric Seminar in Sport Labor Relations 3 Credit Hours
Prerequisite: Graduate Standing and Departmental Permission. Course examines labor relations in professional sports and amateur athletics with emphasis on econometrics, case law, and legislative policy. Special attention is devoted to the role the legal system plays in the determination of league policy and the economics of collective bargaining. Included are aspects of antitrust law, contract law, labor law, and collective bargaining as applied to sports institutions. (Irreg.)

HES 6513 Qualitative Research Methods in Health Promotion 3 Credit Hours
Prerequisite: graduate standing. Designed to provide students with a theoretical and skill base to apply basic qualitative research methods(observation,interviewing and focus groups)to a wide range of health promotion areas and to critically evaluate the application of qualitative skills to a community setting. Over the semester, a community-based qualitative research project will be conducted. Heavily emphasizes application of concepts and student participation in the learning process. (Irreg.)

HES 6523 Social Marketing in Health Promotion 3 Credit Hours
Prerequisite: 5523 or permission of instructor. Focuses on the incorporation of basic marketing principles into strategies for behavioral and social change. Targeted outcomes include individual behaviors, group/population norms, environmental supports and policies pertinent to health promotion and/or public health issues. (Su)

HES 6553 Advanced Measurement and Evaluation 3 Credit Hours
Prerequisite: HES 5553 or permission of instructor. Issues related to measurement and evaluation in health promotion will be discussed. Different measurement techniques and instruments used in health promotion will be examined and critiqued, and principles of instrument development will be addressed. Issues related to the evaluation of health promotion program outcomes will serve as a context for the course. (Irreg.)

HES 6563 Health Behavior II: Community, Organizational and Population Influences 3 Credit Hours
Prerequisite: HES 5563 or permission of instructor and graduate standing. Focuses on examining new and emerging theories used in health promotion to conduct research in organizational/community/individual change, and to improve health and quality of life. Emphasis on exploring the conceptual and methodological issues associated with theory-based research. (Sp)

HES 6583 Chronic Disease Assessment and Intervention 3 Credit Hours
Prerequisite: graduate standing and permission of instructor. Provides basic understanding of selected chronic diseases including assessment, disease process, pharmacological and medical treatment and intervention strategies for reducing risk. (Irreg.)

HES 6823 Cardiorespiratory Exercise Physiology 3 Credit Hours
Prerequisite: 5823 or permission of instructor. This course covers a variety of topics in cardiorespiratory exercise physiology, including factors that regulate fatigue during endurance exercise, factors that limit maximal aerobic power, regulation of heart rate and blood flow during isometric and dynamic exercise, and cardiovascular adaptations to aerobic training programs. Assessment techniques for cardiorespiratory function will be discussed in depth. Laboratory (Irreg.)

HES 6833 Human Body Composition 3 Credit Hours
Prerequisite: 5823 or permission of instructor. Theoretical and applied aspects of body composition assessment. Topics include limitations and usefulness of laboratory and field methods for assessing body composition in research, clinical and health/fitness settings. Evaluation of body composition research and application to health and clinical populations. Laboratory (Irreg.)

HES 6843 Neuromuscular Physiology 3 Credit Hours
Prerequisite: 5823 or permission of instructor. This course examines the structure and function of the central and peripheral nervous systems and skeletal muscle. Emphasis will be placed on how the central nervous system and motor units respond to conditions such as fatigue, exercise training, vibration, stretching, injury and disease. Laboratory (Irreg.)

HES 6883 Endocrinology and Metabolism of Exercise 3 Credit Hours
Prerequisite: 5823 or permission of instructor. Provide in-depth examination of the energy metabolism during exercise and the role of endocrine system in regulating acute and chronic metabolic responses to exercise. Special endocrine issues related to physiology (i.e. diabetes) will be studied. Laboratory (Irreg.)

HES 6960 Directed Readings in Health and Exercise Science 1-6 Credit Hours
Prerequisite: graduate standing and permission of instructor. May be repeated; maximum credit six hours. Special reading programs are designed to enable graduate students (1) to extend their study to fields that are not covered in other courses and/or (2) to provide an opportunity for more intensive study of subjects covered in other courses. (F, Sp, Su)

HES 6970 Seminar in Health and Exercise Science 1-4 Credit Hours
1 to 4 hours. Prerequisite: graduate standing in HES or permission of instructor. May be repeated with change of subject matter; maximum credit four hours. Study of pertinent and current problems of research. Students may use seminars to identify and develop area of dissertation research. (Irreg.)

HES 6980 Research for Doctoral Dissertation 2-12 Credit Hours
2 to 12 hours. Prerequisite: Graduate standing and permission of instructor; may be repeated. Directed research culminating in the completion of the doctoral dissertation. (F, Sp, Su)

HES 6990 Independent Study in Health and Exercise Science 1-3 Credit Hours
1 to 3 hours. Prerequisite: master's degree and permission of instructor. May be repeated; maximum credit 12 hours. Supervised research for advanced graduate students on major projects with a faculty member. (F, Sp, Su)

Faculty

Last Name	First/Middle Name	Middle init.	OU Service start	Title(s), date(s) appointed	Degrees Earned, Schools, Dates Completed

Health & Exercise Science, B.S.

Minimum Total Credit Hours: 120
Major Hours: 43
Minimum Upper-Division Hours: 48

Overall GPA - Combined and OU: 2.00
Major GPA - Combined and OU: 2.00

Program Code: B500

Admission Requirements for the Bachelor of Science in Health and Exercise Science

Students interested in entering the HES undergraduate degree program must apply for matriculation into the upper division HES core curriculum. Final admission to HES is a competitive process that is based on the following criteria: prerequisite course GPA and combined retention GPA. Students will be selected for admission from a pool of applicants who have completed all prerequisite coursework, have both prerequisite and combined retention GPA of 2.75 or higher, and have submitted all required HES application materials. Please note that due to limited resources for this program not all students with the minimum 2.75 GPA are admitted. Depending on the number of applicants and their GPA distributions, the minimum GPA required for consideration may not be competitive and does not guarantee admission.

Admission to this major is a selective process. Not all students with the minimum 2.75 are admitted due to limited resources for this program. Contact the Department of Health & Exercise Science for information about the HES admission process.

A grade of C or better is required in all HES courses and in all major support requirements.

Major Requirements

- **Some courses required for the major may also fulfill University General Education and/or Dodge College of Arts & Sciences Requirements.**

Code	Title	Credit Hours
Required Courses		
HES 2131	Introduction to Health and Exercise Science	1
HES 2823	Introductory Nutrition	3
HES 2913	Personal Health	3
HES 3303	Principles of Community Health	3
HES 3563	Health Behavior Theory and Application	3
HES 3824	Exercise Physiology	4
HES 3854	Exercise Testing and Prescription for Clinical and Non-clinical Populations	4
HES 3903	Applied Research Methods	3
Major Electives		
Choose 18 hours from the approved elective list maintained by the department (p. 409)		18

Choose one course from Artistic Forms, Western Culture, or World Culture [1,3]		3
Core Area V: First Year Experience (3 hours)		
Choose one course		3
Total Credit Hours		**56**

1 College of Arts and Sciences Requirements: college requirements are not automatically fulfilled by a previous degree.

2 One course at the intermediate level or demonstrated competency at that level

3 6 upper-division hours, 2 courses, at the 3000- 4000-level. ***Must be outside the major.***

Free Electives

Electives to bring total applicable hours to the minimum total required for the degree including 48 upper-division hours.

Information Concerning General Rules, Regulations and Minimum Requirements

Arts and Sciences Hours: At least 80 semester hours of liberal arts and sciences courses are required for a BA degree. At least 55 semester hours of liberal arts and sciences courses are required for a BS degree.
Pass/No Pass Enrollment: A maximum of 16 semester hours of free elective credit may be attempted under this option.
Individual Studies (e.g., courses titled "Independent Study"): A maximum of 12 total semester hours may be counted toward graduation, excluding Honors Reading and Honors Research.
P.E. Courses: No physical education activity courses will be counted toward the 120 semester hours of acceptable credit for graduation.
Senior Institution Hours: A minimum of 60 semester hours applied toward graduation must be earned at senior (4-year) institutions.
Residency:

- At least 15 of the final 30 hours applied toward the degree or at least 50 percent of the hours required by the institution in the major field must be satisfactorily completed at the awarding institution.
- At least 15 semester hours of upper-division major work must be completed in residence at OU.
- OU correspondence courses are ***not*** considered resident credit.

Grade Point Averages: Students must earn a minimum over all 2.00 for each of the following: Combined Retention GPA (all college grades), OU Retention GPA, GPA for all major courses, and GPA for all major courses taken at OU. Some schools and departments of the College have higher minimum grade point averages required for their students.

Suggested Semester Plan of Study

This plan shows one possible grouping of courses that would allow students to graduate in four years. Please refer to the front of the degree checksheet for official requirements. Students must consult with Dodge College of Arts and Sciences and/or Department of Health & Exercise Science academic advisors to verify that courses selected each semester fulfill the recommended plan and satisfy University, College of Arts and Sciences, and Health & Exercise Science major requirements.

Students who have completed prerequisites and meet the minimum grade point average requirement must file an application to be admitted to the program. Because admission is competitive, not every applicant will be admitted.

Health & Exercise Science, Minor

Minimum Total Credit Hours: 18
Minimum Upper-Division Hours: 12

Program Code: N500

- **The requirements for a minor must be completed concurrently with the major degree requirements.**
- **No minor may be added by completing courses after receiving the bachelor's degree.**

At least six (6) credit hours must be earned in courses acceptable for residence credit by standards set forth by the Dodge College of Arts and Sciences, excluding transfer, correspondence, and examination (AP, CLEP, Advanced Standing) credit. Courses for the minor may not be taken Pass/No Pass.

No single course may be used by a student to satisfy a major requirement and a minor requirement. A course may be used, however, to satisfy both a major support requirement and a minor requirement.

Requests to substitute a minor requirement must be approved in writing by the Department of Health & Exercise Science.

Required Courses

Students must successfully complete, with the grade of C or better, at least 18 hours of courses acceptable for major credit in Health and Exercise Science, including at least 12 hours at the upper-division level. In addition to HES 1823 and HES 2913, students must complete twelve (12) additional upper division hours, which can consist of four 3-hour upper-division electives, or any combination of appropriate upper-division electives that will total twelve (12) hours.

A grade of C or better must be earned in each course counted for minor credit.

Code	Title	Credit Hours
HES 1823	Scientific Principles of Health and Disease	3
HES 2913	Personal Health	3

Choose 12 hours of courses acceptable for major credit in HES [1,2]	12
Total Credit Hours	**18**

[1] HES 3893 may be used for HES minor credit.
[2] Students obtaining a minor in HES are *not* eligible for Internship or Independent Study hours.

- Minors in the Dodge College of Arts & Sciences are available to all undergraduate students at OU. If the minor is officially declared, successfully completed, and noted on the graduation application, the student's transcript will so indicate at the time the bachelor's degree is posted.

General Requirements for all Master's Degrees

The master's degree requires the equivalent of *at least* two semesters of satisfactory graduate work and additional work as may be prescribed for the degree.

All coursework applied to the master's degree must carry graduate credit.

Master's degree programs which require a thesis consist of *at least* 30 credit hours. All non-thesis master's degree programs require *at least* 30 credit hours.

Credit transferred from other institutions must meet specific criteria and is subject to certain limitations.

Courses completed through correspondence study may *not* be applied to the master's degree.

To qualify for a graduate degree, students must achieve an overall grade point average of 3.0 or higher in the degree program coursework and in all resident graduate coursework attempted. A student must also have at least a 3.0 in all coursework (including undergraduate coursework if any).

Additional information for master's degree students may be found in the Graduate College Bulletin.

Courses completed through correspondence study may *not* be applied to the master's degree.

To qualify for a graduate degree, students must achieve an overall grade point average of 3.0 or higher in the degree program coursework and in all resident graduate coursework attempted. A student must also have at least a 3.0 in all coursework (including undergraduate coursework if any).

Additional information for master's degree students may be found in the Graduate College Bulletin.

Cellular & Behavioral Neurobiology: Exercise Physiology, Ph.D.

Minimum Total Hours: 90

Program Code: D148

Program Requirements

Code	Title	Credit Hours
Cellular and Behavioral Neurobiology Core (10-13 hours)		
BIOL 5833	Neurobiology	3
BIOL 5871	Current Topics in Neurobiology	1
Lab Rotations (2-3 in CBN-affiliated labs):		
HES 6990	Independent Study in Health and Exercise Science	6-9
Interdisciplinary Research Core (9 hours)		
HES 6970	Seminar in Health and Exercise Science	3
Graduate Statistics as approved by doctoral advisory committee		6
Exercise Physiology Core (12 hours)		
HES 6823	Cardiorespiratory Exercise Physiology	3
HES 6833	Human Body Composition	3
HES 6843	Neuromuscular Physiology	3
HES 6883	Endocrinology and Metabolism of Exercise	3
Dissertation Research (24 hours)		
HES 6980	Research for Doctoral Dissertation	24
Electives (32-35 hours)		
Electives and transfer credit (including from a completed master's degree) as approved by the doctoral advisory committee and as needed to complete 90 hours beyond the baccalaureate degree.		32-35
Total Credit Hours		**90**

General Requirements for Doctoral Degrees

A student should expect to spend at least the equivalent of three full academic years beyond the bachelor's degree to obtain the doctoral degree. During this period the student will take appropriate graduate coursework, successfully complete the general examination, and successfully defend and submit the final dissertation.

All coursework applied to the doctoral degree must carry graduate credit.

The doctoral degree requires at least 90 post-baccalaureate hours, including both formal coursework and hours of research.

The minimum hour requirement for a specific doctoral degree program cannot be waived.

No more than one-half of the credit hours, both OU and overall, excluding Research for Doctoral Dissertation (6980), may be *S/U*-graded coursework.

The student must be in residence at OU for at least two consecutive 16-week semesters during the pursuit of the doctoral degree while enrolled and engaged in coursework or research activities as prescribed by the major academic unit.

For more detailed regulations and requirements for Doctoral degrees, please consult the Graduate College Bulletin: http://www.ou.edu/gradcollege/forms/bulletin

Health and Exercise Science: Exercise Physiology, Ph.D.

Minimum Total Hours: 90

Program Code: D500

Program Requirements

General Information

The study of History has always claimed a place at the center of a liberal arts education. By understanding the experiences of people who lived in the near and distant past, students gain a far sharper perspective on their own place in the world. Knowing the past enhances our capacity to understand the present and imagine the future. History also sharpens our research and writing skills and hones our ability to think critically and imaginatively.

Studying the past -- whether it's near or distant, foreign or familiar -- is fascinating. History Majors at the University of Oklahoma work closely with faculty distinguished for both teaching and research. The research, analytical, and writing skills that History majors develop help them advance in a wide range of careers. History majors pursue careers in fields such as law, public service, business, journalism, information management, military service, or medicine. Others use their historical expertise and knowledge of other cultures more directly as teachers, museum curators, public historians, workers in non-profit agencies, or Peace Corps volunteers. Some go on to graduate school to become professional historians. Numerous government agencies such as the Foreign Service, CIA, FBI, national and state parks, the Peace Corps, and social services have positions for history graduates. Other hiring institutions include business corporations, educational institutions, the travel and tourism industry, the media (newspapers, journals, TV and film), museums, foundations, and public relations firms. History is an excellent major for students wishing to go on to law school. Graduates with liberal arts degrees (including history) are prime candidates for executive training programs in private business. They may become archivists, curators, consultants, analysts, criminologists, genealogists, librarians, lawyers, teachers, researchers, writers, or publishers. In addition to the many career benefits, history majors will discover that their studies give them the perspective to participate more fully in the world around them.

Programs & Facilities

Schusterman Center for Judaic and Israel Studies

The Schusterman Center (p. 526) is housed within the Department of History. The center offers an undergraduate major in Judaic Studies and a minor in Judaic & Israel Studies through the Department of History, and a Hebrew language minor through the Department of Modern Languages, Literatures and Linguistics. Graduate students may select a major field in Judaic/Israel History through the Department of History's graduate program. The programming and scholarship opportunities of the Schusterman Center are interdisciplinary and serve as bridge from history to other departments and colleges at the University.

Internship Program

The History Department's Service Learning Internship Program is one of only six service learning credit opportunities on the OU Norman campus. The program's mission is to provide History majors with hands-on experience analyzing, organizing, preserving and/or presenting history for and to the public. We place undergraduate interns at local historical organizations and agencies every spring, summer and fall semester. We are proud to coordinate with our site sponsors at organizations such as the Oklahoma City National Memorial and Museum, the Oklahoma Historical Society, the Oklahoma Department of Libraries and on-campus opportunities with Bizzell Memorial Library.

Scholarships and Financial Aid

- Annual Awards and Fellowships - for outstanding undergraduate and graduate students
- Other Funds - for conference travel and research are available on a competitive basis from the Department of History, the Graduate College, the Dodge College of Arts and Sciences, and the Graduate Student Senate. Students should consult those offices or (in the case of graduate students) the Director of Graduate Studies for application information.

Undergraduate Study

The History Department allows majors to tailor their upper-division coursework to reflect their historical interests. As a major, you will choose from two tracks: The Traditional Major offers a variety of geographic, chronological, and thematic perspectives. The Field of Concentration major allows you to focus on a particular region (like the U.S. or Asia) or theme (like Women's and Gender History or History of War, Revolution, and Diplomacy). Whichever track you choose, you will progress through three small seminars designed to teach you the skills that are central to our discipline: HIST 2573 (History Sleuth); HIST 3573 (The Junior Colloquium); and HIST 4973 (The Senior Capstone). Because each of these courses builds on its predecessor, you are strongly encouraged to take them in order.

If you have any questions about majoring or minoring in history, please contact our Director of Undergraduate Studies, Dr. Jane Wickersham. You can also visit the Undergraduate Studies page of our website.

- History, Bachelor of Arts (p. 427)
  History majors choose from two tracks: the Traditional Major offers a variety of geographic, chronological, and thematic perspectives; and the Field of Concentration major focuses on a particular region or theme.

- History Minor (p. 429)
  Students majoring in other subjects may elect to minor in history.

Graduate Study

The Department of History at the University of Oklahoma offers premier graduate programs in the history of the American West, Native American History, Latin American History, Environmental History, Transnational Women's and Gender History, and Judaic History. Our faculty are leaders: They publish books and articles that help define their fields. They serve as officers in professional organizations. And they offer close, one-to-one mentoring to students working toward both the M.A. and Ph.D. degrees.

Our graduate students benefit from special fellowships, travel and research support, innovative lecture series, and a dynamic sense of purpose. They have garnered an impressive range of nationally and internationally competitive research fellowships and pre- and post-doctoral fellowships. Our program also boasts an excellent placement record: Our graduates have built successful careers as tenure-track professors at research universities and liberal arts colleges; public historians; and scholarly editors.

We offer our students unparalleled research resources. The University of Oklahoma's Bizzell Library has over 2.5 million books, more than 1.6 million government publications, over 3 million pieces of microform, and subscribes to 16,000 journals. The University is also home to the Western History Collections, one of the most important facilities in the world for the study of Native American, Western American, and Environmental

History. It contains 65,000 books, 10,000 cubic feet of manuscripts, and nearly 2 million photographic images. The manuscript collection of the Carl Albert Center houses the papers of many public figures important to the American West. The Charles M. Russell Center for the Study of the Art of the American West provides access to an extensive collection of books, manuscripts, theses and dissertations, periodicals and journals, artist files, and slides on western American and Native American art. The Sam Noble Natural History Museum, one of the nation's largest connected to either a public or private university, offers rich research opportunities for those interested in studying Native American, Western American, and environmental history. Finally, the Oklahoma Historical Society, in Oklahoma City, offers access to thousands of documents.

Master of Arts

The department offers a thesis and a non-thesis option for the Master of Arts (p. 429) degree in History.

Doctor of Philosophy (PhD)

The Doctor of Philosophy Degree (p. 430) is offered primarily in one of the department's core areas. Detailed information may be obtained from the graduate liaison of the department and by visiting our website.

Courses

HIST 1113 History of Medieval Europe 3 Credit Hours
History of Europe from the fall of Rome to the end of the 15th century. Emphasis on the development of social structures and culture forms, and the sociocultural background of political and religious developments. (F, Sp)

HIST 1223 Europe, 1500 to 1815 3 Credit Hours
An introductory survey of Europe in the early modern period. Topics include the Reformation, development of the nation-state, the Enlightenment, and the French Revolution and Napoleon. (F, Sp) [IV-WC].

HIST 1233 Europe since 1815 3 Credit Hours
An introductory survey of Europe from 1815 to the present. Examines the major political, economic, social and cultural trends in the major countries and European foreign affairs and overseas expansion. (F, Sp) [IV-WC].

HIST 1303 The History of Disease 3 Credit Hours
Prerequisite: English 1213/Expository Writing 1213 or permission of instructor. Examines contagious disease in the 20th century. It explores a time period-- following the discovery of antibiotics-- in which biomedicine seemed invincible. The course, as it moves later into the 20th century, when the AIDS virus and resistance to antibiotics turned contagion into a new, and thoroughly modern, threat. (Irreg.) [IV-WC].

HIST 1483 United States to 1865 3 Credit Hours
A general survey of United States history to the end of the Civil War, with emphasis upon national political, diplomatic, economic, constitutional, social and intellectual developments. (F, Sp, Su) [IV-US].

HIST 1493 United States, 1865 to the Present 3 Credit Hours
A general survey of United States history from the Civil War to the present day, with emphasis upon national political, diplomatic, economic, constitutional, social and intellectual developments. (F, Sp, Su) [IV-US].

HIST 1543 Introduction to American Indian History 3 Credit Hours
A history of American Indian people in North America and their role in shaping American history through the early 1970's. Emphasis will be on how cultural values influenced Indian-European interactions and how cultures change over time. (F, Sp) [IV-WDC].

HIST 1563 The Jews: From Abraham to Zionism 3 Credit Hours
Introduces students to both the basics of Jewish history and the different disciplinary inquiries into the Jewish experience. The course covers biblical, rabbinic, medieval and modern Jewries in the ways in the ancestral homeland (e.g. Israel) and in the diaspora (e.g. other lands in which Jews settled). (Irreg.) [IV-WC].

HIST 1573 The Artists' Bible - From Mosaics to Graphic Novels 3 Credit Hours
The Artists' Bible presents major artistic movements. Students explore mosaics, paintings, architecture, sculpture, graphic novels that expand the Bible's compact language. We begin with Genesis and end with Revelation. We focus primarily on western art with Middle Eastern counterexamples. Female and male characters will be analyzed. Overviews the Bible and artistic tradition. Involves analysis of biblical passages that invited visualization. (F) [IV-AF].

HIST 1613 Western Civilization I 3 Credit Hours
History and culture of western civilization from origins of Greek society to end of religious wars in seventeenth century. (F) [IV-WC].

HIST 1623 Western Civilization II 3 Credit Hours
History and culture of western civilization between 1660 and the present. Emphasis will be placed on western institutions and ideas, their evolution, and their influence elsewhere. (Sp) [IV-WC].

HIST 1723 East Asia to 1600 3 Credit Hours
A general survey of the histories of China and Japan with the history of Korea included as it bears upon the historyof Japan. The focus is on the political, social, economic, and intellectual aspects of China and Japan, and their points of contact. (Irreg.) [IV-WDC].

HIST 1733 East Asia Since 1600 3 Credit Hours
A general survey of the histories of China, Japan, and Korea from 1600 to the present. Focus is on the political, social, and economic systems of these countries, major historical events and intra-Asian interactions. (Irreg.) [IV-WDC].

HIST 1923 World Civilization 1600-Present 3 Credit Hours
Deals with the entire globe rather than with one country or region; deals with all peoples, not just with so-called Western or non-Western peoples. Focuses on historical forces or movements of worldwide influence. Comparative history. (Irreg.) [IV-WC].

HIST 2013 Ancient Near Eastern Civilizations 3 Credit Hours
A study of the major civilizations of the Ancient Near East from the last Pluvial period (ca. 8400 B.C.) through the first millennium B.C., with particular emphasis on the historic periods (ca. 3000 B.C. onwards). (Irreg.) [IV-WDC].

HIST 2033 Introduction to Digital Humanities 3 Credit Hours
(Crosslisted with LIS, WGS and HSTM 2033) This course introduces students to digital and/or computational methods in the humanities and addresses critical questions about the role of digital technology in society. This is a collaborative, hands-on, project-based course. (Sp) [IV-WC].

HIST 2063 History of Activism 3 Credit Hours
This course explores the history of activism in the twentieth century, paying particular attention to the ways race, ethnicity, class, and gender have shaped political, economic, environmental and health injustices and community responses to them. (Irreg.) [IV-WC].

HIST 2103 New Religions in the Modern US 3 Credit Hours
(Crosslisted with RELS 2103) Examines the history of minority groups in the U.S. religious landscape. We will focus on religious outsiders - those known variously as cults, sects, alternative religions, and new religious movements to gain understanding of their history. (Irreg.)

HIST 2113 American Energy History 3 Credit Hours
Examines the history of energy in the United States from the colonial period to the present, including how the struggle to control energy has shaped American society, culture, science and technology, politics, diplomacy and the environment. This historical perspective provides a framework for understanding and interpreting contemporary energy policy and politics. (Irreg.)

HIST 2123 The Holocaust 3 Credit Hours
Discussion of the Holocaust, how it could happen and how it is remembered today in different European and non-European countries. (Irreg.) [IV-WC].

HIST 2333 The British Empire 3 Credit Hours
A survey of the development of the British Empire and Commonwealth to the present day. Emphasis upon the period after the American Revolution; includes extension of control in Asia and Africa, movements of independence, the emergence of the Commonwealth and mid-twentieth-century challenges to the Commonwealth. (Irreg.) [IV-WC].

HIST 2573 The History Sleuth 3 Credit Hours
Prerequisite: majors only or permission of department. Introduces students to the craft of history. Students will explore the many types of sources available to reconstruct the past and learn how historians collect, select, and evaluate historical evidence. (F, Sp)

HIST 2613 Colonial Hispanic American History, 1492-1810 3 Credit Hours
The founding and development of the Spanish and Portuguese empires in America with special attention to the conquest of native civilizations and to the political, economic, social and intellectual institutions of the colonial period. (F, Su) [IV-WC].

HIST 2623 Modern Latin America 1810-Present 3 Credit Hours
The emancipation and development of the Spanish-American nations (and of Brazil) with special attention to the movements for national independence, political unification, economic developments and social welfare. (Irreg.) [IV-WC].

HIST 2703 African Societies and Cultures 3 Credit Hours
Explores the complexity and divergence of African societies and cultures, political organizations, social structures, traditions and artistic expressions created by Africans over time and introduces Africa's history after 1500, its cultural diversity, and political transformation. (Irreg.) [IV-WDC].

HIST 2713 Survey of African Civilization 3 Credit Hours
(Crosslisted with AFAM 2713) Survey of the social, economic, political and cultural development of sub-Saharan African peoples from the emergence of human society to the present. (F) [IV-WDC].

HIST 2723 History of South Asia 3 Credit Hours
The course examines South Asia, which refers to the vast geographical space stretching from the Himalayan mountain ranges in the north to the Indian Ocean in the south and from the valley of the Indus in the west to the plains of the Brahmaputra in the east. Students examine the histories, cultures and societies of these spaces. (Irreg.) [IV-WDC].

HIST 2803 Survey of Russia 3 Credit Hours
An introduction to the history of Russia from its beginnings to the present day. Intended primarily for nonspecialists. (F) [IV-WC].

HIST 2970 Special Topics 3 Credit Hours
1 to 3 hours. Prerequisite: sophomore standing or permission of instructor. May be repeated; maximum credit six hours. Special topics or seminar course for content not currently offered in regularly scheduled courses. May include library and/or laboratory research and field projects. (Irreg.)

HIST 3013 Indigenous Politics in Modern Latin American History 3 Credit Hours
Prerequisite: ENGL 1213 or EXPO 1213. This course traces the history of Latin America's indigenous peoples during the 19th and 20th centuries, moving from the Andes to the Southern Cone to Brazil to Mexico and Central America. Considering indigenous people's experiences as well as policies and ideas that affected them, students read a variety of sources, from scholarly books to primary sources like letters and literature. (Irreg.) [IV-WDC].

HIST 3023 Classical Greece 3 Credit Hours
An examination of the history of ancient Greece during its "Classical" Period, the fifth and fourth centuries B.C., with emphasis upon Athens, Sparta and Alexander the Great (C. 500-300 B.C.). (Irreg.) [IV-WC].

HIST 3033 Black Britain in the Long Nineteenth Century 3 Credit Hours
(Crosslisted with AFAM 3033) Prerequisite: HIST 1483 or HIST 1493 or junior standing, or permission of instructor. This course explores the history of Black people in Britain from the late eighteenth century to the end of the First World War. Through this, students uncover the ways those of African descent shaped British history and yet were excluded from its narratives. (Irreg.) [IV-WC].

HIST 3053 Medieval Italy 3 Credit Hours
Prerequisite: 1113 or 1613 or junior standing. A survey of Italy from circa 400-1350 CE, emphasizing the mix of Roman, Christian, and barbarian traditions, relations between the church and empire, and the role of cities and commerce. (Sp) [IV-WC].

HIST 3063 The Ancient Art of War 3 Credit Hours
Traces the history of warfare from its origins through the ancient world to the beginning of the Middle Ages. (Sp) [IV-WC].

HIST 3073 The Renaissance 3 Credit Hours
Prerequisite: HIST 1223 or HIST 1613 or junior standing or permission of instructor. Examines the European Renaissance, a time period that was crucial to the development of western European culture, intellectual thought, and state formation. By reviving classical antiquity, the Renaissance created both the classical canon of intellectual study and modern political units. (Irreg.) [IV-WC].

HIST 3083 The American Colonies 3 Credit Hours
A history of the British colonies in North America from the earliest discoveries and of the United States from the Second Continental Congress to the inauguration of Washington in 1789. (Irreg.) [IV-WC].

HIST 3093 The Revolutionary Era 3 Credit Hours
Prerequisite: HIST 1483 or HIST 1493 or junior standing or permission of instructor. The American Revolution and the development of political institutions under the Articles of Confederation and the Constitution; innovations of the Federalists; domestic and foreign affairs. (Irreg.) [IV-WC].

HIST 3113 The Crusades 3 Credit Hours
Prerequisite: 1113 or 1613 or junior standing. Covers crusades to the Holy Land and Europe against Moors, pagans, heretics, and enemies of the Pope. Topics include crusade ideology, relations between Latins, Byzantines, Jews and Muslims, crusader states, techniques of warfare, and the experience of crusading. (F) [IV-WC].

HIST 3120 Topics in Modern European History 1-5 Credit Hours
1 to 5 hours. May be repeated for credit with change of content. Discussion of a selected special problem or problems in modern European history. (Irreg.)

HIST 3123 World War II and Memory 3 Credit Hours
Prerequisite: Junior standing or permission of instructor. From the late 1930s to 1945, the world was engulfed in the most destructive war in history, a conflict that took 60 million lives and created enormous social, political, and technological change. This course will deal with the ways some of the societies that took part in the Second World War have understood and dealt with that conflict's legacies. (Irreg.) [IV-WC].

HIST 3133 Medieval Women 3 Credit Hours
(Crosslisted with WGS 3133) Prerequisite: 1113 or 1613 or junior standing. Covers social history of women in western Europe from late Antiquity to the late Middle Ages. Topics include stages of life, marriage, families, occupation, law, power, health, religion, love, and education. (F) [IV-WC].

HIST 3143 The Era of the Reformation 3 Credit Hours
An analysis of the forces leading to the religious upheaval in the sixteenth century and the spread of Protestantism in Northern European countries; the Catholic Reformation or Reaction; Thirty Years War; and the relation of the Reformation Era to medieval and modern civilization. (F) [IV-WC].

HIST 3153 The Great War, 1914-18 3 Credit Hours
Prerequisite: 1233 or 1623. Examines the causes, conduct, and consequences of World War I, with primary emphasis on its cultural impact. (F) [IV-WC].

HIST 3163 Europe from the French Revolution to Napoleon 3 Credit Hours
A social, political, military and cultural treatment of Europe from 1789 to 1815. Appropriate attention will also be given to causes of the French Revolution. (Sp) [IV-WC].

HIST 3173 The Early U.S. Republic 3 Credit Hours
Prerequisite: HIST 1483 or HIST 1493 or junior standing or permission of instructor. This course surveys the 35 years of U.S. history after the War of 1812. We will examine the rise of a modern political parties; the creation of an American empire; the expansion of slavery; the violence of Indian removal; the dramatic political battles of Jacksonian America; the far-reaching impact of evangelical Christianity; and the development and evolution of American prosperity. (Irreg.) [IV-WC].

HIST 3183 Italy: Making a Nation? 3 Credit Hours
Prerequisite: HIST 1233 or junior standing or permission of instructor. Course examines the creation of modern Italy from the late Renaissance, Enlightenment, nationalism, the unification movement, World War I and World War II. (Irreg.) [IV-WC].

HIST 3193 Modern France: Gender, Religion and Nation 3 Credit Hours
Prerequisite: HIST 1623 or HIST 1233 or junior standing or permission of instructor. This course surveys key events and ideals that have shaped the modern nation of France. We will engage literature, history, film, and sociology to develop a more nuanced understanding of France and its place in the world. We will focus particularly on the roles played by gender and religious identities in constructing or complicating definitions of French citizenship. (F) [IV-WC].

HIST 3203 Transformation of Jews 3 Credit Hours
Prerequisite: Junior standing or permission of instructor. Introduces students to the era of emancipation in modern Europe and will discuss Jewish approaches to become integrated and assimilated in the different emerging nation states. (Irreg.) [IV-WC].

HIST 3213 Intellectual History of Nineteenth-Century Europe 3 Credit Hours
Examination of the impact on European social and political development of concepts such as Nationalism, Imperialism, Socialism and Darwinism. (Irreg.) [IV-WC].

HIST 3223 Intellectual History of Twentieth-Century Europe 3 Credit Hours
A general survey of the major intellectual developments in Western Europe since 1900, including the areas of social thought, religious thought, political philosophy, scientific thought, literature and drama. In each area the relationship of intellectual expression will be related to the historical context from which it emerged. (Irreg.) [IV-WC].

HIST 3233 Modern Spain 3 Credit Hours
Prerequisite: junior standing. Examines the political, economic, social, and cultural aspects of modern Spanish history (1808-present) and will attempt to place Spain within the context of European history, where it has often been ignored by European historians. (F, Su) [IV-WC].

HIST 3243 European Women & Gender Relations 3 Credit Hours
Prerequisite: HIST 1233 or HIST 1623 or junior standing or permission of the instructor. Explores the social, cultural, political, and economic history of European women and gender relations from the Scientific Revolution to the present. (Irreg.) [IV-WC].

HIST 3253 Germany: From Bismarck to Hitler 3 Credit Hours
Prerequisite: HIST 1233 or junior standing or permission of instructor. History of Germany during the 19th and 20th centuries, from the unification era to the rise of Hitler and the Nazi Party. Topics include the Congress of Vienna, German unification, World War I, the rise of Nazism, and World War II. (Irreg.) [IV-WC].

HIST 3263 History of Public Health 3 Credit Hours
(Crosslisted with HSTM 3263) Prerequisite: Junior Standing or a lower division HSCI course or HIST 1733 or HIST 2723 or Permission of Instructor. Taking an historical perspective students explore and analyze the social, economic, political and scientific events and processes that have shaped modern public health. (F) [IV-WC].

HIST 3273 Of Acupuncture, Medicine Men & Ayurveda: Indigenous & Non-Western Medicine in Perspective 3 Credit Hours
(Crosslisted with HSTM 3273) Prerequisite: Junior standing or a lower division HSTM course or HIST 1733 or HIST 2723 or Permission of Instructor. Introduces histories of practices and systems of medicine and healing that are variously deemed "indigenous," "traditional," "non-western," "alternative," and "complementary" in historical context. Students critique the historical and cultural meaning of these terms, as well as their attendant conceptions of health, disease, and the body. (Sp) [IV-WDC] .

HIST 3283 Religion, Colonialism and Nationalism in India 3 Credit Hours
(Crosslisted with RELS 3283) Prerequisite: HIST 1923, HIST 2723, RELS 1123, or RELS 2713 or junior standing or permission of instructor. Examines the ways that boundaries between communities and polities have been made and unmade throughout South Asian history. We take British colonialism and anti-colonial nationalisms in modern India as our primary case study. (Irreg.) [IV-WDC].

HIST 3293 Antisemitism 3 Credit Hours
Prerequisite: HIST 1483 or HIST 1493 or junior standing or permission of instructor. Covers the world's oldest prejudice from ancient times to the present. Topics include Christian Antisemitism; medieval demonization of the Jews; Inquisition; Dreyfus case; pogroms; American Antisemitism; Nazism and Holocaust; Arab and Muslim Antisemitism; and African American Antisemitism. (Irreg.) [IV-WC].

HIST 3303 Mexico and the United States 3 Credit Hours
Prerequisite: Junior standing or permission of instructor. Explores the long and complicated relationship between these two nations. Explores economic investment, war, immigration, bilingualism, and culture. (Irreg.) [IV-WC].

HIST 3313 Israeli Culture Through Film 3 Credit Hours
Prerequisite: ENGL 1213 or EXPO 1213. Introduces students to the Israeli culture in its modern day context of the young Jewish state. Focuses on the dynamic mosaic of this multi-faceted society which is still evolving. (Sp) [IV-WDC].

HIST 3323 Tudor England 3 Credit Hours
A study of England from 1485 to 1603. Topics covered include the establishment of the Tudor dynasty, Tudor administrative and political development, the English Reformation, foreign and colonial relations, economic growth, and sixteenth-century social and cultural life. (F) [IV-WC].

HIST 3333 The Black West 3 Credit Hours
(Crosslisted with AFAM 3333) Prerequisite: Junior standing, or any 2000-level African and African American Studies class, or permission of instructor. Survey of Black history and experience in the American West. Students will learn about life in the region through primary documents, scholarly texts, literature, film, and popular culture. Emphasis on how identity, regionalism, and nationalism converge in North America. Particular attention will be paid to Oklahoma and the larger Great Plains. (Irreg.)

HIST 3343 Eighteenth-Century England 3 Credit Hours
A discussion of the domestic politics, society, economy, foreign affairs and constitutional and imperial development of England from the accession of the Hanoverians in 1714 to the passage of the First Reform Act of 1832. (Irreg.) [IV-WC].

HIST 3353 England Since 1832 3 Credit Hours
Topical analysis of major developments in British life since 1832, including growth of political democracy, adaptation to industrialism, social and cultural change, foreign affairs, imperialism, growth of the welfare state. Britain's changed role in the twentieth century. (Irreg.) [IV-WC].

HIST 3373 The Long Civil Rights Movement in America 3 Credit Hours
Prerequisite: HIST 1483 or HIST 1493 or junior standing, or permission of instructor. This course treats the Civil Rights Movement as a century-long struggle. Using court cases as historical documents alongside other secondary and primary sources, it examines both the legal concept of civil rights as well as the activism of people who sought such rights. It concludes with an examination of the modern notions of civil rights. (Irreg.) [IV-WC].

HIST 3383 The American West 3 Credit Hours
A survey of the economic, political, social and cultural development of the American West. Particular attention will be paid to the West as a frontier process and as a causative factor in historical change.(F) [IV-WC].

HIST 3393 History of Oklahoma 3 Credit Hours
Meets the requirement in Oklahoma history for teacher's certificate. A survey of Oklahoma history from its beginning to the present, including its Indian background, formation into territories, achievement of statehood, and general cultural, economic and political development. (F, Sp, Su)

HIST 3403 Modern Israel 3 Credit Hours
Prerequisite: HIST 1483 or HIST 1493 or junior standing or permission of instructor. Introduces students to the history of modern Israel. They will learn about the Israeli people, politics & culture. The course will cover 100 years (1882-1982). (Irreg.)[IV-WDC].

HIST 3423 War, Prosperity and Depression 3 Credit Hours
Prerequisite: HIST 1483 or HIST 1493 or junior standing or permission of the instructor. Covers United States involvement in the two world wars; decline of socialism; youth culture; changing gender roles and relations; crisis of masculinity; transformation of work; consumerism; racism; antisemitism; depression and New Deal; and America's response to the Holocaust. (Irreg.) [IV-WC].

HIST 3430 Topics in United States History 1-5 Credit Hours
1 to 5 hours. May be repeated for credit with change of content. Discussion of a selected problem or problems in United States history. (F, Sp, Su)

HIST 3433 The United States in the Cold War Era, 1945-1980 3 Credit Hours
Prerequisite: HIST 1483 or HIST 1493 or junior standing or permission of instructor. Examines changes taking place in American life during the second half of the twentieth century. Topics include the Cold War, McCarthyism, the New Frontier, Civil Rights Movement, protest in the 60s, the Vietnam War, and adaptations to a global economy. (Irreg.) [IV-WC].

HIST 3440 Mentored Research Experience 3 Credit Hours
0 to 3 hours. Prerequisites: ENGL 1113 or equivalent, and permission of instructor. May be repeated; maximum credit 12 hours. For the inquisitive student to apply the scholarly processes of the discipline to a research or creative project under the mentorship of a faculty member. Student and instructor should complete an Undergraduate Research & Creative Projects (URCP) Mentoring Agreement and file it with the URCP office. Not for honors credit. (F, Sp, Su)

HIST 3443 Early North American West 3 Credit Hours
Prerequisite: HIST 1483. This course examines the early history (1200 CE to about 1850 CE) of North America. Topics include early indigenous societies, exploration and conquest, systems of slavery, and colonial and federal policies that led, finally, to the removal and relocation of indigenous nations from the early United States. The course concludes with an analysis of the west in the era sectionalism. (Irreg.) [IV-WC].

HIST 3453 The Modern North American West 3 Credit Hours
Prerequisite: HIST 1483 or HIST 1493. This course focuses upon the different peoples, resources, landscapes, and ideas that collided in the recent American West. Sometimes that contact was violent, sometimes loving, but always the the collision created an American story that has enormous influence today. This course concludes with an analysis of how the western past appears in the present. (Irreg.) [IV-WC].

HIST 3463 From Slavery to "Capitalism" 3 Credit Hours
Prerequisite: HIST 1483 or HIST 1493 or junior standing or permission of instructor. This course explains economic life (production & exchange of things people need or want) in the United States, from the Constitution to the height of the industrial revolution, with an emphasis on economic policy. The course examines differing definitions of "capitalism" and discusses how those concepts might, or might not, apply to chattel slavery. (Irreg.) [IV-WC].

HIST 3483 Gilded Age and Progressive Era, 1877-1917 3 Credit Hours
Prerequisite: HIST 1483 or HIST 1493 or junior standing or permission of instructor. The period from 1877 to 1917 included the fastest and most extensive industrial revolution in world history, the worst economic depression in U.S. history, the most violent episodes of industrial violence, the most radical agrarian protests, the greatest racial violence in the nation's history, the acquisition of an overseas empire, and intervention in the First World War. (Irreg.) [IV-WC].

HIST 3493 American Environmental History 3 Credit Hours
Examine American attitudes toward the environment since the founding of American colonies, evolution of natural resource policies, and lives of prominent figures in the "conservation" and "ecology" movements of the late nineteenth and twentieth centuries. (F) [IV-WC].

HIST 3500 Special Topics in History 1-6 Credit Hours
Prerequisite: junior standing. May be repeated with change of content; maximum credit six hours. Covers topics not covered in current course listings or specific geographic area topics courses. (F, Sp)

HIST 3503 The World War II Era, 1918-1945 3 Credit Hours
Prerequisite: HIST 1483 or HIST 1493 or junior standing or permission of instructor. Treats origins, conduct and outcome of World War II in global setting. Emphasis on roles of national interest, policy making, relations of states, and effects of war on societies involved. (F) [IV-WC].

HIST 3513 Jewish History in Germany since 1945 3 Credit Hours
Prerequisite: HIST 1613 or HIST 1233 or junior standing or permission of instructor. Despite the devastations of the Holocaust, Jews stayed in Europe. This course will discuss the partition of Germany in 1945 and its reunification in the 1990s; Jewish culture and society in German states post-1945; Jewish interactions with non-Jews; and Jewish immigration; among other topics. (Irreg.) [IV-WC].

HIST 3523 History after the Internet: Exploring Digital History 3 Credit Hours
(Crosslisted with HSTM 3523) Prerequisite: Junior Standing. Examines major themes, issues, and developments affecting the research, writing, analysis, preservation and presentation of history in the digital age. Includes hands-on engagement with and critical assessment of the use of digital tools for conducting historical inquiry, and exploration of the circulation of historical knowledge in such venues as social media, blogs, podcasts, digital archives, online collections and historically-themed gaming. (Sp) [IV-WC].

HIST 3533 The History of Early American Women 3 Credit Hours
Prerequisite: 1483 or 1493, or junior standing. Explores the history of American women from the seventeenth century to the mid-nineteenth century by focusing on women's lives from a wide variety of perspectives including demographic change, sexuality, work patterns, and political involvement. (F) [IV-WC].

HIST 3543 The History of Modern American Women 3 Credit Hours
Prerequisite: 1483 or 1493, or junior standing. Explores the history of American women from the mid-nineteenth century to the present by focusing on women's lives from a wide variety of perspectives including demographic change, family life, sexuality, work patterns, and political involvement. (Sp) [IV-WC].

HIST 3553 Slavery and the Civil War Era 3 Credit Hours
(Crosslisted with AFAM 3553) Prerequisite: HIST 1483 or HIST 1493, or junior standing, or permission of instructor. A course of lectures on the social, economic, political, intellectual and military aspects of the Civil War era. (Irreg.) [IV-WC].

HIST 3563 Jerusalem 3 Credit Hours
Prerequisite: HIST 1483 or HIST 1493 or junior standing or permission of instructor. Examines how Jerusalem has been shaped by subjects as different as King David, Jesus, and Muhammed to soccer hooligans, suicide bombers, artists, and refugees. Also examines the Middle East conflict; the relationships between Jews, Christians, and Muslims; and historical and contemporary Israel. (Irreg.) [IV-WDC].

HIST 3573 Special Topics Colloquium 3 Credit Hours
Prerequisite: History major and junior standing or permission of instructor. May be repeated with change of topic, maximum credit 15 hours. A writing-intensive, open topic, seminar designed to improve students' research and writing abilities and introduce them to basic methodological issues in history. While the course is specifically meant to prepare students for their senior capstone course, the emphasis on research and writing will enhance their preparation for all upper-division history course. This course must be completed prior to enrolling for the senior capstone. (F, Sp)

HIST 3583 History of Sport in America 3 Credit Hours
Prerequisite: ENGL 1213 or EXPO 1213 or junior standing or permission of instructor. Examines the role of sport in American society, and uses sport as a device to explore social, historical and political topics like the commercialization of leisure, changing conceptions of masculinity, violence, racism, labor relations, gender relations, and working-class culture. (Irreg.) [IV-WC].

HIST 3593 Women in the American West 3 Credit Hours
Prerequisite: 1483 or 1493. Nineteenth-century gender ideologies, multi-cultural interaction and exchange, work roles and community building, participation in politics, and reform movements of women in Trans-Mississippi West. (Irreg.) [IV-WC].

HIST 3603 The Spiritual Conquest of Latin America 3 Credit Hours
Prerequisite: ENGL 1213 or EXPO 1213. This course deals with orthodoxy and its discontents in the golden age of Catholic empire. The Church was central to the spread of the Spanish and Portuguese empires across the globe, and in the policing of their subject peoples. This course will explore church and popular religion in this time, as well as some of its rich documents. (Irreg.)

HIST 3613 Roman Religion 3 Credit Hours
(Crosslisted with RELS 3613) Prerequisite: junior standing or permission of instructor. The course examines religious practices and beliefs in the Roman world from the founding of the Roman Republic to Late Antiquity, including conceptions of the divine, ways of worshiping the gods, civic and private religion, conceptions of the afterlife, magic, the mystery religions and salvation, and philosophical religions, through a survey of literary and archaeological evidence. (Irreg.)

HIST 3623 Conformity and Dissent in the 1950s and 1960s 3 Credit Hours
Examines conformity and dissent in the 1950s and 1960s. Topics include the consumer culture, suburbia, the impact of television, 'McCarthyism', the Beats and the 1960s counterculture, student protest, civil rights and black nationalism, and women's liberation. (Irreg.) [IV-WC].

HIST 3633 American Indian History to 1880 3 Credit Hours
Prerequisite: ENGL 1213 or EXPO 1213, or junior standing, or permission of instructor. Examines the ways in which native societies in North America responded to European invasions between 1492 and 1890. Emphasis will be placed on Indian culture, the way in which it changed, and the various governmental attempts to destroy it. (Irreg.) [IV-WDC] .

HIST 3643 American Indian History Since 1865 3 Credit Hours
Prerequisite: ENGL 1213 or EXPO 1213; or junior standing, or permission of instructor. Examines American Indian history since the 19th century reservation era. Major themes include life patterns, cultural survival patterns, pan-Indian movements, the Indian Reorganization Act, relocation and termination policies, and self-determination issues. (Irreg.) [IV-WC].

HIST 3653 American Jewish History 3 Credit Hours
Prerequisite: HIST 1483 or HIST 1493 or junior standing or permission of instructor. The course examines American Jewish experiences from 1654 to the present, and the ways in which Jews adapted to American life, constructed American-Jewish identities, and contributed to American politics and culture. Topics include: immigration, assimilation, gender norms, antisemitism, McCarthyism, suburbanization, the Holocaust, Israel, the civil rights movement, and political behavior, among others. (Irreg.) [IV-WC].

HIST 3663 The American Presidency & the Presidents, Washington-Trump 3 Credit Hours
Prerequisite: HIST 1483 or HIST 1493 or junior standing or permission of instructor. Provides an examination of the most important presidents in US history. Topics include the limits of presidential power, the separation of powers, leadership in war and peace, and the changing role of political parties, the press, and campaign contributions in shaping the office and those who fill it. (Irreg.) [IV-WC].

HIST 3673 Arguing over America, 1917-2001 3 Credit Hours
Prerequisite: HIST 1483 or HIST 1493 or junior standing or permission of instructor. Examines how Americans argued over the nature of contemporary American society and culture, especially as applied to minority groups, from World War I until 9/11. (Irreg.) [IV-WC].

HIST 3683 Capitalism and Socialism 3 Credit Hours
Prerequisite: ENGL/EXPO 1213 or junior standing or permission of instructor. This course will focus on the development of socialism and capitalism in Europe and the United States. We study ideas and practice--the vision and the reality-of the two systems, examining their implications for economic and political organization, class and family relationships, and culture broadly defined. (Irreg.) [IV-WC].

HIST 3690 Topics in Latin American History 1-5 Credit Hours
1 to 5 hours. May be repeated for credit with change of content. Discussion of a selected special problem or problems in the history of Latin America. (F)

HIST 3693 Spanish Borderlands 3 Credit Hours
Prerequisite: ENGL 1213 or EXPO 1213. Examines the region made up roughly of what are now the states of California (Baja and Alta), Arizona, New Mexico, Texas, Chihuahua, Coahuila, and Sonora; the colonial period. The peoples of the Southwest have responded to the challenges of coexistence both through violence and creative mutual adaptation. Students will gain knowledge of the varieties of colonial experience in the region. (Irreg.) [IV-WDC].

HIST 3703 Native Peoples of Latin America 3 Credit Hours
Prerequisite: ENGL 1213 or EXPO 1213. Explores the history of Latin America's indigenous peasantry and the issue of ethnicity in the modern world. Focus is on the people of Mexico, Guatemala, Peru and Brazil. (Irreg.) [IV-WDC].

HIST 3713 History of Mexico, 1800-Present 3 Credit Hours
Explores the history of Mexico from independence to the present. Particular attention is paid to the issues of statebuilding, dependency, revolution, and post-revolutionary change. (Irreg.) [IV-WC].

HIST 3723 Africa Since 1945 3 Credit Hours
(Crosslisted with AFAM 3723) Prerequisite: ENGL 1213 or EXPO 1213. Thematically and chronologically examines social, political, cultural and economic developments in Africa from the end of World War II to the contemporary period. The growth of millenarian religious movements, nationalism, decolonization, and the post-colonial nation states are among the topics examined. (Irreg.) [IV-WDC].

HIST 3733 History of Heaven and Hell in Judaism and Christianity 3 Credit Hours
Prerequisite: junior standing or permission of instructor. Traces the evolution of the concept of the afterlife, eternal reward and punishment in Judaism and Christianity from late Antiquity to the high Middle Ages. (Irreg.) [IV-WC].

HIST 3743 African-American History to 1877 3 Credit Hours
(Crosslisted with AFAM 3743) Prerequisite: HIST 1483 or HIST 1493 or junior standing or permission of instructor. Traces the history of African-Americans from their African origins to the end of the Reconstruction of the southern United States in 1877. (Irreg.) [IV-WC].

HIST 3753 African-American History Since 1877 3 Credit Hours
(Crosslisted with AFAM 3753) Prerequisite: HIST 1483 or HIST 1493 or junior standing or permission of instructor. Considers African-American history in its national and international contexts from the post-emancipation South until the twentieth century. Topics include the African-American political traditions and activism. (Irreg.) [IV-WC].

HIST 3763 Genesis Through Jewish Eyes 3 Credit Hours
Prerequisite: junior standing or permission of instructor. Through a close reading of Genesis and its Jewish interpreters, this class takes one mode of reading to ask: How a minority tradition understands key passages, terms & theologies. It also addresses how deducing the Bible's message depends on one's own presuppositions, and how another tradition can enhance one's own reading of Scripture. (Irreg.) [IV-WC].

HIST 3773 Jews and Christians--Middle Ages 3 Credit Hours
Prerequisite: HIST 1113 or HIST 1223 or HIST 1613 or junior standing or permission of instructor. Traces the development of the relationship between the Jewish minority and the Christian majority in medieval Europe, from the fifth century to the early modern period. Discusses how Jews and Christians dealt with and imagined each other. (Irreg.) [IV-WC].

HIST 3783 Slavery and the Atlantic World 3 Credit Hours
(Crosslisted with AFAM 3783) Prerequisite: HIST 1483 or HIST 1493 or equivalent. Exploring Atlantic slavery from the 15th to 19th centuries, and moving from Africa to the Caribbean to the colonies of the Americas, this course centers the lives and voices of the enslaved. We also explore the growth of the Atlantic slave trade, how early modern people thought about racial difference, anti-slavery activism, and the challenges of studying this history. (Irreg.) [IV-WC].

HIST 3793 Imperial Russia 3 Credit Hours
A study of the origins and growth of the Russian Empire, origins and development of autocracy and serfdom, Russia's emergence as a great power, its reforms and revolutions. (Sp, Su) [IV-WC].

HIST 3803 The Era of the Russian Revolutions 3 Credit Hours
Deals specifically with the conditions and events of change in Russia between 1905 and 1921. Seeks to take into account the broad questions of industrialization and backwardness, the popular responses to these matters and the rise of radical groups. Beyond this setting, major attention will be placed on the dissolution of the old regime during World War I and the two revolutions of March and November 1917, as well as the civil wars and the NEP. (Sp)

HIST 3813 Twentieth-Century Russian History 3 Credit Hours
Detailed study of political, social, cultural and economic developments in the Soviet Union in world affairs. (F) [IV-WC].

HIST 3823 Law and Punishment 3 Credit Hours
Prerequisite: junior standing or permission of instructor. Examines how four ancient polities--classical Athens, imperial Rome, early China,and the Hebrew tribes, as represented in the Hebrew Bible--meted out, and justified, punishment. Where possible, we willprobe contemporary debates about punishment, but we will also closely scrutinize portions of the still extant codes and commandments from these polities relating to various criminal activities of interest. (Irreg.) [IV-WC].

HIST 3833 Archaeology of the Lands of the Bible 3 Credit Hours
(Crosslisted with RELS 3833) Prerequisite: junior standing. Examines the lands, cultures, and people associated with the Hebrew Bible and the New Testament through a chronological survey of archaeological evidence and investigates the relationship between archaeology and biblical texts. The course also investigates archaeological evidence for Jewish and Christian practices in late Roman Palestine as well as archaeological and architectural evidence for early Islamic Jerusalem. (Sp) [IV-WC].

HIST 3843 Latin American Independence 1750-1880 3 Credit Hours
(Crosslisted with IAS 3843) Prerequisite: HIST 2613 or HIST 2623 or junior standing or permission of instructor. Covers history of Latin America from the crisis and dissolution of the Iberian empires through the consolidation of independent republics, a period bridging the colonial and modern periods in the region's history. (Irreg.) [IV-WC].

HIST 3853 Japan to 1850 3 Credit Hours
Prerequisite: ENGL 1213 or EXPO 1213. Traces the history of Japan beginning with the earliest Jomon and Yayoi cultures and ending with the unraveling of the last feudal regime in the nineteenth century. (Irreg.) [IV-WDC].

HIST 3863 Japan Since 1850 3 Credit Hours
Prerequisite: ENGL 1213 or EXPO 1213. Designed to introduce students to the history of Japan from the 1850's to the present. Will include the Meiji restoration, industrial development, imperial expansion, wartime mobilization, the U.S. occupation, economic recovery and high growth, and the changing political and popular culture of the 1980s and 1990s. (Irreg.) [IV-WDC].

HIST 3873 Early Imperial China 3 Credit Hours
Prerequisite: ENGL 1213 or EXPO 1213. The cultural, political, economic, and social transformations China underwent during the period from the Sui to the Song dynasties. (Alt. F) (Irreg.) [IV-WDC].

HIST 3883 Late Imperial China 3 Credit Hours
Prerequisite: ENGL 1213 or EXPO 1213. The cultural, political, economic, and social transformations China underwent during the rule of its later dynasties from the 13th-century Mongol conquest to the final struggles and collapse of China's existence as an empire with the Revolution of 1911. (Irreg.) [IV-WDC].

HIST 3893 Greek Religion 3 Credit Hours
(Crosslisted with RELS 3893) Prerequisite: junior standing or permission of instructor. Examines the religious rituals, beliefs, and sacred sites of the ancient Greeks. Considers such topics as the relationship between myths and ritual, sacred time and space, concepts of the afterlife, and the role of religion in the family and city-state. (Irreg.)

HIST 3903 Global Islam 3 Credit Hours
Prerequisite: ENGL 1213 or EXPO 1213 or HIST 1923 or permission of instructor. Islam is one of the largest religions in the world. This course will introduce students to how Islam adapted to different societies and shaped our world in the past and present. Topics covered include the Quran and the Prophet, Islamic law, the spread of Islam in and beyond the Middle East, and popular misconceptions about Islam. (Irreg.) [IV-WDC].

HIST 3913 Jews & Hollywood 3 Credit Hours
Prerequisite: HIST 1483 or HIST 1493 or junior standing or permission of instructor. This class examines how Jewish immigrants helped found the motion picture industry; the role of Jews in the industry as it evolved over the course of the 20th century; the representation (and invisibility) of Jews on film; how that representation has changed over time; and how Americans have interpreted the large presence of Jews in the American film industry. (Irreg.) [IV-WC].

HIST 3923 China Since 1911 3 Credit Hours
Prerequisite: ENGL 1213 or EXPO 1213. An examination of Chinese history since the Revolution of 1911, including the development of Republican and Communist thought, warlord rule, China's tumultuous wartime period, and the rise of the People's Republic of China (PRC). Also covers the history of the PRC, China after Mao, Taiwan and China's changing position in the world. (Irreg.) [IV-WDC].

HIST 3933 U.S. Queer History 3 Credit Hours
(Crosslisted with WGS 3933) Prerequisite: Junior standing. The last 130 years have been a time of incredible change for LBGTQ people and the meanings of sexuality in the United States. We will trace LGBTQ experience and community formation, the policing of queer communities, and the constructions of queerness in pop culture, medicine, the law, and politics, as well as how these histories inform our own time. (Irreg.) [IV-WC].

HIST 3943 Muslim Societies in Africa 3 Credit Hours
(Crosslisted with AFAM 3943) Prerequisite: ENGL 1213 or EXPO 1213. Explores the history, nature, and dynamics of Islam in Africa -- Early Islam; Muslin Societies/Groups; Islamic fundamentalism; Women and Islam; Religious practices/education; prayers/rituals; Africanization of Islam. (Irreg.) [IV-WDC].

HIST 3950 Topics in Middle Eastern History 1-3 Credit Hours
1 to 3 hours. Prerequisite: junior standing. May be repeated with change of content; maximum credit nine hours. Discussion of a selected problem or problems in Middle Eastern history. (Irreg.)

HIST 3953 The Modern Middle East 3 Credit Hours
Prerequisite: ENGL 1213 or EXPO 1213. Explores the political and social history of the modern countries of Egypt, Iraq, Israel, Jordan, Lebanon, Saudi Arabia, Syria and Turkey and areas affected by them from 1500 to the present. (F) [IV-WDC].

HIST 3960 Honors Reading 1-3 Credit Hours
1 to 3 hours. Prerequisite: admission to Honors Program and permission. May be repeated; maximum credit six hours. Will consist of topics designated by the instructor in keeping with the student's major program. The topics will cover materials not usually presented in the regular courses. (F, Sp, Su)

HIST 3963 From Zionism to Modern Israel 3 Credit Hours
Prerequisite: junior standing. Examines the historical evolution of the Zionist movement in the second half of the 19th century through the establishment of the State of Israel in the mid-20th century within the framework of Jewish modernization, antisemitism, and conflicting modern nationalisms. (Irreg.) [IV-WC].

HIST 3970 Honors Seminar 1-3 Credit Hours
1 to 3 hours. Prerequisite: admission to Honors Program. May be repeated; maximum credit six hours. The projects covered will vary. The content will deal with concepts not usually presented in regular coursework. (Sp, Su)

HIST 3973 Judaism - A Religious History 3 Credit Hours
Prerequisite: ENGL 1213 or EXPO 1213. Introductory survey of Judaism from its earliest origins in the ancient Near East to the present. Development of ideas, forms of worship, and religious expression as well as sectarian trends and variations will be examined. (Irreg.) [IV-WDC].

HIST 3980 Honors Research 1-3 Credit Hours
1 to 3 hours. Prerequisite: admission to Honors Program. May be repeated; maximum credit six hours. Provides an opportunity for the gifted Honors candidate to work at a special project in the student's field. (F, Sp, Su)

HIST 3990 Independent Study 1-3 Credit Hours
1 to 3 hours. Prerequisite: permission of instructor and junior standing. May be repeated once with change of content. Independent study may be arranged to study a subject not available through regular course offerings. (F, Sp, Su)

HIST 3993 The Evolution of Martyrdom in the Judeo-Christian Civilization 3 Credit Hours
Prerequisite: junior standing. Traces the historical development of martyrdom in Judaism and Christianity to understand what motivated individuals and communities to give up their lives for their convictions. Compare the evolution of the idea of martyrdom in Judaism and Christianity to identify differences and similarities between these two faiths. (Irreg.) [IV-WC].

HIST 4003 Jews and Other Germans 3 Credit Hours
Prerequisite: Junior standing or permission of instructor. Discusses the history and culture of the Jews in Germany from 1750 until the Nazi period. Focuses on the internal dimension of the German-Jewish experience and analyze the contribution of Jews to the German culture. (Irreg.) [IV-WC].

HIST 4023 Inquisitions 3 Credit Hours
Prerequisite: 1223 or 1233 or junior standing or permission of the instructor. Examines the historical roots of inquisitions in order to better understand how they have shaped modern conflicts. The mechanisms people used for disciplining themselves, for imposing control on others, and for evaluating who has the right to participate in society reveals people's fears, priorities, and weaknesses. (Irreg.) [IV-WC].

HIST 4053 History of Magic 3 Credit Hours
(Crosslisted with HSTM and RELS 4053) Prerequisite: Junior standing or permission of instructor. This course is an investigation of the category of magic, magical practices, and the place of magic in society from antiquity to the modern world. (Irreg.) [IV-WC].

HIST 4073 Cultural Heritage Data and Social Engagement 3 Credit Hours
(Slashlisted with HIST 5073; Crosslisted with WGS, HSTM and LIS 4073) Prerequisite: Junior standing. This course uses methods from digital humanities, media studies, and data science to explore cultural heritage -- the histories, literature, art, and artifacts of our world's cultures. It particularly focuses on cultural heritage in digital public spaces: websites, social media, etc. No prior background in computer programming is necessary. No student may earn credit for both 4073 and 5073. (F)

HIST 4083 Museums, Monuments, Memory 3 Credit Hours
Prerequisite: HIST 1223 or HIST 1233 or HIST 1613 or HIST 1623 or HIST 1923 or junior standing or permission of instructor. Globally oriented course that explores how national and ethnic memory play a key role in the formation of social and cultural identities. Emphasis is placed on rituals, "sites of memory," monuments, museums and their publics. (Irreg.)

HIST 4203 Classical China 3 Credit Hours
Prerequisite: ENGL 1213 or EXPO 1213. Examines the roots of Chinese civilization, from its pre-historical origins through its emergence as a formidable empire to its devolution during a lengthy period of civil war after the end of the Han dynasty. (Irreg.) [IV-WDC].

HIST 4213 China's Art of War 3 Credit Hours
Prerequisite: ENGL 1213 or EXPO 1213. Scope of course is both the theory and practice of warfare in China's pre-modern eras; discussion of some of the most renowned texts on military strategy, and the theoretical issues that are involved in strategizing about and preparing for war. Study of the cause and effect of various wars from the earliest periods to just before the modern period. (Irreg.) [IV-WDC].

HIST 4313 American Foreign Policy, 1900-45 3 Credit Hours
Prerequisite: HIST 1483 or HIST 1493 or junior standing or permission of instructor. Explores the globalization of American foreign relations, from the origins of late 19th century expansion to the diplomacy culminating in the creation of the United Nations at the end of World War II. (Irreg.) [IV-WC].

HIST 4343 The Vietnam War 3 Credit Hours
Prerequisites: 1483 or 1493 or junior standing or permission of instructor. This course explores the origins of the Vietnam War, how the United States waged the war, the impact of the war on American culture, and the meaning of the United States defeat in Vietnam. (Irreg.) [IV-WC].

HIST 4453 American Military History 1860-Present 3 Credit Hours
Prerequisite: HIST 1483 or HIST 1493 or junior standing or permission of instructor. Explores United States military history from the Civil War through the modern age. With a special emphasis on politics, culture, and rapidly changing technology, this class focuses on the evolution of the American way of war as well as the transformative nature of war on the nation. (Irreg.)

HIST 4493 Africa and the Atlantic Slave Trade 3 Credit Hours
(Crosslisted with AFAM 4493) Prerequisite: ENGL 1213 or EXPO 1213. About the changing nature of slavery in and the impact of slave trading on Africans in their homelands and in the diaspora. Origins in Africa; rise of the Atlantic trade; impact of the trade; middle passage, etc. (Irreg.) [IV-WDC].

HIST 4513 Intellectuals & Artists in Modern Latin America 3 Credit Hours
(Crosslisted with IAS 4513) Prerequisite: 2613 or 2623 or junior standing or permission of instructor. Examines both the history of ideas in modern Latin America as well as the history of intellectuals as a social group. We will consider intellectuals in the process of independence and the consolidation of nation states, the role of "race" in Latin American thought, and the relationship between European and Latin American thought. (Irreg.) [IV-WC].

HIST 4523 Latin American Left 3 Credit Hours
(Crosslisted with IAS 4523) Prerequisite: 2613 or 2623 or junior standing or permission of instructor. This course examines the shifting political tactics and theoretical positions of a variety of leftist movements in Latin America since the early 20th century. We will examine leftist thought on the nature of Latin American development, approaches to commercial culture, and labor organizing, among other topics. (Irreg.) [IV-WC].

HIST 4533 Populism in 20th-Century South America 3 Credit Hours
(Crosslisted with IAS 4533) Prerequisite: 2613 or 2623 or junior standing or permission of instructor. This course examines the phenomenon of Latin American "populism," a set of political movements that held a central place in 20th-century Latin American history. We will focus on three cases as they relate to the broader economic and social processes in the region as a whole: Brazil; Argentina; and Chile. (Irreg.) [IV-WC].

HIST 4543 Latin America in the Age of the Cuban Revolution 3 Credit Hours
(Crosslisted with IAS 4543) Prerequisite: 2613 or 2623 or junior standing or permission of instructor. This course is an in-depth examination of Latin American history of the period 1955-1973. We cover changes in politics, economics, literature, film, music, and theology in what many Latin Americans called the "revolutionary process" of the period. (Irreg.) [IV-WC].

HIST 4553 Environmental History of Latin America 3 Credit Hours
Prerequisite: ENGL 1213 or EXPO 1213. Serves as a broad-based study of the environmental history of Latin America. We will examine the history of human interactions with the natural world in this region from pre-Colombian and colonial eras through contemporary times. Heavy emphasis will be placed on comparing native life-ways with the changes wrought by European colonization and the results on the land (Irreg.) [IV-WDC].

HIST 4950 History Internship 1-3 Credit Hours
1 to 3 hours. Prerequisite: History major and junior standing, and permission of instructor. May be repeated; maximum credit six hours. Allows history majors to receive credit for qualifying internships appropriate to the subject. Students who complete the course engage in service learning that focuses on historical content. (F, Sp, Su)

HIST 4960 Directed Readings 1-4 Credit Hours
1 to 4 hours. Prerequisite: good standing in University; permission of instructor and dean. May be repeated; maximum credit four hours. Designed for upper-division students who need opportunity to study a specific problem in greater depth than formal course content permits. (Irreg.)

HIST 4970 Special Topics/Seminar 1-3 Credit Hours
1 to 3 hours. Prerequisite: Senior standing or permission of instructor. May be repeated; maximum credit nine hours. Special topics or seminar course for content not currently offered in regularly scheduled courses. May include library and/or laboratory research and field projects. (Irreg.)

HIST 4973 Undergraduate Seminar in History 3 Credit Hours
Prerequisite: History majors may enroll only after completing 75 credit hours of undergraduate coursework, 24 hours of which must be history. Non-majors may enroll with permission of instructor. May be repeated with change of content; maximum credit nine hours. Extensive research in historical sources and literature relating to a special problem or topic selected by the instructor. Emphasis will be on the individual preparation of research papers. (F, Sp, Su) [V].

HIST 4990 Independent Study 1-3 Credit Hours
1 to 3 hours. Prerequisite: three courses in general area to be studied; permission of instructor and department. May be repeated; maximum credit six hours. Contracted independent study for topic not currently offered in regularly scheduled courses. Independent study may include library and/or laboratory research and field projects. (F, Sp, Su)

HIST 5001 Navigating The History Profession 1 Credit Hour
Prerequisite: graduate standing or permission of instructor. Introduction to the various fields of historical inquiry, resources for historical research, and how to navigate the history profession -- conferences, grants, the job market --and the OU graduate programs, M.A. and Ph.D. (F)

HIST 5050 Directed Readings in History 1-4 Credit Hours
Prerequisite: graduate standing. Graduate-level independent study for master's candidates only. (Irreg.)

HIST 5073 Cultural Heritage Data and Social Engagement 3 Credit Hours
(Slashlisted with HIST 4073; Crosslisted with WGS, LIS and HSTM 5073) Prerequisite: Graduate standing. This course uses methods from digital humanities, media studies, and data science to explore cultural heritage -- the histories, literature, art, and artifacts of our world's cultures. It particularly focuses on cultural heritage in digital public spaces: websites, social media, etc. No prior background in computer programming is necessary. No student may earn credit for both 4073 and 5073. (F)

HIST 5110 Independent Studies in European History 1-4 Credit Hours
1 to 4 hours. Prerequisite: permission of instructor. May be repeated with change of content; maximum credit 15 hours. Independent study, arranged between the professor and student, in the history of Europe. (F, Sp, Su)

HIST 5210 Independent Studies in American History 1-4 Credit Hours
1 to 4 hours. Prerequisite: permission of instructor. May be repeated with change of content, maximum credit 15 hours. Independent study, arranged between the professor and student, in the history of America. (F, Sp, Su)

HIST 5310 Independent Studies in Latin American History 1-4 Credit Hours
1 to 4 hours. Prerequisite: permission of instructor. May be repeated with change of content, maximum credit 15 hours. Independent study, arranged between the professor and student, in the history of Latin America. (F, Sp, Su)

HIST 5410 Independent Studies in African History 1-4 Credit Hours
1 to 4 hours. Prerequisite: permission of instructor. May be repeated with change of content; maximum credit 15 hours. Independent study, arranged between the professor and student, in the history of Africa. (F, Sp, Su)

HIST 5510 Independent Studies in Asian History 1-4 Credit Hours
1 to 4 hours. Prerequisite: permission of instructor. May be repeated with change of content; maximum credit 15 hours. Independent study, arranged between the professor and student, in the history of Asia. (F, Sp)

HIST 5960 Directed Readings 1-3 Credit Hours
1 to 3 hours. Prerequisite: graduate standing and permission of department. May be repeated; maximum credit twelve hours. Directed readings and/or literature reviews under the direction of a faculty member. (F, Sp, Su)

HIST 5970 Special Topics 1-3 Credit Hours
1 to 3 hours. Prerequisite: graduate standing or permission of instructor. May be repeated; maximum credit nine hours. Special topics or seminar course for content not currently offered in regularly scheduled courses. May include library and/or research and field projects. (Irreg.)

HIST 5980 Research for Master's Thesis 2-9 Credit Hours
Variable enrollment, two to nine hours; maximum credit applicable toward degree, four hours. (F, Sp, Su)

HIST 5990 Independent Study 1-3 Credit Hours
1 to 3 hours. Prerequisite: Graduate standing and permission of instructor. May be repeated; maximum credit nine hours. Contracted independent study for a topic not currently offered in regularly scheduled courses. Independent study may include library and/or laboratory research and field projects. (Irreg.)

HIST 6050 Research Problems 2-5 Credit Hours
2 to 5 hours. Prerequisite: 12 hours of history and permission. May be repeated with change of content; maximum credit 15 hours. An individual course of intensive research with the area and problem to be determined by the student and directing instructor. (F, Sp, Su)

HIST 6160 Advanced Readings in European History 1-4 Credit Hours
1 to 4 hours. Prerequisite: permission of instructor; student must be at Ph.D. level. May be repeated with change of content; maximum credit 15 hours. Independent study in the history of Europe; designed to give students the opportunity to do intensive readings in his/her major fields of study under direct guidance of his/her advisory committee. (F, Sp, Su)

HIST 6200 Seminar in European History 2-4 Credit Hours
2 to 4 hours. Prerequisite: Graduate standing with permission; May be repeated with change of content, maximum credit 18 hours. Training in historical research, bibliography and historiography, featuring reports and criticism. (F, Sp)

HIST 6230 Advanced Directed Readings in Medieval History 1-5 Credit Hours
1 to 5 hours. Prerequisite: master's degree or equivalent in history, reading knowledge of French and German and permission of instructor. May be repeated with change of content and permission; maximum credit 18 hours. A supervised program of readings on a selected special problem in medieval history. (F)

HIST 6260 Advanced Readings in American History 1-4 Credit Hours
1 to 4 hours. Prerequisite: permission of instructor; student must be at Ph.D. level. May be repeated with change of content; maximum credit 15 hours. Independent study in American history; designed to give students the opportunity to do intensive readings in his/her major fields of study under direct guidance of his/her advisory committee. (F, Sp)

HIST 6300 Seminar in Latin American History 1-4 Credit Hours
1 to 4 hours. Prerequisite: Graduate standing and permission; May be repeated with change of content, maximum credit 18 hours. Training in historical research, bibliography and historiography. Features reports and criticism. (Irreg.)

HIST 6360 Advanced Readings in Latin American History 1-4 Credit Hours
1 to 4 hours. Prerequisite: permission of instructor; student must be at Ph.D. level. May be repeated with change of content; maximum credit 15 hours. Independent study in Latin American history; designed to give students the opportunity to do intensive readings in his/her major fields of study under direct guidance of his/her advisory committee. (F, Sp)

HIST 6400 Seminar in American History 1-4 Credit Hours
1 to 4 hours. Prerequisite: Graduate standing with permission; May be repeated with change of content, maximum credit 24 hours. Training in historical research, bibliography and historiography. Features reports and criticism. (F, Sp)

HIST 6460 Advanced Readings in African History 1-4 Credit Hours
1 to 4 hours. Prerequisite: permission of instructor; student must be at Ph.D. level. May be repeated with change of content; maximum credit 15 hours. Independent study in African history; designed to give students the opportunity to do intensive readings in his/her major fields of study under direct guidance of his/her advisory committee. (F, Sp)

HIST 6500 Seminar in Transnational Women's and Gender History 1-4 Credit Hours
1 to 4 hours. Prerequisite: Graduate standing; May be repeated with change of content; maximum credits 8 hours. The course introduces students to the theoretical foundations and research methods in transnational women's and gender history. Students will develop competency in feminist theories and build expertise in the historiographies of women and gender in their subfields. (Irreg.)

HIST 6560 Advanced Readings in Asian History 1-4 Credit Hours
1 to 4 hours. Prerequisite: permission of instructor; student must be at Ph.D. level. May be repeated with change of content; maximum credit 15 hours. Independent study in Asian history; designed to give students the opportunity to do intensive readings in his/her major fields of study under direct guidance of his/her advisory committee. (F, Sp, Su)

HIST 6600 Seminar in Middle Eastern History 1-4 Credit Hours
1 to 4 hours. Prerequisite: graduate standing with permission. May be repeated with change of content; maximum credit 12 hours. Training in historical research, bibliography and historiography. Features reports and criticism. (Irreg.)

HIST 6700 Seminar in Transnational History 1-4 Credit Hours
1 to 4 hours. Prerequisite: graduate standing. May be repeated with change of content; maximum credit nine hours. The course aims to engage the histories and legacies of nationalism, colonialism, and other transnational historical phenomena. Particular emphasis will be given to discussing national, transnational, and colonial systems and how those systems shaped identities, race, ethnicities, national and transnational dynamics, and created transnational subjectivities. (Irreg.)

HIST 6800 Seminar in Modern Japanese History 1-4 Credit Hours
1 to 4 hours. Prerequisite: graduate standing with permission. May be repeated with change of content; maximum credit 12 hours. Training in historical research, bibliography, and historiography. Features reports and criticism. (Irreg.)

HIST 6880 Readings and Research in Public History 1-4 Credit Hours
1 to 4 hours. Prerequisite: Graduate standing; May be repeated with change of content; maximum credits 8 hours. This course introduces the practice of public history. Students will meet with practicing public historians; have a reasonable writing component with relatively brief individual assignments across the semester; and work in teams with a client and produce a final product that addresses the client's needs and a final report that summarizes the team's objectives, research strategies, challenges, and conclusions. (Irreg.)

HIST 6960 Directed Readings 1-3 Credit Hours
1 to 3 hours. Prerequisite: graduate standing or permission of instructor. May be repeated; maximum credit six hours. Directed readings and/or literature review under the direction of a faculty member. (Irreg.)

HIST 6970 Special Topics 1-3 Credit Hours
1 to 3 hours. Prerequisite: graduate standing or permission of instructor. May be repeated; maximum credit 12 hours. Special topics or seminar course for content not currently offered in regularly scheduled courses. May include library and/or research and field projects. (Irreg.)

HIST 6980 Research for Doctoral Dissertation 2-16 Credit Hours
2 to 16 hours. Prerequisite: Graduate standing and permission of instructor; may be repeated. Directed research culminating in the completion of the doctoral dissertation. (F, Sp, Su)

HIST 6990 Independent Study 1-3 Credit Hours
1 to 3 hours. Prerequisite: Graduate standing and permission of instructor. May be repeated; maximum credit nine hours. Contracted independent study for a topic not currently offered in regularly scheduled courses. Independent study may include library and/or laboratory research and field projects. (Irreg.)

Wickersham	Jane	K	2006	ASSOCIATE PROFESSOR OF HISTORY, 2012; ADJUNCT ASSOCIATE PROFESSOR OF LIBERAL STUDIES, 2010	PhD, 2004, AND MA , 1997, Indiana University; BA, University of Georgia, 1994

History, B.A.

Minimum Total Credit Hours: 120
Major Hours: 36
Minimum Upper-Division Hours: 48

Overall GPA - Combined and OU: 2.00
Major GPA - Combined and OU: 2.00

Program Code: B505

Major Requirements

- **Some courses required for the major may also fulfill University General Education and/or Dodge College of Arts & Sciences Requirements.**

Code	Title	Credit Hours
Required Surveys		
HIST 1483	United States to 1865	3
or HIST 1493	United States, 1865 to the Present	
HIST 2573	The History Sleuth	3
Lower-Division Survey Requirements		
Choose one course each from three of the following categories: (p. 427)		9
Premodern Western Civilization		
Modern Western Civilization		
Premodern Non-Western Civilization		
Modern Non-Western Civilization		
Additional History Requirements		
Choose 21 elective hours, which must include at least one Colloquium course and one Capstone course: [1,2]		21
HIST 3573	Special Topics Colloquium	
HIST 4973	Undergraduate Seminar in History (Senior Capstone)	
Total Credit Hours		**36**

1 21 major elective hours of HIST courses at the 2000-level or above. At least 15 of these hours must be taken at OU at the 3000-level or above. *Fifteen (15) of these hours must be taught by History Department faculty. Six (6) of these hours may be taught by affiliated faculty in other departments.*
Fifteen (15) of these hours must fall within a departmentally approved geographic or thematic field. Lists of fields and of the courses approved for each field may be obtained in the History Department or on the departmental website.

2 A 2000-level course that has been used to fulfill a survey requirement can not be used toward the 21 additional history requirements hours.

Lower-Division Survey Requirement Courses

PREMODERN WESTERN CIVILIZATION

Code	Title	Credit Hours
HIST 1113	History of Medieval Europe	3
HIST 1613	Western Civilization I	3

MODERN WESTERN CIVILIZATION

Code	Title	Credit Hours
HIST 1223	Europe, 1500 to 1815	3
HIST 1233	Europe since 1815	3
HIST 1563	The Jews: From Abraham to Zionism	3
HIST 1623	Western Civilization II	3

PREMODERN NON-WESTERN CIVILIZATION

Code	Title	Credit Hours
HIST 1723	East Asia to 1600	3
HIST 2013	Ancient Near Eastern Civilizations	3
HIST 2613	Colonial Hispanic American History, 1492-1810	3

HIST 1733	East Asia Since 1600	3
HIST 1923	World Civilization 1600-Present	3
HIST 2623	Modern Latin America 1810-Present	3
HIST 2703	African Societies and Cultures	3
HIST 2713	Survey of African Civilization	3

General Education and College Requirements

Courses for fulfillment of General Education and Dodge College of Arts & Sciences requirements must be from the approved General Education course list published in the Class Schedule or at http://www.ou.edu/gened/courses. **Courses graded P/NP will not apply.**

MINIMUM OF 40 HOURS REQUIRED FOR UNIVERSITY-WIDE GENERAL EDUCATION

Code	Title	Credit Hours
Core Area I: Symbolic and Oral Communication		
English Composition (6 hours)		
ENGL 1113	Principles of English Composition	3
ENGL 1213	Principles of English Composition	3
or EXPO 1213	Expository Writing	
Language (0-13 hours in the same language)		
The college requirement cannot be met by high school coursework.		
Beginning Course		0-5
Beginning Course, continued		0-5
Intermediate Course (2000 level) [1,2]		0-3
Mathematics (3 hours)		
Choose one course from the General Education Mathematics list		3
Core Area II: Natural Science (7 hours, including one laboratory component)		
Biological Science		

Choose an approved General Education Natural Science course with one of the following prefixes: BIOL, HES, MBIO, or PBIO [1]		3-4
Physical Science		
Choose an approved General Education Natural Science course with one of the following prefixes: AGSC, ASTR, CHEM, GEOG, GEOL, GPHY, METR, or PHYS [1]		3-4
Core Area III: Social Science (6 hours)		
P SC 1113	American Federal Government	3
Choose one course from the General Education Social Science list		3
Core Area IV: Arts and Humanities (18 hours)		
Artistic Forms		
Choose one course from the General Education Artistic Forms list		3
Western Culture		
HIST 1483	United States to 1865	3
or HIST 1493	United States, 1865 to the Present	
Choose one course from the General Education Western Culture list (excluding HIST 1483/1493)		3
World Culture		
Choose one course from the General Education World Culture list		3
Additional Core IV Upper-Division Arts & Humanities courses		
Choose one course from Artistic Forms, Western Culture, or World Culture [1,3]		3
Choose one course from Artistic Forms, Western Culture, or World Culture [1,3]		3
Core Area V: First Year Experience (3 hours)		
Choose one course		3
Total Credit Hours		**56**

1 College of Arts and Sciences Requirements: college requirements are not automatically fulfilled by a previous degree.

2 One course at the intermediate level or demonstrated competency at that level

3 6 upper-division hours, 2 courses, at the 3000- 4000-level. ***Must be outside the major.***

Free Electives

Electives to bring total applicable hours to the minimum total required for the degree including 48 upper-division hours.

Information Concerning General Rules, Regulations and Minimum Requirements

Arts and Sciences Hours: At least 80 semester hours of liberal arts and sciences courses are required for a BA degree. At least 55 semester hours of liberal arts and sciences courses are required for a BS degree.
Pass/No Pass Enrollment: A maximum of 16 semester hours of free elective credit may be attempted under this option.
Individual Studies (e.g., courses titled "Independent Study"): A maximum of 12 total semester hours may be counted toward graduation, excluding Honors Reading and Honors Research.
P.E. Courses: No physical education activity courses will be counted toward the 120 semester hours of acceptable credit for graduation.
Senior Institution Hours: A minimum of 60 semester hours applied toward graduation must be earned at senior (4-year) institutions.
Residency:

- At least 15 of the final 30 hours applied toward the degree or at least 50 percent of the hours required by the institution in the major field must be satisfactorily completed at the awarding institution.
- At least 15 semester hours of upper-division major work must be completed in residence at OU.
- OU correspondence courses are ***not*** considered resident credit.

Grade Point Averages: Students must earn a minimum over all 2.00 for each of the following: Combined Retention GPA (all college grades), OU Retention GPA, GPA for all major courses, and GPA for all major courses taken at OU. Some schools and departments of the College have higher minimum grade point averages required for their students.

Suggested Semester Plan of Study

This plan shows one possible grouping of courses that would allow students to graduate in four years. Please refer to the front of the degree checksheet for official requirements. Students must consult with Dodge College of Arts and Sciences and/or Department of History academic advisors to verify that courses selected each semester fulfill the recommended plan and satisfy University, College of Arts and Sciences, and History major requirements.

Freshman		
First Semester		**Credit Hours**
ENGL 1113	Principles of English Composition (Core I)	3
HIST 1483	United States to 1865 (Core IV)	3
or HIST 1493	or United States, 1865 to the Present	
First Year Experience (Core V)		3
Math (Core I)		3
Beginning Language (Core I)		5
	Credit Hours	**17**
Second Semester		
ENGL 1213	Principles of English Composition (Core I)	3
or EXPO 1213	or Expository Writing	
P SC 1113	American Federal Government (Core III)	3
Beginning Language continued (Core I)		5
Natural Science with lab (Core II)		4
	Credit Hours	**15**
Sophomore		
First Semester		
HIST 2573	The History Sleuth	3
HIST II. Additional Survey Requirement [1]		3
HIST II. Additional Survey Requirement [1]		3
Intermediate Language		3
Free Elective, lower-division		1
	Credit Hours	**13**
Second Semester		
HIST II. Additional Survey Requirement [1]		3
Natural Science without lab (Core II)		3
Social Science (Core III)		3
Artistic Forms (Core IV)		3

Free Elective, lower- or upper-division		3
Credit Hours		**15**
Junior		
First Semester		
HIST III. Additional History Requirement [2]		3
HIST III. Additional History Requirement [2]		3
HIST III. Additional History Requirement [2]		3
Free Elective, upper-division (3000-4000-level)		3
Free Elective, upper-division (3000-4000-level)		3
Credit Hours		**15**
Second Semester		
HIST 3573	Special Topics Colloquium [2]	3
HIST III. Additional History Requirement, upper-division [2]		3
Free Elective, upper-division (3000-4000-level)		3
Free Elective, upper-division (3000-4000-level)		3
Free Elective, upper-division (3000-4000-level)		3
Credit Hours		**15**
Senior		
First Semester		
HIST III. Additional History Requirement, upper-division [2]		3
Arts & Humanities, upper-division, outside major (Gen. Ed.)		3
Free Elective, lower- or upper-division		3
Free Elective, upper-division (3000-4000-level)		3
Free Elective, upper-division (3000-4000-level)		3
Credit Hours		**15**
Second Semester		
HIST 4973	Undergraduate Seminar in History	3
Arts & Humanities, upper-division, outside major (Gen. Ed.)		3
Free Elective, lower- or upper-division		3
Free Elective, upper-division (3000-4000-level)		3
Free Elective, upper-division (3000-4000-level)		3
Credit Hours		**15**
Total Credit Hours		**120**

1 At least one of these courses must be an approved World Culture General Education course and selected from the survey requirement course lists.

2 Twenty-one major elective hours of HIST courses at the 2000-level or above. At least 15 of these hours must be taken at OU at the 3000-level or above. **These hours must include at least one Colloquium (**HIST 3573**) and a Senior Capstone Seminar (**HIST 4973**).** Fifteen (15) of these hours must fall within a departmentally approved geographic or thematic field. Lists of fields and of the courses approved for each field may be obtained in the History Department or on the departmental website

History, Minor

Minimum Total Credit Hours: 15
Minimum Upper-Division Hours: 9

Program Code: N505

- **The requirements for a minor must be completed concurrently with the major degree requirements.**
- **No minor may be added by completing courses after receiving the bachelor's degree.**

At least six (6) credit hours must be earned in courses acceptable for residence credit by standards set forth by the Dodge College of Arts and Sciences, excluding transfer, correspondence, and examination (AP, CLEP, Advanced Standing) credit. Courses for the minor may not be taken Pass/No Pass.

No single course may be used by a student to satisfy a major requirement and a minor requirement. A course may be used, however, to satisfy both a major support requirement and a minor requirement.

Requests to substitute a minor requirement must be approved in writing by the Department of History.

Required Courses

Students must successfully complete at least 15 hours of courses acceptable for major credit in History, including at least nine (9) hours at the upper-division level. The US History survey course (HIST 1483 or HIST 1493) taken for Gen Ed credit can be counted toward this total.

Code	Title	Credit Hours
Choose at least 15 hours of courses acceptable for major credit in History, including at least 9 hours at the upper-division level		15
Total Credit Hours		**15**

- Minors in the Dodge College of Arts & Sciences are available to all undergraduate students at OU. If the minor is officially declared, successfully completed, and noted on the graduation application, the student's transcript will so indicate at the time the bachelor's degree is posted.

History, M.A.

Minimum Total Hours (Thesis): 30
Minimum Total Hours (Non-Thesis): 34

Program Code: M505

Required Courses

Thesis Option

Code	Title	Credit Hours
Required Course		
HIST 5001	Navigating The History Profession	1
Core Courses		
Choose four courses in the student's major field, one course of which must be a research seminar		12
Choose three courses in a minor or comparative field		9
HIST 5980	Research for Master's Thesis	5
Electives		
Choose one elective course		3
Total Credit Hours		**30**

Notes: For thesis students coursework should include at least five graduate seminars (from HIST 6200, HIST 6300, HIST 6400,

HIST 6700, HIST 6800 or HIST 6880; 3 hours each, total of 15); remaining 9 hours may be other graduate courses or directed readings. 9-12 hours of graduate coursework can be substituted for the seminar requirement with the approval of the Graduate Studies Committee.

Non-Thesis Option

Code	Title	Credit Hours
Required Course		
HIST 5001	Navigating The History Profession	1
Core Courses		
Choose six or seven graduate courses (3 hours each), including one that must be a research seminar in the student's major field		18-21
Choose three or four courses in a minor or comparative field		9-12
Electives		
Choose at least one elective course which may be in a cognate field like Education [1]		3-6
Total Credit Hours		**34**

[1] There could be more than one course required if the student elects to take fewer courses in the major or minor history fields.

General Requirements for all Master's Degrees

The master's degree requires the equivalent of *at least* two semesters of satisfactory graduate work and additional work as may be prescribed for the degree.

All coursework applied to the master's degree must carry graduate credit.

Master's degree programs which require a thesis consist of *at least* 30 credit hours. All non-thesis master's degree programs require *at least* 30 credit hours.

Credit transferred from other institutions must meet specific criteria and is subject to certain limitations.

Courses completed through correspondence study may *not* be applied to the master's degree.

To qualify for a graduate degree, students must achieve an overall grade point average of 3.0 or higher in the degree program coursework and in all resident graduate coursework attempted. A student must also have at least a 3.0 in all coursework (including undergraduate coursework if any).

Additional information for master's degree students may be found in the Graduate College Bulletin.

History, Ph.D.

Minimum Total Hours: 90

Program Code: D505

Program Requirements

- Students must demonstrate a reading competency in at least one language other than English, as determined by the student's major professor and advisory committee. Competency may be demonstrated through successful completion of undergraduate language courses or reading examinations or by other methods as approved by the graduate liaison.

Code	Title	Credit Hours
30 credit hours of elective credits and/or Master's credit hours from an accredited university (26-36 credit hours may be accepted with the approval of the Graduate Studies Committee)		30
HIST 5001	Navigating The History Profession	1
Three courses (9 hours) in Specialized Field [1]		9
Three courses (9 hours) in Comparative Field [1]		9
Three courses (9 hours) in General Area Field [1]		9
HIST 6050	Research Problems	3
HIST 6980	Research for Doctoral Dissertation [2]	29
Total Credit Hours		**90**

[1] Six of the nine required Field courses (18 of the 27 hours) must be seminars from this list: HIST 6200, HIST 6300, HIST 6400, HIST 6700, HIST 6800, HIST 6880. Of these 6 required seminar courses, a minimum of three courses (at least one in each of the three fields) must be taken during the doctoral program. Others may be transferred from a completed OU MA degree. This transfer applies only to the PhD seminar requirement, and does not change the total number of credit hours required for the PhD. A maximum of 9 hours of graduate coursework can be substituted for the seminar requirement with the approval of the Graduate Studies Committee.

[2] Between 23-33 Dissertation hours may be accepted with the approval of the Graduate Studies Committee.

General Requirements for Doctoral Degrees

A student should expect to spend at least the equivalent of three full academic years beyond the bachelor's degree to obtain the doctoral degree. During this period the student will take appropriate graduate coursework, successfully complete the general examination, and successfully defend and submit the final dissertation.

All coursework applied to the doctoral degree must carry graduate credit.

The doctoral degree requires at least 90 post-baccalaureate hours, including both formal coursework and hours of research.

The minimum hour requirement for a specific doctoral degree program cannot be waived.

No more than one-half of the credit hours, both OU and overall, excluding Research for Doctoral Dissertation (6980), may be *S/U*-graded coursework.

The student must be in residence at OU for at least two consecutive 16-week semesters during the pursuit of the doctoral degree while enrolled and engaged in coursework or research activities as prescribed by the major academic unit.

For more detailed regulations and requirements for Doctoral degrees, please consult the Graduate College Bulletin: http://www.ou.edu/gradcollege/forms/bulletin

General Information

The History of Science, Technology, and Medicine Department was established in 1971 by the University President's Committee on the History of Science. Since its inception, the program has been closely tied to the History of Science Collections in the University Libraries, which dates from a gift of rare books by University of Oklahoma alumnus Everette L. DeGolyer. In 1954 Duane H. D. Roller became the first Curator of the Collections (then called the DeGolyer Collection), and Professor Roller presided over the growth of an undergraduate and graduate teaching program in history of science. Since this beginning, the history of science program at the University of Oklahoma has grown to ten faculty members appointed in the department, along with one faculty in the History of Science Collections, two faculty in the Honors College, and two in the History Department, teaching a program of undergraduate courses and conferring master's and doctoral degrees. The department's mission is three-fold: to offer instruction to undergraduates; to offer instruction and guidance for graduate students; and to contribute to research in the history of science.

Our graduate program, established in 1954, is specifically designed for students who are interested in research and teaching careers in higher education, or professional positions in specialized libraries, museums, and other institutions. Students work closely with faculty in a graduate training program designed to produce historians who are scholarly, productive in research, effective in the classroom, and who have high standards of professional conduct and responsibility. Students are encouraged to adapt program materials to the wider discipline of the history of science.

Since 1983 students have had the opportunity to complete requirements for a Minor in the History of Science. In 2011, the BA in the History of Science, Technology and Medicine was approved, thereby offering OU students an undergraduate program in which to inquire into the development of scientific thought from its origins in the cultural and intellectual efforts of the ancient civilizations of Egypt, Mesopotamia, Greece and Rome, through the Islamic and Christian civilizations of the Middle Ages, to the modern period. History of science courses place strong emphasis upon both the internal growth of scientific ideas and their development within the wider political, social, economic, religious, and cultural context of Western history.

Programs & Facilities

History of Science Collections

The History of Science Collections, located on the 5th floor of Bizzell Memorial Library, is a premier research collection in its field. Holdings of nearly 100,000 volumes from every field and subject area of science, technology and medicine range chronologically from Hrabanus Maurus, *Opus de universo* (1467) to current publications in the history of science. The Darwin collection consists of all of Darwin's works in their first editions and several autographed letters, as well as hundreds of subsequent editions and translations.

OU Lynx

The educational arm of the History of Science Collections of OU Libraries is the OU Academy of the Lynx. We seek to collaborate with educators in exhibit-based learning by creating, field-testing and sharing Open Educational Resources (OER's). We invite researchers, graduate students, and others to join us as a participating educator, museum worker, amateur astronomer, student, scholar, sponsor or docent.

Programs for Academic Excellence

The history of science has been designated an area of future emphasis within the Dodge College of Arts and Sciences, in the University's Strategy for Excellence. The foundations of the University's commitment to emphasis in this field are the superb History of Science Collections and a department of twelve historians of science dedicated to a comprehensive program of teaching and research.

Through a generous endowment made by the Andrew W. Mellon Foundation, the History of Science program provides travel fellowships for visitors to make use of its resources for research in the history of science. In addition to working in the Collections, visiting fellows interact with students and faculty in the program and frequently present the results of their research to the university community.

Scholarships and Financial Aid

The Department of History of Science offers the undergraduate **Corliss E. and Esther C. Livesey Endowed Scholarship** carrying a cash stipend to outstanding history of science, technology and medicine full-time major students who have earned 15 hours of major coursework and who have a minimum overall grade point average of 3.25. Eligible students submit applications for the award.

To honor Everette L. DeGolyer, and to recognize his affiliation with the History of Science Program at the University of Oklahoma, the University awards the **Everette Lee DeGolyer History of Science Fellowship** to a graduate student in the Department of the History of Science. The Department of the History of Science nominates eligible applicants during the annual recruitment and application cycle.

The History of Science Department offers graduate assistantships as available each year. For information on scholarships and graduate assistantships, students should contact the chair of the department.

History of Science Association

The History of Science Association (HSA) is an organization comprised of the current students in the History of Science Department at the University of Oklahoma. Every graduate student in the department is a member of HSA, and undergraduate majors and minors are welcome to participate as well. Membership is also open to interested students in other graduate programs across campus. The HSA promotes history of science courses at OU through a variety of efforts, including sponsoring speakers, coordinating a tutoring service, assisting with department participation in University undergraduate recruitment events, and arranging informal social get-togethers for students enrolled in the major or in the minor program.

Undergraduate Study

Bachelor of Arts

- Health, Medicine & Society, Bachelor of Arts (p. 437)
- History of Science, Technology & Medicine, Bachelor of Arts (p. 440)

Minor

- History of Medicine Minor (p. 443)
- History of Science Minor (p. 444)

Undergraduate Certificate

- AI, Ethics, and Society, Undergraduate Certificate (p. 444)

Graduate Study

Areas of Specialization

The History of Science Program is especially strong in the following areas of specialization, because of the concentration of faculty working in the area, the availability of material resources in support of the field, and by institutional linkages with other departments and programs in allied specializations: pre-modern science; biological and social sciences in the modern world; science and religion; American science; history of technology; science, the public and popular culture; medicine, public health and biomedical science; and new media in history of science, technology and medicine.

The programs of study leading to the M.A. and Ph.D. degrees will entail the student's enrollment in history of science courses, history courses, other approved courses outside the department, and extensive use of the materials contained in the History of Science Collections.

Master of Arts

The History of Science, Technology & Medicine (p. 445), Master or Arts program has a thesis option and a non-thesis option.

Dual MA-MLIS Degree Program

The Graduate College approves proposals for dual degree programs. A dual degree allows a student to receive master's degrees in two departments. The programs may be designed for a specific student or established by agreement between departments.The Master of Library and Information Studies/History of Science, Technology and Medicine Master of Arts program is an example of a dual degree program established by a department and the School of Library and Information Studies. Students must be admitted to both degrees before twelve hours are completed in one or the other. The purpose of the dual Master of Library and Information Studies and Master of Arts in the History of Science, Technology and Medicine program is to provide a course of study for those individuals planning for a career in librarianship as a science librarian, as a curator of a rare book and manuscript collection in the history of science/health sciences, or as a public historian or archivist in the history of science.

History of Science Doctoral Program

The History of Science Ph.D. (p. 446) program calls for a total of 90 approved credit hours beyond the baccalaureate degree, or 60 hours beyond the Masters degree, including dissertation hours. Students matriculating for the doctoral degree must demonstrate reading proficiency in at least two appropriate world languages (usually chosen from French, German, and Latin) before being admitted to candidacy.

Courses

HMS 1113 Introduction to Health, Medicine and Society 3 Credit Hours
Class explores health and disease in different cultural and historical contexts. In the first half of the class we focus on the ways individuals experience disease, examining how gender, race, ethnicity, class and sexuality shape medical knowledge about disease, individuals' lived experience, and social perceptions of sufferers. In the second half, we focus on epidemic diseases. (F, Sp) [IV-WC].

HMS 3980 Honors Research 1-3 Credit Hours
1 to 3 hours. Prerequisite: admission to Honors Program. May be repeated; maximum credit six hours. Provides an opportunity for the gifted Honors candidate to work at a special project in the student's field. (F, Sp, Su)

HMS 4430 Health, Medicine, and Society Internship 1-4 Credit Hours
1 to 4 hours. Prerequisite: Student must be HMS major with Junior standing; have a minimum 2.5 GPA; and have permission of HMS internship liaison, supervising faculty, and internship granting agency. The purpose of the HMS Internship Program is to provide a planned experience in the community that is relevant to the student's major program of study. This can be work in a facility or with an organisation that is engaged in the delivery of health care to the community, or another relevant aspect of service learning. (Irreg.)

HMS 4993 Health, Medicine and Society Capstone 3 Credit Hours
Prerequisite: Senior standing. This is the senior capstone for the Health, Medicine and Society Major. We will discuss important works in the history, anthropology and sociology of medicine. You will develop a research project on a topic of your choosing and work on it throughout the course. (F) [V].

HSTM 1113 Science, Nature and Society: Historical Perspectives 3 Credit Hours
An introduction to the study of science, technology, and medicine in light of historical, philosophical, and cultural analysis. Focusing on the relationships between science, nature, and society, this class introduces some of the big questions about who we are, who we have been, and who we might become. (Irreg.) [IV-WC] .

HSTM 1313 Disasters 3 Credit Hours
How have technologies both increased and mitigated risks from natural disasters? How have human societies responded to human-made disasters and assessed the potential risks raised by new technologies? Taking a global perspective, we will examine responses to both natural and human disasters and consider the challenges to formulating fair and effective policies that minimize the risks posed by emerging technology. (Sp) [IV-WC].

HSTM 1323 History of the Geosciences 3 Credit Hours
Historical overview of the geosciences and evolving knowledge of the structure, ecosystems, and resources of our planet. We examine key figures, ideas, debates, discoveries, and scientific conflicts that have shaped the understanding of the Earth's current conditions. Students will learn about the emergence of the geoscientist's role in society and the scientific community from the 17th century to the present. (F) [IV-WC].

HSTM 1513 Thinking Machines: A History of Natural and Artificial Intelligences 3 Credit Hours
We explore how humans have imagined, built, and debated "intelligent" machines from ancient automata to modern AI. We examine how technologies of mind--from clockwork models and calculating engines to neural networks and ChatGPT-- have shaped ideas about humanity itself. We investigate how people have used machines as mirrors and foils for understanding intelligence, creativity, and society. (Sp) [IV-WC].

HSTM 2033 Introduction to Digital Humanities 3 Credit Hours
(Crosslisted with LIS, WGS and HIST 2033) This course introduces students to digital and/or computational methods in the humanities and addresses critical questions about the role of digital technology in society. This is a collaborative, hands-on, project-based course. (Sp) [IV-WC].

HSTM 2133 Science and Popular Culture 3 Credit Hours
Draws on interdisciplinary perspectives to examine the interplay between science and popular culture from the Scientific Revolution to the present. Topics include representations of science, scientists, and nature in popular literature, television, films, and documentaries; the development of zoos and science museums; children and science, and science journalism. (Sp) [IV-WC].

HSTM 2423 Social and Ethical Issues in Science, Technology, Environment and Medicine 3 Credit Hours
An introduction to a range of social and ethical issues in the history of science, technology, environment and medicine. Including the social, political and ethical implications of technology and scientific knowledge, and the role they play in shaping our environment and our selves. (Irreg.) [IV-WC].

HSTM 2970 Special Topics/Seminar 1-3 Credit Hours
1 to 3 hours. Prerequisite: May be repeated; Maximum credit nine hours. Special Topics. 1 to 3 hours. Special topics course for content not currently offered in regularly scheduled courses. May include library and/or laboratory research, and field projects. (Irreg.)

HSTM 3013 History of Science to the Age of Newton 3 Credit Hours
Prerequisite: junior standing, or completion of one History of Science lower-division course, or permission of instructor. A survey of Western people's efforts to understand the natural world, from earliest historical times to the seventeenth century. (F, Sp, Su) [IV-WC].

HSTM 3023 History of Science Since the Seventeenth Century 3 Credit Hours
Prerequisite: junior standing, or completion of one History of Science lower-division course, or permission of instructor. A survey of the historical and intellectual development of modern science. (F, Sp, Su) [IV-WC].

HSTM 3213 The Darwinian Revolution 3 Credit Hours
Prerequisite: Junior standing, or permission of the instructor, or one other HSTM course. The "Darwinian Revolution" was a revolution in culture as well as biology. We consider the history of the social, political, and theological issues associated with the development of evolutionary thought from the early nineteenth century to the present. (Irreg.) [IV-WC].

HSTM 3223 Gender Issues in Science, Technology and Medicine 3 Credit Hours
Prerequisite: junior standing, or completion of one History of Science lower-division course, or permission of instructor. Historical analysis of gender issues in science, technology and medicine, and in comparison with current practices. Topics will include questions in scientific method, particularly the concept of "objectivity," bio-social theories of gender; gender issues in scientific inquiry, in the development of and engagement with technologies, and in medical thought and practice; media images; and feminist science fiction. (Irreg.) [IV-WC].

HSTM 3243 Women and Medicine 3 Credit Hours
Prerequisite: junior standing, or completion of one History of Science lower-division course, or permission of instructor. Surveys the relationship between women and medicine in the modern period (roughly between 1750 and the present). Examines the interrelated histories of women as medical practitioners, patients and objects of medical knowledge. Also includes discussion on how women experienced illness in the past and the expectations and norms that shaped their illness experiences. Finally, a look at medical knowledge about (Sp) [IV-WC].

HSTM 3253 Race and Science 3 Credit Hours
Prerequisite: junior standing or completion of one History of Science course or permission of instructor. Examines the rise and fall of scientific conceptions of race from 1800 to the present, paying particular attention to its connections to 19th Century evolutionary theory, eugenics, the modern evolutionary synthesis, and recent genetics and genomics. Also looks at the role of cultural values associated with race in science more broadly. Course materials include films and novels as well as (F, Sp) [IV-WC].

HSTM 3263 History of Public Health 3 Credit Hours
(Crosslisted with HIST 3263) Prerequisite: Junior Standing or a lower division HSTM course or HIST 1733 or HIST 2723 or Permission of Instructor. Taking an historical perspective students explore and analyze the social, economic, political and scientific events and processes that have shaped modern public health. (F) [IV-WC].

HSTM 3273 Of Acupuncture, Medicine Men & Ayurveda: Indigenous & Non-Western Medicine in Perspective 3 Credit Hours
(Crosslisted with HIST 3273) Prerequisite: Junior Standing or a lower division HSTM course or HIST 1733 or HIST 2723 or Permission of Instructor. Introduces histories of practices and systems of medicine and healing that are variously deemed 'indigenous,' traditional,' 'non-western,' 'alternative' and 'complementary' in historical context. Students critique the historical and cultural meaning of these terms, as well as their attendant conceptions of health, disease and the body. (F) [IV-WDC].

HSTM 3283 Introduction to Disability Studies 3 Credit Hours
Prerequisite: junior standing or permission of instructor or completion of one lower-division History of Science course. Students engage text, audio and video sources to examine the social and cultural experience of disability in different times and cultures to critically assess how culture (mis)represents disability and corporeal difference. (F) [IV-WC].

HSTM 3293 Environment and Health 3 Credit Hours
Prerequisite: Junior standing or permission of instructor. This course explores the complex and changing relationship between the environment and health over the past 500 years, blending environmental history, the history of ecological science, and the history of environmental movements. Because the human-made environmental changes of the twentieth century could spell our own extinction, understanding the connections between environment and health is ever more urgent. (Sp) [IV-WC].

HSTM 3313 Science and Technology in Asian History 3 Credit Hours
Prerequisite: junior standing, or completion of one History of Science lower-division course, or permission of instructor. Examines science and technology in east, south, and southeast Asia from 1000 A.D. to the present. We examine the influence and interaction of knowledge traditions (especially Chinese, south Asian and Islamic), how they circulate around and beyond Asia, and interactions with European knowledge traditions, culminating in examinations of political and ethical dimensions of science and technology in contemporary Asia. (Irreg.) [IV-WDC].

HSTM 3333 Technology and Society in World History 3 Credit Hours
Prerequisite: junior standing, or completion of one History of Science lower-division course, or permission of instructor. A survey of the history of technology since 1500. Emphasizes historical contexts and cultural meanings, not technical details, as it explores the key steps in the construction of our modern technological world. Materials include literature and film as well as non-fiction. (Sp) [IV-WC].

HSTM 3343 Revolution in Power: the Evolution of Energy Systems from Fossil Fuels to Renewables 3 Credit Hours
(Crosslisted with P E 3343) Prerequisite: Junior standing, or completion of one History of Science lower-division course, or permission of instructor. This course provides an interdisciplinary perspective on energy systems in both their technical and human contexts, from fossil fuels to renewables, with particular focus on their social, culture, and environmental implications for Western society and the world. The history and evolution of the associated technologies will be discussed, with attention to non-western and indigenous perspectives on these global technological systems. (F) [IV-WC].

HSTM 3353 Science and Empire 3 Credit Hours
Prerequisite: junior standing or one previous HSCI course or permission of instructor. Examines the contested history of science and empire from both western and non-western perspectives, learning about colonial and post-colonial encounters in science, both imagined and lived. Materials include travelers' tales, explorers' accounts, fiction, and films as well as nonfiction. (Sp) [IV-WC].

HSTM 3413 Biomedical Ethics 3 Credit Hours
Prerequisite: Junior standing, or completion of one History of Science lower-division course, or permission of instructor. Introduces key concepts in biomedical ethics. Topics may include: the doctor/patient relationship; medical research on humans and animals; reproductive rights and technologies; medical decisions at the end of life; and the allocation of scarce resources. (Irreg.) [IV-WC].

HSTM 3423 Modern Medicine - A Historical Introduction 3 Credit Hours
Prerequisite: junior standing, or completion of one History of Science lower-division course, or permission of instructor. Examines the history of modern medicine in Europe and America. Aims to connect medical ideas and practices to the broader social and cultural contexts in which they were developed. (Irreg.) [IV-WC].

HSTM 3433 History of Blood: From Genesis to Genomics 3 Credit Hours
Prerequisite: Junior standing, OR prior completion of one HSTM course, OR permission of instructor. Blood has long been a deeply contested cross-cultural site of meaning-making. Blood evokes lineage, heredity, and familial continuity. At the same time, metaphors about blood purity and impurity have been used in the fields of medicine, jurisprudence, and religion to legitimate discrimination based on race, gender, sexual orientation, and disability. Our approach will be transnational and cover multiple historical periods. (Sp) [IV-WC].

HSTM 3440 Mentored Research Experience 3 Credit Hours
0 to 3 hours. Prerequisite: ENGL 1113 or equivalent, and permission of instructor; May be repeated; maximum credit 12 hours. For the inquisitive student to apply the scholarly processes of the discipline to a research or creative project under the mentorship of a faculty member. Student and instructor should complete an Undergraduate Research & Creative Projects (URCP) Mentoring Agreement and file it with the URCP office. Not for honors credit. (F, Sp, Su)

HSTM 3443 Science in a Religious World 3 Credit Hours
Prerequisite: junior standing, or completion of one History of Science lower-division course, or permission of instructor. An overview of major events in the intersection of science and religion from the Middle Ages to the present. A detailed look at the historical record and exploration of the background of the people involved, the social and political context, and the reasons why certain issues mattered so much. (Sp) [IV-WC].

HSTM 3453 Science and Civilization in Islam 3 Credit Hours
Prerequisite: junior standing or permission. History of scientific traditions and ideas in Islamic civilization, from the origins of Islam to the early modern period. Emphasis is on the derivation, development and transmission of Islamic science, as well as on the assimilation and influence of science within Islamic culture. (Sp) [IV-WDC].

HSTM 3463 Cold War Science 3 Credit Hours
Prerequisite: junior standing or permission. Science and technology during the Cold War, including strategic weapons and SDI, medical experiments, the space race, science in popular culture, and science and foreign policy. (Irreg.) [IV-WC].

HSTM 3473 History of Ecology and Environmentalism 3 Credit Hours
Prerequisite: junior standing, or completion of one History of Science lower-division course, or permission of instructor. Explores the historical development of ecology as a science and as a political stance, from the eighteenth through the twentieth century. Topics may include: climate change, population control, deforestation, globalization, resource management, and environmental ethics. (Irreg.) [IV-WC].

HSTM 3493 The History of Media 3 Credit Hours
Prerequisite: junior standing, or completion of one History of Science lower-division course, or permission of instructor. An introduction to the history of informational technologies and communications media from the printing press to the internet. Topics will include the print revolution, the advent of electronic communications, the growth of broadcast media, the development of the digital computer, and the internet boom. Course materials include novels and films as well as non-fiction. (Irreg.) [IV-WC].

HSTM 3513 AI and the Future of Work 3 Credit Hours
Prerequisite: Junior standing OR at least one previous HSTM course OR permission of instructor. Artificial intelligence is reshaping work, from warehouses and call centers to law firms, hospitals, and Hollywood. This course situates today's AI-driven workplace changes within a longer history of technological disruption, labor conflict, and economic restructuring. Through readings, case studies, and discussions, students will explore how AI affects employment, inequality, and power. (F, Sp) [IV-WC].

HSTM 3523 History After the Internet: Exploring Digital History 3 Credit Hours
(Crosslisted with HIST 3523) Prerequisite: Junior Standing. Examines major themes, issues, and developments affecting the research, writing, analysis, preservation, and presentation of history in the digital age. Includes hands-on engagement with, and critical assessment of, the use of digital tools for conducting historical inquiry, and exploration of the circulation of historical knowledge in such venues as social media, blogs, podcasts, digital archives, online collections, and historically-themed gaming. (Sp) [IV-WC].

HSTM 3533 Science and Global Politics in the Modern Era: Cross-Cultural Perspectives 3 Credit Hours
Prerequisite: Junior standing. Focuses on interactions between professional scientists, corporate entities, advocacy groups, NGOs, the public, and the state, with case studies drawn from different national contexts in order to make cross-cultural comparisons. Students will develop an international perspective on this topic by focusing on both western and non-western national contexts. Topics may include such issues as public health; biotechnology; bioprospecting; organ trafficking; (Irreg.) [IV-WC].

HSTM 3543 Balloons, Barometers, and Ice Cores: History of Weather and Climate Science 3 Credit Hours
(Crosslisted with METR 3543) Prerequisite: Junior standing or completion of one other course in HSTM or permission of instructor. This course explores the history of meteorology and climate sciences from 1500 to the present. We investigate the role of science in humanity's relationship with weather and climate, the social and political contexts of weather sciences as they have changed over time, and contributions of these sciences to sustainability and survival on a rapidly warming planet. No science background required. (F) [IV-WC].

HSTM 3813 Science in the Ancient World 3 Credit Hours
Prerequisite: junior standing, or completion of one History of Science lower-division course, or permission. An examination of science in antiquity. Topics include the origins of ancient science, the transmission and interaction of various scientific traditions, the relation between science and philosophy, the development of a concept of science, and the place of science within the cultures of the period. (Irreg.) [IV-WC].

HSTM 3823 Science in Medieval Culture 3 Credit Hours
Prerequisite: junior standing, or completion of one History of Science lower-division course, or permission. A survey of the historical development of medieval scientific, mathematical, medical, and philosophical thought. (Irreg.) [IV-WC].

HSTM 3833 The Scientific Revolution 3 Credit Hours
Prerequisite: junior standing, or completion of one History of Science lower-division course, or permission of instructor. Explores the history of the "scientific revolution" of the sixteenth and seventeenth centuries. Study includes understanding debates not just about what happened in the past but about how we today define science and how we understand the place of science in the modern world. (Irreg.) [IV-WC].

HSTM 3960 Honors Reading 1-3 Credit Hours
1 to 3 hours. Prerequisite: admission to Honors Program; May be repeated; maximum credit six hours. Will consist of topics designated by the instructor. The topics will cover materials not usually presented in regular coursework. (F, Sp, Su)

HSTM 3970 Honors Seminar 1-3 Credit Hours
1 to 3 hours. Prerequisite: admission to Honors Program; May be repeated; maximum credit six hours. The projects covered will vary. The content will deal with concepts not usually presented in regular coursework. (Irreg.)

HSTM 3980 Honors Research 1-3 Credit Hours
1 to 3 hours. Prerequisite: admission to Honors Program; May be repeated; maximum credit six hours. Will provide an opportunity for the gifted Honors candidate to work at a special project. (Irreg.)

HSTM 3990 Independent Study 1-3 Credit Hours
1 to 3 hours. Prerequisite: permission of instructor and junior standing. May be repeated once with change of content; Maximum credit 6 hours. Independent study may be arranged to study a subject not available through regular course offerings. (F, Sp, Su)

HSTM 3993 Junior Seminar 3 Credit Hours
Prerequisite: 9 hours of history of science classes and permission of instructor; if repeating course, permission of undergraduate academic adviser; May be repeated with change of content; maximum credit 6 hours. Offers students the chance to work on an extended research topic in the history of science, technology, environment and medicine. The themed seminar format will allow for small group discussion and close supervision of student projects. Students will be introduced to the methods and tools of advanced research. Seminar themes will vary. (Sp)

HSTM 4053 History of Magic 3 Credit Hours
(Crosslisted with RELS and HIST 4053) Prerequisite: Junior standing or permission of instructor. This course is an investigation of the category of magic, magical practices, and the place of magic in society from antiquity to the modern world. (Irreg.) [IV-WC].

HSTM 4073 Cultural Heritage Data and Social Engagement 3 Credit Hours
(Slashlisted with HSTM 5073; Crosslisted with WGS, HIST and LIS 4073) Prerequisite: Junior standing. This course uses methods from digital humanities, media studies, and data science to explore cultural heritage -- the histories, literature, art, and artifacts of our world's cultures. It particularly focuses on cultural heritage in digital public spaces: websites, social media, etc. No prior background in computer programming is necessary. No student may earn credit for both 4073 and 5073. (F)

HSTM 4133 Science and Literature 3 Credit Hours
(Slashlisted with HSTM 5133) Prerequisite: ENGL 1213 or EXPO 1213 or HSCI 1113, or another HSCI course, junior standing and permission of instructor; May be repeated with change of content; maximum credit 6 hours. Explore the relationship between science and literature in the Victorian period from historical and literary perspectives. Students read and contextualize select historical works of fiction and of science in order to better understand the historical relationship between science and society, and between contemporary scientific and literary cultures. No student may earn credit for both 4133 and 5133. (Irreg.) [IV-WC].

HSTM 4430 History of Science, Technology, & Medicine Internship 1-4 Credit Hours
1 to 4 hours. Prerequisite: Student must be HSCI major with Junior standing; have a minimum 2.5 GPA; and have permission of departmental internship liaison, supervising faculty, and internship granting agency. The HSCI Internship Program is to provide a planned experience in the community that is relevant to the student's major program of study. This can be work in a facility or with an organization, a library or archive, which is engaged in the provision of products or services that relate to the student's academic field of study. (Irreg.)

HSTM 4960 Directed Readings 1-4 Credit Hours
1 to 4 hours. Prerequisite: good standing in University; permission of instructor and dean; May be repeated, maximum credit four hours. Designed for upper-division students who need opportunity to study a specific problem in greater depth than formal course content permits. (Irreg.)

HSTM 4970 Special Topics/Seminar 1-3 Credit Hours
1 to 3 hours. Prerequisite: Senior standing or permission of instructor; May be repeated; maximum credit nine hours. Special topics or seminar course for content not currently offered in regularly scheduled courses. May include library and/or laboratory research and field projects. (Irreg.)

HSTM 4990 Independent Study 1-3 Credit Hours
1 to 3 hours. Prerequisite: three courses in general area to be studied; permission of instructor and department; May be repeated; maximum credit six hours. Contracted independent study for topic not currently offered in regularly scheduled courses. Independent study may include library and/or laboratory research and field projects. (F, Sp, Su)

HSTM 4993 Capstone in History of Science, Technology, and Medicine 3 Credit Hours
Prerequisite: junior standing and permission of instructor. This course fulfills the capstone requirement for a major in the history of science, technology and medicine. The goal of this seminar-format course is to provide students with the opportunity to further develop their skills in research, writing, and critical analysis with respect to the historical study of science. The course provides the opportunity for in-depth individualized research within the (F) [V].

HSTM 5001 Colloquium in the History of Science, Technology, and Medicine 1 Credit Hour
Prerequisite: Graduate standing; may be repeated with change of content; maximum credit six hours. The course consists of a series of presentations on various topics by different speakers, both from within and outside the department. In some cases, these may coincide with public presentations, open to the public (but addressed to a professional audience). In other cases, these may be closed discussions or evaluation meetings. (F, Sp)

HSTM 5073 Cultural Heritage Data and Social Engagement 3 Credit Hours
(Slashlisted with HSTM 4073; Crosslisted with WGS, HIST and LIS 5073) Prerequisite: Graduate standing. This course uses methods from digital humanities, media studies, and data science to explore cultural heritage -- the histories, literature, art, and artifacts of our world's cultures. It particularly focuses on cultural heritage in digital public spaces: websites, social media, etc. No prior background in computer programming is necessary. No student may earn credit for both 4073 and 5073. (F)

HSTM 5133 Science and Literature 3 Credit Hours
(Slashlisted with HSTM 4133) Prerequisite: Graduate standing and permission of instructor; May be repeated with change of content; maximum credit 6 hours. Explores the relationship between science and literature in the Victorian period from historical and literary perspectives. Students read and contextualize select historical works of fiction and of science in order to better understand the historical relationship between science and society, and between contemporary scientific and literary cultures. No student may earn credit for both 4133 and 5133. (Irreg.)

HSTM 5513 Advanced Studies in the History of Ancient and Medieval Science 3 Credit Hours
Prerequisite: HSTM 3013 or equivalent, or permission of instructor. May be repeated with change of content; maximum credit 12 hours. Thematic historical analyses of ancient and/or medieval foundations of science, focusing on the development of particular disciplines or scientific institutions, the relationship between science and religion, or transmission of science. Includes examination of sources and critical assessment of scholarly interpretations. (Irreg.)

HSTM 5523 Adv. Stds. In The History Of Renaissance & Early Modern Sci. 3 Credit Hours
Prerequisite: 3013 Or 3023, Or Equivalent; Or Permission Of Instructor. Advanced Studies In The History Of Renaissance And Early Modern Science.May Be Repeated With Change Of Content; Maximum Credit 12 Hours. Thematic Historical Analyses Of Scientific Ideas And Practices In The Scientific Revolution And The Enlightenment, 16th-18th Cen- Turies. Includes Examination Of Sources And Critical Assessment Of Scholarly Interpretations. (Irreg.)

HSTM 5533 Advanced Studies In The History Of Modern Science 3 Credit Hours
Prerequisite: 3023, Or Equivalent Or Permission Of Instructor. Advanced Studies In The History Of Modern Science.May Be Repeated With Change Of Content; Maximum Credit 12 Hours. Thematic Historical Analyses Of Modern Science And Culture Focus- Ing On The European And American Development And Professional- Ization Of Scientific Disciplines, Interdisciplinary Relationships Among The Sciences, And Intersections Between Scientific And Pub- Lic Culture. Includes Examination Of Sources And Critical Assess- (Irreg.)

HSTM 5550 Topics In The History Of Science 1-3 Credit Hours
1 to 3 hours. Prerequisite: Graduate Standing Or Permission Of Instructor. Topics In The History Of Science. 1 To 3 Hours.May Be Repeated With Change Of Content; Maximum Credit Twelve Hours. Topics Of Scholarly Interest In The History Of Science.

HSTM 5613 Issues and Methods in the Digital Humanities 3 Credit Hours
Prerequisite: Graduate standing or permission of instructor. Provides a graduate-level introduction to the central issues, methods, and tools in the emerging field of the digital humanities. Digital humanities is an interdisciplinary set of methods, concepts, values, and practices that enable scholars to create and apply new technologies to answer social, cultural, and historical questions. (Irreg.)

HSTM 5623 Practicum/Internship in the Digital Humanities 3 Credit Hours
Prerequisite: Graduate standing or permission of instructor. May be repeated; maximum credit 9 hours. A practical, project-based internship, focused on the design and development of a project in the digital humanities under the close supervision of a faculty member. (F, Sp)

HSTM 5713 History of Medicine Seminar 3 Credit Hours
Prerequisite: Graduate standing. This seminar is a graduate-level introduction to the history of medicine. We will begin with an examination of the origins and development of the history of medicine as an academic discipline, then delve into some of the big themes and questions that have shaped the field. (Irreg.)

HSTM 5723 History of Technology Seminar 3 Credit Hours
Prerequisite: Graduate standing. This course introduces graduate students to the study of technology in its historical contexts. Based in the history of technology, it also introduces students to tools and concepts from cognate fields, such as environmental history, urban studies, mobility studies, and more. (Irreg.)

HSTM 5960 Directed Readings in the History of Science 1-4 Credit Hours
1 to 4 hours. Prerequisite: graduate standing and permission of instructor. May be repeated with change of content; maximum credit six hours toward M.A. degree, 12 hours toward Ph.D. degree. Intensive readings in a selected area of the history of science, under the direction of a graduate faculty member. (F, Sp, Su)

HSTM 5970 Seminar: Research, Criticism and Analysis 2-3 Credit Hours
2 to 3 hours. Prerequisite: permission of instructor. May be repeated with change of content; maximum credit 15 hours. Fundamentals of investigation and exposition in the history of science. (F, Sp)

HSTM 5980 Research for Master's Thesis 2-9 Credit Hours
2 to 9 hours. Variable enrollment, two to nine hours; maximum credit applicable toward degree, four hours. (F, Sp, Su)

HSTM 5990 Special Studies 3-5 Credit Hours
3 to 5 hours. Prerequisite: permission of instructor; May be repeated with change of content; maximum credit nine hours. Specialized studies in the history of science. Individual research culminating in the preparation of a research paper. (F, Sp, Su)

HSTM 6960 Directed Readings 1-3 Credit Hours
1 to 3 hours. Prerequisite: graduate standing or permission of instructor. May be repeated; maximum credit six hours. Directed readings and/or literature review under the direction of a faculty member. (Irreg.)

HSTM 6970 Seminar in the History of Science 2-3 Credit Hours
2 to 3 hours. Prerequisite: permission of instructor; May be repeated with change of content; maximum credit 15 hours. Advanced study and historical criticism in specialized areas. (F, Sp)

HSTM 6980 Research for Doctoral Dissertation 2-16 Credit Hours
2 to 16 hours. Prerequisite: Graduate standing and permission of instructor; may be repeated. Directed research culminating in the completion of the doctoral dissertation. (F, Sp, Su)

HSTM 6990 Independent Study 1-3 Credit Hours
1 to 3 hours. Prerequisite: Graduate standing and permission of instructor. May be repeated; maximum credit nine hours. Contracted independent study for a topic not currently offered in regularly scheduled courses. Independent study may include library and/or laboratory research and field projects. (Irreg.)

Health, Medicine, and Society, B.A.

Minimum Total Credit Hours: 120
Major Hours: 30
Minimum Upper-Division Hours: 48
Upper-Division Hours Within Major: 21

Overall GPA - Combined and OU: 2.50
Major GPA - Combined and OU: 2.50

Program Code: B502

Major Requirements

- **Some courses required for the major may also fulfill University General Education and/or Dodge College of Arts & Sciences Requirements.**
- Thirty hours of major coursework must be completed, and 21 of the 30 hours must be upper division courses.
- **A grade of C or better must be earned in each course for major credit**.

Code	Title	Credit Hours
Introduction		
HMS 1113	Introduction to Health, Medicine and Society (meets Core IV Western Civ. & Culture)	3
Ethical Issues in Health & Medicine		
PHIL 1263	Introduction to Ethics in Health Care	3
or HSTM 3413	Biomedical Ethics	
Health, Medicine and Society Core		
Choose three courses [1]		9
Humanistic and Social Scientific Perspectives		
Choose four courses not used for the Health, Medicine and Society Core [1]		12
Capstone		
HMS 4993	Health, Medicine and Society Capstone	3
Total Credit Hours		**30**

[1] Choose courses from an approved list of courses (p. 439) maintained by the department. Other courses that meet program criteria may be counted towards the major with the written approval of the program advisor.

Major Support Requirements

A grade of C or better must be earned in each course for major support credit

Code	Title	Credit Hours
PSY 1113	Elements of Psychology (Core III Social Science)	3
or SOC 1113	Introduction to Sociology	
Choose a course in statistics, such as the following:		3
BIOL 2913	Intro to Quantitative Biology	
COMM 2513	Introduction to Statistics (Core I Math)	
ECON 2843	Elements of Statistics (Core I Math)	
MATH 4753	Applied Statistical Methods	
PSY 2003	Understanding Statistics (Core I Math)	
S WK 2223	Statistics for Social Work (Core I Math)	
Choose at least 9 hours of coursework (including labs) in life or natural sciences in addition to those taken to meet Gen Ed requirements (p. 439)		9
Total Credit Hours		**15**

General Education and College Requirements

Courses for fulfillment of General Education and Dodge College of Arts & Sciences requirements must be from the approved General Education course list published in the Class Schedule or at http://www.ou.edu/gened/courses. **Courses graded P/NP will not apply.**

MINIMUM OF 40 HOURS REQUIRED FOR UNIVERSITY-WIDE GENERAL EDUCATION

Code	Title	Credit Hours
Core Area I: Symbolic and Oral Communication		
English Composition (6 hours)		
ENGL 1113	Principles of English Composition	3
ENGL 1213	Principles of English Composition	3
or EXPO 1213	Expository Writing	
Language (0-13 hours in the same language)		

The college requirement cannot be met by high school coursework.		
Beginning Course		0-5
Beginning Course, continued		0-5
Intermediate Course (2000 level) [1,2]		0-3
Mathematics (3 hours)		
Choose one course from the General Education Mathematics list		3
Core Area II: Natural Science (7 hours, including one laboratory component)		
Biological Science		
Choose an approved General Education Natural Science course with one of the following prefixes: BIOL, HES, MBIO, or PBIO [1]		3-4
Physical Science		
Choose an approved General Education Natural Science course with one of the following prefixes: AGSC, ASTR, CHEM, GEOG, GEOL, GPHY, METR, or PHYS [1]		3-4
Core Area III: Social Science (6 hours)		
P SC 1113	American Federal Government	3
Choose one course from the General Education Social Science list		3
Core Area IV: Arts and Humanities (18 hours)		
Artistic Forms		
Choose one course from the General Education Artistic Forms list		3
Western Culture		
HIST 1483	United States to 1865	3
or HIST 1493	United States, 1865 to the Present	
Choose one course from the General Education Western Culture list (excluding HIST 1483/1493)		3
World Culture		
Choose one course from the General Education World Culture list		3
Additional Core IV Upper-Division Arts & Humanities courses		
Choose one course from Artistic Forms, Western Culture, or World Culture [1,3]		3
Choose one course from Artistic Forms, Western Culture, or World Culture [1,3]		3
Core Area V: First Year Experience (3 hours)		
Choose one course		3
Total Credit Hours		**56**

1. College of Arts and Sciences Requirements: college requirements are not automatically fulfilled by a previous degree.
2. One course at the intermediate level or demonstrated competency at that level
3. 6 upper-division hours, 2 courses, at the 3000- 4000-level. ***Must be outside the major.***

Free Electives

Electives to bring total applicable hours to the minimum total required for the degree including 48 upper-division hours.

Information Concerning General Rules, Regulations and Minimum Requirements

Arts and Sciences Hours: At least 80 semester hours of liberal arts and sciences courses are required for a BA degree. At least 55 semester hours of liberal arts and sciences courses are required for a BS degree.
Pass/No Pass Enrollment: A maximum of 16 semester hours of free elective credit may be attempted under this option.
Individual Studies (e.g., courses titled "Independent Study"): A maximum of 12 total semester hours may be counted toward graduation, excluding Honors Reading and Honors Research.
P.E. Courses: No physical education activity courses will be counted toward the 120 semester hours of acceptable credit for graduation.
Senior Institution Hours: A minimum of 60 semester hours applied toward graduation must be earned at senior (4-year) institutions.
Residency:

- At least 15 of the final 30 hours applied toward the degree or at least 50 percent of the hours required by the institution in the major field must be satisfactorily completed at the awarding institution.
- At least 15 semester hours of upper-division major work must be completed in residence at OU.
- OU correspondence courses are ***not*** considered resident credit.

Grade Point Averages: Students must earn a minimum over all 2.00 for each of the following: Combined Retention GPA (all college grades), OU Retention GPA, GPA for all major courses, and GPA for all major courses taken at OU. Some schools and departments of the College have higher minimum grade point averages required for their students.

Suggested Semester Plan of Study

This plan shows one possible grouping of courses that would allow students to graduate in four years. Please refer to the front of the degree checksheet for official requirements. Students must consult with Dodge College of Arts and Sciences and/or Health, Medicine & Society academic advisors to verify that courses selected each semester fulfill the recommended plan and satisfy University, College of Arts and Sciences, and HMS major requirements.

Freshman		
First Semester		**Credit Hours**
ENGL 1113	Principles of English Composition (Core I)	3

Major Support

The department intends that the science courses required for any of the pre-med/health-related programs can be counted toward the 9 hours of coursework in the "life or natural sciences" category under Major Support Requirements for the HMS BA degree. Besides the general education courses required for pre-degree programs, the following courses are acceptable as science major support electives:

Code	Title	Credit Hours
BIOL 2124	Human Physiology	4
BIOL 2234	Introduction to Human Anatomy	4
BIOL 2255	Human Anatomy	5
BIOL 3083	Animal Behavior	3
BIOL 3103	Principles of Physiology	3
BIOL 3113	Cell Biology	3
BIOL 3201	Animal Development Lab	1
BIOL 3203	Animal Development	3
BIOL 3214	Comparative Vertebrate Anatomy	4
BIOL 3333	Genetics	3
BIOL 3342	Genetics Laboratory	2
BIOL 3812	Fundamentals of Microbiology Laboratory	2
BIOL 3813	Fundamentals of Microbiology	3
BIOL 3833	Introduction to Neurobiology	3
BIOL 4034	Mammalogy	4
BIOL 4233	Neurobiology of Disease	3
BIOL 4244	Animal Histology	4
BIOL 4533	Basic Immunology	3
BIOL 4823	Pathogenic Microbiology and Infectious Disease	3
BIOL 4843	Molecular Biology	3
BIOL 4893	Behavioral Neurobiology	3
BIOL 4970	Special Topics in Biology (Topic: Epigenetic)	3
BIOL 4903	Topics in Virology	3
CHEM 3053	Organic Chemistry I: Biological Emphasis	3
CHEM 3152	Organic Chemistry Laboratory: Biological Emphasis	2

History of Science, Technology, and Medicine, B.A.

Minimum Total Credit Hours: 120
Major Hours: 36
Minimum Upper-Division Hours: 48
Upper-Division Hours Within Major: 21

Overall GPA - Combined and OU: 2.00
Major GPA - Combined and OU: 2.00

Program Code: B510 (B511 Online)

Major Requirements

- **Some courses required for the major may also fulfill University General Education and/or Dodge College of Arts & Sciences Requirements.**
- **A grade of "C" or higher must be earned in each course presented for major credit.**

A minimum of 36 hours of HSTM courses, 21 of which must be upper-division, are required. The 21 upper-division hours includes the capstone course. Up to six hours (2 courses) taught in other departments (i.e., Honors College) may be counted towards the major, subject to written prior approval of the HSTM *departmental undergraduate advisor*.

Students may choose a specific emphasis within the major: **technology & society; biology, medicine & society;** or, a **traditional history of science** emphasis.

Code	Title	Credit Hours
Choose one HSTM Global course [1]		3
Choose one HSTM Pre-1750 Period course [1]		3
Choose one HSTM Post-1750 Period course [1]		3
Choose one HSTM survey/introductory course from two of the three areas listed below: [1]		6
History of Medicine		
History of Technology		
History of Science		
HSTM 3993	Junior Seminar	3
HSTM 4993	Capstone in History of Science, Technology, and Medicine	3
Choose five additional HSTM courses from any of the categories listed above, or from any HSTM course listed in the OU catalog		15
Total Credit Hours		**36**

[1] A list of the courses approved for each category (p. 442) may be obtained from the History of Science, Technology, and Medicine Department, or in the OU General Catalog.

General Education and College Requirements

Courses for fulfillment of General Education and Dodge College of Arts & Sciences requirements must be from the approved General Education course list published in the Class Schedule or at http://www.ou.edu/gened/courses. **Courses graded P/NP will not apply.**

MINIMUM OF 40 HOURS REQUIRED FOR UNIVERSITY-WIDE GENERAL EDUCATION

Code	Title	Credit Hours
Core Area I: Symbolic and Oral Communication		
English Composition (6 hours)		
ENGL 1113	Principles of English Composition	3
ENGL 1213	Principles of English Composition	3
or EXPO 1213	Expository Writing	
Language (0-13 hours in the same language)		
The college requirement cannot be met by high school coursework.		
Beginning Course		0-5
Beginning Course, continued		0-5
Intermediate Course (2000 level) [1,2]		0-3
Mathematics (3 hours)		
Choose one course from the General Education Mathematics list		3
Core Area II: Natural Science (7 hours, including one laboratory component)		
Biological Science		
Choose an approved General Education Natural Science course with one of the following prefixes: BIOL, HES, MBIO, or PBIO [1]		3-4
Physical Science		
Choose an approved General Education Natural Science course with one of the following prefixes: AGSC, ASTR, CHEM, GEOG, GEOL, GPHY, METR, or PHYS [1]		3-4
Core Area III: Social Science (6 hours)		
P SC 1113	American Federal Government	3
Choose one course from the General Education Social Science list		3
Core Area IV: Arts and Humanities (18 hours)		
Artistic Forms		
Choose one course from the General Education Artistic Forms list		3
Western Culture		
HIST 1483	United States to 1865	3
or HIST 1493	United States, 1865 to the Present	
Choose one course from the General Education Western Culture list (excluding HIST 1483/1493)		3
World Culture		
Choose one course from the General Education World Culture list		3
Additional Core IV Upper-Division Arts & Humanities courses		
Choose one course from Artistic Forms, Western Culture, or World Culture [1,3]		3
Choose one course from Artistic Forms, Western Culture, or World Culture [1,3]		3
Core Area V: First Year Experience (3 hours)		
Choose one course		3
Total Credit Hours		**56**

1. College of Arts and Sciences Requirements: college requirements are not automatically fulfilled by a previous degree.
2. One course at the intermediate level or demonstrated competency at that level
3. 6 upper-division hours, 2 courses, at the 3000- 4000-level. ***Must be outside the major.***

Free Electives

Electives to bring total applicable hours to the minimum total required for the degree including 48 upper-division hours.

Information Concerning General Rules, Regulations and Minimum Requirements

Arts and Sciences Hours: At least 80 semester hours of liberal arts and sciences courses are required for a BA degree. At least 55 semester hours of liberal arts and sciences courses are required for a BS degree.
Pass/No Pass Enrollment: A maximum of 16 semester hours of free elective credit may be attempted under this option.
Individual Studies (e.g., courses titled "Independent Study"): A maximum of 12 total semester hours may be counted toward graduation, excluding Honors Reading and Honors Research.
P.E. Courses: No physical education activity courses will be counted toward the 120 semester hours of acceptable credit for graduation.
Senior Institution Hours: A minimum of 60 semester hours applied toward graduation must be earned at senior (4-year) institutions.
Residency:

- At least 15 of the final 30 hours applied toward the degree or at least 50 percent of the hours required by the institution in the major field must be satisfactorily completed at the awarding institution.
- At least 15 semester hours of upper-division major work must be completed in residence at OU.
- OU correspondence courses are ***not*** considered resident credit.

Grade Point Averages: Students must earn a minimum over all 2.00 for each of the following: Combined Retention GPA (all college grades), OU Retention GPA, GPA for all major courses, and GPA for all major courses taken at OU. Some schools and departments of the College have higher minimum grade point averages required for their students.

Suggested Semester Plan of Study

This plan shows one possible grouping of courses that would allow students to graduate in four years. Please refer to the front of the degree checksheet for official requirements. Students must consult with Dodge College of Arts and Sciences and/or Department of History of Science academic advisors to verify that courses selected each semester fulfill the recommended plan and satisfy University, College of Arts and Sciences, and History of Science, Technology and Medicine major requirements.

Freshman		
First Semester		**Credit Hours**
ENGL 1113	Principles of English Composition (Core I)	3
HSTM 1113	Science, Nature and Society: Historical Perspectives	3
First Year Experience (Core V)		3
Beginning Language (Core I)		5
Free Elective, lower-division		1

History of Medicine, Minor

Minimum Total Credit Hours: 15
Minimum Upper-Division Hours: 9

Program Code: N508

- **The requirements for a minor must be completed concurrently with the major degree requirements.**
- **No minor may be added by completing courses after receiving the bachelor's degree.**

At least six (6) credit hours must be earned in courses acceptable for residence credit by standards set forth by the Dodge College of Arts and Sciences, excluding transfer, correspondence, and examination (AP, CLEP, Advanced Standing) credit. Courses for the minor may not be taken Pass/No Pass.

No single course may be used by a student to satisfy a major requirement and a minor requirement. A course may be used, however, to satisfy both a major support requirement and a minor requirement.

Requests to substitute a minor requirement must be approved in writing by the Department of History of Science, Technology, and Medicine.

Required Course

Students must successfully complete at least 15 hours of coursework, including at least nine (9) hours at the upper-division level.

A grade of C or better must be earned for each course presented for minor credit.

Code	Title	Credit Hours
Choose 15 hours from the following:		15
HMS 1113	Introduction to Health, Medicine and Society	
HSTM 1113	Science, Nature and Society: Historical Perspectives	
HSTM 3223	Gender Issues in Science, Technology and Medicine	
HSTM 3243	Women and Medicine	
HSTM 3253	Race, Medicine, and Science	
HSTM 3263	History of Public Health	
HSTM 3273	Of Acupuncture, Medicine Men & Ayurveda: Indigenous & Non-Western Medicine in Perspective	
HSTM 3283	Introduction to Disability Studies	
HSTM 3413	Biomedical Ethics	
HSTM 3423	Modern Medicine - A Historical Introduction	
HMS 4993	Health, Medicine and Society Capstone	
Total Credit Hours		**15**

Notes

- A list of HSTM/HMS courses with variable content is available in the department that may also count with the prior approval of the HSTM undergraduate studies committee.
- Up to six hours of non-HSTM or HMS courses from a list of approved courses maintained in the department may be applied to the minor.
- Courses not previously listed, which are deemed to have appropriate content, may be applied towards the minor with the prior approval of the HSTM undergraduate committee.

Minors in the Dodge College of Arts & Sciences are available to all undergraduate students at OU. If the minor is officially declared, successfully completed, and noted on the graduation application, the student's transcript will so indicate at the time the bachelor's degree is posted.

History of Science, Minor

Minimum Total Credit Hours: 15
Minimum Upper-Division Hours: 9

Program Code: N510

- **The requirements for a minor must be completed concurrently with the major degree requirements.**
- **No minor may be added by completing courses after receiving the bachelor's degree.**

AI, Ethics, and Society, Undergraduate Certificate

Minimum Total Credit Hours: 15
Minimum Upper-Division Hours: 9

Program Code: T005

Certificate Requirements

Students must have a **2.5 GPA** for courses applied to the certificate.

Code	Title	Credit Hours
The Certificate requires completion of 5 courses, with at least one upper-division course from each of the three categories below: [1, 2]		15
Historical and Ethical Perspectives		
Social and Cultural Perspectives		
Applied/Practical Tools and Methods		
Total Credit Hours		**15**

1. Lists of courses (p. 444) approved for each of these categories are maintained by the Department of History of Science, Technology, and Medicine.
2. Students will also submit a portfolio of work to complete the requirements of the certificate.

AI, Ethics, and Society Approved Certificate Electives

- for the most current list of approved electives, please consult the Department of History of Science, Technology, and Medicine.

Choose two of the following:		6
HSTM 5513	Advanced Studies in the History of Ancient and Medieval Science	
HSTM 5523	Adv. Stds. In The History Of Renaissance & Early Modern Sci.	
HSTM 5533	Advanced Studies In The History Of Modern Science	
Choose 17 hours from:		17
HSTM 5550	Topics In The History Of Science	
HSTM 5960	Directed Readings in the History of Science	
HSTM 5613	Issues and Methods in the Digital Humanities	
HSTM 5623	Practicum/Internship in the Digital Humanities	
HSTM 5990	Special Studies	
HSTM 5513, HSTM 5523, or HSTM 5533 (students must take two of the courses in this sequence and may take the third as an elective)		
HSTM 5713 or HSTM 5723 (students must take one of these two courses and may take the other as an elective)		

Other approved graduate course (may be outside the Department)	
Total Credit Hours	**32**

NOTES

- **All requirements are to be satisfied by the student's fourth semester in the program. If special circumstances warrant an exception, the department may extend this deadline.**
- **For thesis students, the thesis should be a single, sustained piece of writing modeled on a scholarly journal article. With regard to to length and quality, it is expected that the thesis will be presented to the department as a pre-circulated paper and discussed as a part of the colloquium series. At the discretion of the thesis committee, this presentation may take the place of the oral defense of the thesis.**
- **For non-thesis students, a portfolio of three research papers prepared as part of your regular graduate course work should be submitted to your committee.**

General Requirements for all Master's Degrees

The master's degree requires the equivalent of *at least* two semesters of satisfactory graduate work and additional work as may be prescribed for the degree.

All coursework applied to the master's degree must carry graduate credit.

Master's degree programs which require a thesis consist of *at least* 30 credit hours. All non-thesis master's degree programs require *at least* 30 credit hours.

Credit transferred from other institutions must meet specific criteria and is subject to certain limitations.

Courses completed through correspondence study may *not* be applied to the master's degree.

To qualify for a graduate degree, students must achieve an overall grade point average of 3.0 or higher in the degree program coursework and in all resident graduate coursework attempted. A student must also have at least a 3.0 in all coursework (including undergraduate coursework if any).

Additional information for master's degree students may be found in the Graduate College Bulletin.

History of Science, Technology, and Medicine, Ph.D.

Minimum Total Hours: 90

Program Code: D511

Program Requirements

The Ph.D. degree calls for a total of 90 approved credit hours beyond the baccalaureate degree, or 60 hours beyond the master's degree, including dissertation hours.

Code	Title	Credit Hours
Doctoral students will be expected to complete the following minimum course requirements (not counting dissertation hours) before completion of the General Examination:		
Approved course of study consisting of 30 credit hours for the master's degree or its equivalent		30
At least 18 hours of Post-Master's degree coursework, which must include:		18
One three hour course to complete the sequence:		
HSTM 5513	Advanced Studies in the History of Ancient and Medieval Science	
HSTM 5523	Adv. Stds. In The History Of Renaissance & Early Modern Sci.	
HSTM 5533	Advanced Studies In The History Of Modern Science	
One three hour course to complete both of:		
HSTM 5713	History of Medicine Seminar	
HSTM 5723	History of Technology Seminar	
12 additional elective course hours beyond the MA before general exams. If students have completed either or both of the specific course requirements above, they will need to take sufficient additional elective courses to bring their total to 18 hours beyond the MA.		
Students must complete a minimum of 2 hours of Dissertation Research:		
HSTM 6980	Research for Doctoral Dissertation	2
Additional Coursework for completion:		
Additional coursework as needed to reach 90 post-baccalaureate credit hours		40
Total Credit Hours		**90**

NOTES:

- Language requirements: Students admitted to the doctoral program are assumed to have satisfied the course distribution and language requirement for the master's. If not, additional coursework or language study may be required. The doctoral degree requires demonstrated competence in a second approved foreign language (beyond the language requirement for the master's).
- Doctoral field requirements: Students must satisfy the requirements for four distinct fields. Three of these fields will be examined and will be closely related to the student's doctoral research. The fourth field may be satisfied without an examination and will differ from the student's specialization enough to ensure a breadth of competence sufficient to teach survey courses and to participate as an active and informed member of the history of science community. 1. The doctoral field, designed by the student and their committee chair, supports the student's dissertation research. 2. The second field is typically (but not necessarily) supervised by a member of the student's committee other than the committee chair. 3. The outside field is typically (but not necessarily) supervised by a faculty member outside of the department, presumably a member of the student's committee. This field is intended to support the student's research interests by providing a different perspective on or a different context for the student's research topic. 4. The complementary field may be satisfied by means other than a written examination, as determined by the student's committee.
-

Outside courses: Students are strongly encouraged to take one or more courses outside the department, especially (but not solely) to fulfill the requirements of the outside field. These courses normally, though not necessarily, will be in the history department.

General Requirements for Doctoral Degrees

A student should expect to spend at least the equivalent of three full academic years beyond the bachelor's degree to obtain the doctoral degree. During this period the student will take appropriate graduate coursework, successfully complete the general examination, and successfully defend and submit the final dissertation.

All coursework applied to the doctoral degree must carry graduate credit.

The doctoral degree requires at least 90 post-baccalaureate hours, including both formal coursework and hours of research.

The minimum hour requirement for a specific doctoral degree program cannot be waived.

No more than one-half of the credit hours, both OU and overall, excluding Research for Doctoral Dissertation (6980), may be *S/U*-graded coursework.

The student must be in residence at OU for at least two consecutive 16-week semesters during the pursuit of the doctoral degree while enrolled and engaged in coursework or research activities as prescribed by the major academic unit.

For more detailed regulations and requirements for Doctoral degrees, please consult the Graduate College Bulletin: http://www.ou.edu/gradcollege/forms/bulletin

General Information

The Department of Human Relations was founded in 1970 with a mission to train graduate students to be agents of social change. The department has grown to include a Bachelor of Arts (BA) in Human Relations in Norman and a Master's degree in Human Relations (MHR) in Norman, the Master of Science in Clinical Mental health Counseling on the University of Oklahoma campuses in Norman and Tulsa, and the Master of Clinical Mental Health Counseling 100% online program through the Norman campus.

Human Relations is a multi-disciplinary field of study and professional practice combining theoretical perspectives from the social sciences and humanities, organizational studies, the world of work and service, and from multicultural studies. The BA and the MHR/MA/MS degrees prepare students to meet the challenge of working in an increasingly diverse and global workplace.

Programs & Facilities

Student Society for Human Relations

The mission of the Student Society for Human Relations is to promote social justice, principles of tolerance, inclusion, dignity, and equal respect for all groups of people; to serve as social agents of change for the betterment of society; to develop leadership skills as future human relations professionals, and to actively seek ways to build relationships through service with the entire university and with the community at large.

Undergraduate Study

Human Relations degrees prepares graduates for careers focusing on social change and resolution of human relations problems. Students focus on areas of study such as counseling, non-profits, volunteerism, women's issues, race relations, and organizational studies. Many HR undergraduates pursue a Master in Human Relations as a professional degree.

- Human Relations, Bachelor of Arts (p. 457)
- Human Relations Minor (p. 460)

Accelerated BA/MA Program

- B.A. in Human Relations/M.A. in Human Resource Studies (p. 461)

Graduate Study

The Master of Human Relations degree prepares graduates for careers focusing on research and/or resolution of human relations problems.

Particular attention is given to students who work part-time and full-time. To accommodate both traditional and nontraditional students, courses are offered on the Norman campus in the traditional on-campus formate day, evening, weekends, and 100% online. Since its inception, the department has graduated a large number of ethnic minorities, women, older persons returning to college, and international students.

Each student pursuing a Human Relations masters degree is expected to initiate curriculum planning with a major advisor within the first semester. This planning will identify course sequences which seem most likely to lead to mastery in one or more areas of concentration. Some students may not need to design a unique program but may select from concentration options in which the course sequences have been designed by the faculty.

Areas of Specialization

Human relations, human resources, and clinical mental health counseling.

Masters' Degree Programs

On-Campus

- Human Relations (Standard), Master of Human Relations (p. 465)
- Human Resource Studies, Master of Arts (p. 467)
- Clinical Mental Health Counseling, Master of Science (p. 464)

100% Online

- Master of Clinical Mental Health Counseling (p. 463)

Human Relations Graduate Certificates

- Graduate Certificate in Helping Skills in Human Relations (p. 468)

Courses

H R 1113 Human Relations and Community Engagement: Make an Impact 3 Credit Hours
Through this interactive course, you will learn various concepts/theories related to community engagement and volunteerism. This course is taught with a human relations (HR) lens and we discuss topics as they relate to values and concepts. To develop a deeper understanding of community engagement, you will write critical reflection papers over course lectures, readings, and community involvement. (F, Sp, Su)

H R 2013 Understanding American Social Problems 3 Credit Hours
The course will introduce students to social problems in the United States and how they impact human relations and interactions. The course will discuss topics that polarize, unite, or make people indifferent to social problems and issues that impact their daily lives. Human Relations encourages social advocacy and being a change agent when dealing with social problems and issues. (F, Sp, Su)

H R 2443 Introduction to International Human Relations 3 Credit Hours
The goal of this course will be to familiarize you with key international issues relevant to human relations. These include, but are not limited to, gender, nation of origin, culture, etc. (F, Sp) [III-SS].

H R 3003 Human Relations Theory 3 Credit Hours
Prerequisite: junior standing or permission of instructor. Emphasizes key ideas of theorists who have contributed to the interdisciplinary field of human relations. Students are introduced to selected primary readings by influential scholars with the goals of understanding and integrating the various perspectives, and of developing critical thinking skills. (Irreg.)

H R 3013 Introduction to Human Relations 3 Credit Hours
Prerequisite: Sophomore standing. Designed to introduce students to the breadth and depth of the field of human relations. Emphasis is on the processes of communication, problem solving, decision making, conflict and change as they occur in individuals, interpersonal, group and intergroup relations. (F, Sp, Su)

H R 3033 Writing for Human Relations Professionals 3 Credit Hours
Prerequisite: junior standing or permission of instructor. Familiarizes students with the fundamental skills of professional writing and presentation. Student skill development emphasized in the course includes critical thinking, information gathering, comprehensive planning, precise writing, and effective presentations. (Irreg.)

H R 3043 Interpersonal Skills and Group Dynamics 3 Credit Hours
Prerequisite: 3013 or permission of instructor. Students explore interpersonal dynamics that characterize effective communication in families, the workplace, community organizations, and social settings. Focuses on ways to improve relationships and emphasizes observation, analysis, and skill training in relationship development. (Irreg.)

H R 3203 Introduction to Organizational Studies 3 Credit Hours
Prerequiste:3013 or junior standing, or permission of instructor.
This course surveys the basic concepts of organizational studies, including organizational behavior, motivation, leadership, teams, change and development, conflict, organizational structure and design, and innovation. (Irreg.)

H R 3253 Personality and Human Relations 3 Credit Hours
Prerequisite: H R 3013 or junior standing, or departmental permission. This course will introduce students to theories of personality, communication and how they intersect with human relations in both personal and professional relationships. (F)

H R 3303 Family Issues in Human Relations 3 Credit Hours
Prerequisite: 3013 or junior standing, or permission of instructor. This course will focus on contemporary issues challenging families and couples. The text and instruction will explore the ideas of why humans seek intimacy, different forms of human coupling, variations of marriage and family life, parenting, and problems faced by families. (Irreg.)

H R 3313 Ethical Issues in Intercollegiate Athletics 3 Credit Hours
Prerequisite: H R 3013 or junior standing, or permission of instructor. This course examines the landscape of intercollegiate athletics in America, focusing on contemporary ethical issues in college sports and their roles within higher education. Topics include character development, criminal activity, gender access and opportunity, academic scandals, extra benefits, illegal inducements, and athlete compensation. Students will engage in class discussions and critical analysis of these issues. (Irreg.)

H R 3413 Cultural Awareness in Human Relations 3 Credit Hours
Prerequisite: junior standing or permission of instructor. Course explores theory and applications of cross-cultural communication from both practical and academic viewpoints through scholarly internet and multimedia resources. The course will provide an understanding of the possible variations in language, culture, and communication styles that affect human relations work and life in general. (F, Sp)

H R 3960 Honors Reading 1-3 Credit Hours
1 to 3 hours. Prerequisite: Admission to Honors Program. May be repeated; maximum credit six hours. Consists of topics designated by the instructor in keeping with the student's major program. The topics will cover materials not usually presented in the regular courses. (F, Sp, Su)

H R 3970 Honors Seminar 1-3 Credit Hours
1 to 3 hours. Prerequisite: admission to Honors Program. May be repeated; maximum credit six hours. Subjects covered vary. Deals with concepts not usually treated in regular courses. (Irreg.)

H R 3980 Honors Research 1-3 Credit Hours
1 to 3 hours. Prerequisite: Admission to Honors Program. May be repeated; maximum credit six hours. Will provide an opportunity for the gifted Honors candidate to work at a special project in the student's field. (F, Sp, Su)

H R 3990 Independent Study 1-3 Credit Hours
1 to 3 hours. Prerequisite: permission of instructor and junior standing. May be repeated once with change of content. Independent study may be arranged to study a subject not available through regular course offerings. (F, Sp, Su)

H R 4013 Social Change Process 3 Credit Hours
Prerequisite: 3013 or permission of instructor. Utilizing interdisciplinary behavioral sciences literatures, students will gain knowledge of selected laws and community programs that characterize social change activities. Through case studies, guest lectures, and field trips, the students will acquire the skills needed to design and carry out a community project that may positively impact the lives of a target population. (Irreg.)

H R 4023 Understanding Human Relations in Developing Rio de Janeiro Brazil 3 Credit Hours
Prerequisite: ENGL 1213 or EXPO 1213 or concurrent enrollment and departmental permission. Students will examine the diverse issues affecting Brazilian people. Students will gain insight into the difficulties and advantages of implementing change initiative in Rio de Janeiro. Students will explore the role of organizations, NGOs, and community leaders and their impact on change in Brazil. Students will compare Brazilian and US issues that impact their communities. (Sp)

H R G4113 Practicum in Human Relations 3 Credit Hours
Prerequisite: junior standing, two courses in social sciences and permission of instructor. May be repeated with change of content; maximum credit nine hours. Practica are designed for undergraduate and graduate students who wish to acquire experiences in human resources agencies. While directly participating in the helping process, students will learn about the function of professionals in different disciplines, the nature of agencies, their relation to one another and to the community. (F, Sp, Su)

H R 4123 Developing Social Relationships in the Workplace 3 Credit Hours
Prerequisite: H R 3013 or junior standing, or departmental permission. This course examines how social relationships are linked to the interactions, ties, and networks among individuals in organizations. Understanding this dynamic helps explain how individuals integrate and build social capital within complex social contexts. Emphasis is placed on how leaders manage the dynamics emerging from these interactions with the goal of building positive social relationships. (F, Sp, Su)

H R 4153 Introduction to Counseling in Human Relations 3 Credit Hours
Prerequisite: H R 3013 or junior standing, or departmental permission. Introduction to the field of Human Relations Counseling. Provides overview of the field and explores the struggles, uncertainties, demands, and stresses of the helping professions. Students will examine whether the helping professions are right for them, their values, and their belief systems and introduces the helping process, with special attention to the ethics/diversity/stress/burnout, and working in communities. (F, Sp, Su)

H R 4163 Making Men: Media, Identity and Violence 3 Credit Hours
Prerequisite: H R 3013 or junior standing, or departmental permission. This course examines how media and social environments shape norms around manhood and male identity across development. This course explores how individuals navigate peer cultures, family systems, and workplace expectations, and evaluates evidence-based approaches that support healthy, pro-social models of male identity. (F, Sp, Su)

H R 4170 Special Topics in Human Relations 1-3 Credit Hours
1 to 3 hours. Prerequisite: 3013 or junior standing, or permission of instructor. May be repeated with change of content; maximum credit nine hours. The course is designed to permit the study of topical human relations issues. (Irreg.)

H R 4183 Criminal Justice in Human Relations 3 Credit Hours
Prerequisite: H R 3013 or junior standing, or departmental permission. Course focuses on three parts: policing, the courts system, and corrections. The general theme addresses the establishment of and the adaptation to the ever-changing balance between expectations of the community, in terms of safety, and the rights of the individual, in terms of civil liberties and looks at where the criminal justice system succeeds--and where it fails. (F, Sp, Su)

H R 4203 Social Issues in the Workplace 3 Credit Hours
Prerequisite: H R 3013 or junior standing, or permission of instructor. This course provides students with an interdisciplinary examination of human relations, social issues, and the workplace. Historical social change will be examined as it is impacted by workplace dynamics. The course employs a case study approach to explore sociocultural dynamics emerging from social issues in the American workplace. (Irreg.)

H R 4223 International Human Relations 3 Credit Hours
Prerequisite: H R 3013 or junior standing, or departmental permission; course is not open to freshmen. This course familiarizes students with significant international issues relevant to human relations. Explores the meaning of being a Human Relations professional in an increasingly globalized world, including, but not limited to, the role of human relations in addressing issues such as warfare, poverty, international issues affecting children, and the protection of human rights. (Irreg.)

H R 4303 Human Relations in Action 3 Credit Hours
Prerequisite: H R 3013 or sophomore standing. This course introduces the study of how groups organize for change and how individuals apply human relations skills in community and workplace contexts. We will examine how identity, culture, communication, and institutions shape participation, coalition-building, and outcomes. Using an interdisciplinary lens (communication, organizational behavior, social psychology, and cultural analysis), students will connect research to practice through case studies, contemporary examples. (F, Sp, Su)

H R 4313 Intercollegiate Athletic Administration 3 Credit Hours
Prerequisite: 3013 or junior standing, or permission of instructor. Intercollegiate athletics has many constituencies with differing perceptions about its value to higher education and the community. This course is designed to survey intercollegiate athletics in America and its place within higher education. The contributions of college athletics to higher education will be discussed in depth as well as its values to student-athletes. In addition, the organizational structure and roles of the college athletics department are explored in depth. (Irreg.)

H R 4323 Sexism in Modern America 3 Credit Hours
Prerequisite: H R 3013 or Junior standing or departmental permission. This course is designed to take a critical look at sexism in the modern United States. We will examine feminist theories, intersectionality, and gender. (F, Sp, Su)

H R 4413 Adolescent Issues in the African-American Community 3 Credit Hours
Prerequisite: 3013 or junior standing, or permission of instructor. This course is designed to introduce students to adolescent issues facing African-Americans. The course will examine development of all adolescents, as well as critically analyze the major issues and challenges facing African-American youth. Students will also identify possible solutions to these issues. (Irreg.)

H R 4423 Women's Perspectives in Human Relations 3 Credit Hours
Prerequisite: H R 3013 or junior standing, or permission of instructor. This course introduces the history, experiences, and contributions of women and women-identified people through the lens of Human Relations. Emphasis will be placed on ways that social norms, institutions, policies, and media shape opportunities, health and economic outcomes, safety, and leadership across life stages and settings. (Irreg.)

H R 4433 Gender and War 3 Credit Hours
Prerequisite: junior standing or permission of instructor. Course will cover theoretical issues relevant to gender and war as well as applied topics such as child soldiers, refugees, rape as a tool of war, and definitions of human rights. Where relevant, case studies will be used to illustrate the gendered dimensions of warfare. (F, Sp)

H R 4503 Applied Research 3 Credit Hours
Prerequisite: COMM 2513 or ECON 2843 or P SC 3123 or PSY 2003 or PSY 2113 or S WK 2223 or SOC 3123. Introduces students to the theoretical and methodological skills necessary to conduct an applied research program. Methodological approaches are varied and emphasize a range of social science orientations. (Irreg.)

H R 4513 Service Learning 3 Credit Hours
Prerequisite: 3003, 3013, 3043, and 4013. Capstone course to be taken in the final semester. Students apply learning from other courses to a project of significant community need. Classes are held both on campus and on-site, and group work, evaluative discussion, and written reflection are integral parts of the course. (Irreg.) [V] .

H R 4523 Civil Rights Movement 3 Credit Hours
Prerequisite: Junior standing or departmental permission. This course will examine the United States civil rights movement in a broad context of twentieth-century social movements, in particular emphasis on how the African American freedom movement intersected with and influenced other social movements through analysis of the structure and dynamics of the civil rights movement from the viewpoints of history, sociology, and political science. (F, Sp, Su)

H R G4613 Human Relations in Law 3 Credit Hours
Prerequisite: Junior standing or departmental permission. Students learn central issues found when exploring principles of human relations as seen in various areas of law. Students will gain a general framework of law and guidance of human relations principles found within the framework exploring different areas of law where rich examples include constitutional, health, family, criminal, immigration and employment laws. (F, Sp, Su)

H R 4723 Gender and Identity in Human Relations 3 Credit Hours
(Slashlisted with H R 5723) Prerequisite: H R 3013 or junior standing, or departmental permission. This course examines how beliefs, norms, and institutions shape experiences related to gender and sexual identity in community and workplace settings. Emphasis is placed on ways that media, policy, and everyday interactions can relate to bias, harassment, conflict, and well-being. No student may earn credit for both 4723 and 5723. (Irreg.)

H R 4960 Directed Readings 1-3 Credit Hours
1 to 3 hours. Prerequisite: Junior standing and permission of instructor. May be repeated; Maximum credit 6 hours. Faculty supervised exploration of an area of human relations not covered in regularly offered courses. (F, Sp, Su)

H R 4970 Special Topics/Seminar 1-3 Credit Hours
1 to 3 hours. Prerequisite: Senior standing or permission of instructor. May be repeated; maximum credit nine hours. Special topics or seminar course for content not currently offered in regularly scheduled courses. May include library and/or laboratory research and field projects. (Irreg.)

H R 4973 Advanced Research and Writing for Human Relations 3 Credit Hours
Prerequisite: Majors only or departmental permission. Prepares students in Human Relations to produce clear, effective, and well-argued academic writing. Students will conduct online searches, evaluate sources, think critically about issues, and write various types of papers, including a literature review. Expressing clear thoughts in a way that reflects respect for gender, difference, and inclusion will be part of all written exercises. (F, Sp, Su)

H R 4990 Independent Study 1-3 Credit Hours
1 to 3 hours. Prerequisite: three courses in general area to be studied; permission of instructor and department. May be repeated; maximum credit six hours. Contracted independent study for topic not currently offered in regularly scheduled courses. Independent study may include library and/or laboratory research and field projects. (F, Sp, Su)

H R 5003 Theoretical Foundations Of Human Relations 3 Credit Hours
Prerequisite: admission to the degree program in human relations or permission of department. An analysis of human relations theories and concepts from the perspectives of the social sciences, the humanities and education. (F)

H R 5013 Current Problems In Human Relations 3 Credit Hours
Prerequisite: admission to the degree program in human relations or permission of department. In-depth studies of outstanding problems facing social practitioners, including racism, sexism, poverty and human rights. Strategies for change and ethics of intervention also will be discussed. (F)

H R 5022 Research in Human Relations I - Quantitative 2 Credit Hours
Prerequisite: Graduate standing and majors only. Designed to provide basic skills in statistical methods, data analysis and evaluation, introduction to the concepts of research design, methodology, sampling techniques, measurement, and internal/external validity. Special focus: designing/implementing a research project to HR. Methodological approaches are varied ranges of social science orientations. Emphasis on understanding of research methods, critical consumers of research, critical analysis of statistics and research methods. (F, Sp)

H R 5023 Research in Human Relations 3 Credit Hours
Prerequisite: admission to the degree program in human relations or permission of department. Special focus will be upon designing and implementing a research project related to the student's area of concentration in human relations. (Sp)

H R 5043 Seminar in Organizational Change and Development 3 Credit Hours
Prerequisite: graduate standing or permission of instructor. Focus will be upon the change process and a survey of major approaches used to bring about organizational change, such as confrontation meetings, survey feedback, job enrichment, process consultation and third party intervention. (Sp)

H R 5053 Social Relationships in Organizations 3 Credit Hours
Prerequisite: graduate standing or permission of instructor. This course examines how social relationships are linked to the interactions, ties, and networks among individuals in organizations. Emphasis is placed on how these relationships become ingrained in the organization's culture and thereby influencing roles, norms, and beliefs of its members. Understanding this dynamic helps explain how individuals integrate, manage uncertainty, and build social capital within complex social contexts. (Irreg.)

H R 5063 Seminar in Strategies of Social Change 3 Credit Hours
Prerequisite: graduate standing or permission of department. A study of techniques for bringing about individual, group or organizational changes. Special focus will be placed on philosophies and results of violent and nonviolent tactics. (F)

H R 5073 Creative Problem Solving 3 Credit Hours
Surveys the nature of creative thinking and creative problem solving. Topics to be covered include creative thinking obstacles, creativity, readiness, major stages of the creative problem-solving process (fact finding, problem finding, idea finding, solution finding and acceptance finding) and use of a variety of individual and group techniques for different stages in the process. (Sp)

H R 5083 Seminar in Group Dynamics 3 Credit Hours
Prerequisite: graduate standing or permission of department and graduate dean. An intensive study and critical evaluation of social-psychological concepts related to sensitivity training as a human relations technique. (CE)

H R 5093 Introduction to Graduate Studies in Human Relations 3 Credit Hours
Prerequisite: admission to degree program in human relations or permission of instructor. Designed to acquaint graduate students with human relations theory and practice in various contexts. Emphasis is placed on the role of human relations professionals as agents of persistence and change at the interpersonal, group, organizational and societal levels of analysis. (F)

H R 5100 Advanced Theories in Human Relations 1-3 Credit Hours
1 to 3 hours. Prerequisite: graduate standing or permission of instructor. May be repeated with change of content; maximum credit six hours. Additional in-depth studies of human relations theories and their implications for human relations practitioners will focus on topics such as, but not limited to: affirmative action and reverse discrimination; spiritual aspects of recovery in chemical dependency; conceptual models of violence and nonviolence as a basis for peace curriculum; human relations in the twenty-first century; human values in sexuality; and women and men in organizations. (F, Sp)

H R 5110 Advanced Seminar in Current Problems 1-3 Credit Hours
1 to 3 hours. Prerequisite: graduate standing or permission of instructor. May be repeated with change of content; maximum credit six hours. Additional in-depth studies of current social problems and strategies for intervention and change on topics such as, but not limited to: chemical dependency and society; ethnic and gender discrimination issues; disadvantaged children; domestic violence; sexual/physical abuse; physically and emotionally handicapped populations. (F, Sp)

H R 5113 Seminar in Local Issues in Human Relations 3 Credit Hours
Prerequisite: graduate standing or permission of instructor. May be repeated with change of topic; maximum credit nine hours. Variable topics and content related to human relations problems and solutions. (F, Sp, Su)

H R 5122 Research in Human Relations II - Qualitative 2 Credit Hours
Prerequisite: Graduate standing and majors only. Course introduces students to the field of qualitative research and its multiple epistemological approaches that inform the understanding of human behavior, interaction, and structure. Qualitative research is a rigorous process of data collection and analysis that requires a unique skill set. The course will equip students to explore activities relevant to the conduction of qualitative methodology. (F, Sp)

H R 5133 Change, Challenge and Creativity in the Workplace 3 Credit Hours
Prerequisite: graduate standing or permission of instructor. This course examines ways to enhance creativity and the creative problem solving process within the context of a rapidly changing workplace. The major changes occurring in today's workplace and the management of change at both the personal and organizational level will also be considered. Particular emphasis will also be placed on examining the creative process, common barriers to creativity, and a variety of individual and group techniques that foster or facilitate the creative process. (Irreg.)

H R 5143 Human Resources for the Human Relations Professional 3 Credit Hours
Prerequisite: graduate standing or permission of department. This course serves as an introduction to the Human Resource Management (HRM) discipline. Specifically, this course is designed to assist students in discovering what HRM is (and is not), recognizing its' multifaceted and ever evolving nature, and how HRM fits into the total organization. An awareness and understanding of the central HRM topics, competencies, terminology, and ethical issues is foundational to the course. In addition, the highly influential nature of federal and state law on HRM is highlighted. Additionally, this course will illuminate the many rewarding career opportunities available within the HRM discipline. (Irreg.)

H R 5153 Human Emotions 3 Credit Hours
Prerequisite: graduate standing. Goal is to become familiar with some of the major conceptualizations of emotions and the evidence used to validate them; to examine a number of emotions such as attachment, love, loss and grief, depression, anxiety, joy, anger, fear, etc. Will be both didactic and experiential. Skills in self-disclosure, active listening, empathy, confrontation, etc. will be used to increase the understanding of emotions and to increase the ability to communicate emotional content. (Irreg.)

H R 5183 Seminar in Issues in Human Relations Training 3 Credit Hours
Prerequisite: 5083 or 5173. Focuses on theory and research in group dynamics (group development, membership, goals, conformity, power, leadership, essentials in laboratory design); ethics, values and professionalism in human relations; and criticisms of human relations training. (CE)

H R 5193 Intervention and Practice in Training 3 Credit Hours
Prerequisite: 3013, 5003, 5013, 5023, 5083 or 5173. Specifically designed to enable advanced students to explore their skills in working with others from both a theoretical and pragmatic perspective. Students are required, through course content, to develop a clear picture of facilitation, leadership, consultant or teacher style. (Sp)

H R 5200 Internship In Human Relations 1-6 Credit Hours
1 to 6 hours. Prerequisite: admission to the degree program in human relations and permission of department. Field experience in and outside Oklahoma. Each student must have both types of experiences. Agency roles and responsibilities will be learned by on-the-job practice. (F)

H R 5203 Graduate Research and Writing for Human Relations 3 Credit Hours
Prerequisite: graduate standing, majors only, or permission of department. The purpose of this course is to prepare students to produce clear, effective, and well-argued graduate-level academic writing. Students will conduct online searches, evaluate sources, think critically about issues, and write various types of papers, including research papers. Students will learn to express thoughts in a way that fosters mutual respect and develops a sense of belonging. (Irreg.)

H R 5213 Organizational Behavior for Leaders 3 Credit Hours
Prerequisite: Graduate standing and departmental permission. Organizational behavior (OB) represents the behavioral approach to management. OB is concerned with human behavior at work and how various structures and work processes influence such behavior. This course will address several important organizational issues and processes, including organizational culture, group behavior and teamwork, and leadership. (F, Sp, Su)

H R 5223 Leadership for Systemic Change 3 Credit Hours
Prerequisite: Graduate standing and departmental permission. Systemic change is the change that can impact policies, processes, structures, organizational culture, or other ways that an organization's system exists and functions. This course will explore the competencies needed for inclusive leaders to understand the overall alignment of the organization's system to plan, implement, and guide the process, and then assess the effectiveness of the outcomes. (F, Sp, Su)

H R 5253 International Conflict Resolution 3 Credit Hours
Prerequisite: Graduate standing or departmental permission. Course will explore key concepts, chart the development of the field, evaluate successes/failures, assess challenges/debates, discuss environmental conflict resolution in the arts and popular culture, and discuss conflict resolution in the media and the communications revolution. Macro view: integrate demographic factors of religion, politics, geography, history, and economics as conceptual frames of analyses. (F, Sp, Su)

H R 5263 International/Intercultural Awareness 3 Credit Hours
Prerequisite: Graduate standing and departmental permission. Understand diverse cultures using a multidisciplinary approach of how cultures are different and what factors contribute to cultural distinctiveness. Use the tools of history, geography, economics, sociology, and other social/physical sciences for the whys behind cultural distinctiveness. Study how to adapt to cultural differences and work with people from other cultures, domestically and internationally. (Irreg.)

H R 5273 Athletics in Higher Education 3 Credit Hours
(Crosslisted with EDAH 5273) Prerequisite: Graduate Standing. Provide Students With An Understanding Of The History, Structure And Administration Of Intercollegiate Athletics, As Well As An Opportunity To Discuss A Wide Variety Of Related Contemporary Issues. (Irreg.)

H R 5283 Clinical Practicum 3 Credit Hours
Prerequisite: Graduate standing, admission to the Master of Clinical Mental Health Counseling degree program, and departmental permission. This course includes supervised practical experience at approved practicum sites. Emphasis on counseling theory, practice skills, professional identity, and theory and technique integration. Weekly conferences on counseling issues, practice development, and professional identity. (F, Sp, Su)

H R 5293 Multicultural Issues in Human Relations 3 Credit Hours
Prerequisite: Graduate standing or departmental permission. This course focuses on the historical, social, cultural, economic, and political situation of selected populations in the USA. It examines complex issues in workplace diversity, and skills, policies, and processes that foster a culture that affirms diversity in the workplace and scrutinizes potential barriers to culturally competent practices. (Irreg.)

H R 5303 Stress Management 3 Credit Hours
Prerequisite: Graduate standing or departmental permission. The course will teach human relations professionals various methods of stress management and prevention that can be used with clients, employees, co-workers, and family. It offers an examination of one's stressors and how to find a balance of mental, emotional, physical, and environmental stress management techniques for leading healthier and more productive lives. (Irreg.)

H R 5313 Leadership in the Legal Environment 3 Credit Hours
Prerequisite: Graduate standing and departmental permission. Leaders should be highly competent in concepts relevant to discrimination and harassment law. In this course, students will explore federal constitutional and federal statutory legal protections related to discrimination, which supersede state and local protections. 14th Amendment equal protection as it is applied to laws via strict scrutiny for suspect classifications and related due process will be examined. (F, Sp, Su)

H R 5323 Organizational Behavior in Human Relations 3 Credit Hours
Prerequisite: graduate standing. Organizational behavior (OB) represents the behavioral approach to management. OB is concerned with human behavior at work and how various structures and work processes influence such behavior. This course will address a number of important organizational issues and processes, including organizational culture, group behavior and teamwork, and leadership. (Su)

H R 5343 Conflict Resolution 3 Credit Hours
Prerequisite: graduate standing or permission of instructor. This course will explore the nature and origins of human conflict in modern life. It will emphasize an understanding of conflict and resolution methods useful in professional counseling and other HR settings such as organizational development and interpersonal facilitation. (Irreg.)

H R 5353 Organizational Communication in Human Relations 3 Credit Hours
Prerequisite: graduate standing or permission of instructor. This course will explore organizational communication concepts, theories, research, and practical applications for human relations professionals. (Irreg.)

H R 5363 Program Training & Development 3 Credit Hours
Prerequisite: Graduate standing and Departmental Permission. This course explores the process of program training and development with an emphasis on DEI and social justice. Specifically, this course examines the individual and organization strategies designed to foster inclusive and diverse environments using program training and examines the application of theoretical frameworks used in today's organization, as well as developing needs assessment, planning/budgeting, goal setting/evaluation methods. (F, Sp, Su)

H R 5383 Public Policy for Human Relations Professionals 3 Credit Hours
Prerequisite: graduate standing or permission of instructor. This course examines how public policy is made at various levels of government and how these policies affect society. Particular emphasis will be given to public policy issues that affect human relations professionals, their clients, and the public and private agencies in which they work. (Irreg.)

H R 5393 Team Building 3 Credit Hours
Prerequisite: Graduate standing or departmental permission. The course content is devoted to team success. It focuses upon three major areas for teamwork: basic team concepts, internal team dynamics, and external team dynamics. Learn concepts, ponder thought-provoking questions, participate in the class exercises, assess a case study involving a team experience, and write a critique of a journal article. (Irreg.)

H R 5403 Psycho-Social Development 3 Credit Hours
Prerequisite: graduate standing or permission of instructor. Covers human psycho-social development. Discussion of the expanding social realm of the developing individual. Theories and research in a variety of areas related to social development will include: attachment, aggression, sex typing, moral development, and parent-child interaction. (F, Sp)

H R 5413 Addiction Counseling 3 Credit Hours
Prerequisite: HR 5533, HR 5453, HR 5463, Graduate standing and Departmental Permission; Clinical Mental Health Counseling students only. Explores how addiction affects physical, psychological, and social functioning in individuals and communities. The dynamics of addiction, treatment, and the recovery process are explored. Attention is given to the emotional, physical, psychological, and sociocultural aspects of addiction. (F)

H R 5423 Family Systems and Family Reconstruction 3 Credit Hours
Prerequisite: permission of instructor. Teaches students how to impact family systems. Through didactic and experiential learning, students will learn how students function in systems and explore their own rules for living in systems. (CE)

H R 5433 Group Counseling in Human Relations 3 Credit Hours
Prerequisite: graduate standing or permission of instructor. Examines a variety of group counseling models, types of groups (process, solution-focused, action-oriented), the role of the group counselor, group members, and techniques and strategies for facilitating group work. (Irreg.)

H R 5443 Adolescent Issues in Human Relations 3 Credit Hours
Prerequisite: graduate standing or permission of instructor. Designed to acquaint human relations professionals with issues facing teens today. The pressures confronting youth along with various adaptive and maladaptive coping behaviors will be studied. (F, Sp, Su)

H R 5453 Ethical Issues in H R Counseling 3 Credit Hours
Prerequisite: graduate standing or permission of instructor. Surveys ethical, legal, and professional issues facing human services workers. (F, Sp, Su)

H R 5463 Counseling Skills in Human Relations 3 Credit Hours
Prerequisite: graduate standing or permission of instructor. Introduce students to the helping professions and provide them with a basic mastery of important counseling skills in human relations. (Irreg.)

H R 5473 Women and Mental Health 3 Credit Hours
Prerequisite: graduate standing or permission of instructor. Examines psychological theory and practice as it pertains to women. This course will look at traditional theories and practice, new approaches to working with women, and topical issues. (Irreg.)

H R 5483 Diagnosis in Human Relations Counseling 3 Credit Hours
Prerequisite: graduate standing or permission of instructor. Introduces students to the diagnostic systems of mental disorders outlined by the American Psychiatric Association and the World Health Organization. Also covers principles and techniques of interviewing which produce a correct diagnosis. (F, Sp)

H R 5493 Assessment and Evaluation in Human Relations 3 Credit Hours
Prerequisite: graduate standing or permission of instructor. Provides an overview of clinical and social assessment procedures used in counseling settings including career and life planning, personality, and mental health assessments. Emphasis is placed on a thorough examination of diagnostic classifications for mental disorders. Also develops a working knowledge of assessment skills along with a bias-free multicultural perspective, and ethical issues applicable to assessment. (F, Sp)

H R 5503 Research for Counseling 3 Credit Hours
Prerequisite: Graduate Standing and Departmental Permission; Clinical Mental Health Counseling students only. This course examines techniques involving quantitative, qualitative, and mixed methods methodology will be introduced and applied to clinical mental health counseling settings. Special attention will be given to program evaluation and techniques in applying research methods to clinical practice. (F, Sp, Su)

H R 5513 Couples and Family Counseling 3 Credit Hours
Prerequisite: HR 5533, HR 5453, HR 5463, Graduate standing and Departmental Permission; Clinical Mental Health Counseling students only. This course explores different methods and theoretical approaches for counseling with intimate interpersonal relationships and families. (F, Sp, Su)

H R 5523 Counseling With Children, Adolescents, and Families 3 Credit Hours
Prerequisite: graduate standing or permission of instructor. This course will explore various theories, modalities and practices working with young children, adolescents and their families. Students will be introduced to theories of development; individual, group and family therapies, and a meta-theoretical framework of social construction. (Irreg.)

H R 5533 Counseling Theories in Clinical Mental Health Counseling 3 Credit Hours
Prerequisite: Graduate Standing and Clinical Mental Health Counseling students only, or Departmental Permission. This course emphasizes skills training in counseling approaches utilized by human relations practitioners. The skills training is organized according to basic counseling and psycho-therapy theories, including psychodynamic, behavioral, cognitive, existential-humanistic, multicultural, systemic and integrative approaches. (F, Sp, Su)

H R 5553 Marital and Family Assessment 3 Credit Hours
Prerequisite: graduate standing or permission of instructor. This course will explore various approaches to conceptualizing assessment of couples and families. (Irreg.)

H R 5563 Career Counseling 3 Credit Hours
Prerequisite: graduate standing or permission of instructor. Explores conceptual and functional tools for enhancing career development of children, youth and adults in both counseling and corporate human resource relationships. Class participants have the opportunity to experience a variety of career assessment tools including interest inventories, personality assessments and values clarification exercises. Career counseling strategies for a variety of life situations are discussed. (Irreg.)

H R 5573 Personality and Personality Disorders 3 Credit Hours
Prerequisite: graduate standing or permission of instructor. This course will explore the historical and contemporary concepts of personality development, personality styles and personality disorders, as well as examine personality disorders and their treatment. (Irreg.)

H R 5583 Counseling for Wellbeing and Access 3 Credit Hours
Prerequisite: Graduate standing or permission of instructor. This course explores theories and methods that promote fair access and client wellbeing within clinical mental health practice. Ethical responsibilities for identifying and reducing barriers to mental health services will be discussed. Students will apply these concepts through readings, discussions, case studies, and class projects. (Irreg.)

H R 5593 Multicultural Counseling 3 Credit Hours
Prerequisite: Graduate standing or permission of instructor. The model of multicultural understanding followed in this course is intended to increase the understanding of culturally diverse groups. This class is both practice and theory oriented. Emphasis will be placed on providing a broader knowledge base and developing the skills to counsel individuals from various cultures. (Irreg.)

H R 5613 Assessment and Evaluation in Counseling 3 Credit Hours
Prerequisite: Graduate Standing and Clinical Mental Health Counseling students only. An examination of the major individual, marital, and family assessment strategies and instruments. Students will receive training in the use of both testing and non-testing approaches to assessment and appraisal. Attention will be given to the relationship between assessment, diagnosis, and treatment planning. (F, Sp, Su)

H R 5623 Post-Traumatic Stress Disorder 3 Credit Hours
Prerequisite: graduate standing, majors only; or permission of department. Concentrates on what constitutes post-traumatic stress, its assessment, diagnosis, and therapeutic intervention. Covers different sources of post-traumatic stress, as well as different methods of evidence-based treatment modalities. Special populations are also addressed. (Irreg.)

H R 5633 Advanced Counseling Skills 3 Credit Hours
Prerequisite: graduate standing, majors only, or permission of department. An advanced study of various counseling approaches with opportunities for demonstration and evaluation of each student's counseling skills. Designed to provide the student with advanced exploration and analysis of current counseling practice. Students will be expected to demonstrate the ability to analyze, synthesize, critique, and discuss, in verbal and written form, the key concepts of traditional and contemporary counseling practice. (Irreg.)

H R 5643 Crisis Intervention and Trauma Counseling 3 Credit Hours
Prerequisite: HR 5533, HR 5453, HR 5463, and graduate standing; Clinical Mental Health Counseling majors only. Designed to facilitate knowledge and skills related to crisis intervention and trauma counseling. Focuses on individuals, families, and groups facing mental, physical, developmental, occupational, residential, and environmental crises, as well as the methods of assessment and intervention. (F, Sp, Su)

H R 5653 Grief, Death and Dying 3 Credit Hours
Prerequisite: graduate standing, majors only or permission of department. Explores grief counseling throughout the human life cycle with particular attention paid to the aspects of death and dying. (Irreg.)

H R 5663 Psychopathology 3 Credit Hours
Prerequisite: graduate standing, majors only, or permission of department. Provides an in-depth review of a broad spectrum of psychopathological conditions. The focus of the review will include the etiology, prevalence and incidence, signs and symptoms, and criteria for differential diagnoses. The emphasis of this review will be on comparing and contrasting different theoretical perspectives of each disorder. (Irreg.)

H R 5673 LPC Clinical Supervision 3 Credit Hours
Prerequisite: graduate standing, majors only, or permission of department. Students will become familiar with models of counseling supervision; become familiar with the Oklahoma LPC Supervision requirements and become acquainted with the research in counselor training and supervision. (Irreg.)

H R 5683 Working with Divorcing Families 3 Credit Hours
Prerequisite: graduate standing, majors only, or permission of department. Designed to prepare students for counseling with families experiencing separation, divorce and remarriage. Provides students with current information concerning divorce as well and options for helping children and adults cope with divorce in a constructive way. (Irreg.)

H R 5693 Issues in Aging 3 Credit Hours
Prerequisite: graduate standing, majors only, or permission of department. Designed to acquaint students with the interdisciplinary field of gerontology. Provides students with the opportunity to explore current topics associated with the aging process. Also examines contemporary issues that impact individuals, families and society during the later years. Finally, provides an overview of theory, policies and practices associated with aging and counseling with elderly clients. (Irreg.)

H R 5703 International Human Relations 3 Credit Hours
Prerequisite: graduate standing or permission of instructor. This course will examine ways to understand people of different cultures. It uses a multidisciplinary approach to look at the roots and explanations of differences between cultures and what these differences mean for working with people of different backgrounds. This course utilizes the tools of history, geography, economics, sociology, and other social and physical sciences to understand why people are different in order to identify strategies for building effective human relations. (Irreg.)

H R 5713 Women, Work, and the Family 3 Credit Hours
Prerequisite: Graduate standing and majors only or permission of instructor. This course is a creative exploration of the dynamics of women's issues in both the family and the workplace. Using a developmental perspective, we will study the societal conditioning creating the "superwoman," balancing roles, gendered expectations of women's and men's roles in the family and workplace, child care, racial differences, time-management, challenges in the workplace, and relational practice at work. (Irreg.)

H R 5723 Gender and Identity in Human Relations 3 Credit Hours
(Slashlisted with H R 4723) Prerequisite: Graduate standing and majors only or permission of instructor. This course examines how beliefs, norms, and institutions shape experiences related to gender and sexual identity in community and workplace settings. We will survey research on identity development, role expectations, stigma, and organizational climate, with attention to how media, policy, and everyday interactions can relate to bias, harassment, conflict, and well-being. No student may earn credit for both 4723 and 5723. (Irreg.)

H R 5733 Program Assessment and Evaluation 3 Credit Hours
Prerequisite: Graduate standing and departmental permission. Students will be introduced to the evaluation design process; learn how to engage stakeholders in crafting evaluation designs; study the fundamentals of designing exploratory, process, and outcome evaluations; and learn how to select an evaluation design that best meets a client's information needs. The focus of this course is on the contexts/purposes/techniques for assessing and evaluating social policy implications (F, Sp, Su)

H R 5743 Violence Against Women and Children 3 Credit Hours
Prerequisite: graduate standing or permission of instructor. The effects of violence on women, children and families will be presented within an academic and clinical framework for purposes of developing skills for assessment, intervention, and prevention. Students will discuss various strategies for crisis intervention, safety planning, and preferred counseling methods for abuse victims. Students will discuss the historical implications of violence against women and the effects on human relationships in contemporary society. (Irreg.)

H R 5763 Human Sexuality 3 Credit Hours
Prerequisite: graduate standing, majors only, or permission of instructor. Examines sexuality in the context of current research, culture and opposing perspectives. The various definitions, experiences, and expressions of sexuality will be explored and debated in order for students to develop individual perspectives on human sexuality. Willingness to openly discuss topics of sexuality and relationship is critical for this course. (Irreg.)

H R 5773 Policy, Program, and Practice 3 Credit Hours
Prerequisite: Graduate standing and departmental permission. This course explores the relationship between policy, programs, and practices that support equity, inclusion, social justice, access, and diversity. Students will examine notable policy in the U.S. that was designed to address access and equity issues for marginalized and minoritized communities. Students will identify and discuss key programs that have been designed as a response to policy and transformative practices. (F, Sp, Su)

H R 5793 Social Change and the Law 3 Credit Hours
Prerequisite: Graduate standing and departmental permission. Explore social justice as seen in various areas of law to include general framework of law and guidance of human relations principals found within the framework. Explore different areas of law with examples of human relations and social justice, to include but not limited to: constitutional law, health law, family law, criminal law, immigration law, and employment law. (F, Sp, Su)

H R 5803 Total Rewards: Compensations and Benefits for HR Management Professionals for the HR Prof 3 Credit Hours
Prerequisite: H R 5143 or graduate standing or permission of the department. A core Human Resource Management competency, Total Rewards: Compensation and Benefits will provide students with an introduction to compensation and benefit programs. Specifically, students will explore the forms of direct (compensation) and indirect (benefits) compensation used to attract, reward, and retain employees. The design, administration, and evaluation of compensation systems and benefit programs are also examined. Further, students will also analyze the legal and regulatory factors affecting total rewards planning and delivery. Additionally, this course will illuminate the many rewarding career opportunities available in the Total Rewards discipline. (Irreg.)

H R 5813 Business Management and Strategic Planning 3 Credit Hours
Prerequisite: H R 5143 or graduate standing or permission of department. Introduction to the overall strategic planning process of organizations. Students will explore organizational strategic planning processes to include but not limited to: development of mission, vision, values, goals and objectives; policy formation, enforcement, and evaluation. In addition, evaluation of organizational strategic planning is analyzed. Further, students will understand how employees contribute to the overall effectiveness of an organization by studying how organizations assess and deploy human capital. (Irreg.)

H R 5823 Workforce Planning & Employment, A Component of Human Resource Management for the HR Prof 3 Credit Hours
Prerequisite: H R 5143 or graduate standing or permission of department. Workforce Planning and Employment is one of the courses applied to the area of Human Resource Management for the Human Relations Professional. Workforce Planning and Employment highlights the activities necessary to ensure the workforce's ability to achieve the organization's goals and objectives. Specific areas covered include: key laws and regulations (ADA, Title VII, Affirmative Action, etc.), organizational staffing requirements and methods, job analysis and documentation, recruitment, flexible staffing, selection and retention, organizational exit, and employee records and retention. (Irreg.)

H R 5833 Human Resource Development 3 Credit Hours
Prerequisites: H R 5143 or graduate standing or permission of department. Learning and Development (L&D) is a broad discipline utilized in a number of fields. Designated as a core course for the Human Resource certificate program, L&D offers learners an examination of key legislation affecting L&D activities, L&D theory, role of technology in L&D, and the intricacies of Human Resource L&D. In addition, examines the analysis, development, design, implementation, and evaluation of learning and development programs. (Irreg.)

H R 5853 Employee and Labor Relations for HR Management Professions in Human Relations 3 Credit Hours
Prerequisites: H R 5143 or graduate standing or permission of department. Examines the employer/employee relationship. Introduces students to the key employment law, i.e., state, local, and federal laws and regulations that govern organizational structure and operations and help to maintain an ethical, healthy, and safe work environment. Among the ideas analyzed include: how workplace relationships are managed and maintained; how organizations balance employer/employee needs and rights while supporting organizational goals and objectives. A broad overview, students will become familiar with a plethora of employee relations issues such as termination, policy development, and interpretation of the most significant laws that affect HRM. (Irreg.)

H R 5863 Human Resources for the HR Prof Fundamentals of Human Resource Information Systems 3 Credit Hours
Prerequisites: H R 5143 or graduate standing or permission of department. This course examines the ever growing field that is Human Resource Information Systems (HRIS). Specifically, students will explore the metamorphosis of human resource technology; how it has gone from situational asset to mandatory strategic business partner across the Human Resource Management gamut. Designed to develop an awareness and appreciation of the nature and use of data and information systems in organizations, this course will introduce students to the various HRIS systems utilized by organizations and the associated analysis, design, and implementation of those systems. Additionally, this course will illuminate the many rewarding career opportunities available within the HRIS discipline. (Irreg.)

H R 5873 Organizational Ethics 3 Credit Hours
Prerequisite: Graduate standing or departmental permission. Course focuses on professional values, integrity, and ethical decision-making processes in organizations. Students will discover theoretical and practical ways to approach moral/ethical dilemmas in organizational life and improve skills in moral reasoning/ethical decision-making. A case study approach is used to analyze/resolve ethical dilemmas/situations from a practitioner, human relations perspective. Emphasis placed on ethical leadership in organizations' social justice outcomes. (F, Sp, Su)

H R 5880 Human Relations Capstone 1-3 Credit Hours
1 to 3 hours. Prerequisite: graduate standing and permission of department and instructor. May be repeated; maximum credit 3 hours. Human Relations capstone is designed as a culminating experience for students electing the non-thesis track. Students will develop, under the direction of their advisor or approved faculty, a capstone project centered in Human Relations. The project shall be specific to student's elected H R concentration. (F, Sp, Su)

H R 5883 Introduction to the Counseling Profession 3 Credit Hours
Prerequisite: Graduate standing and departmental permission. This course introduces the graduate student to the practice of Licensed Professional Counselors (LPC), utilizing instructor(s) from the LPC field. This course covers the history, development, and implementation of licensed counselors. (F, Sp, Su)

H R 5893 Psychopharmacology 3 Credit Hours
Prerequisite: Graduate standing; departmental permission or permission of instructor. This course serves as an introduction to psychopharmacology for mental health counselors and the commonly prescribed psychotropic medications used to address mental health disorders as defined in the Diagnostic and Statistical Manual of Mental Disorders (DSM - 5). Emphasis will be placed on the use of medications from a biopsychosocial perspective and the therapeutic role of the counselor. (F, Sp, Su)

H R 5903 Counseling Internship I 3 Credit Hours
Prerequisite: HR 5883, HR 5533, HR 5453, HR 5463, HR 5483, HR 5433, HR 5593, HR 5613, Clinical Mental Health Counseling students only, Graduate standing and Departmental Permission. The internship is 300 total hours of direct and indirect on-site work experience at an agency, organization, business firm, institution or other professional or industry setting to fulfill the requirement for a Master of Clinical Mental Health Counseling. The Internship provides extensive supervised on-the-job experience in a setting within the counseling profession. (F, Sp, Su)

H R 5913 Counseling Internship II 3 Credit Hours
Prerequisite: HR 5903, Clinical Mental Health Counseling students only, Graduate standing and Departmental Permission. The internship is 300 total hours of direct and indirect on-site work experience at an agency, organization, business firm, institution or other professional or industry setting to fulfill the requirement for a Master of Clinical Mental Health Counseling. The Internship provides extensive supervised on the job experience in a setting that is within the counseling profession.

H R 5923 Human Growth and Development 3 Credit Hours
Prerequisite: Graduate Standing and Clinical Mental Health Counseling students only. This course will explore development through the human life span from a psycho-social approach and will examine theoretical approaches from the mid-twentieth century to recent theoretical perspectives. In this context, the expanding social realm of the developing individual will be discussed along with research in a variety of areas related to social development including cognitive and social neurosciences. (F, Sp, Su)

H R 5960 Directed Readings in Human Relations 1-6 Credit Hours
1 to 6 hours. Prerequisite: graduate standing, permission of instructor. May be repeated; maximum credit six hours. Individual investigations and report of findings on selected problems in human relations education. (F, Sp, Su)

H R 5963 Leadership in Organizations 3 Credit Hours
Prerequisite: Graduate standing and departmental permission. This graduate level course is designed to explore the conceptual, theoretical, and practical aspects of leadership in organizational settings. This course is useful for future as well as current managers. (F, Sp, Su)

H R 5970 Special Topics/Seminar 1-3 Credit Hours
1 to 3 hours. Prerequisite: Graduate standing or permission of instructor. May be repeated; maximum credit six hours. Special topics or seminar course for content not currently offered in regularly scheduled courses. May include library and/or laboratory research and field projects. (Irreg.)

H R 5980 Research for Master's Thesis 2-9 Credit Hours
Prerequisite: admitted to candidacy for a Master of Human Relations. Variable enrollment, two to nine hours; maximum credit applicable toward degree, four hours. Original paper in an area of concentration in human relations. (F, Sp, Su)

H R 5990 Independent Study 1-4 Credit Hours
1 to 4 hours. Prerequisite: 5023 or equivalent and permission of instructor. May be repeated; maximum credit six hours. Individual investigation of special research topics in human relations. (F, Sp, Su)

H R 6980 Research for Doctoral Dissertation 2-16 Credit Hours
2 to 16 hours. Prerequisite: Graduate standing and permission of instructor; may be repeated. Directed research culminating in the completion of the doctoral dissertation. (F, Sp, Su)

Courses for fulfillment of General Education and Dodge College of Arts & Sciences requirements must be from the approved General Education

course list published in the Class Schedule or at http://www.ou.edu/gened/courses. **Courses graded P/NP will not apply.**

MINIMUM OF 40 HOURS REQUIRED FOR UNIVERSITY-WIDE GENERAL EDUCATION

Code	Title	Credit Hours
Core Area I: Symbolic and Oral Communication		
English Composition (6 hours)		
ENGL 1113	Principles of English Composition	3
ENGL 1213	Principles of English Composition	3
or EXPO 1213	Expository Writing	
Language (0-13 hours in the same language)		
The college requirement cannot be met by high school coursework.		
Beginning Course		0-5
Beginning Course, continued		0-5
Intermediate Course (2000 level) [1,2]		0-3
Mathematics (3 hours)		
Choose one course from the General Education Mathematics list		3
Core Area II: Natural Science (7 hours, including one laboratory component)		
Biological Science		
Choose an approved General Education Natural Science course with one of the following prefixes: BIOL, HES, MBIO, or PBIO [1]		3-4
Physical Science		
Choose an approved General Education Natural Science course with one of the following prefixes: AGSC, ASTR, CHEM, GEOG, GEOL, GPHY, METR, or PHYS [1]		3-4
Core Area III: Social Science (6 hours)		
P SC 1113	American Federal Government	3
Choose one course from the General Education Social Science list		3
Core Area IV: Arts and Humanities (18 hours)		
Artistic Forms		
Choose one course from the General Education Artistic Forms list		3
Western Culture		
HIST 1483	United States to 1865	3
or HIST 1493	United States, 1865 to the Present	
Choose one course from the General Education Western Culture list (excluding HIST 1483/1493)		3
World Culture		
Choose one course from the General Education World Culture list		3
Additional Core IV Upper-Division Arts & Humanities courses		
Choose one course from Artistic Forms, Western Culture, or World Culture [1,3]		3
Choose one course from Artistic Forms, Western Culture, or World Culture [1,3]		3
Core Area V: First Year Experience (3 hours)		
Choose one course		3
Total Credit Hours		**56**

1. College of Arts and Sciences Requirements: college requirements are not automatically fulfilled by a previous degree.
2. One course at the intermediate level or demonstrated competency at that level
3. 6 upper-division hours, 2 courses, at the 3000- 4000-level. ***Must be outside the major.***

Free Electives

Electives to bring total applicable hours to the minimum total required for the degree including 48 upper-division hours.

Information Concerning General Rules, Regulations and Minimum Requirements

Arts and Sciences Hours: At least 80 semester hours of liberal arts and sciences courses are required for a BA degree. At least 55 semester hours of liberal arts and sciences courses are required for a BS degree.
Pass/No Pass Enrollment: A maximum of 16 semester hours of free elective credit may be attempted under this option.
Individual Studies (e.g., courses titled "Independent Study"): A maximum of 12 total semester hours may be counted toward graduation, excluding Honors Reading and Honors Research.
P.E. Courses: No physical education activity courses will be counted toward the 120 semester hours of acceptable credit for graduation.
Senior Institution Hours: A minimum of 60 semester hours applied toward graduation must be earned at senior (4-year) institutions.
Residency:

- At least 15 of the final 30 hours applied toward the degree or at least 50 percent of the hours required by the institution in the major field must be satisfactorily completed at the awarding institution.
- At least 15 semester hours of upper-division major work must be completed in residence at OU.
- OU correspondence courses are ***not*** considered resident credit.

Grade Point Averages: Students must earn a minimum over all 2.00 for each of the following: Combined Retention GPA (all college grades), OU Retention GPA, GPA for all major courses, and GPA for all major courses taken at OU. Some schools and departments of the College have higher minimum grade point averages required for their students.

Suggested Semester Plan of Study

This plan shows one possible grouping of courses that would allow students to graduate in four years. Please refer to the front of the degree checksheet for official requirements. Students must consult with Dodge College of Arts and Sciences and/or Department of Human Relations academic advisors to verify that courses selected each semester fulfill the recommended plan and satisfy University, College of Arts and Sciences, and Human Relations major requirements.

Freshman		
First Semester		**Credit Hours**

[1] Any one of these courses will satisfy both the General Education Mathematics requirements as well as the major support requirement for a statistics course.

[2] The following courses will satisfy both the General Education Non-Western Culture (Core IV) requirement and the cultural diversity major support requirement: AFAM 2003, ANTH 1613, ANTH 1823, ANTH 2203, or ANTH 2613.

Human Relations, Minor

Minimum Total Credit Hours: 15
Minimum Upper-Division Hours: 9

Program Code: N515

- **The requirements for a minor must be completed concurrently with the major degree requirements.**
- **No minor may be added by completing courses after receiving the bachelor's degree.**

At least six (6) credit hours must be earned in courses acceptable for residence credit by standards set forth by the Dodge College of Arts and Sciences, excluding transfer, correspondence, and examination (AP, CLEP, Advanced Standing) credit. Courses for the minor may not be taken Pass/No Pass.

No single course may be used by a student to satisfy a major requirement and a minor requirement. A course may be used, however, to satisfy both a major support requirement and a minor requirement.

Requests to substitute a minor requirement must be approved in writing by the Department of Human Relations.

Required Courses

Students must successfully complete at least 15 hours of coursework in Human Relations, including at least nine (9) hours at the upper-division level.

Code	Title	Credit Hours
H R 3013	Introduction to Human Relations	3
Choose four courses from any undergraduate Human Relations coursework		12
Total Credit Hours		**15**

- Minors in the Dodge College of Arts & Sciences are available to all undergraduate students at OU. If the minor is officially declared, successfully completed, and noted on the graduation application, the

student's transcript will so indicate at the time the bachelor's degree is posted.

Human Relations, B.A./Human Resource Studies, M.A.

Minimum Total Credit Hours: 141
Major Hours: 36
Minimum Upper-Division Hours: 48

Overall GPA - Combined and OU: 3.00
Major GPA - Combined and OU: 3.00

Program Code: A515/F520 Q325

Major Requirements

- **Some courses required for the major may also fulfill University General Education and/or Dodge College of Arts & Sciences Requirements.**
- **A grade of C or better is required in each major course.**

Code	Title	Credit Hours
Core Requirements		
H R 3003	Human Relations Theory	3
H R 3013	Introduction to Human Relations	3
H R 3033	Writing for Human Relations Professionals	3

NOTES

- **For Non-Thesis students, the comprehensive exam will be completed during the last two semesters of the program concurrently with Counseling Internship I and, if needed, Counseling Internship II.**

CMHC TRANSFER CREDIT GUIDELINEs

Transfer credits are not accepted for the online Master of Clinical Mental Health Counseling program.

General Requirements for all Master's Degrees

The master's degree requires the equivalent of *at least* two semesters of satisfactory graduate work and additional work as may be prescribed for the degree.

All coursework applied to the master's degree must carry graduate credit.

Master's degree programs which require a thesis consist of *at least* 30 credit hours. All non-thesis master's degree programs require *at least* 30 credit hours.

Credit transferred from other institutions must meet specific criteria and is subject to certain limitations.

Courses completed through correspondence study may *not* be applied to the master's degree.

To qualify for a graduate degree, students must achieve an overall grade point average of 3.0 or higher in the degree program coursework and in all resident graduate coursework attempted. A student must also have at least a 3.0 in all coursework (including undergraduate coursework if any).

Additional information for master's degree students may be found in the Graduate College Bulletin.

Clinical Mental Health Counseling, M.S.

Minimum Total Hours (Non-Thesis): 60

Program Code: M205

Program Requirements

- This program is Non-Thesis Only.

Code	Title	Credit Hours
Core Requirements		
H R 5883	Introduction to the Counseling Profession	3
H R 5533	Counseling Theories in Clinical Mental Health Counseling	3
H R 5503	Research for Counseling	3
H R 5923	Human Growth and Development	3
H R 5453	Ethical Issues in H R Counseling	3
H R 5613	Assessment and Evaluation in Counseling	3
H R 5593	Multicultural Counseling	3

H R 5633	Advanced Counseling Skills	3
H R 5563	Career Counseling	3
H R 5903	Counseling Internship I [1]	3
H R 5913	Counseling Internship II	3
Electives		
15 additional hours of counseling electives are required from the LPC course list and will be approved by the graduate liaison.		15
Total Credit Hours		**60**

[1] Students must complete 30 hours of core counseling courses prior to enrolling in practicum (H R 5283), and 48 hours of core counseling courses prior to enrolling in internship (H R 5903).

NOTES

- **For Non-Thesis students, the comprehensive exam will be completed during the last two semesters of the program concurrently with Counseling Internship I and, if needed, Counseling Internship II.**

Human Relations Transfer Credit Guidelines:

- Students may transfer no more than 9 hours of graduate counseling-based credit from other universities. These credits must be evaluated by the university. They may not be applied toward individual course requirements without prior graduate liaison approval.
- Other OU Graduate Classes: No more than 9 hours of graduate counseling-based credit taken in other OU programs may be used

toward the CMHC degree. These hours must be approved by the HR graduate liaison.

- Students may not apply more than 9 combined hours of transfer credit and OU credit outside the HR program.
- A letter must accompany all transfer hours from the school-of-origin outside of the State of Oklahoma stating which LPC course requirement the course(s) fulfill(s). These transfer hours will then get departmental approval.
- At least 30 hours of a student's coursework must be in classroom-based H R classes. Practicum and Internship is not classroom-based and therefore cannot be counted as part of the 30 hours of classroom based work. Also, other University of Oklahoma courses and transfer hours do not count as part of these 30 hours.
- Transfer courses cannot be older than 5 years old at the time of graduation.

General Requirements for all Master's Degrees

The master's degree requires the equivalent of *at least* two semesters of satisfactory graduate work and additional work as may be prescribed for the degree.

All coursework applied to the master's degree must carry graduate credit.

Master's degree programs which require a thesis consist of *at least* 30 credit hours. All non-thesis master's degree programs require *at least* 30 credit hours.

Credit transferred from other institutions must meet specific criteria and is subject to certain limitations.

Courses completed through correspondence study may *not* be applied to the master's degree.

To qualify for a graduate degree, students must achieve an overall grade point average of 3.0 or higher in the degree program coursework and in all resident graduate coursework attempted. A student must also have at least a 3.0 in all coursework (including undergraduate coursework if any).

Additional information for master's degree students may be found in the Graduate College Bulletin.

Human Relations (Standard), M.H.R.

Minimum Total Hours (Thesis): 36
Minimum Total Hours (Non-Thesis): 36

Program Code: M515 Q325 (M516 Q325 Online)

Requirements

All MHR students (M515) must take the same 6 hours of core coursework and choose from one of two concentrations, Standard (Q325) or Human Resources (Q326).

Thesis Option

Code	Title	Credit Hours
Core Courses		
H R 5023	Research in Human Relations	3
H R 5093	Introduction to Graduate Studies in Human Relations	3
Standard Concentration		
H R 5003	Theoretical Foundations Of Human Relations	3
H R 5013	Current Problems In Human Relations	3
Choose a second research class to be determined by the thesis committee		3
H R 5980	Research for Master's Thesis	4-6
Electives		
Choose 15-17 hours [1]		15-17
Total Credit Hours		**36**

[1] No more than six hours of H R 5100, six hours of H R 5110, six hours of H R 5990, and nine hours of H R 5113 may count towards degree; No more than a combined total of six hours of H R 5960 and H R 5970 may count towards the degree.

Non-Thesis Option

Code	Title	Credit Hours
Core Courses		
H R 5023	Research in Human Relations	3
H R 5093	Introduction to Graduate Studies in Human Relations	3
Standard Concentration		
H R 5003	Theoretical Foundations Of Human Relations	3
H R 5013	Current Problems In Human Relations	3
H R 5200	Internship In Human Relations	6
Electives		
Choose 18 hours [1]		18
Total Credit Hours		**36**

[1] No more than six hours of H R 5100, six hours of H R 5110, six hours of H R 5990, and nine hours of H R 5113 may count towards degree; No more than a combined total of six hours of H R 5960 and H R 5970 may count towards the degree.

Notes

- **At least 15 hours of a student's coursework (except students in the 100% online program) must be in classroom-based H R classes. Internship, independent study, directed reading, and practicum are not classroom-based and therefore cannot be counted as part of the 15 hours of classroom-based work. Also, other University of Oklahoma courses and transfer hours do not count as part of these 15 hours. Students facing circumstances which prevent them from meeting this requirement may petition the graduate liaison for an exception, with good cause. The graduate liaison has the discretion to approve fewer than 15 classroom-based HR hours, with appropriate justification and in limited circumstances.**
- **MHR students may transfer no more than 9 hours of graduate credit from other universities. These credits must be evaluated by the university. They may not be applied toward individual course requirements without prior graduate liaison approval. MHR students**

may not apply more than 9 combined hours of transfer credit and OU credit outside the HR program.

- **Other OU Graduate Classes: No more than 9 hours of graduate credit taken in other OU programs may be used toward the MHR degree. These hours must be approved by the graduate liaison.**

General Requirements for all Master's Degrees

The master's degree requires the equivalent of *at least* two semesters of satisfactory graduate work and additional work as may be prescribed for the degree.

All coursework applied to the master's degree must carry graduate credit.

Master's degree programs which require a thesis consist of *at least* 30 credit hours. All non-thesis master's degree programs require *at least* 30 credit hours.

Credit transferred from other institutions must meet specific criteria and is subject to certain limitations.

Courses completed through correspondence study may *not* be applied to the master's degree.

To qualify for a graduate degree, students must achieve an overall grade point average of 3.0 or higher in the degree program coursework and in all resident graduate coursework attempted. A student must also have at least a 3.0 in all coursework (including undergraduate coursework if any).

Additional information for master's degree students may be found in the Graduate College Bulletin.

Human Relations: Human Resources, M.H.R.

Minimum Total Hours (Thesis): 36
Minimum Total Hours (Non-Thesis): 36

Program Code: M515 Q326

Requirements

All MHR students (M515) must take the same 6 hours of core coursework and choose from one of two concentrations, Standard (Q325) or Human Resources (Q326).

General Requirements for all Master's Degrees

The master's degree requires the equivalent of *at least* two semesters of satisfactory graduate work and additional work as may be prescribed for the degree.

All coursework applied to the master's degree must carry graduate credit.

Master's degree programs which require a thesis consist of *at least* 30 credit hours. All non-thesis master's degree programs require *at least* 30 credit hours.

Credit transferred from other institutions must meet specific criteria and is subject to certain limitations.

Courses completed through correspondence study may *not* be applied to the master's degree.

To qualify for a graduate degree, students must achieve an overall grade point average of 3.0 or higher in the degree program coursework and in all resident graduate coursework attempted. A student must also have at least a 3.0 in all coursework (including undergraduate coursework if any).

Additional information for master's degree students may be found in the Graduate College Bulletin.

Helping Skills in Human Relations, Graduate Certificate

Minimum Total Hours: 12

Program Code: G047

The certificate provides professionals in a wide variety of helping professions with the knowledge and skills to improve relationships, and to be effective and ethical helpers.

Certificate Requirements

Code	Title	Credit Hours
H R 5003	Theoretical Foundations Of Human Relations	3
H R 5463	Counseling Skills in Human Relations	3
or H R 5633	Advanced Counseling Skills	
H R 5453	Ethical Issues in H R Counseling	3
Choose one 3-credit elective as approved by the chairperson or graduate liaison for the Department of Human Relations		3
Total Credit Hours		**12**

A graduate *certificate* is not a graduate *degree*. A graduate degree represents a program of independent inquiry beyond the depth of coursework alone, while a graduate certificate represents a set of courses only.

- All courses must be taken at OU. No transfer credit will apply.
- No course substitutions are permitted for graduate certificates.
- Coursework applied to a graduate certificate cannot be more than five years old as of the semester the graduate certificate is awarded.
- Students must earn a grade point average of 3.00 or higher on all coursework applied to the graduate certificate.

David L. Boren Department of International Studies

Jonathan Stalling, Interim Dean
Farzaneh Hall, Room 305
729 Elm Avenue
Norman, OK 73019-2105
Phone: (405) 325-1584
FAX: (405) 325-7738
cis@ou.edu
www.ou.edu/cis

General Information

The David L. Boren Department of International Studies works with colleges and departments across campus to promote internationalization of the curriculum of the University of Oklahoma and to train students to succeed in an increasingly interdependent world. At the center of the department's academic programs are the B.A. in International and Area Studies and the M.A. in International Studies. The goal of these degrees is to prepare students to take positions of leadership in fields such as international affairs, international business, and international non-profit services. In addition to a core faculty appointed within the department, some faculty are jointly appointed in International Studies and another academic department. In addition, more than 100 faculty across campus are involved as affiliate faculty of International Studies.

Students take a wide range of courses drawing from the Boren Department of International Studies (IAS); the departments of Anthropology, Communication, Economics, History, History of Science, Film and Media Studies, Modern Languages, Literatures, and Linguistics,

Philosophy, Political Science, Religious Studies, Sociology, Women's & Gender Studies (Dodge College of Arts and Sciences); Art History, Music History (Weitzenhoffer Family College of Fine Arts); Geography (College of Atmospheric and Geographic Sciences); Architecture (Gibbs College of Architecture), among others.

Careers

The Boren Department of International Studies provides the first stage for students interested in foreign service, international relations, business, law, research, teaching, public service, or any other career where international knowledge and experience is useful and desirable.

Programs & Facilities

Scholarships and Financial Aid

In addition to general scholarships offered through the University of Oklahoma, the David L. Boren Department of International Studies offers several scholarships sponsored by alumni and friends. IAS scholarships include:

- Admiral William J. Crowe, Jr. Award
- Ambassador Edward J. Perkins Scholarship
- Student Support Grants and Emergency Relief Fund
- St. Elijah's and Anthony Shadid Award
- Board of Visitors Scholarship
- Latin American Studies Best Paper Contest
- Parsa Scholarship for Iranian Studies
- Boren Scholars and Fellows Program (NSEP)
- Additional undergraduate and graduate level scholarships and awards

The Admiral William J. Crowe, Jr. Award is awarded annually to the most outstanding graduating senior in the Boren Department of International Studies. The Award recognizes an IAS student that has demonstrated high academic achievement, a commitment to public service and a desire to pursue a career in global affairs. The recipient receives a cash award and recognition at the IAS convocation.

Visit the International Studies website for more information on the scholarships above and for application details.

Student Life

The University of Oklahoma has a wide range of student organizations that may be of interest to International Studies students.

International Security Students Association

The International Security Students Association is a student-led organization dedicated to cultivating globally-focused discussions and career opportunities for all OU students interested in foreign affairs, intelligence and defense, current events, and other international fields. At its core, ISSA functions as a space for globally-minded individuals to share their thoughts and opinions with other students in a casual setting. ISSA is further dedicated to informing OU students of academic, career, and internship opportunities in all international studies-related fields.

Internships

Internship experience can make a very valuable contribution to a student's educational development, and International Studies students are strongly encouraged to take advantage of these opportunities when they become available. Under certain conditions, it is possible to earn academic credit for an internship in the Boren Department of International Studies.

Model United Nations

Model United Nations imitates the work of the UN and aims to gain a deeper understanding of the work they do in the world. One of MUN'S main tasks is to analyze the work that the UN does and try to simulate innovative ways such a large organization could become even more effective. MUN meets once a week on Mondays and hosts special events throughout the year. Each year, the group travels to their annual Midwest MUN Conference in St. Louis, Missouri, where they participate in debates and mock crisis-solving for three days with delegates from other universities. Model UN is open to all students, regardless of major or experience.

Phi Beta Delta

Phi Beta Delta is an honor society which serves to recognize and encourage high achievements in the field of International Education. It encourages interdisciplinary contacts and promotes the exchange of ideas in the area of international affairs among students, faculty, and staff of the university community, and between it and other academic institutions. Membership is open to all students and faculty whose study includes an international focus. For more information, visit the department's website.

Phi Beta Kappa

Phi Beta Kappa, the nation's oldest college honor society, was founded at the College of William and Mary in 1776. Alpha Chapter of the University of Oklahoma was chartered in 1920. Membership in Phi Beta Kappa is open by invitation only to seniors in the Boren Department of International Studies, the College of Arts and Sciences, Gaylord College of Journalism, and a limited number of other programs. Seniors with distinguished academic records are elected in March/April of each year. Students who graduate at the end of the summer session or fall semester are eligible for election the following spring. For additional information about the University's Phi Beta Kappa chapter, contact the Department of International and Area Studies academic counselor, or visit the Phi Beta Kappa website.

Research Centers and Institutes

The David L. Boren Department International Studies is home to research centers and institutes that engage with scholars from all over the world and promote cross-cultural collaboration throughout the university. These centers provide learning opportunities for students, faculty and the community alike, hosting events and guest speakers as well as other initiatives.

- **African Studies Institute**
  The African Studies Institute (ASI) at the University of Oklahoma is an emerging, interdisciplinary center dedicated to research and the study of Africa, as well as building a community of those interested in Africa in the state of Oklahoma.

- **Center for the Americas**
  The Center for the Americas is dedicated to enhancing programming at the University of Oklahoma in several areas of the Western Hemisphere. Its major focus is in Latin America, but it also promotes activities on the Caribbean, Canada and global U.S. foreign policy.

- **Center for Brazil Studies**
  The Center for Brazil Studies is a hub for teaching, research and outreach relating to Brazil at the University of Oklahoma. The Center works in cooperation with other OU programs/centers,

departments, and colleges, as well as with Brazilian institutions, academics and professionals, to provide the OU faculty and students with opportunities to develop language skills (Portuguese), to develop substantive knowledge on/professional experience in Brazil, to engage in contemporary Brazilian debates and to engage in research in, about and with Brazil.

- **Center for Middle East Studies**
  The goal of the Center for Middle East Studies (CMES) is to enrich Middle East programming at the University of Oklahoma. CMES brings three distinguished speakers to the University each semester, sponsors informal "brown bag" lunches, and supports Middle East events on campus.

- **Center for Peace and Development**
  The Center for Peace and Development (CPD) builds on OU's longtime work with communities in northern Uganda. CPD brings together faculty and students from across the University's varied disciplines to build collaborative partnerships with communities affected by conflict.

- **Center for the Study of Nationalism**
  The Center for the Study of Nationalism (CSN) engages OU faculty and students in the empirical and theoretical aspects of studying nationalism and related cultural and political issues, including: cultural authenticity and reinvention; self-determination and secession; ethnic conflict and civil war; immigration and citizenship; globalization, development and inequality; minority rights, accommodation and nation-building.

- **Cyber Governance and Policy Center**
  The Cyber Governance and Policy Center is dedicated to enhancing research-based understanding of policy and governance issues pertaining to modern information and communications technology, broadly understood to include cyber-physical systems. The center serves as a focal point for research on such issues at the University of Oklahoma, facilitating collaboration among faculty and graduate students across a range of disciplines including International Relations, Political Science, Law, Communications, Economics, Business, Engineering and Computer Science.

- **Farzaneh Family Center for Iranian and Persian Gulf Studies**
  The Farzaneh Family Center for Iranian and Persian Gulf Studies aims to coordinate a variety of curricular, research and outreach activities at OU that explore the history and culture of Iran and the Persian-speaking world. These activities include lectures, conferences, film screenings, exhibits, concerts and other programs.

- **Institute for US-China Issues**
  The Institute for U.S.-China Issues at the University of Oklahoma was established in August 2006 with the generous financial support of Harold J. & Ruth Newman. The Institute seeks to enhance the understanding and management of U.S.-China relations by simultaneously addressing two sets of interrelated issue clusters — the security, technology, economic, environmental, public health and political (STEEPP) issues, and the instrumental role culture plays in shaping how the two nations perceive and engage each other. To achieve this goal, the Institute works along parallel tracks through public programming, research, publications, symposiums and teaching to tackle both the STEEPP and cultural issues confronting the two nations.

- **Center for Middle East Studies**
  The Center for Middle East Studies (CMES) was established in 2004 to serve as the leading hub for Middle East and North Africa studies, research, and programs at the University of Oklahoma. CMES covers peoples, cultures, and lands that relate to the Middle East, the Sahel and West Africa, East Africa, North Africa, Afghanistan, and Pakistan, and their diasporas.

Undergraduate Study

Bachelors of Arts Degrees

International and Area Studies offers Bachelor of Arts degrees with majors in Asian Studies, European Studies, Global Energy, Environment and Resources, International Development, International Studies, International Security Studies, Latin American Studies, and Middle Eastern Studies.

Asian Studies

Asian Studies (p. 484) challenges students to integrate language and cultural skills to prepare for careers in the Pacific region. The objectives of the program are to provide an understanding of the fundamentals of the civilizations of Asia in both traditional and modern settings, and to provide a more in-depth comprehension of specific areas within the region. This major features courses from such departments as Anthropology, Art, Communication, Geography, History, Philosophy, Political Science, Sociology, Modern Languages, Literatures and Linguistics, and the Department of International and Area Studies. Students will obtain an educational foundation appropriate for teaching, business, research, foreign service, technological and economic development, as well as other careers related to Asia.

European Studies

European Studies (p. 487) immerses students in European history and culture. The course of study includes literature, art, and geography, as well as the politics and economics of the region. The scope of the program includes western, central and Mediterranean Europe since approximately 1500. European Studies graduates will be capable of functioning in at least one European country in which a language other than English is spoken, and they will be able to read materials in the language of that country.

European Studies: Russian & East European Studies

Russian & East European Studies (p. 490) is a special concentration within the European Studies major. It allows students to specialize in the study of Russia and its neighboring countries in Eastern Europe and Eurasia in preparation for careers in teaching, research, business, government or foreign service. The program provides a broad and multi-disciplinary introduction to the larger region, with course offerings in languages, literature, political science, history, economics, geography, music, and film.

Global Energy, Environment, and Resources

Global Energy, Environment, and Resources (p. 492) students receive training that emphasizes policy, management, and sustainability in an international context. This major provides students with the skills they need to succeed in an international field with growing employment opportunities.

International Development

The International Development (p. 495) major equips students with a comprehensive set of skills enabling them to analyze and understand socioeconomic issues in developing countries. Students will take courses in development economics and political economy as well as courses that examine development from historical, cultural, and social perspectives.

Students will be strongly encouraged to make an internship with a development agency part of their international experience.

International Security Studies

International Security Studies (p. 498) is designed for the student looking for a career in the fields of foreign policy or national security. The program allows students to develop proficiency in any language recognized to be a critical security language, as well as the culture where that language is spoken. Specialized classes help students to understand international organizations and the global issues that affect security around the world. This degree prepares students for careers with US federal and state agencies, international organizations and companies in the private sector that operate in critical regions of the world.

International Studies

The International Studies (p. 502) major allows students to gain a global perspective on world affairs. Through an interdisciplinary curriculum that focuses on world history, international relations and international economics, students learn how the international system operates and prepare themselves for careers in foreign affairs or international business, for advanced training in international law or business. Like the area studies programs, the international studies program requires strong understanding of a foreign language and a period of study or work abroad. Students may also combine International Studies with a minor in one of the Area Studies programs.

Latin American Studies

Latin American Studies (p. 505) provides a concentration in the region's history and culture. The course of study features Latin America's economic, geographic, social and political patterns as well as its problems. With a population nearing half a billion people, Latin America has traditionally been, and is now more than ever, a critical area for the United States. Students will examine the historical ties between the two regions in relation to the commonality of cultures and objectives that are becoming increasingly stronger as interdependence grows. Students majoring in Latin American Area Studies will choose their language specialization and begin studying the Spanish and/or Portuguese language as early as their freshman year.

Middle Eastern Studies

Middle Eastern Studies (p. 508) allows students to combine their study of either Arabic or Hebrew with courses in the history, religions and cultures of the Middle East from Ancient to modern Times. This program will provide the student with a basic understanding of the peoples and history of this diverse and culturally-rich region of the world and a firm foundation for further study. The cultural and language proficiency achieved will also serve as excellent preparation for a variety of job opportunities in teaching, business, government or foreign service.

International Studies Undergraduate Certificate

Global Engagement

The Global Engagement undergraduate certificate (p. 519) is designed to enhance students' knowledge of the global community, including international affairs and modern global issues, as well as encourage them to become active global citizens.

BA/MA Accelerated Degree

The International Studies, Bachelor of Arts/Global Studies, Master of Arts (p. 519) is an accelerated program designed for exceptional students to earn both the BA and MA in International Studies in 5 years of study.

Minors

International and Area Studies also offers Minors in most major fields, as well as a minor in African Studies and Iranian Studies. An attractive advantage of an International and Area Studies minor is that it can allow a student in any major to earn a minor while completing General Education requirements. Many of the courses required for an IAS Minor are approved for certain general education credits, thus, students can fulfill General Education requirements and earn credit for a minor simultaneously. Students currently majoring in an area of International and Area Studies may also minor in a different area of International and Area Studies with approval of the department.

- African Studies Minor (p. 511)
- Asian Studies Minor (p. 512)
- European Studies Minor (p. 513)
- Global Energy, Environment and Resources Minor (p. 514)
- International Development Minor (p. 515)
- International Security Studies Minor (p. 515)
- International Studies Minor (p. 516)
- Iranian Studies Minor (p. 517)
- Latin American Studies Minor (p. 517)
- Middle Eastern Studies Minor (p. 518)
- Russian and East European Minor (p. 518)

Graduate Study

Master of Arts Degrees

The Global Studies, Master of Arts (p. 525) equips students with the tools to engage a globally integrated environment, whether in the realm of diplomacy and Foreign Service, non-profit and non-governmental organizations, think-tanks, research institutes, or academia. With a focus on international politics, foreign policy, and policy analysis, the program also provides a rigorous foundation in global economics, global security, law and institutions, and area studies, and allows students to concentration their coursework in one of these four sub-fields. The Global Studies program emphasizes a "cohort model," whereby students admitted the same year take many of the same classes together, participating in various group activities, projects, and assignments, most notably culminating in the Global Policy Workshop in the final semester.

The Global Affairs, Master of Arts (p. 523) enables students to pursue studies with a focus on the political, economic and social interactions that have an impact on global turbulence. The program's coursework is designed to provide students with a global vision from a variety of disciplinary perspectives. Additionally, students will develop expertise in one or more geographic areas of the globe. The program will provide valuable and practical experience through a planned policy exercise and collective study abroad program. Students will increase their knowledge of global affairs, enhance their ability to operate in a dynamic global environment and expand their global connections, contributing to professional success.

Courses

IAS 1223 Introduction to Asian Philosophy 3 Credit Hours
(Crosslisted with PHIL 1223) Survey of the major figures and schools of philosophy in Asia. Includes study of Hinduism, Buddhism, Confucianism, and Daoism. (Irreg.) [IV-WDC].

IAS 1533 Global Perspectives 3 Credit Hours
This course promotes an intercultural awareness that will allow students to interact more effectively with others. It will teach core cultural fluency competencies, including an understanding of different cultural norms and practices, cross-cultural communication, as well as critical thinking and problem-solving, drawing upon diverse experiences and perspectives. (F, Sp, Su) [V-FYE].

IAS 2003 Understanding the Global Community 3 Credit Hours
The world today is an interdependent global community that requires an awareness of international politics and economics. This course seeks to enhance our understanding of the global community because of the impact of international relations on our lives and the lives of others around the world. (F, Sp) [III-SS] .

IAS 2123 China Today 3 Credit Hours
China has the largest population and standing army in the world with a GDP of over $7 trillion. Long-term economic development of every country depends on China, and China's rapid modernization is changing the face of global politics and culture. Students will be exposed to the diversity and complexity of modern China. (F, Sp) [IV-WDC].

IAS 2133 International Sports 3 Credit Hours
This course examines the social, political, economic, and cultural effects of sports on the global stage. In addition to surveying the history of international sport, it analyzes the relationship between sports and national identity, economic development, and global governance, among other topics, by drawing on cases from Asia, Africa, and Latin America. (Irreg.) [IV-WC].

IAS 2970 Special Topics/Seminar 1-3 Credit Hours
Special Topics. 1 to 3 hours. May be repeated; Maximum credit nine hours. Special topics course for content not currently offered in regularly scheduled courses. May include library and/or laboratory research, and field projects. (Irreg.)

IAS 3000 Special Topics in International and Area Studies 1-4 Credit Hours
Prerequisite: junior standing or permission of instructor. May be repeated with change of content; maximum credit 12 hours. Special topics are courses of variable credit that examine international or global issues. (Irreg.)

IAS 3003 Topics in International and Area Studies 3 Credit Hours
Prerequisite: ENGL 1213 or EXPO 1213; May be repeated with change of content; maximum credit 15 hours. A maximum of 12 hours may be applied to the major. An examination of several selected topics in international and area studies. (Irreg.)

IAS 3013 International Law 3 Credit Hours
Prerequisite: ENGL 1213 or EXPO 1213. Examines international law. Broad issues include the different sources of international law, the relationship between international law and states, individuals and other international actors, the content of international law as it pertains to different issues areas, and how these bodies of law generally affect international relations. (Irreg.) [IV-WC] .

IAS 3023 International Human Rights Clinic 3 Credit Hours
Prerequisite: ENGL 1213 or EXPO 1213. This class will actively involve students in seeking international remedies for human rights violations across the globe. Students will learn when and how past and present cases can be brought for consideration by international organizations, such as the Inter-American Commission on Human Rights and the UN treaty bodies. Students will develop professional skills required in international human rights work. (Irreg.)

IAS 3033 International Human Rights 3 Credit Hours
Prerequisite: ENGL 1213 or EXPO 1213. Examines the increasingly complex body of substantive law and political practices related to the protection and promotion of human rights and fundamental freedoms in international law and politics. Explores major international and regional systems of enforcement, and the growing role of human rights in domestic politics and international relations. (Irreg.)

IAS 3043 Global Security 3 Credit Hours
Prerequisite: ENGL 1213 or EXPO 1213. Examines some of the major security challenges confronting the United States and the international community in the 21st century, and how these challenges differ from our expectations of conflict -- major, minor, inter-state, and intra-state -- in recent decades. (Irreg.) [IV-WC].

IAS 3053 Globalization: The Politics of Global Governance 3 Credit Hours
Prerequisite: ENGL 1213 or EXPO 1213. This course covers the actors, institutions and processes by which international cooperation and coordination are created and maintained. It emphasizes major themes including power and authority, change in institutions over time, and roles for public and private actors. Students apply theoretical and thematic knowledge to key issues like humanitarian intervention, cybersecurity, the global economy and the environment. (Irreg.) [IV-WC].

IAS 3063 Basic Arctic Security 3 Credit Hours
Prerequisite: ENGL 1213 or EXPO 1213. The Arctic is becoming more accessible due to climate change and a future conflict in the next few decades over resources and trade routes is becoming increasingly possible. This course examines the current governance of the Arctic and how major powers like the U.S./West and Russia are re-militarizing and focusing on hard security in this remote polar region. (Irreg.)

IAS 3073 Global Economic Relations 3 Credit Hours
Prerequisite: ENGL 1213 or EXPO 1213; ECON 1113 or ECON 1123 recommended but not required. Examines relations among states from the perspective of economic competition and cooperation. Explores political conflicts that have risen over trade, capital flows, and other international economic exchanges. The primary focus is on the role of states and international organizations in shaping the global economy. (Irreg.) [III-SS] .

IAS 3083 International Activism 3 Credit Hours
Prerequisite: ENGL 1213 or EXPO 1213. Examines the role that nongovernmental actors play in international relations as they work independently and in concert to advocate for various transnational causes. Specifically, explores the concept of transnational advocacy and the ways in which individual and group activists affect change around the world. (Irreg.) [IV-WC].

IAS 3093 Global Health Perspectives 3 Credit Hours
Prerequisite: Junior standing or permission of instructor. This course provides an anthropological approach to global health. It examines how health conditions change over time as economic and social culture changes. Students will meet with health professionals and researchers in the field of health and nutrition and explore how health care is intertwined with cultural and social elements, such as the environment, the economy, religion, politics and development. (Irreg.)

IAS 3103 Activism, Art & Leadership 3 Credit Hours
Prerequisite: Departmental permission, President's Leadership Class students only. Taught on-site in Arezzo, Italy. This course examines the leadership role that governments and activists play in international relations and other sectors as they work to advocate for local, regional, national and transnational causes. Specifically, the class explores international advocacy and the ways in which individual and group activists frame/promote issues of concern to affect change around the world.

IAS 3123 Arab Visual Cultures 3 Credit Hours
Prerequisite: ENGL 1213 or EXPO 1213. This course introduces students to the visual cultures that shape the Arab World, ranging from traditional Islamic calligraphy to contemporary forms of visual media, including film, political cartoons, comics, fashion, art, and social media. Students will examine how visual culture shapes and reflects Arab identities, values, and experiences, and how it challenges dominant narratives, amplifies under-represented voices, and drives change. (Irreg.) [IV-WDC] .

IAS 3143 Chinese Politics 3 Credit Hours
Prerequisite: ENGL 1213 or EXPO 1213. This course provides a systematic investigation into how the political system works in contemporary China. Specifically, it will examine how the Chinese state structures and adjusts the country's political system, governs the Chinese society, performs the fundamental functions of a modern state, coordinates interests, builds system resilience, and manages political developments at home and abroad in the 21st century. (Irreg.) [IV-WDC] .

IAS 3153 Chinese Foreign Policy 3 Credit Hours
Prerequisite: junior standing or permission of instructor. Provides a comprehensive introduction to Chinese foreign policy. Examines several key issues and concepts, including China's external relations prior to "Liberation" in 1949, international relations theory, the history of the PRC's foreign relations, and vital foreign policy issues confronting China in the 21st century. (Irreg.)

IAS 3173 Work, Family, and Religion in Rural China 3 Credit Hours
Prerequisite: ENGL 1213 or EXPO 1213. Examines changes over the last century in work patterns, family life, and religion in rural China. It particularly focuses on issues causing instability and transformation both in China and the developing world, including sexuality, gender, and family dynamics; the rural-urban divide; internal migration; religious conflict and repression; and the agency of marginalized populations. (Irreg.) [IV-WDC].

IAS 3193 Environment and Disease Crises in China 3 Credit Hours
Prerequisite: ENGL 1213 or EXPO 1213. Explores the intertwined relationship of environment, agriculture, economic development, pollution, disease, patriotism, domestic security, and international conflict in China and how it deals with environmental issues and disease crises . Of particular concern are China's devastating water shortage that threatens to leave much of northern China without water in the next twenty years, major epidemics, and China's aging, rural population. (Irreg.) [IV-WDC].

IAS 3203 The Middle East Since World War I 3 Credit Hours
Prerequisite: ENGL 1213 or EXPO 1213. Examines major religions and ethnic groups of the Middle East; also explores how the largest ethnic groups have decided to define their national identities: Arabs, Jews, Turks, Iranians and Kurds. Topics include the Arab-Israeli conflict and possibilities of peace, and the Gulf regions where Iran, Saudi Arabia and Iraq have fought for supremacy and control of oil and the Gulf. (Irreg.) [IV-WDC].

IAS 3223 Modern Iran: Islam & Revolution 3 Credit Hours
Prerequisite: ENGL 1213 or EXPO 1213. Surveys the history of Iran from the 16th century to the present. Topics include the rise of the Safavid dynasty in the sixteenth century, the establishment of Shi'ism, reform in the nineteenth century, great power politics, Western cultural and intellectual influence, nationalism, the Islamic revolution of 1979, and Iran since the revolution. (Irreg.) [IV-WDC].

IAS 3233 Nationalism and the Middle East 3 Credit Hours
Prerequisite: ENGL 1213 or EXPO 1213. Survey of the history of the Middle East from 1800 to the present. Analyzes the origins of politics of national identity in the region as a result of transformations rooted in the nineteenth century, its rise to dominance as a form of politics and ideology during the twentieth century, as well as countervailing trends that today challenge its continued dominance. (Irreg.) [IV-WDC].

IAS 3273 The European Union 3 Credit Hours
Prerequisite: ENGL 1213 or EXPO 1213. Is EU an economic superpower? Can the EU reach the objective of rivaling the U.S. diplomatically shared by many political leaders in Europe? This course will help students understand contemporary debates about the nature of the European Union, its place in the world, and its current economic and political challenges. (Irreg.)

IAS 3303 National Security Policy 3 Credit Hours
Prerequisite: ENGL 1213 or EXPO 1213. This course provides students with an interdisciplinary overview of issues in U.S. national security. It introduces students to the various national security agencies, bureaucracies, advisors, and organizations to understand their respective origins and evolutions. Students will analyze in-depth historical case studies of consequential geopolitical events to see the national security in action and its implications for contemporary U.S. policy. (Irreg.)

IAS 3313 Latin American International Relations 3 Credit Hours
Prerequisite: ENGL 1213 or EXPO 1213. Examines international relations of Latin America in an interdisciplinary fashion. International relations is broadly defined in this course, and includes economic and cultural aspects as well. (Irreg.) [IV-WC] .

IAS 3323 The Political Economy of Development 3 Credit Hours
Prerequisite: ENGL 1213 or EXPO 1213. Examines the relationship between politics and economics in less developed countries. Reviews the history of economic theories of development and also examines the economic effects of inward looking trade policies and political stability in Latin America and India, as well as the political economy of recent reforms in both areas. (Irreg.)

IAS 3343 Chinese Philosophy 3 Credit Hours
(Crosslisted with PHIL 3343) Prerequisite: six hours of philosophy or junior standing. Survey and analysis of the major texts and schools of philosophy in China, from the ancient world to the contemporary era. (Irreg.) [IV-WDC].

IAS 3353 Modern Brazil 3 Credit Hours
Prerequisite: ENGL 1213 or EXPO 1213. Introduction to contemporary Brazilian history and culture. Broad overview of Brazil's colonial history and emergence as a modern nation, and an exploration of the country's incredible cultural and regional diversity, as well as some of the challenges it currently faces. Course material includes exploration of indigenous realities, the rural landless movement, poverty and crime, gender, family, race, contemporary religion, etc. (Irreg.) [IV-WC].

IAS 3383 The United Nations & World Politics 3 Credit Hours
Prerequisite: ENGL 1213 or EXPO 1213. The focus of this course will be on understanding the roles played by the UN and related inter-governmental organizations in world politics pertaining to four broad issue areas: international peace and security, human rights and humanitarian affairs, the global environment, and global trade and development. (Irreg.) [IV-WC].

IAS 3393 Iranian Society through Cinema 3 Credit Hours
Prerequisite: ENGL 1213 or EXPO 1213. This course attempts to understand Iranian society and culture through the lens of Iran's post-revolutionary cinema. In moving beyond stereotypical images presented by mass media, modern Iranian cinema provides a medium to study issues such as religion, gender, class, and politics of Iran today. (Irreg). (Irreg.) [IV-WDC].

IAS 3403 US-Iranian Relations: History, Politics, and the Road to Confrontation 3 Credit Hours
Prerequisite: ENGL 1213 or EXPO 1213. Since the revolution of 1979, Iran and the United States have been engaged in a political, diplomatic, and ideological "cold war". This course is designed to place the recent politics of US - Iranian relations within a larger historical narrative of US-Iranian contact, cooperation, and conflict. (Irreg.)

IAS 3413 Iran and Islam in Global History 3 Credit Hours
Prerequisite: ENGL 1213 or EXPO 1213. Surveys the role of Iran within Middle Eastern history, culture, and society from antiquity to eve of modern period. Topics include: Iranian empires in ancient period, history of Zoroastrianism, advent of Islam and Arab conquest of Iran; emergence of Persian literary tradition in Islamic culture; emergence of the Turko-Persian Safavid state in 16th century and formation of Shi'ite-Iranian culture. (Irreg.) [IV-WDC].

IAS 3423 Middle East Through Film 3 Credit Hours
Prerequisite: ENGL 1213 or EXPO 1213. This course provides a survey of Middle Eastern history and politics through film. Emphasis will be on how the history and politics of the Middle East has been portrayed through the medium of cinema, with special focus on cultural representation and the role of film in determining contested historical and political understandings of the region. (Irreg.) [IV-WDC].

IAS 3433 International Relations in the Middle East 3 Credit Hours
Prerequisite: ENGL 1213 or EXPO 1213. Examines the major wars of the region from the First World War and ending with the US invasion of Iraq. Covers the Arab-Israeli conflict, the cold war, and the contest for control of the Persian gulf and oil markets. Investigates the role of the great powers and the major Middle Eastern states in shaping international relations in the region. (Irreg.) [IV-WDC] .

IAS 3440 Mentored Research Experience 3 Credit Hours
0 to 3 hours. Prerequisites: ENGL 1113 or equivalent, and permission of instructor. May be repeated; maximum credit 12 hours. For the inquisitive student to apply the scholarly processes of the discipline to a research or creative project under the mentorship of a faculty member. Student and instructor should complete an Undergraduate Research & Creative Projects (URCP) Mentoring Agreement and file it with the URCP office. Not for honors credit. (F, Sp, Su)

IAS 3443 Political Islam 3 Credit Hours
Prerequisite: ENGL 1213 or EXPO 1213. Examines the Muslim brotherhood since its founding in 1928, its radicalization under Sayyid Qutb, and the many groups that look to it for inspiration. Covers Al-Qaida, Hizbullah, and Hamas, the tensions between Shiites and Sunnis, and how some Middle Eastern countries have dealt with the growth of radical Islamic groups. (Irreg.) [IV-WDC].

IAS 3473 The Arab-Israeli Conflict 3 Credit Hours
Prerequisite: ENGL 1213 or EXPO 1213. A survey of the history of the conflict around Eretz Israel/Palestine, with the aim of providing a better understanding of its roots and recent developments. The course looks at both sides of the conflict at various moments throughout its history and will present two very different historical narratives: the Israeli/Jewish and the Palestinian/Arab. (Irreg.)

IAS 3503 The United States and the Middle East: 1945-Present 3 Credit Hours
Prerequisite: ENGL 1213 or EXPO 1213. This course is an introduction to the historical and contemporary relationship between the United States and the Middle East from the nineteenth century until the present, with a concentration on the period since 1945. The course will focus on the political and economic aspects of US-Middle East relations but will also consider the cultural and social dimensions of this interaction. (Irreg.)

IAS 3523 Women and Gender in South Asia 3 Credit Hours
Prerequisite: junior standing or permission of instructor. Considers how women/gender have been thought from 19th century articulation of "The Women's Question" and Women's Reform to present day rethinking of state based rights strategies and normative gender constructions in the Indian Subcontinent. Scholarly articles, primary sources, fiction, and film interrogate questions about women's place in society, women and the state, gendering work, and women's lives in South Asia. (Irreg.) [IV-WDC].

IAS 3533 Political Violence in Comparative Perspective 3 Credit Hours
Prerequisite: ENGL 1213 or EXPO 1213. This course examines the major topics within the study of political violence, including civil war, terrorism, genocide, organized criminal violence, and electoral violence. It focuses on the diverse drivers of violence as well as its social, political, and economic consequences for individuals and communities within North and South America, Europe, Sub-Saharan Africa, the Middle East, and Southeast Asia. (Irreg.)

IAS 3543 International Peacebuilding 3 Credit Hours
Prerequisite: ENGL 1213 or EXPO 1213. This course examines how countries put an end to war and the role of international actors in this process. It also analyzes the pursuit of justice and accountability following conflict and human rights violations and efforts to achieve sustainable peace and stability in the longer-term, with particular emphasis on social and economic development, statebuilding, political inclusion, and democratization. (Irreg.)

IAS 3583 Managing US-China Relations 3 Credit Hours
Prerequisite: ENGL 1213 or EXPO 1213. Provides comprehensive and systematic assessment of the bilateral relationship between a rising power aiming to return to its historical prestige and a currently dominant power searching to augment its over-stretched power resources. In-depth examination of the historical context of how the two countries have engaged with each other at the global, regional, and bilateral levels primarily since 1949. (Irreg.) [IV-WDC].

IAS 3603 Energy, Environment & Climate Change in China 3 Credit Hours
Prerequisite: ENGL 1213 or EXPO 1213. Examines how China confronts the challenges of energy security, environmental pollution, and climate change. It explores not only how the country addresses each of the three challenges individually, but also identifies areas where policy coordination can be enhanced so as to promote a holistic approach to three interconnected challenges simultaneously. (Irreg.) [IV-WDC].

IAS 3623 American Grand Strategy 3 Credit Hours
Prerequisite: ENGL 1213 or EXPO 1213. What should be the grand strategy of the United States for the 21st century? To answer this question, this course tracks the evolution of American grand strategy since 1900, explores various contemporary grand strategic proposals, and finally weighs their relative appeal by exploring a series of contentiously debated foreign policy issues. (Irreg.)

IAS 3633 International Security Through Art 3 Credit Hours
Prerequisite: ENGL 1213 or EXPO 1213. This course explores major international security issues, such as war and conflict, humanitarian crises, climate change, and technological revolutions, by engaging with them through various forms of art. These security concerns are examined through literature (novels, short stories, memoirs, or narrative nonfiction), film (feature films and documentaries), music (of all genres), visual art, and performance art. (Irreg.)

IAS 3643 Illicit Trafficking 3 Credit Hours
Prerequisite: ENGL 1213 or EXPO 1213. Focuses on some of today's most troubling security issues - the persistent and growing problems associated with the trafficking and smuggling of drugs, money, humans, guns, and commodities of all sorts. Closely examines the issue of trafficking in a global context, providing case studies of trafficking in women, illegal workers, drugs, weapons, and even butterflies. (Irreg.)

IAS 3653 Energy, Climate, and Security 3 Credit Hours
Prerequisite: ENGL 1213 or EXPO 1213. This course provides a systematic treatment of how energy and climate change intersect with growth, development, security, and the trajectory of human civilization. It examines the politics of energy from a variety of perspectives; explores the causes and efforts to address climate change, and looks at ways forward for the transition beyond fossil fuels. (Irreg.)

IAS 3663 Comparative Politics of the Middle East 3 Credit Hours
Prerequisite: ENGL or EXPO 1213. This course examines major themes in Middle East and North African politics (MENA). Topics and themes to be discussed include: states and state formation in the Middle East; the persistence and dynamics of authoritarianism; political liberalization and democratization; civil society; nationalism and identity; oil wealth; Islam and politics; the 2011 Arab uprisings. (Irreg.)

IAS 3683 Poverty and Inequality in the Middle East 3 Credit Hours
Prerequisite: ENGL 1213 or EXPO 1213. An introduction to poverty and inequality in the Middle East which will give students an overview of how poverty has been defined, represented and contested in international development discourse. The course will examine causes of economic underdevelopment, inequality and poverty, including regional politics, urbanization and the Middle East's legacy of colonialism. (Irreg.)

IAS 3693 Military, State & Society 3 Credit Hours
Prerequisite: ENGL 1213 or EXPO 1213. This course is concerned with some of the key problems and puzzles of civil-military relations such as military intervention in politics and the role militaries play in social revolutions. This course will examine different political contexts across the world, including the U.S., Europe, Latin America, China/Asia, Africa and the Middle East. (Irreg.)

IAS 3703 South Asian Security 3 Credit Hours
Prerequisite: Junior standing or permission of instructor. This course introduces students to security and conflict in South Asia. South Asian security has significant ramifications for global order and security. Topics covered include Hindu nationalism in India, military domination in Pakistan, India's economic ascendance, the Kashmir conflict, nuclear deterrence, terrorism & counterterrorism, the rise of the Taliban in Afghanistan, and the China-Pakistan axis. (Irreg.)

IAS 3723 Sexuality & Identity in the Islamic World 3 Credit Hours
Prerequisite: Junior standing or permission of instructor. This course explores expressions of sexuality and sexual identity across a broad range of time and throughout a variety of Muslim-majority regions in the Middle East, Africa, and South Asia. (Irreg.) [IV-WDC].

IAS 3742 Model UN 2 Credit Hours
Prerequisite: Junior standing or permission of instructor. Provides students with a fundamental understanding of the institutions and activities of the United Nations. Issues of current interest in the UN will also be discussed. Students will acquire skills to not only prepare them to participate in a Model United Nations conference, but also prepare them to develop, implement and manage such a conference. (Irreg.)

IAS 3743 The Politics of the International System 3 Credit Hours
Prerequisite: ENGL 1213 or EXPO 1213. This course introduces students to the international system. This interconnected set of institutions establishes the rules of the game for world politics, and shapes world order. The course takes a hands-on approach, providing students the chance to study historical variants of international systems, as well as the opportunity to study the origins and evolution of the current international system. (Irreg.)

IAS 3753 Youth Culture in Contemporary Iran 3 Credit Hours
Prerequisite: ENGL 1213 or EXPO 1213. This course seeks to better understand strategies that Iran's third generation is deploying in order to navigate Iran's maze of structural constraints and opportunities. This course will also serve as an introduction to Iran's post-Revolution history, and examine how Iran's youngest citizens have engaged in this history. (Irreg.) [IV-WDC].

IAS 3763 Women and Gender in the Middle East 3 Credit Hours
Prerequisite: ENGL 1213 or EXPO 1213. Introduction to study of women and gender in contemporary Middle East. Examines how depictions of Muslim, Middle Eastern women and debates surrounding gender have shaped and been shaped by wider local and global forces over time. Topics include debates on women and gender in the Middle East; the rise of women's movements; and ways Muslim women conceptualize themselves. (Irreg.) [IV-WDC].

IAS 3773 State & Society in Pakistan 3 Credit Hours
Prerequisite: Junior standing or permission of instructor. Examine the history, politics, and important social issues of Pakistan. Drawing on materials from a variety of social science disciplines, topics of discussion will include: nation-state building, ethnic conflict, political Islam, terrorism, civil-military relations, democratization, civil society, and gender politics. (Irreg) [IV-WDC].

IAS 3783 US-Arab Cultural Encounters 3 Credit Hours
Prerequisite: ENGL 1213 or EXPO 1213. In this course, students will gain insight into complex Arab thoughts and perspectives of the United States with respect to issues such as the American dream, globalization, identity politics, cultural imperialism, democracy, human rights, and power dynamics. (Irreg.) [IV-WDC].

IAS 3793 African Politics & Society 3 Credit Hours
Prerequisite: ENGL 1213 or EXPO 1213. This course introduces students to the politics, history and social processes of sub-Saharan Africa, as well as the precolonial, colonial and postcolonial history of the continent. Other topics of discussion include contemporary issues, such as identity, customary authority, economics, violence, civil war, elections, democracy and authoritarianism. (Irreg.) [IV-WDC].

IAS 3803 International Cooperation & Development 3 Credit Hours
Prerequisite: ENGL 1213 or EXPO 1213. This course examines the fundamental idea of mobilizing global resources with the purpose of changing the realities of those countries that have been considered impoverished or less developed. The course opens the debate on what development means and what it has meant historically and in theory. It also presents the myriad of actors that participate in the international aid industry. (Irreg.) [IV-WDC].

IAS 3810 Journey to Africa 1-6 Credit Hours
1 to 6 hours. Prerequisite: sophomore standing and completion of ENGL 1213, or permission of instructor. May be repeated; maximum credit 12 hours. Journey to Africa is a summer study abroad program designed for OU students. Students will travel with an OU faculty member and other OU students throughout an African country or region, and learn about various cultural, historical, political, social, economic or linguistic issues relevant for an understanding of one or more African countries. Academic instruction takes place in English. (Su)

IAS 3813 Development Practice 3 Credit Hours
Prerequisite: ENGL 1213 or EXPO 1213. This course examines the knowledge and skills required by individuals who work for international organizations, bilateral agencies, private foundations, or non-governmental organizations in the field of international development. Participants will familiarize themselves with the mission of those development actors, as well as with their main documents, procedures and working methods. (Irreg.)

IAS 3823 Technology & War 3 Credit Hours
Prerequisite: ENGL 1213 or EXPO 1213. This course discusses the relationship between technology and war, the context in which different weapons develop, and how different war strategies have changed international politics. The development and effects of weapons including gunpowder, tanks, submarines, nuclear weapons, and drones is also considered. (Irreg.)

IAS 3833 Democratic Decline in Global Perspective 3 Credit Hours
Prerequisite: ENGL 1213 or EXPO 1213. This course examines the theory and practice of how liberal democracies develop, live, and die. (Irreg.) [IV-WC] .

IAS 3843 Latin American Independence 1750-1880 3 Credit Hours
(Crosslisted with HIST 3843) Prerequisite: HIST 2613 or HIST 2623; junior standing, or permission of instructor. Covers history of Latin America from the crisis and dissolution of the Iberian empires through the consolidation of independent republics, a period bridging the colonial and modern periods in the region's history. (Irreg.) [IV-WC].

IAS 3853 Russian Foreign Policy 3 Credit Hours
Prerequisite: ENGL 1213 or EXPO 1213. This course provides a broad overview of fundamental issues and relationships in Russian foreign policy. It examines the driving forces of Russian foreign policy and the tools that Russia has to influence international politics. Examples of major contemporary issues and vectors of Russian foreign policy will also be discussed. (Irreg.)

IAS 3863 Global Environment 3 Credit Hours
Prerequisite: ENGL 1213 or EXPO 1213. This course examines the relationship between space, power, and the environment. It explores the spatialities and multi-scalar dimensions of environmental policy, governance and politics, with a focus on dimensions of social and environmental justice. (Irreg.) [III-SS].

IAS 3873 Global Cybersecurity Issues 3 Credit Hours
Prerequisite: Junior standing or permission of instructor. This course introduces students to contemporary global cybersecurity challenges and to the policy tools available to cope with them. (Irreg.)

IAS 3883 Italy Through Italian Film 3 Credit Hours
Prerequisite: Junior standing or permission of instructor. This course offers a basic survey of the social, political and cultural history of Italy over the last 40 years through the screening and discussion of Italian films which are illustrative of Italy's main cultural and historical aspects. (F, Sp)

IAS 3893 Law & Globalization 3 Credit Hours
Prerequisite: ENGL 1213 or EXPO 1213. This course will explore the origins and characteristics of globalization, the relationship between globalization and "the law", and will also look at more recent developments in globalization and speculate about what they mean for law and regulation. (Irreg.)

IAS 3903 The Mediterranean Route 3 Credit Hours
Prerequisite: Junior standing or permission of instructor. Explores the complex world of art trafficking in MENA and Italy. Students will discover how a myriad of both legitimate and illegitimate stakeholders are vested in the process of art trafficking and how their actions are interconnected through well-established supply chains, creating a 6 billion dollar a year business. (Irreg.)

IAS 3910 International Studies Internship 2-3 Credit Hours
2 to 3 hours. Prerequisite: 45 completed hours and a minimum of a 2.75 overall GPA. May be repeated; Maximum credit six hours. This course allows students to receive academic credit for internship work with an internationally oriented public or private organization. The internship requires reflection, research, and writing about the work undertaken. This component enhances what is gained from the internship opportunity and improves a student's ability to articulate the requirements, benefits and lessons of work in the public or non-profit sector. (F, Sp, Su)

IAS 3913 The Practice of Diplomacy 3 Credit Hours
Prerequisite: ENGL 1213 or EXPO 1213. This course is designed to provide an understanding of how day-to-day diplomacy is conducted by the U.S. Department of State and other entities. The class will review the structure of the U.S. Department of State as well as a U.S. Embassy, major recent diplomatic challenges, and provide the case for renewal of American Diplomacy. (Irreg.)

IAS 3920 Journey to Italy 1-6 Credit Hours
1 to 6 hours. Prerequisite: sophomore standing and completion of ENGL 1213, or permission of instructor; May be repeated; maximum credit 12 hours. Journey to Italy is a program designed for OU students in collaboration with the University of Siena, an OU partner in Arezzo. Students will travel with an OU faculty member and other OU students throughout Italy, and learn about various cultural, historical, political, social, economic or linguistic issues relevant for understanding contemporary Italy. Academic instruction takes place in English. (Su)

IAS 3923 World Happiness 3 Credit Hours
(Crosslisted with P SC 3923) Prerequisite: Junior standing or permission of instructor. This course explores and compares, in detail, the breadth and expression of global happiness philosophical concepts in the east and west leading to modern global and societal well-being measures and well-being policies in nations around the world. (Irreg.)

IAS 3930 Journey to China 1-6 Credit Hours
1 to 6 hours. Prerequisite: sophomore standing and completion of ENGL 1213, or permission of instructor; May be repeated; maximum credit 12 hours. Journey to China is a summer study abroad program designed for OU students, who will be hosted by OU partner universities in cities across China. Students will travel with an OU faculty member and other OU students throughout China, and learn about various cultural, historical, political, social, economic or linguistic issues relevant for an understanding of contemporary China. (Su)

IAS 3933 Intelligence & National Security 3 Credit Hours
Prerequisite: ENGL 1213 or EXPO 1213. This course provides a survey of the historical origins and continued development of US intelligence capabilities. Students will learn about intelligence processes, and the roles, missions, and structure of the organizations which comprise the US Intelligence Community. Other topics of discussion include ethical and moral issues associated with intelligence operations, foreign intelligence services, their targets, and operational successes and failures. (Irreg.)

IAS 3940 Journey to Latin America 1-6 Credit Hours
1 to 6 hours. Prerequisite: sophomore standing and completion of ENGL 1213, or permission of instructor. May be repeated; maximum credit 12 hours. A summer study abroad program designed for OU students. Students will travel with an OU faculty member and other OU students throughout a Latin American country or region, and learn about various cultural, historical, political, social, economic or linguistic issues relevant for an understanding of one or more Latin American countries. Academic instruction is in English. (Su) [IV-NW].

IAS 3943 Global Intelligence Challenges 3 Credit Hours
Prerequisite: ENGL 1213 or EXPO 1213. This course provides an overview of current and future global security challenges. Students will explore key, contemporary security issues in Europe, Asia, and the Middle East. Topics of discussion include transnational security issues, collective security/ alliances, inter-state conflict, ethnic conflict, WMD proliferation, nuclear strategy, deterrence, arms control, cyber security, and terrorism. (Irreg.)

IAS 3953 How to Be a Dictator 3 Credit Hours
Prerequisite: ENGL 1213 or EXPO 1213. This course will examine the rise, rule, and ruin of non-democracies. It will examine different types of authoritarian regimes; the main tools and strategies that dictators use to exercise and maintain power; the role of society in these regimes, and the factors that can lead to their collapse. (Irreg.)

IAS 3960 Honors Reading 1-6 Credit Hours
1 to 6 hours. Prerequisite: admission to Honors Program, permission of instructor and junior standing. May be repeated once with change of content. Independent study in international and area studies for students enrolled in the Honors Program. Will consist of topics not usually presented in regular courses. (F, Sp, Su)

IAS 3963 US-Russia Relations 3 Credit Hours
Prerequisite: ENGL 1213 or EXPO 1213. An overview of US-Russia relations over the past 200 years with an emphasis on Cold War tensions and the contentious relationship since the "re-emergence" of Russia from the post-Soviet morass in the Putin era. Students will examine various attempts to "reset" the relationship under different Administrations and will explore potential areas of cooperation including space, climate change, and humanitarian assistance. (Irreg.)

IAS 3970 Honors Seminar 3-6 Credit Hours
3 to 6 hours. Prerequisite: admission to Honors Program. May be repeated once with change of content. Small group seminar on topics not covered by normal coursework. Restricted to students in the Honors Program. (Irreg.)

IAS 3973 Cultural Diplomacy 3 Credit Hours
Prerequisite: ENGL 1213 or EXPO 1213. Examines the role of cultural diplomacy in the process of diplomatic interaction. Areas of study include the European Union, the Middle East and East Asia; the Cold War and the role of cultural diplomacy in foreign policy of the Soviet Union and the US; Juxtapositions of cultural diplomacies and institutional organizations of France, Great Britain, Germany, Russia and Canada. (Irreg.)

IAS 3980 Honors Research 1-6 Credit Hours
1 to 6 hours. Prerequisite: admission to Honors Program, permission of instructor and junior standing . May be repeated once with change of content. Provide international and area studies students an opportunity to work on an international research project. (F, Sp, Su)

IAS 3983 Anti-Muslim Racism 3 Credit Hours
Prerequisite: ENGL 1213 or EXPO 1213. This course will examine anti-Muslim racism in the United States while simultaneously understanding anti-Muslim racism as a global project. We will further investigate how anti-Muslim racism is implicated in imperialist projects in the Middle East. Examining anti-Muslim sentiment through the lens of racism will show how both race and religion come together to inform present day structural inequality and violence. (Irreg.) [IV-WC].

IAS 3990 Independent Study 1-6 Credit Hours
1 to 6 hours. Prerequisite: permission of instructor and junior standing. May be repeated once with change of content. Independent study may be arranged to study a subject not available through regular course offerings. (F, Sp, Su)

IAS 3993 The History of Communism 3 Credit Hours
Prerequisite: ENGL 1213 or EXPO 1213. This course introduces both theoretical bases and actual applications of Marxism and other forms of communism from the late 19th century to the present. After engaging the principles of Marxism through foundational texts, students study later adaptations of Marxism, including Maoism, and the manifestations of communist party rule from the Soviet Union to Southeast Asia to the Horn of Africa. (Irreg.) [IV-WDC].

IAS 4013 Senior Capstone Seminar in International and Area Studies 3 Credit Hours
Prerequisite: international and area studies major, senior standing, and permission of the department. May be repeated with change of content; maximum credit 6 hours. Devoted to analysis, research, writing, and synthesizing on one of several selected interdisciplinary topics in international and area studies. (F, Sp) [V].

IAS 4343 Early Chinese Philosophy 3 Credit Hours
(Crosslisted with PHIL 4343) Prerequisite: Permission of the instructor. Survey of pre-Qin Chinese philosophy, including the major texts and figures of Confucianism, Daoism, and other notable schools. No student may earn credit for both 4343 and 5343. (Irreg.)

IAS 4513 Intellectuals & Artists in Modern Latin America 3 Credit Hours
(Crosslisted with HIST 4513) Prerequisites: History 2613 or 2623 or junior standing or permission of instructor. Examines both the history of ideas in modern Latin America as well as the history of intellectuals as a social group. We will consider intellectuals in the process of independence and the consolidation of nation states, the role of "race" in Latin American thought, and the relationship between European and Latin American thought. (Irreg.) [IV-WC].

IAS 4523 Latin American Left 3 Credit Hours
(Crosslisted with HIST 4523) Prerequisite: History 2613 or 2623 or junior standing or permission of instructor. This course examines the shifting political tactics and theoretical positions of a variety of leftist movements in Latin America since the early 20th century. We will exam leftist thought on the nature of Latin American development, approaches to commercial culture, and labor organizing, among other topics. (Irreg.) [IV-WC].

IAS 4533 Populism in 20th-Century South America 3 Credit Hours
(Crosslisted with HIST 4533) Prerequisites: History 2613 or 2623 or junior standing or permission of instructor. This course will examine the phenomenon of Latin American "populism," a set of political movements that held a central place in 20th century Latin American history. We will focus on three cases as they relate to the broader economic and social processes in the region as a whole: Brazil; Argentina; and Chile. (Irreg.) [IV-WC].

IAS 4543 Latin America in the Age of the Cuban Revolution 3 Credit Hours
(Crosslisted with HIST 4543) Prerequisites: History 2613 or 2623 or junior standing or permission of instructor. This course is an in-depth examination of Latin American history of the period 1955-1973. We cover changes in politics, economics, literature, film, music, and theology in what many Latin Americans called the "revolutionary process" of the period. (Irreg.) [IV-WC].

IAS 4813 Africa in Context 3 Credit Hours
(Slashlisted with IAS 5813) Prerequisite: Sophomore standing and ENGL 1213, or permission of instructor. Explores topics related to the historical analysis of Africa including cultural, economic, and development issues. Through a primary focus on Uganda, students will examine the lasting effects of conflict, the emergence of civic, religious and international groups and their related work, and gain a deeper appreciation of Ugandan culture and communities. No student may earn credit for both 4813 and 5813. (Su) [IV-WDC].

IAS 4960 Directed Readings 1-4 Credit Hours
1 to 4 hours. Prerequisite: good standing in University; permission of instructor and dean. May be repeated; maximum credit four hours. Designed for upper-division students who need opportunity to study a specific problem in greater depth than formal course content permits. (Irreg.)

IAS 4970 Special Topics/Seminar 1-3 Credit Hours
1 to 3 hours. Prerequisite: Senior standing or permission of instructor. May be repeated; maximum credit nine hours. Special topics or seminar course for content not currently offered in regularly scheduled courses. May include library and/or laboratory research and field projects. (Irreg.)

IAS 4990 Independent Study 1-3 Credit Hours
1 to 3 hours. Prerequisite: Senior standing and permission of instructor. May be repeated; maximum credit nine hours. Contracted independent study for a topic not currently offered in regularly scheduled courses. Independent study may include library and/or laboratory research and field projects. (Irreg.)

IAS 5003 U.S. Foreign Relations 3 Credit Hours
Prerequisite: graduate standing or permission of instructor. Examines current events and the historical and economic aspects of American foreign policy. Gives students an understanding of the main theories, actors, and debates in the field. (Irreg.)

IAS 5013 International Law 3 Credit Hours
Prerequisite: graduate standing or permission of instructor. Examines different sources of international law; the relationship between international law and states, individuals and other international actors; the content of international law as it pertains to different issue areas (e.g. the use of force, human rights, the environment); and how these bodies of law affect international relations more generally. (Irreg.)

IAS 5023 The Practice of Diplomacy 3 Credit Hours
Prerequisite: Graduate standing or permission of instructor. This course is designed to provide an understanding of how day-to-day diplomacy is conducted by the U.S. Department of State and other entities. The class will review the structure of the U.S. Department of State as well as a U.S. Embassy, major recent diplomatic challenges, and provide the case for renewal of American Diplomacy. (Irreg.)

IAS 5043 Global Security 3 Credit Hours
Prerequisite: graduate standing or permission of instructor. Examines some of the major theoretical and practical approaches to the study of global security, and focuses on the causes of war, the impact of various actors, technologies, resources and other transnational problems on violent conflict, and the different approaches to and dimensions of security solutions. (Irreg.)

IAS 5063 Civil Military Relations 3 Credit Hours
Prerequisite: Graduate standing or permission of instructor. This course focuses on the key questions about civil-military relations: What is the proper relationship between the politician and the soldier? How does professionalism affect the military's political behavior? Should military organizational ethos reflect societal values? Why are some and not other societies prone to coups? How do new democracies exert control over militaries? (Irreg.)

IAS 5073 International Terrorism 3 Credit Hours
Prerequisite: Graduate standing or permission of instructor. This course will cover how terrorist organizations have spread and how their goals have been taken up by like-minded organizations. How has terrorism changed? What effect does the psychology of terrorism have on the free societies? The course will attempt to answer these questions and develop an understanding of the fundamental reasons that terrorism has been at times effective. (Irreg.)

IAS 5083 International Activism 3 Credit Hours
Prerequisite: Graduate standing or permission of instructor. This course examines the role that nongovernmental actors play as they work independently and in concert to raise awareness about various international issues and to advocate for change on behalf of others. The course will explore the history of the study of activism, the evolution of theory on social movements, and the marketing tools employed by activism organizations. (Irreg.)

IAS 5093 U.S. Intelligence Community 3 Credit Hours
Prerequisite: Graduate standing or permission of instructor. This course will provide a survey of the origins of US intelligence capabilities, including collection disciplines and analytic techniques the US Intelligence Community (IC) uses, examine how the US IC supports national security decision making, review the ethical and moral issues associated with intelligence operations, and study contemporary issues facing the US IC. (Irreg.)

IAS 5103 Global Technology and War 3 Credit Hours
Prerequisite: Graduate standing or permission of instructor. The intersection of war and technology has always played a role in military and societal transformation. However, as much technology may define warfare, it never determines warfare. Technology does not determine outcomes, but it opens doors for new meaning. The characteristics of modern military are unique in that they make the interaction between war and technology hyper-visible. (Irreg.)

IAS 5123 African Peacekeeping and Peace Enforcement 3 Credit Hours
Prerequisite: Graduate standing or permission of instructor. This course is designed for the MA in International Relations degree through OU's Advanced Programs. The course covers peacekeeping and peace enforcement operations in Africa. These missions combine the efforts of governmental, intergovernmental, and nongovernmental actors. The class will examine nation building, stabilization, reconstruction, and transition across the spectrum of peace operations with emphasis on peacekeeping and peace enforcement. (Irreg)

IAS 5203 Post-Brexit Ireland 3 Credit Hours
Prerequisite: Graduate standing or permission of instructor. This course will examine the impact of British exit from the EU on Ireland in a broad context. This includes the history of British repression in Ireland and the struggle for independence, the border with Northern Ireland, and Ireland's economic standing. (Irreg.)

IAS 5213 Politics of the European Union 3 Credit Hours
Prerequisite: graduate standing or permission of instructor. Examines the historical process of European integration. Topics include the structure of the EU institution, the process of law making in the EU, the international role of the EU, the trans-Atlantic relationship. (F)

IAS 5243 Nations and Nation States in Europe 3 Credit Hours
Prerequisite: Graduate standing or permission of instructor. In this class, we will study and discuss nation and nation states in Europe since 1789 until 1939. Our key nations and nation states will be France, Germany, and Poland. Ultimately, nationalism resulted in the complete destruction of four Empires in Europe (and Asia) during World War I, a legacy that is still felt in Europe today. (Irreg.)

IAS 5253 US-Russia Relations 3 Credit Hours
Prerequisite: Graduate standing or permission of instructor. This course will provide an overview of United States (US)-Russia relations over the past 200+ years with an in-depth look at Cold War tensions and the contentious relationship since the "re-emergence" of Russia from the post-Soviet morass in the Putin era. (Irreg.)

IAS 5263 Russian Foreign Policy 3 Credit Hours
Prerequisite: Graduate standing or permission of instructor. Explores Russian foreign policy in the contemporary world, with an eye on the deep historical context that informs the relationships between Russia and the rest of the world. What drives Russian foreign policy? What tools does Russia have to influence international politics? What are the major contemporary issues in Russian foreign policy? What are the vectors of Russian foreign policy? (Irreg.)

IAS 5283 Europe Since 1989 3 Credit Hours
Prerequisite: Graduate standing or permission of instructor. Studies major events that have transformed Europe since 1989: the collapse of Communist rule in Eastern Europe and the fall of the Berlin Wall, the end of the Cold War, the role of an expanding EU, different forms of immigration to Europe and its perception, historical memory, and Russia's role in Europe. (Irreg.)

IAS 5293 Arctic Security 3 Credit Hours
Prerequisite: Graduate standing or permission of instructor. This course will define the Arctic region as well as the main areas for potential competition and cooperation (mainly the Arctic Ocean), where current and future shipping lanes could be, the re-militarization of Russia's Arctic region, the effects of climate change on U.S. military operations there, and discover what organizations and laws cover this incredibly fragile eco-system. (Irreg.)

IAS 5323 The Political Economy of Development 3 Credit Hours
Prerequisite: graduate standing or permission of instructor. Studies the relationship between politics and economics in less developed countries. Reviews the history of economic theories of development and examines the economic effects of different trade strategies in Latin America, India, and East Asia. (Irreg.)

IAS 5353 Latin American International Relations 3 Credit Hours
Prerequisite: graduate standing or permission of instructor. Surveys the hemisphere's international relations with emphasis on U.S.-Latin American relations. Focuses on post-Cold War issues in hemispheric affairs, and gives students a skill set appropriate for internationally related careers. (Irreg.)

IAS 5383 Political Economy of the Underworld: Organized Crime and Conflict 3 Credit Hours
Prerequisite: Graduate standing or permission of instructor. Organized crime is a global presence that fuels instability, corruption, and violent extremism. Many conflicts cannot be fully understood without assessing the presence of organized crime groups as agents of instability, arms trafficking, resource extraction, and informal governance. This class will cover the origins of organized crime, organized crime in post-Soviet conflict, organized crime and globalization, and interdisciplinary research methods. (Irreg.)

IAS 5403 Humanitarianism and Africa 3 Credit Hours
Prerequisite: Graduate standing or permission of instructor. The course explores the longstanding need of Westerners to "help" Africans, examines the historical basis of this particular mode of thought and how it has changed over time, and seeks to understand how Western humanitarian intervention shaped and, perhaps more important, was shaped by Africans. (Irreg.)

IAS 5413 Global Migration & Media 3 Credit Hours
Prerequisite: Graduate standing and permission of instructor. This course will expose students to key topics related to immigration in various regions around the world. Students will seek out and interpret the ways that media portrayals impact immigration and how immigration patterns influence that very media framing. This course seeks to break down stereotypes and create new perspectives on the global movement of people. (Irreg.)

IAS 5423 Media and the Global World 3 Credit Hours
Prerequisite: Graduate standing or permission of instructor. This course will investigate the media to see connections between the media and the democratization process, media and change, and media and conflict. We will see how traditional, online, and social media can influence politics, economics, and society. We will also examine the connection between media, trust and transparency, and its implications in the global world. (Irreg.)

IAS 5433 International Relations in the Middle East 3 Credit Hours
Prerequisite: graduate standing or permission of instructor. Surveys how the modern states of the region were constructed by the European powers and local authorities following the destruction of the Ottoman and Persian empires in WWI. Concentrates on two regional conflicts, the Arab-Israeli conflict and the Gulf conflict, and discusses how policy could have been improved and what the U.S. should be doing in the Middle East today. (Irreg.)

IAS 5463 Comparative Politics of the Middle East 3 Credit Hours
Prerequisite: Graduate standing or permission of instructor. This course examines themes in Arab and Middle East politics. This includes states and state formation; identity, nationalism, and politics; political economy; the persistence and dynamics of authoritarianism; oil wealth, Gulf politics, and its impact on domestic politics; Islam and politics; the 2011 Arab uprisings; sectarianism; regional politics, and the current state of the Middle East. (Irreg.)

IAS 5473 Arab-Israeli Conflict 3 Credit Hours
Prerequisite: Graduate standing or permission of instructor. The Arab-Israeli conflict attracts a disproportionate amount of attention in the news media, international politics and law, and the socio-cultural sphere. This course examines the origins of the Arab-Israeli conflict in an attempt to place it in its historical context, while tracing its developments from multiple angles, in order to provide understanding of the dynamic that constitutes 'the conflict'. (Irreg.)

IAS 5483 Minorities in the Middle East 3 Credit Hours
Prerequisite: Graduate standing or permission of instructor. This course will discover the Middle East's heterogeneity by examining the experiences and changing positions of minorities since the rise of Islam. Specific topics will include the non-Muslims in classical Islamic and Ottoman societies, the rise of nationalism, Kurds and other Muslim ethnic minorities, Jews, Druzis and other heterodox Muslim minorities, Middle Eastern Christians, and the Baha'is. (Irreg.)

IAS 5493 Global Islamophobia 3 Credit Hours
Prerequisite: Graduate standing or permission of instructor. What is Islamophobia and what are the strengths and limitations of the term in capturing the global complexity of Muslim experiences? This course will study the theoretical and practical iterations of Islamophobia on a global scale and examine the concept through specific sites of contemporary anti-Muslim sentiments in the United States, Europe, Asia, and the Middle East. (Irreg.)

IAS 5503 Theory and Practice of International Politics 3 Credit Hours
Prerequisite: Graduate standing or permission of instructor. Focuses on political relations among states, the role and function of non-state actors, the nature of the international system, factors that affect state behavior, analytical and practical tools relevant for foreign policy decision-making, and various policy relevant issues in the international arena. (Irreg.)

IAS 5513 US Diplomatic History 3 Credit Hours
Prerequisite: Graduate standing or permission of instructor. This course focuses on the establishment and evolution of U.S. foreign policy from 1776 to the present. It introduces key events and the roles of key players, including the President, National Security Council, State Department, and Congress, in the development of U.S. foreign policy. (Irreg.)

IAS 5523 Global Political Economy 3 Credit Hours
Prerequisite: graduate standing or permission of instructor. Examines economic relations, cooperation, and competition among states and non-state actors. Students in this course can gain a familiarity with the principles of international trade and finance, understand the functions and power of international economic institutions and how these have evolved and changed, and understand different theories that have been offered to explain international political economy. (Irreg.)

IAS 5533 Modern Statecraft 3 Credit Hours
Prerequisite: Graduate standing or permission of instructor. Geopolitics has its basis in statecraft, the application of the power of the state toward other states, organizations, and peoples. The key to managing international relationships to further one's prosperity and security is embodied by statecraft and the multi-faceted aspects of state power. (Irreg.)

IAS 5543 International Organizations 3 Credit Hours
Prerequisite: Graduate standing or permission of instructor. This course will give participants the opportunity to critically reflect on the reasons why sovereign states have collectively decided to create International Organizations (IOs). The course will also provide a survey of some of the main IOs in existence as well as their current political and institutional challenges. Finally, this course will discuss challenges to global governance. (Irreg.)

IAS 5553 Global Cybersecurity Issues 3 Credit Hours
Prerequisite: Graduate standing or permission of instructor. Virtually every area of political, economic, and social life is increasingly dependent on networked computing and related information and communications technologies (ICTs). As a result, states and societies now face an array of pressing cybersecurity challenges. This course will introduce students to contemporary global cybersecurity challenges and to the policy tools available to cope with them. (Irreg.)

IAS 5563 Illicit Trafficking 3 Credit Hours
Prerequisite: Graduate standing or permission of instructor. This course focuses on some of today's most troubling security issues - the persistent and growing problems associated with the trafficking and smuggling of drugs, money, humans, guns, and commodities of all sorts. The course will demonstrate the very broad and encompassing nature of illicit trafficking and how this activity has an impact on global security and underdevelopment. (Irreg.)

IAS 5573 Nationalism and the Modern Middle East 3 Credit Hours
Prerequisite: Graduate standing or permission of instructor. A survey of Middle East history from 1800-present with an emphasis on the emergence of "nationalism" as a new form of political identity in the region. Focused on ethnic, linguistic, racial, sectarian, secessionist, and confessional identities that have become one of the main sources of political contestation in the region. (Irreg.)

IAS 5583 African Politics and Society 3 Credit Hours
Prerequisite: Graduate standing or permission of instructor. This course is designed to introduce students to the history, politics and social processes of sub-Saharan Africa. In addition to learning about the histories and trajectories of individual countries, the course will also focus on sub-regional and cross-national similarities and differences, as well as contextualize African politics in a larger global history. (Irreg.)

IAS 5593 US-Arab Relations 3 Credit Hours
Prerequisite: Graduate standing or permission of instructor. Explores the complex relationship between the US and Arab nations from the 19th century to the present day. Studies an evolving history of power dynamics and a clash of values and interests. Coursework mediates narratives of the US political, economic, cultural, and military presence in a region deeply influenced by World War legacies, neoliberal politics, and "war on terror" interventions. (Irreg.)

IAS 5603 Mobility in a Global Context 3 Credit Hours
Prerequisite: Graduate standing or permission of instructor. Provides insights into diverse human migratory experiences, exploring socio-economic, political, and cultural aspects. Critically examine the lived realities of people navigating foreign labor markets, border zones, radicalized spaces, refugee camps, and digital nomadic communities. The course offers case studies from different parts of the world to provide real-world contexts, leading to an understanding of the forces shaping contemporary global mobility. (Irreg.)

IAS 5613 The Politics of Language and Identity in the Middle East and North Africa 3 Credit Hours
Prerequisite: Graduate standing or permission of instructor. This course introduces the politics of language and identity in the Middle East and North Africa. The course will introduce you to key concepts in the study of language in society such as language policy and planning, colonial bilingualism, linguistic rights, language ideologies, and language conflict. (Irreg.)

IAS 5623 Inequality Around the World 3 Credit Hours
Prerequisite: Graduate standing or permission of instructor. This course will derive coherence from a focus on economic inequality, specifically on the social and political consequences of economic inequality. Material will address such questions as: what is the scope of economic inequality in modern societies? Why does inequality matter? Do societies necessarily become more unequal as they grow more prosperous? Might inequality at some level harm economic growth? (Irreg.)

IAS 5633 Political Development 3 Credit Hours
Prerequisite: Graduate standing or permission of instructor. This course will discuss different approaches to international development. At the end of the course, participants will have a comprehensive view of how development has evolved historically, how it has been disputed by different scholars, and how various stakeholders have worked for the promotion of development at the international level. (Irreg.)

IAS 5643 Global Perspectives on Gender 3 Credit Hours
Prerequisite: Graduate standing or permission of instructor. From this course, students will be able to understand critiques of Western feminism, analyze the lived experiences of non-western women and communities of color, be conversant with critical epistemologies and anti-oppressive research methodologies, and discuss and apply intersectionality in a way that is historically and contextually accurate. (Irreg.)

IAS 5653 Global Environmental Politics 3 Credit Hours
Prerequisite: Graduate standing or permission of instructor. A comprehensive introduction to key themes relating to global environmental politics. The course is divided into three core sections: (1) global environmental governance; (2) global political economy as it relates to the environment and natural resources; and (3) contemporary, global challenges in global environmental politics. Students will also evaluate documents prepared by government agencies, think tanks, non-profits, and global institutions. (Irreg.)

IAS 5673 Language and Identity in the Middle East and North Africa 3 Credit Hours
Prerequisite: Graduate standing or permission of instructor. Introduces the politics of language and identity in the Middle East and North Africa. Studies the pre-colonial, colonial, and postcolonial eras, including the histories, functions, and status of different varieties of Arabic as well as indigenous and former colonial languages. Introduces the histories, functions, and status of different varieties of Arabic as well as indigenous and former colonial languages. (Irreg.)

IAS 5683 US-China Relations 3 Credit Hours
Prerequisite: Graduate standing or permission of instructor. Provides a systematic examination of contemporary U.S.-China relations, one of the most important bilateral relationships in the world, from the U.S. perspective through relevant theoretical debates, historical analysis and case studies. Also includes an exploration of the future trajectories of U.S.-China relations. (Irreg.)

IAS 5693 Political Economy of China 3 Credit Hours
Prerequisite: graduate standing or permission of instructor. Explores debates over the political economy of China. Examines theories of institutional change and economic performance, state capacity and political development, rent-seeking and corruption, and class formation and collective action. How do China's reforms over the past three decades confirm or challenge the assumptions and propositions central to these established social science theories? (Irreg.)

IAS 5703 International Studies Colloquium 3 Credit Hours
Prerequisite: Graduate standing or permission of instructor. This class will introduce the broad, multi-disciplinary field of International Studies. Students will practice analytical writing, reading, and public speaking, and become familiar with IAS faculty members and their areas of expertise. The culminating assignment will require each student to present the work they completed to members of the IAS faculty and graduate program. (F)

IAS 5713 Policy Analysis and Writing 3 Credit Hours
Prerequisite: Graduate standing or permission of instructor. This course will prepare students for policy-oriented careers. Students will develop an understanding of the policy value chain, from policy making to policy implementation and from diffusion to evaluation, and how associated feedback loops shape the policy trajectories. Building on an understanding of the policy cycle, it will give students an opportunity to engage in policy analysis. (Irreg.)

IAS 5723 Global Policy Workshop 3 Credit Hours
Prerequisite: Graduate standing or permission of instructor. This course serves as a culminating experience for the MAIS program. It is intended for students to integrate the knowledge and skills they have gained in their program and to apply them in a practical and/or experiential manner to contemporary global policy issues. The applied component will typically involve an extended simulation exercise or a project for a real-world organization. (Sp)

IAS 5793 Graduate Studies in International Relations 3 Credit Hours
Prerequisite: Graduate standing or permission of instructor. The course begins with a focus on effective analytical writing in the field of international relations. The remaining sections of the course concentrate on essential building blocks in the field of international relations, with a particular emphasis on the relationship between domestic and international levels of explanation of international phenomena, from treaties/international agreements to economic sanctions to war. (Irreg.)

IAS 5803 Global Affairs Practicum 3 Credit Hours
Prerequisite: Graduate standing or permission of instructor. All students are expected to engage in a research project resulting in a written document that examines a specific government or international policy. The paper should ultimately propose specific policy recommendations that are intended to be an improvement upon the current policy. The project may be conducted under the auspices of the Diplomacy Lab. (Irreg.)

IAS 5813 Africa in Context 3 Credit Hours
(Slashlisted with IAS 4813) Prerequisite: Graduate standing or permission of instructor. Explores topics related to the historical analysis of Africa including cultural, economic, and development issues. Through a primary focus on Uganda, students will examine the lasting effects of conflict, the emergence of civic, religious and international groups and their related work, and gain a deeper appreciation of Ugandan culture and communities. No student may earn credit for both 4813 and 5813. (Su)

IAS 5902 Global Political Turbulence 2 Credit Hours
Prerequisite: Graduate standing or permission of instructor. Explores the sources, consequences and implications of turbulence in the international political system. It will examine political turbulence in a global context, as well as turbulent affairs in each region of the world. We will concentrate on the political turbulence that characterizes global affairs today and will highlight turbulent relations in each region of the world. Required for GAMA program. (Irreg.)

IAS 5912 Global Economic Turbulence 2 Credit Hours
Prerequisite: Graduate standing or permission of instructor. Explores sources of turbulence in the global economy- from the increasing global diffusion of economic power, to the volatility produced by free movement of large amounts of capital around the world. We will begin by examining shifts in the global distribution of economic power. We also will consider the 2008-9 global financial crisis. Requirement for GAMA program. (Irreg.)

IAS 5913 International Studies Internship 3 Credit Hours
Prerequisite: graduate standing or permission of instructor. Students receive academic credit for internship work with an internationally oriented public or private organization. Internship credit requires an element of reflection, research, and writing about the work undertaken, and can strongly enhance the internship opportunity and improve a student's ability to articulate knowledgeably the requirements, benefits and lessons of work in the public or non-profit sector. (Irreg.)

IAS 5922 Global Social Turbulence 2 Credit Hours
Prerequisite: Graduate standing or permission of instructor. Examines the layered causes and consequences of social turbulence around the world. Explores how peoples interact with each other and the world around them. Students will address how people react to societal and environmental changes. Students will have a firmer grasp on societal interaction and reaction in a number of areas. Requirement for GAMA program. (Irreg.)

IAS 5923 International Studies Policy Exercise 3 Credit Hours
Prerequisite: graduate standing or permission of instructor. Policy exercise offers students the option of a Capstone project that demands the integration of skills developed in the MAIS program core. Each semester the faculty will develop a policy exercise based on a contemporary global problem. Students will be responsible for gathering extensive evidence and analyses bearing on the problem at hand from a variety of perspectives. (Irreg.)

IAS 5940 Topics in International Studies 1-4 Credit Hours
1 to 4 hours. Prerequisite: graduate standing or permission of instructor. May be repeated with change of content; maximum credit nine hours. Analysis of one or several selected topics in international studies, international development, and/or international management. (Irreg.)

IAS 5950 Research Problems 2-5 Credit Hours
2 to 5 hours. Prerequisite: graduate standing. May be repeated with change of content; maximum credit six hours. Directed research and writing on selected topics in international relations, international development, and international management. (F, Sp, Su)

IAS 5960 Directed Readings 1-3 Credit Hours
1 to 3 hours. Prerequisite: permission of instructor and graduate standing. May be repeated; maximum credit six hours. Directed individual readings on selected topics in international relations; international development, and international management. (F, Sp, Su)

IAS 5970 Special Topics/Seminar 1-3 Credit Hours
1 to 3 hours. Prerequisite: Graduate standing or permission of instructor. May be repeated; maximum credit nine hours. Special topics or seminar course for content not currently offered in regularly scheduled courses. May include library and/or laboratory research and field projects. (Irreg.)

IAS 5980 Research for Master's Thesis 2-6 Credit Hours
2 to 6 hours. Prerequisite: permission of instructor and admission to M.A. in International Relations. May be repeated; maximum credit four hours. Directed individual research and writing on master's thesis. Student must be admitted to the M.A. in International Relations program. (F, Sp, Su)

IAS 5990 Independent Study 1-3 Credit Hours
1 to 3 hours. Prerequisite: permission of instructor and graduate standing. May be repeated; maximum credit six hours. Directed individual work on topics in international relations, international development, and/or international management. (F, Sp, Su)

Faculty

Last Name	First/Middle Name	Middle init.	OU Service start	Title(s), date(s) appointed	Degrees Earned, Schools, Dates Completed
Abedini	Vahid		2025	ASSISTANT PROFESSOR, 2025	PhD, Florida International Univ, 2023; MA, Florida International Univ; MA, Univ of Tehran; BA, Univ of Tehran

Asian Studies, B.A.

Minimum Total Credit Hours: 120
Major Hours: 30
Minimum Upper-Division Hours: 48

Upper-Division Hours Within Major: 18

Overall GPA - Combined and OU: 2.00
Major GPA - Combined and OU: 2.50

Program Code: B075

Some courses required for the major may also fulfill University General Education and/or College Requirements

The major requires 30 hours, 18 of which must be upper-division, and a 2.50 GPA. 12 of the required 30 must be taken in the Department of International Studies.

Major Requirements

Code	Title	Credit Hours
I. Asian Studies Language		
Choose 2 courses at the 3000-level or above beyond the 16-hour requirement, in any of the languages in the area of concentration		6
II. History		
Choose 6 hours from a list of courses maintained by the department (a minimum of 3 must be IAS designated) (p. 486)		6
III. Politics and Society		
Choose 6 hours from a list of courses maintained by the department (a minimum of 3 must be IAS designated) (p. 486)		6
IV. Arts and Humanities		
Choose 3 hours from a list of courses maintained by the department (p. 486)		3
V. Additional Requirements		
Choose one of the following:		6
Choose two additional courses from History, Politics and Society, or Arts and Humanities (above) (3000-level or above)		
Choose two additional Asian language courses beyond the requirement of Asian Studies Languages (above) (any level)		
VI. Senior Capstone Course		
IAS 4013	Senior Capstone Seminar in International and Area Studies	3
Total Credit Hours		**30**

Note: Students may take other appropriate courses as approved by the IAS Academic Advisor.

Major Support Requirements

Code	Title	Credit Hours
Choose 16 hours of one foreign language relevant to the geographical area of concentration		16
IAS 2003	Understanding the Global Community	3
International Experience		

Majors are strongly encouraged to pursue study abroad opportunities.	
Total Credit Hours	**19**

General Education and College Requirements

Courses for fulfillment of General Education and College requirements must be from the approved General Education course list published in the Class Schedule or at: http://www.ou.edu/content/gened/courses.html. **Courses graded P/NP will not apply.**

MINIMUM OF 40 HOURS REQUIRED FOR UNIVERSITY-WIDE GENERAL EDUCATION

Code	Title	Credit Hours
Core Area I: Symbolic and Oral Communication		
English Composition		
ENGL 1113	Principles of English Composition	3
ENGL 1213	Principles of English Composition	3
or EXPO 1213	Expository Writing	
Language		
(0-13 hours in the same language) The College of International Studies requirement **cannot be met by high school coursework**		
Beginning Course		0-5
Beginning Course, continued		0-5
Intermediate Course (2000 level) [1,2]		0-3
Mathematics		
Choose one course		3
Core Area II: Natural Science		
Choose two courses from different disciplines in the biological and/or physical sciences, one of which must include a laboratory component [1]		7
Core Area III: Social Science		
P SC 1113	American Federal Government	3
Choose one course		3
Core Area IV: Arts and Humanities		
Artistic Forms		
Choose one course [4]		3
Western Culture		
HIST 1483	United States to 1865	3
or HIST 1493	United States, 1865 to the Present	
Choose one course [3, 4]		3
World Culture		
Choose one course [4]		3
Core Area V: First-Year Experience		
Choose one course		3
Total Credit Hours		**37-50**

1 College of International Studies Requirements: College requirements are not automatically fulfilled by a previous degree.

2 One course at the intermediate level or demonstrated competency at that level. If this requirement is waived, a few hours of General Education electives may be needed to achieve the required 40 hour minimum (may also be satisfied by a major requirement or free elective).

3 Excluding HIST 1483 and HIST 1493.

4 It is recommended students take either Artistic Forms, Western Culture, or World Culture at the 3000-/4000-level to fulfill the university requirement of one upper-division course from the approved University Wide General Education list. The course must be outside the major. This may also be satisfied in the upper-division or free elective categories.

Free Electives

Electives to bring total applicable hours to the minimum total required for the degree including 48 upper-division hours.

Information Concerning General Rules, Regulations and Minimum Requirements

Total Hours: A minimum of 120 semester hours acceptable toward graduation must be completed.

Upper-Division Hours: A minimum of 48 upper-division semester hours acceptable toward graduation must be completed. OU courses numbered 3000 or above are upper-division. Transfer work is counted as lower-division or upper-division credit depending on the level at which it was offered at the institution where it was earned. Two-year college work is accepted only as lower-division credit.

Liberal Arts and Sciences Hours: At least 80 semester hours of liberal arts and sciences courses are required for a BA degree. At least 55 semester hours of liberal arts and sciences courses are required for a BS degree.

Major Work: A minimum of 30 semester hours must be earned in the major, including a minimum of 15 credit hours at the upper-division level.

Pass/No Pass Enrollment: A maximum of 16 semester hours of free elective credit may be attempted under this option.

Individual Studies (e.g., courses titled "Independent Study"): A maximum of 12 total semester hours may be counted toward graduation, excluding Honors Reading and Honors Research.

Military, Military In-Service, Skills, Applied Technology, and P.E. Courses: A maximum of 16 semester credit hours of basic skills and/or applied technology courses. No physical education activity courses will be counted toward the 120 semester hours of acceptable credit for graduation.

Senior Institution Hours: A minimum of 60 semester hours applied toward graduation must be earned at senior (4-year) institutions.

Residency:

- At least 15 of the final 30 hours applied toward the degree or at least 50 percent of the hours required by the institution in the major field must be satisfactorily completed at the awarding institution.
- At least 15 semester hours of upper-division major work must be completed in residence at OU.
- OU correspondence courses are ***not*** considered resident credit.
- Credits earned via examination are neither resident nor nonresident credit.

Suggested Semester Plan of Study

This plan of study should not be used in lieu of academic advisement. Students who transfer from other institutions (particularly community colleges) must verify credit hour and course requirements with their academic counselor, (405) 325-1429, http://www.ou.edu/international. Please make an appointment for a degree check with your college academic counselor once you have earned 90 hours.

This plan shows one possible grouping of courses that would allow students to graduate in four years. Please refer to the degree checksheet for official requirements. Students must consult with Department of International Studies academic advisors to verify that courses selected each semester fulfill the recommended plan and satisfy university, college, and Asian Studies major requirements.

European Studies: Russian & East European, B.A.

Minimum Total Credit Hours: 120
Major Hours: 30
Minimum Upper-Division Hours: 48
Upper-Division Hours Within Major: 18

Overall GPA - Combined and OU: 2.00
Major GPA - Combined and OU: 2.50

Program Code: B420 P576

Some courses required for the major may also fulfill University General Education and/or College Requirements.

The major requires 30 hours, 18 of which must be upper-division. 12 of the required 30 must be taken in the Department of International Studies.

Major Requirements

Code	Title	Credit Hours
I. Language & Literature		
Choose two courses at the 3000-level or above beyond the 16-hour requirement, in any of the languages in the area of concentration		6
II. Foundations in European Studies		
IAS 3273	The European Union	3
III. International Studies		
Choose 6 hours from a list of courses maintained by the department (p. 492)		6
IV. History, Politics, and Ideas		
Choose 6 hours from a list of courses maintained by the department (p. 492)		6
V. Arts and Culture		
Choose 6 hours from a list of courses maintained by the department (p. 492)		6
VI. Senior Capstone Course		
IAS 4013	Senior Capstone Seminar in International and Area Studies	3
Total Credit Hours		**30**

Note: Students may take other appropriate courses as approved by the IAS Academic Advisor.

Major Support Requirements

Code	Title	Credit Hours
Choose 16 hours of one foreign language relevant to the geographical area of concentration		16
IAS 2003	Understanding the Global Community	3
International Experience		
Majors are strongly encouraged to pursue study abroad opportunities.		
Total Credit Hours		**19**

General Education and College Requirements

Courses for fulfillment of General Education and College requirements must be from the approved General Education course list published in the Class Schedule or at: http://www.ou.edu/content/gened/courses.html. **Courses graded P/NP will not apply.**

MINIMUM OF 40 HOURS REQUIRED FOR UNIVERSITY-WIDE GENERAL EDUCATION

Code	Title	Credit Hours
Core Area I: Symbolic and Oral Communication		
English Composition		
ENGL 1113	Principles of English Composition	3

or HIST 1493	United States, 1865 to the Present	
Choose one course [3,4]		3
World Culture		
Choose one course [4]		3
Core Area V: First-Year Experience		
Choose one course		3
Total Credit Hours		**37-50**

1 College of International Studies Requirements: College requirements are not automatically fulfilled by a previous degree.

2 One course at the intermediate level or demonstrated competency at that level. If this requirement is waived, a few hours of General Education electives may be needed to achieve the required 40 hour minimum (may also be satisfied by a major requirement or free elective).

3 Excluding HIST 1483 and HIST 1493.

4 It is recommended students take either Artistic Forms, Western Culture, or World Culture at the 3000-/4000-level to fulfill the university requirement of one upper-division course from the approved University Wide General Education list. The course must be outside the major. This may also be satisfied in the upper-division or free elective categories.

Free Electives

Electives to bring total applicable hours to the minimum total required for the degree including 48 upper-division hours.

Information Concerning General Rules, Regulations and Minimum Requirements

Total Hours: A minimum of 120 semester hours acceptable toward graduation must be completed.
Upper-Division Hours: A minimum of 48 upper-division semester hours acceptable toward graduation must be completed. OU courses numbered 3000 or above are upper-division. Transfer work is counted as lower-division or upper-division credit depending on the level at which it was offered at the institution where it was earned. Two-year college work is accepted only as lower-division credit.
Liberal Arts and Sciences Hours: At least 80 semester hours of liberal arts and sciences courses are required for a BA degree. At least 55 semester hours of liberal arts and sciences courses are required for a BS degree.
Major Work: A minimum of 30 semester hours must be earned in the major, including a minimum of 15 credit hours at the upper-division level.
Pass/No Pass Enrollment: A maximum of 16 semester hours of free elective credit may be attempted under this option.
Individual Studies (e.g., courses titled "Independent Study"): A maximum of 12 total semester hours may be counted toward graduation, excluding Honors Reading and Honors Research.
Military, Military In-Service, Skills, Applied Technology, and P.E. Courses: A maximum of 16 semester credit hours of basic skills and/or applied technology courses. No physical education activity courses will be counted toward the 120 semester hours of acceptable credit for graduation.
Senior Institution Hours: A minimum of 60 semester hours applied toward graduation must be earned at senior (4-year) institutions.
Residency:

- At least 15 of the final 30 hours applied toward the degree or at least 50 percent of the hours required by the institution in the major field must be satisfactorily completed at the awarding institution.
- At least 15 semester hours of upper-division major work must be completed in residence at OU.
- OU correspondence courses are ***not*** considered resident credit.
- Credits earned via examination are neither resident nor nonresident credit.

Suggested Semester Plan of Study

This plan of study should not be used in lieu of academic advisement. Students who transfer from other institutions (particularly community colleges) must verify credit hour and course requirements with their academic counselor, (405) 325-1429, http://www.ou.edu/international. Please make an appointment for a degree check with your college academic counselor once you have earned 90 hours.

This plan shows one possible grouping of courses that would allow students to graduate in four years. Please refer to the front of the degree checksheet for official requirements. Students must consult with Department of International Studies academic advisors to verify that courses selected each semester fulfill the recommended plan and satisfy university, college, and Russian and East European Studies major requirements.

Choose one course [4]		3
Core Area V: First-Year Experience		
Choose one course		3
Total Credit Hours		**37-50**

1. College of International Studies Requirements: College requirements are not automatically fulfilled by a previous degree.
2. One course at the intermediate level or demonstrated competency at that level. If this requirement is waived, a few hours of General Education electives may be needed to achieve the required 40 hour minimum (may also be satisfied by a major requirement or free elective).

[3] Excluding HIST 1483 and HIST 1493.

[4] It is recommended students take either Artistic Forms, Western Culture, or World Culture at the 3000-/4000-level to fulfill the university requirement of one upper-division course from the approved University Wide General Education list. The course must be outside the major. This may also be satisfied in the upper-division or free elective categories.

Free Electives

Electives to bring total applicable hours to the minimum total required for the degree including 48 upper-division hours.

Information Concerning General Rules, Regulations and Minimum Requirements

Total Hours: A minimum of 120 semester hours acceptable toward graduation must be completed.

Upper-Division Hours: A minimum of 48 upper-division semester hours acceptable toward graduation must be completed. OU courses numbered 3000 or above are upper-division. Transfer work is counted as lower-division or upper-division credit depending on the level at which it was offered at the institution where it was earned. Two-year college work is accepted only as lower-division credit.

Liberal Arts and Sciences Hours: At least 80 semester hours of liberal arts and sciences courses are required for a BA degree. At least 55 semester hours of liberal arts and sciences courses are required for a BS degree.

Major Work: A minimum of 30 semester hours must be earned in the major, including a minimum of 15 credit hours at the upper-division level.

Pass/No Pass Enrollment: A maximum of 16 semester hours of free elective credit may be attempted under this option.

Individual Studies (e.g., courses titled "Independent Study"): A maximum of 12 total semester hours may be counted toward graduation, excluding Honors Reading and Honors Research.

Military, Military In-Service, Skills, Applied Technology, and P.E. Courses: A maximum of 16 semester credit hours of basic skills and/or applied technology courses. No physical education activity courses will be counted toward the 120 semester hours of acceptable credit for graduation.

Senior Institution Hours: A minimum of 60 semester hours applied toward graduation must be earned at senior (4-year) institutions.

Residency:

- At least 15 of the final 30 hours applied toward the degree or at least 50 percent of the hours required by the institution in the major field must be satisfactorily completed at the awarding institution.
- At least 15 semester hours of upper-division major work must be completed in residence at OU.
- OU correspondence courses are ***not*** considered resident credit.
- Credits earned via examination are neither resident nor nonresident credit.

Suggested Semester Plan of Study

This plan of study should not be used in lieu of academic advisement. Students who transfer from other institutions (particularly community colleges) must verify credit hour and course requirements with their academic counselor, (405) 325-1429, http://www.ou.edu/international. Please make an appointment for a degree check with your college academic counselor once you have earned 90 hours.

This plan shows one possible grouping of courses that would allow students to graduate in four years. Please refer to the front of the degree checksheet for official requirements. Students must consult with Department of International Studies academic advisors to verify that courses selected each semester fulfill the recommended plan and satisfy university, college, and International Studies major requirements.

Major Work: A minimum of 30 semester hours must be earned in the major, including a minimum of 15 credit hours at the upper-division level.
Pass/No Pass Enrollment: A maximum of 16 semester hours of free elective credit may be attempted under this option.
Individual Studies (e.g., courses titled "Independent Study"): A maximum of 12 total semester hours may be counted toward graduation, excluding Honors Reading and Honors Research.
Military, Military In-Service, Skills, Applied Technology, and P.E. Courses: A maximum of 16 semester credit hours of basic skills and/or applied technology courses. No physical education activity courses will be counted toward the 120 semester hours of acceptable credit for graduation.
Senior Institution Hours: A minimum of 60 semester hours applied toward graduation must be earned at senior (4-year) institutions.
Residency:

- At least 15 of the final 30 hours applied toward the degree or at least 50 percent of the hours required by the institution in the major field must be satisfactorily completed at the awarding institution.
- At least 15 semester hours of upper-division major work must be completed in residence at OU.
- OU correspondence courses are ***not*** considered resident credit.
- Credits earned via examination are neither resident nor nonresident credit.

Suggested Semester Plan of Study

This plan of study should not be used in lieu of academic advisement. Students who transfer from other institutions (particularly community colleges) must verify credit hour and course requirements with their academic counselor, (405) 325-1429, http://www.ou.edu/international. Please make an appointment for a degree check with your college academic counselor once you have earned 90 hours.

This plan shows one possible grouping of courses that would allow students to graduate in four years. Please refer to the front of the degree checksheet for official requirements. Students must consult with Department of International Studies academic advisors to verify that courses selected each semester fulfill the recommended plan and satisfy university, college, and International Studies major requirements.

Latin American Studies, B.A.

Minimum Total Credit Hours: 120
Major Hours: 30
Minimum Upper-Division Hours: 48
Upper-Division Hours Within Major: 18

Overall GPA - Combined and OU: 2.00
Major GPA - Combined and OU: 2.50

Program Code: B630

Some courses required for the major may also fulfill University General Education and/or College Requirements.

The major requires 30 hours, 18 of which must be upper-division, and a 2.50 GPA. 12 of the required 30 must be taken in the Department of International Studies.

Major Requirements

Code	Title	Credit Hours
I. Language & Literature		
Choose two courses at the 3000-level or above beyond the 16-hour requirement, in any of the languages in the area of concentration		6
II. Latin American Studies		
Choose 9 hours from a list of courses maintained by the department (p. 507)		9
III. History and Geography		
Choose 3 hours from a list of courses maintained by the department (p. 507)		3
IV. Politics and Economics		
Choose 3 hours from a list of courses maintained by the department (p. 507)		3
V. Arts, Culture & Society		
Choose 3 hours from a list of courses maintained by the department (p. 507)		3
VI. Additional Course		
Choose an additional 3 hours from Latin American Studies, History and Geography, Politics and Economics, or Arts, Culture & Society (p. 507)		3
VII. Senior Capstone Course		
IAS 4013	Senior Capstone Seminar in International and Area Studies	3
Total Credit Hours		**30**

Note: Students may take other appropriate courses as approved by the IAS Academic Advisor.

Major Support Requirements

Code	Title	Credit Hours
Choose 16 hours of one foreign language relevant to the geographical area of concentration		16
IAS 2003	Understanding the Global Community	3
International Experience		
Majors are strongly encouraged to pursue study abroad opportunities.		
Total Credit Hours		**19**

General Education and College Requirements

Courses for fulfillment of General Education and College requirements must be from the approved General Education course list published in the Class Schedule or at: http://www.ou.edu/content/gened/courses.html. **Courses graded P/NP will not apply.**

MINIMUM OF 40 HOURS REQUIRED FOR UNIVERSITY-WIDE GENERAL EDUCATION

Code	Title	Credit Hours
Core Area I: Symbolic and Oral Communication		
English Composition		
ENGL 1113	Principles of English Composition	3

ENGL 1213	Principles of English Composition	3
or EXPO 1213	Expository Writing	
Language		
(0-13 hours in the same language) The College of International Studies requirement **cannot be met by high school coursework**		
Beginning Course		0-5
Beginning Course, continued		0-5
Intermediate Course (2000 level) [1,2]		0-3
Mathematics		
Choose one course		3
Core Area II: Natural Science		
Choose two courses from different disciplines in the biological and/or physical sciences, one of which must include a laboratory component [1]		7
Core Area III: Social Science		
P SC 1113	American Federal Government	3
Choose one course		3
Core Area IV: Arts and Humanities		
Artistic Forms		
Choose one course [4]		3
Western Culture		
HIST 1483	United States to 1865	3
or HIST 1493	United States, 1865 to the Present	
Choose one course [3,4]		3
World Culture		
Choose one course [4]		3
Core Area V: First-Year Experience		
Choose one course		3
Total Credit Hours		**37-50**

1 College of International Studies Requirements: College requirements are not automatically fulfilled by a previous degree.

2 One course at the intermediate level or demonstrated competency at that level. If this requirement is waived, a few hours of General Education electives may be needed to achieve the required 40 hour minimum (may also be satisfied by a major requirement or free elective).

3 Excluding HIST 1483 and HIST 1493.

4 It is recommended students take either Artistic Forms, Western Culture, or World Culture at the 3000-/4000-level to fulfill the university requirement of one upper-division course from the approved University Wide General Education list. The course must be outside the major. This may also be satisfied in the upper-division or free elective categories.

Free Electives

Electives to bring total applicable hours to the minimum total required for the degree including 48 upper-division hours.

Information Concerning General Rules, Regulations and Minimum Requirements

Total Hours: A minimum of 120 semester hours acceptable toward graduation must be completed.

Upper-Division Hours: A minimum of 48 upper-division semester hours acceptable toward graduation must be completed. OU courses numbered 3000 or above are upper-division. Transfer work is counted as lower-division or upper-division credit depending on the level at which it was offered at the institution where it was earned. Two-year college work is accepted only as lower-division credit.

Liberal Arts and Sciences Hours: At least 80 semester hours of liberal arts and sciences courses are required for a BA degree. At least 55 semester hours of liberal arts and sciences courses are required for a BS degree.

Major Work: A minimum of 30 semester hours must be earned in the major, including a minimum of 15 credit hours at the upper-division level.

Pass/No Pass Enrollment: A maximum of 16 semester hours of free elective credit may be attempted under this option.

Individual Studies (e.g., courses titled "Independent Study"): A maximum of 12 total semester hours may be counted toward graduation, excluding Honors Reading and Honors Research.

Military, Military In-Service, Skills, Applied Technology, and P.E. Courses: A maximum of 16 semester credit hours of basic skills and/or applied technology courses. No physical education activity courses will be counted toward the 120 semester hours of acceptable credit for graduation.

Senior Institution Hours: A minimum of 60 semester hours applied toward graduation must be earned at senior (4-year) institutions.

Residency:

- At least 15 of the final 30 hours applied toward the degree or at least 50 percent of the hours required by the institution in the major field must be satisfactorily completed at the awarding institution.
- At least 15 semester hours of upper-division major work must be completed in residence at OU.
- OU correspondence courses are ***not*** considered resident credit.
- Credits earned via examination are neither resident nor nonresident credit.

Suggested Semester Plan of Study

This plan of study should not be used in lieu of academic advisement. Students who transfer from other institutions (particularly community colleges) must verify credit hour and course requirements with their academic counselor, (405) 325-1429, http://www.ou.edu/international. Please make an appointment for a degree check with your college academic counselor once you have earned 90 hours.

This plan shows one possible grouping of courses that would allow students to graduate in four years. Please refer to the front of the degree checksheet for official requirements. Students must consult with Department of International Studies academic advisors to verify that courses selected each semester fulfill the recommended plan and satisfy university, college, and Latin American Studies major requirements.

2. One course at the intermediate level or demonstrated competency at that level. If this requirement is waived, a few hours of General Education electives may be needed to achieve the required 40 hour minimum (may also be satisfied by a major requirement or free elective).
3. Excluding HIST 1483 and HIST 1493.
4. It is recommended students take either Artistic Forms, Western Culture, or World Culture at the 3000-/4000-level to fulfill the university requirement of one upper-division course from the approved University Wide General Education list. The course must be outside the major. This may also be satisfied in the upper-division or free elective categories.

Free Electives

Electives to bring total applicable hours to the minimum total required for the degree including 48 upper-division hours.

Information Concerning General Rules, Regulations and Minimum Requirements

Total Hours: A minimum of 120 semester hours acceptable toward graduation must be completed.
Upper-Division Hours: A minimum of 48 upper-division semester hours acceptable toward graduation must be completed. OU courses numbered 3000 or above are upper-division. Transfer work is counted as lower-division or upper-division credit depending on the level at which it was offered at the institution where it was earned. Two-year college work is accepted only as lower-division credit.
Liberal Arts and Sciences Hours: At least 80 semester hours of liberal arts and sciences courses are required for a BA degree. At least 55 semester hours of liberal arts and sciences courses are required for a BS degree.
Major Work: A minimum of 30 semester hours must be earned in the major, including a minimum of 15 credit hours at the upper-division level.
Pass/No Pass Enrollment: A maximum of 16 semester hours of free elective credit may be attempted under this option.
Individual Studies (e.g., courses titled "Independent Study"): A maximum of 12 total semester hours may be counted toward graduation, excluding Honors Reading and Honors Research.
Military, Military In-Service, Skills, Applied Technology, and P.E. Courses: A maximum of 16 semester credit hours of basic skills and/or applied technology courses. No physical education activity courses will be counted toward the 120 semester hours of acceptable credit for graduation.
Senior Institution Hours: A minimum of 60 semester hours applied toward graduation must be earned at senior (4-year) institutions.
Residency:

- At least 15 of the final 30 hours applied toward the degree or at least 50 percent of the hours required by the institution in the major field must be satisfactorily completed at the awarding institution.
- At least 15 semester hours of upper-division major work must be completed in residence at OU.
- OU correspondence courses are ***not*** considered resident credit.
- Credits earned via examination are neither resident nor nonresident credit.

Suggested Semester Plan of Study

This plan of study should not be used in lieu of academic advisement. Students who transfer from other institutions (particularly community colleges) must verify credit hour and course requirements with their academic counselor, (405) 325-1429, http://www.ou.edu/international. Please make an appointment for a degree check with your college academic counselor once you have earned 90 hours.

This plan shows one possible grouping of courses that would allow students to graduate in four years. Please refer to the front of the degree checksheet for official requirements. Students must consult with Department of International Studies academic advisors to verify that courses selected each semester fulfill the recommended plan and satisfy university, college, and major requirements.

African Studies, Minor

Minimum Total Credit Hours: 15
Minimum Upper-Division Hours: 9

Program Code: N016

- **The requirements for a minor must be completed concurrently with the major degree requirements.**
- **No minor may be added by completing courses after receiving the bachelor's degree.**

Students must successfully complete at least 15 hours of coursework in international studies, including at least 9 hours at the upper-division level.

At least 6 credit hours must be earned in courses acceptable for residence credit by standards set forth by the Department of International Studies, excluding transfer, correspondence, and examination (AP, CLEP, Advanced Standing) credit.

A minimum of 6 of the required 15 hours must be taken in the Department of International Studies.

Students are encouraged to study abroad. Courses taken while studying abroad may also be substituted to meet minor requirements, though they might not satisfy General Education requirements.

A list of approved courses for the minor may be obtained in the IAS Academic Advising Office or on the departmental website.

No single course may be used by a student to satisfy a major requirement and a minor requirement. A course may be used, however, to satisfy both a major support requirement and a minor requirement. Requests to substitute a minor requirement must be approved in writing by the African Studies coordinator.

- Minors are available to all undergraduate students at OU. If the minor is officially declared, successfully completed, and noted on the graduation application, the student's transcript will so indicate at the time the bachelor's degree is posted.

Minimum Upper-Division Hours: 9

Program Code: N609

- **The requirements for a minor must be completed concurrently with the major degree requirements.**
- **No minor may be added by completing courses after receiving the bachelor's degree.**

Students must successfully complete at least 15 hours of coursework in international studies, including at least 9 hours at the upper-division level.

At least 6 credit hours must be earned in courses acceptable for residence credit by standards set forth by the Department of International Studies, excluding transfer, correspondence, and examination (AP, CLEP, Advanced Standing) credit.

A minimum of 6 of the required 15 hours must be taken in the Department of International Studies.

Students are encouraged to study abroad. Courses taken while studying abroad may also be substituted to meet minor requirements, though they might not satisfy General Education requirements.

A list of approved courses for the minor may be obtained in the IAS Academic Advising Office or on the departmental website.

No single course may be used by a student to satisfy a major requirement and a minor requirement. A course may be used, however, to satisfy both a major support requirement and a minor requirement. Requests to substitute a minor requirement must be approved in writing by the Iranian Studies coordinator.

- Minors are available to all undergraduate students at OU. If the minor is officially declared, successfully completed, and noted on the graduation application, the student's transcript will so indicate at the time the bachelor's degree is posted.

Required Courses

Code	Title	Credit Hours
Required Course		
IAS 2003	Understanding the Global Community	3
Language or Culture		
Choose one course from the following third semester language or upper-division cultural & area studies list		3
Third semester language course:

Global Engagement, Undergraduate Certificate

Minimum Total Credit Hours: 18

Program Code: T215

The Global Engagement undergraduate certificate is designed to enhance students' knowledge of the global community, including international affairs and modern global issues, as well as encourage them to become active global citizens. Certificate requirements are similar to those in the currently-existing OU program, the Global Engagement Fellowship (GEF) Program. These requirements include successfully completing required coursework; gaining or demonstrating proficiency in a modern language; studying or working abroad twice (at least one summer or winter term); becoming actively involved in international groups and events on campus; and maintaining an e-portfolio documenting their experiences and reflections. The certificate adds a formal designation to fellows' OU academic record showing that they completed a global education curriculum and provides them a tangible way to make their experiences more marketable to potential future employers. All GEFs who successfully complete the program requirements are eligible for the certificate, but it is also available to any degree-seeking OU student.

Certificate Requirements

Code	Title	Credit Hours
IAS 2003	Understanding the Global Community	3
IAS 3910	International Studies Internship	3-6
Approved Study Abroad or international internship program		6-9
Complete 3 credits in a modern language at the 2223 (intermediate continued) level [1]		3
Total Credit Hours		**18**

[1] If a student has already obtained this level of proficiency in a relevant language, they may substitute additional approved IAS or study abroad coursework.

International Studies, B.A./Global Studies, M.A.

Minimum Total Credit Hours: 144
Major Hours: 33
Minimum Upper-Division Hours: 48
Upper-Division Hours Within Major: 18

Overall GPA - Combined and OU: 3.00
Major GPA - Combined and OU: 3.00

Program Code: A605/F497

Some courses required for the major may also fulfill University General Education and/or College Requirements

The major requires 33 hours, 18 of which must be upper-division. 18 of the required 33 must be taken in the Department of International Studies.

Major Requirements

Code	Title	Credit Hours
I. International Relations (3 hours must be IAS designated)		
Choose 3 hours from a list of courses maintained by the department (p. 522)		3
IAS 5503	Theory and Practice of International Politics	3
II. Development & Economics (3 hours must be IAS designated)		
Choose 3 hours from a list of courses maintained by the department (p. 522)		3
IAS 5713	Policy Analysis and Writing	3
III. History & Culture (3 hours must be IAS designated)		
Choose 3 hours from a list of courses maintained by the department (p. 522)		3
IAS 5003	U.S. Foreign Relations	3

IV. Politics & Society (3 hours must be IAS designated)		
Choose 3 hours from a list of courses maintained by the department (p. 522)		3
IAS 5703	International Studies Colloquium	3
V. Specialization (3 hours must be IAS designated)		
Choose 6 hours in an area of specialization that fits career goals [1]		6
VI. Senior Capstone Course		
IAS 4013	Senior Capstone Seminar in International and Area Studies	3
Total Credit Hours		**33**

[1] Will include additional hours from sections I-IV, an area studies, or custom specialization as approved.

Note: Students may take other appropriate courses as approved by the IAS Academic Advisor.

Major Support Requirements

Code	Title	Credit Hours
Choose 13 hours of one foreign language		13
ECON 1113	Principles of Economics-Macro	3

Choose one course [3,4]		3
World Culture		
Choose one course [4]		3
Core Area V: First-Year Experience		
Choose one course		3
Total Credit Hours		**37-50**

[1] College of International Studies Requirements: College requirements are not automatically fulfilled by a previous degree.

[2] One course at the intermediate level or demonstrated competency at that level.

[3] Excluding HIST 1483 and HIST 1493.

[4] It is recommended students take either Artistic Forms, Western Culture, or World Culture at the 3000-/4000-level to fulfill the university

requirement of one upper-division course from the approved University Wide General Education list. The course must be outside the major. This may also be satisfied in the upper-division or free elective categories.

Free Electives

Electives to bring total applicable hours to the minimum total required for the degree including 48 upper-division hours.

Information Concerning General Rules, Regulations and Minimum Requirements

Total Hours: A minimum of 120 semester hours acceptable toward graduation must be completed.
Upper-Division Hours: A minimum of 48 upper-division semester hours acceptable toward graduation must be completed. OU courses numbered 3000 or above are upper-division. Transfer work is counted as lower-division or upper-division credit depending on the level at which it was offered at the institution where it was earned. Two-year college work is accepted only as lower-division credit.
Liberal Arts and Sciences Hours: At least 80 semester hours of liberal arts and sciences courses are required for a BA degree. At least 55 semester hours of liberal arts and sciences courses are required for a BS degree.
Major Work: A minimum of 30 semester hours must be earned in the major, including a minimum of 15 credit hours at the upper-division level.
Pass/No Pass Enrollment: A maximum of 16 semester hours of free elective credit may be attempted under this option.
Individual Studies (e.g., courses titled "Independent Study"): A maximum of 12 total semester hours may be counted toward graduation, excluding Honors Reading and Honors Research.
Military, Military In-Service, Skills, Applied Technology, and P.E. Courses: A maximum of 16 semester credit hours of basic skills and/or applied technology courses. No physical education activity courses will be counted toward the 120 semester hours of acceptable credit for graduation.
Senior Institution Hours: A minimum of 60 semester hours applied toward graduation must be earned at senior (4-year) institutions.
Residency:

- At least 15 of the final 30 hours applied toward the degree or at least 50 percent of the hours required by the institution in the major field must be satisfactorily completed at the awarding institution.
- At least 15 semester hours of upper-division major work must be completed in residence at OU.
- OU correspondence courses are ***not*** considered resident credit.
- Credits earned via examination are neither resident nor nonresident credit.

Suggested Semester Plan of Study

This plan is a sample of one possible grouping of courses that would allow students to graduate in five years. Please refer to the front of the degree checksheet for official requirements. Students must consult with Department of International Studies academic advisors to verify that courses selected each semester fulfill the recommended plan and satisfy university, college, International Studies, and Global Studies major requirements.

Freshman

First Semester		**Credit Hours**
ENGL 1113	Principles of English Composition (Core I)	3
MATH (Core I)		3
Beginning Language (Core I)		5
Natural Science with Lab (Core II)		4
	Credit Hours	**15**

Graduate-level Elective		3
	Credit Hours	**12**
Second Semester		
Graduate level Area Studies Course		3
Graduate level Law and Institutions Course		3
IAS 5723 or IAS 5980	Global Policy Workshop or Research for Master's Thesis	3
Graduate level Elective		3
	Credit Hours	**12**
	Total Credit Hours	**144**

Bachelor's degrees require a minimum of 48 hours of upper-division (3000-4000) coursework.

This plan of study should not be used in lieu of academic advisement.

Students who transfer from other institutions (particularly community colleges) must verify credit hour and course requirements with their academic counselor, (405) 325-1429, http://www.ou.edu/international.

Please make an appointment for a degree check with your college academic counselor once you have earned 90 hours.

IAS 5850		
Total Credit Hours		**33**

[1] Each specialization requires 9 hours from the chosen track and 3 hours from another track.

General Requirements for all Master's Degrees

The master's degree requires the equivalent of *at least* two semesters of satisfactory graduate work and additional work as may be prescribed for the degree.

All coursework applied to the master's degree must carry graduate credit.

Master's degree programs which require a thesis consist of *at least* 30 credit hours. All non-thesis master's degree programs require *at least* 30 credit hours.

Credit transferred from other institutions must meet specific criteria and is subject to certain limitations.

Courses completed through correspondence study may *not* be applied to the master's degree.

To qualify for a graduate degree, students must achieve an overall grade point average of 3.0 or higher in the degree program coursework and in all resident graduate coursework attempted. A student must also have at least a 3.0 in all coursework (including undergraduate coursework if any).

Additional information for master's degree students may be found in the Graduate College Bulletin.

Schusterman Program in Judaic and Israel Studies

Alan T. Levenson, Director
455 W. Lindsey, Room 403A
Norman, Oklahoma 73019
Phone: (405) 325-6508
FAX: (405) 325-6521
judaicstudies@ou.edu
Website: http://judaicstudies.ou.edu

General Information

The Schusterman Center for Judaic and Israel Studies at OU offers an exceptionally wide variety of courses, including Jewish history in all periods and places, Hebrew Language and Literature at all levels, the Bible and Its Interpretation, Israel Studies, the Holocaust/Genocide, Jewish Literature in translation, as well as anthropological, sociological, and political perspectives on the Jewish experience.

Judaic Studies explores the history and culture of the Jewish people over a period of four millennia in the Land of Israel and in the Diaspora (Dispersion) through the tools of the humanities and the social sciences. The field began as an academic discipline in Europe during the nineteenth century and developed within universities and research centers the world over during the twentieth and twenty-first. Israel Studies is a much more recent field dedicated to interpreting the culture, politics and society of the modern State of Israel.

Scholarships & Facilities

Scholarships and Awards

Schusterman Center Study in Israel Scholarship

Scholarships are offered for semester-long study abroad programs in Israel; and for those wishing to study in Israel during the summer. The scholarships are open to full-time University of Oklahoma undergraduate and graduate students during the period for which application is made. Students must have completed a minimum of 15 hours of college coursework. Priority will be given to graduate students concentrating in Jewish History and undergraduate students who have officially declared a major or a minor in Judaic Studies or a minor in Hebrew. Applicants must have maintained a 3.0 GPA in Jewish History, Judaic Studies or Hebrew courses and a 2.5 GPA overall.

Schusterman Center Domestic Scholarships

The Schusterman Center awards merit-based scholarships each academic year.

Esther Rose Shnier Scholarship

The Schusterman Center annually offers two Shnier Scholarships. The scholarships are open to any individual who, having completed at least 30 credit hours of college coursework, is a full-time, regularly enrolled student of the University of Oklahoma during the period in which application is made, and who has officially declared a major or minor in Judaic Studies and/or a minor in Hebrew. Applicants must have maintained a 3.0 grade average on a scale of 4.0 in Judaic Studies/Hebrew courses. The number of completed hours in the major or minors will also be taken into consideration by the selection committee. Any eligible, deserving undergraduate student is qualified for either an initial award or a subsequent award if, in the opinion of the selection committee, the student is making satisfactory progress toward graduation and the student needs supplemental financial assistance. Applicants will be chosen chiefly on college performance with financial need assuming a secondary role.

Rosalyn Price Scholarship

The Price Memorial Scholarship is open to any individual who is a full-time, regularly enrolled student of the University of Oklahoma majoring in Judaic Studies. Applicants must have maintained a 2.8 grade point average on a scale of 4.0. The overall grade point

average may also be taken into consideration by the selection committee as well as the number of completed hours in the major. Any eligible, deserving undergraduate or graduate student is qualified for either an initial award or a subsequent award if, in the opinion of the selection committee, the student is making satisfactory progress toward graduation.

Zarrow Family Scholarship
The Zarrow Scholarship is open to any individual who, having completed at least three Judaic Studies and/or Hebrew courses, is a full-time, regularly enrolled undergraduate or graduate student of the University of Oklahoma during the period in which application is made. Preference will be given to declared majors or minors in Judaic Studies or minors in Hebrew. Applicants must have maintained a 3.0 grade point average in the minor on a scale of 4.0. The overall grade point average may also be taken into consideration by the selection committee as well as the number of completed hours in the major and/or minors. Any eligible, deserving undergraduate or graduate student is qualified for either an initial award or a subsequent award if, in the opinion of the selection committee, the student is making satisfactory progress toward graduation.

Norman Stillman Prize for Excellence in Judaic Studies

Established in 2016 in honor of the Schusterman Center's founding director, the Norman Stillman Prize for Excellence in Judaic Studies is awarded annually to an outstanding undergraduate or graduate student scholar at the University of Oklahoma. Prospective winners are nominated by our faculty and the awardees selected by committee.

Film Library, Videos and Recordings

The Schusterman Center has a large collection of DVDs, including recorded lectures. Please contact the departmental office for individual availability. The Schusterman Center for Judaic and Israel Studies also offers a variety of recorded lectures, available on their YouTube channel.

Undergraduate Study

Bachelor of Arts

The Bachelor of Arts in Judaic Studies (p. 527) provides students with: a solid grounding in the history and culture of one of the seminal components of modern civilization; in-depth familiarity with one of the most significant countries of the Middle East; and proficiency in the language of present-day Israel and of Jewish historical creativity.

Minor

The Judaic & Israel Studies Minor (p. 530) allows for each student to select what interests them. Students can mix and match from three focus areas: Israel: Ancient and Modern, European Jewry: Medieval to the Holocaust Bible, Jewish Culture & Literature.

A Hebrew Language Minor (p. 636) is offered through the Department of Modern Languages, Literatures, and Linguistics.

Graduate Study

Students who wish to pursue a master's or doctoral degree may select a Judaic/Israel History major field through the Department of History's graduate programs.

Total Credit Hours		**56**

1 College of Arts and Sciences Requirements: college requirements are not automatically fulfilled by a previous degree.

2 One course at the intermediate level or demonstrated competency at that level

3 6 upper-division hours, 2 courses, at the 3000- 4000-level. ***Must be outside the major.***

Free Electives

Electives to bring total applicable hours to the minimum total required for the degree including 48 upper-division hours.

Information Concerning General Rules, Regulations and Minimum Requirements

Arts and Sciences Hours: At least 80 semester hours of liberal arts and sciences courses are required for a BA degree. At least 55 semester hours of liberal arts and sciences courses are required for a BS degree.
Pass/No Pass Enrollment: A maximum of 16 semester hours of free elective credit may be attempted under this option.
Individual Studies (e.g., courses titled "Independent Study"): A maximum of 12 total semester hours may be counted toward graduation, excluding Honors Reading and Honors Research.
P.E. Courses: No physical education activity courses will be counted toward the 120 semester hours of acceptable credit for graduation.
Senior Institution Hours: A minimum of 60 semester hours applied toward graduation must be earned at senior (4-year) institutions.
Residency:

- At least 15 of the final 30 hours applied toward the degree or at least 50 percent of the hours required by the institution in the major field must be satisfactorily completed at the awarding institution.
- At least 15 semester hours of upper-division major work must be completed in residence at OU.
- OU correspondence courses are ***not*** considered resident credit.

Grade Point Averages: Students must earn a minimum over all 2.00 for each of the following: Combined Retention GPA (all college grades), OU Retention GPA, GPA for all major courses, and GPA for all major courses taken at OU. Some schools and departments of the College have higher minimum grade point averages required for their students.

Suggested Semester Plan of Study

This plan shows one possible grouping of courses that would allow students to graduate in four years. Please refer to the front of the degree checksheet for official requirements. Students must consult with Dodge College of Arts and Sciences and/or Department of History, Center for Judaic and Israel Studies academic advisors to verify that courses selected each semester fulfill the recommended plan and satisfy University, College of Arts and Sciences, and Judaic Studies major requirements.

Judaic & Israel Studies, Minor

Minimum Total Credit Hours: 15-19
Minimum Upper-Division Hours: 9

Program Code: N608

- **The requirements for a minor must be completed concurrently with the major degree requirements.**
- **No minor may be added by completing courses after receiving the bachelor's degree.**

At least six (6) credit hours must be earned in courses acceptable for residence credit by standards set forth by the Dodge College of Arts and Sciences, excluding transfer, correspondence, and examination (AP, CLEP, Advanced Standing) credit. Courses for the minor may not be taken Pass/No Pass.

No single course may be used by a student to satisfy a major requirement and a minor requirement. A course may be used, however, to satisfy both a major support requirement and a minor requirement.

Requests to substitute a minor requirement must be approved in writing by the Judaic & Israel Studies program.

Required Courses

Students must successfully complete 15-19 hours from courses designated for the Judaic & Israel Studies minor, including at least nine (9) hours at the upper-division level.

A grade of C or better must be earned in each course counted for minor credit.

Code	Title	Credit Hours

General Information

The department was founded in 1929 within the College of Arts and Science by Jesse Lee Rader. The first degree programs offered were the Bachelor of Arts in Library Science, Master of Library Science, and the Master of Arts in Library Science. Both Master's programs were conferred accreditation by the American Library Association in 1956. The name was changed to the School of Library and Information Studies in 1990 to reflect the expanding role of the School in the information age. The School continues to offer the only ALA-accredited Library and Information Studies program in Oklahoma.

The University of Oklahoma School of Library and Information Studies (OU SLIS) educates professionals qualified to meet the challenges of the information society. The ability to generate, access, and use information has become the key factor in personal, social, and economic growth. The expanding global information society requires the free flow of information; and the impact of rapidly changing information and communications technologies is reshaping our personal, educational, and social activities, our organizational and political practices, and our local, national, and international institutions.

Roles, responsibilities, and career opportunities for professionals who can function as creative, information resource managers; act as culturally sensitive guides, navigators and interpreters for local and global users; and produce customized, culturally relevant, value-added services and products for diverse clienteles are expanding.

These professionals will play an increasingly vital role in empowering individuals, organizations, and communities to maximize the benefits of the information age.

Through a forward-looking curriculum and diverse learning environments, the School prepares graduates who have the knowledge, skills, and attitudes necessary to be ethical, culturally aware, and transformative leaders.

Programs & Facilities

Scholarships

OU also offers a wide variety of scholarships as does the College of Arts and Sciences. All financial need based scholarships for both undergraduate and graduate students are available through the Centralized Academic Scholarship Hub (CASH).

The School of Library and Information Studies provides a limited number of departmental scholarships to qualified students (both undergraduate and graduate) in our programs. To apply for departmental scholarships, students should submit an application through OU's Centralized Academic Scholarship Hub (CASH).

Internships

All students enrolled the BSIST or BAIS programs are required to complete an internship. These students complete an internship in their final year of their degree program. For MLIS students, an internship is an optional graduate level course that students may do after they have completed 18 credit-hours in the program. Museum Studies Students can gain field experience directly related to study focus in the Museum Studies program by taking MST 5920 Internship in Museum Studies. Access the SLIS Internship site.

School Librarianship

School of Library and Information Studies MLIS students pursuing school librarianship are prepared for their career and certification through a robust curriculum, active application of their learning, and cross-department collaborations that provide authentic learning by working with pre-service teachers. Access the School Librarianship site.

Undergraduate Student Organization

The Information Sciences and Technology (IST) Hub supports undergraduate students in both the BSIST and BAIS programs offering opportunities for hands-on learning, networking, and collaboration in the field of Library and Information Science (LIS). Their mission is to create an encouraging environment for OU students who wish to connect, aspire to spread ideas, inspire, and implement solutions to reflect the expanding role of information sciences and technology in our world. Connect with the IST Hub on OU Engage.

Graduate Student Organization

OLISSA is an American Library Association Student Chapter at the School of Library and Information Studies and a recognized student organization at the University of Oklahoma. OLISSA's mission is to bring library students together with other students, faculty, and library and information professionals. We strive to provide information on the various career paths possible with a library and information studies degree. We provide students with an opportunity to be active participants in the SLIS program and University of Oklahoma Student Association. The organization's primary purpose is to represent and serve the SLIS student body. Officers are either elected or volunteer to serve each spring. They serve as liaisons between the SLIS students and faculty. Connect with OLISSA on OU Engage.

Undergraduate Degree Programs

Bachelor of Arts, Information Studies

The Information Studies, Bachelor of Arts is an interdisciplinary degree that offers a core of technology and data science coursework upon which students can then focus their interests through guided elective categories. Opportunities in these categories include numerous

technology, data science, and communications electives for students who plan to go into information technology careers; or a variety of libraries, archives, museums (LAMs), and digital humanities electives for students more interested in careers in cultural heritage institutions. For these students, the technology foundation builds the skills that students need to work in today's LAMs' environments of digital collections, digital preservation, and virtual exhibits while serving diverse user groups.

Bachelor of Science, Information Science and Technology

Information Science as a discipline revolves around the interactions of people, technology, and information. The Information Science and Technology, Bachelor of Science (p. 542) prepares graduates to be innovative information and technology leaders who can solve current and evolving information problems using the latest technologies in data analytics, text mining, interaction design, as well as other emerging application fields.

Bachelor's/Master's Accelerated Program

The Bachelor of Arts/Master of Library and Information Studies (p. 554) accelerated program is designed for exceptional students who wish to begin earning the MLIS in their senior year of the BAIS program. The program is open to all OU students who qualify.

Undergraduate Minors

Applied Statistics Minor

The Applied Statistics Minor (p. 548) is structured to guide students with no experience with statistics to developing concrete and usable statistical skills. Assembled primarily from diverse existing courses across OU, the design is flexible so that students with prior informal or formal expertise or a greater quantitative ability or course experience may proceed with a program that fits their interests and needs. The minor requires 18 credits of course work.

Data Analytics Minor

The Data Analytics Minor (p. 549) is structured to guide students with no experience with data analytics to developing concrete and usable coding and statistical skills. Assembled primarily from diverse existing courses across OU, the design is flexible so that students with prior abilities or course experience may proceed with a program that fits their interests and needs. This minor requires 18 credits of course work.

Information Studies Minor

The Information Studies Minor (p. 551) focuses on how information impacts and is influenced by societal issues, governmental regulation, policy, and economics, as well as I.T. systems design, implementation, and management.

Undergraduate Certificates

Applied Statistics Undergraduate Certificate

This 15 credit hour Applied Statistics Undergraduate Certificate (p. 552) provide a pathway for students with diverse disciplinary interests to develop concrete and practical expertise in applying statistical methods to analyzing data.

Data Analytics Undergraduate Certificate

This 15 credit hour Data Analytics Undergraduate Certificate (p. 553) pathway for students with diverse disciplinary interests to develop concrete and practical expertise in working with and analyzing data.

Graduate Study

Master of Library and Information Studies (Online)

The Master of Library and Information Studies (p. 557) program is designed to educate students at the graduate, professional, and postgraduate levels to provide information services and products in an information-based, pluralistic, global society; prepare graduates to effectively participate in and promote evidence-based practice; and provide leadership, consultation, and guidance to the professional/information communities. The program offers specialized tracks within traditional library settings and supports the development of skills, knowledge, and attitudes required in information agencies and in positions of information management, storage, organization, access, and use within profit and not-for-profit institutions.

Master of Arts, Museum Studies (Online)

The Museum Studies (p. 558) program serves the career-development needs of individuals who work in museums and related institutions. Students initially trained in museum work and those entering the profession from other disciplines receive a focused, integrated approach to museum studies with practical application for the various dimensions of museum work. Students will learn from a variety of professionals and faculty members about museum responsibilities such as curatorship, exhibit management, fund raising, administration, education, conservation, and public relations.

Master of Science in Applied Statistics (Online)

The online Master of Science in Applied Statistics (p. 558) equips students with a powerful foundation in statistical theory and hands-on data analytics across a wide range of industries. Designed for professionals who want to lead with data, this program empowers students to apply advanced mathematical and technical skills to solve real-world problems. Graduates become key decision-makers who use data-driven insights and emerging technologies to drive innovation, efficiency, and strategic growth within their organization.

Dual Master's Degree Programs

The OU Graduate College allows dual master's degrees to be pursued with any two master's programs that agree to it. In its quest to provide alternative educational opportunities for students wishing to specialize in a variety of areas, the School of Library and Information Studies has developed a number of specialized programs. In addition, the Generic Dual Master's degree program is available for students who wish to earn dual master's degrees not specified by the School.

Graduate Certificates

Graduate certificates can add additional job credentials to those seeking particular types of positions. They signal to employers that the holders of the certificates have concentrated coursework in that specialty.

- Graduate Certificate in Applied Statistics (p. 559)
- Graduate Certificate in Archival Studies (p. 561)
- Graduate Certificate in Data Analytics (p. 561)
- Graduate Certificate in Data Analytics for Information Professionals (p. 563)
- Graduate Certificate in Digital Humanities (p. 564)

Doctoral Program

The Information Studies Ph.D. (p. 564) expands SLIS' mission and vision by educating students to thoroughly understand the discipline of information studies; develop expertise in using the various research methods necessary for investigation in the field; conduct effective, sustained research; and understand the ways in which information in all its forms is produced, recorded, organized, preserved, retrieved, communicated, managed, and used. Additionally SLIS seeks to educate researchers that are able to understand the ways in which people's information-related activity shapes - and is shaped by - information technologies, information structures, and information institutions such as libraries, archives, and museums. The answers to the research questions posed in information studies help to improve information systems and services, to guide information policy, and to enrich life in today's information society.

Courses

DSP 4983 Data Analytics and Applied Statistics Research Experience 3 Credit Hours
Prerequisite: Data Analytics or Applied Statistics certificate students only and Permission of instructor. This is a culminating research experience for students earning the undergraduate Data Analytics or Applied Statistics certificates. Applications will show the life cycles of data-driven projects, including data collection, visualization, analysis, and reporting results. Students will complete a semester-long research project and written report. The course will emphasize the synthesis of technical skills, creative thinking, effective writing, and data ethics. (Irreg.)

DSP 5633 Data Analytics and Applied Statistics Internship 3 Credit Hours
Prerequisite: Graduate standing and permission of instructor. This is an internship for students earning the graduate Data Analytics or Applied Statistics certificates. The student will complete 144 work hours related to data analytics/applied statistics for an on-campus research facilities (e.g., Digital Scholarship Lab, DAVIS) or outside organization if overseen by a faculty member. Students will provide a write-up of their internship to the Data Scholarship Program. (Irreg.)

DSP 5673 Introduction to Scientific Computing 3 Credit Hours
Prerequisite: Graduate standing and admission into the Applied Statistics graduate program. This course will introduce students to fundamental computational tools used in statistics. Topics include how to write computer programs and scientific reports for collaboration, automation, and reproducibility. The course will introduce several tools including SAS programming, relational databases R, SQL, the Linux command line, and scientific communication using LaTeX, Markdown, and similar tools. (F, Sp, Su)

DSP 5773 Ethics in Statistical Practice 3 Credit Hours
Prerequisite: Graduate standing and departmental permission. The course will teach students how to ethically conduct statistical analysis in a world where data collection and privacy concerns are becoming ubiquitous. The course will provide a broad overview of ethical considerations for conducting statistical analysis. Students will gain perspective through analyzing case studies tied to each of the main topics. (F, Sp, Su)

DSP 5873 Statistical Consulting and Communication 3 Credit Hours
Prerequisite: Graduate standing and departmental permission. This course will provide a culminating practical experience for master's students in the online Applied Statistics program. Through a semester-long written statistical analysis project, the course will emphasize the synthesis of skills taught in all prior courses in the program: technical skills, creative thinking, effective writing, and scientific communication. (F, Sp, Su)

LIS 1013 Information and Digital Literacy 3 Credit Hours
In this era of "alternative facts" and "fake news" information literacy can help students learn to identify information from disinformation. This course is intended to make students more knowledgeable consumers of information, particularly when using internet resources and social media. Exercises in the use and evaluation of information resources, online searching, information ethics, visual literacy, and copyright/fair use are emphasized. (F, Sp) [I-O].

LIS 2003 Introduction to Information Science 3 Credit Hours
Explores the definition, impact, and history of information and information transmission. Introduces technology used to create, read, store, retrieve and transmit information. Analyzes societal institutions, techniques, and processes for the creation, distribution and management of information. Assesses the role of the information professions and information systems in culture and society. (F, Sp) [III-SS].

LIS 2033 Introduction to Digital Humanities 3 Credit Hours
(Crosslisted with HIST, WGS and HSTM 2033) This course introduces students to digital and/or computational methods in the humanities and addresses critical questions about the role of digital technology in society. This is a collaborative, hands-on, project-based course. (Sp) [IV-WC].

LIS 3063 Essentials of IT & Informatics 3 Credit Hours
Prerequisite: sophomore standing. Students will learn the fundamentals of information technology concepts and applications, understand and utilize emerging technologies to meet society's rapidly changing information needs, and apply these in solving various information problems. (F, Sp)

LIS 3440 Mentored Research Experience 3 Credit Hours
0 to 3 hours. Prerequisites: ENGL 1113 or equivalent, and permission of instructor. May be repeated; maximum credit 12 hours. For the inquisitive student to apply the scholarly processes of the discipline to a research or creative project under the mentorship of a faculty member. Student and instructor should complete an Undergraduate Research & Creative Projects (URCP) Mentoring Agreement and file it with the URCP office. Not for honors credit. (F, Sp, Su)

LIS 3960 Honors Reading 1-3 Credit Hours
1 to 3 hours. Prerequisite: admission to Honors Program. May be repeated; maximum credit six hours. Consists of topics designated by the instructor in keeping with the student's major or program. The topics will cover materials not usually presented in the regular courses. (F, Sp, Su)

LIS 3970 Honors Seminar 1-3 Credit Hours
1 to 3 hours. Prerequisite: admission to Honors Program. May be repeated; maximum credit six hours. Subjects covered vary. Deals with concepts not usually treated in regular courses. (Irreg.)

LIS 3980 Honors Research 1-3 Credit Hours
1 to 3 hours. Prerequisite: admission to the Honors Program. May be repeated; maximum credit six hours. Will provide an opportunity for the gifted Honors candidate to work at a special project in the student's field of study. (F, Sp, Su)

LIS 3990 Independent Study 1-3 Credit Hours
1 to 3 hours. Prerequisite: permission of instructor and junior standing. May be repeated once with change of content. Independent study may be arranged to study a subject not available through regular course offerings. (F, Sp, Su)

LIS 4013 Information Management in LAMs 3 Credit Hours
Prerequisite: Junior standing. Introduces principles of organizing, retrieving, and evaluating information in library, archives, museums (LAMs), and information science contexts. Students examine cataloging metadata, classification, and information management systems alongside issues of ethics, privacy, and equity. Emphasis is placed on respectful, inclusive, community-centered approaches to managing information for learning, research, and decision-making. (F, Sp)

LIS 4043 Fundamentals of Information Technology 3 Credit Hours
Prerequisite: Junior standing and majors only. This course is designed as an introduction to the theory and application of information and communication technologies including hardware, software, systems analysis and the nature and functionality of networks; social, technical and organizational influences on the use and users of information technology. (F, Sp)

LIS 4073 Cultural Heritage Data and Social Engagement 3 Credit Hours
(Slashlisted with LIS 5073; Crosslisted with WGS, HIST and HSTM 4073) Prerequisite: Junior standing. This course uses methods from digital humanities, media studies, and data science to explore cultural heritage -- the histories, literature, art, and artifacts of our world's cultures. It particularly focuses on cultural heritage in digital public spaces: websites, social media, etc. No prior background in computer programming is necessary. No student may earn credit for both 4073 and 5073. (F)

LIS 4143 Government Information 3 Credit Hours
(Slashlisted with LIS 5143) Prerequisite: junior standing. Introduces students to current policy, technology, and social factors that drive government resource and information production, distribution, and access. Topics include transformation of government information; information discovery skill sets, models, and techniques; evaluation of information use and value; and government information issues (e.g. access, authentication, privatization, preservation). No student may earn credit for both 4143 and 5143. (F)

LIS 4153 OU in Italy Libraries and More 3 Credit Hours
(Slashlisted with LIS 5153) Prerequisite: Senior standing or permission of instructor. This course will provide students with a hands-on, in-depth investigation and exploration of libraries, archives, and museums, in and around Arezzo, Italy. The primary focus is to investigate the commonalities and differences shared by the institutions, analyze historical influences, examine rare and unique collections, visit historic sites and institutions while gaining diverse cultural insights within the contents of learning. No student may earn credit for both 4153 and 5153. (Su)

LIS 4213 Social Informatics 3 Credit Hours
(Slashlisted with LIS 5213) Prerequisite: LIS 2003. Social Informatics analyzes interactions among people and information/communication technologies (ICTs). Issues covered include basic concepts of social systems, ICTs, and their interactions; uses of mobile information technology devices; online interaction and virtual community; information technology and work; and laws and policies related to information technologies. No student may earn credit for both 4213 and 5213. (Sp)

LIS 4223 Project Planning and Management 3 Credit Hours
(Slashlisted with LIS 5223) Prerequisite: LIS 3063 or permission of instructor. Fundamentals of planning, designing, and managing information technology solutions; market and trend analysis; planning and assessment techniques and tolls; human factors in technology management. No student may earn credit for both 4223 and 5223. (Su)

LIS 4303 Children's Literature 3 Credit Hours
Prerequisite: junior standing. Survey, evaluation and selection of materials for children; interests and needs of various age groups; methods of stimulating reading and listening. Reading of books for children is emphasized. (Correspondence)

LIS 4453 Digital Collections 3 Credit Hours
(Slashlisted with LIS 5453) Prerequisite: junior standing. Introduction to the creation and development of digital collections and to the technical requirements for storage and dissemination of digital materials. Topics will include creation, development, organization, maintenance, and use of digital collections. Students will explore a variety of techniques and technologies for digitizing materials; evaluate the strengths and limitations of current efforts in creating, collecting and organizing digital materials; and explore the different opportunities and challenges of digital libraries, repositories, and archives. No student may earn credit for both 4453 and 5453. (Sp)

LIS 4483 Introduction to Health Informatics 3 Credit Hours
(Slashlisted with LIS 5483) Prerequisite: Majors only; repeatable for credit, maximum credit 6 hours. Introduction to healthcare industry, data management in healthcare, foundation concepts in health informatics, and information search in healthcare. The student will gain a solid understanding of the fundamentals of health informatics to maximize the use of information, the source of health information, and the retrieval of health information in the delivery of efficient health information services to the users. No student may earn credit for both 4483 and 5483. (Sp)

LIS 4493 Data Stewardship 3 Credit Hours
(Slashlisted with LIS 5493) Prerequisite: Junior standing or permission of instructor. Data is being produced at an unprecedented rate in many forms and within many contexts. Information professionals play a vital role as ethical data stewards by organizing, curating, preserving, storing, proving access to, and repurposing data for varying purposes. Understanding the complex issues associated with ethical data stewardship is increasingly important in today's data saturated world. No student may earn credit for both 4493 and 5493. (F)

LIS 4523 Online Information Retrieval 3 Credit Hours
(Slashlisted with LIS 5523) Prerequisite: junior standing. Structure, content, and application of online databases for education, research, business, and public use. Principles and techniques for the evaluation of online databases and services. Document representation, information need specification and query formulation for online information retrieval. No student may earn credit for both 4523 and 5523. (F)

LIS 4613 Dynamic Web Development 3 Credit Hours
(Slashlisted with LIS 5613) Prerequisite: LIS 3063 and junior standing. The interactive web design server interaction with special emphasis on database connectivity and application development on the internet. No student may earn credit for both 4613 and 5613. (F)

LIS 4623 Advanced Data Analytics 3 Credit Hours
(Slashlisted with LIS 5623) Prerequisite: LIS 4643. Application of data analytic theories and models to solve real world problems using various unsupervised and supervised models. Topics include cluster analysis, association rule mining, random forest classifier, neural networks, and naive Bayesian classifiers. No student may earn credit for both 4623 and 5623. (F)

LIS 4633 Web Design and Implementation 3 Credit Hours
(Slashlisted with LIS 5633) Prerequisite: junior standing. Students will learn how to design contemporary websites and web pages using current design thinking, techniques and best practices, and how to implement the websites using front-end programming languages including HTML, CSS, and Javascript. No student may earn credit for both 4633 and 5633. (F)

LIS 4643 Introduction to Data Analytics 3 Credit Hours
(Slashlisted with LIS 5643) Prerequisite: LIS 2003. Introduces foundational concepts for data analytics. Topics include basic computer programming, statistical understanding and application, data structure, data types, data retrieval from various sources and forms, data cleaning/processing, data visualization, and group manipulations. No student may earn credit for both 4643 and 5643. (F)

LIS 4663 Information Studies Capstone 3 Credit Hours
Prerequisite: 2003, 3003, 4003, 4103, and senior standing. Capstone course for the Bachelor of Arts in Information Studies; design and development of an operational prototype information system in a selected organizational setting. Introduces project management terms, techniques, and effect on the success of information technology projects. (F, Sp, Su) [V] .

LIS 4673 Introduction to Information Visualization 3 Credit Hours
(Slashlisted with LIS 5673) Prerequisite: junior or senior standing. Information visualization is becoming key to LIS, due to the growing need for visual literacy and to the growing demand for data resources in almost all disciplines. Covers basics of developing and evaluating information visualizations and the importance of data accuracy. No student may earn credit for both 4673 and 5673. (F)

LIS 4683 Database Design for Information Organizations 3 Credit Hours
(Slashlisted with LIS 5683) Prerequisite: LIS 3063. This course has two major components: (1) conceptual foundations of database design and theory and (2) practical applications of design and theory to real-world database designs. For the conceptual and theoretical design component, this class covers data definition and type, entity relationship diagram (ERD) and data normalization. The practical application uses emerging database tools to cover industry critical functions. No student may earn credit for both 4683 and 5683. (Sp)

LIS 4693 Information Retrieval and Text Mining 3 Credit Hours
(Slashlisted with LIS 5693) Prerequisite: LIS 3063 and LIS 4643, or instructor or advisor permission. Identify various sources of textual information in the society and learn different textual data collection methods, understand text analytic processes, understand textual information retrieval models and different text analytic methods to analyze textual information and interpret text analysis results for users' information needs. No student may earn credit for both 4693 and 5693. (Sp)

LIS 4723 Cybersecurity Essentials 3 Credit Hours
(Slashlisted with LIS 5723) Prerequisite: Junior standing and majors only. Covers the developments in cybersecurity by discussing and analyzing problems that security designers and security administrators address. Students will be provided hands-on experience with common tools and techniques used by security analysts and white/black hat hackers today. Students will be able to identify threats, assess the relative risk of the threats and develop cost effective countermeasures. No student may earn credit for both 4723 and 5723. (Sp)

LIS 4823 Internship in Information Studies 3 Credit Hours
Prerequisite: LIS 3063, LIS 4643, LIS 4143, LIS 4223, LIS 4633 or permission of instructor and adviser. Provides an opportunity for student synthesis of principles and theories acquired in coursework and application of these principles and theories in a working environment. Under professional supervision, the student will complete 135 hours emphasizing general understanding of the specific assignment and completion of a focused project. (F, Sp)

LIS 4920 Directed Research 1-3 Credit Hours
1 to 3 hours. Prerequisite: LIS 3063, LIS 4643, LIS 4143, LIS 4223, LIS 4633, or permission of instructor and adviser. May be repeated; maximum credit three hours. Faculty supervised research; requires written report. (Irreg.)

LIS 4940 Directed Project 1-3 Credit Hours
1 to 3 hours. Prerequisite: LIS 3063, LIS 4643, LIS 4143, LIS 4223, and LIS 4633 and senior standing, or permission of instructor and adviser; May be repeated; maximum credit three hours. Faculty supervised design and implementation of an information project that applies principles and theories acquired in coursework to solution of information problems in practical settings. Requires a project prospectus and written report. (Irreg.)

LIS 4960 Directed Readings 1-3 Credit Hours
1 to 3 hours. Prerequisite: Junior standing and permission of instructor. May be repeated; maximum credit three hours. Faculty supervised exploration of an area of information studies not covered in regularly offered courses. (Irreg.)

LIS 4970 Special Topics/Seminar 1-3 Credit Hours
1 to 3 hours. Prerequisite: Senior standing or permission of instructor. May be repeated; maximum credit nine hours. Special topics or seminar course for content not currently offered in regularly scheduled courses. May include library and/or laboratory research and field projects. (Irreg.)

LIS 4990 Independent Study 1-3 Credit Hours
1 to 3 hours. Prerequisite: junior standing and permission of instructor. May be repeated; maximum credit nine hours. Examination and discussion of current problems in information studies. (F, Sp, Su)

LIS 5023 Management in Information Organizations 3 Credit Hours
Prerequisite: Graduate standing, and LIS 5033 or concurrent enrollment. Introduction to managerial principles and practices for information organizations such as libraries and archives, emphasizing financial administration, legal and ethical practices, organizational communication, operational efficiencies, personnel development, and planning processes. (F, Sp)

LIS 5033 Information and Society 3 Credit Hours
Prerequisite: Graduate standing or permission of instructor. Introduction to conceptual foundations of the information society, including the nature of data, information, and knowledge; the evolution of national and global organizational information infrastructures; and ethical, legal, and social considerations for LIS professionals. (F, Sp)

LIS 5043 Organization of Information 3 Credit Hours
Prerequisite: Graduate standing, and LIS 5033 or concurrent enrollment. Introduction to the organization of internal and external sources of information, information services and tools, basic concepts of information storage and retrieval systems, and design and structure of information systems. Students will become familiar with organization methods such as classification, cataloging, taxonomies and metadata, and how the organization of information is connected to information retrieval. (F, Sp)

LIS 5053 Information Seeking and Use 3 Credit Hours
Prerequisite: Graduate standing, and LIS 5033 or concurrent enrollment. The course teaches information seeking and use by people in various roles, situations, and contexts, individually and in groups. The course examines information behavior through psychological, sociological, and political perspectives, examining theory and applying it to practical, real-life information environments. (F, Sp)

LIS 5063 Fundamentals of Information Technology 3 Credit Hours
Prerequisite: Graduate standing, and LIS 5033 or concurrent enrollment. Students will learn the fundamentals of information technology concepts and applications, understand and utilize emerging technologies to meet society's rapidly changing information needs, and apply these in solving various information problems. No student may earn credit for both 4063 and 5063. (F, Sp)

LIS 5073 Cultural Heritage Data and Social Engagement 3 Credit Hours
(Slashlisted with LIS 4073; Crosslisted with WGS, HIST and HSTM 5073) Prerequisite: Graduate standing. This course uses methods from digital humanities, media studies, and data science to explore cultural heritage -- the histories, literature, art, and artifacts of our world's cultures. It particularly focuses on cultural heritage in digital public spaces: websites, social media, etc. No prior background in computer programming is necessary. No student may earn credit for both 4073 and 5073. (F)

LIS 5133 Biomedical Bibliography and Reference Materials 3 Credit Hours
Prerequisite: LIS 5033 or permission of instructor. Provides an in-depth study of the organization of medical reference departments; reference sources in the health sciences; and the major textbooks in the basic sciences, clinical sciences, and related specialties. Medical audiovisuals, periodicals, indexes and abstracts are included as is automated searching of medical literature. Basic medical terminology is an integral part of the course and given special consideration. (F)

LIS 5143 Government Information 3 Credit Hours
(Slashlisted with LIS 4143) Prerequisite: LIS 5033 or permission of instructor. Introduces students to current policy, technology, and social factors that drive government resource and information production, distribution, and access. Topics include transformation of government information; information discovery skill sets, models, and techniques; evaluation of information use and value; and government information issues (e.g. access, authentication, privatization, preservation). No student may earn credit for both 4143 and 5143. (F)

LIS 5153 OU in Italy Libraries and More 3 Credit Hours
(Slashlisted with LIS 4153) Prerequisite: Graduate Standing. This course will provide students with a hands-on, in-depth investigation and exploration of libraries, archives, and museums, in and around Arezzo, Italy. The primary focus is to investigate the commonalities and differences shared by the institutions, analyze historical influences, examine rare and unique collections, visit historic sites and institutions while gaining diverse cultural insights within the contents of learning. No student may earn credit for both 4153 and 5153. (Su)

LIS 5163 Biomedical Databases 3 Credit Hours
Prerequisite: LIS 5133 or permission of instructor. An in-depth approach to the on-line databases supplied by the National Library of Medicine and to the biomedical databases supplied by commercial companies. Deals with all aspects of searching, including the development of effective policies and procedures. Differences and similarities among the databases are emphasized. (F)

LIS 5173 Diversity Fundamentals in LIS 3 Credit Hours
Prerequisite: LIS 5033. Awareness of, and sensitivity to, diverse groups and multicultural heritages; information needs of multiethnic and diverse populations; information needs assessment and analysis; program and service planning. (Su)

LIS 5183 Information Resources and Services for Children 3 Credit Hours
Prerequisite: LIS 5033. Course covers childhood development and information needs of children; children's information behavior, learning, and reading; contemporary children's literature; digital media and technology; early literacy, information literacy, and 21st-century skills; selection/evaluation of information resources; information services for children; and 21st-century trends in children's services. (F)

LIS 5193 Information Resources and Services for Young Adults 3 Credit Hours
Prerequisite: LIS 5033. Covers developmental characteristics and information needs of young adults; young adults' information behavior, learning, and reading; contemporary young adult literature; digital media and technology; information literacy and 21st-century skills; selection/evaluation of information resources; information services for young adults; and 21st-century trends in youth services. (Sp)

LIS 5203 Leadership in Information Organizations 3 Credit Hours
Prerequisite: Graduate standing, and LIS 5023, LIS 5033 or concurrent enrollment; or permission of instructor. Advanced leadership skills for information organizations such as libraries and archives, emphasizing organizational analysis, planning, and assessment, as well as the development of appropriate organizational leadership styles. (F, Sp)

LIS 5213 Social Informatics 3 Credit Hours
(Slashlisted with LIS 4213) Prerequisite: graduate standing. Social Informatics analyzes interactions among people and information/communication technologies (ICTs). Issues covered include basic concepts of social systems, ICTs, and their interactions; uses of mobile information technology devices; online interaction and virtual community; information technology and work; and laws and policies related to information technologies. No student may earn credit for both 4213 and 5213. (Sp)

LIS 5223 Project Planning and Management 3 Credit Hours
(Slashlisted with LIS 4223) Prerequisite: Graduate standing, LIS 5033, and LIS 5063; or permission of instructor. Fundamentals of planning, designing, implementing, and managing information technology solutions; market and trend analysis; planning and assessment techniques and tools; human factors in technology management. No student may earn credit for both 4223 and 5223. (Su)

LIS 5233 Oklahoma Information Environment 3 Credit Hours
Prerequisite: LIS 5033 or permission of school. Interaction between information and culture in the state of Oklahoma with emphasis on information needs, resources, and challenges; research collections; public libraries; tribal libraries and tribal colleges; digital technologies; in-depth exploration of library, museum, archival, and other information services and resources for Oklahomans. (Su)

LIS 5243 Comics and Graphic Novels 3 Credit Hours
Prerequisite: Graduate standing and majors only. The course has 3 major components. History & Language of Comics with focus on the period of the Golden Age to the modern day; Comics & the Community, which will examine the relationships between comic book fans and the medium; and Libraries & the Role of Comics, which will focus on the relationship libraries have with comics & graphic novels. (Sp)

LIS 5253 Community Relations and Advocacy 3 Credit Hours
Prerequisite: LIS 5023, LIS 5033. Examination of the communication process by which the library/information center personnel satisfy user needs and provide/transmit information about the program objectives and functions to develop public awareness and support. Involves as audiences: the users, the library/information center staff, general public, governance entities, political representatives, educational and service agencies, and professional organizations. (F)

LIS 5283 School Library Administration 3 Credit Hours
Prerequisite: LIS 5023 and LIS 5033. History and role of school libraries in the educational program; planning, organizing and administering library programs in the elementary and secondary schools. (Sp)

LIS 5343 Archival Concepts and Traditions 3 Credit Hours
Prerequisite: LIS 5033. Introduction to the principles and practice of collecting, servicing, and arranging archival holdings. Includes appraisal, acquisition, arrangement and description, preservation, and administration of institutional archives. Attention to issues of preservation, intellectual property, and service in both physical and digital environments. (Sp alternating semesters)

LIS 5403 Cataloging and Classification 3 Credit Hours
Prerequisite: 5033, 5043. Detailed study of principles and practices of cataloging and classification according to current standards. Instruction covers original descriptive cataloging, subject analysis and classification. (alt. F, irreg. Su)

LIS 5443 Collection Development and Management 3 Credit Hours
Prerequisite: LIS 5033 and LIS 5043. Examination of the acquisition and evaluation processes used for building and maintaining collections in all formats. Formulation and implementation of collection development policies, identification of user needs, selection methods and tools, storage alternatives, publishing and intellectual freedom, administrative and legal issues including licensing and contract negotiation. (F)

LIS 5453 Digital Collections 3 Credit Hours
(Slashlisted with LIS 4453) Prerequisite: LIS 5033, LIS 5043, LIS 5063. Introduction to the creation and development of digital collections and to the technical requirements for storage and dissemination of digital materials. Topics will include creation, development, organization, maintenance, and use of digital collections. Students will explore a variety of techniques and technologies for digitizing materials; evaluate the strengths and limitations of current efforts in creating, collecting and organizing digital materials; and explore the different opportunities and challenges of digital libraries, repositories, and archives. No student may earn credit for both 4453 and 5453. (Sp)

LIS 5463 Archival Representation and Use 3 Credit Hours
Prerequisite: LIS 5033 or permission of instructor. Introduction to the principles and practices of collecting, servicing, and arranging archival holdings. Includes elements of appraisal, acquisition, and preservation with significant focus on archival arrangement, description, and administration of institutional archives. (Sp)

LIS 5473 Document and Records Management 3 Credit Hours
Prerequisite: graduate standing, LIS 5033 and LIS 5043. The systematic capture, acquisition, and processing, storage, and control of documents in all formats, including their management as records throughout the life cycle from creation to final disposition. Introduction to principles, methodologies, administration, tools, and techniques in various settings. (Irreg.)

LIS 5483 Introduction to Health Informatics 3 Credit Hours
(Slashlisted with LIS 4483) Prerequisite: Graduate standing, majors only; repeatable for credit, maximum credit 6 hours. Introduction to healthcare industry, data management in healthcare, foundation concepts in health informatics, and information search in healthcare. The student will gain a solid understanding of the fundamentals of health informatics to maximize the use of information, the source of health information, and the retrieval of health information in the delivery of efficient health information services to the users. No student may earn credit for both 4483 and 5483. (Sp)

LIS 5493 Data Stewardship 3 Credit Hours
(Slashlisted with LIS 4493) Prerequisite: Graduate standing. Data is being produced at an unprecedented rate in many forms and within many contexts. Information professionals play a vital role as ethical data stewards by organizing, curating, preserving, storing, providing access to, and repurposing data for varying purposes. Understanding the complex issues associated with ethical data stewardship is increasingly important in today's data saturated world. No student may earn credit for both 4493 and 5493. (F)

LIS 5503 Information Literacy and Instruction 3 Credit Hours
Prerequisites: 5033 and 5053. Instructional methods and materials for the acquisition and development of information literacy skills; theories of instruction and current trends in information literacy instruction. (Irreg.)

LIS 5513 Information Sources and Services 3 Credit Hours
Prerequisite: 5033, 5053. Characteristics and use of information sources and systems; policies and procedures for the provision of user-centered service in libraries and other information agencies. Introduction to basic reference tools in both print and electronic formats. (F, Sp, irreg. Su)

LIS 5523 Online Information Retrieval 3 Credit Hours
(Slashlisted with LIS 4523) Prerequisite: LIS 5033 and LIS 5053. Structure, content, and application of online databases for education, research, business, and public use. Principles and techniques for the evaluation of online databases and services. Document representation, information need specification and query formulation for online information retrieval. No student may earn credit for both 4523 and 5523. (F)

LIS 5533 Foundations of Learning Sciences 3 Credit Hours
(Crosslisted with EIPT 5533) Prerequisite: Graduate standing or permission of instructor. Learning Sciences is an interdisciplinary approach to investigating, understanding, and supporting learning. It draws on multiple fields, tools, and methodologies. The goal of this class is to develop a critical orientation with regard to how we use information, tools, and methodologies in integrated, meaningful, contextual, and ethical ways, in service to learners and society. (F)

LIS 5563 Archival Appraisal 3 Credit Hours
Prerequisite: LIS 5033. Evaluation and examination of contributions of key figures in development of archival appraisal theory; identification and evaluation of distinct movements in archival appraisal; identification of cultural, political, sociological, and technological movements that can have impact on appraisal methodologies; and development of effective appraisal strategies for a variety of communities. (F even-numbered years)

LIS 5573 Makerspaces: Theory and Practice 3 Credit Hours
Prerequisite: Graduate standing and permission of instructor; Repeatable for credit, maximum credit 6 hours. An overview of theories and practice of makerspaces in libraries and museums. Students will learn theories behind the maker movement, hands-on tools and technologies, and issues on the design and implementation of a makerspace, such as assessing the needs of community, managing a space, facilitating making and learning, and evaluating the impact. (F)

LIS 5613 Dynamic Web Development 3 Credit Hours
(Slashlisted with LIS 4613) Prerequisite: Graduate standing, and LIS 4063 or LIS 5063. The interactive web design server interaction with special emphasis on database connectivity and application development on the internet. No student may earn credit for both 4613 and 5613. (F)

LIS 5623 Advanced Data Analytics 3 Credit Hours
(Slashlisted with LIS 4623) Prerequisite: Graduate standing and LIS 5643. Application of data analytic theories and models to solve real world problems using various unsupervised and supervised models. Topics include cluster analysis, association rule mining, random forest classifier, neural networks, and naive Bayesian classifiers. No student may earn credit for both 4623 and 5623. (F)

LIS 5633 Web Design and Implementation 3 Credit Hours
(Slashlisted with LIS 4633) Prerequisite: LIS 5033. Students will learn how to design contemporary websites and web pages using current design thinking, techniques and best practices, and how to implement the websites using front-end programming languages including HTML, CSS, and JavaScript. No student may earn credit for both 4633 and 5633. (F)

LIS 5643 Introduction to Data Analytics 3 Credit Hours
(Slashlisted with LIS 4643) Prerequisite: LIS 5033. Introduces foundational concepts for data analytics. Topics include basic computer programming, statistical understanding and application, data structure, data types, data retrieval from various sources and forms, data cleaning/processing, data visualization, and group manipulations. No student may earn credit for both 4643 and 5643. (F)

LIS 5653 Preservation of Information Materials 3 Credit Hours
Prerequisite: graduate standing and LIS 5033. Theory and practice of the preservation and conservation of intellectual content and physical artifacts, including paper, microform, and digital records. Emphasis on planning and administering disaster prevention and recovery, preservation, and digitization programs. (Alt. Sp, Irreg. Su)

LIS 5673 Introduction to Information Visualization 3 Credit Hours
(Slashlisted with LIS 4673) Prerequisite: graduate standing and LIS 5033. Information visualization is becoming key to LIS, due to the growing need for visual literacy and to the growing demand for data resources in almost all disciplines. Covers the basics of developing and evaluating information visualizations and the importance of data accuracy. (F)

LIS 5683 Database Design for Information Organizations 3 Credit Hours
(Slashlisted with LIS 4683) Prerequisite: graduate standing and LIS 5033. This course has two major components: (1) conceptual foundations of database design and theory and (2) practical applications of design and theory to real-world database designs. For the conceptual and theoretical design component, this class covers data definition and type, entity relationship diagram (ERD) and data normalization. The practical application uses emerging database tools to cover industry critical functions. No student may earn credit for both 4683 and 5683. (Sp)

LIS 5693 Information Retrieval and Text Mining 3 Credit Hours
(Slashlisted with LIS 4693) Prerequisite: Graduate standing; LIS 5063 and LIS 5643, or permission of instructor. Identify various sources of textual information in the society and learn different textual data collection methods. Understand text analytic processes, textual information retrieval models, and different text analytic methods to analyze textual information and interpret text analysis results for users' information needs. No student may earn credit for both 4693 and 5693. (Sp)

LIS 5713 Research and Evaluation Methods 3 Credit Hours
Prerequisites: LIS 5033. Methods of investigating library and information (LIS) problems; use of evaluation in planning for continuous quality assessment and improvement of LIS policies, processes, and procedures; development of original research designs; evaluation of research studies in LIS. (F, Sp)

LIS 5723 Cybersecurity Essentials 3 Credit Hours
(Slashlisted with LIS 4723) Prerequisite: Graduate standing. Covers the developments in cybersecurity by discussing and analyzing problems that security designers and security administrators address. Students will be provided hands-on experience with common tools and techniques used by security analysts and white/black hat hackers today. Students will be able to identify threats, assess the relative risk of the threats, and develop cost effective countermeasures. No student may earn credit for both 4723 and 5723. (Sp)

LIS 5743 Digital Curation 3 Credit Hours
Prerequisite: Graduate standing. This course provides an introduction to the appraisal, processing, storage, maintenance, and use of born-digital collections and the technical requirements for their storage, preservation, and dissemination. Students will gain an in-depth look into archival practices focused on best practices for creation, selection, storage, and long-term discoverability of digital objects and policy development. (Irreg.)

LIS 5753 Archives in the Museum Setting 3 Credit Hours
Prerequisite: Graduate standing. This course teaches students to analyze and evaluate the range of recordkeeping systems, policies, and practical workflows which have been used by various institutions to document their collections, and the physical and intellectual environment in which records are created, used, and maintained. The course will focus on the records of natural history museums, Native American museums, and history museums. (Irreg.)

LIS 5823 Internship in Library/Information Centers 3 Credit Hours
Prerequisite: 18 hours of LIS coursework, including one-half of the required courses, permission of the supervising instructor. Provides an opportunity for student synthesis of principles and theories acquired in coursework and application of these principles and theories in an outstanding library/information center. Under professional supervision, the student will complete 135 hours. (F, Sp, Su)

LIS 5920 Directed Research 1-3 Credit Hours
1 to 3 hours. Prerequisite: graduate standing and LIS 5713, permission of instructor and adviser. May be repeated; maximum credit six hours. Research under faculty supervision; requires a written report. (F, Sp, Su)

LIS 5940 Directed Project 1-3 Credit Hours
1 to 3 hours. Prerequisite: graduate standing and 24 hours of LIS coursework and permission of instructor and adviser. May be repeated; maximum credit three hours. Design and implementation of a professional project that applies principles and theories acquired in coursework to the solution of professional problems in practical settings. Requires a project prospectus and a written report at conclusion of the project. Conducted under faculty supervision. May not be taken for credit toward the MLIS degree by students electing thesis option. (Irreg.)

LIS 5960 Directed Readings 1-3 Credit Hours
1 to 3 hours. Prerequisite: graduate standing and 15 hours of LIS coursework and permission of instructor and adviser. May be repeated; maximum credit six hours. Exploration of an area of library and information studies not covered in regularly offered course. (F, Sp, Su)

LIS 5970 Special Topics/Seminar 1-3 Credit Hours
Prerequisite: 1 to 3 hours. Prerequisite: Graduate standing or permission of instructor. May be repeated; maximum credit nine hours. Special topics or seminar course for content not currently offered in regularly scheduled courses. May include library and/or laboratory research and field projects. (Irreg).

LIS 5980 Research for Master's Thesis 2-9 Credit Hours
Prerequisite: graduate standing and permission of instructor. Variable enrollment, two to nine hours; maximum credit applicable toward degree, six hours. (F, Sp, Su)

LIS 5990 Special Problems 1-3 Credit Hours
1 to 3 hours. Prerequisite: graduate standing and permission of instructor. May be repeated; maximum credit nine hours. Examination and discussion of current problems in librarianship. (Irreg.)

LIS 6033 Intellectual Traditions in Information Studies 3 Credit Hours
Prerequisite: graduate standing and permission of school. Introduces students to the main philosophical traditions of research and scholarship that currently inform inquiry in Information Studies. (F)

LIS 6503 Information Behavior 3 Credit Hours
Prerequisite: graduate standing and permission of school. Information use by individuals and groups in various roles, situations, and contexts. Influences of learning and cognitive processes; value systems; and situational, psychological, sociological, and political perspectives on information behavior. Application of user studies to textual, graphical, and visual representation of information. Study of theoretical models and practical methodologies in information systems. (Sp)

LIS 6543 Social and Community Informatics 3 Credit Hours
Prerequisite: graduate standing and permission of school. Analysis of interactions among people, information/communication technologies (ICTs), and local social settings. Effects of social and technical contexts on the design, implementation, and evaluation of ICTs. Social systems and community contexts, ICTs, and their interactions; uses of mobile information technologies; online interaction and virtual community; information technology and work; and, organizational/institutional information technologies laws and policies. (F)

LIS 6553 Critical Information Studies 3 Credit Hours
Prerequisite: graduate standing and permission of school. Introduces students to Critical Theory. It examines the idea of immanent critique developed within the Frankfurt School and how critical theory informs inquiry in Information Studies. (Sp)

LIS 6713 Research Methods and Design in Information Studies 3 Credit Hours
Prerequisite: graduate standing and permission of school. A survey of quantitative, qualitative, and historical research designs. Topics covered include ethical issues; conceptualization and measurement; sampling; surveys; and data analysis. (Sp)

LIS 6920 Directed Research 1-3 Credit Hours
1 to 3 hours. Prerequisite: graduate standing and permission of school. May be repeated; maximum credit 12 hours. Students will prepare a proposal and have it approved by the SLIS faculty member who will direct the study and their SLIS faculty adviser prior to registration. (F, Sp)

LIS 6962 Doctoral Seminar 2 Credit Hours
Prerequisite: Graduate standing, majors only, and departmental permission. May be repeated with change of content; maximum credit 8 hours. Serves as a venue for the development of a variety of skills and capacities to succeed as a scholar. Offers a mix of sessions on progression through the Ph.D. degree program, the research process, guidance on the academic profession, and written and oral presentation of scholarly research. (F, Sp)

LIS 6970 Special Topics in the Theory of Information Studies 1-3 Credit Hours
1 to 3 hours. Prerequisite: graduate standing and permission of school. May be repeated with change of subject matter; maximum credit six hours. Topics in information studies for content not currently offered in regularly scheduled courses. May include library and/or research and field projects. (F)

LIS 6980 Research for Doctoral Dissertation 2-16 Credit Hours
2 to 16 hours. Prerequisite: Graduate standing and permission of instructor; may be repeated. Directed research culminating in the completion of the doctoral dissertation. (F, Sp, Su)

MST 5073 Technology for Museum Professionals 3 Credit Hours
Prerequisite: Graduate Standing. Introduction to the theory and application of information technologies within museums including hardware, software, and the application of technology to the work of museum professionals. (F, Sp)

MST 5083 Qualitative Research Methods 3 Credit Hours
Prerequisite: Graduate Standing. This course is designed to acquaint students with qualitative research methods in museum, library and archive settings. By the end of the course, students will be familiar with the most common methods and issues in qualitative research. Students will learn how to design a study; how to recognize and address ethical issues; and how to analyze qualitative data. (Sp)

MST 5113 The World of a Museum 3 Credit Hours
Prerequisite: graduate standing. Baseline course introducing all aspects of museums and museum careers including history, structure, operations, and theoretical underpinnings. (F, Sp, Su)

MST 5133 The History and Architecture of Museums 3 Credit Hours
Prerequisite: graduate standing. The course explores the history of museums with special emphasis on architectural structural requirements unique for specialized museum functions, as well as the more abstract symbolic meaning embedded within some museum architectural designs. (Su)

MST 5143 Museum Studies Research Methods 3 Credit Hours
Prerequisite: Graduate Standing. Methods of investigating museum studies problems; use of evaluation in planning for continuous quality assessment and improvement of museum policies, processes, and procedures; developing original research designs; evaluating research studies in museum topics. (F, Su)

MST 5163 Museum Management and Leadership 3 Credit Hours
Prerequisite: graduate standing. In-depth study of the philosophy, policies, and practices of museum governance, including such topics as ethics, board development, institutional mission and organization. (F, Sp, Su)

MST 5173 Museums, Cultures, and Communities 3 Credit Hours
Prerequisite: graduate standing. The course will focus on psychographics-based analysis and engagement of museum audiences, knowledge ownership and access negotiation with source communities, public and education programs, fundraising, marketing, and other public-related issues in museums. (F, Sp, Su)

MST 5183 Collections Management 3 Credit Hours
Prerequisite: graduate standing. This course will consider the place of collections in the life of a museum; how collections mesh with the museum mission; collections policies and stewardship. Lessons learned will be applied in conjunction with practical use of common museum collections software. (F, Sp, Su)

MST 5190 Museum Project 2-4 Credit Hours
2 to 4 hours. Prerequisite: graduate standing and permission of dean. May be repeated with change of subject; maximum credit four hours. Students will develop a project in their home museum or organization under the direction of an OU faculty member with an on-site supervisor or can come to OU for a project at one of the OU museums or special collections. (F, Sp, Su)

MST 5203 Historic Preservation 3 Credit Hours
Prerequisite: graduate standing. Introduction to the field of historic preservation, including identification, documentation, and presentation of historic buildings, sites, and structures. Emphasis and consideration will be placed on those older buildings housing museums and thus, are often the largest object in the collection needing curation. (F, Sp, Su)

MST 5223 The House Museum 3 Credit Hours
Prerequisite: graduate standing. Examination of the house as a museum. Topics include identifying historical significance and architecture, conservation and interpretation, and developing community involvement. (F, Sp, Su)

MST 5243 The Small Museum 3 Credit Hours
Prerequisite: graduate standing. Introduction to the history and nature of small museums in the United States. Topics include cultural significance, administration, finance, funding, staffing, program/exhibition development, community involvement, and partnership building. (F, Sp, Su)

MST 5313 Museum Education 3 Credit Hours
Prerequisite: graduate standing, CAS 5003 and MST 5113; or permission of dean. Introduction to museum education, including object-based learning environments, and theory, an understanding of which fosters the development of effective motivating educational programs in museums. (F, Sp, Su)

MST 5333 Introduction to Museum Interpretation 3 Credit Hours
Prerequisite: Graduate standing; and CAS 5003 and MST 5113; or departmental permission. Introduces museum interpretation as a mode of communication to solicit informational experiences and inspire curiosity about a topic via media such as physical exhibits, educational programs, interactive designs, and virtual access. Given current demands for broader demographic inclusivity, the course also revisits conventional museum domains on who interprets what, with which sociocultural and ethnic background representing which segments of society. (F, Sp, Su)

MST 5403 Museums and Indigenous Cultures 3 Credit Hours
Prerequisite: Graduate standing and MST 5113. Designed for students to understand the complicated relationship between museums and Indigenous Nations. Course content covers engagement from the 1700s to the present day, including contemporary inheritances from historic anthropological approaches and how museums are enacting respectful collaborations today. (F, Sp, Su)

MST 5423 Controversy and the World of the Museum 3 Credit Hours
Prerequisite: graduate standing, CAS 5003 and MST 5113; or permission of dean. It is crucial that the museum professionals are acquainted with some of the most controversial exhibitions historically, as well as the ones from the 1990s along with an important discussion of the external legal, political, financial, and social forces that are crucial in influencing the course and the outcome of the examined cases. (F, Sp, Su)

MST 5443 Federal Laws and Museums 3 Credit Hours
Prerequisite: graduate standing. A crucial examination of important federal laws that impact common situational decision-making for museum professionals. Course activities include the critique of museum collections and policies relating to federal laws such as the Archaeological Resources Protection Act, National Historic Preservation Act, Visual Artists Rights Act (VARA), Native American Graves Protection and Repatriation Act (NAGPRA), and The Bald and Golden Eagle Protection. (F, Sp)

MST 5453 Exhibit Development 3 Credit Hours
Prerequisite: Graduate Standing. A study of all aspects of museum exhibit design and development including subject selection and proposal, research, audience identification, space planning, material selection, community collaboration, and ethics. Learned lessons will be applied through the practical use of an online digital exhibit platform. (Sp, Su)

MST 5700 Advanced Topics in Museum Studies 3-6 Credit Hours
3 to 6 hours. Prerequisite: Graduate standing; May be repeated with a change of content; maximum credit 6 hours. Examination and discussion of advanced topics in museum studies. (F, Sp, Su)

MST 5763 Capstone 3 Credit Hours
Prerequisite: Graduate standing; Museum Studies majors. The capstone is the comprehensive, end of program course where students create their professional ePortfolios that serve as the degree's required non-thesis exam. (F, Sp, Su)

MST 5920 Internship in Museum Studies 3-6 Credit Hours
3 to 6 hours. Prerequisite: Graduate standing and have completed 15 credit hours in the master's program; Museum Studies majors only; may be repeated; maximum credit 6 hours. Field experience directly related to museum studies. (F, Sp, Su)

MST 5930 Research Project in Museum Studies 3-6 Credit Hours
3 to 6 hours. Prerequisite: Graduate standing; Museum Studies majors only, MST 5143 or MST 5083 or equivalent; may be repeated; maximum credit 6 hours. Research under faculty supervision. Develop and conduct an original research project related to Museum Studies. The final project requires a written report. (F, Sp, Su)

MST 5960 Directed Readings in Museum Studies 2-3 Credit Hours
2 to 3 hours. Prerequisite: Graduate standing; Museum Studies majors only; may be repeated; maximum credit 6 hours. In-depth study of literature on a topic related to the student's program of study. (F, Sp, Su)

MST 5970 Special Topics/Seminar 1-3 Credit Hours
1 to 3 hours. Prerequisite: graduate standing, CAS 5003, and completion of first concentration course; or permission of dean. May be repeated; maximum credit nine hours. Special topics or seminar course for content not currently offered in regularly scheduled courses. May include library and/or laboratory research and field projects. (Irreg.)

MST 5980 Research for Master's Thesis 2-9 Credit Hours
2 to 9 hours. Prerequisite: graduate standing, CAS 5003, CAS 5013, and completion of first concentration core course; or permission of dean. May be repeated; maximum credit six hours. Research and writing of a thesis for completion of PACS graduate degrees. (F, Sp, Su)

MST 5990 Independent Study 1-3 Credit Hours

1 to 3 hours. Prerequisite: graduate standing, CAS 5003, and completion of first concentration course; or permission of dean. May be repeated; maximum credit nine hours. Contracted independent study for a topic not currently offered in regularly scheduled courses. Independent study may include library and/or laboratory research and field projects. (Irreg.)

Faculty

Last Name	First/Middle Name	Middle init.	OU Service start	Title(s), date(s) appointed	Degrees Earned, Schools, Dates Completed
Abbas	June		2008	Professor of Library and Information studies, 2013, Director, School of Library and Information Studies, 2023	PhD, Univ of North Texas, 2001; MLS, Emporia State, 1998; BA, Saint Mary College, 1996
Burke	Susan		2004	Associate Professor of Library and Information Studies, 2010; Program Director, Museum Studies, 2023	PhD, Texas Woman's Univ, 2001; MS, Univ of Illinois, 1988; AB, Univ of Illinois, 1984
Demir	Dace		2024	Lecturer, Museum Studies, 2024	PhD, Cultural Policy Studies, University of Warwick 2020; MA Arts Administration and Policy, School of the Art Institute of Chicago, 2026; MA Cultural Studies, Latvian Academy of Culture 2003; BA International Cultural Relations, Latvian Academy of Culture, 1999
Edwards	Buffy		2008	Senior Lecturer of Library and Information Studies; Internship Support Specialist, 2025	PhD Univ of Oklahoma 2008, MLIS Univ of Oklahoma, School of Library and Information Studies 1989, BS Vocal and Instrumentational Music, Mayville State Univ (ND) 1985
Endersby	Linda		2025	Lecturer, Museum Studies, 2025	Ph.D. Massachusetts Institute of Technology, History of Technology, 1999; M.A. University of Missouri–Columbia, History, 1993; B.S. University of Missouri–Columbia, Mathematics/ Computer Science, 1990.
Giani	Francesca		2024	Lecturer, Museum Studies, 2024	PhD Art History, University of Oklahoma 2022; MA Art History, San Diego State University, 2011; BA Conservation of Cultural Goods and Art History, Universita di Napoli, 2001
Harris	Jason		2025	Lecturer, Museum Studies, 2025	Ph.D., History, Oklahoma State University, 2021; Graduate Certificate, Museum and Curatorial Studies, Oklahoma State University, 2021; M.A., History, Museum Studies, University of Central Oklahoma, 2008; B.A., History, Museum Studies, University of Central Oklahoma, 2006.
Jung	Yong Ju		2020	Assistant Professor of Library and Information Studies, 2020	PhD, Pennsylvania State Univ, 2020; MA, Korea Univ, 2013; BA, Korea Univ, 2011
Kim	Yong-Mi		2006	Professor of Library and Information Studies, 2025	PhD, Univ of Oklahoma, 2005; PhD, Florida Atlantic Univ, 1998; MPA, Univ of Southern California, 1994; MPA, Ewha Womans Univ, 1989; BS, Han Nam Univ, 1986
Lamba	Manika		2024	Assistant Professor, Library and Information Studies, 2024	PhD in Library and Information Science, University of Delhi, 2023; MPhil in Library and Information Science, University of Delhi, 2019; Master of Library and Informatoin Science, University of Delhi, 2017; BA of Library and Information Science, University of Delhi, 2016; MSc Plant Biotechnology, TERI School of Advanced Studies, 2014; BSc Biochemistry, University of Delhi, 2012
Liu	Jiqun		2020	Associate Professor of Library and Information Studies, 2025	PhD, Information Science, Rutgers Univ, 2020; MS. Information Science, Peking Univ, 2016; BA. Library Science; Finance, Nankai Univ, 2014

Monobe	DH	2022	Lecturer of Library and Information Studies; MLIS Assessment Coordinator, 2022	MLS, Emporia State Univ, 2011; Ph.D., Univ of Northern Colorado, 1990; M.Ed., Univ of Utah, 1987
Phillips	Laura	2024	Lecturer, Museum Studies, 2024	PhD Cultural Studies, Queen's University, 2022; MPhil Archaeology, University of Bristol, 2009; Post-Graduate Diploma, Archaeology, 2002; BA with Honors, Classical Studies, Western University, 1997
Ricker	James	2024	Lecturer, Museum Studies, 2024	PhD United States History, US Western History, and Public History, Oklahoma State University 2016; MA United States History/ Museum Studies, University of Central Oklahoma, 1993; BS General Studies, University of Central Oklahoma, 1990
Rubenstein	Ellen	2011	Associate Professor of Library and Information Studies, 2018	PhD, Univ of Illinois, 2011; MA, Indiana Univ, 2006; BA, SUNY at Fredonia, 1978
White	Kelvin	2014	Senior Assoc. Dean for Faculty Development and Community, Dodge Family College of Arts and Sciences; Associate Professor of Library and Information Studies, 2014	PhD, Univ of California Los Angeles, 2008; MA, Univ of California Los Angeles; BA, Texas Southern Univ

Information Science and Technology, B.S.

Minimum Total Credit Hours: 120
Major Hours: 39
Minimum Upper-Division Hours: 48
Upper-Division Hours Within Major: 24

Overall GPA - Combined and OU: 2.00
Major GPA - Combined and OU: 2.00

Program Code: B557 (B558 Online)

Major Requirements

Some courses required for the major may also fulfill University General Education and/or Dodge College of Arts & Sciences Requirements.

A grade of C or better is required in each major course. LIS prefix courses must be completed within a maximum of two attempts per course.

Core Area V: First Year Experience (3 hours)		
Choose one course		3
Total Credit Hours		**56**

[1] College of Arts and Sciences Requirements: college requirements are not automatically fulfilled by a previous degree.

[2] One course at the intermediate level or demonstrated competency at that level

[3] 6 upper-division hours, 2 courses, at the 3000- 4000-level. ***Must be outside the major.***

Free Electives

Electives to bring total applicable hours to the minimum total required for the degree including 48 upper-division hours.

Information Concerning General Rules, Regulations and Minimum Requirements

Arts and Sciences Hours: At least 80 semester hours of liberal arts and sciences courses are required for a BA degree. At least 55 semester hours of liberal arts and sciences courses are required for a BS degree.
Pass/No Pass Enrollment: A maximum of 16 semester hours of free elective credit may be attempted under this option.
Individual Studies (e.g., courses titled "Independent Study"): A maximum of 12 total semester hours may be counted toward graduation, excluding Honors Reading and Honors Research.
P.E. Courses: No physical education activity courses will be counted toward the 120 semester hours of acceptable credit for graduation.
Senior Institution Hours: A minimum of 60 semester hours applied toward graduation must be earned at senior (4-year) institutions.
Residency:

- At least 15 of the final 30 hours applied toward the degree or at least 50 percent of the hours required by the institution in the major field must be satisfactorily completed at the awarding institution.
- At least 15 semester hours of upper-division major work must be completed in residence at OU.
- OU correspondence courses are ***not*** considered resident credit.

Grade Point Averages: Students must earn a minimum over all 2.00 for each of the following: Combined Retention GPA (all college grades), OU Retention GPA, GPA for all major courses, and GPA for all major courses taken at OU. Some schools and departments of the College have higher minimum grade point averages required for their students.

Suggested Semester Plan of Study

This plan shows one possible grouping of courses that would allow students to graduate in four years. Please refer to the front of the degree checksheet for official requirements. Students must consult with Dodge College of Arts and Sciences and/or School of Library and Information Studies academic advisers to verify that courses selected each semester fulfill the recommended plan and satisfy University, College of Arts and Sciences, and Information Science & Technology major requirements.

METR 1313	Introduction to Programming for Meteorology	3
PSY 2503	Computing for Behavioral Sciences	3

Applied Statistics Experience or Advanced Elective

Most of the advanced electives require instructor permission and many disciplinary-specific prerequisites that should be met or specifically discussed with the instructor prior to enrollment. Upon or before enrollment, students will need to identify a faculty member affiliated with the Data Scholarship Program who can supervise their internship, independent study, or research experience.

To fulfill this requirement, the course must include a data-related project with a written report. Students will submit a DSP Project Experience Course Approval Form for approval before the end of the free add/drop period. Alternatively, an additional course can be taken from among listed courses in the previous categories AND that includes a substantial project that includes data analysis, visualization, and interpretation and a discussion of any ethical considerations with respect to the topic and data. In this case, students will submit a DSP Project Experience Course Approval Form to describe the project in the course.

Code	Title	Credit Hours
BIOL 4913	Quantitative Biology	3
BIOL 4943	Multivariate Analysis	3
CAS 4630	CAS Internship	3

Project/Applied Data Analytics Experience

Most of the advanced electives require instructor permission and many disciplinary-specific prerequisites that should be met or specifically discussed with the instructor prior to enrollment. Upon or before enrollment, students will need to identify a faculty member affiliated with the Data Scholarship Program who can supervise their internship, independent study, or research experience.

To fulfill this requirement, the course must include a data-related project with a written report. Students will submit a DSP Project Experience Course Approval Form for approval before the end of the free add/drop period. Alternatively, an additional course can be taken from among listed courses in the previous categories AND that includes a substantial project that includes data analysis, visualization, and interpretation and a discussion of any ethical considerations with respect to the topic and

data. In this case, students will submit a DSP Project Experience Course Approval Form to describe the project in the course.

Code	Title	Credit Hours
CAS 4630	CAS Internship	3
DSP 4983	Data Analytics and Applied Statistics Research Experience	3
CAS 4990	Independent Study (with a DSP faculty affiliate or with an approved, applied data analytics component)	3
An additional course can be taken from among listed courses in the previous categories AND that includes a substantial project that includes data analysis, visualization, and interpretation and a discussion of any ethical considerations with respect to the topic and data. In this case, the project report must be submitted to the Data Scholarship Program for final approval.		

Information Studies, Minor

Minimum Total Credit Hours: 18
Minimum Upper-Division Hours: 9

Program Code: N560

- **The requirements for a minor must be completed concurrently with the major degree requirements.**
- **No minor may be added by completing courses after receiving the bachelor's degree.**

At least six (6) credit hours must be earned in courses acceptable for residence credit by standards set forth by the Dodge College of Arts and Sciences, excluding transfer, correspondence, and examination (AP, CLEP, Advanced Standing) credit. Courses for the minor may not be taken Pass/No Pass.

No single course may be used by a student to satisfy a major requirement and a minor requirement. A course may be used, however, to satisfy both a major support requirement and a minor requirement.

Requests to substitute a minor requirement must be approved in writing by the School of Library and Information Studies.

Required Courses

Students must successfully complete at least 18 hours of coursework, including at least nine (9) hours at the upper-division level.

A grade of C or better must be earned in each course presented for minor credit.

Code	Title	Credit Hours
Required Courses		
LIS 2003	Introduction to Information Science	3
LIS 3063	Essentials of IT & Informatics	3
LIS 4643	Introduction to Data Analytics	3

Applied Statistics, Undergraduate Certificate

Minimum Total Credit Hours: 15
Minimum Upper-Division Hours: 8

Program Code: T028

Certificate Requirements

- Students must maintain at least a 2.50 GPA for courses applied to the certificate.
- Courses for which a grade of less than C is earned will not apply toward the certificate.
- No more than 6 credits hours may be taken from courses offered by the Gallogly College of Engineering (i.e., C S and/or DSA courses).

The recommended order of course completion is the following: introductory statistics (I), experimental design/research methods/linear algebra (III) and statistical computing (IV), intermediate statistics (II), and applied statistics experience or advanced elective (V).

Code	Title	Credit Hours
Choose one course in Introductory (or more advanced) Statistics [1]		3

Choose one course from the General Education Artistic Forms list		3
Western Culture		
HIST 1483	United States to 1865	3
or HIST 1493	United States, 1865 to the Present	
Choose one course from the General Education Western Culture list (excluding HIST 1483/1493)		3
World Culture		
Choose one course from the General Education World Culture list		3
Additional Core IV Upper-Division Arts & Humanities courses		
Choose one course from Artistic Forms, Western Culture, or World Culture [1,3]		3
Choose one course from Artistic Forms, Western Culture, or World Culture [1,3]		3
Core Area V: First Year Experience (3 hours)		
Choose one course		3
Total Credit Hours		**56**

1 College of Arts and Sciences Requirements: college requirements are not automatically fulfilled by a previous degree.

2 One course at the intermediate level or demonstrated competency at that level

3 6 upper-division hours, 2 courses, at the 3000- 4000-level. ***Must be outside the major.***

Free Electives

Electives to bring total applicable hours to the minimum total required for the degree including 48 upper-division hours.

Information Concerning General Rules, Regulations and Minimum Requirements

Arts and Sciences Hours: At least 80 semester hours of liberal arts and sciences courses are required for a BA degree. At least 55 semester hours of liberal arts and sciences courses are required for a BS degree.
Pass/No Pass Enrollment: A maximum of 16 semester hours of free elective credit may be attempted under this option.
Individual Studies (e.g., courses titled "Independent Study"): A maximum of 12 total semester hours may be counted toward graduation, excluding Honors Reading and Honors Research.
P.E. Courses: No physical education activity courses will be counted toward the 120 semester hours of acceptable credit for graduation.
Senior Institution Hours: A minimum of 60 semester hours applied toward graduation must be earned at senior (4-year) institutions.
Residency:

- At least 15 of the final 30 hours applied toward the degree or at least 50 percent of the hours required by the institution in the major field must be satisfactorily completed at the awarding institution.
- At least 15 semester hours of upper-division major work must be completed in residence at OU.
- OU correspondence courses are ***not*** considered resident credit.

Grade Point Averages: Students must earn a minimum over all 2.00 for each of the following: Combined Retention GPA (all college grades), OU Retention GPA, GPA for all major courses, and GPA for all major courses taken at OU. Some schools and departments of the College have higher minimum grade point averages required for their students.

Suggested Semester Plan of Study

This plan shows one possible grouping of courses that would allow students to graduate in five years. Please refer to the front of the degree checksheet for official requirements. Students must consult with Dodge College of Arts and Sciences and/or School of Library and Information Studies academic advisors to verify that courses selected each semester fulfill the recommended plan and satisfy University, College of Arts and Sciences, and Information Studies major requirements.

General Requirements for all Master's Degrees

The master's degree requires the equivalent of *at least* two semesters of satisfactory graduate work and additional work as may be prescribed for the degree.

All coursework applied to the master's degree must carry graduate credit.

Master's degree programs which require a thesis consist of *at least* 30 credit hours. All non-thesis master's degree programs require *at least* 30 credit hours.

Credit transferred from other institutions must meet specific criteria and is subject to certain limitations.

Courses completed through correspondence study may *not* be applied to the master's degree.

To qualify for a graduate degree, students must achieve an overall grade point average of 3.0 or higher in the degree program coursework and in all resident graduate coursework attempted. A student must also have at least a 3.0 in all coursework (including undergraduate coursework if any).

Additional information for master's degree students may be found in the Graduate College Bulletin.

Applied Statistics, Graduate Certificate

Minimum Total Hours: 15

Program Code: G215, G216 (Online)

Certificate Requirements

- Students must have a ≥ 3.0 GPA for courses applied to the graduate certificate to earn the graduate certificate.
- Courses for which a grade of less than C is earned will not apply toward the certificate.
- at least half of all credit hours must be at or above the 5000-level.
- No more than 6 credits hours may be taken from courses offered by the Gallogly College of Engineering (i.e., C S and/or DSA courses).

The certificate courses require pre-requisites in Linear Algebra and Calculus, Coding, and basic Statistics.

Code	Title	Credit Hours
Choose one course in Mathematical Statistics [1]		3
Choose one course in Intermediate Statistics [1]		3
Choose 2 courses in Statistics and Computing [1]		6
Choose one course in Interdisciplinary Applied Statistics [1]		3
Total Credit Hours		**15**

[1] Courses approved for each of these categories (p. 559) are maintained by the Data Scholarship Program in the School of Library and Information Studies.

A graduate *certificate* is not a graduate *degree*. A graduate degree represents a program of independent inquiry beyond the depth of coursework alone, while a graduate certificate represents a set of courses only.

- All courses must be taken at OU. No transfer credit will apply.
- No course substitutions are permitted for graduate certificates.
- Coursework applied to a graduate certificate cannot be more than five years old as of the semester the graduate certificate is awarded.
- Students must earn a grade point average of 3.00 or higher on all coursework applied to the graduate certificate.

Interdisciplinary Applied Statistics

Statistical Consulting, Internship, Mentored research experience with someone outside of your research area, or class outside of research area that includes a project. E.g., Applying an atypical method to your own research or applying a method from your discipline to a different problem/data set. Interdisciplinary experiences are highly encouraged. Must produce a report that includes the results and a discussion of decision-making, ethics, biases, and limitations that are part of the data set/study.

Code	Title	Credit Hours
DSP 5633	Data Analytics and Applied Statistics Internship	3
CAS 5970	Special Topics/Seminar	1-3
CAS 5990	Independent Study (with faculty outside of your discipline, with an approved, applied statistical component)	1-3

Interdisciplinary Advanced Statistics Elective Course outside of student's research area that includes a written project. Courses listed in the Advanced Statistics Electives list may be used. Selected course must include a DSP-preapproved written project.	

Archival Studies, Graduate Certificate

Minimum Total Hours: 12

Program Code: G021

The graduate certificate is a 12-credit hour (four course) program that provides a focused specialization and an indication of expertise in archival theory and practice. It provides a formal indication of training which endorses the abilities and knowledge of the certificate holders.

Certificate Requirements

Code	Title	Credit Hours
Choose 4 courses (12 hours) from the approved list of archive courses maintained by the academic unit and approved by the Graduate College. (p. 561)		12
Total Credit Hours		**12**

A graduate *certificate* is not a graduate *degree*. A graduate degree represents a program of independent inquiry beyond the depth of coursework alone, while a graduate certificate represents a set of courses only.

- All courses must be taken at OU. No transfer credit will apply.
- No course substitutions are permitted for graduate certificates.
- Coursework applied to a graduate certificate cannot be more than five years old as of the semester the graduate certificate is awarded.
- Students must earn a grade point average of 3.00 or higher on all coursework applied to the graduate certificate.

Archival Studies Elective Course List

Digital Humanities, Graduate Certificate

Minimum Total Hours: 12

Program Code: G315

The Graduate Certificate in Digital Humanities provides a pathway for individuals working in the humanities, social sciences, and the sciences to advance their understanding of how potentially transformative methods, tools, models, applications, and theoretical frameworks are being put to use in expanding the scope and scale of inquiry in the humanities disciplines. The certificate consists of 12 credit hours (four courses).

HSTM 5613	Issues and Methods in the Digital Humanities	3
Guided Electives [1]		
Choose two electives from a list of approved courses maintained by the SLIS (p. 564)		6
Required Independent Course		
Choose one of the following:		3
HSTM 5623	Practicum/Internship in the Digital Humanities	
LIS 5823	Internship in Library/Information Centers	
LIS 5940	Directed Project	
Total Credit Hours		**12**

[1] One course other than the independent course will be outside of the student's home academic unit.

A graduate *certificate* is not a graduate *degree*. A graduate degree represents a program of independent inquiry beyond the depth of coursework alone, while a graduate certificate represents a set of courses only.

- All courses must be taken at OU. No transfer credit will apply.
- No course substitutions are permitted for graduate certificates.
- Coursework applied to a graduate certificate cannot be more than five years old as of the semester the graduate certificate is awarded.
- Students must earn a grade point average of 3.00 or higher on all coursework applied to the graduate certificate.

Approved Digital Humanities Elective Courses

Code	Title	Credit Hours
C S 5093	Visual Analytics	3
ENGL 5463	Rhetoric & Technology	3
LIS 5343	Archival Concepts and Traditions	3
LIS 5453	Digital Collections	3
LIS 5613	Dynamic Web Development	3
LIS 5643	Introduction to Data Analytics	3
LIS 5673	Introduction to Information Visualization	3
LIS 5743	Digital Curation	3

Information Studies, Ph.D.

Minimum Total Hours: 90

Program Code: D535

Program Requirements

Code	Title	Credit Hours
Major Core (9 hours)		
LIS 6033	Intellectual Traditions in Information Studies	3
LIS 6713	Research Methods and Design in Information Studies	3
LIS 6970	Special Topics in the Theory of Information Studies	3
Additional Methodology Courses Outside SLIS (6 hours)		
Two additional methodology courses selected from a list maintained by the School of Library & Information Studies		6
Major Specialization (12 hours)		
Four courses focused on creating a major area of specialization, as approved by committee chair and graduate liaison. [1]		12
Doctoral Seminar (8 hours)		
LIS 6962	Doctoral Seminar (2 hours per semester for four semesters)	8
Guided Electives (12 hours) [2]		
6 hours from 6000-level LIS courses		6
6 hours of graduate coursework offered outside of SLIS		6
General Electives (30-33 hours)		**30-33**
Must be approved by committee and graduate liaison. Up to 30 hours may be credited from a prior master's degree in a related field (with permission of committee chair and graduate liaison).		
Dissertation Research (10-13 hours)		
LIS 6980	Research for Doctoral Dissertation	10-13
Total Credit Hours		**90**

[1] This can be 4 semesters of LIS 6920, Directed Research, to create a specialization in research.

[2] It is recommended that these courses are chosen carefully with a view to (a) acquiring the knowledge and skills necessary for designing and implementing a research study in the student's area of interest, and/or (b) exploring a particular cognate area relating to the student's research interests and becoming acquainted with faculty who may serve as external dissertation committee members.

General Requirements for Doctoral Degrees

A student should expect to spend at least the equivalent of three full academic years beyond the bachelor's degree to obtain the doctoral degree. During this period the student will take appropriate graduate

coursework, successfully complete the general examination, and successfully defend and submit the final dissertation.

All coursework applied to the doctoral degree must carry graduate credit.

The doctoral degree requires at least 90 post-baccalaureate hours, including both formal coursework and hours of research.

The minimum hour requirement for a specific doctoral degree program cannot be waived.

No more than one-half of the credit hours, both OU and overall, excluding Research for Doctoral Dissertation (6980), may be *S/U*-graded coursework.

The student must be in residence at OU for at least two consecutive 16-week semesters during the pursuit of the doctoral degree while enrolled and engaged in coursework or research activities as prescribed by the major academic unit.

For more detailed regulations and requirements for Doctoral degrees, please consult the Graduate College Bulletin: http://www.ou.edu/gradcollege/forms/bulletin

General Information

Mathematics students are well trained for a number of career fields, including architecture, economics, computer programming, education, meteorology and financial planning. The variety of coursework in the Mathematics program prepares students to work for companies such as Microsoft, IBM Global, NASA and Proctor and Gamble as well as the U.S. government. The David and Judi Proctor Department of Mathematics offers students a flexible liberal arts education with multiple degree options. The Mathematics degree is perfect for students who have a general interest in math, because it gives them the opportunity to study an array of math-related topics.

Programs & Facilities

Math Club

The Math Club meets throughout each semester to host a variety of talks, campus visits, and field trips.

Scholarships

The Mathematics Department has a number of endowed scholarship funds to support its undergraduate majors. All math majors are encouraged to apply. Application forms will be accepted in March each year.

Graduate Student Support

Extensive support is available for students enrolled in a graduate program in Mathematics. The department has a limited number of fellowships available; all students are automatically considered for these fellowships. Although both teaching and research assistantships are available, incoming students are generally considered only for graduate teaching assistant appointments.

Undergraduate Study

Major Programs

The student whose major interest is in mathematics may work either for the standard degree of Bachelor of Arts (p. 573) or the professional degree of Bachelor of Science (p. 575). The Bachelor of Arts degree provides a well-rounded liberal arts degree preparing students for a wide variety of career paths. The Bachelor of Science in Mathematics Professional Degree is a rigorous undergraduate mathematics degree. This challenging program will prepare student to pursue graduate studies in mathematics or mathematically intensive subjects.

Accelerated Programs

- Mathematics, B.A./Master of Business Administration (p. 578)
- Mathematics, B.A./Finance, M.S. (p. 581)

The Mathematics & Biostatistics, Bachelor of Science/Master of Science (p. 584)is a five-year dual-degree program in conjunction with the Department of Biostatistics and Epidemiology at the OU Health Sciences Center. The program leads to a Mathematics Bachelor of Science and a Biostatistics Master of Science.

Minor in Mathematics

Students may also pursue a Minor in Mathematics (p. 577).

Teacher Certification

Students who wish to pursue a career teaching mathematics may be interested in the Bachelor of Science in Education (p. 1202) degree from the College of Education specializing in Mathematics. This program can also be combined with your teaching certification for middle and high school.

Graduate Study

Master's Programs

The department has two different master's degree programs. The Master of Arts (p. 586) degree is particularly suitable for students who may want to pursue a doctorate or who are interested in teaching at the college level. The Master of Science (p. 587) degree emphasizes applications of mathematics. The dual degree program addresses the increasing need of mathematics in business and management.

Doctoral Programs

In order to be admitted to the Ph.D. program (p. 588) in mathematics, a student should first have completed a master's degree or equivalent. A total of at least 90 hours beyond the baccalaureate degree is required for this degree.

- **PhD Program (traditional option)**. The student's ultimate goal in this program is to write and defend a dissertation representing an original contribution to research in mathematics. This research is conducted under the guidance of a faculty member (PhD advisor). A wide variety of research interests is represented in the Mathematics Department.
- **PhD Program (RUME option)**. The student's ultimate goal in this program is to write and defend a dissertation representing an original contribution to research in undergraduate mathematics education. The student's PhD degree will however still be in mathematics,

not mathematics education. RUME students take many of the same classes taken by students in the traditional option of the PhD program.

Courses

MATH 0999 Remedial Transfer Credit 10 Credit Hours
This is not a course offered at the University of Oklahoma. It is used to denote remedial transfer credit for which there is no OU equivalent course.

MATH 1005 Mathematical Reasoning 5 Credit Hours
Prerequisite: A satisfactory score on math placement assessment. Emphasis on understanding the process of using mathematical skills to analyze and communicate information. Involves applying arithmetic, logical, geometric, statistical, and algebraic skills to understand scenarios, make decisions, interpret data, and share information with others. (F, Sp) [I-M].

MATH 1471 Mathematics for Critical Thinking Corequisite 1 Credit Hour
Prerequisite: MATH 1005 or satisfactory score on math placement assessment; Corequisite: MATH 1473. This course is designed as a corequisite supplement to MATH 1473 (Math for Critical Thinking). It covers material that supports the learning of key arithmetic, algebra topics, and terminology needed to address common contextualized scenarios involving quantities and numeration (e.g., personal financial mathematics and interpretation of data representations found in media). The course also further emphasizes topics from MATH 1473. (F, Sp, Su)

MATH 1473 Mathematics for Critical Thinking 3 Credit Hours
Prerequisite: MATH 1005 or satisfactory score on math placement assessment. A study of the mathematics needed for the critical evaluation of quantitative information and arguments including logic, critical appraisal of graphs and tables; use of simple mathematical models and an introduction to elementary statistics. (F, Sp, Su) [I-M].

MATH 1501 College Algebra Corequisite 1 Credit Hour
Prerequisite: MATH 1005 or satisfactory score on math placement assessment; Corequisite: MATH 1503. This course is a corequisite supplement to MATH 1503 (College Algebra), which is designed for students in preparation for engineering calculus. MATH 1501 supports the learning of key algebra topics, including expanding and simplifying algebraic expressions (linear, quadratic, polynomial, rational, radical, exponential, and logarithmic); factoring techniques; and representations of mathematical information. The course also further emphasizes topics from MATH 1503. (F, Sp, Su)

MATH 1502 College Algebra Extended Corequisite 2 Credit Hours
Prerequisite: A satisfactory score on the math placement examination; Corequisite: MATH 1503. This course is a corequisite supplement to MATH 1503 (College Algebra), which is designed for students preparing for MATH 1523. MATH 1502 supports the learning of key algebra topics, including expanding and simplifying algebraic expressions, factoring techniques, algebraic functions and their representations, as well as systems of equations. The course also further emphasizes topics from MATH 1503. (F, Sp, Su)

MATH 1503 College Algebra 3 Credit Hours
Prerequisite: MATH 1005 or satisfactory score on math placement assessment. Study of equations, inequalities, functions (linear, absolute value, quadratic, polynomial, rational, radical, exponential, logarithmic). Includes systems of equations; recognizing, utilizing, creating, and converting between symbols, tables, graphs, models. Prerequisite for MATH 1523. A student may not receive credit for this course and MATH 1643. (F, Sp, Su) [I-M].

MATH 1523 Precalculus and Trigonometry 3 Credit Hours
Prerequisite: MATH 1503 or satisfactory score on the math assessment. Primarily concentrates on trigonometric functions and their inverses, trigonometric identities, solutions of triangles, and applications. In addition, limits, vectors and some vector operations, polar coordinates and continuity are introduced. Suitable for students planning to take calculus; intended as prerequisite for MATH 1823. (F, Sp, Su) [I-M].

MATH 1641 Functions and Modeling Corequisite 1 Credit Hour
Prerequisite: MATH 1005 or satisfactory score on math placement assessment; Corequisite: MATH 1643. This course is a corequisite supplement to MATH 1643 (Functions & Modeling), which is designed to prepare students for business calculus, as well as other business, life, and social science courses. The 1641 course focuses on key algebra skills and improvement of academic study skills necessary for success in MATH 1643. It also further emphasizes topics covered in MATH 1643. (F, Sp, Su)

MATH 1642 Functions and Modeling Extended Corequisite 2 Credit Hours
Prerequisite: A satisfactory score on the math placement examination; Corequisite: MATH 1643. Mathematics 1642 is a corequisite supplement to MATH 1643 (Functions & Modeling), which is designed to prepare students for MATH 1743, as well as other business, life, and social science courses. MATH 1642 supports the key algebraic skills needed for working with systems of equations, algebraic expressions and functions, linear versus exponential regression, and other key algebraic skills. (F, Sp, Su)

MATH 1643 Functions and Modeling for Business, Life and Social Sciences 3 Credit Hours
Prerequisite: MATH 1005 or satisfactory score on math placement assessment. Study of equations and functions (linear, polynomial, rational, exponential, logarithmic) from various perspectives (symbolic, verbal, numerical, graphical); digital techniques for graphing functions, solving equations, and modeling data using regressions. This course is designed for students in agricultural, business, life/health sciences, or social science majors. A student may not receive credit for this course and MATH 1503. (F, Sp, Su) [I-M].

MATH 1743 Calculus I for Business, Life and Social Sciences 3 Credit Hours
Prerequisite: MATH 1523, MATH 1643, or satisfactory score on the math assessment. Topics in differentiation of polynomial, exponential and logarithmic functions. Applications to the business, life and social sciences, including optimization. A student may not receive credit for this course and MATH 1823. (F, Sp, Su) [I-M].

MATH 1823 Calculus and Analytic Geometry I 3 Credit Hours
Prerequisite: MATH 1523 or satisfactory score on the math assessment. Topics include functions, limits, and continuity; differentiation; and applications of differentiation including related rates, maximum-minimum theory, curve sketching, and optimization. A student may not receive credit for this course and MATH 1743; duplicates 3 hours of MATH 1914. (F, Sp, Su) [I-M].

MATH 1914 Differential and Integral Calculus I 4 Credit Hours
Prerequisite: Satisfactory score on math assessment. Topics include limits and continuity; differentiation; applications of differentiation including related rates, maximum-minimum theory, curve sketching, and optimization; Fundamental Theorem of Calculus; substitution rule; and applications of integration to computation of areas and volumes. Duplicates three hours of MATH 1823 and one hour of MATH 2423. (F, Sp, Su) [I-M].

MATH 2123 Calculus II for Business, Life and Social Sciences 3 Credit Hours
Prerequisite: MATH 1743. Integration of polynomial, exponential and logarithmic functions, including u-substitution. Applications of integrals to the business, life and social sciences, including probability. Partial derivatives including multivariable optimization, Lagrange multipliers, and least squares. A student cannot receive credit for this course and MATH 2423. (Sp) [I-M].

MATH 2213 Mathematical Systems 3 Credit Hours
Prerequisite: plane geometry, intermediate algebra, enrollment in an appropriate elementary teachers' program. A systematic analysis of arithmetic and a presentation of intuitive algebra and geometry. Not open to students in the University College. (F, Sp, Su)

MATH 2223 Data Analysis and Geometric Systems 3 Credit Hours
Prerequisite: 0123 at OU or satisfactory score on math placement test and admission to 0802A, 0808A, or 0823A degree programs. Algebra and the structure of number systems, functional relationships, informal geometry. Course is not open to students in University College. (F, Sp)

MATH 2423 Calculus and Analytic Geometry II 3 Credit Hours
Prerequisite: MATH 1823 or MATH 1914. Topics include integration and its applications; calculus of transcendental functions; indeterminate forms; techniques of integration; and improper integrals. A student may not receive credit for this course and MATH 2123; duplicates one hour of MATH 1914 and two hours of MATH 2924. (F, Sp, Su) [I-M].

MATH 2433 Calculus and Analytic Geometry III 3 Credit Hours
Prerequisite: MATH 2423 or MATH 2924. Polar coordinates, parametric equations, sequences, infinite series, vector analysis. (F, Sp, Su)

MATH 2443 Calculus and Analytic Geometry IV 3 Credit Hours
Prerequisite: 2433. Vector calculus; functions of several variables; partial derivatives; gradients, extreme values and differentials of multivariate functions; multiple integrals; line and surface integrals. (F, Sp, Su)

MATH 2513 Discrete Mathematical Structures 3 Credit Hours
Prerequisite: MATH 2423 or MATH 2924 or concurrent enrollment.
A course for math majors or prospective math majors. Provides an introduction to discrete concepts such as finite sets and structures, and their properties and applications. Also exposes students to the basic procedures and styles of mathematical proof. Topics include basic set theory, functions, integers, symbolic logic, predicate calculus, induction, counting techniques, graphs and trees. Other topics from combinatorics, probability, relations, Boolean algebras or automata theory may be covered as time permits. (F, Sp, Su)

MATH 2924 Differential and Integral Calculus II 4 Credit Hours
Prerequisite: MATH 1914 with a grade of C or better. Topics include calculus of transcendental functions; indeterminate forms; techniques of integration; improper integrals, parametric curves; polar coordinates, infinite sequences and series, vectors in two and three dimensions. Duplicates two hours of MATH 2423 and two hours of MATH 2433. (F, Sp, Su)

MATH 2934 Differential and Integral Calculus III 4 Credit Hours
Prerequisite: 2924 with grade of C or better. Vectors and vector functions, functions of several variables, partial differentiation and gradients, multiple integration, line and surface integrals, Green-Stokes-Gauss theorems. Duplicates one hour of 2433 and three hours of 2443. (F, Sp, Su)

MATH 2970 Special Topics/Seminar 1-3 Credit Hours
1 to 3 hours. Prerequisite: Permission of instructor. May be repeated; maximum credit nine hours. Special topics or seminar course for content not currently offered in regularly scheduled courses. May include library and/or laboratory research and field projects. (Irreg.)

MATH 3113 Introduction to Ordinary Differential Equations 3 Credit Hours
Prerequisite: MATH 2423 or MATH 2924. First order ordinary differential equations, linear differential equations with constant coefficients, two-by-two linear systems, Laplace transformations, phase planes and stability. Duplicates two hours of MATH 3413. (F, Sp, Su)

MATH 3333 Linear Algebra I 3 Credit Hours
Prerequisite: MATH 2123 or MATH 1823 or MATH 1914 or permission of instructor. Systems of linear equations, determinants, finite dimensional vector spaces, linear transformations and matrices, characteristic values and vectors. (F, Sp, Su)

MATH 3401 Numerical Methods With Matlab 1 Credit Hour
Prerequisite: 3413 or concurrent enrollment. Programming with MATLAB. Numerical solution of nonlinear equations. Matrices and linear algebraic equations, regression, interpolation, splines. Numerical integration. Numerical solution of systems of ordinary differential equations. Numerical solution of partial differential equation. Laboratory (F, Sp)

MATH 3413 Physical Mathematics I 3 Credit Hours
Prerequisite: MATH 2443 or MATH 2934 or concurrent enrollment. Complex numbers and functions. Fourier series, solution methods for ordinary differential equations and partial differential equations, Laplace transforms, series solutions, Legendre's equation. Duplicates two hours of MATH 3113. (F, Sp)

MATH 3423 Physical Mathematics II 3 Credit Hours
Prerequisite: MATH 2443 or MATH 2934, MATH 3413. The Fourier transform and applications, a survey of complex variable theory, linear and nonlinear coordinate transformations, tensors, elements of the calculus of variations. (F)

MATH 3440 Mentored Research Experience 3 Credit Hours
0 to 3 hours. Prerequisites: ENGL 1113 or equivalent, and permission of instructor. May be repeated; maximum credit 12 hours. For the inquisitive student to apply the scholarly processes of the discipline to a research or creative project under the mentorship of a faculty member. Student and instructor should complete an Undergraduate Research & Creative Projects (URCP) Mentoring Agreement and file it with the URCP office. Not for honors credit. (F, Sp, Su)

MATH 3960 Honors Reading 1-3 Credit Hours
1 to 3 hours. Prerequisite: admission to Honors Program. May be repeated; maximum credit six hours. Consists of topics designated by the instructor in keeping with the student's major program. Covers materials not usually presented in the regular courses. (F, Sp, Su)

MATH 3970 Honors Seminar 1-3 Credit Hours
1 to 3 hours. Prerequisite: admission to Honors Program. May be repeated; maximum credit six hours. Projects covered will vary. The content will deal with concepts not usually presented in regular coursework. (F, Sp)

MATH 3980 Honors Research 1-3 Credit Hours
1 to 3 hours. Prerequisite: admission to Honors Program. May be repeated; maximum credit six hours. Will provide an opportunity for the gifted Honors candidate to work at a special project in the student's field. (F, Sp, Su)

MATH 3990 Independent Study 1-3 Credit Hours
1 to 3 hours. Prerequisite: one course in general area to be studied; permission of instructor and department. Overall grade point average of 2.50 or better. May be repeated; maximum credit six hours. Contracted independent study for topic not currently offered in regularly scheduled courses. Independent study may include library and/or laboratory research and field projects. (F, Sp, Su)

MATH G4073 Numerical Analysis I 3 Credit Hours
Prerequisite: 3113 or 3413. Solution of linear and nonlinear equations, approximation of functions, numerical integration and differentiation, introduction to analysis of convergence and errors, pitfalls in automatic computation, one-step methods in the solutions of ordinary differential equations. (F)

MATH 4093 Applied Numerical Methods 3 Credit Hours
(Slashlisted with MATH 5093) Prerequisite: MATH 2443 or MATH 2934, MATH 3113 or MATH 3413, MATH 3333 or MATH 4373, or permission of instructor. Numerical treatment of ordinary differential equations, numerical linear algebra and applications, basic numerical methods for partial differential equations. No student may earn credit for both 4093 and 5093. (Alt. Sp.)

MATH G4103 Introduction to Functions of a Complex Variable 3 Credit Hours
Prerequisite: 3113. Complex analytic functions, conformal mappings, complex integrals. Taylor and Laurent series, integration by the method of residues, complex analytic functions and potential theory. (Sp)

MATH 4123 Fourier Transforms 3 Credit Hours
(Slashlisted with MATH 5123) Prerequisite: MATH 2443 or MATH 2934, MATH 3113 or MATH 3413, MATH 3333, or permission of instructor. Fourier series, classical Fourier transform, discrete Fourier transform, distributions and Fourier transforms. Sampling and Shannon's Theorem. No student may earn credit for both 4123 and 5123. (F)

MATH 4143 Mathematics of Data 3 Credit Hours
(Slashlisted with MATH 5143) Prerequisite: MATH 2934 or MATH 2443, and MATH 3333 or MATH 4373/5373, or equivalent. The mathematical theory underlying data and image processing algorithms including least squares approximation, singular value decomposition, principal component analysis, gradient descent, and machine-learning algorithms. Students learn to use Python both for coding algorithms and using packages that perform the algorithms. No student may earn credit for both 4143 and 5143. (Irreg.)

MATH G4163 Introduction to Partial Differential Equations 3 Credit Hours
Prerequisite: MATH 2443 or MATH 2934, MATH 3113 or MATH 3413. Physical models, classification of equations, Fourier series and boundary value problems, integral transforms, the method of characteristics. (F, Sp, Su)

MATH 4193 Introductory Mathematical Modeling 3 Credit Hours
Prerequisite: MATH 3113 or MATH 3413, MATH 3333, MATH 4733 or MATH 4753, or permission of instructor. Mathematics models are formulated for problems arising in various areas where mathematics is applied. Techniques are developed for analyzing the problem and testing validity of proposed model. (Sp)

MATH G4313 Introduction to Number Theory 3 Credit Hours
Prerequisite: 2513 and 3333 or permission of instructor. Topics include factorization and prime numbers, congruence, quadratic residues and reciprocity, continued fractions and approximations, Diophantine equations, arithmetic functions, and selected applications. (Irreg.)

MATH G4323 Introduction to Abstract Algebra I 3 Credit Hours
Prerequisite: MATH 3333 and MATH 2513, or permission of instructor. Concepts from set theory; the system of natural numbers, extension from the natural numbers to the integers; semigroups and groups; rings, integral domain and fields. (F, Sp)

MATH G4333 Introduction to Abstract Algebra II 3 Credit Hours
Prerequisite: 4323. Extensions of rings and fields, elementary factorization theory; groups with operators; modules and ideals; lattices. (Sp)

MATH 4373 Abstract Linear Algebra 3 Credit Hours
(Slashlisted with 5373) Prerequisite: 3333. Vector spaces over arbitrary fields, bases, dimension, linear transformations and matrices, similarity and its canonical forms (rational, Jordan), spectral theorem and diagonalization of quadratic forms. No student may earn credit for both 4373 or 5373. (F, Sp)

MATH 4383 Applied Modern Algebra 3 Credit Hours
(Slashlisted with 5383) Prerequisite: 3333. Topics from the theory of error correcting codes, including Shannon's theorem, finite fields, families of linear codes such as Hamming, Golay, BCH, and Reed-Solomon codes. Other topics such as Goppa codes, group codes, and cryptography as time permits. No student may earn credit for both 4383 and 5383. (Sp)

MATH G4433 Introduction to Analysis I 3 Credit Hours
Prerequisite: MATH 2433 or MATH 2924, and MATH 2513 or permission of instructor. Review of real number system. Sequences of real numbers. Topology of the real line. Continuity and differentiation of functions of a single variable. (F, Sp, Su)

MATH 4443 Introduction to Analysis II 3 Credit Hours
(Slashlisted with 5443) Prerequisite: 4433. Integration of functions of a single variable. Series of real numbers. Series of functions. Differentiation of functions of more than one variable. No student may earn credit for both 4443 and 5443. (Sp)

MATH 4513 Senior Mathematics Seminar 3 Credit Hours
Prerequisite: MATH 2443 or MATH 2934; MATH 2513; MATH 3113 or MATH 3413; MATH 3333; and senior standing. Capstone course which synthesizes ideas from different areas of mathematics with emphasis on current topics of interest. The course will involve student presentations, written projects and problem solving. (F, Sp) [V].

MATH G4643 Topics in Geometry and Combinatorics 3 Credit Hours
Prerequisite: 3333. May be repeated with permission of instructor; maximum credit six hours. Topics may include convexity (convex sets, combinatorial theorems in finite dimensional Euclidean space), graph theory, finite geometries, foundations of geometry. (F, Sp)

MATH 4653 Introduction To Differential Geometry I 3 Credit Hours
(Slashlisted with MATH 5653) Prerequisite: MATH 2443 or MATH 2934, and MATH 3333, or permission of instructor. Elementary theory of curves and surfaces in three-dimensional Euclidean space, differentiable manifolds, Riemannian geometry of two dimensions, Gauss Theorem Egregium. No student may earn credit for both 4653 and 5653. (F)

MATH 4673 Graph Theory I 3 Credit Hours
(Slashlisted with 5673) Prerequisite: 2513 or permission of instructor. An introduction to the theory of graphs. Topics include basic definitions, cutpoints, blocks, trees, connectivity and Menger's theorem. No student may earn credit for both 4673 and 5673. (F)

MATH G4733 Mathematical Theory of Probability 3 Credit Hours
Prerequisite: MATH 2443 or MATH 2934 or concurrent enrollment. Probability spaces, counting techniques, random variables, moments, special distributions, limit theorems. (F)

MATH 4743 Introduction to Mathematical Statistics 3 Credit Hours
(Slashlisted with 5743) Prerequisite: 4733. Mathematical development of basic concepts in statistics: estimation, hypothesis testing, sampling from normal and other populations, regression, goodness-of-fit. No student may earn credit for both 4743 and 5743. (Sp)

MATH G4753 Applied Statistical Methods 3 Credit Hours
Prerequisite: MATH 2123 or MATH 2423 or MATH 2924 or permission of instructor. Estimation, hypothesis testing, analysis of variance, regression and correlation, goodness-of-fit, other topics as time permits. Emphasis on applications of statistical methods. (F, Sp, Su)

MATH 4773 Applied Regression Analysis 3 Credit Hours
(Slashlisted with 5773) Prerequisite: 3333, 4733 or 4753 or any statistical probability course at an equivalent level. The general regression problem of fitting an equation involving a single dependent variable and several independent variables, estimation and tests of regression parameters, residual analysis, selecting the "best" regression equation. No student may earn credit for both 4773 and 5773. (Alt. F)

MATH 4793 Advanced Applied Statistics 3 Credit Hours
(Slashlisted with 5793) Prerequisite: 4743 or 4753 or equivalent. Survey of advanced applied statistical methods other than applied regression, including exploratory data analysis, analysis of multivariate data (principal components: analysis, multiple analysis of variance, cluster analysis, etc.), and introduction to non-parametric methods. No student may earn credit for both 4793 and 5793. (Alt. F)

MATH 4803 Topics in Mathematics 3 Credit Hours
Prerequisite: permission of instructor. May be repeated with change of content; maximum credit nine hours. Topics may include any area of mathematics; these will be substantial and fundamental subjects not offered in regular courses. (F, Sp, Su)

MATH G4853 Introduction to Topology 3 Credit Hours
Prerequisite: MATH 2433 or MATH 2924; and MATH 2513; or permission of instructor. Metric spaces and topological spaces, continuity, connectedness, compactness and related topics. (Sp)

MATH 4960 Directed Readings 1-4 Credit Hours
1 to 4 hours. Prerequisite: good standing in University; permission of instructor and dean. May be repeated; maximum credit four hours. Designed for upper-division students who need opportunity to study a specific problem in greater depth than formal course content permits. (Irreg.)

MATH 4970 Special Topics/Seminar 1-3 Credit Hours
1 to 3 hours. Prerequisite: Senior standing or permission of instructor. May be repeated; maximum credit nine hours. Special topics or seminar course for content not currently offered in regularly scheduled courses. May include library and/or laboratory research and field projects. (Irreg.)

MATH 4990 Independent Study 1-3 Credit Hours
1 to 3 hours. Prerequisite: three courses in general area to be studied, permission of instructor and department. May be repeated; maximum credit six hours. Contracted independent study for topic not currently offered in regularly scheduled courses. Independent study may include library and/or laboratory research and field projects. (Sp)

MATH 5093 Applied Numerical Methods 3 Credit Hours
(Slashlisted with MATH 4093) Prerequisite: graduate standing and MATH 2443 or MATH 2934, MATH 3113 or MATH 3413, MATH 3333 or MATH 4373, or permission of instructor. Numerical treatment of ordinary differential equations, numerical linear algebra and applications, basic numerical methods for partial differential equations. No student may earn credit for both MATH 4093 and MATH 5093. (Alt. Sp.)

MATH 5103 Mathematical Models 3 Credit Hours
Prerequisite: permission of instructor or admission to the M.S. program. May be repeated with change of content; maximum credit six hours. Mathematical models are formulated for problems arising in various areas in which mathematics has been applied. In each case, techniques are developed for analyzing the resulting mathematical problem, and this analysis is used to test the validity of the model. (Sp)

MATH 5123 Fourier Transforms 3 Credit Hours
(Slashlisted with MATH 4123) Prerequisite: graduate standing and MATH 2443 or 2934, MATH 3113 or MATH 3413, MATH 3333, or permission of the instructor. Fourier series, classical Fourier transform, discrete Fourier transform, distributions and Fourier transforms. Sampling and Shannon's Theorem. No student may earn credit for both 4123 and 5123. (F)

MATH 5143 Mathematics of Data 3 Credit Hours
(Slashlisted with MATH 4143) Prerequisite: Graduate standing; MATH 2934 or MATH 2443, MATH 3333 or MATH 4373/5373, or equivalent. The mathematical theory underlying data and image processing algorithms including least squares approximation, singular value decomposition, principal component analysis, gradient descent, and machine-learning algorithms. Students learn to use Python both for coding algorithms and using packages that perform the algorithms. No student may earn credit for both 4143 and 5143. (Irreg.)

MATH 5163 Partial Differential Equations 3 Credit Hours
Prerequisite: 4163 or permission of instructor. First order equations, Cauchy problem for higher order equations, second order equations with constant coefficients, linear hyperbolic equations. (Sp)

MATH 5173 Advanced Numerical Analysis I 3 Credit Hours
Prerequisite: 4433, 4443 or permission of instructor. Topics may include: error analysis of numerical methods for optimization and initial value problems, numerical approximation of aspects of control problems. (Alt. F)

MATH 5183 Advanced Numerical Analysis II 3 Credit Hours
Prerequisite: 4433, 4443 or permission of instructor. Topics may include: analysis of spline approximations as a basis of the finite element method, error analysis for finite element approximation of elliptic and parabolic boundary value problems. (Alt. Sp)

MATH 5253 Introduction to Mathematics Pedagogy Research 3 Credit Hours
Prerequisite: Graduate standing in mathematics or permission of the instructor. This course is intended for students who will be consumers of mathematics education research as well as those who will be producers of this research. The course offers an overview of the mathematics pedagogy research process and a detailed survey of selected aspects of this process. Particular topics including reviewing existing mathematics teaching research literature, designing research studies, gathering research data, analyzing research data, and reporting pedagogical research. (F)

MATH 5263 Issues and Problems in Mathematics Pedagogy 3 Credit Hours
Prerequisite: graduate standing in mathematics or permission of instructor. May be repeated with change of content; maximum credit 12 hours. Considers current issues and perennial problems in undergraduate mathematics teaching. Potential topics include, but are not limited to, use of technology in mathematics instruction, use of group work and other instructional strategies actively engaging students in Mathematics learning, the nature of mathematics learning, research-based practices in teaching undergraduate mathematics, issues of gender and diversity in undergraduate mathematics, the nature of the undergraduate mathematics curriculum. (Sp)

MATH 5303 Topics in Group Theory 3 Credit Hours
Prerequisite: 4323 or permission of instructor. May be repeated with change of content; Maximum credit 15 hours. Topics may include permutation groups, invariant subgroups, prime power groups, abelian groups, generators and relations, free groups, solvable and nilpotent groups, semi-direct products and extensions, automorphism groups, reflection groups, coxeter groups, crystallographic groups, matrix groups and representation group actions. (Irreg.)

MATH 5333 Topics in Number Theory 3 Credit Hours
Prerequisite: at least one mathematics course numbered above 3000, other than 4232. May be repeated with change of content; maximum credit nine hours. Topics may include congruencies, arithmetic functions, quadratic reciprocity, continued fractions, diophantine equations, primality testing, factorization methods, cryptography, quadratic forms and quadratic fields, computational number theory, additive number theory, coding theory, p-adic numbers. (Irreg.)

MATH 5353 Abstract Algebra I 3 Credit Hours
Prerequisite: 4323, permission of instructor. Groups, Sylow theorems, group actions, group presentations. Rings, ideals, polynomial rings, unique factorization. Fields, algebraic and transcendental extensions. (F)

MATH 5363 Abstract Algebra II 3 Credit Hours
Prerequisite: 5353. Galois theory, solvability. Modules over a principal ideal domain. Noetherian ideal theory. Group representations, semisimple rings. Classical groups. (Sp)

MATH 5373 Abstract Linear Algebra 3 Credit Hours
(Slashlisted with 4373) Prerequisite: 3333. Vector spaces over arbitrary fields, bases, dimension, linear transformations and matrices, similarity and its canonical forms (rational, Jordan), spectral theorem and diagonalization of quadratic forms. No student may earn credit for both 4373 and 5373. (F, Sp)

MATH 5383 Applied Modern Algebra 3 Credit Hours
(Slashlisted with MATH 4383) Prerequisite: MATH 3333. Topics from the theory of error correcting codes, including Shannon's theorem, finite fields, families of linear codes such as Hamming, Golay, BCH, and Reed-Solomon codes. Other topics such as Goppa codes, group codes, and cryptography as time permits. No student may earn credit for both 4383 and 5383. (Sp)

MATH 5403 Calculus of Variations 3 Credit Hours
Prerequisite: 4433 or 3423 or 4163. Linear spaces, global and local theories of optimization, necessary conditions for relative extrema of integrals. (Irreg.)

MATH 5423 Complex Analysis I 3 Credit Hours
Prerequisite: 4433. The complex numbers, topologies of the extended plane and related sphere, elementary functions, power series, properties of general holomorphic functions. The integral of a complex-valued function over an oriented rectifiable curve, the classical theorems on integrals, Taylor and Laurent expansions, analytic continuation, introduction to Riemann surfaces. (Alt. F)

MATH 5443 Introduction To Analysis II 3 Credit Hours
(Slashlisted with 4443) Prerequisite: 4433. Integration of functions of a single variable. Series of real numbers. Series of functions. Differentiation of functions of more than one variable. No student may earn credit for both 4443 and 5443. (Sp)

MATH 5453 Real Analysis I 3 Credit Hours
Prerequisite: 4433 or permission of instructor. Lebesgue measure and integration theory, absolutely continuous functions, metric spaces. (F)

MATH 5463 Real Analysis II 3 Credit Hours
Prerequisite: 5453. General measure and integration theory, Banach spaces, topics from related areas. (Sp)

MATH 5653 Introduction To Differential Geometry I 3 Credit Hours
(Slashlisted with MATH 4653) Prerequisite: graduate standing and MATH 2443 or MATH 2934, and MATH 3333, or permission of instructor. Elementary theory of curves and surfaces in three-dimensional Euclidean space, differentiable manifolds, Riemannian geometry of two dimensions, Gauss Theorem Egregium. No student may earn credit for both 4653 and 5653. (F)

MATH 5673 Graph Theory I 3 Credit Hours
(Slashlisted with 4673) Prerequisite: 2513 or permission of instructor. An introduction to the theory of graphs. Topics include basic definitions, cutpoints, blocks, trees, connectivity and Menger's theorem. No student may earn credit for both 4673 and 5673. (F)

MATH 5693 Topics in Geometry and Combinatorics I 3 Credit Hours
Prerequisite: permission of instructor. May be repeated with permission of instructor; maximum credit 12 hours. Topics may include convexity, combinatorial geometry, graph theory, or Riemannian geometry. (F, Sp, Su)

MATH 5743 Introduction to Mathematical Statistics 3 Credit Hours
(Slashlisted with 4743) Prerequisite: 4733. Mathematical development of basic concepts in statistics: estimation, hypothesis testing, sampling from normal and other populations; regression, goodness of fit. No student may earn credit for both 4743 and 5743. (Sp)

MATH 5763 Introduction to Stochastic Processes 3 Credit Hours
Prerequisite: 4733 or permission of instructor. Stochastic processes in discrete time including random walks, recurrent events, Markov chains and branching processes. Processes in continuous time including linear and nonlinear birth-death processes and diffusions. Applications taken from economics, engineering, operations research. (Irreg.)

MATH 5773 Applied Regression Analysis 3 Credit Hours
(Slashlisted with 4773) Prerequisite: 3333, 4733 or 4753 or any statistical probability course at an equivalent level. The general regression problem of fitting an equation involving a single dependent variable and several independent variables, estimation and tests of regression parameters, residual analysis, selecting the "best" regression equation. No student may earn credit for both 4773 and 5773. (Alt. F)

MATH 5793 Advanced Applied Statistics 3 Credit Hours
(Slashlisted with 4793) Prerequisite: 4743 or 4753 or equivalent. Survey of advanced applied statistical methods other than applied regression, including exploratory data analysis, analysis of multivariate data (principal components: analysis, multiple analysis of variance, cluster analysis, etc.), and introduction to non-parametric methods. No student may earn credit for both 4793 and 5793. (Alt. F)

MATH 5803 Topics in Mathematics 3 Credit Hours
Prerequisite: permission of instructor. May be repeated with change of content; maximum credit fifteen hours. Topics may include any area of mathematics; these will be substantial and fundamental subjects not offered in regular courses. (F, Sp, Su)

MATH 5853 Topology I 3 Credit Hours
Prerequisite: 2433 and 2513. Set theory, separation axioms, connectedness, compactness, continuity, metric spaces, nets and sequences. (F)

MATH 5863 Topology II 3 Credit Hours
Prerequisite: 5853. Metrization, product and quotient spaces, function spaces, dimension theory, Hilbert spaces, homotopy, simplicial complexes, continua. (Sp)

MATH 5900 Graduate Mathematics Readings 1-3 Credit Hours
1 to 3 hours. Prerequisite: six-hour mathematics sequence at the 5000+ level. May be repeated with change of content; maximum credit fifteen hours. Special background readings in advanced mathematical topics as preparation for later dissertation work. (F, Sp, Su)

MATH 5920 Seminar--Algebra and Theory of Numbers 1-2 Credit Hours
1 to 2 hours. Prerequisite: permission of instructor. May be repeated with change of content; maximum credit 12 hours. (F, Sp)

MATH 5930 Seminar--Geometry and Topology 1-2 Credit Hours
1 to 2 hours. Prerequisite: permission of instructor. May be repeated with change of content; maximum credit 12 hours. (F, Sp)

MATH 5950 Seminar-Undergraduate Mathematics Curriculum & Pedagogy 1-2 Credit Hours
1 to 2 hours. May be repeated with change of content; maximum credit 12 hours. This seminar will explore the current research literature on undergraduate mathematics curriculum and pedagogy. (F, Sp)

MATH 5960 Directed Readings 1-3 Credit Hours
1 to 3 hours. Prerequisite: graduate standing and permission of department. May be repeated; maximum credit twelve hours. Directed readings and/or literature reviews under the direction of a faculty member. (F, Sp, Su)

MATH 5970 Special Topics/Seminar 1-3 Credit Hours
1 to 3 hours. Prerequisite: Graduate standing or permission of instructor. May be repeated; maximum credit nine hours. Special topics or seminar course for content not currently offered in regularly scheduled courses. May include library and/or laboratory research and field projects. (Irreg.)

MATH 5980 Research for Master's Thesis 2-9 Credit Hours
Variable enrollment, two to nine hours; maximum credit applicable toward degree, four hours. (F, Sp)

MATH 5990 Special Problems in Mathematics 1-2 Credit Hours
1 to 2 hours. An option for all candidates for the master's degree who do not present theses. (F, Sp, Su)

MATH 6303 Literacy in Algebra 3 Credit Hours
Prerequisite: Graduate standing and MATH 5363; May be repeated with change of content; maximum credit 15 hours. This course will cover three independent advanced topics in the general area of Algebra. Some past topics have included: plane curves and singularities; introduction to buildings; invariant theory; representation stability; Morita theorems and Tannaka duality; computational commutative algebra; quiver representations; friezes; p-adic and motivic integration; introduction to algebraic analysis. (Irreg.)

MATH 6333 Lie Theory I 3 Credit Hours
Prerequisites: 5363 and 5863 or permission of the instructor. Basic properties of Lie algebras, nilpotent and solvable Lie algebras, semi-simple Lie algebras, root systems and classification theorems. (Irreg.)

MATH 6343 Lie Theory II 3 Credit Hours
Prerequisite: 6333 or permission of the instructor. Representation theory of semi-simple Lie algebras, Lie groups, connections between Lie groups and Lie algebras, structure theory and representation theory of compact Lie groups. (Irreg.)

MATH 6373 Commutative Algebra 3 Credit Hours
Prerequisite: 4323, 4333, 5333 or permission of instructor. Commutative rings and their modelus, ideals, prime ideals, Noetherian modules and rings, localization, principal and factorial rings, discrete valuation domains, Dedekind domains, integral ring extensions, dimension theory, tensor products, flat modules, the homofunctor, injective and projective modules, regular rings, Cohen-Macauley rings. (Irreg.)

MATH 6383 Algebraic Geometry 3 Credit Hours
Prerequisite: 6373. Hilbert's Nullstellensatz, the correspondence between ideals and algebraic sets, Zariski topology, irreducible algebraic sets, ringed spaces, morphisms, affine varieties, algebraic varieties, regular maps, sub-varieties and products, bi-rational equivalence, local rings and tangent spaces, differentials, non-singular points. (Irreg.)

MATH 6393 Topics in Algebra 3 Credit Hours
Prerequisite: 5353 or permission of instructor. May be repeated with change of content; maximum credit 15 hours. Topics of modern research interest in algebra. (Irreg.)

MATH 6403 Literacy in Analysis 3 Credit Hours
Prerequisite: Graduate standing and MATH 5463; May be repeated with change of content; maximum credit 15 hours. This course will cover three independent advanced topics in the general area of Analysis. Some past topics have included: Sobolev spaces; C*-algebras; analysis of partial differential operators; distributions; holomorphic functional calculus; interpolation spaces; symbolic dynamics; Hardy spaces; perturbation theory and fixed point theorems; regularity theory for elliptic PDE. (Irreg.)

MATH 6473 Functional Analysis I 3 Credit Hours
Prerequisite: 5463 or permission of instructor. Vector spaces with topology or norm, dual space, theorems on linear operators, spectral theory in Hilbert space, spectral decomposition of operators, convex sets and weak topologies, fixed point theorems. (Alt. F)

MATH 6483 Functional Analysis II 3 Credit Hours
Prerequisite: 6473. Banach algebras and harmonic analysis, representations of symmetric rings, unitary representations of a group, rings of operators in Hilbert space, decomposition of ring operators. Introduction to the theory of distributions. (Alt. Sp)

MATH 6493 Topics in Analysis 3 Credit Hours
Prerequisite: 5453 or permission of instructor. May be repeated with change of course content; maximum credit 15 hours. Topics of modern research interest in analysis. (F, Sp)

MATH 6673 Differential Geometry I 3 Credit Hours
Prerequisite: 5853 or permission of instructor. Multilinear algebra, differential manifolds, exterior differential forms, affine connections, Riemannian manifolds. (F)

MATH 6683 Differential Geometry II 3 Credit Hours
Prerequisite: 6673. Riemannian manifolds, theory of connections, bundles with classical groups as structure groups, curvature and Betti numbers, complex manifolds. (Sp)

MATH 6803 Literacy in Topology 3 Credit Hours
Prerequisite: Graduate standing and MATH 5863; May be repeated with change of content; maximum credit 15 hours. This course will cover three independent advanced topics in the general area of Topology. Some past topics have included: Mostow rigidity; group cohomology; curvature and topology; Morse theory; ergodicity of geodesic flow; Bass-Serre theory; deRham cohomology; introduction to mapping class groups; K-theory; geometry of metric spaces; the homeomorphism group of the circle; topology of 3-manifolds. (Irreg.)

MATH 6813 Algebraic Topology I 3 Credit Hours
Prerequisite: 5863. Introduction to homology theory of spaces, fundamental group and covering spaces, higher homotopy groups, CW-complexes and cellular homology, Whitehead and Hurewicz theorems, Eilenberg-Steenrod axioms. (F)

MATH 6823 Algebraic Topology II 3 Credit Hours
Prerequisite: 6813. Topics in cohomology and homology theory, universal coefficient theorems, orientation and duality on manifolds. Further topics may include: obstruction theory, cohomology operations, fibre bundles and characteristic classes, theory of sheaves, Eilenberg-MacLane spaces and Postnikov systems, spectral sequences. (Sp)

MATH 6833 Topics in Topology I 3 Credit Hours
Prerequisite: 5863. May be repeated with permission of instructor; maximum credit 15 hours. Topics may include algebraic topology, combinatorial topology, linear topological spaces, dimension theory, metrization, continua, decomposition spaces, topology of flat spaces. (F, Sp)

MATH 6910 Seminar--Analysis 1-2 Credit Hours
1 to 2 hours. Prerequisite: permission of the instructor. May be repeated with change of content; maximum credit 15 hours. Seminar on analysis and applied mathematics topics. (F, Sp)

MATH 6960 Directed Readings 1-3 Credit Hours
1 to 3 hours. Prerequisite: graduate standing or permission of instructor. May be repeated; maximum credit six hours. Directed readings and/or literature review under the direction of a faculty member. (Irreg.)

MATH 6970 Special Topics/Seminar 1-3 Credit Hours
1 to 3 hours. Prerequisite: graduate standing or permission of instructor. May be repeated; maximum credit 12 hours. Special topics or seminar course for content not currently offered in regularly scheduled courses. May include library and/or research and field projects. (Irreg.)

MATH 6980 Research for Doctoral Dissertation 2-16 Credit Hours
2 to 16 hours. Prerequisite: Graduate standing and permission of instructor; may be repeated. Directed research culminating in the completion of the doctoral dissertation. (F, Sp, Su)

MATH 6990 Independent Study 1-3 Credit Hours
1 to 3 hours. Prerequisite: Graduate standing and permission of instructor. May be repeated; maximum credit nine hours. Contracted independent study for a topic not currently offered in regularly scheduled courses. Independent study may include library and/or laboratory research and field projects. (Irreg.)

Faculty

Last Name	First/Middle Name	Middle init.	OU Service start	Title(s), date(s) appointed	Degrees Earned, Schools, Dates Completed
Akin	Kaan		1984	ASSOCIATE PROFESSOR OF MATHEMATICS, 1988	PhD, Brandeis Univ, 1980; MA, Brandeis Univ, 1977; BA, Univ of Pennsylvania, 1975
Albert	John	P	1984	PROFESSOR OF MATHEMATICS, 2000	PhD, Univ of Chicago, 1989; MS, Univ of Chicago, 1984; BS, Univ of Santa Clara, 1978
Apanasov	Boris	N	1991	PROFESSOR OF MATHEMATICS, 1994	PhD, Acad of Pedagogical Science, 1976; MS, Novosibirsk State Univ, 1973; BA, Novosibirsk State Univ, 1971
Brady	Noel		1998	PRESIDENT'S ASSOCIATES PRESIDENTIAL PROFESSOR, 2004; PROFESSOR OF MATHEMATICS, 2006	PhD, Univ of California-Berkeley, 1993; BA, Univ of Dublin-Trinity College, 1988
Chavez-Dominguez	Javier	A	2015	ASSISTANT PROFESSOR OF MATHEMATICS, 2015	PhD, Texas A&M Univ, 2012; MS, Univ Nacl Autonoma De Mexico, 2006; BS, Universidad de Guanajuato, 2006
Docampo Alvarez	Roi		2016	ASSISTANT PROFESSOR OF MATHEMATICS, 2016	PhD, Univ of Illinois, 2009; MS, Universidade de Santiago de Compostela, 2003; Licenciatura, Universidade de Santiago de Compostela, 2001
Forester	Max	B	2003	PROFESSOR OF MATHEMATICS, 2014	PhD, Univ of Michigan, 1999; MS, Univ of Michigan, 1996; AB, Cornell Univ, 1992
Grigo	Alexander		2012	ASSISTANT PROFESSOR OF MATHEMATICS, 2012	PhD, Georgia Institute of Tech, 2009
Jablonski	Michael	R	2008	ASSOCIATE PROFESSOR OF MATHEMATICS, 2016	PhD, Univ of North Carolina, 2008; BS, Univ of Tennessee, 2002
Kornelson	Keri	A	2008	PROFESSOR OF MATHEMATICS, 2016	PhD, Univ of Colorado, 2001; MA, Univ of Colorado, 1997; BA, Univ of Maryland, 1995; BA, Univ of Colorado, 1989
Kramar	Miroslav		2019	ASSISTANT PROFESSOR OF MATHEMATICS	PhD, Vrije Universiteit Amsterdam, The Netherlands, 2009
Kujawa	Jonathan		2007	PROFESSOR OF MATHEMATICS, 2017	PhD, Univ of Oregon, 2003; MS, Univ of Oregon, 1999; BA, Gustavus Adolphus Coll, 1997

Lifschitz	Lucy		2001	ASSOCIATE PROFESSOR OF MATHEMATICS, 2005	PhD, Yale Univ, 1998; MS, Yale Univ, 1993; BS, Univ of California Los Angeles, 1991
Malestein	Justin		2015	ASSISTANT PROFESSOR OF MATHEMATICS, 2015	PhD, Univ of Chicago, 2009; BS, Univ of Michigan, 2004
Martin	Kimball	L	2007	PROFESSOR OF MATHEMATICS, 2016	PhD, California Inst of Tech, 2004; MS, Univ of Maryland, 1999; BS, Univ of Maryland, 1999
Mendes	Ricardo	A.E.		ASSISTANT PROFESSOR OF MATHEMATICS	PhD, Univ of Pennsylvania, 2011
Miller	Andrew	G	1981	DAVID ROSS BOYD PROFESSOR OF MATHEMATICS, 2012	PhD, Univ of Connecticut, 1981; MS, Univ of Connecticut, 1976; BS, Alfred, 1974
Moore-Russo	Deborah		2017	PROFESSOR OF MATHEMATICS, 2017	PhD, Univ of Oklahoma, 1995
Muller	Gregory		2017	ASSISTANT PROFESSOR OF MATHEMATICS, 2017	PhD, Cornell Univ, 2010; BA, Rutgers Univ, 2004
Ozaydin	Murad		1988	PROFESSOR OF MATHEMATICS, 2001	PhD, Purdue Univ, 1984; BS, Middle East Tech Univ Ankara, 1976
Petrov	Nikola	P	2005	NANCY SCOFIELD HESTER PRESIDENTIAL PROFESSOR, 2014; PROFESSOR OF MATHEMATICS, 2014; ADJUNCT PROFESSOR OF ELECTRICAL AND COMPUTER ENGINEERING, 2014	PhD, Univ of Texas, 2002; MA, Univ of Texas, 2002; BS, Univ of Sofia, 1990
Pitale	Ameya		2010	ASSOCIATE PROFESSOR OF MATHEMATICS, 2014	PhD, Ohio State Univ, 2006; MS, Indian Inst of Tech, 2000
Przebinda	Tomasz		1990	PROFESSOR OF MATHEMATICS, 1999	PhD, Yale Univ, 2987; MS, Wroclaw Tech, 1980
Remling	Christian		2005	PROFESSOR OF MATHEMATICS, 2012	PhD, Universitat Osnabruck, 1996; MA, Universitat Frankfurt, 1992
Roche	Alan	J	2001	ASSOCIATE PROFESSOR OF MATHEMATICS, 2005	PhD, Univ of Chicago, 1996; MSc, Univ College of Dublin, 1998; BSc, Univ College of Dublin, 1987
Savic	Milos		2013	ASSOCIATE PROFESSOR OF MATHEMATICS, 2018	PhD, New Mexico State Univ, 2012; BS, Ball State, 2004
Schmidt	Ralf		2004	NANCY SCOFIELD HESTER PRESIDENTIAL PROFESSOR, 2010; PROFESSOR OF MATHEMATICS, 2012	PhD, Universität Hamburg, 1998; Universität Münster, 1994
Shankar	Krishnan		2002	PROFESSOR OF MATHEMATICS, 2011; NANCY SCOFIELD HESTER PRESIDENTIAL PROFESSOR, 2018	PhD, Univ of Maryland, 1999; BA, Reed College, 1993
Stewart	Sepideh		2012	ASSOCIATE PROFESSOR OF MATHEMATICS, 2018	PhD, Univ of Auckland, 2008; MS, Univ of Auckland, 2000; BS, Univ of Auckland, 1998
Tao	Jing		2012	ASSOCIATE PROFESSOR OF MATHEMATICS, 2018	PhD, Univ of Illinois, 2009; BS, Univ of Illinois, 2001
Wang	Ying		2013	ASSISTANT PROFESSOR OF MATHEMATICS, 2013	PhD, Ohio State Univ, 2010; MS, Georgia Inst of Tech, 2005; BS, National Univ of Singapore, 2001
Wei	Shihshu	W	1985	PROFESSOR OF MATHEMATICS, 1997	PhD, Univ of California Berkeley; MS, Washington, 1974; BS, Tamking, 1972
Wu	Yilun		2018	ASSISTANT PROFESSOR OF MATHEMATICS, 2018	PhD, Univ of Michigan, 2014; BS, Fudan Univ, 2008
Zhang	Pengfei		2017	ASSISTANT PROFESSOR OF MATHEMATICS, 2017	PhD, Univ of Science & Tech, 2011; BS, Univ of Science & Tech; 2006
Zhu	Meijun		1999	PROFESSOR OF MATHEMATICS, 2008	PhD, Rutgers, 1996; MS, Univ of Science and Tech, 1992; BS, Peking Univ, 1988

Mathematics (Standard Option), B.A.

Minimum Total Credit Hours: 120
Major Hours: 36
Minimum Upper-Division Hours: 48

Overall GPA - Combined and OU: 2.00
Major GPA - Combined and OU: 2.00

Program Code: B670

Major Requirements

- **Some courses required for the major may also fulfill University General Education and/or Dodge College of Arts & Sciences Requirements**
- **Students must earn a grade of C or better in all MATH courses at the 3000-level or higher.**

Code	Title	Credit Hours
Choose one of the following sequences:		12
Sequence A:		
MATH 1823	Calculus and Analytic Geometry I	
MATH 2423	Calculus and Analytic Geometry II	
MATH 2433	Calculus and Analytic Geometry III	
MATH 2443	Calculus and Analytic Geometry IV	
Sequence B:		

MATH 1914	Differential and Integral Calculus I	
MATH 2924	Differential and Integral Calculus II	
MATH 2934	Differential and Integral Calculus III	
MATH 2513	Discrete Mathematical Structures	3
MATH 3333	Linear Algebra I	3
MATH 3113	Introduction to Ordinary Differential Equations [1]	3
or MATH 3413	Physical Mathematics I	
Choose four additional math courses at the 3000-level or higher, including nine hours at the 4000-level or higher [2]		12
MATH 4513	Senior Mathematics Seminar	3
Total Credit Hours		**36**

1 MATH 3113 and MATH 3413 overlap by 2 hours. Students who take both will earn only 4 hours of credit.

2 No more than 6 hours may be from MATH 4733, MATH 4743, MATH 4753, MATH 4773, and MATH 4793.

General Education and College Requirements

Courses for fulfillment of General Education and Dodge College of Arts & Sciences requirements must be from the approved General Education course list published in the Class Schedule or at http://www.ou.edu/gened/courses. **Courses graded P/NP will not apply.**

MINIMUM OF 40 HOURS REQUIRED FOR UNIVERSITY-WIDE GENERAL EDUCATION

Code	Title	Credit Hours
Core Area I: Symbolic and Oral Communication		
English Composition (6 hours)		
ENGL 1113	Principles of English Composition	3
ENGL 1213	Principles of English Composition	3
or EXPO 1213	Expository Writing	
Language (0-13 hours in the same language)		
The college requirement cannot be met by high school coursework.		
Beginning Course		0-5
Beginning Course, continued		0-5
Intermediate Course (2000 level) [1,2]		0-3
Mathematics (3 hours)		
Choose one course from the General Education Mathematics list		3
Core Area II: Natural Science (7 hours, including one laboratory component)		
Biological Science		
Choose an approved General Education Natural Science course with one of the following prefixes: BIOL, HES, MBIO, or PBIO [1]		3-4
Physical Science		
Choose an approved General Education Natural Science course with one of the following prefixes: AGSC, ASTR, CHEM, GEOG, GEOL, GPHY, METR, or PHYS [1]		3-4
Core Area III: Social Science (6 hours)		
P SC 1113	American Federal Government	3
Choose one course from the General Education Social Science list		3
Core Area IV: Arts and Humanities (18 hours)		
Artistic Forms		
Choose one course from the General Education Artistic Forms list		3
Western Culture		
HIST 1483	United States to 1865	3
or HIST 1493	United States, 1865 to the Present	
Choose one course from the General Education Western Culture list (excluding HIST 1483/1493)		3
World Culture		
Choose one course from the General Education World Culture list		3
Additional Core IV Upper-Division Arts & Humanities courses		
Choose one course from Artistic Forms, Western Culture, or World Culture [1,3]		3
Choose one course from Artistic Forms, Western Culture, or World Culture [1,3]		3
Core Area V: First Year Experience (3 hours)		
Choose one course		3
Total Credit Hours		**56**

1 College of Arts and Sciences Requirements: college requirements are not automatically fulfilled by a previous degree.

2 One course at the intermediate level or demonstrated competency at that level

3 6 upper-division hours, 2 courses, at the 3000- 4000-level. ***Must be outside the major.***

Free Electives

Electives to bring total applicable hours to the minimum total required for the degree including 48 upper-division hours.

Information Concerning General Rules, Regulations and Minimum Requirements

Arts and Sciences Hours: At least 80 semester hours of liberal arts and sciences courses are required for a BA degree. At least 55 semester hours of liberal arts and sciences courses are required for a BS degree.
Pass/No Pass Enrollment: A maximum of 16 semester hours of free elective credit may be attempted under this option.
Individual Studies (e.g., courses titled "Independent Study"): A maximum of 12 total semester hours may be counted toward graduation, excluding Honors Reading and Honors Research.
P.E. Courses: No physical education activity courses will be counted toward the 120 semester hours of acceptable credit for graduation.
Senior Institution Hours: A minimum of 60 semester hours applied toward graduation must be earned at senior (4-year) institutions.
Residency:

- At least 15 of the final 30 hours applied toward the degree or at least 50 percent of the hours required by the institution in the major field must be satisfactorily completed at the awarding institution.
- At least 15 semester hours of upper-division major work must be completed in residence at OU.
- OU correspondence courses are ***not*** considered resident credit.

Grade Point Averages: Students must earn a minimum over all 2.00 for each of the following: Combined Retention GPA (all college grades), OU Retention GPA, GPA for all major courses, and GPA for all major courses taken at OU. Some schools and departments of the College have higher minimum grade point averages required for their students.

Suggested Semester Plan of Study

This plan shows one possible grouping of courses that would allow students to graduate in four years. Please refer to the front of the degree checksheet for official requirements. Students must consult with Dodge College of Arts and Sciences and/or Department of Mathematics academic advisors to verify that courses selected each semester fulfill the recommended plan and satisfy University, College of Arts and Sciences, and Mathematics major requirements.

Freshman		
First Semester		**Credit Hours**
ENGL 1113	Principles of English Composition (Core I)	3
MATH 1823	Calculus and Analytic Geometry I (Core I)	3
P SC 1113	American Federal Government (Core III)	3
First Year Experience (Core V)		3

Free Elective, upper-division (3000-4000-level)		3
	Credit Hours	**15**
	Total Credit Hours	**120**

[1] MATH electives are subject to the restrictions listed in the Program Requirements.

Mathematics (Professional Option), B.S.

Minimum Total Credit Hours: 120
Major Hours: 39
Minimum Upper-Division Hours: 48

Overall GPA - Combined and OU: 2.00
Major GPA - Combined and OU: 2.00

Program Code: B671

Major Requirements

- **Some courses required for the major may also fulfill University General Education and/or Dodge College of Arts & Sciences Requirements.**
- **Students must earn a grade of C or better in all MATH courses at the 3000-level or higher.**

Code	Title	Credit Hours
Choose one of the following calculus sequences:		12
Sequence A:		
MATH 1823	Calculus and Analytic Geometry I	
MATH 2423	Calculus and Analytic Geometry II	
MATH 2433	Calculus and Analytic Geometry III	
MATH 2443	Calculus and Analytic Geometry IV	

Sequence B:		
MATH 1914	Differential and Integral Calculus I	
MATH 2924	Differential and Integral Calculus II	
MATH 2934	Differential and Integral Calculus III	
MATH 2513	Discrete Mathematical Structures	3
MATH 3333	Linear Algebra I	3
MATH 4323	Introduction to Abstract Algebra I	3
MATH 4373	Abstract Linear Algebra	3
MATH 4433	Introduction to Analysis I	3
MATH 4853	Introduction to Topology	3
MATH 3113	Introduction to Ordinary Differential Equations [1]	3
or MATH 3413	Physical Mathematics I	
MATH 4333	Introduction to Abstract Algebra II	3
or MATH 4443	Introduction to Analysis II	
MATH 4513	Senior Mathematics Seminar	3
Total Credit Hours		**39**

[1] MATH 3113 and MATH 3413 overlap by 2 hours. Students who take both will earn only 4 hours of credit.

General Education and College Requirements

Courses for fulfillment of General Education and Dodge College of Arts & Sciences requirements must be from the approved General Education course list published in the Class Schedule or at http://www.ou.edu/gened/courses. **Courses graded P/NP will not apply.**

MINIMUM OF 40 HOURS REQUIRED FOR UNIVERSITY-WIDE GENERAL EDUCATION

Code	Title	Credit Hours
Core Area I: Symbolic and Oral Communication		
English Composition (6 hours)		
ENGL 1113	Principles of English Composition	3
ENGL 1213	Principles of English Composition	3
or EXPO 1213	Expository Writing	
Language (0-13 hours in the same language)		
The college requirement cannot be met by high school coursework.

or HIST 1493	United States, 1865 to the Present	
Choose one course from the General Education Western Culture list (excluding HIST 1483/1493)		3
World Culture		
Choose one course from the General Education World Culture list		3
Additional Core IV Upper-Division Arts & Humanities courses		
Choose one course from Artistic Forms, Western Culture, or World Culture [1,3]		3
Choose one course from Artistic Forms, Western Culture, or World Culture [1,3]		3
Core Area V: First Year Experience (3 hours)		
Choose one course		3
Total Credit Hours		**56**

[1] College of Arts and Sciences Requirements: college requirements are not automatically fulfilled by a previous degree.

[2] One course at the intermediate level or demonstrated competency at that level

[3] 6 upper-division hours, 2 courses, at the 3000- 4000-level. ***Must be outside the major.***

Free Electives

Electives to bring total applicable hours to the minimum total required for the degree including 48 upper-division hours.

Information Concerning General Rules, Regulations and Minimum Requirements

Arts and Sciences Hours: At least 80 semester hours of liberal arts and sciences courses are required for a BA degree. At least 55 semester hours of liberal arts and sciences courses are required for a BS degree.
Pass/No Pass Enrollment: A maximum of 16 semester hours of free elective credit may be attempted under this option.
Individual Studies (e.g., courses titled "Independent Study"): A maximum of 12 total semester hours may be counted toward graduation, excluding Honors Reading and Honors Research.
P.E. Courses: No physical education activity courses will be counted toward the 120 semester hours of acceptable credit for graduation.
Senior Institution Hours: A minimum of 60 semester hours applied toward graduation must be earned at senior (4-year) institutions.
Residency:

- At least 15 of the final 30 hours applied toward the degree or at least 50 percent of the hours required by the institution in the major field must be satisfactorily completed at the awarding institution.
- At least 15 semester hours of upper-division major work must be completed in residence at OU.
- OU correspondence courses are ***not*** considered resident credit.

Grade Point Averages: Students must earn a minimum over all 2.00 for each of the following: Combined Retention GPA (all college grades), OU Retention GPA, GPA for all major courses, and GPA for all major courses taken at OU. Some schools and departments of the College have higher minimum grade point averages required for their students.

Suggested Semester Plan of Study

This plan shows one possible grouping of courses that would allow students to graduate in four years. Please refer to the front of the degree checksheet for official requirements. Students must consult with Dodge College of Arts and Sciences and/or Department of Mathematics academic advisors to verify that courses selected each semester fulfill the recommended plan and satisfy University, College of Arts and Sciences, and Mathematics major requirements.

Mathematics, Minor

Minimum Total Credit Hours: 15
Minimum Upper-Division Hours: 9

Program Code: N670

- **The requirements for a minor must be completed concurrently with the major degree requirements.**
- **No minor may be added by completing courses after receiving the bachelor's degree.**

At least six (6) credit hours must be earned in courses acceptable for residence credit by standards set forth by the Dodge College of Arts and Sciences, excluding transfer, correspondence, and examination (AP, CLEP, Advanced Standing) credit. Courses for the minor may not be taken Pass/No Pass.

No single course may be used by a student to satisfy a major requirement and a minor requirement. A course may be used, however, to satisfy both a major support requirement and a minor requirement.

Requests to substitute a minor requirement must be approved in writing by the Department of Mathematics.

Required Courses

Students must successfully complete at least 15 hours of courses acceptable for major credit in Mathematics, including MATH 2443 or MATH 2934 and nine (9) hours of upper-division level Math, six (6) of which must be at the 4000-level or higher. Three (3) hours of either MATH 3960 or MATH 3970 (not both) may be substituted for three (3) hours at the 4000-level or higher.

A grade of C or better must be earned in each upper division course counted for minor credit.

Code	Title	Credit Hours
Choose one math course acceptable for major credit		3
MATH 2443	Calculus and Analytic Geometry IV	3
or MATH 2934	Differential and Integral Calculus III	
Select 9 hours of upper-division Math courses, including at least 6 hours in courses at the 4000-level or higher		9
Total Credit Hours		**15**

- Minors in the Dodge College of Arts & Sciences are available to all undergraduate students at OU. If the minor is officially declared, successfully completed, and noted on the graduation application, the student's transcript will so indicate at the time the bachelor's degree is posted.

Mathematics, B.A./M.B.A.

Minimum Total Credit Hours: 156
Major Hours: 36
Minimum Upper-Division Hours: 48

Overall GPA - Combined and OU: 3.00
Major GPA - Combined and OU: 3.00

Program Code: A669/F140 Q439

Undergraduate Major Requirements

- **Some courses required for the major may also fulfill University General Education and/or Dodge College of Arts & Sciences Requirements**
- **Students must earn a grade of C or better in all MATH courses at the 3000-level or higher.**

Code	Title	Credit Hours

ENT 5102	Entrepreneurship & Innovation	
Electives (20 hours)		
Choose 14 hours of M.B.A. elective coursework. (p. 581)		14
Choose 6 hours of graduate level Math electives, approved by the Graduate Liaison (BA/MBA shared hours) (p. 581)		6
Total Credit Hours		**48**

[1] A student who actively and satisfactorily participates in all Prelude activities will receive a grade of 'S.' A student who does not satisfactorily participate in 75% of Prelude Week will be required to participate in a make-up session within the first two weeks of the semester. Failure to complete a make-up session will result in a grade

of 'U,' resulting in cancellation of the student's enrollment in the MBA program.

[2] Must make a grade of 'B' or better in B AD 5902 or it must be repeated. This is the capstone course and serves in lieu of the comprehensive examination. This requirement is non-waiveable.

[3] Shared Courses: Up to 12 hours of graduate level courses from a list maintained by the department and approved by the graduate liaison can be shared between BA and MBA programs. (p. 581)

General Education and College Requirements

Courses for fulfillment of General Education and Dodge College of Arts & Sciences requirements must be from the approved General Education course list published in the Class Schedule or at http://www.ou.edu/gened/courses. **Courses graded P/NP will not apply.**

Mathematics, B.A./Finance, M.S.

Minimum Total Credit Hours: 140
Major Hours: 36
Minimum Upper-Division Hours: 48

Overall GPA - Combined and OU: 3.00
Major GPA - Combined and OU: 3.00

Program Code: A670/F435 Q439

Undergraduate Major Requirements

- **Some courses required for the major may also fulfill University General Education and/or Dodge College of Arts & Sciences Requirements**
- **Students must earn a grade of C or better in all MATH courses at the 3000-level or higher.**

Code	Title	Credit Hours
Choose one of the following sequences:		12
Sequence A:		
MATH 1823	Calculus and Analytic Geometry I	
MATH 2423	Calculus and Analytic Geometry II	
MATH 2433	Calculus and Analytic Geometry III	
MATH 2443	Calculus and Analytic Geometry IV	
Sequence B:		
MATH 1914	Differential and Integral Calculus I	
MATH 2924	Differential and Integral Calculus II	
MATH 2934	Differential and Integral Calculus III	
MATH 2513	Discrete Mathematical Structures	3
MATH 3333	Linear Algebra I	3
MATH 3113	Introduction to Ordinary Differential Equations [1]	3
or MATH 3413	Physical Mathematics I	
Choose four additional math courses at the 3000-level or higher, including nine hours at the 4000-level or higher [2]		12
Graduate Level Math course		3
Total Credit Hours		**36**

[1] MATH 3113 and MATH 3413 overlap by 2 hours. Students who take both will earn only 4 hours of credit.

[2] No more than 6 hours may be from MATH 4733, MATH 4743, MATH 4753, MATH 4773, and MATH 4793.

M.S. in Finance Component

Code	Title	Credit Hours
Core Courses		**2**
Choose one of the following:		
FIN 5322	Financial Derivatives	
FIN 5392	Financial Intermediation and Banking	
Graduate Electives		
30 Graduate level elective hours from a list maintained by the Division of Finance and approved by the Graduate College. Up to 12 hours of graduate level electives can be shared between the Math and MS Finance Programs. (p. 584) [1]		30
Total Credit Hours		**32**

[1] Shared Courses: Up to 12 hours of graduate level courses from a list maintained by the department and approved by the graduate liaison can be shared between BS and MS- FIN programs. (p. 584)

General Education and College Requirements

Courses for fulfillment of General Education and Dodge College of Arts & Sciences requirements must be from the approved General Education course list published in the Class Schedule or at http://www.ou.edu/gened/courses. **Courses graded P/NP will not apply.**

MINIMUM OF 40 HOURS REQUIRED FOR UNIVERSITY-WIDE GENERAL EDUCATION

Code	Title	Credit Hours
Core Area I: Symbolic and Oral Communication		
English Composition (6 hours)		
ENGL 1113	Principles of English Composition	3
ENGL 1213	Principles of English Composition	3
or EXPO 1213	Expository Writing

Choose one course from the General Education World Culture list		3
Additional Core IV Upper-Division Arts & Humanities courses		
Choose one course from Artistic Forms, Western Culture, or World Culture [1,3]		3
Choose one course from Artistic Forms, Western Culture, or World Culture [1,3]		3
Core Area V: First Year Experience (3 hours)		
Choose one course		3
Total Credit Hours		**56**

[1] College of Arts and Sciences Requirements: college requirements are not automatically fulfilled by a previous degree.

[2] One course at the intermediate level or demonstrated competency at that level

[3] 6 upper-division hours, 2 courses, at the 3000- 4000-level. ***Must be outside the major.***

Free Electives

Electives to bring total applicable hours to the minimum total required for the degree including 48 upper-division hours.

Information Concerning General Rules, Regulations and Minimum Requirements

Arts and Sciences Hours: At least 80 semester hours of liberal arts and sciences courses are required for a BA degree. At least 55 semester hours of liberal arts and sciences courses are required for a BS degree.
Pass/No Pass Enrollment: A maximum of 16 semester hours of free elective credit may be attempted under this option.
Individual Studies (e.g., courses titled "Independent Study"): A maximum of 12 total semester hours may be counted toward graduation, excluding Honors Reading and Honors Research.
P.E. Courses: No physical education activity courses will be counted toward the 120 semester hours of acceptable credit for graduation.
Senior Institution Hours: A minimum of 60 semester hours applied toward graduation must be earned at senior (4-year) institutions.
Residency:

- At least 15 of the final 30 hours applied toward the degree or at least 50 percent of the hours required by the institution in the major field must be satisfactorily completed at the awarding institution.
- At least 15 semester hours of upper-division major work must be completed in residence at OU.
- OU correspondence courses are ***not*** considered resident credit.

Grade Point Averages: Students must earn a minimum over all 2.00 for each of the following: Combined Retention GPA (all college grades), OU Retention GPA, GPA for all major courses, and GPA for all major courses taken at OU. Some schools and departments of the College have higher minimum grade point averages required for their students.

Suggested Semester Plan of Study

This plan shows one possible grouping of courses that would allow students to graduate in four years. Please refer to the front of the degree checksheet for official requirements. Students must consult with Dodge College of Arts and Sciences and/or Department of Mathematics academic advisors to verify that courses selected each semester fulfill the recommended plan and satisfy University, College of Arts and Sciences, and Mathematics major requirements.

General Requirements for all Master's Degrees

The master's degree requires the equivalent of *at least* two semesters of satisfactory graduate work and additional work as may be prescribed for the degree.

All coursework applied to the master's degree must carry graduate credit.

Master's degree programs which require a thesis consist of *at least* 30 credit hours. All non-thesis master's degree programs require *at least* 30 credit hours.

Credit transferred from other institutions must meet specific criteria and is subject to certain limitations.

Courses completed through correspondence study may *not* be applied to the master's degree.

To qualify for a graduate degree, students must achieve an overall grade point average of 3.0 or higher in the degree program coursework and in all resident graduate coursework attempted. A student must also have at least a 3.0 in all coursework (including undergraduate coursework if any).

Additional information for master's degree students may be found in the Graduate College Bulletin.

Mathematics, M.S.

Minimum Total Hours (Thesis): 32
Minimum Total Hours (Non-Thesis): 33

Program Code: M671

Required Courses

Degree coursework must include at least two courses taken at the 4000 level or higher, from outside the mathematics department, which use mathematics beyond elementary calculus.

NOTES

- **Each student *not writing a thesis* will pass a comprehensive examination over material to be determined by the Applied Math Committee.**
- **A maximum of 9 hours of coursework outside the Mathematics department can be applied to the degree.**
- **No course below the 4000 level can be applied to the degree.**
- **No more than 9 hours of coursework in Mathematics can be below the 5000 level, and at most 12 hours of G4000 level coursework total.**
- **Twelve hours must be in the Mathematics department at the 5000 level or higher.**

General Requirements for all Master's Degrees

The master's degree requires the equivalent of *at least* two semesters of satisfactory graduate work and additional work as may be prescribed for the degree.

All coursework applied to the master's degree must carry graduate credit.

Master's degree programs which require a thesis consist of *at least* 30 credit hours. All non-thesis master's degree programs require *at least* 30 credit hours.

Credit transferred from other institutions must meet specific criteria and is subject to certain limitations.

Courses completed through correspondence study may *not* be applied to the master's degree.

To qualify for a graduate degree, students must achieve an overall grade point average of 3.0 or higher in the degree program coursework and in all resident graduate coursework attempted. A student must also have at least a 3.0 in all coursework (including undergraduate coursework if any).

Additional information for master's degree students may be found in the Graduate College Bulletin.

Mathematics, Ph.D.

Minimum Total Hours: 90

Program Code: D670

Program Requirements

- The Mathematics Ph.D. requires 90 hours of graduate credit beyond the baccalaureate degree, of which 2 hours may by MATH 5980 or MATH 5990.
- Seminars and colloquia are expected in addition to regular coursework.

Code	Title	Credit Hours
A sequence of 12 hours numbered above 5000 level (including seminars) in one of the major areas of mathematics, or in the area of RUME (Research in Undergraduate Mathematics Education)		12
At least 18 hours of additional coursework in mathematics above 5000 level		18
Electives and dissertation hours (MATH 6980) as determined by the student's advisory committee to reach 90 hours beyond the baccalaureate		60
A dissertation representing an original contribution to mathematical knowledge or to RUME		
Total Credit Hours		**90**

General Requirements for Doctoral Degrees

A student should expect to spend at least the equivalent of three full academic years beyond the bachelor's degree to obtain the doctoral degree. During this period the student will take appropriate graduate coursework, successfully complete the general examination, and successfully defend and submit the final dissertation.

All coursework applied to the doctoral degree must carry graduate credit.

The doctoral degree requires at least 90 post-baccalaureate hours, including both formal coursework and hours of research.

The minimum hour requirement for a specific doctoral degree program cannot be waived.

No more than one-half of the credit hours, both OU and overall, excluding Research for Doctoral Dissertation (6980), may be *S/U*-graded coursework.

The student must be in residence at OU for at least two consecutive 16-week semesters during the pursuit of the doctoral degree while enrolled and engaged in coursework or research activities as prescribed by the major academic unit.

For more detailed regulations and requirements for Doctoral degrees, please consult the Graduate College Bulletin: http://www.ou.edu/gradcollege/forms/bulletin

Center for Medieval & Renaissance Studies

The Center for Medieval & Renaissance Studies, a division of the Dodge College of Arts & Sciences at the University of Oklahoma, promotes the study of the period in Western history that saw the development of such major components of modern life as parliamentary democracy, the nation-state, English and other modern languages, printing, Islam, global exploration, heliocentric astronomy, romantic love--and the universities in which we research and teach all these subjects.

By supporting our faculty and students, sponsoring brown-bag talks, and cosponsoring a free public lecture series with the Medieval Fair of Norman, OU's Center for Medieval & Renaissance Studies seeks to enrich the intellectual environment for medievalists and early modernists on campus and across the region.

Programs & Facilities

OU Special Collections

The fifth floor of OU's Bizzell Memorial Library houses a world-class History of Science collection along with the Nichols Collection, the Bizzell Bible Collection, and the Bass Business Collection.

Minor

The Medieval & Renaissance Studies Minor (p. 589) allows students to pursue an interdisciplinary study of literature, language, history, history of science, art, architecture, and religion. It is an attractive opportunity for students who wish to gain further understanding of medieval and Renaissance culture beyond the traditional disciplinary parameters. Fascinating in their diversity, medieval and Renaissance arts, literature, history, science, and philosophy offer rich material for study in their own right and also reveal the foundations upon which the achievements of subsequent periods were built.

No major in Medieval and Renaissance Studies is offered; students wishing to concentrate on these areas of study are best served by majoring in another humanities discipline while pursuing a Medieval and Renaissance Studies minor.

Courses

MRS 3023 Exploring Medieval and Renaissance Studies 3 Credit Hours
Prerequisite: junior standing or above, or permission of instructor. Provides an overview of the history, literature, art, and music of the Middle Ages and Renaissance, including hands-on work with medieval manuscripts and early printed books. This course will be taught by a series of faculty lecturing in their area of expertise, coordinated by a faculty member who will be present at every class and will serve as instructor of record. (Irreg.)[IV-WC] .

MRS 3440 Mentored Research Experience 3 Credit Hours
0 to 3 hours. Prerequisites: ENGL 1113 or equivalent, and permission of instructor. May be repeated; maximum credit 12 hours. For the inquisitive student to apply the scholarly processes of the discipline to a research or creative project under the mentorship of a faculty member. Student and instructor should complete an Undergraduate Research & Creative Projects (URCP) Mentoring Agreement and file it with the URCP office. Not for honors credit. (F, Sp, Su)

MRS 3960 Honors Reading 1-3 Credit Hours
1 to 3 hours. Prerequisite: Admission to Honors Program. May be repeated; maximum credit six hours. Consists of topics designated by the instructor in keeping with the student's major program. The topics will cover materials not usually presented in the regular courses. (F, Sp, Su)

MRS 3970 Honors Seminar 1-3 Credit Hours
1 to 3 hours. Prerequisite: admission to Honors Program. May be repeated; maximum credit six hours. Subjects covered vary. Deals with concepts not usually treated in regular courses. (Irreg.)

MRS 3980 Honors Research 1-3 Credit Hours
1 to 3 hours. Prerequisite: Admission to Honors Program. May be repeated; maximum credit six hours. Will provide an opportunity for the gifted Honors candidate to work at a special project in the student's field. (F, Sp, Su)

MRS 3990 Independent Study 1-3 Credit Hours
Prerequisite: junior standing or above and permission of instructor. May be repeated; maximum credit six hours. Independent study on a topic in medieval and/or Renaissance studies. (F, Sp)

MRS 4960 Directed Readings 1-4 Credit Hours
1 to 4 hours. Prerequisite: good standing in University; permission of instructor and dean. May be repeated; maximum credit four hours. Designed for upper-division students who need opportunity to study a specific problem in greater depth than formal course content permits. (Irreg.)

MRS 4970 Special Topics/Seminar 1-3 Credit Hours
1 to 3 hours. Prerequisite: Senior standing or permission of instructor. May be repeated; maximum credit nine hours. Special topics or seminar course for content not currently offered in regularly scheduled courses. May include library and/or laboratory research and field projects. (Irreg.)

MRS 4990 Independent Study 1-3 Credit Hours
Prerequisite: junior standing or above and permission of instructor. May be repeated; maximum credit six hours. Independent study on a topic in medieval and/or Renaissance studies. (F, Sp)

Medieval & Renaissance Studies, Minor

Minimum Total Credit Hours: 18
Minimum Upper-Division Hours: 9

Program Code: N679

- **The requirements for a minor must be completed concurrently with the major degree requirements.**
- **No minor may be added by completing courses after receiving the bachelor's degree.**

At least six (6) credit hours must be earned in courses acceptable for residence credit by standards set forth by the Dodge College of Arts and Sciences, excluding transfer, correspondence, and examination (AP, CLEP, Advanced Standing) credit. Courses for the minor may not be taken Pass/No Pass.

No single course may be used by a student to satisfy a major requirement and a minor requirement. A course may be used, however, to satisfy both a major support requirement and a minor requirement.

Courses on Medieval and Renaissance topics not listed here may count towards the MRS minor if approved, in writing, by the MRS advisor.

Required Courses

Students must successfully complete at least 18 hours of coursework, including at least nine (9) hours at the upper-division level, and six (6) hours from each of the three core areas, from the approved courses listed. No more than three (3) of the 18 hours may be earned in Independent Study courses (MRS 3990 or MRS 4990).

The following MRS courses may count in any appropriate area, as approved by the advisor: MRS 3023, MRS 3990, MRS 4990.

See http://www.ou.edu/cas/cmrs/minor for more information about this minor.

General Information

The Department of Modern Languages, Literatures, and Linguistics (MLLL) plays a key role in bringing the world to OU and OU to the world.

Thus, MLLL is dedicated to upholding OU's mission of excellence through research and teaching in the humanities.

The MLLL faculty teaches fundamental linguistic skills and provides the intellectual training to contextualize cross-cultural experiences. We also emphasize the significance of literary and cultural traditions, as developed through history, for human self-understanding. At the graduate level, master's and doctoral students combine advanced courses in literature, culture, theory, and methodology with supervised pre-professional training. Consequently, our programs are designed to prepare the next generation of researchers, teachers, and professionals, whose expertise builds upon modern languages, literatures, and cultures.

MLLL is home to scholars in literature, cultural studies, film, second language acquisition, and linguistics. Our faculty produces and disseminates knowledge in the humanities and advances critical humanistic research in international fields through the publication of numerous books and articles, active engagement in national and international professional organizations, and participation in conferences across the continents.The faculty commitment to research is intimately connected with our teaching, and subsequently, we incorporate the latest innovations in our courses. Hence, MLLL is resolutely committed to OU's mission to lead in research.

Through our engagement with critical inquiry, teaching, and service to the community, the Department of Modern Languages, Literatures, and Linguistics strives to fulfill OU's primary missions to achieve excellence and to value world cultures.

Programs & Facilities

Programs for Academic Excellence

Students are encouraged to study abroad as an enhancement to their degree programs. Summer or semester and year-long exchange programs in South America, Europe, Asia, and Africa are available to all students.

Special Facilities

The Language Learning Center is a state-of-the-art computer facility that provides technology, resources, and an engaging environment in which students, faculty, instructors, and visitors are supported in their language acquisition pursuits. The Learning Center boasts a large library of digitized listening files, web activities, language-learning software, and video/DVD materials. Listening materials and web activities are available to students in the Learning Center and via the remote connection.

Scholarships and Financial Aid

The Department of Modern Languages, Literatures, and Linguistics offers a variety of funding opportunities to students who choose to major or minor in one or more modern languages. MLLL students apply for all department scholarships online through the CASH website at scholarships.ou.edu.

Graduate assistantships are available through the department. All graduate assistants are required to enroll in MLLL 4813 during their first semester. In addition, graduate assistants are required to enroll in a minimum of six credit hours of graduate-level courses per semester.

Undergraduate Study

Bachelor of Arts Degree

The department offers the Bachelor of Arts degree with majors in Arabic, Chinese, French, German, Italian, Japanese, Russian, Spanish and Linguistics. Beginning language courses do not count toward the major. In the second year, students focus on improving the basic skills of speaking, understanding, reading, and writing while gaining some exposure to the culture and the literature of the language. The third year generally focuses on improving conversation skills and pronunciation, acquiring a stronger understanding of the grammatical rules of the language, and reading a limited number of complete literary works. In the senior year, majors study civilization and literature from its origins to the modern era.

The department also offers Minors in Arabic, Chinese, French, German, Hebrew, Italian, Japanese, Linguistics, Portuguese, Russian and Spanish.

- Japanese, B.A. (p. 614)
- Linguistics, B.A. (p. 616)
- Russian, B.A. (p. 619)
- Spanish, B.A. (p. 621)
- World Languages and Cultures: Arabic, B.A. (p. 624)
- World Languages and Cultures: Chinese, B.A. (p. 626)
- World Languages and Cultures: French, B.A. (p. 628)
- World Languages and Cultures: German, B.A. (p. 630)
- World Languages and Cultures: Italian, B.A. (p. 632)
- Arabic, Minor (p. 634)
- Chinese, Minor (p. 635)
- French, Minor (p. 635)
- German, Minor (p. 636)
- Hebrew, Minor (p. 636)
- Italian, Minor (p. 637)
- Japanese, Minor (p. 637)
- Linguistics, Minor (p. 638)
- Portuguese, Minor (p. 638)
- Russian, Minor (p. 638)
- Spanish, Minor (p. 639)

Course Placement

Students who have completed two or more years of high school language and who wish to continue their language study at the University will be placed in appropriate courses based on their scores in the proficiency exam. Placement exams are administered during pre-enrollment periods as well as during regular enrollment periods.

Native Speaker Policy

For departmental purposes, the Department of Modern Languages, Literatures, and Linguistics defines a native speaker of a language as any individual who has been raised in a family and a society where this language is habitually used for everyday communication and is the language of instruction in the student's school system. A native speaker may not enroll in any undergraduate skills course in his or her native language, with the single exception of the course in Advanced Composition 3423, but may earn credit by advanced standing exams.

Graduate Study

Master of Arts Degree

Master of Arts degrees in French, German, and Spanish are offered in both a thesis and a non-thesis program.

- French, Master of Arts (p. 639)
- Spanish, Master of Arts (p. 640)
- TESOL, Master of Arts (p. 641)

Doctoral Programs

Doctoral degrees are offered in French (p. 641) and Spanish (p. 642).

Before completion of the degree, students must demonstrate reading competency in a second language. In order to do so, they may take the departmental Graduate Reading Exam or complete two semesters or ten hours in another language.

A general examination based on coursework and a reading list established in consultation with the student's committee members is required for the Ph.D.

See Spanish Ph.D. Exam and Dissertation and French Ph.D. Exam and Dissertation for details on the Ph.D. examination and dissertation guidelines.

Courses

ARAB 1115 Beginning Arabic 5 Credit Hours
Aims at developing mastery of Arabic phonology and script, control of basic vocabulary, grammar, basic communicative situations, and cultural concepts explicitly expressed in the language. Listening and speaking are emphasized from the very beginning. This course does not count for major credit in the Department of Modern Languages, Literatures and Linguistics. (F, Sp) [I-FL].

ARAB 1225 Beginning Arabic Continued 5 Credit Hours
Prerequisite: 1115. Focuses on all language skills (listening, speaking, reading, and writing), including developing the ability to interact successfully in basic communicative situations. Short texts and topics of general import as well as cultural concepts embedded in the language will be covered. This course does not count for major credit in the Department of Modern Languages, Literatures and Linguistics. (Sp) [I-FL] .

ARAB 2013 Colloquial Arabic 3 Credit Hours
Prerequisite: ARAB 1225 or instructor permission. The course aims at helping students develop their speaking and conversational skills at the Intermediate level. The course follows the communicative approach in line with the ACTFL proficiency guidelines. Students will engage in spontaneous meaningful communication to express personal meaning, talk about daily activities, ask questions, and handle a variety of survival situations in Arabic. (F, Sp)

ARAB 2113 Intermediate Arabic 3 Credit Hours
Prerequisite: ARAB 1225. Aims at developing language skills (listening, speaking, reading and writing) at the intermediate level, with more emphasis on reading and writing. Expands into more complex structures, wider communicative situations and vocabulary relating to practical, social, cultural and media topics. (F)

ARAB 2223 Intermediate Arabic Continued 3 Credit Hours
Prerequisite: ARAB 2113; ARAB 2013 or concurrent enrollment. Continues developing language skills (listening, speaking, reading and writing) at the intermediate level, with more emphasis on reading and writing. Continues to expand into more complex structures, wider communicative situations and vocabulary relating to practical, social, cultural and media topics. (Sp)

ARAB 2970 Special Topics/Seminar 1-3 Credit Hours
1 to 3 hours. Prerequisite: May be repeated; Maximum credit nine hours. Special topics course for content not currently offered in regularly scheduled courses. May include library and/or laboratory research, and field projects. (Irreg.)

ARAB 3113 Advanced Arabic 3 Credit Hours
Prerequisite: 2223. Students are expected to read, listen to, and understand the content and intent of a variety of authentic texts; write at the paragraph level; and participate in formal and informal discussion on social and professional topics. (F)

ARAB 3223 Advanced Arabic (Continued) 3 Credit Hours
Prerequisite: 3113. Students are expected to read, listen to, and understand the content and intent of a variety of authentic texts; write at the paragraph level; and participate in formal and informal discussion on social and professional topics. (Sp)

ARAB 3423 Advanced Writing 3 Credit Hours
Prerequisite: ARAB 2223. This course aims at developing students' writing skills at the Advanced proficiency level to meet real-world personal, professional, and academic writing needs such as writing one's resume or a job application, narrating in different time frames, and providing detailed descriptions. The course emphasizes the linguistic, stylistic, and cultural characteristics of writing in Arabic. (F)

ARAB 3440 Mentored Research Experience 3 Credit Hours
0 to 3 hours. Prerequisites: ENGL 1113 or equivalent, and permission of instructor. May be repeated; maximum credit 12 hours. For the inquisitive student to apply the scholarly processes of the discipline to a research or creative project under the mentorship of a faculty member. Student and instructor should complete an Undergraduate Research & Creative Projects (URCP) Mentoring Agreement and file it with the URCP office. Not for honors credit. (F, Sp, Su)

ARAB 3960 Honors Reading 1-3 Credit Hours
1 to 3 hours. Prerequisite: admission to Honors Program. May be repeated; maximum credit six hours. Consists of topics designated by the instructor in keeping with the student's major program. Covers topics not usually presented in the regular courses.

ARAB 3970 Honors Seminar 1-3 Credit Hours
1 to 3 hours. Prerequisite: admission to Honors Program. May be repeated; maximum credit six hours. Subjects covered vary. Deals with concepts not usually treated in regular courses.

ARAB 3980 Honors Research 1-3 Credit Hours
1 to 3 hours. Prerequisite: admission to Honors Program. May be repeated; maximum credit six hours. Provides an opportunity for the gifted Honors candidate to work at a special project in the student's field. (F, Sp, Su)

ARAB 3990 Independent Study 1-3 Credit Hours
1 to 3 hours. Prerequisite: one course in general area to be studied; permission of instructor and department. May be repeated; maximum credit six hours. Contracted independent study for topic not currently offered in regularly scheduled courses. (F, Sp)

ARAB 4413 Arabic Structure 3 Credit Hours
Prerequisite: 3223. Detailed explanations of the structure of the Arabic language at both the theoretical and pedagogical levels. The different phonological, morphological, and syntactic rules are presented and discussed holistically, combining both form and function, to achieve adequate knowledge of Arabic structure. The course is conducted mostly in Arabic. (F)

ARAB 4433 Arabic Media and Politics 3 Credit Hours
Prerequisite: 3223. Exposes students to various types of mass media covering contemporary political, economic, historical, and social issues in the Arab world. Sociolinguistic features of news reports are examined to understand the content, political underpinnings, and the framing or packaging techniques used in media discourse. The course is conducted entirely in Arabic. (F)

ARAB 4443 Readings in Islamic Religious Texts 3 Credit Hours
Prerequisite: 3223. Representative texts in Arabic from the Qur'an, Qur'anic Exegesis, Prophetic Hadith, Prophet Muhammad's biographies, and legal, mystical, and theological treatises. The objectives are to understand major Islamic doctrines, and themes, and to develop working knowledge of genre specific vocabulary and style. Class is conducted in Arabic. (Sp)

ARAB 4960 Directed Readings 1-4 Credit Hours
1 to 4 hours. Prerequisite: good standing in University; permission of instructor and dean. May be repeated; maximum credit four hours. Designed for upper-division students who need opportunity to study a specific problem in greater depth than formal course content permits. (Irreg.)

ARAB 4970 Special Topics/Seminar 1-3 Credit Hours
1 to 3 hours. Prerequisite: Senior standing or permission of instructor. May be repeated; maximum credit nine hours. Special topics or seminar course for content not currently offered in regularly scheduled courses. May include library and/or laboratory research and field projects. (Irreg.)

ARAB 4990 Independent Study 1-3 Credit Hours
1 to 3 hours. Prerequisite: four courses in general area to be studied; permission of instructor and department. May be repeated; maximum credit six hours. Contracted independent study for topic not currently offered in regularly scheduled courses. (F, Sp)

ARAB 4993 Readings in Contemporary Arab Culture 3 Credit Hours
Prerequisite: ARAB 4413 and ARAB 4433. Deeper understanding of major cultural issues by examining critical texts of intellectual figures throughout the contemporary Arab world. Prepares students to write their final project in Arabic, and provides opportunities for developing their language skills further for adequate mastery of the language. Course is conducted entirely in Arabic. (Sp) [V] .

CHIN 1115 Beginning Chinese 5 Credit Hours
An elementary course in understanding, speaking, reading and writing Mandarin Chinese. This course does not count for major credit in the Department of Modern Languages, Literatures and Linguistics. (F) [I-FL].

CHIN 1225 Beginning Chinese (Continued) 5 Credit Hours
Prerequisite: 1115. Continued training in understanding, speaking, reading and writing elementary Mandarin Chinese. This course does not count for major credit in the Department of Modern Languages, Literatures and Linguistics. (Sp) [I-FL].

CHIN 2113 Intermediate Chinese 3 Credit Hours
Prerequisite: 1225. Combination of basic Chinese grammar and vocabulary and their application to spoken and written Mandarin Chinese. (F)

CHIN 2223 Intermediate Chinese (Continued) 3 Credit Hours
Prerequisite: 2113. Continued training in the use of grammar and vocabulary in both spoken and written Mandarin Chinese. (Sp)

CHIN 2323 Intermediate Listening and Speaking 3 Credit Hours
Prerequisite: permission of department. Serves as the prerequisite for Chinese 3113 (Advanced Chinese I.) Assignments and class activities include immersion in daily family-type communication, conversations and functioning in daily business activities, travel and functioning at the intermediate proficiency level. Upon completion, students will have developed the languages skills that will allow them to function with most daily situations in a Chinese-speaking country. (F, Sp)

CHIN 2970 Special Topics/Seminar 1-3 Credit Hours
Special Topics. 1 to 3 hours. May be repeated; Maximum credit nine hours. Special topics course for content not currently offered in regularly scheduled courses. May include library and/or laboratory research, and field projects. (Irreg.)

CHIN 3113 Advanced Chinese I 3 Credit Hours
Prerequisite: CHIN 2223 and CHIN 2323 or equivalent. An integrated advanced course designed to improve skills in the four aspects of learning Mandarin Chinese as a foreign language: listening, speaking, reading, and writing. Emphasis is on the phonetics of standard Mandarin Chinese and conversation on topics in daily life. (F)

CHIN 3223 Advanced Chinese II 3 Credit Hours
Prerequisite: 3113 or equivalent. Continue to improve skills in the four aspects of learning Mandarin Chinese as a foreign language: listening, speaking, reading, and writing. Emphasis on composition and advanced-level reading comprehension. (Sp.

CHIN 3323 Advanced Listening and Speaking 3 Credit Hours
Prerequisite: 2223. Develops listening and speaking skills of students who have taken intermediate Chinese. Conversations are presented in authentic and naturally-paced language. Lessons are constructed to support existing knowledge and develop mastery of new vocabulary, grammatical patterns, and sociocultural formalities in ways that are compatible with genuine communication. (F)

CHIN 3440 Mentored Research Experience 3 Credit Hours
0 to 3 hours. Prerequisites: ENGL 1113 or equivalent, and permission of instructor. May be repeated; maximum credit 12 hours. For the inquisitive student to apply the scholarly processes of the discipline to a research or creative project under the mentorship of a faculty member. Student and instructor should complete an Undergraduate Research & Creative Projects (URCP) Mentoring Agreement and file it with the URCP office. Not for honors credit. (F, Sp, Su)

CHIN 3623 Business Chinese 3 Credit Hours
Prerequisite: permission of department. Designed for students who have completed at least two years basic Chinese language learning and have an interest in business-related communications with Chinese- speaking people. Aims to prepare students with the language skills and cultural knowledge for a globalized economy through learning the vocabulary, usages, customs and conventions required for business activities with China. (F)

CHIN 3960 Honors Reading 1-3 Credit Hours
1 to 3 hours. Prerequisite: Admission to Honors Program. May be repeated; maximum credit six hours. Consists of topics designated by the instructor in keeping with the student's major program. The topics will cover materials not usually presented in the regular courses. (F, Sp, Su)

CHIN 3970 Honors Seminar 1-3 Credit Hours
1 to 3 hours. Prerequisite: admission to Honors Program. May be repeated; maximum credit six hours. Subjects covered vary. Deals with concepts not usually treated in regular courses. (Irreg.)

CHIN 3980 Honors Research 1-3 Credit Hours
1 to 3 hours. Prerequisite: Admission to Honors Program. May be repeated; maximum credit six hours. Will provide an opportunity for the gifted Honors candidate to work at a special project in the student's field. (F, Sp, Su)

CHIN 3990 Independent Study 1-3 Credit Hours
1 to 3 hours. Prerequisite: two courses in Chinese; permission of instructor and department. May be repeated; maximum credit six hours. Contracted independent study for topic not currently offered in regularly scheduled courses. Independent study may include library and/or laboratory research and field projects. (F, Sp)

CHIN 4113 Advanced Reading and Writing 3 Credit Hours
Prerequisite: 3223. Advanced reading and comprehension of authentic Chinese texts. Development of good writing skills with correct usage of grammar. (Sp)

CHIN 4333 Translating Chinese 3 Credit Hours
Prerequisite: CHIN 3113. Assists advanced Chinese major or minor students attain better Chinese-to-English translation skills through practical training and hands-on instruction. The emphasis is on comprehension of original Chinese texts, with particular attention to idioms and expressions. (Irreg.)

CHIN 4533 Learning Chinese through Media 3 Credit Hours
Prerequisite: CHIN 3113 or equivalent. Intended for advanced students to enhance their reading/listening proficiency in modern Chinese language and further develop their self-learning skills. Students will be immersed in a simulacrum of Chinese media by reading Chinese news reports; watching Chinese news videos, short films, and TV programs; and using the Chinese encyclopedia. (F)

CHIN 4543 Study of Classical Chinese and Calligraphy 3 Credit Hours
Prerequisite: CHIN 3223. Major aspects covered include 1) grammatical structures of classical Chinese compared to modern Chinese; 2) lexical and semantic features of most commonly used words and phrases; 3) reading and understanding of simple texts from the classics; 4) cultural perspectives to appreciate Chinese heritage texts, paintings and calligraphy. (F)

CHIN 4960 Directed Readings 1-4 Credit Hours
1 to 4 hours. Prerequisite: good standing in University; permission of instructor and dean. May be repeated; maximum credit four hours. Designed for upper-division students who need opportunity to study a specific problem in greater depth than formal course content permits. (Irreg.)

CHIN 4970 Special Topics/Seminar 1-3 Credit Hours
1 to 3 hours. Prerequisite: Senior standing or permission of instructor. May be repeated; maximum credit nine hours. Special topics or seminar course for content not currently offered in regularly scheduled courses. May include library and/or laboratory research and field projects. (Irreg.)

CHIN 4990 Independent Study 1-3 Credit Hours
1 to 3 hours. Prerequisite: four courses in Chinese and general area to be studied; permission of instructor and department. May be repeated; maximum credit six hours. Contracted independent study for topic not currently offered in regularly scheduled courses. Independent study may include library and/or laboratory research and field projects. (F, Sp, Su)

CHIN 4993 Senior Capstone for Chinese 3 Credit Hours
Prerequisite: Senior standing or permission of instructor. Designed to serve as the senior capstone experience for the Chinese major. Students will study linguistic theory, technique, and methodology. Includes reading in critical analysis as preparation for writing assignments and final project to be written in Chinese. (F) [V].

FR 1115 Beginning French 5 Credit Hours
An elementary course in understanding, speaking, reading and writing French. Laboratory. This course does not count for major credit in the Department of Modern Languages, Literatures and Linguistics. (F, Sp, Su) [I-FL].

FR 1225 Beginning French (Continued) 5 Credit Hours
Prerequisite: 1115. An elementary course in understanding, speaking, reading and writing French. Laboratory. This course does not count for major credit in the Department of Modern Languages, Literatures and Linguistics. (F, Sp, Su) [I-FL].

FR 2113 Intermediate French 3 Credit Hours
Prerequisite: 1225. The systematic cultivation of increased depth and control in the basic skills of listening, speaking, reading and writing French. Laboratory (F, Sp, Su)

FR 2223 Intermediate French (Continued) 3 Credit Hours
Prerequisite: 2113. The systematic cultivation of increased depth and control in the basic skills of listening, speaking, reading and writing French. Laboratory (F, Sp, Su)

FR 2243 French Conversation and Literature 3 Credit Hours
Prerequisite: 2113 or 2133. Conversation practice based on modern literary texts, with the objective of improving reading speed, vocabulary and comprehension, and increased oral fluency, while obtaining an expanded appreciation of French literary texts. (F, Sp, Su)

FR 2253 Health, Medicine, and the Environment in French Culture 3 Credit Hours
Prerequisite: FR 2223 or concurrent enrollment, or FR 2243. This second-year French class teaches about key issues in health, medicine, and the environment, so that students develop functional cultural and linguistic fluency about French-speaking populations in relation to the topics under study. Issues of global and personal health, medicine, and the human relationship with nature, ecology and the environment are essential topics for our era. (F, Sp)

FR 2970 Special Topics 1-3 Credit Hours
Special Topics. 1 to 3 hours. May be repeated; Maximum credit nine hours. Special topics course for content not currently offered in regularly scheduled courses. May include library and/or laboratory research, and field projects. (Irreg.)

FR 3083 Advanced French Conversation and Phonetics 3 Credit Hours
Prerequisite: 2243 or concurrent enrollment. Intensive practice in speaking French on topics of everyday life; development of specialized vocabularies; fundamentals of French phonetics. (F, Sp)

FR 3423 Advanced French Composition 3 Credit Hours
Prerequisite: FR 2133 or FR 2243 or FR 2263. The inculcation of proper writing habits, at an advanced level, toward the achievement of idiomatic French. (Sp, Su)

FR 3440 Mentored Research Experience 3 Credit Hours
0 to 3 hours. Prerequisites: ENGL 1113 or equivalent, and permission of instructor. May be repeated; maximum credit 12 hours. For the inquisitive student to apply the scholarly processes of the discipline to a research or creative project under the mentorship of a faculty member. Student and instructor should complete an Undergraduate Research & Creative Projects (URCP) Mentoring Agreement and file it with the URCP office. Not for honors credit. (F, Sp, Su)

FR 3623 Business French 3 Credit Hours
Prerequisite: two years of college French or equivalent. Focuses on terms and expressions used in business settings. Designed to impart an awareness of the differences between French and American business cultures. (F)

FR 3723 French for the Professions 3 Credit Hours
Prerequisite: two years of college French or equivalent. Introduces students to vocabulary in sectors such as advertising, marketing, transportation, medicine, and law. French professional and business cultures are studied. Communication skills for professional and business settings will be practiced in this course. (Sp)

FR 3753 French Culture Through Film 3 Credit Hours
Prerequisite: 2243 or concurrent enrollment. This course deals with contemporary French culture through the medium of cinema. Topics examined include family, education, religion and societal issues, and ethnicity. As a course taught in French, it will also focus on regional accents and generational and ethnic speech. (F)

FR 3853 Introduction to Literary Analysis 3 Credit Hours
Prerequisite: 2223. Designed to introduce students to the language and technique of literary analysis. Also serves to improve reading skills generally, as well as oral/aural and written skills. Representative works from the various literary genres will be studied. (Sp, Su)

FR 3960 Honors Reading 1-3 Credit Hours
1 to 3 hours. Prerequisite: admission to Honors Program. May be repeated; maximum credit six hours. Consists of topics designated by the instructor in keeping with the student's major program. Covers materials not usually presented in the regular courses. (F, Sp)

FR 3970 Honors Seminar 1-3 Credit Hours
1 to 3 hours. Prerequisite: admission to Honors Program. May be repeated; maximum credit six hours. The projects covered will vary. Will deal with concepts not usually presented in regular coursework. (F, Sp, Su)

FR 3980 Honors Research 1-3 Credit Hours
1 to 3 hours. Prerequisite: admission to Honors Program. May be repeated; maximum credit six hours. Will provide an opportunity for the gifted Honors candidate to work at a special project in the student's field. (F)

FR 3990 Independent Study 1-3 Credit Hours
1 to 3 hours. Prerequisite: one course in general area to be studied; permission of instructor and department. May be repeated; maximum credit six hours. Contracted independent study for topic not currently offered in regularly scheduled courses. Independent study may include library and/or laboratory research and field projects. (F, Sp, Su)

FR G4153 Survey of French Literature to 1800 3 Credit Hours
Reading and discussion of major French works and their background from the Middle Ages to the French Revolution. (F, Su)

FR G4163 Survey of French Literature (Continued) 3 Credit Hours
Prerequisite: 4153 or permission. Reading and discussion of major French works and their background from 1800 to the present day. (Sp, Su)

FR 4313 From Lascaux to la Terreur 3 Credit Hours
Prerequisite: FR 3423; HIST 1223 or 1233. The political and social background of French literature from its beginning to the French revolution. (F, Su)

FR 4323 The Making of Modern French Culture 3 Credit Hours
Prerequisite: FR 3423; HIST 1223 or HIST 1233. The political and social background of French literature from the French revolution to the present day. (Sp)

FR 4960 Directed Readings 1-4 Credit Hours
1 to 4 hours. Prerequisite: good standing in University; permission of instructor and dean. May be repeated; maximum credit four hours. Designed for upper-division students who need opportunity to study a specific problem in greater depth than formal course content permits. (Irreg.)

FR 4970 Special Topics/Seminar 1-3 Credit Hours
1 to 3 hours. Prerequisite: Senior standing or permission of instructor. May be repeated; maximum credit nine hours. Special topics or seminar course for content not currently offered in regularly scheduled courses. May include library and/or laboratory research and field projects. (Irreg.)

FR 4990 Independent Study 1-3 Credit Hours
1 to 3 hours. Prerequisite: three courses in general area to be studied; permission of instructor and department. May be repeated; maximum credit six hours. Contracted independent study for topic not currently offered in regularly scheduled courses. Independent study may include library and/or laboratory research and field projects. (F, Sp, Su)

FR 4993 Senior Capstone in French 3 Credit Hours
Prerequisite: graduating majors in French. Requires undergraduate French majors to synthesize their knowledge of French contributions to world civilization. They will be required, as part of this enterprise, to demonstrate their mastery of the four basic skills involved in learning a foreign language: reading, writing, speaking, and understanding. (Sp) [V].

FR 5323 Old French Readings 3 Credit Hours
Prerequisite: 5313. Introduction to a literary understanding and appreciation of the Old French Canon as represented by such texts as the Alexis, the Roland, Chretien's romances, Beroul's Tristan, the Rose, theatre, chronicles and lyric poetry, including Rutebeuf and Villon. (Alt. Sp)

FR 5623 Seventeenth-Century Prose and Poetry 3 Credit Hours
Prerequisite: 4153. A survey of baroque, precieux and classical style, form and content as exemplified in the prose and poetry of the period. (Irreg.)

FR 5643 Eighteenth-Century French Narrative and Theatre 3 Credit Hours
Prerequisite: graduate standing or permission of instructor. The course will present an overview of eighteenth-century French narrative and theatre. (Irreg.)

FR 5653 The French Atlantic 3 Credit Hours
Prerequisite: graduate standing or permission of instructor. Examines the aesthetic, social, and political issues foregrounded in 20th- and 21st-century Caribbean and Sub-Saharan francophone literature as well as the various historical forces influencing the development of Francophone cultures on both sides of the Atlantic. (Irreg.)

2 to 4 hours. May be repeated with change of content; maximum credit nine hours. An individual course of intensive research with the area and problem to be determined by the student and directing instructor. (F, Sp, Su)

FR 5960 Directed Readings 1-3 Credit Hours
1 to 3 hours. Prerequisite: graduate standing and permission of department. May be repeated; maximum credit twelve hours. Directed readings and/or literature reviews under the direction of a faculty member. (F, Sp, Su)

FR 5970 Special Topics/Seminar 1-3 Credit Hours
1 to 3 hours. Prerequisite: Graduate standing or permission of instructor. May be repeated; maximum credit nine hours. Special topics or seminar course for content not currently offered in regularly scheduled courses. May include library and/or laboratory research and field projects. (Irreg.)

FR 5980 Research for Master's Thesis 2-9 Credit Hours
Variable enrollment, two to nine hours; maximum credit applicable toward degree, four hours. (F, Sp)

FR 5990 Independent Studies 1-3 Credit Hours
1 to 3 hours. Prerequisite: graduate standing, permission of instructor. May be repeated; maximum credit 12 hours. Independent reading on one or more topics under the general direction of a faculty member. (F, Sp, Su)

FR 6960 Directed Readings 1-3 Credit Hours
1 to 3 hours. Prerequisite: graduate standing or permission of instructor. May be repeated; maximum credit six hours. Directed readings and/or literature review under the direction of a faculty member. (Irreg.)

FR 6970 Special Topics/Seminar 1-3 Credit Hours
1 to 3 hours. Prerequisite: graduate standing or permission of instructor. May be repeated; maximum credit 12 hours. Special topics or seminar course for content not currently offered in regularly scheduled courses. May include library and/or research and field projects. (Irreg.)

FR 6980 Research for Doctoral Dissertation 2-16 Credit Hours
2 to 16 hours. Prerequisite: Graduate standing and permission of instructor; may be repeated. Directed research culminating in the completion of the doctoral dissertation. (F, Sp)

FR 6990 Independent Study 1-3 Credit Hours
1 to 3 hours. Prerequisite: Graduate standing and permission of instructor. May be repeated; maximum credit nine hours. Contracted independent study for a topic not currently offered in regularly scheduled courses. Independent study may include library and/or laboratory research and field projects. (Irreg.)

GERM 1115 Beginning German 5 Credit Hours
An elementary course in understanding, speaking, reading and writing German. This course does not count for major credit in the Department of Modern Languages, Literatures and Linguistics. (F, Sp, Su) [I-FL].

GERM 1225 Beginning German (Continued) 5 Credit Hours
(Continued) Prerequisite: 1115. An elementary course in understanding, speaking, reading and writing German. This course does not count for major credit in the Department of Modern Languages, Literatures and Linguistics. (F, Sp, Su) [I-FL].

GERM 2113 Intermediate German 3 Credit Hours
Prerequisite: 1225. Develops reading skills and control of grammar. Emphasis on expansion of vocabulary and strong reinforcement of grammatical structures. Reading and discussion of texts of literary and cultural interest. Oral and written assignments. (F, Sp)

GERM 2223 Intermediate German (Continued) 3 Credit Hours
(Continued) Prerequisite: 2113. (F, Sp)

GERM 2970 Special Topics/Seminar 1-3 Credit Hours
Special Topics. 1 to 3 hours. May be repeated; Maximum credit nine hours. Special topics course for content not currently offered in regularly scheduled courses. May include library and/or laboratory research, and field projects. (Irreg.)

GERM 3333 Internship in a German-Speaking Country 3 Credit Hours
Prerequisite: junior or senior standing or permission of instructor. May be repeated; maximum credit six hours. Supplements as well as enhances a work experience of at least four weeks in a German-speaking country (e.g., Federal Republic of Germany, Federal Republic of Austria, Switzerland, Liechtenstein, German-speaking northern Italy, German-speaking eastern Belgium) that is typically undertaken during the summer. The course involves research, reflection, and oral and written communication about the internship experience. (Su)

GERM 3423 Advanced German Composition 3 Credit Hours
Prerequisite: GERM 2223. The inculcation of proper writing habits, at an advanced level, toward the achievement of idiomatic German. (Sp)

GERM 3440 Mentored Research Experience 3 Credit Hours
0 to 3 hours. Prerequisites: ENGL 1113 or equivalent, and permission of instructor. May be repeated; maximum credit 12 hours. For the inquisitive student to apply the scholarly processes of the discipline to a research or creative project under the mentorship of a faculty member. Student and instructor should complete an Undergraduate Research & Creative Projects (URCP) Mentoring Agreement and file it with the URCP office. Not for honors credit. (F, Sp, Su)

GERM 3523 Advanced Conversation 3 Credit Hours
Prerequisite: GERM 2223. Practice in conversational skills at an advanced level. (Sp)

GERM 3623 Business German 3 Credit Hours
Prerequisite: 2223. Introduces German business language as used in retail/wholesale, export/import, transport, and media. Will also familiarize the student with the European Union and cultural aspects of the German speaking business world. (F)

GERM 3723 German for the European Market 3 Credit Hours
Prerequisite: 2223. German business language as used in banking transactions, marketing, business letters, and business firms such as corporations, general and limited partnerships, and trade unions. How to respond to claims by firms in European countries and how to establish subsidiaries in another European country. GERM 3853 Literature and Film 3 Credit Hours
Prerequisite: GERM 2223. Introduction to representative works of contemporary German literature and film. Within the context of reading and writing assignments and the viewing and discussion of films, the course is designed to improve language skills and knowledge of German culture. (F)

GERM 3960 Honors Reading 1-3 Credit Hours
1 to 3 hours. Prerequisite: admission to Honors Program. May be repeated; maximum credit six hours. Will consist of topics designated by the instructor in keeping with the student's major program. The topics will cover materials not usually presented in the regular courses. (F, Sp)

GERM 3970 Honors Seminar 1-3 Credit Hours
1 to 3 hours. Prerequisite: admission to Honors Program. May be repeated; maximum credit six hours. The projects covered vary. The content deals with concepts not usually presented in regular coursework. (Irreg.)

GERM 3980 Honors Research 1-3 Credit Hours
1 to 3 hours. Prerequisite: admission to Honors Program. May be repeated; maximum credit six hours. Provides an opportunity for the gifted Honors candidate to work at a special project in the student's field. (F, Sp)

GERM 3990 Independent Study 1-3 Credit Hours
1 to 3 hours. Prerequisite: one course in general area to be studied; permission of instructor and department. May be repeated; maximum credit six hours. Contracted independent study for topic not currently offered in regularly scheduled courses. Independent study may include library and/or laboratory research and field projects. (F, Sp)

GERM 4253 Goethe's Faust and the Problem of Evil 3 Credit Hours
Prerequisite: 3423 and 3853. Intensive study of Faust I, Faust II, and the Urfaust. The social and cultural history of the Faust figure, up to Goethe's Faust, will also be explored. No student may earn credit for both 4253 and 5253. (Irreg.)

GERM G4313 Literature and Culture Pre-1700 3 Credit Hours
Prerequisite: 3423 or 3853. From the beginnings until the end of the seventeenth century. A survey of literature, art, religion, social relations, music and history. (Alt. F)

GERM G4323 Literature and Culture 1700-1890 3 Credit Hours
Prerequisite: 3423 or 3853. Literature from 1700 to 1900. A survey of literature, art, philosophy, social relations, music and history. (Alt. F)

GERM G4333 Topics in the Twentieth Century German Literature and Culture 3 Credit Hours
Prerequisite: 3423 or 3853. From 1900 to the present. A survey of literature, art, film, social relations, music and history. (Sp) [V].

GERM 4773 Post-1945 German Literature and Culture in Modern Europe 3 Credit Hours
(Slashlisted with 5773) Prerequisite: 3423, 3853. Study of selected prose, poetry, and drama written after World War II in Austria, East Germany, Switzerland and West Germany, within the context of cultural and economic changes. Also includes contemporary German films. No student may earn credit for both 4773 and 5773. (F) [IV-WC] .

GERM 4953 Literature, Art and Culture in Turn-of-the-Century Austria 3 Credit Hours
Prerequisite: 3423, 3853. Examines two antithetical impulses in the Habsburg fin de siecle: to revel in ornamental display and to reveal essences beneath the exterior. Examines the tension and interplay between the two tendencies in the fields of literature, art, architecture, and theory, and consider some representative figures of the period, such as Klimt, Freud, Rilke, and Kafka. No student may earn credit for both 4953 and 5953. (Irreg.)

GERM 4960 Directed Readings 1-4 Credit Hours
1 to 4 hours. Prerequisite: good standing in University; permission of instructor and dean. May be repeated; maximum credit four hours. Designed for upper-division students who need opportunity to study a specific problem in greater depth than formal course content permits. (Irreg.)

GERM 4970 Special Topics/Seminar 1-3 Credit Hours
1 to 3 hours. Prerequisite: Senior standing or permission of instructor. May be repeated; maximum credit nine hours. Special topics or seminar course for content not currently offered in regularly scheduled courses. May include library and/or laboratory research and field projects. (Irreg.)

GERM 4990 Independent Study 1-3 Credit Hours
1 to 3 hours. Prerequisite: three courses in general area to be studied; permission of instructor and department. May be repeated; maximum credit six hours. Contracted independent study for topic not currently offered in regularly scheduled courses. Independent study may include library and/or laboratory research and field projects. (F, Sp)

GERM 5960 Directed Readings 1-3 Credit Hours
1 to 3 hours. Prerequisite: graduate standing and permission of department. May be repeated; maximum credit twelve hours. Directed readings and/or literature reviews under the direction of a faculty member. (F, Sp, Su)

GERM 5970 Special Topics/Seminar 1-3 Credit Hours
1 to 3 hours. Prerequisite: Graduate standing or permission of instructor. May be repeated; maximum credit nine hours. Special topics or seminar course for content not currently offered in regularly scheduled courses. May include library and/or laboratory research and field projects. (Irreg.)

GERM 5980 Research for Master's Thesis 2-9 Credit Hours
Variable enrollment, two to nine hours; maximum credit applicable toward degree, four hours. (F, Sp)

GERM 5990 Independent Studies 1-3 Credit Hours
1 to 3 hours. Prerequisite: graduate standing, permission of instructor. May be repeated; maximum credit 12 hours. Independent reading on one or more topics under the general direction of a faculty member. (F, Sp, Su)

HEBR 1115 Beginning Hebrew 5 Credit Hours
An elementary course in modern and Biblical Hebrew. The course provides basic understanding, speaking, writing, and reading Hebrew, both modern and Biblical. Similarities and differences between modern and Biblical Hebrew are explored. (F, Sp) [I-FL].

HEBR 1225 Beginning Hebrew (continued) 5 Credit Hours
Prerequisite: 1115. Focuses on all language skills: understanding, speaking, writing, reading of both modern and Biblical texts; including further exploration of similarities and differences between modern and Biblical Hebrew. By the end of this course, students are expected to write short dialogs. (F, Sp) [I-FL].

HEBR 2113 Intermediate Hebrew 3 Credit Hours
Prerequisite: 1225. Further training in understanding, speaking, writing, and reading Hebrew, both modern and Biblical. Emphasis is given to grammar as well as to exploring differences in style between various Biblical texts, such as Torah versus prophets. (F)

HEBR 2213 Intermediate Hebrew II 3 Credit Hours
Prerequisite: HEBR 2113. At the end of this course students will have acquired the ability to read longer texts, both modern and Biblical. They will be able to express themselves more sophisticatedly, and on more topics. (Sp)

HEBR 2970 Special Topics/Seminar 1-3 Credit Hours
Special Topics. 1 to 3 hours. May be repeated; Maximum credit nine hours. Special topics course for content not currently offered in regularly scheduled courses. May include library and/or laboratory research, and field projects. (Irreg.)

HEBR 3113 Advanced Hebrew 3 Credit Hours
Prerequisite: 2113 and 2213. Continued training in understanding, speaking, writing, reading literary texts and newspaper articles, as well as Biblical texts, such as poetry. Emphasis is given to discussions on and writing about these texts. (F)

HEBR 3223 Advanced Hebrew II 3 Credit Hours
Prerequisite: HEBR 3113. A continuation of Advanced Hebrew I. The aim is to continue promoting the four language skills; students should be able to sophisticatedly and intelligently express themselves both orally and in writing. (Sp)

HEBR 3440 Mentored Research Experience 3 Credit Hours
0 to 3 hours. Prerequisites: ENGL 1113 or equivalent, and permission of instructor. May be repeated; maximum credit 12 hours. For the inquisitive student to apply the scholarly processes of the discipline to a research or creative project under the mentorship of a faculty member. Student and instructor should complete an Undergraduate Research & Creative Projects (URCP) Mentoring Agreement and file it with the URCP office. Not for honors credit. (F, Sp, Su)

HEBR 3513 Biblical Hebrew 3 Credit Hours
Prerequisite: HEBR 2113 or permission of instructor. Learn Biblical Hebrew and read from the Hebrew Bible (Old Testament) in the original language. (Irreg.)

HEBR 3960 Honors Reading 1-3 Credit Hours
1 to 3 hours. Prerequisite: Admission to Honors Program. May be repeated; maximum credit six hours. Consists of topics designated by the instructor in keeping with the student's major program. The topics will cover materials not usually presented in the regular courses. (F, Sp, Su)

HEBR 3970 Honors Seminar 1-3 Credit Hours
1 to 3 hours. Prerequisite: admission to Honors Program. May be repeated; maximum credit six hours. Subjects covered vary. Deals with concepts not usually treated in regular courses. (Irreg.)

HEBR 3980 Honors Research 1-3 Credit Hours
1 to 3 hours. Prerequisite: Admission to Honors Program. May be repeated; maximum credit six hours. Will provide an opportunity for the gifted Honors candidate to work at a special project in the student's field. (F, Sp, Su)

HEBR 3990 Independent Study 1-3 Credit Hours
1 to 3 hours. Prerequisite: one course in general area to be studied; permission of instructor and department. May be repeated; maximum credit six hours. Contracted independent study for topic not currently offered in regularly scheduled courses. Independent study may include library and/or laboratory research and field projects. (F, Sp)

HEBR 4960 Directed Readings 1-4 Credit Hours
1 to 4 hours. Prerequisite: good standing in University; permission of instructor and dean. May be repeated; maximum credit four hours. Designed for upper-division students who need opportunity to study a specific problem in greater depth than formal course content permits. (Irreg.)

HEBR 4970 Special Topics/Seminar 1-3 Credit Hours
1 to 3 hours. Prerequisite: 3223 or permission of instructor. May be repeated with change of content; maximum credit 9 hours. This course is designed to give intensive training in listening and speaking in Hebrew for students who have taken 3223. The course develops students' understanding of functional ability of listening and speaking Hebrew. Students will learn unique features of Hebrew language and culture. (Irreg.)

HEBR 4990 Independent Study 1-3 Credit Hours
1 to 3 hours. Prerequisite: three courses in general area to be studied; permission of instructor and department. May be repeated; maximum credit six hours. Contracted independent study for topic not currently offered in regularly scheduled courses. Independent study may include library and/or laboratory research and field projects. (F, Sp)

ITAL 1115 Beginning Italian I 5 Credit Hours
An elementary course in understanding, speaking, reading and writing Italian. Laboratory. This course does not count for major credit in the Department of Modern Languages, Literatures and Linguistics. (F, Sp) [I-FL].

ITAL 1225 Beginning Italian II 5 Credit Hours
Prerequisite: 1115. Fundamentals of Italian continued. Laboratory. This course does not count for major credit in the Department of Modern Languages, Literatures and Linguistics. (F, Sp) [I-FL].

ITAL 2113 Intermediate Italian 3 Credit Hours
Prerequisite: 1115. Fundamentals of Italian continued. Laboratory. This course does not count for major credit in the Department of Modern Languages, Literatures and Linguistics. (F, Sp) [I-FL].

ITAL 2223 Intermediate Italian Continued 3 Credit Hours
Prerequisite: 2113. Emphasizes advanced reading skills and mastery of grammar. Emphasis on sophisticated vocabulary and understanding of grammatical structures. Literary and cultural texts discussed in oral and essay form. (Sp)

ITAL 2970 Special Topics/Seminar 1-3 Credit Hours
1 to 3 hours. Prerequisite: May be repeated; Maximum credit nine hours. Special topics course for content not currently offered in regularly scheduled courses. May include library and/or laboratory research, and field projects. (Irreg.)

ITAL 3073 Italian Conversation & Culture 3 Credit Hours
Prerequisite: ITAL 2223. Intensive practice in speaking Italian on topics of everyday life. (Sp)

ITAL 3423 In Altre Parole: Writing in Italian 3 Credit Hours
Prerequisite: ITAL 2223. The inculcation of proper writing habits, at an advanced level, toward the achievement of idiomatic Italian. (F)

ITAL 3440 Mentored Research Experience 3 Credit Hours
0 to 3 hours. Prerequisites: ENGL 1113 or equivalent, and permission of instructor. May be repeated; maximum credit 12 hours. For the inquisitive student to apply the scholarly processes of the discipline to a research or creative project under the mentorship of a faculty member. Student and instructor should complete an Undergraduate Research & Creative Projects (URCP) Mentoring Agreement and file it with the URCP office. Not for honors credit. (F, Sp, Su)

ITAL 3553 Authors and Ideas: From Dante to our Time 3 Credit Hours
Prerequisite: ITAL 2223 or permission. Survey of Italian literature from the Middle Ages to the present day through major works of literature and the visual arts--invoking names such as Dante, Machiavelli, Michelangelo, Galileo and Calvino. (F)

ITAL 3663 Italian Cinema, Theater and Media 3 Credit Hours

Prerequisite: 3073 or 3423. May be repeated with change of content; maximum credit nine hours. This course will focus on an author, genre, or theme present in contemporary Italian literature (1700-Present). Students will read primary sources in the original language with an emphasis on understanding the text through close textual analysis. (F)

ITAL 4630 Internship 1-3 Credit Hours
Prerequisite:permission of instructor and junior standing.1 to 3 hours. May be repeated; maximum credit three hours. For advanced language students studying in Italy as part of the OU in Arezzo program. Students enrolling in this variable credit course will enter into internships with area businesses, local, regional, and national government offices, non-profit organizations, and other local entities. Although the nature of the internships will vary depending on the partners, all internships will have the following requirements: the activities will be performed entirely in Italian; translation from English to Italian will not be the primary role of the intern; the sponsoring partner will provide at least weekly feedback; an OU faculty member will oversee the internship; at minimum students will complete an entrance, mid-term, final interview with the instructor; and a written final report. (F, Sp, Su)

ITAL 4960 Directed Readings 1-4 Credit Hours
1 to 4 hours. Prerequisite: good standing in University; permission of instructor and dean. May be repeated; maximum credit four hours. Designed for upper-division students who need opportunity to study a specific problem in greater depth than formal course content permits. (Irreg.)

ITAL 4970 Special Topics/Seminar 1-3 Credit Hours
1 to 3 hours. Prerequisite: Senior standing or permission of instructor. May be repeated; maximum credit nine hours. Special topics or seminar course for content not currently offered in regularly scheduled courses. May include library and/or laboratory research and field projects. (Irreg.)

ITAL 4990 Independent Study 1-3 Credit Hours
1 to 3 hours. Prerequisite: one course in general area to be studied; permission of instructor and department. May be repeated; maximum credit six hours. Contracted independent study for topic not currently offered in regularly scheduled courses. (F, Sp)

ITAL 4993 Capstone: Special Topics in Italian 3 Credit Hours
Prerequisite: ITAL 3073, ITAL 3423, and one of the following: ITAL 3553 or ITAL 3663 or ITAL 4513 or ITAL 4563. Capstone course. Requires undergraduate Italian majors to synthesize their knowledge of Italian contributions to world civilization. They will be required, as part of this enterprise, to demonstrate their mastery of the four basic skills involved in learning a foreign language: reading, writing, speaking, and understanding. (Sp) [V].

JAPN 1115 Beginning Japanese 5 Credit Hours
An elementary course in understanding, speaking, reading and writing Japanese. Laboratory. This course does not count for major credit in the Department of Modern Languages, Literatures and Linguistics. (F) [I-FL].

JAPN 1225 Beginning Japanese (Continued) 5 Credit Hours
(Continued) Prerequisite: 1115. An elementary course in understanding, speaking, reading and writing Japanese. Laboratory. This course does not count for major credit in the Department of Modern Languages, Literatures and Linguistics. (Sp) [I-FL] .

JAPN 2013 Intermediate Japanese Listening and Speaking 3 Credit Hours
Prerequisite: JAPN 2113 or concurrent enrollment with JAPN 2113. Provides intensive training in listening and speaking in Japanese for students who have taken first year Japanese. Through a systematic review of grammar and vocabulary taught in 1000-level Japanese coursework, develops students' understanding of functional ability to understand and speak Japanese and introduces unique features of Japanese language and culture, including formal and casual speech levels in Japanese. (F, Sp)

JAPN 2113 Intermediate Japanese 3 Credit Hours
Prerequisite: 1225. Combination of basic Japanese grammar and vocabulary and their application to spoken and written Japanese. Laboratory (F)

JAPN 2223 Intermediate Japanese (Continued) 3 Credit Hours
(Continued) Prerequisite: 2113. Develops control of the grammar, vocabulary and idioms of spoken Japanese and provides a thorough introduction to the Japanese writing system as well as some grammatical structures peculiar to written Japanese. Laboratory (Sp)

JAPN 2970 Special Topics/Seminar 1-3 Credit Hours
Special Topics. 1 to 3 hours. May be repeated; Maximum credit nine hours. Special topics course for content not currently offered in regularly scheduled courses. May include library and/or laboratory research, and field projects. (Irreg.)

JAPN 3013 Advanced Japanese Listening and Speaking 3 Credit Hours
Prerequisite: JAPN 2223 or concurrent enrollment in JAPN 2223. Designed to give intensive training in listening and speaking in Japanese for students who have successfully completed Japanese 2113. Develops students' understanding of functional ability of listening and speaking Japanese. Unique features of Japanese language and culture will be learned, including casual/polite speech, honorifics, giving-receiving verbs, a variety of new forms, such as transitive/intransitive, causative, passive, causative-passive forms. (F, Sp)

JAPN 3113 Advanced Japanese I 3 Credit Hours
Prerequisite: JAPN 2223. Trains students in advanced Japanese language skills of speaking, listening, reading, and writing and introduces new grammatical forms, vocabularies and expressions. Prepares students to understand Japanese society. (F, Sp)

JAPN 3223 Advanced Japanese II 3 Credit Hours
Prerequisite: JAPN 3113 or equivalent. An advanced course in conversation and composition covering cultural topics. Develops listening and speaking skills to communicate orally in authentic Japanese and expands spoken and written vocabulary knowledge. Presenting ideas in speech and composition effectively will be practiced. (Sp)

JAPN 3440 Mentored Research Experience 3 Credit Hours
0 to 3 hours. Prerequisites: ENGL 1113 or equivalent, and permission of instructor. May be repeated; maximum credit 12 hours. For the inquisitive student to apply the scholarly processes of the discipline to a research or creative project under the mentorship of a faculty member. Student and instructor should complete an Undergraduate Research & Creative Projects (URCP) Mentoring Agreement and file it with the URCP office. Not for honors credit. (F, Sp, Su)

JAPN 3680 Japanese Internship 1-3 Credit Hours
1 to 3 hours. Prerequisite: Majors only and junior standing; may be repeated; maximum credit six hours. The Japanese Internship Program is designed to provide students with a structured, supervised, and academically meaningful professional experience that directly supports their major field of study. Internships may take place at businesses, educational institutions, libraries, archives, media organizations, or other agencies whose work aligns with Japanese language, culture, history, or international engagement. (Irreg.)

JAPN 3960 Honors Reading 1-3 Credit Hours
1 to 3 hours. Prerequisite: Admission to Honors Program. May be repeated; maximum credit six hours. Consists of topics designated by the instructor in keeping with the student's major program. The topics will cover materials not usually presented in the regular courses. (F, Sp, Su)

JAPN 3970 Honors Seminar 1-3 Credit Hours
1 to 3 hours. Prerequisite: admission to Honors Program. May be repeated; maximum credit six hours. Subjects covered vary. Deals with concepts not usually treated in regular courses. (Irreg.)

JAPN 3980 Honors Research 1-3 Credit Hours
1 to 3 hours. Prerequisite: Admission to Honors Program. May be repeated; maximum credit six hours. Will provide an opportunity for the gifted Honors candidate to work at a special project in the student's field. (F, Sp, Su)

JAPN 3990 Independent Study 1-3 Credit Hours
1 to 3 hours. Prerequisite: 2223. May be repeated; maximum credit 12 hours. Contracted independent study for topic not currently offered in regularly scheduled courses. (F, Sp)

JAPN 4113 Japanese Language and Society I 3 Credit Hours
Prerequisite: JAPN 3223 or JAPN 4543. May be repeated with change of content; maximum credit six hours. Designed to develop the advanced-level proficiency in reading and writing. Authentic reading materials on various topics will be used in combination with discussions, and oral and written reports. Emphasis is placed on strengthening correct usage of grammar and increasing knowledge of Kanji and compound terms using expressions and idioms in Japanese. (F)

JAPN 4223 Japanese Language and Society II 3 Credit Hours
Prerequisite: JAPN 4113. An advanced course in conversation and composition covering cultural topics. Develops listening and speaking skills to communicate orally in authentic Japanese and expands spoken and written vocabulary knowledge. Effective presentation of ideas in speech and composition will be practiced. (Sp)

JAPN 4543 Introduction to Classical Japanese 3 Credit Hours
Prerequisite: JAPN 3223. Students will learn classical Japanese grammar, major Japanese literary texts, as well as Japanese customs in ancient Japan. (Sp)

JAPN 4960 Directed Readings 1-4 Credit Hours
1 to 4 hours. Prerequisite: good standing in University; permission of instructor and dean. May be repeated; maximum credit four hours. Designed for upper-division students who need opportunity to study a specific problem in greater depth than formal course content permits. (Irreg.)

JAPN 4970 Special Topics/Seminar 1-3 Credit Hours
1 to 3 hours. Prerequisite: Senior standing or permission of instructor. May be repeated; maximum credit nine hours. Special topics or seminar course for content not currently offered in regularly scheduled courses. May include library and/or laboratory research and field projects. (Irreg.)

JAPN 4990 Independent Study 1-3 Credit Hours
Prerequisite: junior standing and permission of instructor. May be repeated with change of content; maximum credit six hours. Contracted independent study on one or more topics not currently offered in regularly scheduled courses. Independent study may include library and/or laboratory research and field projects. (F, Sp, Su)

JAPN 4993 Senior Capstone in Japanese 3 Credit Hours
Prerequisite: JAPN 4113. Examines Japanese modern literature with a focus on the questions of Japanese modernity, post-modernity, nationalism, and cultural identity. (Sp)[V].

JAPN 5960 Directed Readings 1-3 Credit Hours
1 to 3 hours. Prerequisite: graduate standing and permission of department. May be repeated; maximum credit twelve hours. Directed readings and/or literature reviews under the direction of a faculty member. (F, Sp, Su)

JAPN 5970 Special Topics/Seminar 1-3 Credit Hours
1 to 3 hours. Prerequisite: Graduate standing or permission of instructor. May be repeated; maximum credit nine hours. Special topics or seminar course for content not currently offered in regularly scheduled courses. May include library and/or laboratory research and field projects. (Irreg.)

JAPN 5990 Independent Study 1-3 Credit Hours
Prerequisite: Graduate standing and permission of instructor. May be repeated with change of content; maximum credit 12 hours. Contracted independent study on one or more topics not currently offered in regularly scheduled courses. Independent study may include library and/or laboratory and field projects. (F, Sp, Su)

LING 1203 Language Across Cultures 3 Credit Hours
(Crosslisted with ANTH 1203) Theories of language family origins and their relationship to human migration; types of human languages; linguistic concept of genetic relatedness; writing systems development; non-Western sociolinguistic and usage phenomena; cultural and scientific importance of endangered languages; how languages become endangered; factors involved in preservation. This course may not count for major credit. (Sp) [IV-WDC].

LING 2023 Busting Language Myths 3 Credit Hours
Linguistics views language as a biological and social construct unique to humans as a species. With it, we understand others and make ourselves understood, we identify ourselves as members of particular groups, and we persuade, argue, reason, and think. The goal of this course is to examine everyday language myths from the perspective of linguistics, the scientific study of language. (F) [III-SS].

LING 2303 General Linguistics 3 Credit Hours
(Crosslisted with ANTH 2303) Humanistic and formal study of natural languages: how they are similar to, and different from, one anther in their use of speech sounds, logical structures and mechanisms that integrate events, objects and speakers in spatio-temporal contexts. The relationship between language and culture; language acquisition and language change. (F, Sp) [I-O] .

LING 2970 Special Topics 1-3 Credit Hours
1 to 3 hours. Prerequisite: May be repeated; maximum credit nine hours. Special topics course for content not currently offered in regularly scheduled courses. May include library and/or laboratory research, and field projects. (Irreg.)

LING 3033 Phonetic Description 3 Credit Hours
Prerequisite: LING 2303. Study of the basic principles in forming the phonetic description of human speech. (Sp)

LING 3043 Linguistic Semantics 3 Credit Hours
Prerequisite: 2303. An introduction to basic ideas and concepts in the field of linguistic semantics. Includes discussion of current issues and representative theoretical approaches. (F)

LING 3053 Phonology 3 Credit Hours
Prerequisite: LING 3033. Phonology is the study of sound patterns found in human language. Provides a grounding in phonological theory by examining data from several of the world's languages. Covers the phoneme-allophone distinction, distinctive features, feature re-write rules, and a broad sampling of phonological phenomena. (F)

LING 3133 Phonetic Field Methods 3 Credit Hours
Prerequisite: 3033 or Anthropology 3033. This course covers techniques used to collect phonetic data, methodological concerns, the acoustic basis of speech sounds, how to record speech for linguistic analysis, and both acoustic and articulatory techniques for documenting the phonetic properties of speech. (Irreg.)

LING 3173 Lesser Studied Languages 3 Credit Hours
Prerequisite LING/Anthropology 2303. Learning and discussing some of the core properties of a few languages that are not often taught in the language classroom. Develops the students' ability to discuss the properties of languages in a precise and careful way. (F, Sp)

LING 3353 Syntax 3 Credit Hours
Prerequisite: LING 2303. An introduction to the fundamental concepts of Chomskyan syntax. Includes theory of categories and constituents, basic syntactic relations, case theory, and binding theory. (F)

LING 3440 Mentored Research Experience 3 Credit Hours
0 to 3 hours. Prerequisites: ENGL 1113 or equivalent, and permission of instructor. May be repeated; maximum credit 12 hours. For the inquisitive student to apply the scholarly processes of the discipline to a research or creative project under the mentorship of a faculty member. Student and instructor should complete an Undergraduate Research & Creative Projects (URCP) Mentoring Agreement and file it with the URCP office. Not for honors credit. (F, Sp, Su)

LING 3813 Sociolinguistics 3 Credit Hours
Prerequisite: LING/ANTH 2303. The study of the many ways human beings speak as a function of their being members of communities and societies. Included are multilingualism, creole languages, social and regional dialects, registers, gender, class, ethnic varieties, and language valuation. Includes an introduction to statistical methods. (F, Sp)

LING 3960 Honors Reading 1-3 Credit Hours
1 to 3 hours. Prerequisite: admission to Honors Program. May be repeated; maximum credit six hours. Consists of topics designated by the instructor in keeping with the student's major program and will cover materials not usually presented in regular coursework. (F, Sp)

LING 3970 Honors Seminar 1-3 Credit Hours
1 to 3 hours. Prerequisite: admission to Honors Program. May be repeated; maximum credit six hours. Subjects covered vary. Deals with concepts not usually treated in regular courses. (Irreg.)

LING 3980 Honors Research 1-3 Credit Hours
1 to 3 hours. Prerequisite: admission to Honors Program. May be repeated; maximum credit six hours. Provides an opportunity for the gifted Honors candidate to work on a special project in his/her field. (F, Sp)

LING 3990 Independent Study 1-3 Credit Hours
1 to 3 hours. Prerequisite: permission of instructor and junior standing. May be repeated once with change of content. Independent study may be arranged to study a subject not available through regular course offerings. (F, Sp, Su)

LING 4023 Second Language Acquisition Theory 3 Credit Hours
(Slashlisted with 5023) Prerequisite: 2303 or four semesters foreign language. Multidisciplinary approach to second language acquisition. Treats child language, interlanguage, universal grammar, input, interaction, output, non-language influences and formal instruction. No student may earn credit for both 4023 and 5023. (F)

LING 4053 Morphology 3 Credit Hours
(Crosslisted with ANTH 4053) Prerequisite: 3053 and 3353. Introduces and develops theories and concepts of morphology including word formation, derivation, inflection, non-concatenative morphs, covert categories, prosodic phenomena, morphosyntactic categories and clitics. Data from non-Western languages will be prominent. (Irreg.)

LING 4173 Typology 3 Credit Hours
Prerequisite: LING 3053 and LING 3353. An introduction to the major results of morphosyntactic typology. Focuses on morphological typology (case marking/agreement) and on syntactic typology (the relation between case marking and grammatical relations, word order, and of three major constructions: passives, causatives, and relative clauses). (F, Sp)

LING 4313 Techniques of Historical Linguistics 3 Credit Hours
Prerequisite: 3053 or Anthropology 3053, or permission. Brief survey of the development of historical linguistics, the comparative method, internal reconstruction, types of linguistic change, relationships between linguistic and cultural change, new developments in the field of historical linguistics. No student may earn credit for both 4313 and 5313. (Irreg.)

LING 4330 Topics in Linguistics 1-4 Credit Hours
1 to 4 hours. Prerequisite: nine hours of linguistics; May be repeated with change of content; maximum credit nine hours. Topic areas will vary across theoretical and applied areas of linguistics. Some topics that are appropriate include socio-linguistics, psycho-linguistics, language acquisition, advanced syntax, advanced phonology, field phonetics, pragmatics, and comparative readings of twentieth-century theorists. (Irreg.)

LING 4363 Linguistic Field Methods 3 Credit Hours
(Slashlisted with 5363) Prerequisite: 2303, 3053, and 3353. An introduction to all phases of linguistic field techniques, including training in the selection of informants, the use of recording devices, and most important, the actual collection and analysis of linguistic materials. Students may not earn credit for both 4363 and 5363. (Irreg.)

LING 4960 Directed Readings 1-4 Credit Hours
1 to 4 hours. Prerequisite: good standing in University; permission of instructor and dean. May be repeated; maximum credit four hours. Designed for upper-division students who need opportunity to study a specific problem in greater depth than formal course content permits. (Irreg.)

LING 4970 Special Topics/Seminar 1-3 Credit Hours
1 to 3 hours. Prerequisite: Senior standing or permission of instructor. May be repeated; maximum credit nine hours. Special topics or seminar course for content not currently offered in regularly scheduled courses. May include library and/or laboratory research and field projects. (Irreg.)

LING 4983 Senior Essay 3 Credit Hours
Prerequisite: LING 3053 and 3353 and senior standing. Development of a research paper which relates the linguistics major coursework to general knowledge. (F, Sp) [V] .

LING 4990 Independent Study 1-3 Credit Hours
1 to 3 hours. Prerequisite: three courses in general area to be studied; permission of instructor and department. May be repeated; maximum credit six hours. Contracted independent study for topic not currently offered in regularly scheduled courses. Independent study may include library and/or research and field projects. (F, Sp)

LING 5023 Second Language Acquisition Theory 3 Credit Hours
(Slashlisted with 4023) Prerequisite: 2303 or four semesters foreign language. Multidisciplinary approach to second language acquisition. Treats child language, interlanguage, universal grammar, input, interaction, output, non-language influences and formal instruction. No student may earn credit for both 4023 and 5023. (F)

LING 5313 Techniques of Historical Linguistics 3 Credit Hours
Prerequisite: 3053 or Anthropology 3053 or permission. Brief survey of the development of historical linguistics, the comparative method, internal reconstruction, types of linguistic change, relationships between linguistic and cultural change, new developments in the field of historical linguistics. No student may earn credit for both 4313 and 5313. (Irreg.)

LING 5363 Linguistic Field Methods 3 Credit Hours
(Slashlisted with 4363) Prerequisite: graduate standing or permission of instructor. An introduction to all phases of linguistic field techniques, including training in the selection of informants, the use of recording devices, and most important, the actual collection and analysis of linguistic materials. No student may earn credit for both 4363 and 5363. (Irreg.)

LING 5960 Directed Readings 1-3 Credit Hours
1 to 3 hours. Prerequisite: graduate standing and permission of department. May be repeated; maximum credit twelve hours. Directed readings and/or literature reviews under the direction of a faculty member. (F, Sp, Su)

LING 5970 Special Topics/Seminar 1-3 Credit Hours
1 to 3 hours. Prerequisite: Graduate standing or permission of instructor. May be repeated; maximum credit nine hours. Special topics or seminar course for content not currently offered in regularly scheduled courses. May include library and/or laboratory research and field projects. (Irreg.)

LING 5980 Research for Master's Thesis 2-9 Credit Hours
Variable enrollment, two to nine hours; maximum credit applicable toward degree, nine hours. (F, Sp, Su)

LING 5990 Independent Study 1-3 Credit Hours
1 to 3 hours. Prerequisite: graduate standing, permission of instructor. May be repeated; maximum credit twelve hours. Independent reading on one or more topics under the general direction of a faculty member. (F, Sp)

LING 6960 Directed Readings 1-3 Credit Hours
1 to 3 hours. Prerequisite: graduate standing or permission of instructor. May be repeated; maximum credit six hours. Directed readings and/or literature review under the direction of a faculty member. (Irreg.)

LING 6970 Special Topics/Seminar 1-3 Credit Hours
1 to 3 hours. Prerequisite: graduate standing or permission of instructor. May be repeated; maximum credit 12 hours. Special topics or seminar course for content not currently offered in regularly scheduled courses. May include library and/or research and field projects. (Irreg.)

LING 6990 Independent Study 1-3 Credit Hours
1 to 3 hours. Prerequisite: Graduate standing and permission of instructor. May be repeated; maximum credit nine hours. Contracted independent study for a topic not currently offered in regularly scheduled courses. Independent study may include library and/or laboratory research and field projects. (Irreg.)

MLLL 1003 Introduction to Chinese Myths & Folklore 3 Credit Hours
Through studying an eclectic selection of time-honored Chinese myth and folklore, along with their adaptations, transculturation, transmediation, and transformation in modern and contemporary periods, students in this class will not only gain a deeper understanding and appreciation of Chinese culture, but also develop abilities in nuanced reading and critical thinking. (F) [IV-WDC].

MLLL 2003 Flavors of China: Culture and Society Through Cuisine 3 Credit Hours
As the Chinese saying goes, min yi shi wei tian ("food is people's primal need"). This English-taught course uses Chinese cuisine as a lens to explore China's language, geography, history, customs, regional diversity, and contemporary society, examining how foodways express cultural patterns and ongoing social change through readings, discussion, projects, field trips, and films. (F, Sp, Su) [IV-WDC].

MLLL 2970 Special Topics 1-3 Credit Hours
1 to 3 hours. Prerequisite: May be repeated; maximum credit nine hours. Special topics course for content not currently offered in regularly scheduled courses. May include library and/or laboratory research, and field projects. (Irreg.)

MLLL 3043 Mythology and Folklore 3 Credit Hours
Prerequisite: junior standing or permission. Readings in folktales and myths from cultures around the world, with a focus on narrative structures and the role of the storyteller. Involves weekly reading and weekly writing assignments and a semester-long research project published on the internet. (No previous web publishing experience is required). (F, Sp) [IV-WC] .

MLLL 3063 Survey of Jewish Literature from Antiquity to the Present 3 Credit Hours
Prerequisite: junior standing. Provides a survey of Jewish literature from the Hebrew Bible to contemporary American literature, presented as a journey in which stops will be made at important places, covering all significant periods, genres and prominent writers. (F) [IV-WC] .

MLLL 3073 The Hebrew Bible as Literature 3 Credit Hours
Prerequisite: ENGL 1213/Expo 1213. The Hebrew Bible is the best selling book in America every single year. We will explore its greatness by reading various Biblical texts such as a great novella, the Joseph story; the greatest religious conversion narrative, Ruth; the poetry of Psalms, and the rise of David from shepherd to king, as well as other favorites to be determined by class. (Sp) [IV-WC].

MLLL 3123 Russian Culture and Civilization 3 Credit Hours
Considers the historical and cultural heritage of Russia through a study of its geography, history, religion, language, literature and the fine arts. Allows students to appreciate the global perspectives and cultural diversity. [IV-WC] .

MLLL 3133 Soviet and Post-Soviet Cinema 3 Credit Hours
Prerequisite: junior standing. Familiarizes students with the history of film in the Soviet Union , from the silent movies of its beginnings to its manifestation at the present time. No previous knowledge of the Russian language is required. Russian social and political issues explored through film. (F, Su) [IV-WC] .

MLLL 3143 Dostoevsky and His Age 3 Credit Hours
Prerequisite: junior standing. Examination of the life and literary works of Fyodor Dostoevsky, with special attention to the role the writer played in Russian and Western intellectual history. Reading assignments will include Crime and Punishment, The Brothers Karamazov, and several shorter works, all in English translation. (Irreg.) [IV-WC] .

MLLL 3163 Chekhov 3 Credit Hours
Prerequisite: junior standing or permission. An introduction to Anton Chekhov's work in translation. Both short stories and plays will be read, studying their narrative structure, plot devices, character development, themes, and other elements, while placing Chekhov's work in its historical, cultural, and political context. Excerpts of various screen adaptations of his plays will also be viewed. (F) [IV-WC] .

MLLL 3173 Nabokov 3 Credit Hours
Prerequisite: junior standing or permission. An introduction to Vladimir Nabokov's work in English, including works translated from Russian as well as texts originally written in English. Focus will be on Nabokov's Novels; although, some short stories and poems will be included. The main methodology will center on applying the techniques of close textual analysis, while placing Nabokov's work in its historical, cultural, and political context. (F) [IV-WC] .

MLLL 3183 Tolstoy: Writer, Thinker, Social Critic 3 Credit Hours
Prerequisite: junior standing or permission of instructor. Introduction to Leo Tolstoy's work in translation. Traces Tolstoy's development as a writer of short stories, novels, and works of non-fiction. The writer's biography and significant aspects of nineteenth-century Russian society will inform discussions of Tolstoy's works, placing them in a broader context. In addition, students will explore Tolstoy's evolving religious, philosophical, and social ideas, as well as his legacy in Russia and throughout the world. (Irreg.) [IV-WC].

MLLL 3193 Trauma, Memory, and Narrative 3 Credit Hours
Prerequisite: junior standing. Ways in which traumatic historical events have been depicted in works of literature, art, and historical texts, and their commemoration in museum displays and in public ritual. While the focus is on the history of the Soviet Union and Eastern Europe, students will be encouraged to consider equivalent examples from other areas of the globe. (Irreg.) [IV-WC].

MLLL 3223 Japan Through Film and Literature 3 Credit Hours
Prerequisite: junior standing. Introduces Japanese post-war society and culture with emphasis on 1945 to the present, as reflected in film and literature. Students will examine essential issues, including class, family, gender, work, education, and minorities, paying attention to the struggles between traditional cultural values and modern society. (Irreg.) [IV-WDC] .

MLLL 3243 Readings in Arab/Islamic Heritage 3 Credit Hours
Prerequisite: Junior standing. Survey of Arab /Islamic from Pre-Islam until the fall of Andalusia. Students will read selections of pre-Islamic poetry, the Qur'an, prophetic tradition, law, sociology, architecture, food, fables, and folklore. (Sp) [IV-WDC].

MLLL 3273 Historical & Cultural Landscapes of Japan 3 Credit Hours
Prerequisite: Junior standing or instructor's permission. This course uses an innovative mix of sources, both primary (original texts from specific times in Japanese history) and secondary (modern scholarship about Japan), as well as historical, scientific and literary works. This mix allows us to unpack both the nature and history that shape Japan's development, as well as how people at different times understood themselves and their relationship. (F, Sp, Su) [IV-WDC].

MLLL 3303 The World of Dante 3 Credit Hours
Prerequisite: Junior standing and English 1213. In this course students will engage in a close reading of a fundamental text in the western literary tradition: Dante Alighieri's Divine Comedy. The course will also consider one of Dante's minor works, the Vita Nuova, as well as the modern critical readings of Dante's writing and thought. In lectures, special attention will be paid to the historical, political, literary and intellectual context of Dante's poetry and thought. Students will also be asked to contribute to the classroom atmosphere by responding to questions and participating in discussions. (Irreg.) [IV-WC].

MLLL 3313 Introduction to Italian Literature and Culture 3 Credit Hours
Prerequisite: English 1213 or EXPO 1213. Interdisciplinary approach to literature, culture, and history of the Italian peninsula, from the Middle Ages to the present day. Through major works of literature, political science, the visual arts, music, and cinema, students will set Italy's variegated literary and cultural expressions in their social and historical contexts. (F) [IV-WC].

MLLL 3323 Language, Culture, and Identity in the Middle East and North Africa 3 Credit Hours
Prerequisite: Junior standing. Introduction to the relationship between language, society, and identity in the Middle East and North Africa (MENA), with an emphasis on theoretical and methodological approaches from sociolinguistics and linguistic anthropology. (Sp) [IV-WDC].

MLLL 3343 Italian Pop Culture 3 Credit Hours
Prerequisite: Junior standing or permission of instructor. An examination of Italian culture after WW2 through cinema, television, comics, popular literature, and more. (Sp) [IV-WC].

MLLL 3353 Italian Mafia: A History of Violence through Literature and Cinema 3 Credit Hours
Prerequisite: Junior Standing or permission. Through the analysis of literary, cinematic, historical, and political works, this class examines the representations of the Italian organized crime in Italy and in the U.S., focusing on the representations of the relationship between institutions and criminal organizations. (F) [IV-WC].

MLLL 3373 Italian Cinema 3 Credit Hours
Prerequisite: junior standing and English 1213. The aim of this course is to develop interpretive skills relevant to the study of Italian cinema by examining some of its most significant films. More specifically, we will analyze the ways in which Italian society is portrayed and typified in Italian cinema. We will cover the major film movements and periods, from "cinema muto" to Neorealism, from "commedia all`Italiana" to the Italian horror genre and to the most recent works made by contemporary directors. (Irreg.) [IV-AF] .

MLLL 3393 Italian Cultural Literacy 3 Credit Hours
Prerequisite: junior standing or permission of instructor. Introduces students studying abroad in the OU in Arezzo semester program to important aspects of Italian culture and history. Students will gain an ability to engage with Italian cultural phenomena and interact with native Italian speakers. No previous knowledge of Italian is required. The cultural part of the course will be taught in English. (F, Sp, Su)

MLLL 3413 Arabic Literature and Culture 3 Credit Hours
Prerequisite: junior standing. A survey of Arabic literature tradition and cultural history from the 4th century to the present. Covers themes and genres of the cultural heritage of Arabic-Islamic civilization, continuities and discontinuities between the classical and modern period, and background political and social changes. (F) [IV-WDC].

MLLL 3440 Mentored Research Experience 3 Credit Hours
0 to 3 hours. Prerequisites: ENGL 1113 or equivalent, and permission of instructor. May be repeated; maximum credit 12 hours. For the inquisitive student to apply the scholarly processes of the discipline to a research or creative project under the mentorship of a faculty member. Student and instructor should complete an Undergraduate Research & Creative Projects (URCP) Mentoring Agreement and file it with the URCP office. Not for honors credit. (F, Sp, Su)

MLLL 3443 Islamic Culture in the United States 3 Credit Hours
Prerequisite: Junior Standing or Permission of the Instructor. This course introduces students to the historical development and cultural growth of Islam and Muslims in the US. Students will learn about the specific experiences and struggles of African, Asian, and Arab immigrants throughout American history. Students will also explore the role of American Muslims in reconciling ethnic differences and racial discrimination, advancing empowerment and advocacy, and engaging with self-representation. (F) [IV-WDC].

MLLL 3523 Survey of Russian Literature to 1917 in Translation 3 Credit Hours
Prerequisite: junior standing. Reading, analysis and discussion of key works of Russian 19th century literature, including the major novels, plays, and poetry selections in English translation. This course does not satisfy the third semester Arts and Sciences language requirement. (F) [IV-WC] .

MLLL 3533 Survey of Russian Literature from 1917 in Translation 3 Credit Hours
Prerequisite: junior standing or permission of instructor. Representative works of Soviet and post-Soviet literature are read and discussed. Selections of prose and poetry chosen from among symbolists, acmeists, futurists, populists, modernists, and post-modernists. This course does not satisfy the third semester Arts and Sciences language requirement. (Irreg.) [IV-WC] .

MLLL 3543 The Petersburg Myth and Text/The City in Russian Culture 3 Credit Hours
Prerequisite: junior standing. The role and significance of the city of St. Petersburg in Russian culture by examining its literary image and myth. All readings and discussions in English. (Irreg.) [IV-WC] .

MLLL 3553 Contemporary Russian Literature 3 Credit Hours
Prerequisite: junior standing. Explores major works of post-Soviet Russian literature. Students will become familiar with major figures and trends in contemporary Russian poetry and prose, and they will acquire critical vocabulary for analyzing works in any genre or national literary tradition. (Irreg.) [IV-WC].

MLLL 3573 Arthurian Legend and Literature 3 Credit Hours
(Crosslisted with ENGL 3573) Examination of the legend of King Arthur in European literature. Concentrate first on the historical Arthur, followed by major portion of semester on the medieval and modern literary texts concerning Arthur and the Round Table. All texts will be read in English translation. [IV-WC] .

MLLL 3613 Zen and Modern Japanese Culture 3 Credit Hours
Prerequisite: Junior standing. This course investigates articulations of Zen in modern Japanese culture across various media and thinkers. While we will discuss some premodern thinkers and touch on early art forms such as flower arrangement, painting, and the tea ceremony, we will do so only in retrospect, through modern commentary. (Irreg.) [IV-WDC].

MLLL 3623 Pre-Modern Japanese Literature and Culture 3 Credit Hours
Prerequisite: junior standing. A survey of Japanese literature from ancient time to the Meiji restoration. Covers prominent works of poetry and prose in English translation. Students are introduced to traditional genres, themes, rhetorical device and aesthetics, as well as socio-historical context of literary production. (Irreg.) [IV-WDC] .

MLLL 3633 Modern Japanese Literature and Culture 3 Credit Hours
Prerequisite: junior standing. A survey of Japanese literature from the Meiji restoration (1868) onward, with attention to social, political, and cultural issues as well as literary theory. Topics will include Japan's "westernization," "naturalism," proletarian literature movements, early post-war literature, and the "third new generation writers." (Sp) [IV-WDC].

MLLL 3663 Japanese Cinema 3 Credit Hours
Prerequisite: Junior standing. This course examines the development of Japanese film form and content, and of the cultural and political transformations imbricated with those developments. We will explore the place of cinema in shaping Japanese modernity; the silent era; cinema during World War II; the Golden Age of the 1950s, and the globalization of Japanese films in the decades after. (Irreg.) [IV-WDC].

MLLL 3673 Anime: the World of Japanese Animation 3 Credit Hours
(Crosslisted with FMS 3673) Prerequisite: Junior standing. This course explores the history and development of Japanese animation, or "anime". It examines how animation was brought to Japan, and how it developed prior to the Second World War, and then further in the postwar decades. We will highlight how despite being influenced by foreign sources, Japanese animators create a uniquely Japanese mode of image-making. (Irreg.) [IV-WDC].

MLLL 3683 Traditional Japanese Poetry and Poetics in Translation 3 Credit Hours
Prerequisite: Junior standing and ENGL/EXPO 1213. This course examines the long history and tradition of poetry in premodern Japan, and the philosophies and culture surrounding it. We explore poetry in both vernacular Japanese and Classical Chinese from Japan before the eighteenth century, and how poets and critics understood it. We will also try our own hands at making poems before compiling them into an anthology. (Sp)

MLLL 3693 Japanese Aesthetics and Media 3 Credit Hours
Prerequisite: Junior standing or instructor's permission. This course investigates Japanese aesthetics and media, premodern, modern, and postmodern. To this aim, the course first familiarizes students with general aesthetic theories, and evaluates their application across different periods, genre, media forms, as well as most importantly, within the specific context of Japanese culture and environment. (F, Sp, Su) [IV-AF].

MLLL 3753 Modern Chinese Literature and Culture 3 Credit Hours
Prerequisite: junior standing. Students will read Chinese literary texts in English translation and learn about the historical, political, social, and cultural contexts in which they were produced. (Sp) [IV-WDC].

MLLL 3763 Chinese Cinema 3 Credit Hours
Prerequisite: junior standing. Chinese films covering a wide range of historical periods and subjects will be viewed. The films screened in this class will be studied as reflections of their respective social, as well as the filmmakers' comments on and interventions of such realities. Cinematic concepts, techniques, and film theories, will be studied. (Sp) [IV-WDC].

MLLL 3823 German Culture and Thought 3 Credit Hours
Prerequisite: junior standing. Introduces major themes in German cultural history and analytical tools students can bring to the further study of German and/or other European literatures and cultures in translation. Specific topics may vary. (F) [IV-WC] .

MLLL 3960 Honors Reading 1-3 Credit Hours
1 to 3 hours. Prerequisite: admission to Honors Program. May be repeated; maximum credit six hours. Will consist of topics designated by the instructor in keeping with the student's major program. The topics will cover materials not usually presented in the regular courses. (F, Sp)

MLLL 3970 Honors Seminar 1-3 Credit Hours
1 to 3 hours. Prerequisite: admission to Honors Program. May be repeated; maximum credit six hours. Subjects covered vary. Deals with concepts not usually treated in regular courses. (Irreg.)

MLLL 3980 Honors Research 1-3 Credit Hours
1 to 3 hours. Prerequisite: admission to Honors Program. May be repeated; maximum credit six hours. Provides an opportunity for the Honors candidate to work on a special project in the student's field. (F, Sp)

MLLL 3990 Independent Study 1-3 Credit Hours
1 to 3 hours. Prerequisite: permission of instructor and junior standing. May be repeated once with change of content. Independent study may be arranged to study a subject not available through regular course offerings. (F, Sp, Su)

MLLL 3993 Contemporary Brazilian Film 3 Credit Hours
Prerequisite: Junior Standing. In this class students will get an overview of cinema recently produced in Brazil. Besides an analysis of the films themselves, in classes we will consider both the context in which the movies were produced, and the specific context presented in each, always in comparative fashion. All movies are available for watching online on canvas or on appropriate platforms. (Sp) [IV-WC].

MLLL 4003 Movements in World Literature 3 Credit Hours
(Crosslisted with ENGL 4003) Prerequisite: junior standing; May be repeated with change of subject matter; maximum credit nine hours. Focuses on texts within a literary movement (literature other than canonical American or British). Also attention to critical and theoretical questions about concepts such as genre, nation, national building, national identity, etc. (Irreg.)

MLLL 4043 European Modernism and Beyond 3 Credit Hours
(Crosslisted with ENGL 4043) Prerequisite: Junior standing or permission of instructor. This course explores twentieth-century European literary movements from Modernism to Postmodernism, examining diverse literary, artistic, and cultural trends. Through the literary works of Gide, Woolf, Hemingway, Kafka, Sartre, and others, students analyze how authors present themes of freedom, identity, and art. Key movements include Existentialism, the Theatre of the Absurd, and the New Novel, reflecting Europe's evolving intellectual landscape. (F, Sp)

MLLL 4063 Early Literary Criticism 3 Credit Hours
(Slashlisted with 5063) Prerequisite: junior standing and English 1213. Establishes a solid critical foundation of aesthetics that will enable graduate and advanced undergraduate students to deal with fundamental ideas; aesthetic and social. Emphasis on rhetoric and discourse during the second part of the semester will also enable all students to write strategically and develop effective communication skills. No student may earn credit for both 4063 and 5063. (F)

MLLL 4113 Cultures in Portuguese: Brazil, Portugal, and Beyond 3 Credit Hours
Prerequisite: minimum of 30 hours earned. Survey of cultures that speak Portuguese, focusing on the best cultural production in Portuguese from Europe, the Americas, and Africa. Students will compare and contrast these cultures, which will be presented in literature, cinema and the arts. Students will see how Western and non-Western cultural elements interact and influence each other in these cultures, creating interesting and exciting hybrids. (F) [IV-WC] .

MLLL 4173 Introduction to Francophone Literatures in Translation 3 Credit Hours
Prerequisite: junior standing. Examines the literary, social, and political issues forefronted by the Francophone literatures of West Africa, the Caribbean, and Polynesian Islands, Maghreb (chiefly Algeria, Tunisia, Morocco), and Quebec. (Sp) [IV-WDC].

MLLL 4213 Vienna 1900: City of Dreams 3 Credit Hours
Prerequisite: Junior Standing or permission of instructor. This course explores Vienna (1867-1938) as a "city of dreams" shaping modernity--from Freud's psychoanalysis and imperial politics to artistic, scientific, and literary experimentation. Through works by Freud, Klimt, Rilke, Else Jerusalem, and Kafka, and key scholarship on European modernism, students examine how Vienna's cultural networks forged influential visions of the modern world. (F, Sp, Su)

MLLL 4223 German Visions of Nature 3 Credit Hours
Prerequisite: Junior standing or permission of the instructor. Using Edward Hall's "iceberg" model, this course explores contemporary Germany by examining deep cultural views of human-nature relations. Through literature, film, art, and environmental history, students study narratives and themes--water, forests, mountains, and animals--from around 1800 to today, while reflecting on their own culturally shaped understandings of nature. (F, Sp, Su) [IV-WC].

MLLL 4453 Introduction to Chinese Language and Linguistics 3 Credit Hours
Prerequisite: Chinese 1115 and Chinese 1225, or LING/ANTH 2303 and LING 3033. Introduction to the structure of the Chinese language and its sociocultural meanings, with an emphasis on phonology, morphology, syntax, the writing system, and the language's interaction with culture and society. (F)

MLLL 4553 Lat America in its Lit: The Search for a Latin-American Identity 3 Credit Hours
Prerequisite: junior Standing. The course fosters an understanding of the political nature, impetus and implications of Latin-American literature. It examines stereotypes and the basis upon which they are constructed and develops an awareness of the varied identities reflected in Latin-American literature. (F)

MLLL 4753 Language, Culture, & Cognition 3 Credit Hours
Prerequisite: Junior standing. How do languages/cultures shape the ways we think? Does learning new languages change the way you think? This course introduces the cognitive view of language use in Chinese and how it plays a critical role in mind-shaping in its cultural context. It also pursues a cross-linguistic/cross-cultural perspective on the study of Chinese languages as a window into cognition and culture. (Irreg.)

MLLL 4813 Principles and Techniques of Teaching a Foreign Language 3 Credit Hours
(Slashlisted with MLLL 5813) Prerequisite: four semesters of a foreign language or admission to the foreign language education major. Provides participants with practical experience in the teaching of foreign languages and introduces key issues in the teaching of foreign languages. Also introduces issues in teaching methodology and key issues in classroom language acquisition research. No student may earn credit for both 4813 and 5813. (F, Sp)

MLLL 4883 Puterbaugh/Neustadt International Literature 3 Credit Hours
(Slashlisted with MLLL 5883; Crosslisted with ENGL 4883) Prerequisite: ENGL 1213 and permission of department; May be repeated with a change of content, maximum credit nine hours. In-depth study of selected contemporary international writers/jurors who visit OU campus as part of the Neustadt and/or Puterbaugh symposia for World Literature Today. No student may earn credit for both 4883 and 5883. (Irreg.)

MLLL 4950 Special Topics in World Literature Today 1-3 Credit Hours
1 to 3 hours. Prerequisite: English 1213 and permission of instructor. May be repeated with change of content; maximum credit six hours. In-depth study of selected contemporary international writers/jurors who visit campus as part of the Neustadt and/or Puterbaugh symposiums for world literature today. (Irreg.)

MLLL 4960 Directed Readings 1-4 Credit Hours
1 to 4 hours. Prerequisite: good standing in University; permission of instructor and dean. May be repeated; maximum credit four hours. Designed for upper-division students who need opportunity to study a specific problem in greater depth than formal course content permits. (Irreg.)

MLLL 4970 Seminar 1-4 Credit Hours
1 to 4 hours. Prerequisite: permission of instructor. May be repeated with change of content; maximum credit six hours. Varied topics in literature in English translation. (Irreg.)

MLLL 4990 Independent Study 1-3 Credit Hours
1 to 3 hours. Prerequisite: Senior standing and permission of instructor. May be repeated; maximum credit nine hours. Contracted independent study for a topic not currently offered in regularly scheduled courses. Independent study may include library and/or laboratory research and field projects. (Irreg.)

MLLL 4993 Epics of India: Ramayana and Mahabarata 3 Credit Hours
Prerequisite: junior standing. Reading of the two great epics of India. Special attention will be paid to narrative structure and the role of the storyteller. The course involves extensive weekly reading along with weekly writing assignments and a semester-long research project which students will publish on the internet (no previous web publishing experience is required. (Sp) [IV-WDC] .

MLLL 5063 Early Literary Criticism 3 Credit Hours
(Slashlisted with 4063) Prerequisite: graduate standing. Establishes a solid critical foundation of aesthetics that will enable graduate and advanced undergraduate students to deal with fundamental ideas; aesthetic and social. Emphasis on rhetoric and discourse during the second part of the semester will also enable all students to write strategically and develop effective communication skills. No student may earn credit for both 4063 and 5063. (F)

MLLL 5073 Contemporary Literary Criticism 3 Credit Hours
An introduction to contemporary linguistic, psychoanalytic and sociological literary theory and criticism. Readings and discussions will include questions of methodology and will demonstrate how these methods can be applied to particular texts. (Sp)

MLLL 5173 Introduction to Francophone Literatures in Translation 3 Credit Hours
Prerequisite: graduate standing. Examines the literary, social, and political issues fore-fronted by the Francophone literatures of West Africa, the Caribbean, and Polynesian Islands, Maghreb (chiefly Algeria, Tunisia, Morocco), and Quebec. (Sp)

MLLL 5813 Principles and Techniques of Teaching a Foreign Language 3 Credit Hours
(Slashlisted with MLLL 4813) Prerequisite: graduate standing. Provides participants with practical experience in the teaching of foreign languages and introduces key issues in the teaching of foreign languages. Also introduces issues in teaching methodology and key issues in classroom language acquisition research. No student may earn credit for both 4813 and 5813. (F, Sp)

MLLL 5883 Puterbaugh/Neustadt International Literature 3 Credit Hours
(Slashlisted with MLLL 4883; Crosslisted with ENGL 5883) Prerequisite: Graduate standing and permission of department; May be repeated with a change of content; maximum credit nine hours. In-depth study of selected contemporary international writers/jurors who visit OU campus as part of the Neustadt and/or Puterbaugh symposia for World Literature Today. No student may earn credit for both 4883 and 5883. (Irreg.)

MLLL 5910 Problems in Research 2-4 Credit Hours
2 to 4 hours. Prerequisite: permission of instructor. May be repeated with change of content; maximum credit fours hours. An individual course of intensive research with the area and problem to be determined by the student and directing instructor. (Irreg.)

MLLL 5920 Field Research in Foreign Language Education 1-3 Credit Hours
1 to 3 hours. Prerequisite: 5833. Classroom oriented field research on the use of various methods of teaching foreign language in the classroom. Possible topics include aspects of language acquisition, evaluation, proficiency, communicative methods in foreign language education. (F, Sp, Su)

MLLL 5960 Directed Readings 1-3 Credit Hours
1 to 3 hours. Prerequisite: graduate standing and permission of department. May be repeated; maximum credit twelve hours. Directed readings and/or literature reviews under the direction of a faculty member. (F, Sp, Su)

MLLL 5970 Special Topics/Seminar 1-3 Credit Hours
1 to 3 hours. Prerequisite: Graduate standing or permission of instructor. May be repeated; maximum credit nine hours. Special topics or seminar course for content not currently offered in regularly scheduled courses. May include library and/or laboratory research and field projects. (Irreg.)

MLLL 5990 Independent Study 1-3 Credit Hours
1 to 3 hours. Prerequisite: Graduate standing and permission of instructor. May be repeated; maximum credit nine hours. Contracted independent study for a topic not currently offered in regularly scheduled courses. Independent study may include library and/or laboratory research and field projects. (Irreg.)

PORT 1115 Beginning Portuguese 5 Credit Hours
Develop the skills necessary to grasp fundamental principles of Portuguese and Luso-Brazilian culture, and to acquire basic proficiency in the four skills of language learning: listening, speaking, reading and writing. This course does not count for major credit in the Department of Modern Languages, Literatures and Linguistics. (F, Sp) [I-FL].

PORT 1225 Beginning Portuguese Continued 5 Credit Hours
Prerequisite: 1115. Give continuity to the skills acquired during the first semester of Portuguese in order to become more fluent in the spoken language as well as more proficient in writing. This course does not count for major credit in the Department of Modern Languages, Literatures and Linguistics. (F, Sp) [I-FL].

PORT 2113 Intermediate Portuguese 3 Credit Hours
Prerequisite: 1225. Develops reading skills and control of grammar while cultivating depth of oral and writing ability. Emphasis on expansion of vocabulary and strong reinforcement of grammatical structures. Reading and discussion of texts of literary and cultural interest. Oral and written assignments. (F, Sp)

PORT 2223 Intermediate Portuguese (Continued) 3 Credit Hours
Prerequisite: 2113. Refines reading skills and mastery of grammar. Emphasis on sophisticated vocabulary and understanding of grammatical structures. Literary and cultural texts discussed in oral and essay form. (F, Sp)

PORT 2970 Special Topics/Seminar 1-3 Credit Hours
1 to 3 hours. Prerequisite: May be repeated; maximum credit nine hours. Special topics course for content not currently offered in regularly scheduled courses. May include library and/or laboratory research, and field projects. (Irreg.)

PORT 3113 Advanced Portuguese 3 Credit Hours
Prerequisite: 2223. Develops further reading skills and control of grammar, cultivates speaking and writing ability, and exposes students to a wide range of topics covered daily by Brazilian newspapers and magazines. (F)

PORT 3223 Advanced Portuguese Continued 3 Credit Hours
Prerequisite: 3113. Continuation of 3113. Develops further reading skills and control of grammar while cultivating depth of oral and writing ability. Exposes the student to a wide range of topics covered daily by Brazilian newspapers and magazines. (Sp)

PORT 3440 Mentored Research Experience 3 Credit Hours
0 to 3 hours. Prerequisites: ENGL 1113 or equivalent, and permission of instructor. May be repeated; maximum credit 12 hours. For the inquisitive student to apply the scholarly processes of the discipline to a research or creative project under the mentorship of a faculty member. Student and instructor should complete an Undergraduate Research & Creative Projects (URCP) Mentoring Agreement and file it with the URCP office. Not for honors credit. (F, Sp, Su)

PORT 3960 Honors Reading 1-3 Credit Hours
1 to 3 hours. Prerequisite: Admission to Honors Program. May be repeated; maximum credit six hours. Consists of topics designated by the instructor in keeping with the student's major program. The topics will cover materials not usually presented in the regular courses. (F, Sp, Su)

PORT 3970 Honors Seminar 1-3 Credit Hours
1 to 3 hours. Prerequisite: admission to Honors Program. May be repeated; maximum credit six hours. Subjects covered vary. Deals with concepts not usually treated in regular courses. (Irreg.)

PORT 3980 Honors Research 1-3 Credit Hours
1 to 3 hours. Prerequisite: Admission to Honors Program. May be repeated; maximum credit six hours. Will provide an opportunity for the gifted Honors candidate to work at a special project in the student's field. (F, Sp, Su)

PORT 3990 Independent Study 1-3 Credit Hours
1 to 3 hours. Prerequisite: one course in general area to be studied; permission of instructor and department. May be repeated; maximum credit six hours. Contracted independent study for topic not currently offered in regularly scheduled courses. (F, Sp)

PORT 4960 Directed Readings 1-4 Credit Hours
1 to 4 hours. Prerequisite: good standing in University; permission of instructor and dean. May be repeated; maximum credit four hours. Designed for upper-division students who need opportunity to study a specific problem in greater depth than formal course content permits. (Irreg.)

PORT 4970 Special Topics/Seminar 1-3 Credit Hours
1 to 3 hours. Prerequisite: Senior standing or permission of instructor. May be repeated; maximum credit nine hours. Special topics or seminar course for content not currently offered in regularly scheduled courses. May include library and/or laboratory research and field projects. (Irreg.)

PORT 4990 Independent Study 1-3 Credit Hours
1 to 3 hours. Prerequisite: one course in general area to be studied; permission of instructor and department. May be repeated; maximum credit six hours. Contracted independent study for topic not currently offered in regularly scheduled courses. (F, Sp)

RUSS 1115 Beginning Russian 5 Credit Hours
An elementary course in understanding, speaking, reading and writing Russian. This course does not count for major credit in the Department of Modern Languages, Literatures and Linguistics. (F, Sp, Su) [I-FL].

RUSS 1225 Beginning Russian (Continued) 5 Credit Hours
Prerequisite: 1115. An elementary course in understanding, speaking, reading and writing Russian. This course does not count for major credit in the Department of Modern Languages, Literatures and Linguistics. (F, Sp) [I-FL].

RUSS 2113 Intermediate Russian 3 Credit Hours
Prerequisite: 1225. Training in reading, writing, speaking, and understanding contemporary Russian. Emphasis on expansion of vocabulary and strong reinforcement of grammatical structures. (F, Sp)

RUSS 2223 Intermediate Russian (Continued) 3 Credit Hours
Prerequisite: 2113. Continued training in reading, writing, speaking, and understanding contemporary Russian. Emphasis on expansion of vocabulary and strong reinforcement of grammatical structures. (F, Sp)

RUSS 2970 Special Topics/Seminar 1-3 Credit Hours
Special Topics. 1 to 3 hours. May be repeated; maximum credit nine hours. Special topics course for content not currently offered in regularly scheduled courses. May include library and/or laboratory research, and field projects. (Irreg.)

RUSS 3023 Beginning Business Russian 3 Credit Hours
Prerequisite: twenty hours of Russian. Intended to enable Russian students to read, write, and translate business Russian. Readings in this course will consist of translating contracts, agreements, and other areas of commercial correspondence. (Irreg.)

RUSS 3073 Russian Conversation 3 Credit Hours
Prerequisite: RUSS 2113. Training in reading, writing, and understanding contemporary Russian. Emphasis on expansion of vocabulary and strong reinforcement of grammatical structures. (F, Sp)

RUSS 3313 Russian Phonetics 3 Credit Hours
Prerequisite: 2113. A detailed study of the sounds of Russian and the inculcation of proper speech habits. (Irreg.)

RUSS 3323 Advanced Russian Reading and Composition 3 Credit Hours
Prerequisite: 2223. A systematic grammar review with a view toward improving the student's control of written Russian. (F)

RUSS 3423 Advanced Russian Reading and Composition (Continued) 3 Credit Hours
Prerequisite: 3323. A systematic grammar review with a view toward improving the student's control of written Russian. (Sp)

RUSS 3440 Mentored Research Experience 3 Credit Hours
0 to 3 hours. Prerequisites: ENGL 1113 or equivalent, and permission of instructor. May be repeated; maximum credit 12 hours. For the inquisitive student to apply the scholarly processes of the discipline to a research or creative project under the mentorship of a faculty member. Student and instructor should complete an Undergraduate Research & Creative Projects (URCP) Mentoring Agreement and file it with the URCP office. Not for honors credit. (F, Sp, Su)

RUSS 3523 Interpreting the Russian Media 3 Credit Hours
Prerequisite: 2223. Focus on developing higher-level receptive and productive language skills through an exposure to authentic texts from Russian print media and television news reports. Students will focus on vocabulary-building, recognizing and employing journalistic conventions, reading between the lines, understanding nuance and enhancing their awareness of cultural references. (Irreg.)

RUSS 3533 Russian Pop Culture 3 Credit Hours
Prerequisite: RUSS 2223. A communicative language class in which students explore contemporary Russian-language popular music, television programming, and internet culture. (Irreg.)

RUSS 3960 Honors Reading 1-3 Credit Hours
1 to 3 hours. Prerequisite: admission to Honors Program. May be repeated; maximum credit six hours. Consists of topics designated by the instructor in keeping with the student's major program. The topics will cover materials not usually presented in the regular courses. (F, Sp, Su)

RUSS 3970 Honors Seminar 1-3 Credit Hours
1 to 3 hours. Prerequisite: admission to Honors Program. May be repeated; maximum credit six hours. The projects covered will vary. The content will deal with concepts not usually covered in regular coursework. (Irreg.)

RUSS 3980 Honors Research 1-3 Credit Hours
1 to 3 hours. Prerequisite: admission to Honors Program. May be repeated; maximum credit six hours. Provides an opportunity for the gifted Honors candidate to work at a special project in the student's field. (F, Sp)

RUSS 3990 Independent Study 1-3 Credit Hours
1 to 3 hours. Prerequisite: one course in general area to be studied; permission of instructor and department. May be repeated; maximum credit six hours. Contracted independent study for topic not currently offered in regularly scheduled courses. Independent study may include library and/or laboratory research and field projects. (F, Sp)

RUSS 4173 Topics in Nineteenth-Century Russian Literature and Culture 3 Credit Hours
Prerequisite: 3423. May be repeated once with change of content; maximum credit six hours. A course for advanced students of the Russian language. All reading assignments and lectures will be in Russian. (F)

RUSS 4183 Topics in 20th and Post-20th Century Russian Literature and Culture 3 Credit Hours
Prerequisite: 3423. May be repeated once with change of content; maximum credit six hours. A course for advanced students of the Russian language. All reading assignments and lectures will be in Russian. (Sp) [V].

RUSS G4613 Advanced Russian Conversation 3 Credit Hours
Prerequisite: 3073, 3323. Conversation on topics in Soviet history, government, literature and sociology with emphasis on the particular terminology of each of these fields. (Sp)

RUSS 4960 Directed Readings 1-4 Credit Hours
1 to 4 hours. Prerequisite: good standing in University; permission of instructor and dean. May be repeated; maximum credit four hours. Designed for upper-division students who need opportunity to study a specific problem in greater depth than formal course content permits. (Irreg.)

RUSS 4970 Special Topics/Seminar 1-3 Credit Hours
1 to 3 hours. Prerequisite: Senior standing or permission of instructor. May be repeated; maximum credit nine hours. Special Topics or seminar course for content not currently offered in regularly scheduled courses. May include library and/or laboratory research and field projects. (Irreg.)

RUSS 4990 Independent Study 1-3 Credit Hours
1 to 3 hours. Prerequisite: three courses in general area to be studied; permission of instructor and department. May be repeated; maximum credit six hours. Contracted independent study for topic not currently offered in regularly scheduled courses. Independent study may include library and/or laboratory research and field projects. (F, Sp)

RUSS 5910 Problems in Research 2-4 Credit Hours
2 to 4 hours. May be repeated with change of content; maximum credit nine hours. An individual course of intensive research with the area and problem to be determined by the student and directing instructor. (F, Sp)

RUSS 5960 Directed Readings 1-3 Credit Hours
1 to 3 hours. Prerequisite: graduate standing and permission of department. May be repeated; maximum credit twelve hours. Directed readings and/or literature reviews under the direction of a faculty member. (F, Sp, Su)

RUSS 5970 Special Topics/Seminar 1-3 Credit Hours
1 to 3 hours. Prerequisite: Graduate standing or permission of instructor. May be repeated; maximum credit nine hours. Special topics or seminar course for content not currently offered in regularly scheduled courses. May include library and/or laboratory research and field projects. (Irreg.)

RUSS 5990 Independent Study 1-3 Credit Hours
1 to 3 hours. Prerequisite: Graduate standing and permission of instructor. May be repeated; maximum credit nine hours. Contracted independent study for a topic not currently offered in regularly scheduled courses. Independent study may include library and/or laboratory research and field projects. (Irreg.)

SPAN 1115 Beginning Spanish 5 Credit Hours
An elementary course in understanding, speaking, reading and writing Spanish. Laboratory. This course does not count for major credit in the Department of Modern Languages, Literatures and Linguistics. (F, Sp, Su) [I-FL] .

SPAN 1225 Beginning Spanish (Continued) 5 Credit Hours
Prerequisite: 1115. An elementary course in understanding, speaking, reading and writing Spanish. Laboratory. This course does not count for major credit in the Department of Modern Languages, Literatures and Linguistics. (F, Sp, Su) [I-FL] .

SPAN 2113 Intermediate Spanish 3 Credit Hours
Prerequisite: 1225 or equivalent. Develops reading skills and control of grammar while cultivating depth of oral and writing ability. Emphasis on expansion of vocabulary and strong re-enforcement of grammatical structures. Reading and discussion of texts of literary and cultural interest. Oral and written assignments. (F, Sp, Su).

SPAN 2223 Intermediate Spanish Continued 3 Credit Hours
Prerequisite: 2113. Refines reading skill and mastery of grammar. Emphasis on sophisticated vocabulary and understanding of grammatical structures. Literary and cultural texts discussed in oral and essay form. (F, Sp, Su)

SPAN 2603 Spanish for Social Work Majors 3 Credit Hours
Prerequisite: social work major and SPAN 1225 or equivalent. Designed to prepare students for an intermediate proficiency in Spanish. An expansion of vocabulary and grammatical structure used in practice settings commonly experienced by social workers is emphasized. This course may not count for credit for any major other than social work. (F, Sp)

SPAN 2970 Special Topics/Seminar 1-3 Credit Hours
Special Topics. 1 to 3 hours. May be repeated; maximum credit nine hours. Special topics course for content not currently offered in regularly scheduled courses. May include library and/or laboratory research, and field projects. (Irreg.)

SPAN 3073 Grammar in Conversational Communication 3 Credit Hours
Prerequisite: SPAN 2223. Aim is to improve students' conversational skills through an active use of the Spanish language. By using a contextualized content-based approach, focuses on seven core communicative functions and engages in meaningful communicative practices through listening and speaking activities related to cinema and other forms of cultural production. (F, Sp)

SPAN 3423 Grammar in Written Communication 3 Credit Hours
Prerequisite: SPAN 2223. Further develops communicative abilities as well as increasing students' knowledge and ability to produce a variety of forms of cultural production in the Spanish language. Writing as a process that includes brainstorming, organization, outline, drafts and revisions will be learned. Familiarity with authentic texts written in different styles will be developed. (F, Sp)

SPAN 3440 Mentored Research Experience 3 Credit Hours
0 to 3 hours. Prerequisites: ENGL 1113 or equivalent, and permission of instructor. May be repeated; maximum credit 12 hours. For the inquisitive student to apply the scholarly processes of the discipline to a research or creative project under the mentorship of a faculty member. Student and instructor should complete an Undergraduate Research & Creative Projects (URCP) Mentoring Agreement and file it with the URCP office. Not for honors credit. (F, Sp, Su)

SPAN 3723 Business Spanish 3 Credit Hours
Prerequisite: SPAN 3073. Designed to develop an understanding of the business cultures of Latin America and Spain. Methods for communicating with Spanish-speaking companies or customers will be learned. In addition, linguistic and intercultural skills that will enable students to perform different commercial transactions, as well as attend a trade fair to meet potential customers, will be learned. This course includes a service learning component. (F, Sp)

SPAN 3733 Medical Spanish 3 Credit Hours
Prerequisite: SPAN 3073. Develops new critical perspectives on health care for the Hispanic community in the United States. Develops medical language skills and cultural competency for health care situations in order to allow for more effective communication with Spanish-speaking patients and their families. Introduces essential medical vocabulary, practical reference information, and medical notes written from a cross-cultural perspective. (F, Sp)

SPAN 3743 Legal Spanish 3 Credit Hours
Prerequisite: SPAN 3073. Provides an overview of the Spanish language in the legal context. Spanish legal terminology and conversational topics in areas such as civil rights, employment law, family law, immigration law, and human rights will be studied. Legal texts and arguments in order to discuss their implications for the Spanish community in the United States will be examined. (F, Sp)

SPAN 3753 Spanish for Social Work 3 Credit Hours
Prerequisite: SPAN 3073. Addresses students' needs in the area of social work. Spanish terminology and conversational topics related to social services will be examined. Includes an exploration of current policy issues and emerging social needs affecting Spanish-speaking families in Oklahoma, as well as resources available to this group, and gaps in services. (F, Sp)

SPAN 3763 Spanish for Journalism 3 Credit Hours
Prerequisite: SPAN 3073. An introduction to the exciting world of journalism in Spanish. Explores the ingredients of news and news gathering as well as how to tell stories in Spanish across media platforms (print, radio, television, etc.). How to cover a variety of people, places, things, events, and issues associated with the Hispanic community in the United States will be learned. (F, Sp)

SPAN 3853 Introduction to Hispanic Literature and Culture 3 Credit Hours
Prerequisite: SPAN 2223. Initiates students into the literatures and cultures of the Hispanic world, both in Spain and Latin America. Teaches how to analyze literature by literary genres and movements. Emphasis on all four language skills (hearing, speaking, reading, and writing) and culture. (F, Sp)

SPAN 3960 Honors Reading 1-3 Credit Hours
1 to 3 hours. Prerequisite: admission to Honors Program. May be repeated; maximum credit six hours. Consists of topics designated by the instructor in keeping with the student's major program. The topics will cover materials not usually presented in the regular courses. (F, Sp)

SPAN 3970 Honors Seminar 1-3 Credit Hours
1 to 3 hours. Prerequisite: admission to Honors Program. May be repeated; maximum credit six hours. The projects covered will vary. The content will deal with concepts not usually presented in regular coursework. (F, Sp, Su)

SPAN 3980 Honors Research 1-3 Credit Hours
1 to 3 hours. Prerequisite: admission to Honors Program. May be repeated; maximum credit six hours. Provides an opportunity for the gifted Honors candidate to work at a special project in the student's field. (F, Sp)

SPAN 3990 Independent Study 1-3 Credit Hours
1 to 3 hours. Prerequisite: one course in general area to be studied; permission of instructor and department. May be repeated; maximum credit six hours. Contracted independent study for topic not currently offered in regularly scheduled courses. Independent study may include library and/or laboratory research and field projects. (F, Sp, Su)

SPAN 4083 Literature and Culture of Spain 3 Credit Hours
Prerequisite: SPAN 3853. May be repeated with change of content; maximum credit nine hours. Introduces the literature and culture of Spain. It covers canonical texts from the Early to the Early Modern Period. It also emphasizes culture throughout its rich history. Like all other courses in Spanish, it emphasizes as well all four language skills (hearing, speaking, reading, and writing) and culture. (F, Sp)

SPAN 4113 Literature and Culture of Latin America 3 Credit Hours
Prerequisite: SPAN 3853. May be repeated with change of content; maximum credit nine hours. Introduces the literature and culture of Latin America. Covers canonical texts from the Early (Colonial) to the Early Modern (Postmodern) Period. Also emphasizes culture throughout its varied history. Like all other courses in Spanish, it stresses as well all four language skills (hearing, speaking, reading, and writing) and culture. (F, Sp)

SPAN 4143 Transatlantic Literature and Culture 3 Credit Hours
Prerequisites: SPAN 3853. May be repeated with change of content; maxim credit nine hours. Introduces the literature and culture of Spain and Spanish America. Covers canonical texts from the Early, the Early Modern, and the Modern (Postmodern) Period. Also emphasizes culture throughout the ages in its ample history. Like all other courses in Spanish, it stresses as well all four language skills (hearing, speaking, reading, and writing) and culture. (F, Sp)

SPAN 4173 Regional Literature and Cultures 3 Credit Hours
Prerequisite: SPAN 3853. May be repeated with change of content; maximum credit nine hours. Introduces the literature and cultures of specific regions in Spain or Spanish America. Covers canonical texts from the Early to the Early Modern Period. May focus on a specific literary genre, or several, theme, or movement. Like all other courses in Spanish, it emphasizes as well all four language skills (hearing, speaking, reading, and writing) and culture. (F, Sp)

SPAN 4183 Senior Capstone 3 Credit Hours
Prerequisite: 3853, Spanish major and senior standing. Synthesis of Hispanic contributions to world literature and culture. (F, Sp) [V] .

SPAN G4313 Spanish Civilization 3 Credit Hours
Prerequisite: 3423, History 2613 or 2623. Spanish cultural heritage from the beginnings to the present day. (Sp)

SPAN 4503 Hispanic Cinema Studies 3 Credit Hours
Prerequisite: SPAN 3423. May be repeated with change of content; maximum credit nine hours. Introduces film culture of the Hispanic world. Covers classical and contemporary films from the five main areas producing film (Spain, Mexico, Brazil, Cuba, and Argentina) as well as from other Hispanic regions. (F, Sp)

SPAN 4713 History of the Spanish Language 3 Credit Hours
(Slashlisted with SPAN 5713) Prerequisite: SPAN 3853. As an introduction to historical Spanish Linguistics, the basic patterns of the evolution of Modern Spanish from Vulgar Latin, as shown in several major literary texts will be learned. Provides an understanding of how the Modern Spanish sound system evolved from the Vulgar Latin of the Iberian Peninsula. Emphasizes all four language skills (hearing, speaking, reading, and writing) and culture. No student may earn credit for both 4713 and 5713. (F, Sp)

SPAN 4773 Topics in Spanish Linguistics 3 Credit Hours
Prerequisites: SPAN 3073 and SPAN 3423. May be repeated with change of content; maximum credit nine hours. Introduces the role of meaning in the structure, function, and use of the language and focuses on the core aspects of the representation of meaning in Spanish. Examines how Spanish speakers combine basic linguistic units into larger linguistic expressions that allow them to represent the complex aspects of reality and thought in this language. (F, Sp)

SPAN 4913 The Structure of the Spanish Language 3 Credit Hours
Prerequisite: SPAN 3073 and SPAN 3423. Aims to improve students' formal knowledge of the Spanish language. Principal articulatory properties of the Spanish sounds, Spanish morphology such as word formation and word categories, and Spanish syntax and semantics will be examined. Topics related to social issues and Spanish variation, and in particular, to its situation in the United States will be explored. (F, Sp)

SPAN 4923 Teaching of Spanish in the United States 3 Credit Hours
(Slashlisted with SPAN 5923) Prerequisite: SPAN 3073 and SPAN 3423. A theoretical and practical introduction to teaching of Spanish in the United States. The theoretical component of the course incorporates major contemporary notions about Second Language Acquisition (SLA) and Second Language Teaching (SLT). The practical component of the course focuses on professional development as an instructor, roles of instructor and student, and day-to-day classroom activities. No student may earn credit for both 4923 and 5923. (F, Sp)

SPAN 4933 Spanish Literary Translation 3 Credit Hours
Prerequisite: SPAN 3423 and SPAN 3853. Introduces effective literary translation techniques from Spanish to English, paying particular attention to the role of meaning in the structure, function, and use of Spanish as it transfers to English and how texts written in Spanish combine basic linguistic units into larger linguistic expressions that allow them to represent the complex aspects of reality and thought in language. (F, Sp)

SPAN 4960 Directed Readings 1-4 Credit Hours
1 to 4 hours. Prerequisite: good standing in University; permission of instructor and dean. May be repeated; maximum credit four hours. Designed for upper-division students who need opportunity to study a specific problem in greater depth than formal course content permits. (Irreg.)

SPAN 4970 Special Topics/Seminar 1-3 Credit Hours
1 to 3 hours. Prerequisite: Senior standing or permission of instructor. May be repeated; maximum credit nine hours. Special topics or seminar course for content not currently offered in regularly scheduled courses. May include library and/or laboratory research and field projects. (Irreg.)

SPAN 4990 Independent Study 1-3 Credit Hours
1 to 3 hours. Prerequisite: three courses in general area to be studied; permission of instructor and department. May be repeated; maximum credit six hours. Contracted independent study for topic not currently offered in regularly scheduled courses. Independent study may include library and/or laboratory research and field projects. (F, Sp, Su)

SPAN 5113 Traditional Novel in Spanish America: Romanticism to Vanguard 3 Credit Hours
Prerequisite: graduate standing or permission of instructor. Beginning with the earliest forms of long prose, the course treats the Romantic novel, the Naturalistic novel, the Novel of the Land, and the Indianist novel. Representative texts of each mode will provide a thorough grounding in the characteristics of the different forms of prose. (Irreg.)

SPAN 5203 Prose Fiction of Cervantes-The Quijote 3 Credit Hours
Prerequisite: graduate standing or permission of instructor. Style, structure, content, and fundamental criticism of Cervantes' masterpiece. (Irreg.)

SPAN 5353 Studies in Renaissance and Baroque Drama 3 Credit Hours
Prerequisite: graduate standing or permission of instructor. May be repeated once with change of content; maximum credit six hours. The theatre of the Spanish siglo de oro. Works by Lope de Vega, Ruiz de Alarcón, Tirson de Molina, Calderón de la Barca, and others. Comedia theory and special topics such as kingship, honor, God. (Irreg.)

SPAN 5413 The Spanish-American Novel of the Post-Boom 3 Credit Hours
Prerequisite: graduate standing or permission of instructor. Beginning with novels that are reactions to the new novel, often by the same novelists, the course treats the different forms that have characterized the novel in Spanish America since the seventies. The novelists portray ordinary characters whose quiet desperation and existential suffering is portrayed different from the new novel. (Irreg.)

SPAN 5423 The Spanish-American Essay 3 Credit Hours
The main currents of Spanish-American thought as they appear in the essay, from Simon Bolivar to the present. (Irreg.)

SPAN 5433 Spanish-American Drama 3 Credit Hours
Prerequisite: graduate standing or permission of instructor. The study of the canonical works tracing the development of Spanish-American drama from colonial times to the present. (Irreg.)

SPAN 5443 Post-Modernista Poetry in Spanish America 3 Credit Hours
Prerequisite: Graduate standing. A survey of Spanish-American poetry after World War I. (Irreg.)

SPAN 5453 The Spanish-American Short Story 3 Credit Hours
The development of the genre from colonial times to the present. (Irreg.)

SPAN 5513 Colonial Literature: The Encounter 3 Credit Hours
Prerequisite: graduate standing or permission of instructor. The objective of this course is to familiarize students with early colonial Latin American discourse and its cultural/literary/historic context. Beginning with the letters of Christopher Columbus, the course includes early chronicles and histories. (Irreg.)

SPAN 5523 Colonial Literature: The Criollos 3 Credit Hours
Prerequisite: graduate standing or permission of instructor. This course familiarizes students with colonial Latin American discourse and its cultural/literary/historic context. The course primarily focuses on writers raised in colonial Spanish America approximately 100 years after the encounter. (Irreg.)

SPAN 5603 Studies in Renaissance and Baroque Prose 3 Credit Hours
Prerequisite: graduate standing or permission of instructor. May be repeated once with change of topic; maximum credit six hours. The study of representative narrative from the Spanish Golden Age, including the Picaresque, Pastoral, Sentimental, Chivalric, Mystical and Byzantine traditions. Works by Quevedo, Fray Luis de León, Cervantes, Jorge de Montemayor, Gracián, and others. (Irreg.)

SPAN 5623 Studies in Renaissance and Baroque Poetry 3 Credit Hours
Prerequisite: graduate standing or permission of instructor. May be repeated once with change of content; maximum credit six hours. Poetry of Garcilaso, Boscan, Fray Luis de Leon, Fernando de Herrera, Luis de Gongora, Francisco Quevedo, Lope de Vega, and others. Concepts of imitatio, cultismo, conceptismo, and the petrarchan and satirical traditions. (Irreg.)

SPAN 5683 Studies in Modern Peninsular Prose 3 Credit Hours
Prerequisite: graduate standing or permission of instructor. May be repeated once with change of content; maximum credit six hours. Representative writings in the development of the nineteenth- and twentieth-century Spanish narrative. The essay, short story, and novel of the Romantic, Realist, Naturalist, Modernist, Vanguard, and post Civil War periods are some of the themes to be covered. (Irreg.)

SPAN 5693 Studies in Modern Peninsular Poetry 3 Credit Hours
Prerequisite: graduate standing or permission of instructor. May be repeated once with change of content; maximum credit six hours. Representative poetry of modern Spain. Topics include the works of Romantic, Realist, and Modernist poetry: the Generation of '98; the Generation of '27; and post Civil War poets. Representative poets include Espronceda, Bécquer, Machado, Jiménez, Lorca, Salinas, Guillén, Diego, Alberti, Aleixandre, Cernuda, and others. (Irreg.)

SPAN 5713 History of the Spanish Language 3 Credit Hours
(Slashlisted with SPAN 4713) Prerequisite: SPAN 3853 and graduate standing. As an introduction to Historical Spanish Linguistics, the basic patterns of the evolution of Modern Spanish from Vulgar Latin, as shown in several major literary texts will be learned. Provides an understanding of how the Modern Spanish sound system evolved from the Vulgar Latin of the Iberian Peninsula. Emphasizes as well all four language skills (hearing, speaking, reading, and writing) and culture. No student may earn credit for both 4713 and 5713. (F, Sp)

SPAN 5723 Studies in Modern Peninsular Drama 3 Credit Hours
Prerequisite: graduate standing or permission of instructor. May be repeated once with change of content; maximum credit six hours. Representative writers and works of the modern Spanish theater. Topics include Romanticism, Realism, Expressionism, theater of the absurd., and the Esperpento. Dramatic works of Valle Inclán, Garcia Lorca, Buero Vallejo, Alfonso Sastre, and others will be included. (Irreg.)

SPAN 5910 Problems in Research 2-4 Credit Hours
2 to 4 hours. May be repeated with change of content; maximum credit nine hours. An individual course of intensive research with the area and problem to be determined by the student and directing instructor. (F, Sp, Su)

SPAN 5923 Teaching Of Spanish In The United States 3 Credit Hours
(Slashlisted with SPAN 4923) Prerequisite: graduate standing and Spanish proficiency. A theoretical and practical introduction to teaching of Spanish in the United States. The theoretical component of the course incorporates major contemporary notions about Second Language Acquisition (SLA) and Second Language Teaching (SLT). The practical component of the course focuses on professional development as an instructor, roles of instructor and student, and day-to-day classroom activities. No student may earn credit for both 4923 and 5923. (F, Sp)

SPAN 5930 Seminar in Spanish Literature 1-3 Credit Hours
1 to 3 hours. May be repeated with change of subject matter; maximum credit nine hours. (F, Sp)

SPAN 5940 Seminar in Spanish-American Literature 1-3 Credit Hours
1 to 3 hours. May be repeated with change of subject matter; maximum credit nine hours. (F, Sp)

SPAN 5960 Directed Readings 1-3 Credit Hours
1 to 3 hours. Prerequisite: graduate standing and permission of department. May be repeated; maximum credit twelve hours. Directed readings and/or literature reviews under the direction of a faculty member. (F, Sp, Su)

SPAN 5970 Special Topics/Seminar 1-3 Credit Hours
1 to 3 hours. Prerequisite: Graduate standing or permission of instructor. May be repeated; maximum credit nine hours. Special topics or seminar course for content not currently offered in regularly scheduled courses. May include library and/or laboratory research and field projects. (Irreg.)

SPAN 5980 Research for Master's Thesis 2-9 Credit Hours
Variable enrollment, two to nine hours; maximum credit applicable toward degree, four hours. (F, Sp)

SPAN 5990 Independent Studies 1-3 Credit Hours
1 to 3 hours. Prerequisite: graduate standing, permission of instructor. May be repeated; maximum credit twelve hours. Independent reading on one or more topics under the general direction of a faculty member. (F, Sp, Su)

SPAN 6960 Directed Readings 1-3 Credit Hours
1 to 3 hours. Prerequisite: graduate standing or permission of instructor. May be repeated; maximum credit six hours. Directed readings and/or literature review under the direction of a faculty member. (Irreg.)

SPAN 6970 Special Topics/Seminar 1-3 Credit Hours
1 to 3 hours. Prerequisite: graduate standing or permission of instructor. May be repeated; maximum credit 12 hours. Special topics or seminar course for content not currently offered in regularly scheduled courses. May include library and/or research and field projects. (Irreg.)

SPAN 6980 Research for Doctoral Dissertation 2-16 Credit Hours
2 to 16 hours. Prerequisite: Graduate standing and permission of instructor; may be repeated. Directed research culminating in the completion of the doctoral dissertation. (F, Sp)

SPAN 6990 Independent Study 1-3 Credit Hours
1 to 3 hours. Prerequisite: Graduate standing and permission of instructor. May be repeated; maximum credit nine hours. Contracted independent study for a topic not currently offered in regularly scheduled courses. Independent study may include library and/or laboratory research and field projects. (Irreg.)

TESL 5113 Phonetics for ESL 3 Credit Hours
Prerequisite: graduate standing, MA TESOL majors only. Introduces the study of human speech sounds and relates this to teaching ESL; physiology of the vocal tract and how the parts shape sounds; the International Phonetic Alphabet and its interpretation. Students practice transcribing sounds and complete a phonetic description of how a language differs from English in its sound system. (Irreg.)

TESL 5123 Second Language Acquisition Theory for ESL 3 Credit Hours
Prerequisite: graduate standing, MA TESOL majors only. Covers the essential topics that underlie English language acquisition, with special emphasis on those that will be most pertinent to students who will be teaching English as a Second Language. Topics include age, individual differences, aptitude, cognition, affect, motivation, the learner environment, and social dimensions of learning. (Irreg.)

TESL 5133 General Linguistics for ESL 3 Credit Hours
Prerequisite: graduate standing, MA TESOL majors only. Covers the essential topics that underlie linguistics, with special emphasis on those that will be most pertinent to students who will be teaching English as a Second Language. Topics include morphology, phonology, semantics, pragmatics, language and the brain, and sociolinguistics, with review of phonetics and grammatical structure. (Irreg.)

TESL 5143 Structure of the English Language 3 Credit Hours
Prerequisite: graduate standing, MA TESOL majors only. Provides in-depth understanding of the grammatical, syntactical and other features of English as they are taught by teachers of ESL to non-native speakers. Topics will include recent theories of grammar and acquisition; taxonomy and rules of English; strategies for teaching simple and complex constructions; and strategies for recognizing and addressing language interference and learner needs. (F)

TESL 5233 ESL Methods and Techniques 3 Credit Hours
Prerequisite: graduate standing and MA TESOL majors only. Explores the intersection of second language acquisition theory and history, applied linguistics, and ESL methods and techniques related to teaching ESL. Examines new research grounded in sociolinguistics, behavioral linguistics and related fields. Explores how digital and social media innovations are transforming the field and can benefit student outcomes. (F)

TESL 5333 Understanding Cultures for ESL 3 Credit Hours
Prerequisite: graduate standing and MA TESOL majors only. Examines the interaction between language and culture, with application to teaching ESL. Explores how culture is defined and manifested, its influence on identity and self-concept, how cultural differences affect perceptions and interactions, and culture in the ESL classroom. Grounded in constructivist theories of formal schooling, the course trains culturally responsive teachers. (Irreg.)

TESL 5433 ESL Curriculum 3 Credit Hours
Prerequisite: graduate standing; MA TESOL majors only. Introduces students to learner-centered pedagogy and needs-based ESL curriculum. Students use the procedures to design ELL courses and materials. Through needs-assessment, students explore an outcomes-based curriculum planning process and identify curricular goals and objectives. Introduces the range of technologies and software for ELL's; students evaluate their usefulness to teach using CALL. (Sp)

TESL 5443 ESL Testing and Assessment 3 Credit Hours
Prerequisite: graduate standing, MA TESOL majors only. Provides fundamental principles for evaluating and designing assessment processes in ESL classes. Focuses on the most common pedagogical challenge: classroom based assessment for ELLs. Presents treatment of assessing all four macro skills. Considers the validity and utility of standardized tests, the ethics of testing and alternatives in assessment in ESL. (Sp)

TESL 5553 Teaching ESL Reading/ Writing/ Listening/ Speaking 3 Credit Hours
Prerequisite: graduate standing, MA TESOL majors only, GRAD 5113, GRAD 5123, GRAD 5143. Enables students to identify cultural learning strategies in the ESL/ELL paradigm and use that understanding to overcome barriers to learning in regards to the four macro skills. Analyzes learning and scaffolding techniques to build skills by evaluating metacognitive strategies. Emphasizes classroom management and professionalism. (Su)

TESL 5945 Internship in TESOL 5 Credit Hours
Prerequisite: Graduate standing and MA TESOL majors only. A 150-hour field component in which students observe, assist, and teach in an approved ESL setting. Students analyze and reflect upon their own professional knowledge in the field of TESOL with the aid of an instructor and fellow participants. Enables the students to plan future professional development. (Sp)

Ward	Julie	A	2014	ASSISTANT PROFESSOR OF MODERN LANGUAGES, LITERATURES, AND LINGUISTICS, 2014; ADJUNCT ASSISTANT PROFESSOR OF INTERNATIONAL AND AREA STUDIES, 2015	PhD, Univ of California Berkeley, 2013; MA, Univ of Kansas, 2008; BA, Univ of Tulsa, 2005
Whalen	Logan	E	2001	PROFESSOR OF MODERN LANGUAGES, LITERATURES, AND LINGUISTICS, 2013	PhD, Univ of Oklahoma, 2000; MA, Univ of Kentucky, 1992; BA, Asbury College, 1982
Winston	Michael	E	1999	ASSOCIATE PROFESSOR OF MODERN LANGUAGES, LITERATURES, AND LINGUISTICS, 2005	PhD, Emory Univ, 1995; MA, Johns Hopkins, 1994; BA, Trinity Univ, 1987
Wray	Grady	C	1999	ASSOCIATE PROFESSOR OF MODERN LANGUAGES, LITERATURES, AND LINGUISTICS, 2006	PhD, Indiana Univ, 1999; MA, Indiana Univ, 1990; BA, Indiana, 1986
Zhang	Jie		2012	ASSOCIATE PROFESSOR OF MODERN LANGUAGES, LITERATURES AND LINGUISTICS, 2018	PhD, Pennsylvania State Univ , 2011; MA, Tsinghua Univ, 2004; BA, Shandong Univ, 2001
Zhu	Ping		2010	ASSOCIATE PROFESSOR OF MODERN LANGUAGES, LITERATURES, AND LINGUISTICS, 2016; ADJUNCT ASSOCIATE PROFESSOR OF WOMEN'S AND GENDER STUDIES, 2016	PhD, Rutgers Univ, 2010; MA, East China Normal Univ, 2003; BA, Soochow Univ, 2000

Japanese, B.A.

Minimum Total Credit Hours: 120
Major Hours: 36
Minimum Upper-Division Hours: 48

Overall GPA - Combined and OU: 2.00
Major GPA - Combined and OU: 2.00

Program Code: B608

Major Requirements

- **Some courses required for the major may also fulfill University General Education and/or Dodge College of Arts & Sciences Requirements.**
- The major requires 36 hours beyond JAPN 1115 and JAPN 1225. 1000-Level Japanese courses may not be counted for major credit at the University of Oklahoma.

Code	Title	Credit Hours
JAPN 1115	Beginning Japanese (5 hours)	
JAPN 1225	Beginning Japanese (Continued) (5 hours)	
JAPN 2013	Intermediate Japanese Listening and Speaking	3
JAPN 2113	Intermediate Japanese	3
JAPN 2223	Intermediate Japanese (Continued)	3
JAPN 3013	Advanced Japanese Listening and Speaking	3
JAPN 3113	Advanced Japanese I	3
JAPN 3223	Advanced Japanese II	3
or JAPN 4543	Introduction to Classical Japanese	

JAPN 4113	Japanese Language and Society I	3
JAPN 4223	Japanese Language and Society II	3
JAPN 4993	Senior Capstone in Japanese	3
MLLL 3623	Pre-Modern Japanese Literature and Culture	3
MLLL 3633	Modern Japanese Literature and Culture	3
Choose one of the following:		3
JAPN 4543	Introduction to Classical Japanese	
MLLL 3223	Japan Through Film and Literature	
MLLL 3233		
Total Credit Hours		**36**

1. College of Arts and Sciences Requirements: college requirements are not automatically fulfilled by a previous degree.
2. One course at the intermediate level or demonstrated competency at that level
3. 6 upper-division hours, 2 courses, at the 3000- 4000-level. ***Must be outside the major.***

Free Electives

Electives to bring total applicable hours to the minimum total required for the degree including 48 upper-division hours.

Information Concerning General Rules, Regulations and Minimum Requirements

Arts and Sciences Hours: At least 80 semester hours of liberal arts and sciences courses are required for a BA degree. At least 55 semester hours of liberal arts and sciences courses are required for a BS degree.
Pass/No Pass Enrollment: A maximum of 16 semester hours of free elective credit may be attempted under this option.
Individual Studies (e.g., courses titled "Independent Study"): A maximum of 12 total semester hours may be counted toward graduation, excluding Honors Reading and Honors Research.
P.E. Courses: No physical education activity courses will be counted toward the 120 semester hours of acceptable credit for graduation.
Senior Institution Hours: A minimum of 60 semester hours applied toward graduation must be earned at senior (4-year) institutions.
Residency:

- At least 15 of the final 30 hours applied toward the degree or at least 50 percent of the hours required by the institution in the major field must be satisfactorily completed at the awarding institution.
- At least 15 semester hours of upper-division major work must be completed in residence at OU.
- OU correspondence courses are ***not*** considered resident credit.

Grade Point Averages: Students must earn a minimum over all 2.00 for each of the following: Combined Retention GPA (all college grades), OU Retention GPA, GPA for all major courses, and GPA for all major courses taken at OU. Some schools and departments of the College have higher minimum grade point averages required for their students.

Suggested Semester Plan of Study

This plan shows one possible grouping of courses that would allow students to graduate in four years. Please refer to the front of the degree checksheet for official requirements. Students must consult with Dodge College of Arts and Sciences and/or Department of Modern Languages, Literatures, and Linguistics academic advisors to verify that courses selected each semester fulfill the recommended plan and satisfy University, College of Arts and Sciences, and Japanese major requirements.

Freshman

Major Support Requirements

Language Study Experience

The student will demonstrate significant experience in language study, according to the following criteria:

1. For students who are native English speakers, the language support requirement may be met by either:
   - A major or minor in a world language;
     or
   - Two years of college instruction in one world language, plus one year of college instruction in a second world language.
     or
   - Two years of college instruction in one world language plus C S 1303 *and* C S 1323
2. II. For students who are native speakers of a language other than English and for whom English is not their native language, the requirement will be met by:
   - Proficiency in the native language as demonstrated by testing out at the third year level (equivalent to the minor), with guidance by the departmental advisor,
     or
   - Satisfaction of the College of Arts and Sciences language requirement in a language other than the native language.

NOTE

- One year of language study includes two semesters of introductory courses.
- Two years includes two semesters of introductory courses plus two semesters of intermediate study.

Linguistics Major Elective Courses

1. College of Arts and Sciences Requirements: college requirements are not automatically fulfilled by a previous degree.
2. One course at the intermediate level or demonstrated competency at that level
3. 6 upper-division hours, 2 courses, at the 3000- 4000-level. ***Must be outside the major.***

Free Electives

Electives to bring total applicable hours to the minimum total required for the degree including 48 upper-division hours.

Information Concerning General Rules, Regulations and Minimum Requirements

Arts and Sciences Hours: At least 80 semester hours of liberal arts and sciences courses are required for a BA degree. At least 55 semester hours of liberal arts and sciences courses are required for a BS degree.
Pass/No Pass Enrollment: A maximum of 16 semester hours of free elective credit may be attempted under this option.
Individual Studies (e.g., courses titled "Independent Study"): A maximum of 12 total semester hours may be counted toward graduation, excluding Honors Reading and Honors Research.
P.E. Courses: No physical education activity courses will be counted toward the 120 semester hours of acceptable credit for graduation.
Senior Institution Hours: A minimum of 60 semester hours applied toward graduation must be earned at senior (4-year) institutions.
Residency:

- At least 15 of the final 30 hours applied toward the degree or at least 50 percent of the hours required by the institution in the major field must be satisfactorily completed at the awarding institution.
- At least 15 semester hours of upper-division major work must be completed in residence at OU.
- OU correspondence courses are ***not*** considered resident credit.

Grade Point Averages: Students must earn a minimum over all 2.00 for each of the following: Combined Retention GPA (all college grades), OU Retention GPA, GPA for all major courses, and GPA for all major courses taken at OU. Some schools and departments of the College have higher minimum grade point averages required for their students.

Suggested Semester Plan of Study

This plan shows one possible grouping of courses that would allow students to graduate in four years. Please refer to the front of the degree checksheet for official requirements. Students must consult with Dodge College of Arts and Sciences and Department of Modern Languages, Literatures, and Linguistics academic advisors to verify that courses selected each semester fulfill the recommended plan and satisfy University, College of Arts and Sciences, and Spanish major requirements.

3 6 upper-division hours, 2 courses, at the 3000- 4000-level. ***Must be outside the major.***

Free Electives

Electives to bring total applicable hours to the minimum total required for the degree including 48 upper-division hours.

Information Concerning General Rules, Regulations and Minimum Requirements

Arts and Sciences Hours: At least 80 semester hours of liberal arts and sciences courses are required for a BA degree. At least 55 semester hours of liberal arts and sciences courses are required for a BS degree.
Pass/No Pass Enrollment: A maximum of 16 semester hours of free elective credit may be attempted under this option.
Individual Studies (e.g., courses titled "Independent Study"): A maximum of 12 total semester hours may be counted toward graduation, excluding Honors Reading and Honors Research.
P.E. Courses: No physical education activity courses will be counted toward the 120 semester hours of acceptable credit for graduation.
Senior Institution Hours: A minimum of 60 semester hours applied toward graduation must be earned at senior (4-year) institutions.
Residency:

- At least 15 of the final 30 hours applied toward the degree or at least 50 percent of the hours required by the institution in the major field must be satisfactorily completed at the awarding institution.
- At least 15 semester hours of upper-division major work must be completed in residence at OU.
- OU correspondence courses are ***not*** considered resident credit.

Grade Point Averages: Students must earn a minimum over all 2.00 for each of the following: Combined Retention GPA (all college grades), OU Retention GPA, GPA for all major courses, and GPA for all major courses taken at OU. Some schools and departments of the College have higher minimum grade point averages required for their students.

Suggested Semester Plan of Study

This plan shows one possible grouping of courses that would allow students to graduate in four years. Please refer to the front of the degree checksheet for official requirements. Students must consult with Dodge College of Arts and Sciences and/or Department of Modern Languages, Literatures, and Linguistics academic advisors to verify that courses selected each semester fulfill the recommended plan and satisfy University, College of Arts and Sciences, and French major requirements.

Arabic, Minor

Minimum Total Credit Hours: 15
Minimum Upper-Division Hours: 9

Program Code: N032

- **The requirements for a minor must be completed concurrently with the major degree requirements.**
- **No minor may be added by completing courses after receiving the bachelor's degree.**

At least six (6) credit hours must be earned in courses acceptable for residence credit by standards set forth by the Dodge College of Arts and

Sciences, excluding transfer, correspondence, and examination (AP, CLEP, Advanced Standing) credit. Courses for the minor may not be taken Pass/No Pass.

No single course may be used by a student to satisfy a major requirement and a minor requirement. A course may be used, however, to satisfy both a major support requirement and a minor requirement.

Requests to substitute a minor requirement must be approved in writing by the Arabic program in the Modern Languages Department.

Required Courses

Students must successfully complete at least 15 hours of coursework in Arabic, including at least nine (9) hours at the upper-division level.

Code	Title	Credit Hours
ARAB 2013	Colloquial Arabic	3
ARAB 2113	Intermediate Arabic	3
ARAB 3113	Advanced Arabic	3
Select two of the following:		6
ARAB 3423	Advanced Writing	
MLLL 3243	Readings in Arab/Islamic Heritage	
MLLL 3323	Language, Culture, and Identity in the Middle East and North Africa	
MLLL 3413	Arabic Literature and Culture	
MLLL 3443	Islamic Culture in the United States	
Total Credit Hours		**15**

- Minors in the Dodge College of Arts & Sciences are available to all undergraduate students at OU. If the minor is officially declared, successfully completed, and noted on the graduation application, the student's transcript will so indicate at the time the bachelor's degree is posted.

Chinese, Minor

Minimum Total Credit Hours: 18
Minimum Upper-Division Hours: 9

Program Code: N180

- **The requirements for a minor must be completed concurrently with the major degree requirements.**
- **No minor may be added by completing courses after receiving the bachelor's degree.**

At least six (6) credit hours must be earned in courses acceptable for residence credit by standards set forth by the Dodge College of Arts and Sciences, excluding transfer, correspondence, and examination (AP, CLEP, Advanced Standing) credit. Courses for the minor may not be taken Pass/No Pass.

No single course may be used by a student to satisfy a major requirement and a minor requirement. A course may be used, however, to satisfy both a major support requirement and a minor requirement.

Requests to substitute a minor requirement must be approved in writing by the Chinese program in the Modern Languages Department.

Required Courses

Students must successfully complete at least 18 hours of coursework in Chinese or MLLL related to China/Chinese, including at least nine (9) hours at the upper-division level.

Code	Title	Credit Hours
CHIN 2113	Intermediate Chinese	3
CHIN 2223	Intermediate Chinese (Continued)	3
CHIN 3113	Advanced Chinese I	3
Choose two of the following:		6

General Information

The Department of Native American Studies—one of the leading such programs in the nation—uses distinctly Native American and Indigenous perspectives to place the sovereignty and success of Native nations and the cultures of Native peoples at the center of academic study and community engaged research. Our mission is to use our research and teaching to encourage students to think critically about how the past and the present are always in conversation and how they can use that better work with and for tribal communities and peoples to build a successful future.

The Native American Studies curriculum is focused and flexible. We support intensive study in four interrelated areas of emphasis that are interdisciplinary yet interconnected through a framework of Indigenous

Theory and Method. In these emphases—Culture, Language, and Heritage; Tribal Governance and Policy; Indigenous Media and Arts; and Indigenous Community Planning—students learn theory and practice and methods that they take into their careers outside of the university. Students often work closely with faculty to combine these areas of emphasis according to their own scholarly and professional goals.

NAS offers B.A. major and minor degrees. We also offer a graduate M.A. program, a joint M.A./J.D. program with the School of Law, a graduate certificate in NAS, and a Social Work with American Indians graduate certificate jointly with the School of Social Work. We offer five Native languages—Cherokee, Choctaw, Kiowa, Creek/Seminole, and Potawatomi—and prioritize service and community engagement through an internship class for undergraduate students and a practicum course for graduate students.

Students have done a lot with their NAS degrees. The first degree in Native American Studies at the University of Oklahoma was awarded in 1996. Since then, more than 400 students have earned a master's degree or bachelor's degree, with either a major or minor in NAS. Some NAS alumni have gone on to PhD programs, while others have distinguished themselves in a wide range of careers, including: Tribal government, law, health policy, filmmaking and media, event production and management, business, heritage and historic preservation, language revitalization, education and education administration, tribal outreach and advocacy, social work, healthcare, non-profits, and tribal community planning.

Programs & Facilities

Native American Language Program

The University of Oklahoma is honored to serve as a place where Indigenous languages are preserved and revitalized. The Native American Language Program faculty is comprised of both first language and second language speakers who have training in linguistics. Our language courses combine lessons in the grammar of the language with vocabulary lessons and supplementary material and activities designed to situate language learning in cultural and historical context. Considerable class time is spent on conversation, but students also learn to read and write in the language.

Sam Noble Museum - Native American Languages Collection

The Native American Languages collection (NAL) at the Sam Noble Oklahoma Museum of Natural History is an archival repository for materials in and pertaining to the Indigenous languages of the Americas, with a specialization in the Indigenous languages of the central United States. The collection currently contains over 8,500 items representing 315 languages, with another ~800 languages represented in the reference collection. The collection itself consists of a climate-controlled archival space, a digitization lab, a recording studio, a reading room, and a reference library with supplementary materials on Native American languages, linguistics, archaeology, and ethnology. NAL is also a backup repository for a number of tribal archives in Oklahoma, and the department actively participates in a wide variety of collaborative projects with Native communities.

NAL supports to the local community by providing audio/video recording services and free digitization of cassettes, reel-to-reels, miniDV tapes, Hi-8 tapes, vinyl records, and VHSs for media that contains Native languages.

NAL partners with the Sam Noble Museum, the Department of Native American Studies and the OU Native Nations Center to host the annual Oklahoma Native American Youth Language Fair. This unique event attracts over 1,000 students from pre-K to 12th grades who are learning their Native languages. In 2017, the Fair was awarded the University Museums and Collections Award from the International Council of Museums, which is a reflection of the impact the program has had on our Native community over the past 17 years.

NAL offers an internship and an independent study that provide course credit for archival training and work in the archive. Students and members of the public can also volunteer in the collection at any time by contacting the Sam Noble Museum volunteer office.

Internship and Practicum Program

NAS students at the undergraduate and graduate levels are able to participate in a planned work experience related to personal career and academic goals. The Internship and Practicum Program helps students learn about possible careers, apply knowledge gained in the classroom, develop skills, and better understand how individuals relate to the workplace. Service to Native peoples in their communities and nations is a primary focus of the NAS internship and practicum experiences.

Indigenous Futures Research Lab

Native American Studies received a generous grant from the Andrew W. Mellon Foundation to support the development of the Indigenous Futures Research Lab. For more information email nas@ou.edu

Undergraduate Study

The undergraduate major and minor in Native American Studies use distinctly and Indigenous perspectives to place the sovereignty and success of Native nations and the cultures of Native peoples at the center of academic study and community engaged research. In addition to core classes in Indigenous theory and research methods, the Native American Studies curriculum currently supports intensive study in four interrelated areas of emphasis that are synthetic and interdisciplinary in nature: Culture, Language, and Heritage; Tribal Governance and Policy; Indigenous Media and Arts; and Indigenous Community Planning. The curriculum is, at the same time, focused and flexible. Students often work closely with faculty to combine these areas of emphasis according to their own scholarly and professional goals.

- Native American Studies, B.A. (p. 650)
- Native American Studies, Minor (p. 652)

Graduate Study

Master of Arts

The Master of Arts (p. 653) in Native American Studies uses distinctly Native American and Indigenous perspectives to place the sovereignty and success of Native nations and the cultures of Native peoples at the center of academic study and community engaged research. In addition to core classes in Indigenous theory and research methods, the Native American Studies curriculum currently supports intensive study in four interrelated areas of emphasis that are synthetic and interdisciplinary in nature: Culture, Language, and Heritage; Tribal Governance and Policy; Indigenous Media and Arts; and Indigenous Community Planning. The curriculum is, at the same time, focused and flexible. Students often work

closely with faculty to combine these areas of emphasis according to their own scholarly and professional goals.

In addition, to the Master of Arts degree, graduate students may pursue a joint Juris Doctor/M.A. Native American Studies, a Native American Studies Graduate Certificate (p. 654), or a Social Work with American Indians Graduate Certificate (p. 780).

Courses

CHER 1715 Beginning Cherokee 5 Credit Hours
Introduction to the structure of the Cherokee language with special attention to its phonology, morphology, and syntax. Conversational practice, vocabulary-building, and the history and culture of the native speech community also are emphasized. (F, Sp) [I-FL].

CHER 1725 Beginning Cherokee-Continued 5 Credit Hours
Prerequisite: 1715. A continuation of the study of the structure of the Cherokee language with special attention to its phonology, morphology, and syntax. Conversational practice, vocabulary-building, and the history and culture of the native speech community are emphasized. (Sp) [I-FL].

CHER 2733 Intermediate Cherokee 3 Credit Hours
Prerequisite: 1723. A systematic review of the structure of the Cherokee language. Syntactic control and vocabulary expansion are emphasized. Conversational practice and traditional oral texts are used to develop proficiency. (F)

CHER 3440 Mentored Research Experience 3 Credit Hours
0 to 3 hours. Prerequisites: ENGL 1113 or equivalent, and permission of instructor. May be repeated; maximum credit 12 hours. For the inquisitive student to apply the scholarly processes of the discipline to a research or creative project under the mentorship of a faculty member. Student and instructor should complete an Undergraduate Research & Creative Projects (URCP) Mentoring Agreement and file it with the URCP office. Not for honors credit. (F, Sp, Su)

CHOC 1715 Beginning Choctaw 5 Credit Hours
Introduction to the structure of the Choctaw language with special attention to its phonology, morphology, and syntax. Conversational practice, vocabulary-building, and the history and culture of the native speech community also are emphasized. (F, Sp) [I-FL].

CHOC 1725 Beginning Choctaw-Continued 5 Credit Hours
Prerequisite: 1715. A continuation of the study of the structure of the Choctaw language with special attention to its phonology, morphology, and syntax. Conversational practice, vocabulary-building, and the history and culture of the native speech community are emphasized. (Sp) [I-FL].

CHOC 2733 Intermediate Choctaw 3 Credit Hours
Prerequisite: 1723. A systematic review of the structure of the Choctaw language. Syntactic control and vocabulary expansion are emphasized. Conversational practice and traditional oral texts are used to develop proficiency. (F)

CHOC 3440 Mentored Research Experience 3 Credit Hours
0 to 3 hours. Prerequisites: ENGL 1113 or equivalent, and permission of instructor. May be repeated; maximum credit 12 hours. For the inquisitive student to apply the scholarly processes of the discipline to a research or creative project under the mentorship of a faculty member. Student and instructor should complete an Undergraduate Research & Creative Projects (URCP) Mentoring Agreement and file it with the URCP office. Not for honors credit. (F, Sp, Su)

CREK 1715 Beginning Creek/Seminole 5 Credit Hours
Introduction to the structure of the Creek/Seminole language with special attention to its phonology, morphology, and syntax. Conversational practice, vocabulary-building, and the history and culture of the native speech community also are emphasized. (F, Sp) [I-FL] .

CREK 1725 Beginning Creek/Seminole-continued 5 Credit Hours
Prerequisite: 1715. A continuation of the study of the structure of the Creek/Seminole language with special attention to its phonology, morphology, and syntax. Conversational practice, vocabulary-building, and the history and culture of the native speech community are emphasized. (F, Sp) [I-FL] .

CREK 2733 Intermediate Creek/Seminole 3 Credit Hours
Prerequisite: 1725. A systematic review of the structure of the Creek/Seminole language. Syntactic control and vocabulary expansion are emphasized. Conversational practice and traditional oral texts are used to develop proficiency. (F)

CREK 3440 Mentored Research Experience 3 Credit Hours
0 to 3 hours. Prerequisites: ENGL 1113 or equivalent, and permission of instructor. May be repeated; maximum credit 12 hours. For the inquisitive student to apply the scholarly processes of the discipline to a research or creative project under the mentorship of a faculty member. Student and instructor should complete an Undergraduate Research & Creative Projects (URCP) Mentoring Agreement and file it with the URCP office. Not for honors credit. (F, Sp, Su)

KIOW 1715 Beginning Kiowa 5 Credit Hours
Introduction to the structure of the Kiowa language with special attention to its phonology, morphology, and syntax. Conversational practice, vocabulary-building, and the history and culture of the native speech community also are emphasized. (F, Sp)[I-FL].

KIOW 1725 Beginning Kiowa Continued 5 Credit Hours
Prerequisite: KIOW 1715 or permission of the department or instructor. A continuation of KIOW 1715. The students will build upon their prior knowledge of symbols, diacritic marks, sounds and tones necessary to read, write, speak and comprehend Beginning Kiowa with a predetermined set of vocabulary, sentences, and basic conversation. (F, Sp)[I-FL].

KIOW 2733 Intermediate Kiowa 3 Credit Hours
Prerequisite: 1723. A systematic review of the structure of the Kiowa language. Syntactic control and vocabulary expansion are emphasized. Conversational practice and traditional oral texts are used to develop proficiency. (F)

KIOW 3440 Mentored Research Experience 3 Credit Hours
0 to 3 hours. Prerequisites: ENGL 1113 or equivalent, and permission of instructor. May be repeated; maximum credit 12 hours. For the inquisitive student to apply the scholarly processes of the discipline to a research or creative project under the mentorship of a faculty member. Student and instructor should complete an Undergraduate Research & Creative Projects (URCP) Mentoring Agreement and file it with the URCP office. Not for honors credit. (F, Sp, Su)

NAS 1013 Introduction to Native American Studies 3 Credit Hours
This course will introduce students to key concepts and methods in the study of American Indian history, culture, and contemporary governance and socio-economic status. (F, Sp) [IV-WDC] .

NAS 1715 Potawatomi Language I 5 Credit Hours
Through a partnership between the Citizen Potawatomi Nation Language Department and the university, this language course will introduce students to the culture, history, phonology, morphology, syntax, conversational practice, and vocabulary of Bodewadmimwen (Potawatomi Language) using an online platform. Framed in a seasonal context, four modules guide students through a Potawatomi-centered worldview to create story-listeners and -tellers. (F, Sp)

NAS 2013 Foundations in Native American Sovereignty 3 Credit Hours
Prerequisite: Sophomore standing. Introduces the key concepts and methods in the discipline of Native American Studies. Examines the scope and nature of tribal sovereignty and self-government. Students will gain understanding of the historical origins of the current laws and policies that constitute the political foundations of sovereignty for Native peoples. (Irreg.)

NAS 2203 Chickasaw Humanities 3 Credit Hours
This course will give students an overview of Chickasaw humanities through exploring the Chickasaw history, culture and language in contemporary and historical context. Students will gain an understanding of a non-western culture while comparing and contrasting it to Western culture. Topics covered include indigenous and Chickasaw worldview, Chickasaw historical events, governmental structure, language and art. (F)

NAS 3013 Native American Studies Internship 3 Credit Hours
Prerequisite: permission of instructor. Participation in a supervised work experience. Grade is based on work performance, regular reports and journals, and on-site supervisor's evaluation. (F, Sp, Su)

NAS 3123 Gender and Sexuality in Native North America 3 Credit Hours
Prerequisite: junior standing. Study of gender and sexuality that is indigenous to North American tribal groups, focusing on the status of pre-colonial gender-non-normative peoples. Emergent analyses within Native studies will point to the gendered nature of colonialism by interrogating Western ontological models from Victorian-era and early anthropological ideas about sexuality. (Sp) [IV-WDC].

NAS 3313 Introduction to Native Peoples and Sustainability 3 Credit Hours
Prerequisite: junior standing. Explores the concept of sustainability from a Native perspective, and as it applies to Native peoples. Emphasis is placed on cultural resilience and identity, human-environment relationships, policy and politics of tribal sovereignty in Native North America. (F)

NAS 3323 Tribal Service Learning 3 Credit Hours
Prerequisite: junior standing. Exploration of contemporary issues relevant to Native American tribes and communities, utilizing critical thinking and problem-solving skills relevant to contemporary issues within the Indian Country to develop and implement a service project for a tribe or Native American community. (F, Sp)

NAS 3440 Mentored Research Experience 3 Credit Hours
0 to 3 hours. Prerequisites: ENGL 1113 or equivalent, and permission of instructor. May be repeated; maximum credit 12 hours. For the inquisitive student to apply the scholarly processes of the discipline to a research or creative project under the mentorship of a faculty member. Student and instructor should complete an Undergraduate Research & Creative Projects (URCP) Mentoring Agreement and file it with the URCP office. Not for honors credit. (F, Sp, Su)

NAS 3513 Native American Film 3 Credit Hours
Prerequisite: Junior standing or permission of instructor. A critical investigation of the role that film, as an art genre, has played in creating the general public's idea of the American Indian, and its construction of images representing that idea. (Irreg.)

NAS 3693 Special Topics 3 Credit Hours
Prerequisite: six hours of NAS courses. May be repeated twice with a change in topic. Covers topics of special interest to NAS such as politics and tribal government, contemporary health issues, educational policies and trends, and tribal culture in the U.S. and Oklahoma. (F, Sp, Su)

NAS 3960 Honors Reading 1-3 Credit Hours
Prerequisite: admission to Honors Program and permission of instructor. May be repeated with change of content; maximum credit six hours. Consists of topics designated by the instructor in keeping with the student's major program. This course will allow the honors candidate the opportunity to study materials not offered in other courses. (F, Sp, Su)

NAS 3970 Honors Seminar 1-3 Credit Hours
1 to 3 hours. Prerequisite: admission to Honors Program. May be repeated; maximum credit six hours. Subjects covered vary. Deals with concepts not usually treated in regular courses. (Irreg.)

NAS 3980 Honors Research 1-3 Credit Hours
Prerequisite: admission to Honors Program. May be repeated with change of content; maximum credit six hours. The study of issues related to Native American Studies for the gifted Honors candidate allowing him/her to work on a special project. (F, Sp, Su)

NAS 3990 Independent Study 1-3 Credit Hours
1 to 3 hours. Prerequisite: six hours of NAS major courses and permission of instructor. May be repeated; maximum credit six hours. Work on a topic of the student's choosing taken under the direct supervision of a faculty member. May involve directed reading and research or participation in a community-based activity. Students will be required to give a written report or research papers. (F, Sp)

NAS 4033 Indigenous Research Methods 3 Credit Hours
(Slashlisted with NAS 5033) Prerequisite: Junior standing. Introduction to research methods in Native American Studies with an emphasis on interdisciplinarity. Students will be introduced to the range of methods available for analysis, and to the presentation of research results. Students will formulate a research proposal that includes problem identification, recommendation and justification of methods for analysis, and preparation of a critical literature review. Emphasis on Indigenous methodologies. No student may earn credit for both 4033 and 5033. (Irreg.)

NAS 4043 Sovereignty, Law, and Policy 3 Credit Hours
(Slashlisted with NAS 5043) Prerequisite: junior standing or permission of instructor. Explores what constitutes the basic nature of political sovereignty and how it is exercised in Native American communities and what the possibilities and limitations are for tribal governments. No student may earn credit for both NAS 4043 and NAS 5043. (Irreg.)

NAS 4053 Senior Capstone 3 Credit Hours
Prerequisite: senior standing. Provides a culminating experience giving students the opportunity to incorporate knowledge gained through previous coursework. Students will integrate this knowledge into a final project. (Sp) [V].

NAS 4063 Critical Indigenous Theory 3 Credit Hours
(Slashlisted with NAS 5063) Prerequisite: senior standing. Seeks to transcend disciplinary boundaries and ground scholarly inquiry in Indigenous frameworks that reflect Native-centered concerns and objectives. Provides an alternative philosophical and theoretical toolkit for applying Indigenous methodologies, understanding strategies of decolonization, envisioning collective and individual agency and models of sovereignty, and examining the intersection of Indigenous intellectual production and lived experiences. No student may earn credit for both 4063 and 5063. (F)

NAS 4113 Oklahoma Tribal History 3 Credit Hours
(Slashlisted with NAS 5113) Prerequisite: junior standing. A survey of Native American history for the area known today as Oklahoma and the surrounding region. Explores the general concepts and histories of the region from a Native perspective. Discussion of Oklahoma tribal experiences in the context of regional and national experiences. Examines the Oklahoma Native experience through the world-views and words of Native Americans. No student may earn credit for both 4113 and 5113. (Irreg.)

NAS 4133 Tribal Historic Preservation 3 Credit Hours
(Slashlisted with NAS 5133) Prerequisite: junior standing or permission of instructor. Provides basic grounding in processes necessary to understand and participate in the federal tribal historic preservation program. Students will receive material and insights to help them gain skills in understanding laws and regulations relating to the federal historic preservation system. No student may earn credit for both 4133 and 5133. (Irreg.)

NAS 4143 Native American Graves Protection and Repatriation 3 Credit Hours
(Slashlisted with NAS 5143) Prerequisite: Junior standing. This course will be centered on Native American historic preservation as it is concerned with the history of protection and repatriation of Native American human remains and associated objects. Legislative histories and U. S. and international laws dealing with Native American human remains will be examined in the context of human rights legislation informed by tribal histories and current practices. No student may earn credit for both 4143 and 5143. (Irreg.)

NAS 4153 Indigenous Mapping: Issues in Data Sovereignty and Security 3 Credit Hours
(Slashlisted with NAS 5153) Prerequisite: Junior standing. This course will be centered on the discipline of Indigenous mapping and the resulting issues confronted in dealing with data sovereignty and security for Native American tribes. This course deals with specific Native American methodologies related to Geographic Information Systems (GIS) and the application of this technology to tribal initiatives. No student may earn credit for both 4153 and 5153. (Irreg.)

NAS 4163 Native Food Sovereignty 3 Credit Hours
(Slashlisted with NAS 5163) Prerequisite: Junior standing. This course focuses on Indigenous practices and concepts as it applies to the food sovereignty of the Native Americas using comparative data from across time and place. Of special interest are the dynamic connections between native foods and the health of people and place and the impacts of colonization and rapid cultural change. No student may earn credit for both 4163 and 5163. (Irreg.)

NAS 4213 Intro to Language Documentation and Revitalization 3 Credit Hours
(Slashlisted with NAS 5213) Prerequisite: Junior standing or departmental permission. We look at different strategies for language revitalization, and students investigate ways to use old and new language documentation in language revitalization. Topics include the differences and overlap between language documentation and description, how languages change in endangerment, what goes into the complete description of a language, types of language revitalization programs, and case studies of successes and troubles. No student may earn credit for both 4213 and 5213. (Irreg.)

NAS 4223 Survey of Native American Languages 3 Credit Hours
(Slashlisted with NAS 5223) Prerequisite: Junior standing or departmental permission. This class addresses the linguistic and structural diversity of the Americas, as well as topics like areal diffusion and language contact. Knowledge of this type, besides being necessary background for anyone wanting to specialize in languages of the Americas, is additionally useful for knowing how particular languages students may be interested in fit into the linguistic fabric of the world. No student may earn credit for both 4223 and 5223. (Irreg.) [III-SS].

NAS 4233 Language Acquisition for Revitalization 3 Credit Hours
(Slashlisted with NAS 5233) Prerequisite: Junior standing or departmental approval. This class deals with the intimate relationship between language revitalization and the science of creating new speakers, with the goal of taking experimental research in language acquisition and applying those findings to minority language revitalization contexts. No student may earn credit for both 4233 and 5233. (Irreg.)

NAS 4243 Methods of Language Documentation 3 Credit Hours
(Slashlisted with NAS 5243) Prerequisite: Junior standing or departmental permission. This class is a hands-on practicum in the latest and greatest in language documentation, and prepares you to go make professional-level recordings, video documentation, and essential secondary materials for language documentation. No student may earn credit for both 4243 and 5243. (Irreg.)

NAS 4333 American Indian Health Issues and Concerns 3 Credit Hours
Prerequisite: junior standing or permission of instructor. Historical information about American Indians with emphasis on health, including behavioral health, and tribal/Indian health service policy issues. Discusses traditional medicine and healing, research needs related to American Indian health, and career opportunities in health professions. (Irreg.)

NAS 4343 American Indian Education Policy and Development 3 Credit Hours
(Slashlisted with NAS 5343) Prerequisite: junior standing or permission of instructor. Enables students to come to an understanding of American Indian education history and policy as related to western European educational thought, philosophies, theories, and practices. No student may earn credit for both 4343 and 5343. (Sp) [III-SS].

NAS 4353 Introduction to Tribal Economic Development 3 Credit Hours
(Slashlisted with NAS 5353) Prerequisite: junior standing. Introduces students to the concept of tribal economic development and the relevant issues facing tribal, local, state, and federal agencies. Examines theories and roles of tribal economic development as they relate to the survival and continuation of tribal governments. No student may earn credit for both 4353 and 5353. (Irreg.) [III-SS].

NAS 4363 Tribal Governance and Leadership 3 Credit Hours
(Slashlisted with NAS 5363) Prerequisite: junior standing. Examines traditional and contemporary forms of tribal government and leadership. Students will be exposed to the historical development of modern tribal governments through examination of government policies and legislation. Explores contemporary issues in tribal government and styles of tribal leadership. No student may receive credit for both 4363 and NAS 5363. (Irreg.)

NAS 4373 International Indigenous Issues 3 Credit Hours
(Slashlisted with NAS 5373) Prerequisite: Sophomore standing. This seminar explores the contemporary politics of Indigenous Peoples and settler societies. It takes a sociological, legal, political and anthropological approach to how politics operate within and around Indigenous Peoples. By using a comparative perspective, it examines the dynamics of critical relationships in terms of national, regional and global political order. No student may earn credit for both 4373 and 5373. (Irreg.)

NAS 4423 Issues in Native American Environment and Sustainability 3 Credit Hours
(Slashlisted with NAS 5423) Prerequisite: Junior standing. This course will be centered on current issues in Native American environment and sustainability. This course will focus on the interrelationships of people, their environments, their philosophies and cosmologies, ethics, histories and health. No student may earn credit for both 4423 and 5423. (Irreg.)

NAS 4433 Native American Women 3 Credit Hours
(Slashlisted with NAS 5433) Prerequisite: Junior standing. The objective of this course is to provide students with a range of learning experiences that familiarizes them with Indigenous women in traditional and contemporary societies. Students will explore historical and contemporary issues relevant to Indigenous women, examine the multifaceted roles of Indigenous women, and analyze the complexities of Indigenous women within a settler colonial society. No student may earn credit for both 4433 and 5433. (Irreg.)

NAS 4513 Native Cultural Aesthetics & the Heritage Industry 3 Credit Hours
(Slashlisted with NAS 5513) Prerequisite: junior standing. Focus on aspects of heritage tourism pertaining to Native American experience in the United States from early 19th century to present, examining ways of life of tribes in the form of buildings, art, artifacts, and customs. No student may earn credit for both 4513 and 5513. (Irreg.) [IV-WDC].

NAS 4533 Contemporary Native American Artists 3 Credit Hours
(Slashlisted with NAS 5533) Prerequisite: Junior standing or Departmental Permission. This course introduces a contemporary tribal and textual diversity of the Indigenous arts and peoples of Native North America. By engaging with Indigenous aesthetics, Native artists' critical and creative ways of expression, and multiple modes of media, we will analyze material, visual, and aural art and artists through Indigenous-centered lenses. No student may earn credit for both 4533 and 5533. (Irreg.) [IV-NW].

NAS 4713 Indigenous Community Planning 3 Credit Hours
(Slashlisted with NAS 5713) Prerequisite: Junior standing or departmental permission. We will conceive of futures for Indigenous communities and delve into Indigenous planning and create a planning document. Related to that are Indigenous culture, land tenure, values, MMIW, and accountability to past, present, and future Indigenous community members. No student may earn credit for both 4713 and 5713. (Sp)

NAS 4723 Spatial Storytelling 3 Credit Hours
(Slashlisted with NAS 5723) Prerequisite: Junior Standing or departmental permission. This course will analyze and respond to the ongoing settler colonial structural impacts on spaces and places and the concomitant role of power relations in shaping community and culture. Students will learn low-tech and high-tech approaches to designing and carrying out community map biographies and stories that advocate for social transformation, as well as produce less-told spatial narratives. No student may earn credit for both 4723 and 5723. (Irreg.)

NAS 4923 Contemporary Issues in Native American Studies 3 Credit Hours
(Slashlisted with NAS 5923) Prerequisite: junior standing. Familiarizes and sensitizes students to dynamics of change relevant to prevailing issues and concerns among American Indian entities with a special focus on tribal development/progress. No student may earn credit for both 4923 and 5923. (Irreg.) [IV-NW].

NAS 4960 Directed Readings 1-4 Credit Hours
1 to 4 hours. Prerequisite: good standing in University; permission of instructor and dean. May be repeated; maximum credit four hours. Designed for upper-division students who need opportunity to study a specific problem in greater depth than formal course content permits. (Irreg.)

NAS 4970 Special Topics/Seminar 1-3 Credit Hours
1 to 3 hours. Prerequisite: senior standing or permission of instructor. May be repeated with change of topic; maximum credit nine hours. Special topics or seminar course for content not currently offered in regularly scheduled courses. May include library research or special projects. (Irreg.)

NAS 4990 Independent Study 1-3 Credit Hours
Prerequisite: nine hours of NAS courses and permission of Program Director or instructor. May be repeated; maximum credit six hours. The study of issues related to Native American Studies to include research and special projects. (F, Sp, Su)

NAS 5033 Indigenous Research Methods 3 Credit Hours
(Slashlisted with NAS 4033) Prerequisite: Graduate standing. Introduction to research methods in Native American Studies with an emphasis on interdisciplinarity. Students will be introduced to the range of methods available for analysis, and to the presentation of research results. Students will formulate a research proposal that includes problem identification, recommendation and justification of methods for analysis, and preparation of a critical literature review. Emphasis on Indigenous methodologies. No student may earn credit for both 4033 and 5033. (Irreg.)

NAS 5043 Sovereignty, Law, and Policy 3 Credit Hours
(Slashlisted with NAS 4043) Prerequisite: graduate standing. Explores what constitutes the basic nature of political sovereignty and how it is exercised in Native American communities and what the possibilities and limitations are for tribal governments. No student may earn credit for both NAS 4043 and NAS 5043. (Irreg.)

NAS 5063 Critical Indigenous Theory 3 Credit Hours
(Slashlisted with NAS 4063) Prerequiste: graduate standing or student in the College of Law. Seeks to transcend disciplinary boundaries and ground scholarly inquiry in Indigenous frameworks that reflect Native-centered concerns and objectives. Provides an alternative philosophical and theoretical toolkit for applying Indigenous methodologies, understanding strategies of decolonization, envisioning collective and individual agency and models of sovereignty, and examining the intersection of Indigenous intellectual production and lived experiences. No student may earn credit for both NAS 4063 and NAS 5063. (F)

NAS 5113 Oklahoma Tribal History 3 Credit Hours
(Slashlisted with NAS 4113) Prerequisite: graduate standing. A survey of Native American history for the area known today as Oklahoma and the surrounding region. Explores the general concepts and histories of the region from a Native perspective. Discussion of Oklahoma tribal experiences in the context of regional and national experiences. Examines the Oklahoma Native experience through the world-views and words of Native Americans. No student may earn credit for both 4113 and 5113. (Irreg.)

NAS 5133 Tribal Historic Preservation 3 Credit Hours
(Slashlisted with NAS 4133) Prerequisite: Graduate standing. Provides basic grounding in processes necessary to understand and participate in the federal tribal historic preservation program. Students will receive material and insights to help them gain skills in understanding laws and regulations relating to the federal historic preservation system. No student may earn credit for both 4133 and 5133. (Irreg,)

NAS 5143 Native American Graves Protection and Repatriation 3 Credit Hours
(Slashlisted with NAS 4143) Prerequisite: Graduate standing. This course will be centered on Native American historic preservation as it is concerned with the history of protection and repatriation of Native American human remains and associated objects. Legislative histories and U. S. and international laws dealing with Native American human remains will be examined in the context of human rights legislation informed by tribal histories and current practices. No student may earn credit for both 4143 and 5143. (Irreg.)

NAS 5153 Indigenous Mapping: Issues in Data Sovereignty and Security 3 Credit Hours
(Slashlisted with NAS 4153) Prerequisite: Graduate standing. This course will be centered on the discipline of Indigenous mapping and the resulting issues confronted in dealing with data sovereignty and security for Native American tribes. This course deals with specific Native American methodologies related to Geographic Information Systems (GIS) and the application of this technology to tribal initiatives. No student may earn credit for both 4153 and 5153. (Irreg.)

NAS 5163 Native Food Sovereignty 3 Credit Hours
(Slashlisted with NAS 4163) Prerequisite: Graduate standing. This course focuses on Indigenous practices and concepts as they apply to the food sovereignty of the Native Americas using comparative data from across time and place. Of special interest are the dynamic connections between native foods and the health of people and place and the impacts of colonization and rapid cultural change. No student may earn credit for both 4163 and 5163. (Irreg.)

NAS 5213 Intro to Language Documentation and Revitalization 3 Credit Hours
(Slashlisted with NAS 4213) Prerequisite: Graduate standing. We look at different strategies for language revitalization, and students investigate ways to use old and new language documentation in language revitalization. Topics include the differences and overlap between language documentation and description, how languages change in endangerment, what goes into the complete description of a language, types of language revitalization programs, and case studies of successes and troubles. No student may earn credit for both 4213 and 5213. (Irreg.)

NAS 5223 Survey of Native American Languages 3 Credit Hours
(Slashlisted with NAS 4223) Prerequisite: Graduate standing. This class addresses the linguistic and structural diversity of the Americas, as well as topics like areal diffusion and language contact. Knowledge of this type, besides being necessary background for anyone wanting to specialize in languages of the Americas, is additionally useful for knowing how particular languages students may be interested in fit into the linguistic fabric of the world. No student may earn credit for both 4223 and 5223. (Irreg.)

NAS 5233 Language Acquisition for Revitalization 3 Credit Hours
(Slashlisted with NAS 4233) Prerequisite: Graduate standing. This class deals with the intimate relationship between language revitalization and the science of creating new speakers, with the goal of taking experimental research in language acquisition and applying those findings to minority language revitalization contexts. No student may earn credit for both 4233 and 5233. (Irreg.)

NAS 5243 Methods of Language Documentation 3 Credit Hours
(Slashlisted with NAS 4243) Prerequisite: Graduate standing. This class is a hands-on practicum in the latest and greatest in language documentation and prepares students to make professional-level recordings, video documentation, and essential secondary materials for language documentation. No student may earn credit for both 4243 and 5243. (Irreg.)

NAS 5343 American Indian Education Policy and Development 3 Credit Hours
(Slashlisted with NAS 4343) Prerequisite: graduate standing. Enables students to come to an understanding of American Indian education history and policy as related to western European educational thought, philosophies, theories, and practices. No student may earn credit for both 4343 and 5343. (Sp)

NAS 5353 Introduction to Tribal Economic Development 3 Credit Hours
(Slashlisted with NAS 4353) Prerequisite: graduate standing. Introduces students to the concept of tribal economic development and the relevant issues facing tribal, local, state, and federal agencies. Examines theories and roles of tribal economic development as they relate to the survival and continuation of tribal governments. No student may earn credit for both 4353 and 5353. (Irreg.)

NAS 5363 Tribal Governance and Leadership 3 Credit Hours
(Slashlisted with NAS 4363) Prerequisite: graduate standing. Examines traditional and contemporary forms of tribal government and leadership. Students will be exposed to the historical development of modern tribal governments through examination of government policies and legislation. Explores contemporary issues in tribal government and styles of tribal leadership. No student may receive credit for both 4363 and 5363. (Irreg.)

NAS 5373 International Indigenous Issues 3 Credit Hours
(Slashlisted with NAS 4373) Prerequisite: Graduate standing. This seminar explores the contemporary politics of Indigenous Peoples and settler societies. It takes a sociological, legal, political and anthropological approach to how politics operate within and around Indigenous Peoples. By using a comparative perspective, it examines the dynamics of critical relationships in terms of national, regional and global political order. No student may earn credit for both 4373 and 5373. (Irreg.)

NAS 5423 Issues in Native American Environment and Sustainability 3 Credit Hours
(Slashlisted with NAS 4423) Prerequisite: Graduate standing. This course will be centered on current issues in Native American environment and sustainability. This course will focus on the interrelationships of people, their environments, their philosophies and cosmologies, ethics, histories, and health. No student may earn credit for both 4423 and 5423. (Irreg.)

NAS 5433 Native American Women 3 Credit Hours
(Slashlisted with NAS 4433) Prerequisite: Graduate standing. The objective of this course is to provide students with a range of learning experiences that familiarizes them with Indigenous women in traditional and contemporary societies. Students will explore historical and contemporary issues relevant to Indigenous women, examine the multifaceted roles of Indigenous women, and analyze the complexities of Indigenous women within a settler colonial society. No student may earn credit for both 4433 and 5433. (Irreg.)

NAS 5513 Native Cultural Aesthetics & the Heritage Industry 3 Credit Hours
(Slashlisted with NAS 4513) Prerequisite: graduate standing. Focus on aspects of heritage tourism pertaining to Native American experience in the United States from early 19th century to present, examining ways of life of tribes in the form of buildings, art, artifacts, and customs. No student may earn credit for both 4513 and 5513. (Irreg.)

NAS 5533 Contemporary Native American Artists 3 Credit Hours
(Slashlisted with NAS 4533) Prerequisite: Graduate standing. This course introduces a contemporary tribal and textual diversity of the Indigenous arts and peoples of Native North America. By engaging with Indigenous aesthetics, Native artists' critical and creative ways of expression, and multiple modes of media, we will analyze material, visual, and aural art and artists through Indigenous-centered lenses. No student may earn credit for both 4533 and 5533. (Irreg.)

NAS 5713 Indigenous Community Planning 3 Credit Hours
(Slashlisted with NAS 4713) Prerequisite: Graduate standing. We will conceive of futures for Indigenous communities, delve into Indigenous planning and create a planning document. Related to that are Indigenous culture, land tenure, values, MMIW, and accountability to past, present, and future Indigenous community members. No student may earn credit for both 4713 and 5713. (Sp)

NAS 5723 Spatial Storytelling 3 Credit Hours
(Slashlisted with NAS 4723) Prerequisite: Graduate Standing. This course will analyze and respond to the ongoing settler colonial structural impacts on spaces and places and the concomitant role of power relations in shaping community and culture. Students will learn low-tech and high-tech approaches to designing and carrying out community map biographies and stories that advocate for social transformation, as well as produce less-told spatial narratives. No student may earn credit for both 4723 and 5723. (Irreg.)

NAS 5920 Native American Studies Practicum 3 Credit Hours
Prerequisite: graduate standing. A component of the core curriculum for the master's credential within the NAS discipline. Provides learning experiences and the application of understanding and skills in American Indian related professional settings. (F, Sp, Su)

NAS 5923 Contemporary Issues in Native American Studies 3 Credit Hours
(Slashlisted with NAS 4923) Prerequisite: graduate standing. Familiarizes and sensitizes students to dynamics of change relevant to prevailing issues and concerns among American Indian entities with special focus on tribal development/progress. No student may earn credit for both 4923 and 5923. (Irreg.)

NAS 5960 Directed Readings 1-3 Credit Hours
1 to 3 hours. Prerequisite: graduate standing and permission of instructor. May be repeated; maximum credit six hours. Directed readings and/or literature reviews under the direction of a faculty member. (F, Sp, Su)

NAS 5970 Special Topics/Seminar 1-3 Credit Hours
1 to 3 hours. Prerequisite: graduate standing or permission of instructor. May be repeated with change of topic; maximum credit nine hours. Special topics or seminar course for content not currently offered in regularly scheduled courses. May include library research or special projects. (Irreg.)

NAS 5980 Research for Master's Thesis 2-6 Credit Hours
Prerequisite: graduate standing. Variable enrollment, two to six hours; maximum credit applicable toward degree, six hours. (F, Sp, Su)

NAS 5990 Independent Study 1-3 Credit Hours
1 to 3 hours. Prerequisite: Graduate standing and permission of instructor. May be repeated; maximum credit six hours. Contracted independent study for a topic not currently offered in regularly scheduled courses. Independent study may include library and/or laboratory research and field projects. (F, Sp, Su)

POTA 1715 Potawatomi Language I 5 Credit Hours
Through a partnership between the Citizen Potawatomi Nation Language Department and the university, this language course will introduce students to the culture, history, phonology, morphology, syntax, conversational practice, and vocabulary of Bodewadmimwen (Potawatomi Language) using an online platform. Framed in a seasonal context, four modules guide students through a Potawatomi-centered worldview to create story-listeners and -tellers. (F, Sp)

POTA 1725 Potawatomi Language II 5 Credit Hours
Prerequisite: NAS 1715 or departmental permission. Through a partnership between the Citizen Potawatomi Nation Language Department and the university, this language course will build on the foundation of Potawatomi Language I to introduce students to the culture, history, phonology, morphology, syntax, conversational practice, and vocabulary using an online platform. Students will foster awareness of the Potawatomi worldview by gaining comprehension of culture, identity, and historic events. (F, Sp)

Faculty

For more information, please visit the Faculty page on the Native American Studies website.

Last Name	First/Middle Name	Middle init.	OU Service start	Title(s), date(s) appointed	Degrees Earned, Schools, Dates Completed
Borck	Lewis		2022	Horizon Endowed Chair of Native American History & Culture, 2022; Associate Professor, 2025	PhD, Anthropology with specialization in Archaeology; Minor in Remote Sensing and Spatial Analysis, University of Arizona
Clough	Josh		2013	Lecturer, 2013	PhD, University of Oklahoma, 2012; MA, University of Oklahoma, 2003
Duncan	Schon		2025	Instructor, 2025	BA, Northeastern State University, 2014

Native American Studies, B.A.

Minimum Total Credit Hours: 120
Major Hours: 36
Minimum Upper-Division Hours: 48

Overall GPA - Combined and OU: 2.00
Major GPA - Combined and OU: 2.00

Program Code: B740

Major Requirements

- **Some courses required for the major may also fulfill University General Education and/or Dodge College of Arts & Sciences Requirements.**
- **Programs of study must be approved by the program Director and coordinating committee.**

Code	Title	Credit Hours
NAS Core Requirements		
NAS 2013	Foundations in Native American Sovereignty	3
NAS 3013	Native American Studies Internship	3
NAS 4033	Indigenous Research Methods	3
NAS 4053	Senior Capstone (should be taken in the senior year)	3
NAS 4063	Critical Indigenous Theory	3
Thematic Areas of Emphasis		
Choose seven courses in one or more of the following areas: [1]		21
Cultural Knowledge, Language, & History (p. 652)		
Tribal Governance & Policy (p. 652)		
Indigenous Media & Arts (p. 652)		
Total Credit Hours		**36**

[1] Students may declare one or more areas of emphasis. A list of appropriate courses may be obtained from the NAS program. Appropriate courses should be selected with the guidance of the NAS advisor.

Major Support Requirements

Code	Title	Credit Hours
Native Language Requirement		
Choose two introductory courses (1000-level) or the equivalent in a Native language [1]		6-10
Total Credit Hours		**6-10**

[1] May be used to fulfill General Education and College requirements. May *not* be used to satisfy NAS Core or Area of Emphasis coursework.

Recommended Free Electives [1]

Code	Title	Credit Hours
NAS 1013	Introduction to Native American Studies	3
CHER 2733	Intermediate Cherokee	3
CREK 2733	Intermediate Creek/Seminole	3
CHOC 2733	Intermediate Choctaw	3
KIOW 2733	Intermediate Kiowa	3

[1] These courses are not major or major support work, nor are they required.

General Education and College Requirements

Courses for fulfillment of General Education and Dodge College of Arts & Sciences requirements must be from the approved General Education course list published in the Class Schedule or at http://www.ou.edu/gened/courses. **Courses graded P/NP will not apply.**

MINIMUM OF 40 HOURS REQUIRED FOR UNIVERSITY-WIDE GENERAL EDUCATION

Code	Title	Credit Hours
Core Area I: Symbolic and Oral Communication		
English Composition (6 hours)		
ENGL 1113	Principles of English Composition	3
ENGL 1213	Principles of English Composition	3
or EXPO 1213	Expository Writing	
Language (0-13 hours in the same language)		
The college requirement cannot be met by high school coursework.		
Beginning Course		0-5
Beginning Course, continued		0-5

Intermediate Course (2000 level) [1,2]		0-3
Mathematics (3 hours)		
Choose one course from the General Education Mathematics list		3
Core Area II: Natural Science (7 hours, including one laboratory component)		
Biological Science		
Choose an approved General Education Natural Science course with one of the following prefixes: BIOL, HES, MBIO, or PBIO [1]		3-4
Physical Science		
Choose an approved General Education Natural Science course with one of the following prefixes: AGSC, ASTR, CHEM, GEOG, GEOL, GPHY, METR, or PHYS [1]		3-4
Core Area III: Social Science (6 hours)		
P SC 1113	American Federal Government	3
Choose one course from the General Education Social Science list		3
Core Area IV: Arts and Humanities (18 hours)		
Artistic Forms		
Choose one course from the General Education Artistic Forms list		3
Western Culture		
HIST 1483	United States to 1865	3
or HIST 1493	United States, 1865 to the Present	
Choose one course from the General Education Western Culture list (excluding HIST 1483/1493)		3
World Culture		
Choose one course from the General Education World Culture list		3
Additional Core IV Upper-Division Arts & Humanities courses		
Choose one course from Artistic Forms, Western Culture, or World Culture [1,3]		3
Choose one course from Artistic Forms, Western Culture, or World Culture [1,3]		3
Core Area V: First Year Experience (3 hours)		
Choose one course		3
Total Credit Hours		**56**

1 College of Arts and Sciences Requirements: college requirements are not automatically fulfilled by a previous degree.

2 One course at the intermediate level or demonstrated competency at that level

3 6 upper-division hours, 2 courses, at the 3000- 4000-level. ***Must be outside the major.***

Free Electives

Electives to bring total applicable hours to the minimum total required for the degree including 48 upper-division hours.

Information Concerning General Rules, Regulations and Minimum Requirements

Arts and Sciences Hours: At least 80 semester hours of liberal arts and sciences courses are required for a BA degree. At least 55 semester hours of liberal arts and sciences courses are required for a BS degree.

Pass/No Pass Enrollment: A maximum of 16 semester hours of free elective credit may be attempted under this option.

Individual Studies (e.g., courses titled "Independent Study"): A maximum of 12 total semester hours may be counted toward graduation, excluding Honors Reading and Honors Research.

P.E. Courses: No physical education activity courses will be counted toward the 120 semester hours of acceptable credit for graduation.

Senior Institution Hours: A minimum of 60 semester hours applied toward graduation must be earned at senior (4-year) institutions.

Residency:

- At least 15 of the final 30 hours applied toward the degree or at least 50 percent of the hours required by the institution in the major field must be satisfactorily completed at the awarding institution.
- At least 15 semester hours of upper-division major work must be completed in residence at OU.
- OU correspondence courses are ***not*** considered resident credit.

Grade Point Averages: Students must earn a minimum over all 2.00 for each of the following: Combined Retention GPA (all college grades), OU Retention GPA, GPA for all major courses, and GPA for all major courses taken at OU. Some schools and departments of the College have higher minimum grade point averages required for their students.

Suggested Semester Plan of Study

This plan shows one possible grouping of courses that would allow students to graduate in four years. Please refer to the front of the degree checksheet for official requirements. Students must consult with Dodge College of Arts and Sciences and/or Department of Native American Studies academic advisors to verify that courses selected each semester fulfill the recommended plan and satisfy University, College of Arts and Sciences, and Native American Studies major requirements.

Freshman		
First Semester		**Credit Hours**

Native American Studies, Minor

Minimum Total Credit Hours: 15
Minimum Upper-Division Hours: 9

Program Code: N725

- **The requirements for a minor must be completed concurrently with the major degree requirements.**
- **No minor may be added by completing courses after receiving the bachelor's degree.**

At least six (6) credit hours must be earned in courses acceptable for residence credit by standards set forth by the Dodge College of Arts and Sciences, excluding transfer, correspondence, and examination (AP, CLEP, Advanced Standing) credit. Courses for the minor may not be taken Pass/No Pass.

No single course may be used by a student to satisfy a major requirement and a minor requirement. A course may be used, however, to satisfy both a major support requirement and a minor requirement.

Requests to substitute a minor requirement must be approved in writing by the Native American Studies program.

Required Courses

Students must successfully complete at least 15 hours of courses, including at least 9 hours at the upper-division level

Code	Title	Credit Hours
NAS Core Requirements		
NAS 2013	Foundations in Native American Sovereignty	3
NAS 4063	Critical Indigenous Theory	3
Thematic Area of Emphasis		
Choose three courses from one or more of the following areas: [1]		9
Cultural Knowledge, Language, & History (p. 652)		
Tribal Governance & Policy (p. 652)		
Indigenous Media & Arts (p. 652)		
Total Credit Hours		**15**

[1] Students may declare one or more areas of emphasis. A list of appropriate courses in each area may be obtained from the NAS Program. Appropriate courses should be selected with the guidance of the NAS advisor.

- Minors in the Dodge College of Arts & Sciences are available to all undergraduate students at OU. If the minor is officially declared, successfully completed, and noted on the graduation application, the student's transcript will so indicate at the time the bachelor's degree is posted.

Native American Studies, M.A.

Minimum Total Hours (Thesis): 33
Minimum Total Hours (Non-Thesis): 33

Program Code: M740

Required Courses

Thesis Option

Code	Title	Credit Hours
NAS Core Requirements		
NAS 5063	Critical Indigenous Theory	3
Choose one of the following:		3
NAS 5033	Indigenous Research Methods	
LAW 6311 & LAW 6320	American Indian Law Review and Directed Legal Research (2 hours)	
NAS 5043	Sovereignty, Law, and Policy	3
or LAW 5610	Federal Indian Law	
Thematic Area of Emphasis		
Choose seven courses in one or more of the following: [1]		21
Cultural Knowledge, Language, & History		
Tribal Governance & Policy		
Indigenous Media & Arts		
Thesis		
NAS 5980	Research for Master's Thesis [2]	3
Native Language Proficiency		
Demonstrate proficiency in a Native American language or complete one introductory course (1000-level) in a Native language or the equivalent [3]		
Total Credit Hours		**33**

[1] Students may declare one or more areas of emphasis. A list of appropriate courses may be obtained from the NAS program. Appropriate courses should be selected with the guidance of the NAS advisor.

[2] Minimum of three (3) thesis hours. Student will complete thesis under the direction of the committee chair.

[3] May *not* be used to satisfy core or emphasis credit.

Non-Thesis Option

Code	Title	Credit Hours
NAS Core Requirements		
NAS 5063	Critical Indigenous Theory	3
Choose one of the following:		3
NAS 5033	Indigenous Research Methods	
LAW 6311 & LAW 6320	American Indian Law Review and Directed Legal Research (2 hours)	
NAS 5043	Sovereignty, Law, and Policy	3
or LAW 5610	Federal Indian Law	
Thematic Area of Emphasis		
Choose eight courses in one or more of the following: [1]		24
Cultural Knowledge, Language, & History		
Tribal Governance & Policy		
Indigenous Media & Arts		
Comprehensive Exam		
Student will complete comprehensive exam under the direction of the committee chair		
Native Language Proficiency		

Demonstrate proficiency in a Native American language or complete one introductory course (1000-level) in a Native language or the equivalent [2]	
Total Credit Hours	**33**

[1] Students may declare one or more areas of emphasis. A list of appropriate courses may be obtained from the NAS program. Appropriate courses should be selected with the guidance of the NAS advisor.

[2] May *not* be used to satisfy core or emphasis credit.

Notes

- **To qualify for a graduate degree, students must achieve an overall grade point average of 3.0 or higher in the degree program coursework.**
- **The dual Master of Arts in Native American Studies and Juris Doctorate program will require a total of 126 hours of coursework. Thirty-six hours are required for the M.A. and 90 hours are required for the JD. Twenty-four hours can be shared. The shared hours must come from the M.A. requirements.**

General Requirements for all Master's Degrees

The master's degree requires the equivalent of *at least* two semesters of satisfactory graduate work and additional work as may be prescribed for the degree.

All coursework applied to the master's degree must carry graduate credit.

Master's degree programs which require a thesis consist of *at least* 30 credit hours. All non-thesis master's degree programs require *at least* 30 credit hours.

Credit transferred from other institutions must meet specific criteria and is subject to certain limitations.

Courses completed through correspondence study may *not* be applied to the master's degree.

To qualify for a graduate degree, students must achieve an overall grade point average of 3.0 or higher in the degree program coursework and in all resident graduate coursework attempted. A student must also have at least a 3.0 in all coursework (including undergraduate coursework if any).

Additional information for master's degree students may be found in the Graduate College Bulletin.

Native American Studies, Graduate Certificate

Minimum Total Hours: 15

Program Code: G670

Certificate Requirements

Code	Title	Credit Hours
NAS 5033	Indigenous Research Methods	3
NAS 5043	Sovereignty, Law, and Policy	3
NAS 5063	Critical Indigenous Theory	3
Choose 6 hours in consultation with the NAS Graduate Liaison [1]		6
Total Credit Hours		**15**

[1] Students may, but are not required to declare, an area of emphasis from one of the three existing areas of emphasis: (1) Tribal Governance and Policy, (2) Cultural Knowledge and Language, or (3) Indigenous Media and Arts.

A graduate *certificate* is not a graduate *degree*. A graduate degree represents a program of independent inquiry beyond the depth of coursework alone, while a graduate certificate represents a set of courses only.

- All courses must be taken at OU. No transfer credit will apply.
- No course substitutions are permitted for graduate certificates.
- Coursework applied to a graduate certificate cannot be more than five years old as of the semester the graduate certificate is awarded.
- Students must earn a grade point average of 3.00 or higher on all coursework applied to the graduate certificate.

General Information

The Shyam Dev Patwardhan Department of Philosophy offers broad training in the major fields of philosophy, with particular strengths in the history of ancient and modern philosophy, Chinese philosophy, logic, metaphysics, epistemology, aesthetics and the philosophy of art, philosophy of science, philosophy of language, philosophy of mind and philosophy of religion. The department offers a rich and lively environment with an emphasis on informal interaction between faculty and students.

Programs & Facilities

Programs for Academic Excellence

Kingfisher College, Kingfisher, Oklahoma, discontinued giving instruction in 1927. An agreement with the trustees of the college provided for transferring a part of the library of the college to the University, for administering the Kingfisher College records for each graduate of Kingfisher College, recognizing the merits of the degree held by each, and inviting the holder to become associated with the alumni of the University. In 1951 the trustees of the college and the regents of the University jointly established a chair in the Department of Philosophy named Kingfisher College Professor of Philosophy of Religion and Ethics. Since its origin this chair has been expanded into an operative

section of the Department of Philosophy, including both graduate and undergraduate level courses.

Ethics Bowl

The Intercollegiate Ethics Bowl is a debate competition sponsored by the Association for Practical and Applied Ethics. Ethics Bowl events center around discussing complex and pressing moral questions based on contemporary case examples. Unlike traditional debate, teams are not judged on the basis of oration. Instead, students are evaluated only on their ability to present arguments that thoughtfully and thoroughly engage with the cases and the other teams' arguments. Teams do not bring pre-written materials and generally remain seated with their team for the discussion. This tends to produce a casual and friendly environment during competition. There are two fall competitions: state and regionals. Teams that place highly at the regional event win an invitation to compete at the national competition.

Society of Undergraduate Philosophers

The Society of Undergraduate Philosophers (SOUP) is an organization of undergraduates and graduate students interested in philosophy. The SOUP meets regularly for discussions, talks by faculty members, to view philosophically themed movies, and to engage in other philosophy related activities.

Undergraduate Study

Bachelor of Arts Degree

Undergraduate studies in philosophy offer broad training in the major fields of philosophy, with particular strengths in the history of ancient and modern philosophy, Chinese philosophy, logic, metaphysics, epistemology,aesthetics and the philosophy of art, philosophy of science, philosophy of language, philosophy of mind and philosophy of religion. In addition to classes and seminars, the department offers a rich and lively environment with an emphasis on informal interaction between faculty and students.

Philosophy

The Bachelor of Arts (p. 661) in Philosophy is an excellent preparation for professional graduate programs in business, medicine, and law, and for graduate programs in philosophy. It is also ideal as a second major in conjunction with physics, psychology, economics, political science, or literature. But perhaps most importantly, the philosophy major fosters a sense of wonder, and provides a rigorous intellectual method for gaining understanding of oneself and the world. By learning about the heritage of philosophical examination, students acquire an informed basis for arriving at their own conclusions about their most basic beliefs and values. Philosophy encourages students to become critical thinkers — to reason clearly and correctly concerning important and fundamental issues.

The ability to write clear, coherent papers is essential to philosophy. Philosophy majors receive specialized training in writing for the field in a Writing Workshop, and they must take at least two majors-only courses, in which they have intensive writing requirements.

Minor

The department also offers an undergraduate Philosophy Minor (p. 664).

Courses for Non-Majors

Most students who take philosophy courses are not philosophy majors. The topics covered by philosophy — e.g., moral, legal, aesthetic and religious values, logic, the theory of knowledge and the history of human thought on these subjects — are of interest to most college students, and many philosophy courses satisfy general education requirements. Non-majors are welcome in any course for which they have the appropriate prerequisites. Consult the course catalog (p. 1849) for information on prerequisites for courses above 3000.

Graduate Study

The Shyam Dev Patwardhan Department of Philosophy at the University of Oklahoma offers programs of study leading to two advanced degrees: a terminal MA, either with thesis or without, and a Ph.D. The department offers broad training in the major fields of philosophy.

- Philosophy, Master of Arts (p. 664)
- Philosophy, Ph.D (p. 665).

Courses

PHIL 1013 Introduction to Philosophy 3 Credit Hours
Basic problems of philosophy explored through a consideration of selected philosophers. (F, Sp, Su) [IV-WC] .

PHIL 1023 Introduction to Indigenous Philosophy 3 Credit Hours
This course introduces Indigenous philosophy through land-based worldviews, relational ethics, and community-rooted knowledge from Oklahoma tribal nations and global Indigenous traditions. Emphasizing socially engaged philosophy, the course examines colonialism, sovereignty, and environmental justice while exploring concepts such as kinship, reciprocity, and responsibility. Students learn how Indigenous philosophies offer relational, ethical, and political alternatives grounded in land, community, and collective well-being. (F, Sp, Su)

PHIL 1103 Critical Reasoning 3 Credit Hours
An informal survey of evaluative principles of reasoning. The application of these principles is emphasized, and common errors and fallacies in everyday, ethical, legal, and scientific reasoning are discussed. This course is not a course in formal symbolic logic or mathematical logic. (F, Sp) [III-SS] .

PHIL 1113 Introduction to Logic 3 Credit Hours
Prerequisite: MATH 1005 or satisfactory score on math placement assessment. An introduction to modern logic and its applications. Emphasis is placed on deductive logic, but may also include some treatment of inductive logic. Various common fallacies and errors in reasoning will also be discussed. (F, Sp, Su) [I-M] .

PHIL 1203 Happiness 3 Credit Hours
This course introduces some of the theories of happiness that loom large in philosophical traditions from diverse cultural and historical contexts. We'll explore key ideas from various viewpoints to help you build your own perspective, and try out practical tools and methods to achieve happiness. We will consider how happiness relates to pleasure, suffering, flourishing, ethics, community, and technology. (Irreg.) [IV-WC].

PHIL 1213 Introduction to Ethics 3 Credit Hours
Basic issues in moral philosophy examined through a consideration of selected philosophers, including a sampling of normative theories as well as an introduction to issues of metaethics. (F, Sp, some Su) [IV-WC] .

PHIL 1223 Introduction to Asian Philosophy 3 Credit Hours
(Crosslisted with IAS 1223) Survey of the major figures and schools of philosophy in Asia. Includes study of Hinduism, Buddhism, Confucianism, and Daoism. (F) [IV-WDC].

PHIL 1233 Contemporary Moral Issues 3 Credit Hours
Philosophical exploration of major contemporary moral issues such as euthanasia, abortion, death penalty, war and terrorism, poverty and world hunger, animal rights, pornography, marriage, affirmative action, drug legalization, and organ sales. Students will read contrasting views from prominent philosophers, and learn about how moral theories may be invoked in support of positions on those issues. (F, Sp)[IV-WC].

PHIL 1243 Death and Loss 3 Credit Hours
This course addresses some of the most vexing challenges of human experience: death and loss. We will consider whether death should be considered bad, what we lose when people we love die, and what role mortality can play in a meaningful life. Students will learn significant classical and contemporary arguments, as well as learn to develop their own. (Irreg.) [IV-WC].

PHIL 1263 Introduction to Ethics in Health Care 3 Credit Hours
An overview of important issues in health care ethics, including dilemmas facing providers, patients, researchers, and society at large. The course will introduce facts and concepts drawn from health care practice, and a variety of philosophical approaches used to analyze ethical dilemmas. (F, Sp) [IV-WC].

PHIL 1273 Introduction to Business Ethics 3 Credit Hours
An overview of important issues in business ethics, including the morality of market systems, business-customer relations, employer-employee relations, and firm-shareholder relations. The course will introduce facts and concepts drawn from economic analysis and business practice, as well as a variety of philosophical approaches used to analyze ethical considerations. (F, Sp) [IV-WC].

PHIL 2023 Existentialism, its Sources and Influences 3 Credit Hours
The historical background and cultural impact of existentialism in its literary, religious, psychiatric and philosophical expressions. Stresses Kierkegaard, Heidegger and Sartre. Briefly treats Nietzsche, Jaspers, Berdyaev, Maslow, Beckett, etc. (Irreg.)

PHIL 2900 Special Topics 4 Credit Hours
1 to 4 hours. May be repeated with change of topic; maximum credit nine hours. Topics in philosophy not accommodated by the existing curriculum will be taught from time to time (examples: Islamic philosophy, Navajo thought, feminism). (Irreg.)

PHIL 3023 Aesthetics and the Philosophy of Art 3 Credit Hours
Prerequisite: six hours of Philosophy or junior standing. Examines historical and contemporary views about the nature, value, social role and interpretation of artworks in a variety of artistic media. The appreciation of nature and of everyday experience is also discussed. (Irreg.) [IV-WC] .

PHIL 3033 Philosophy and Literature 3 Credit Hours
Literature expresses in concrete form what philosophy discusses in abstract terms: views of the world that human beings inhabit; views of the nature of human freedom and rationality; and views of the good human life. Use of literature to illustrate philosophical issues, and philosophy to reveal the unstated assumptions and implications of selected literary works. (Irreg.) [IV-WC] .

PHIL 3211 Ethics Bowl 1 Credit Hour
Prerequisite: Junior standing or department permission; may be repeated; maximum credit 3 hours. This is an intensive applied ethics course taught with a focus on the cases created by the Association for Practical and Professional Ethics for regional ethics bowl competitions each year. The course will cover major modern ethical theories, areas of applied ethical theory relevant to a set of contemporary cases, and oral advocacy skills. (F, Sp)

PHIL 3213 Ethics and Energy Systems 3 Credit Hours
Prerequisite: SES 2113, or SES 2123, or sophomore standing. The purpose of this course is to help you gain the skill of thinking about energy from an ethical point of view. It will help improve your ability to analyze and evaluate ethical arguments about energy and to clarify and express your own point of view--as a consumer, and as a citizen--on ethical dilemmas regarding energy use. (Sp)

PHIL 3233 The Meaning of Life 3 Credit Hours
Prerequisite: Junior Standing. "What is the meaning of life?" In the realm of philosophy, this is often the first question that comes to mind. The meaning of life has been a subject of discussion among philosophers since ancient times. Over the past two decades, there has been been a resurgence of interest, with a new wave of philosophers revisiting this profound question. (F, Sp) [IV-WC].

PHIL 3243 Civility 3 Credit Hours
Prerequisite: 6 hours of Philosophy or junior standing. Addresses the moral, social, and political aspects of the virtue of civility. Course readings will range from theoretical works linking civility to broad moral and political concerns to more applied approaches that seek to address how civility practices have altered alongside historical, sociological, and technological changes in society. (Irreg.) [IV-WC].

PHIL 3253 History of Ethics 3 Credit Hours
Prerequisite: six hours of philosophy. A survey of the major figures in the history of moral philosophy with emphasis on their interrelations, influences on each other and effect on contemporary moral philosophy. (Sp) [IV-WC] .

PHIL 3263 Virtue Ethics 3 Credit Hours
Prerequisite: junior standing or six hours of Philosophy. An overview of the history of virtue ethics from the ancient Greeks to the present day, covering the historical zenith of virtue ethics through the Middle Ages, the fall of virtue concepts in the early modern period, and the rebirth of virtue ethics in the later 20th century. Discusses a number of executive, moral, intellectual, and civic virtues and their related vices, and addresses some of the fundamental philosophical questions that arise in the study of virtue ethics. (F, Sp) [IV-WC].

PHIL 3273 Ethics and Business 3 Credit Hours
Prerequisite: Six hours of philosophy or junior standing. A study of how ethics illuminates business activities. Topics include: the philosophical bases of capitalism; the legitimacy of the profit motive; virtue and the marketplace; corporate responsibility; government regulation; the marketplace and the environment; the ethics of advertising; employee privacy; and the challenges posed by the developing information age. (Irreg.) [IV-WC] .

PHIL 3293 Environmental Ethics 3 Credit Hours
Prerequisite: junior standing or permission of instructor. Surveys the field of environmental ethics. Various principles philosophers use to assign value to the natural world and assign obligations toward nature to human beings are examined by students in order to articulate and defend their own reasoned points of view on environmental questions. (Irreg.) [IV-WC] .

PHIL 3313 History of Ancient Philosophy 3 Credit Hours
Prerequisite: six hours of philosophy. A survey of Greek and Roman philosophy with concentration on selected readings in classical philosophy from Thales to St. Augustine. (F) [IV-WC] .

PHIL 3333 History of Modern Philosophy 3 Credit Hours
Prerequisite: six hours of philosophy. A survey of modern European philosophy with concentration on selected readings from the Renaissance through Kant. (Sp) [IV-WC] .

PHIL 3343 Chinese Philosophy 3 Credit Hours
(Crosslisted with IAS 3343) Prerequisite: Six hours of philosophy or junior standing. Survey and analysis of the major texts and schools of philosophy in China, from the ancient world to the contemporary era. (Irreg.) [IV-WDC].

PHIL 3393 History of Analytic Philosophy 3 Credit Hours
Prerequisite: six hours of philosophy or junior standing; open to non-majors. Explores some of the main methods and topics of interest in the analytic philosophical tradition. Examines the views of influential philosophers, starting around the beginning of the twentieth century, on questions such as: What is the world made up of? What is the nature of time? What is knowledge, and do we have any? (Irreg.) [IV-WC].

PHIL 3403 Jewish and Islamic Philosophy 3 Credit Hours
Prerequisite: Junior standing. This course covers the development of classical Jewish and Islamic philosophy from roughly 800 to 1200 CE and then examines the development of these traditions in light of issues of contemporary relevance. (F, Sp) [IV-WDC].

PHIL 3423 Ancient and Medieval Religious Philosophy 3 Credit Hours
Prerequisite: six hours of philosophy or junior standing. Covers the history of religious philosophy in the West from ancient Greece until the 16th century. Major figures studied include Plato, Aristotle, the Stoics, Plotinus, Augustine, Boethius, Anselm, Maimonides, Aquinas, Averroes, Scotus, Ockham, and the Reformers. (Irreg.) [IV-WC] .

PHIL 3433 Modern Philosophy of Religion 3 Credit Hours
Prerequisite: six hours of philosophy or junior standing. Covers the history of modern religious philosophy in the West from the 17th to the mid-20th centuries. Major figures studied include Descartes, Pascal, Leibniz, Locke, Hume, Kant, Kierkkegaard, Nietzsche, Clifford, James, Freud, and Wittgenstein. (Irreg.) [IV-WC] .

PHIL 3440 Mentored Research Experience 3 Credit Hours
0 to 3 hours. Prerequisites: ENGL 1113 or equivalent, and permission of instructor. May be repeated; maximum credit 12 hours. For the inquisitive student to apply the scholarly processes of the discipline to a research or creative project under the mentorship of a faculty member. Student and instructor should complete an Undergraduate Research & Creative Projects (URCP) Mentoring Agreement and file it with the URCP office. Not for honors credit. (F, Sp, Su)

PHIL 3443 Contemporary Issues in Philosophy of Religion 3 Credit Hours
Prerequisite: six hours of philosophy or junior standing. Issues currently debated in philosophy of religion. Topics include the rationality of religious belief, the problem of evil, the dilemma of divine foreknowledge and human free will, life after death, the relation between science and religion, and religion and public policy. (Irreg.) [IV-WC] .

PHIL 3503 Self and Identity 3 Credit Hours
Prerequisite: 1013 or permission of instructor. Introduction to a number of philosophical topics about the self including personal identity, immortality, unity of self-consciousness, self-knowledge, and nature of self. (Irreg.) [IV-WC] .

PHIL 3513 Why Is There Something Rather Than Nothing? 3 Credit Hours
Prerequisite: Junior standing or department permission. This course addresses one of the most fundamental and enduring questions in philosophy: Why is there something rather than nothing? It provides students with an accessible entry point into metaphysics, epistemology, philosophy of religion, and philosophy of science, while fostering critical thinking about existence, meaning, and the limits of explanation. (Irreg.)

PHIL 3533 Language, Communication, and Knowledge 3 Credit Hours
Prerequisite: six hours of philosophy or junior standing. The nature of language and communication as studied by linguists and philosophers. Topics will include the nature of meanings; the relationship between syntax, semantics, and pragmatics; and the transmission of knowledge through testimony. Combines philosophical readings with readings from the empirical sciences. (Irreg.) [IV-WC] .

PHIL 3613 Philosophy of Biology 3 Credit Hours
Prerequisite: six hours of philosophy or junior standing. Philosophical issues raised by evolutionary theory. Topics include creationism versus evolutionary theory; what makes a hypothesis scientific; can evolutionary theory explain psychological or cultural phenomena? (Irreg.) [IV-WC] .

PHIL 3643 AI and Ethics in the Digital Age 3 Credit Hours
Prerequisite: Junior standing or instructor permission. Students will engage with the intersection of artificial intelligence and ethical values like privacy, autonomy, accountability, fairness, and flourishing. They will examine machine learning, large language models, modern means of surveillance, cryptocurrency, and other technologies. They will look at the intersection of AI and politics, policing, romantic relationships, international relations, work, and making end of life decisions. (F) [IV-WC].

PHIL 3653 Ethics and Modern Warfare 3 Credit Hours
Prerequisite: Junior standing or departmental permission. This course concerns the impact of modern technology, especially developments in AI, for the ethics of war. It covers traditional topics such as just war theory but also gives one a representative survey of issues posed by, for instance, drone warfare, autonomous weapons systems, genetically targeted bioweapons, digital disinformation campaigns, digital surveillance, and more. (Sp) [IV-WC].

PHIL 3713 History of Social and Political Philosophy 3 Credit Hours
Prerequisite: six hours of philosophy or junior standing. A survey of the views of major philosophers from Plato to the nineteenth century on the nature of man's relation to society and to the state in the context of their wider philosophical (logical, epistemological, metaphysical and ethical) doctrines. Plato, Aristotle, Aquinas, Hobbes, Locke, Rousseau, Hegel and Marx are the chief figures covered, though others will be considered as time permits. (Irreg.) [IV-WC] .

PHIL 3733 Religion in Political Theory 3 Credit Hours
Prerequisite: six hours of Philosophy or junior standing. Survey of views on religion in political life held by important political theorists in the modern western tradition and consider how theoretical positions on the role of religion in political life are reflected in political institutions, such as the first amendment establishment clause. (Irreg.) [IV-WC] .

PHIL 3743 Feminist Philosophy 3 Credit Hours
Prerequisite: Six hours of philosophy or junior standing. A study of the major schools of feminist philosophy, as well as issues of perennial and contemporary interest in feminist philosophy. (Irreg.) [IV-WC] .

PHIL 3753 Philosophy of Race 3 Credit Hours
Prerequisite: junior standing or six hours of philosophy. Philosophy of Race examines the historical emergence and contemporary significance of race. Students trace the genealogy of racial concepts, including debates over biological and social construction. The course explores ethical and political theories of racism, racial identity, epistemic injustice, social contract theory, recognition, and existential and phenomenological analyses of racialized experience and freedom. (Irreg.)

PHIL 3763 Law and Society 3 Credit Hours
Prerequisite: six hours of philosophy or junior standing. An introduction to the history and structure of the main controversies in modern law, with special attention to the United States legal system. Covered topics include natural law, legal realism, the law and economics movement, theories of responsibility and liability, feminist legal theory, and theories of text interpretation. (Irreg.) [IV-WC].

PHIL 3811 Philosophy Writing Workshop 1 Credit Hour
Prerequisite: co-requisite with 3813, 3833 or 3853. Intensive instruction on how to write papers in philosophy. Students will use the workshop to help them write the term paper for a designated target class, in which they must be concurrently enrolled. (F, Sp)

PHIL 3813 History of Ancient Philosophy for Majors 3 Credit Hours
Prerequisite: six hours of philosophy and Philosophy or Ethics and Religion major. A survey of Greek and Roman philosophy with concentration on selected readings in classical philosophy from Thales to St. Augustine. For majors in Philosophy or Ethics and Religion. No student may earn credit for both 3313 and 3813. (F, Sp)

PHIL 3833 History of Modern Philosophy for Majors 3 Credit Hours
Prerequisite: six hours of philosophy and Philosophy or Ethics and Religion major. A survey of modern European philosophy with concentration on selected readings from the Renaissance through Kant. For majors in Philosophy or Ethics and Religion. No student may earn credit for both 3333 and 3833. (F, Sp)

PHIL 3843 Chinese Philosophy for Majors 3 Credit Hours
Prerequisite: six hours of Philosophy and declared Philosophy major. Survey and analysis of the major texts and schools of philosophy in China, from the ancient world to the contemporary era. This is the majors-only version of PHIL 3343, Chinese Philosophy; it meets concurrently with that course, but has intensified writing requirements. It can serve as a "target class" for PHIL 3811, the Writing Workshop in Philosophy. (Irreg.)

PHIL 3853 History of Ethics for Majors 3 Credit Hours
Prerequisite: six hours of philosophy and Philosophy or Ethics and Religion major. A survey of the major figures in the history of moral philosophy with emphasis on their interrelations, influences on each other and effect on contemporary moral philosophy. For majors in Philosophy or Ethics and Religion. No student may earn credit for both 3253 and 3853. (Sp)

PHIL 3900 Special Topics 1-4 Credit Hours
1 to 4 hours. May be repeated with change of topic, maximum credit nine hours. Topics in philosophy not accommodated by the existing curriculum will be taught from time to time. (Irreg.)

PHIL 3960 Honors Reading 1-3 Credit Hours
1 to 3 hours. Prerequisite: admission to Honors Program. May be repeated; maximum credit six hours. Will consist of topics designated by the instructor in keeping with the student's major program. Topics will cover materials not usually presented in the regular courses. (F, Sp, Su)

PHIL 3970 Honors Seminar 1-3 Credit Hours
1 to 3 hours. Prerequisite: admission to Honors Program. May be repeated; maximum credit six hours. The projects covered will vary. The content will deal with concepts not usually presented in regular coursework. (Irreg.)

PHIL 3980 Honors Research 1-3 Credit Hours
1 to 3 hours. Prerequisite: admission to Honors Program. May be repeated; maximum credit six hours. Will provide an opportunity for the gifted Honors candidate to work at a special project in the student's field. (F, Sp, Su)

PHIL 3990 Independent Study 1-3 Credit Hours
1 to 3 hours. Prerequisite: one course in general area to be studied; permission of instructor and department. May be repeated; maximum credit six hours. Contracted independent study for topic not currently offered in regularly scheduled courses. Independent study may include library and/or laboratory research and field projects. (F, Sp, Su)

PHIL 4023 Survey of Analytic Aesthetics and Philosophy of Art 3 Credit Hours
(Slashlisted with PHIL 5023) Prerequisite: eight hours of philosophy or permission of department. Survey of major philosophical topics in aesthetics and the philosophy of art. Topics include the ontology of art, interpretation, the value of artworks, the relationship between aesthetic and moral value, and aesthetic experience in everyday life. No student may earn credit for both 4023 and 5023. (Irreg.)

PHIL G4133 Symbolic Logic I 3 Credit Hours
An introduction to the symbolism and methods of modern deductive logic. (F)

PHIL 4293 Ethical Theory 3 Credit Hours
(Slashlisted with 5293) Prerequisite: eight hours of philosophy including an ethics course or permission. A survey of theories of the nature and foundations of morality. Topics may include the analysis of moral language, the justification of moral beliefs, and the status of ethical theories. No student may earn credit for both 4293 and 5293. (Sp)

PHIL 4343 Early Chinese Philosophy 3 Credit Hours
(Slashlisted with 5343, Crosslisted with IAS 4343) Prerequisite: eight hours of Philosophy or permission. Survey of pre-Qin Chinese philosophy, including the major texts and figures of Confucianism, Daoism, and other notable schools. No student may earn credit for both 4343 and 5343. (Irreg.)

PHIL 4473 Philosophy of Religion 3 Credit Hours
(Slashlisted with 5473) Prerequisite: eight hours of philosophy or permission. Survey of topics in the philosophy of religion. Topics covered include the concept of God, the problem of religious knowledge, the nature of religious language, the problem of evil, and particular thinkers. No student may earn credit for both 4473 and 5473. (Irreg.)

PHIL 4513 Metaphysics 3 Credit Hours
(Slashlisted with 5513) Prerequisite: eight hours of philosophy or permission. Survey of major philosophical views about the nature of reality. Topics covered may included the mind-body problem, causation, personal identity, free will and determinism, universals, and the existence of God. No student may earn credit for both 4513 and 5513. (Sp)

PHIL 4523 Epistemology 3 Credit Hours
(Slashlisted with 5523) Prerequisite: eight hours of philosophy or permission. Survey on the evaluation of human reasoning and the nature and scope of human knowledge. Topics include skepticism, the nature of justification, the ethics of belief, and the problem of induction. No student may earn credit for both 4523 and 5523. (F)

PHIL 4533 Philosophy of Language 3 Credit Hours
(Slashlisted with PHIL 5533) Prerequisite: eight hours of philosophy or permission. Survey of major philosophical views on the nature and workings of language. Topics covered include: meaning and truth, sense and reference, speech acts, and communication. No student may earn credit for both 4533 and 5533. (Irreg.)

PHIL 4543 Philosophy of Mind 3 Credit Hours
(Slashlisted with PHIL 5543) Prerequisite: eight hours of philosophy or permission. Survey of major philosophical views on the nature of the mind. Topics covered may include: the nature and unity of consciousness, the mind-body problem, personal identity, the emotions, actions and intentions, self-knowledge, and other minds. No student may earn credit for both 4543 and 5543. (Irreg.)

PHIL 4623 Philosophy of The Social Sciences 3 Credit Hours
(Slashlisted with 5623) Prerequisite: nine hours of upper-division social sciences or permission. Survey of issues in the philosophy of the social sciences. Topics covered will include explanation in the social sciences, theory construction, theories and observation, evidence and theory of confirmation, theoretical constructs and operationism, verstehen and objectivity. No student may earn credit for both 4623 and 5623. (Irreg.)

PHIL 4713 Survey of Social and Political Philosophy 3 Credit Hours
(Slashlisted with 5713) Prerequisite: Eight hours of philosophy or permission. Survey of important theories in social and political philosophy. Beginning with ancient theories (Plato and Aristotle), to modern social contract theories and the foundations of liberalism (Hobbes, Locke, Rousseau, and Mill), and concludes with the debate between liberals and communitarians (Rawls and his critics). No student may earn credit for both 4713 and 5713. (Irreg.)

PHIL 4893 Senior Capstone in Philosophy 3 Credit Hours
Prerequisite: graduating majors. Covering the major areas of philosophy taught in the undergraduate major, coordinated with the departmental objectives for undergraduate majors and for the purpose of assessing the level of learning among graduating seniors. (Sp) [V] .

PHIL 4960 Directed Readings 1-4 Credit Hours
1 to 4 hours. Prerequisite: good standing in University; permission of instructor and dean. May be repeated; maximum credit four hours. Designed for upper-division students who need opportunity to study a specific problem in greater depth than formal course content permits. (Irreg.)

PHIL 4970 Special Topics/Seminar 1-3 Credit Hours
1 to 3 hours. Prerequisite: senior standing or permission of instructor. May be repeated; maximum credit nine hours. Special topics or seminar course for content not currently offered in regularly scheduled courses. May include library and/or laboratory research and field projects. (Irreg.)

PHIL 4990 Independent Study 1-3 Credit Hours
1 to 3 hours. Prerequisite: three courses in general area to be studied; permission of instructor and department. May be repeated; maximum credit six hours. Contracted independent study for topic not currently offered in regularly scheduled courses. Independent study may include library and/or laboratory research and field projects. (F, Sp, Su)

PHIL 5023 Survey of Analytic Aesthetics and Philosophy of Art 3 Credit Hours
(Slashlisted with PHIL 4023) Prerequisite: graduate standing. Survey of major philosophical topics in aesthetics and the philosophy of art. Topics include the ontology of art, interpretation, the value of artworks, the relationship between aesthetic and moral value, and aesthetic experience in everyday life. No student may earn credit for both 4023 and 5023. (Irreg.)

PHIL 5143 Symbolic Logic II 3 Credit Hours
Prerequisite: graduate standing. Further study of first order predicate logic: identity, axiomatic development. Various metatheorems; soundness, consistency and completeness. (Alt. Sp)

PHIL 5293 Ethical Theory 3 Credit Hours
(Slashlisted with 4293) Prerequisite: graduate standing. A survey of theories of the nature and foundations of morality. Topics may include the analysis of moral language, the justification of moral beliefs, and the status of ethical theories. No student may earn credit for both 4293 and 5293. (Sp)

PHIL 5313 Studies in Ancient Philosophy 3 Credit Hours
Prerequisite: 3313. May be repeated with change of content; maximum credit 18 hours. Survey of philosophical writings of a major ancient Greek philosopher, typically Plato and Aristotle. Works covering different philosophical topics and written at different stages in the philosopher's development will be studied. Selection of figure will alternate each year the course is offered. (Sp)

PHIL 5333 Studies in Modern Philosophy 3 Credit Hours
May be repeated with change of content; maximum credit 18 hours. Survey of philosophical writings of major philosophers. Figures covered will alternate each year between the Rationalists (Descartes, Leibniz, and Spinoza) and the Empiricists (Locke, Berkeley, and Hume), though other combinations (e.g., Locke and Leibniz) may be offered. (F)

PHIL 5343 Early Chinese Philosophy 3 Credit Hours
(Slashlisted with 4343) Prerequisite: eight hours of Philosophy or permission. Survey of pre-Qin Chinese philosophy, including the major texts and figures of Confucianism, Daoism, and other notable schools. No student may earn credit for both 4343 and 5343. (Irreg.)

PHIL 5473 Philosophy of Religion 3 Credit Hours
(Slashlisted with 4473) Prerequisite: graduate standing. Survey of topics in the philosophy of religion. Topics covered include the concept of God, the problem of religious knowledge, the nature of religious language, the problem of evil, and particular thinkers. No student may earn credit for both 4473 and 5473. (Irreg.)

PHIL 5513 Metaphysics 3 Credit Hours
(Slashlisted with 4513) Prerequisite: graduate standing. Survey of major philosophical views about the nature of reality. Topics covered may included the mind-body problem, causation, personal identity, free will and determinism, universals, and the existence of God. No student may earn credit for both 4513 and 5513. (Sp)

PHIL 5523 Epistemology 3 Credit Hours
(Slashlisted with 4523) Prerequisite: graduate standing. Survey on the evaluation of human reasoning and the nature and scope of human knowledge. Topics include skepticism, the nature of justification, the ethics of belief, and the problem of induction. No student may earn credit for both 4523 and 5523. (F)

PHIL 5533 Philosophy of Language 3 Credit Hours
(Slashlisted with PHIL 4533) Prerequisite: graduate standing. Survey of major philosophical views on the nature and workings of language. Topics covered include: meaning and truth, sense and reference, speech acts, and communication. No student may earn credit for both 4533 and 5533. (Irreg.)

PHIL 5543 Philosophy of Mind 3 Credit Hours
(Slashlisted with PHIL 4543) Prerequisite: graduate standing. Survey of major philosophical views on the nature of the mind. Topics covered may include the nature and unity of consciousness, the mind-body problem, personal identity, the emotions, actions and intentions, self-knowledge, and other minds. No student may earn credit for both 4543 and 5543. (Irreg.)

PHIL 5623 Philosophy of The Social Sciences 3 Credit Hours
(Slashlisted with 4623) Prerequisite: graduate standing. Survey of issues in the philosophy of the social sciences. Topics covered will include explanation in the social sciences, theory construction, theories and observation, evidence and theory of confirmation, theoretical constructs and operationism, verstehen and objectivity. No student may earn credit for both 4623 and 5623. (Irreg.)

PHIL 5713 Survey of Social and Political Philosophy 3 Credit Hours
(Slashlisted with 4713) Prerequisite: Eight hours of philosophy or permission. Survey of important theories in social and political philosophy. Beginning with ancient theories (Plato and Aristotle), to modern social contract theories and the foundations of liberalism (Hobbes, Locke, Rousseau, and Mill), and concludes with the debate between liberals and communitarians (Rawls and his critics). No student may earn credit for both 4713 and 5713. (Irreg.)

PHIL 5813 Philosophy Proseminar 3 Credit Hours
Prerequisite: Graduate standing and Majors only. The Philosophy Proseminar is designed to: (i) help philosophy graduate students develop the skills needed to succeed at their academic work in the graduate program; (ii) prepare them to make good progress through their respective programs, either the MA or the PhD; and (iii) prepare them for success after graduation. (Sp)

PHIL 5823 Philosophy Graduate Writing Seminar 3 Credit Hours
Prerequisite: Graduate standing and Majors only. The Writing Seminar will immerse students in the professional craft of philosophical writing. We will examine exemplars of good philosophical writing, analyze philosophical writing techniques and structures, and identify common strengths and weaknesses in philosophical work. The course will be delivered in a cooperative fashion, with students gaining experience through presentations, giving peer feedback, intensive editing and revision. (F)

PHIL 5960 Directed Readings 1-3 Credit Hours
1 to 3 hours. Prerequisite: graduate standing and permission of department. May be repeated; maximum credit twelve hours. Directed readings and/or literature reviews under the direction of a faculty member. (F, Sp, Su)

PHIL 5970 Special Topics/Seminar 1-3 Credit Hours
1 to 3 hours. Prerequisite: graduate standing. May be repeated with change of topic; maximum credit nine hours. Topics in philosophy not accommodated by the existing curriculum. (Irreg.)

PHIL 5980 Research for Master's Thesis 2-9 Credit Hours
Variable enrollment, two to nine hours; maximum credit applicable toward degree, four hours. (F, Sp, Su)

PHIL 5990 Independent Study 1-3 Credit Hours
1 to 3 hours. Prerequisite: permission of instructor and adviser. May be repeated with change of subject matter; maximum undergraduate credit eight hours; maximum graduate credit 12 hours. (F, Sp, Su)

PHIL 6023 Seminar in Aesthetics and Philosophy of Art 3 Credit Hours
Prerequisite: graduate standing. May be repeated with change of content; maximum credit 12 hours. Intensive seminar on a topic in aesthetics and the philosophy of art. (Irreg.)

PHIL 6203 Seminar in Ethics 3 Credit Hours
May be repeated with change of subject matter; maximum credit 12 hours. (F, Sp)

PHIL 6393 Seminar in the History of Philosophy 3 Credit Hours
May be repeated with change of subject matter; maximum credit 12 hours. (Irreg.)

PHIL 6473 Seminar In Philosophy Of Religion 3 Credit Hours
Seminar In Philosophy Of Religion. Prerequisite: 5473 Or Permission. May Be Repeated With Change Of Content; Maximum Credit 12 Hours. Intensive Seminar On A Topic In The Philosophy Of Religion. (Irreg.)

PHIL 6513 Seminar in Metaphysics 3 Credit Hours
Prerequisite: 5513 or permission. May be repeated with change of content; maximum credit 12 hours. Intensive seminar on a topic in metaphysics. (Irreg.)

PHIL 6523 Seminar in Epistemology 3 Credit Hours
Prerequisite: 5523 or permission. May be repeated with change of content; maximum credit 12 hours. Intensive seminar on a topic in epistemology. (Irreg.)

PHIL 6593 Seminar in Contemporary Philosophy 3 Credit Hours
May be repeated with change of subject matter; maximum credit 12 hours. (Irreg.)

PHIL 6793 Seminar in Social and Political Philosophy 3 Credit Hours
Prerequisite: 5763 or permission. May be repeated with change of content; maximum credit 12 hours. Intensive seminar on a topic in the philosophy of law. (Irreg.)

PHIL 6960 Directed Readings 1-3 Credit Hours
1 to 3 hours. Prerequisite: graduate standing or permission of instructor. May be repeated; maximum credit six hours. Directed readings and/or literature review under the direction of a faculty member. (Irreg.)

PHIL 6970 Special Topics/Seminar 1-3 Credit Hours
1 to 3 hours. Prerequisite: graduate standing or permission of instructor. May be repeated; maximum credit 12 hours. Special topics or seminar course for content not currently offered in regularly scheduled courses. May include library and/or research and field projects. (Irreg.)

PHIL 6980 Research for Doctoral Dissertation 2-16 Credit Hours
2 to 16 hours. Prerequisite: Graduate standing and permission of instructor; may be repeated. Directed research culminating in the completion of the doctoral dissertation. (F, Sp, Su)

PHIL 6990 Independent Study 1-3 Credit Hours
1 to 3 hours. Prerequisite: Graduate standing and permission of instructor. May be repeated; maximum credit nine hours. Contracted independent study for a topic not currently offered in regularly scheduled courses. Independent study may include library and/or laboratory research and field projects. (Irreg.)

Faculty

Last Name	First/Middle Name	Middle init.	OU Service start	Title(s), date(s) appointed	Degrees Earned, Schools, Dates Completed
Branscum	Olivia	L	2022	Assistant Professor of Philosophy, 2024	PhD, Columbia Univ, 2022; MPhil, Columbia Univ, 2021; MA, Columbia, 2018; BA Univ of North Carolina at Chapel Hill, 2015
Burkhart	Brian		2018	Associate Professor, 2018	PhD, Indiana Univ-Bloomington, 2008; BA, Univ of Northern Colorado, 1997; Associate of Liberal Arts, Aims Community College, 1993

Ellis	Stephen	E	1997	Associate Professor of Philosophy, 2010	PhD, Rutgers Univ, 2001; MA, Univ of Kansas, 1992; BA, Univ of Kansas, 1987
Green	Adam	B	2021	Associate Professor, 2021	PhD, Saint Louis Univ, 2010
Huismann	Tyler	D	2018	Visiting Assistant Professor, 2018	PhD, Univ of Colorado, Boulder, 2017; PhD Univ of Michigan, Ann Arbor, 2011; MA, University of Michigan, Ann Arbor 2010; BS, Iowa State University, 2006
Irvin	Sherri	L	2005	Presidential Research Professor, 2014; Professor of Philosophy, 2015; Adjunct Professor of Women's and Gender Studies, 2015	PhD, Princeton Univ, 2003; MS, Rutgers Univ, 1999; MA, Princeton Univ, 1996; BA, Univ of Arizona, 1993
Jones	Russell	E	2019	Associate Professor of Philosophy, 2015; Department Chair, 2022	PhD Univ of Oklahoma, 2010; BA Oklahoma Baptist Univ, 2004
Judisch	Neal	D	2006	Associate Professor of Philosophy, 2013	PhD, Univ of Texas, 2005; MA, Univ of Texas, 2003; BA, Univ of Texas San Antonio, 2001
Montminy	Martin		2007	Professor of Philosophy, 2011	PhD, Univ of Montreal, 1995; MS, Univ of Laval, 1987; BS, Univ of Laval, 1985
Nagasawa	Yujin		2024	Professor, 2024; Kingfisher College Chair of the Philosophy of Religion and Ethics, 2024	PhD, Australian National University, 2004; BA, State University of New York, Stony Brook, 2000
Olberding	Amy	L	2006	President's Associates Presidential Professor, 2016; Professor of Philosophy, 2016; Adjunct Professor of Women's and Gender Studies, 2016; Affiliate Associate Professor of International and Area Studies, 2007	PhD, Univ of Hawaii Monoa, 2001; MA, Univ of Hawaii Monoa, 1995; BA, Hendrix College, 1991
Riggs	Wayne	D	1995	Professor of Philosophy, 2016	PhD, Univ of North Carolina, 1995; MA, Univ of North Carolina, 1992; BA, Texas A&M Univ, 1990

Trachtenberg Zev		M	1991	Professor of Philosophy, 2017	PhD, Columbia Univ, 1988; MPhil, University College London, 1981; BA, Amherst College, 1977

Philosophy, B.A.

Minimum Total Credit Hours: 120
Major Hours: 31
Minimum Upper-Division Hours: 48
Upper-Division Hours Within Major: 25

Overall GPA - Combined and OU: 2.00
Major GPA - Combined and OU: 2.00

Program Code: B775

Major Requirements

- **Some courses required for the major may also fulfill University General Education and/or Dodge College of Arts & Sciences Requirements.**
- **A maximum of six hours of lower- division coursework may be used toward the 31 hours required by the major. A grade of C or better is required in PHIL 4893.**
- Philosophy majors must take at least two 38XX ("for Majors") classes, chosen from Core or Distribution Requirements; and must take at least one 4000-level class beyond PHIL 4133 and PHIL 4893.

Code	Title	Credit Hours
Philosophy Core Courses		
PHIL 3313	History of Ancient Philosophy	3
or PHIL 3813	History of Ancient Philosophy for Majors	
PHIL 3333	History of Modern Philosophy	3
or PHIL 3833	History of Modern Philosophy for Majors	
PHIL 3343	Chinese Philosophy	3
or PHIL 3843	Chinese Philosophy for Majors	
PHIL 3811	Philosophy Writing Workshop (taken concurrently with a 38XX 'for majors' class)	1
PHIL 4133	Symbolic Logic I	3
PHIL 4893	Senior Capstone in Philosophy (A grade of C or better is required)	3
Distribution Requirements		
Choose one course in each category (classes in each category are listed on the Philosophy Department website):		9
Ethics and Values (p. 663)		
Knowledge and Reality (p. 663)		
Philosophy in Society (p. 663)		
Philosophy Electives		
Choose 2 courses [1]		6
Total Credit Hours		**31**

[1] May not include PHIL 1113.

General Education and College Requirements

Courses for fulfillment of General Education and Dodge College of Arts & Sciences requirements must be from the approved General Education course list published in the Class Schedule or at http://www.ou.edu/gened/courses. **Courses graded P/NP will not apply.**

MINIMUM OF 40 HOURS REQUIRED FOR UNIVERSITY-WIDE GENERAL EDUCATION

Code	Title	Credit Hours
Core Area I: Symbolic and Oral Communication		
English Composition (6 hours)		
ENGL 1113	Principles of English Composition	3
ENGL 1213	Principles of English Composition	3
or EXPO 1213	Expository Writing	
Language (0-13 hours in the same language)		
The college requirement cannot be met by high school coursework.		
Beginning Course		0-5
Beginning Course, continued		0-5
Intermediate Course (2000 level) [1,2]		0-3
Mathematics (3 hours)		
Choose one course from the General Education Mathematics list		3
Core Area II: Natural Science (7 hours, including one laboratory component)		
Biological Science		
Choose an approved General Education Natural Science course with one of the following prefixes: BIOL, HES, MBIO, or PBIO [1]		3-4
Physical Science		
Choose an approved General Education Natural Science course with one of the following prefixes: AGSC, ASTR, CHEM, GEOG, GEOL, GPHY, METR, or PHYS [1]		3-4
Core Area III: Social Science (6 hours)		
P SC 1113	American Federal Government	3
Choose one course from the General Education Social Science list		3
Core Area IV: Arts and Humanities (18 hours)		
Artistic Forms		
Choose one course from the General Education Artistic Forms list		3
Western Culture		
HIST 1483	United States to 1865	3
or HIST 1493	United States, 1865 to the Present	
Choose one course from the General Education Western Culture list (excluding HIST 1483/1493)		3
World Culture		
Choose one course from the General Education World Culture list		3
Additional Core IV Upper-Division Arts & Humanities courses		
Choose one course from Artistic Forms, Western Culture, or World Culture [1,3]		3
Choose one course from Artistic Forms, Western Culture, or World Culture [1,3]		3
Core Area V: First Year Experience (3 hours)		
Choose one course		3
Total Credit Hours		**56**

1. College of Arts and Sciences Requirements: college requirements are not automatically fulfilled by a previous degree.
2. One course at the intermediate level or demonstrated competency at that level
3. 6 upper-division hours, 2 courses, at the 3000- 4000-level. ***Must be outside the major.***

Free Electives

Electives to bring total applicable hours to the minimum total required for the degree including 48 upper-division hours.

Information Concerning General Rules, Regulations and Minimum Requirements

Arts and Sciences Hours: At least 80 semester hours of liberal arts and sciences courses are required for a BA degree. At least 55 semester hours of liberal arts and sciences courses are required for a BS degree.
Pass/No Pass Enrollment: A maximum of 16 semester hours of free elective credit may be attempted under this option.
Individual Studies (e.g., courses titled "Independent Study"): A maximum of 12 total semester hours may be counted toward graduation, excluding Honors Reading and Honors Research.
P.E. Courses: No physical education activity courses will be counted toward the 120 semester hours of acceptable credit for graduation.
Senior Institution Hours: A minimum of 60 semester hours applied toward graduation must be earned at senior (4-year) institutions.
Residency:

- At least 15 of the final 30 hours applied toward the degree or at least 50 percent of the hours required by the institution in the major field must be satisfactorily completed at the awarding institution.
- At least 15 semester hours of upper-division major work must be completed in residence at OU.
- OU correspondence courses are ***not*** considered resident credit.

Grade Point Averages: Students must earn a minimum over all 2.00 for each of the following: Combined Retention GPA (all college grades), OU Retention GPA, GPA for all major courses, and GPA for all major courses taken at OU. Some schools and departments of the College have higher minimum grade point averages required for their students.

Suggested Semester Plan of Study

This plan shows one possible grouping of courses that would allow students to graduate in four years. Please refer to the front of the degree checksheet for official requirements. Students must consult with Dodge College of Arts and Sciences and/or Department of Philosophy academic advisors to verify that courses selected each semester fulfill the recommended plan and satisfy University, College of Arts and Sciences, and Philosophy major requirements.

Freshman

First Semester		Credit Hours
ENGL 1113	Principles of English Composition (Core I)	3
HIST 1483 or HIST 1493	United States to 1865 (Core IV) or United States, 1865 to the Present	3
Beginning Language (Core I)		5
First Year Experience (Core V)		3
	Credit Hours	**14**
Second Semester		
ENGL 1213 or EXPO 1213	Principles of English Composition (Core I) or Expository Writing	3
Math (Core I)		3
Choose one of the following:		3
PHIL 1013	Introduction to Philosophy	
PHIL 1103	Critical Reasoning	
PHIL 1213	Introduction to Ethics	
Artistic Forms (Core IV)		3
Beginning Language continued (Core I)		5
	Credit Hours	**17**

Sophomore

First Semester		
PHIL Elective, lower-division		3
P SC 1113	American Federal Government (Core III)	3
Intermediate Language		3
Natural Science with lab (Core II)		4
World Culture (Core IV)		3
	Credit Hours	**16**
Second Semester		
PHIL 3333 or PHIL 3833	History of Modern Philosophy [1] or History of Modern Philosophy for Majors	3
PHIL 3811	Philosophy Writing Workshop [2]	1
PHIL Distribution Requirement		3
Natural Science without lab (Core II)		3
Social Science (Core III)		3
Free Elective, lower-division		3
	Credit Hours	**16**

Junior

First Semester		
PHIL 3313 or PHIL 3813	History of Ancient Philosophy [1] or History of Ancient Philosophy for Majors	3
PHIL 3343 or PHIL 3843	Chinese Philosophy [1,3] or Chinese Philosophy for Majors	3
Arts & Humanities, upper-division, outside major (Gen. Ed.)		3
Free Elective, lower- or upper-division		3
Free Elective, upper-division (3000-4000-level)		3
	Credit Hours	**15**
Second Semester		
PHIL Distribution Requirement		3
Arts & Humanities, upper-division, outside major (Gen. Ed.)		3
Free Elective, lower- or upper-division		3
Free Elective, lower- or upper-division		3
Free Elective, upper-division (3000-4000-level)		3

PHIL 3763	Law and Society	3

Philosophy, Minor

Minimum Total Credit Hours: 18
Minimum Upper-Division Hours: 9

Program Code: N765

- **The requirements for a minor must be completed concurrently with the major degree requirements.**
- **No minor may be added by completing courses after receiving the bachelor's degree.**

At least six (6) credit hours must be earned in courses acceptable for residence credit by standards set forth by the Dodge College of Arts and Sciences, excluding transfer, correspondence, and examination (AP, CLEP, Advanced Standing) credit. Courses for the minor may not be taken Pass/No Pass.

No single course may be used by a student to satisfy a major requirement and a minor requirement. A course may be used, however, to satisfy both a major support requirement and a minor requirement.

Requests to substitute a minor requirement must be approved in writing by the Department of Philosophy.

Required Courses

Students must successfully complete at least 18 hours of courses acceptable for major credit in Philosophy, including at least nine (9) hours at the upper-division level.

Code	Title	Credit Hours
Choose one course from each of the following areas: [1]		
Ethics & Values (p. 663)		3
Knowledge & Reality (p. 663)		3
Philosophy in Society (p. 663)		3
Choose additional Philosophy (PHIL) courses to complete the 18 total hour and 9 upper-division hour requirements		9
Total Credit Hours		**18**

[1] The most current lists of courses fulfilling each of the area requirements are available on the Department of Philosophy website: https://www.ou.edu/cas/philosophy/academics/undergraduate

- Minors in the Dodge College of Arts & Sciences are available to all undergraduate students at OU. If the minor is officially declared, successfully completed, and noted on the graduation application, the student's transcript will so indicate at the time the bachelor's degree is posted.

Philosophy, M.A.

Graduate GPA - Combined and OU: 3.00

Minimum Total Hours (Thesis): 33
Minimum Total Hours (Non-Thesis): 33

Program Code: M775

Required Courses

Thesis Option

Code	Title	Credit Hours
Required Courses		
PHIL 4133	Symbolic Logic I [1]	3
PHIL 5813	Philosophy Proseminar	3
Distribution [2]		
6 hours in History of Philosophy		6

Completion		
PHIL 5980	Research for Master's Thesis	3
Total Credit Hours		**33**

[1] Must be taken for graduate credit. Hours cannot be applied to both undergraduate and graduate degrees.

[2] Distribution coursework may be chosen from the list of approved courses maintained by the academic unit (p. 665). Other courses also may count toward the distribution requirements, including courses taken at other institutions, with approval from the advisory committee and graduate liaison.

Non-Thesis Option

Code	Title	Credit Hours
Required Courses		
PHIL 4133	Symbolic Logic I [1]	3
PHIL 5813	Philosophy Proseminar	3
PHIL 5823	Philosophy Graduate Writing Seminar	3

Distribution [2]	
6 hours in History of Philosophy	6
6 hours in Metaphysics and Epistemology	6
6 hours in Value	6
Electives	
Choose 6 hours of PHIL or other graduate-level coursework approved by academic unit	6
Completion	
Comprehensive Examination	0
Total Credit Hours	**33**

1 Must be taken for graduate credit. Hours cannot be applied to both undergraduate and graduate degrees.

2 Distribution coursework may be chosen from the list of approved courses maintained by the academic unit (p. 665). Other courses also may count toward the distribution requirements, including courses taken at other institutions, with approval from the advisory committee and graduate liaison.

Notes

- **Up to 8 hours may be taken outside the department with approval from the Director of Graduate Studies.**
- **A maximum of 3 hours of** PHIL 5990 **will be allowed in this program.**

General Requirements for all Master's Degrees

The master's degree requires the equivalent of *at least* two semesters of satisfactory graduate work and additional work as may be prescribed for the degree.

All coursework applied to the master's degree must carry graduate credit.

Master's degree programs which require a thesis consist of *at least* 30 credit hours. All non-thesis master's degree programs require *at least* 30 credit hours.

Credit transferred from other institutions must meet specific criteria and is subject to certain limitations.

Courses completed through correspondence study may *not* be applied to the master's degree.

To qualify for a graduate degree, students must achieve an overall grade point average of 3.0 or higher in the degree program coursework and in all resident graduate coursework attempted. A student must also have at least a 3.0 in all coursework (including undergraduate coursework if any).

Additional information for master's degree students may be found in the Graduate College Bulletin.

Philosophy, M.A. Course Lists

- for the most current course lists, please consult the Shyam Dev Patwardhan Department of Philosophy

Distribution Coursework

Code	Title	Credit Hours
History (Modern)		
PHIL 5333	Studies in Modern Philosophy	3
History (Ancient)		
PHIL 5343	Early Chinese Philosophy	3
PHIL 5313	Studies in Ancient Philosophy	3
Ethics		
PHIL 5293	Ethical Theory	3
PHIL 5713	Survey of Social and Political Philosophy	3
PHIL 6203	Seminar in Ethics	3
PHIL 6793	Seminar in Social and Political Philosophy	3

Philosophy, Ph.D.

Graduate GPA - Combined and OU: 3.00

Minimum Total Hours: 90

Program Code: D775

Program Requirements

Code	Title	Credit Hours
Core		
PHIL 5813	Philosophy Proseminar	3
PHIL 5823	Philosophy Graduate Writing Seminar (two semesters required)	6
Distribution [1]		
9 hours of History of Philosophy, distributed across at least two different areas (e.g., Ancient Greek, Early Chinese, Modern European)		9
9 hours in Value, six of which must be in Ethics		9
9 hours in Metaphysics and Epistemology, with at least three hours in Metaphysics and at least three hours in Epistemology		9
Dissertation Research		
PHYS 6980	Research for Doctoral Dissertation (2 hour minimum, 39 hour maximum)	2-39
Additional Coursework		
Additional coursework as needed to complete 90 post-baccalaureate credit hours, with approval of student's committee		15-52
Total Credit Hours		**90**

1 Distribution coursework may be chosen from the list of approved courses maintained by the academic unit (p. 666). Other courses also may count toward the distribution requirements, including courses

taken at other institutions, with approval from the advisory committee and graduate liaison.

Notes:

- Students with an M.A. in philosophy from another institution may transfer up to 33 hours of "B" graded or better coursework toward the Ph.D. Normally at most 18 of those hours can apply outside of Research for Doctoral Dissertation.
- With approval of the committee, up to 12 hours of all coursework may be taken outside the department.
- A maximum of six hours of Independent Study (PHIL 5990) will be allowed in this program.
- The student's committee may require proficiency in one or more foreign languages.

General Requirements for Doctoral Degrees

A student should expect to spend at least the equivalent of three full academic years beyond the bachelor's degree to obtain the doctoral degree. During this period the student will take appropriate graduate coursework, successfully complete the general examination, and successfully defend and submit the final dissertation.

All coursework applied to the doctoral degree must carry graduate credit.

The doctoral degree requires at least 90 post-baccalaureate hours, including both formal coursework and hours of research.

The minimum hour requirement for a specific doctoral degree program cannot be waived.

No more than one-half of the credit hours, both OU and overall, excluding Research for Doctoral Dissertation (6980), may be *S/U*-graded coursework.

The student must be in residence at OU for at least two consecutive 16-week semesters during the pursuit of the doctoral degree while enrolled and engaged in coursework or research activities as prescribed by the major academic unit.

For more detailed regulations and requirements for Doctoral degrees, please consult the Graduate College Bulletin: http://www.ou.edu/gradcollege/forms/bulletin

General Information

The Homer L. Dodge Department of Physics and Astronomy has a long tradition of educating scientists, engineers and teachers who have achieved distinguished careers as researchers and leaders in industry and education. Our graduates include a former Science Advisor to the President of the United States, a former director of NSF, university president, U.S. ambassador, founders of corporations, Arctic explorer, founder and first editor of the American Journal of Physics, journal editors, inventors, research laboratory managers, university department chairs, Rhodes Scholar and Guggenheim Fellows, university professors, and hundreds of people devoted to advancing knowledge and improving the quality of life.

Programs & Facilities

Programs for Academic Excellence

Innovative education programs have been an integral part of the department since its inception and are still our tradition. In addition to our own faculty, post-doctoral fellows and weekly colloquium speakers promote academic excellence within the department. With additional support from state monies and private endowment, the department hosts a large number of visiting scientists each year who bring the latest developments in their areas of interest and who present opportunities to exchange scientific ideas.

The department offers all undergraduate majors the opportunity to perform research with faculty mentors, and runs a federally funded summer research experience for undergraduates from all across the country.

The OU Soonertarium is an educational outreach program whose goal is to share the joy of exploring the cosmos with fellow Oklahomans, one classroom at a time. They provide traveling planetarium shows and lectures, free of charge, to interested science classrooms in Oklahoma.

Special Facilities and Programs

Library Resources

The Homer L. Dodge Department of Physics and Astronomy library possesses an excellent scientific library of over 20,000 volumes and more

than 150 journal subscriptions. Ancillary library holdings include the world-famous History of Science Collection and the Engineering Library.

Instrument Shop

The instrument shop at the Homer L. Dodge Department of Physics and Astronomy has supported the experimental research needs of the department for a century. This facility has designed, built and collaborated on a wide variety of apparatus including, but not limited to: High Energy Physics work on DØ and ATLAS and Monopole detector systems; Atomic Molecular scattering systems — Electron-Photon Coincidence, Electric Dipole Moment, Cold Atom systems; UHV chambers and associated hardware; Thin film sputtering systems; High Pressure (100,000 PSI) systems, Electro-mechanical drive and control; Furnace construction and PID control; Telescope repair.

Laboratory Resources

The department has well-equipped laboratories for research in laser cooling and trapping of atoms and molecules, atomic and molecular collisions, nanostructured materials and devices, materials characterization, and high-energy physics instrumentation. We are also home to a multi-million dollar NSF funded Materials Research Science and Engineering Center. This center greatly expands our research effort in nanostructures. Additionally, many programs make use of facilities at national laboratories, such as Argonne, Fermilab, Lawrence Berkeley Labs and Los Alamos. The high-energy group is part of the ATLAS collaboration and hosts one of the ATLAS tier 2 computing centers. The HEP group owns a clean room to work on silicon pixel detector technology for the Phase II upgrade of the ATLAS detector. The Astronomy group has access to two telescopes at the Apache Point Observatory. They have 10.625% of the observing time on the Astronomical Research Consortium (ARC) 3.5 meter telescope and the 0.5-meter Astrophysical Research Consortium Small Aperture Telescope. Individual faculty have access to other telescopes/projects including Sloan Digital Sky Survey V, ASAS-SN, ULTRASAT, and 4MOST. There is also a small on-campus observatory for class use and public viewing. Astronomy faculty compete successfully for use on ground-based observational facilities including the Karl G. Jansky Very Large Array, NSF's National Optical-Infrared Astronomy Research Laboratory telescopes, and the Gemini telescopes. They also compete for time on space-based observational facilities including the Hubble Space Telescope, JWST, the Chandra X-ray Observatory, XMM-Newton X-ray Observatory.The department has a network of linux computers and individual faculty groups run Linux servers. All faculty have access to OSCER; there is no charge for using this facility. Some faculty/groups have access to privately-owned servers operated by OSCER.

Scholarships and Financial Aid

The department offers a number of scholarships each year to students majoring in physics, astronomy, or engineering physics. Undergraduate majors and students who are considering becoming physics, astrophysics, or engineering physics majors are encouraged to apply for scholarships through the University of Oklahoma Centralized Academic Scholarship Hub (CASH).

Teaching and research assistantships are offered on a competitive basis to graduate students.

Undergraduate Study

Physics Degrees

The student whose major is physics may work for the professional degree of Bachelor of Physics (p. 680) or for the standard degree of Bachelor of Science (p. 678), both of which are awarded by the College of Arts and Sciences. The Engineering Physics Bachelor of Science (p. 1454)program is an interdisciplinary degree program which combines the course offerings and research activities of the Homer L. Dodge Department of Physics and Astronomy and the College of Engineering. This degree program is offered by the College of Engineering and detailed information concerning the program can be found in the College of Engineering section of this catalog.

Astrophysics Degree

Students whose major interest is the application of physics to modern astrophysics may work for the Astrophysics Bachelor of Science (p. 676).

Astronomy Degree

The student whose major is astronomy may work for the standard degree of Bachelor of Science (p. 673).

Minors

Minors are offered in physics (p. 682) and astronomy (p. 682).

Graduate Study

Areas of Specialization

Research areas available for both M.S. and Ph.D. degrees include:

- Astrophysics
- Atomic, Molecular and Optical Physics
- High Energy Physics
- Condensed Matter Physics

Master Of Science Degree

The department offers a Master of Science (p. 683) in Physics program with or without the thesis.

Master Of Science (Engineering Physics)

The Engineering Physics, Master of Science (p. 1456) degree is offered as either a thesis or non-thesis program.

Doctoral Programs

The Physics Ph.D. (p. 684) program requires the student to complete at least 90 hours of coursework, take and pass the written Qualifying and General (Specialist) examinations, and complete and successfully defend the results of original research as a dissertation. The department also offers an Astrophysics Ph.D. (p. 684) program.

All Ph.D. students are required to take an appointment as a teaching assistant with a minimum of two semester contact hours for two semesters. This teaching practicum is independent of financial support by the department.

Students who are interested in the **Engineering Physics Ph.D**. should refer to the general requirements of the Graduate College and the College of Engineering. Every student will be assigned an advisory committee who will determine the specific requirements within the guidelines set by these colleges and the career study goals of the student.

The required physics core courses and the Qualifying and Specialist exams are the same as for physics.

Courses

ASTR 1504 Astronomy: Exploring the Universe 4 Credit Hours
An introduction to the concepts of modern astronomy. The solar system, the sun and stars, the Milky Way and other galaxies, current theories of the origin, evolution and fate of the universe. Not for major credit. A student may not receive credit for this course and ASTR 1514. (F, Sp, Su) [II-NS].

ASTR 1514 Astronomy: Exploring the Universe with Laboratory 4 Credit Hours
0 to 4 hours. An introduction to the concepts of modern astronomy. The solar system, the sun and stars, the Milky Way and other galaxies, current theories of the origin, evolution, and fate of the universe. Not for major credit. A student may not receive credit for this course and ASTR 1504. Laboratory (F, Sp, Su) [II-NSL].

ASTR 1523 Life in the Universe 3 Credit Hours
Introductory astronomy course focusing on general physical conditions under which life is thought to arise and evolve in the universe. Topics include historical astronomy, gravitation and planetary orbits, the solar system. The earth's geology and atmosphere, stellar evolution, theories for the origin of life on earth, the discoveries of extrasolar planets, and the search for extraterrestrial life. (Sp) [II-NS].

ASTR 2513 Introductory Astrophysics 3 Credit Hours
Prerequisite: PHYS 1215 or 2524, or permission of instructor. An introduction to solar system astronomy and basic astrophysical concepts for majors and students with a knowledge of introductory physics and calculus. Includes planetary system formation, asteroids, comets, terrestrial planets and giant planets. Astrophysical concepts including Keplers laws, blackbody radiation, hydrostatic equilibrium and heat transfer. Elements of astronomy, including time, celestial coordinates, telescopes and detectors, magnitudes and color indices. (F)

ASTR 2970 Special Topics/Seminar 1-3 Credit Hours
Special Topics. 1 to 3 hours. May be repeated; Maximum credit nine hours. Special topics course for content not currently offered in regularly scheduled courses. May include library and/or laboratory research, and field projects. (Irreg.)

ASTR 3103 Stars 3 Credit Hours
Prerequisite: 2513 or permission of instructor. Stellar properties and stellar evolution. Includes fundamental properties of stars (temperature, luminosity, mass) and how to determine them, star formation, main sequence, post main sequence, supernovae, black holes, neutron stars, white dwarfs, binary stars. (F)

ASTR 3113 Galaxies and Cosmology 3 Credit Hours
Prerequisite: 2513 or permission of instructor; 3103 strongly recommended. Galactic and extragalactic astronomy. Includes the Milky Way galaxy, the interstellar medium, normal and active galaxies, clusters of galaxies, cosmology. (Sp)

ASTR 3190 Topics in Astronomy 1-3 Credit Hours
1 to 3 hours. Prerequisite: permission of instructor. May be repeated with change of subject matter; maximum credit nine hours. (F, Su)

ASTR 3440 Mentored Research Experience 3 Credit Hours
0 to 3 hours. Prerequisites: ENGL 1113 or equivalent, and permission of instructor. May be repeated; maximum credit 12 hours. For the inquisitive student to apply the scholarly processes of the discipline to a research or creative project under the mentorship of a faculty member. Student and instructor should complete an Undergraduate Research & Creative Projects (URCP) Mentoring Agreement and file it with the URCP office. Not for honors credit. (F, Sp, Su)

ASTR 3960 Honors Reading 1-3 Credit Hours
1 to 3 hours. Prerequisite: Admission to Honors Program. May be repeated; maximum credit six hours. Consists of topics designated by the instructor in keeping with the student's major program. The topics will cover materials not usually presented in the regular courses. (F, Sp, Su)

ASTR 3970 Honors Seminar 1-3 Credit Hours
1 to 3 hours. Prerequisite: admission to Honors Program. May be repeated; maximum credit six hours. Subjects covered vary. Deals with concepts not usually treated in regular courses. (Irreg.)

ASTR 3980 Honors Research 1-3 Credit Hours
1 to 3 hours. Prerequisite: admission to Honors Program. May be repeated; maximum credit six hours. Provides an opportunity for the gifted Honors candidate to work at a special project in the student's field. (F, Sp, Su)

ASTR 3990 Independent Study 1-3 Credit Hours
1 to 3 hours. Prerequisite: one course in general area to be studied; permission of instructor and department. May be repeated; maximum credit six hours. Contracted independent study for topic not currently offered in regularly scheduled courses. Independent study may include library and/or laboratory research and field projects. (Sp, Su)

ASTR G4303 Stellar Astrophysics 3 Credit Hours
Prerequisite: 3113 or permission of instructor. Physics of stars: gas and radiation laws, stellar atmospheres and spectra, stellar interiors and evolution. (F)

ASTR 4523 Advanced Observatory Methods 3 Credit Hours
Prerequisite: 2513 and 3103. Techniques of multiwavelength observational astronomy. Includes time and coordinates, physics of astronomical ccds, telescopes, photometry, extinction correction, technical feasibility calculations, optical spectroscopy, and x-ray astronomy. Introductions to gamma-ray, infrared, UV radio astronomy. No student may earn credit for both 4523 and 5523. (Irreg.)

ASTR 4960 Directed Readings 1-4 Credit Hours
1 to 4 hours. Prerequisite: good standing in University; permission of instructor and dean. May be repeated; maximum credit four hours. Designed for upper-division students who need opportunity to study a specific problem in greater depth than formal course content permits. (Irreg.)

ASTR 4970 Special Topics/Seminar 1-3 Credit Hours
1 to 3 hours. Prerequisite: Senior standing or permission of instructor. May be repeated; maximum credit nine hours. Special topics or seminar course for content not currently offered in regularly scheduled courses. May include library and/or laboratory research and field projects. (Irreg.)

ASTR 4990 Independent Study 1-3 Credit Hours
1 to 3 hours. Prerequisite: three courses in general area to be studied; permission of instructor and department. May be repeated; maximum credit six hours. Contracted independent study for topic not currently offered in regularly scheduled courses. Independent study may include library and/or laboratory research and field projects. (F, Sp, Su)

ASTR 5403 High-Energy Astrophysics 3 Credit Hours
Prerequisite: 4303 or permission of instructor. High-energy radiation processes in astronomy: synchrotron radiation, bremsstrahlung, inverse Compton-effect. New wavebands of observation, UV, X-ray and gamma-ray astronomy. Radioastronomy: supernova remnants, pulsars, neutron stars. Radiogalaxies, active galactic nuclei, quasars. Theories of the origin of cosmic rays. (Irreg.)

ASTR 5443 Galactic Astronomy 3 Credit Hours
Prerequisite: Graduate standing and permission of instructor. Basic properties of galaxies are explored with special focus on the Milky Way. Topics include the building blocks of galaxies, star formation and stellar nucleosynthesis, gas flows, chemical evolution, stellar populations, gravitational potentials, Galactic dynamics, the formation and evolution of the Milky Way/Local group, and extragalactic studies. (Irreg.)

ASTR 5453 Extragalactic Astronomy and Cosmology 3 Credit Hours
Prerequisite: 3113 or 4303 or permission of instructor. Basic properties of stars. Review of observational tools for extragalactic work. Stellar content and interstellar medium in normal galaxies. Introduction to the theory of Big Bang cosmology. Comparison of observational data to cosmological predictions. The extragalactic distance scale and the age of the universe. Large scale structure: galaxy clusters and superclusters. Active galaxies -- radio galaxies and quasars. (Irreg.)

ASTR 5463 Stellar Atmospheres 3 Credit Hours
Prerequisite: 4303 or permission of instructor. Local thermodynamic equilibrium. Radiative transfer, continuous absorption coefficient and model stellar atmospheres. Atomic and molecular spectroscopy and the quantitative analysis of stellar spectra. Atomic processes and departures from local thermodynamic equilibrium. Extended and expanding atmospheres, novae, supernovae. (Irreg.)

ASTR 5513 Interstellar Medium 3 Credit Hours
4303 or permission. Processes in low-density media are explored, including the physics relevant to emission line objects such as HII and HI regions, molecular clouds, and active galaxies. Techniques for deriving chemical abundances are explored, as are interstellar absorption by gas and dust and radiation transfer. (Irreg.)

ASTR 5523 Advanced Observatory Methods 3 Credit Hours
Prerequisite: 2513 and 3103. Techniques of multiwavelength observational astronomy. Includes time and coordinates, physics of astronomical ccds, telescopes, photometry, extinction correction, technical feasibility calculations, optical spectroscopy, and x-ray astronomy. Introductions to gamma-ray, infrared, UV radio astronomy. No student may earn credit for both 4523 and 5523. (Irreg.)

ASTR 5900 Seminar in Astrophysics 3 Credit Hours
Prerequisite: permission of instructor. May be repeated with change of subject matter; maximum credit nine hours. A research seminar devoted to the study of specialized topics in astronomy and astrophysics. Topics selected will reflect the interest of the instructor and students. (Irreg.)

ASTR 5960 Directed Readings 1-3 Credit Hours
1 to 3 hours. Prerequisite: graduate standing and permission of department. May be repeated; maximum credit twelve hours. Directed readings and/or literature reviews under the direction of a faculty member. (F, Sp, Su)

ASTR 5970 Special Topics/Seminar 1-3 Credit Hours
1 to 3 hours. Prerequisite: Graduate standing or permission of instructor. May be repeated; maximum credit nine hours. Special topics or seminar course for content not currently offered in regularly scheduled courses. May include library and/or laboratory research and field projects. (Irreg.)

ASTR 5990 Independent Study 1-3 Credit Hours
1 to 3 hours. Prerequisite: Graduate standing and permission of instructor. May be repeated; maximum credit nine hours. Contracted independent study for a topic not currently offered in regularly scheduled courses. Independent study may include library and/or laboratory research and field projects. (Irreg.)

PHYS 1114 General Physics for Non-Science Majors 4 Credit Hours
Prerequisite: high school algebra II. Not open to students who intend to do major work in mathematics or physical science. Concepts of force, energy, matter, atomic physics, electricity, light, presented as a part of a liberal education. A student may not receive credit for this course and PHYS 1205, PHYS 2414 or PHYS 2514. (F, Sp, Su) [II-NS].

PHYS 1205 Introductory Physics I for Physics Majors 5 Credit Hours
Prerequisite: enrollment in Mathematics 1823 or 1914 or permission of instructor. To be taken by physics, astronomy and engineering physics majors during the first semester of their freshman year. Kinematics, dynamics, work and energy, many-particle systems, rigid body rotation, simple harmonic motion. Laboratory is an integral part of the course. Laboratory (F) [II-NSL].

PHYS 1215 Introductory Physics II for Physics Majors 5 Credit Hours
Prerequisite: 1205 or permission of instructor. Electricity and magnetism: static fields and forces, circuits, electromagnetic induction. Thermodynamics: the First and Second Laws, temperature, heat, work and entropy. Laboratory is an integral part of the course. Laboratory (Sp)

PHYS 1311 General Physics Lab I 1 Credit Hour
Prerequisite: Corequisite: 2414 or 2514. Experiments in basic law of mechanics and thermodynamics. (F, Sp, Su) [II-NSL] .

PHYS 1321 General Physics Lab II 1 Credit Hour
Prerequisite: Corequisite: 2424 or 2524. Experiments in basic laws of electricity, magnetism, and optics. (F, Sp, Su) [II-NSL] .

PHYS 1453 Musical Acoustics 3 Credit Hours
An introduction to the science of sound and its propagation with special emphasis on the production of sound by musical instruments and the voice, psychological aspects of sound perception, and room acoustics. Topics are explored through lectures, demonstrations, and discussions. No previous musical experience or proficiency is required. Not for major credit. (F) [II-NS] .

PHYS 2203 Introductory Physics III: Modern Physics 3 Credit Hours
Prerequisite: 1215 or 2524 (or concurrent enrollment), or permission of instructor. An introduction to and overview of key concepts in contemporary physics, with emphasis on the contrast between classical and modern ways of thinking about the physical universe. Includes an introduction to selected major subject areas, which might include light and optics, relativity, atoms and molecules, the solid state, nuclei, elementary particles, fundamental interactions, cosmology and/or chaos. Students will also explore selected topics in current physics research. (F)

PHYS 2222 Computational Physics 2 Credit Hours
Prerequisite: MATH 2433 and PHYS 2203. Students will learn basic skills in programming in the context of solving physics problems. It is assumed that the student has no computer programming experience, and only modest understanding of physics. Through a variety of projects, the students are to obtain a deeper understanding of physical principles by implementing computer simulations. (Sp)

PHYS 2303 Electronics 3 Credit Hours
Prerequisite: 1215 or 2524 (or concurrent enrollment), or permission of instructor. An introduction to the characteristics of semiconductor electronic components and their use in the design and operation of practical analog and digital electronic circuits. The emphasis will be on gaining a working knowledge of basic circuits and preparation for understanding and building electronic circuits encountered by experimental research physicists. (F)

PHYS 2414 General Physics for Life Science Oriented Majors 4 Credit Hours
Prerequisite: Mathematics 1523 or 1743. Kinematics and dynamics of particles and rigid bodies, gravitation, equilibrium, momentum, energy, static and flowing fluids, kinetic theory, heat and thermodynamics, vibrations, waves and sound. A student may not receive credit for this course and PHYS 1205 or PHYS 2514. (F, Sp, Su) [II-NS].

PHYS 2424 General Physics for Life Science Oriented Majors 4 Credit Hours
Prerequisite: PHYS 2414 or PHYS 2514. Electric charge, electric field, electric potential, energy, DC and AC currents, magnetic fields, electromagnetic induction, geometrical optics, wave nature of light, optical instruments, early quantum theory, models of the atom, the nucleus, radioactivity, nuclear reactions and nuclear energy. A student may not receive credit for this course and PHYS 1215 or PHYS 2524. (F, Sp, Su)

PHYS 2514 General Physics for Engineering and Science Majors 4 Credit Hours
Prerequisite: MATH 1823 or MATH 1914 with grade of C or better. Vectors, kinematics and dynamics of particles, work and energy systems of particles, rotational kinematics and dynamics, oscillations, gravitation, fluid mechanics, waves. A student may not receive credit for this course and PHYS 1205. (F, Sp, Su) [II-NS].

PHYS 2524 General Physics for Engineering and Science Majors 4 Credit Hours
Prerequisite: PHYS 2514 and MATH 2423 or MATH 2924 with grade of C or better. Temperature, heat, thermodynamics, electricity, magnetism, optics. A student may not receive credit for this course and PHYS 1215. (F, Sp, Su)

PHYS 2970 Selected Topics in Physics 1-3 Credit Hours
1 to 3 hours. Prerequisite: sophomore standing or permission of instructor. May be repeated; maximum credit six hours. Special topics or seminar course for content not currently offered in regularly scheduled courses. May include library and/or laboratory research and field projects. (Irreg.)

PHYS 3043 Physical Mechanics I 3 Credit Hours
Prerequisite: 1205 or 2514, and Mathematics 3113 or 3413 (or concurrent enrollment); or permission of instructor. Differential equations based continuum mechanics: Newtonian particle mechanics, driven and damped oscillations, vibrations and waves, and their application to other linear systems, non-linear oscillations, introduction to Lagrange's equations. (Sp)

PHYS 3053 Physical Mechanics II 3 Credit Hours
Prerequisite: 3043 or permission of instructor. Lagrangian and Hamiltonian dynamics. Non-inertial reference frames. Rigid body motion. Central forces and collisions. Special relativity. (F)

PHYS 3183 Electricity and Magnetism I 3 Credit Hours
Prerequisite: 2203, Mathematics 3413 or concurrent enrollment; or permission of instructor. Electrostatics, dielectrics, continuity conditions, magnetic forces and fields, magnetic induction, magnetization, Maxwell's equations. (F)

PHYS 3223 Modern Physics for Engineers 3 Credit Hours
Prerequisite: Mathematics 3113 or equivalent. Relativity, atomic structure, nuclear theory, wave mechanics, statistical physics, solid state physics. (F)

PHYS 3302 Advanced Lab I 2 Credit Hours
Prerequisite: 2303 or permission of instructor. Junior-level experiments in physics. (F, Sp)

PHYS 3312 Advanced Lab II 2 Credit Hours
Prerequisite: 3302 or permission of instructor. Junior-level experiments in physics. (F, Sp)

PHYS 3440 Mentored Research Experience 3 Credit Hours
0 to 3 hours. Prerequisites: ENGL 1113 or equivalent, and permission of instructor. May be repeated; maximum credit 12 hours. For the inquisitive student to apply the scholarly processes of the discipline to a research or creative project under the mentorship of a faculty member. Student and instructor should complete an Undergraduate Research & Creative Projects (URCP) Mentoring Agreement and file it with the URCP office. Not for honors credit. (F, Sp, Su)

PHYS 3803 Introduction to Quantum Mechanics I 3 Credit Hours
Prerequisite: PHYS 3043 and MATH 3413 or permission of instructor. Fundamental ideas of quantum physics. Postulates of quantum theory, wave functions, operators, the Schrodinger equation, one-dimensional systems. Mathematical tools of quantum mechanics. Theory of measurement. Stationary and nonstationary states. (Sp)

PHYS 3960 Honors Reading 1-3 Credit Hours
1 to 3 hours. Prerequisite: admission to Honors Program. May be repeated; maximum credit six hours. Will consist of topics designated by the instructor in keeping with the student's major program. Covers materials not usually presented in the regular courses. (F, Sp, Su)

PHYS 3970 Honors Seminar 1-3 Credit Hours
1 to 3 hours. Prerequisite: admission to Honors Program. May be repeated; maximum credit six hours. The projects covered will vary. Deals with concepts not usually presented in regular coursework. (Su)

PHYS 3980 Honors Research 1-3 Credit Hours
1 to 3 hours. Prerequisite: admission to Honors Program. May be repeated; maximum credit six hours. Provides an opportunity for the gifted Honors candidate to work at a special project in the student's field. (F, Sp, Su)

PHYS 3990 Independent Study 1-3 Credit Hours
1 to 3 hours. Prerequisite: one course in general area to be studied; permission of instructor and department. May be repeated; maximum credit six hours. Contracted independent study for topic not currently offered in regularly scheduled courses. Independent study may include library and/or laboratory research and field projects. (F, Sp, Su)

PHYS G4153 Statistical Physics and Thermodynamics 3 Credit Hours
Prerequisite: 3803. Statistical properties of physical systems. Entropy and temperature, the Boltzmann distribution, Fermi-Dirac and Bose-Einstein gases. Thermodynamic functions. Statistical interpretation of thermodynamics. (F)

PHYS G4183 Electricity and Magnetism II 3 Credit Hours
Prerequisite: 3183. Maxwell's equations, electromagnetic wave equations, propagation of electromagnetic waves, reflection and refraction, radiation. (Sp)

PHYS 4213 Nuclear and Particle Physics 3 Credit Hours
(Slashlisted with 5213) Prerequisite: 3803. Basic nuclear structure, nuclear models, radioactivity, nuclear reactions. Particle interactions and families, quark model, weak decays of quarks and leptons. No student may earn credit for both 4213 and 5213. (F)

PHYS 4223 Optics 3 Credit Hours
(Slashlisted with PHYS 5223) Prerequisite: Junior standing. Geometrical optics; optical systems; optical aberrations; electromagnetic optics; diffraction theory; Fourier optics; interference; optical coherence and statistical properties of light; advanced topics such as, e.g., lasers and fiber optics. No student may earn credit for both 4223 and 5223. (Irreg.)

PHYS 4243 Solid State Physics 3 Credit Hours
(Slashlisted with 5243) Prerequisite: 3803. Crystal structure, electrons in simple metals, electron band theory, semiconductors, superconductivity, phonons. No student may earn credit for both 4243 and 5243. (Sp)

PHYS 4300 Senior Research Project 1-3 Credit Hours
1 to 3 hours. Prerequisite: senior standing in major and permission of instructor. May be repeated once. Research project, experimental or theoretical, to be arranged with individual faculty, leading to a senior thesis. Group seminars to discuss projects and other topics of current interest in physics and astronomy. Total of four hours required for general education capstone. (F, Sp) [V] .

PHYS 4310 Senior Research Project I 1-3 Credit Hours
1 to 3 hours. Prerequisite: Senior standing or permission of instructor. Research project, experimental or theoretical, to be arranged with individual faculty, leading to a senior thesis. Group seminars to discuss projects and other topics of current interest in physics and astronomy. Total of four hours between PHYS 4310 and PHYS 4320 are required. (F, Sp) [V].

PHYS 4320 Senior Research Project II 1-3 Credit Hours
1 to 3 hours. Prerequisite: PHYS 4310. A continuation of the research project, experimental or theoretical, arranged with individual faculty, producing a senior thesis. Group seminars to discuss projects and other topics of current interest in physics and astronomy. Total of four hours between PHYS 4310 and PHYS 4320 are required. (F, Sp) [V].

PHYS G4803 Introduction to Quantum Mechanics II 3 Credit Hours
Prerequisite: 3803 or permission of instructor. Quantum mechanics of three-dimensional systems. Angular momentum. Approximation methods: perturbation theory, variational methods. Time-dependent perturbations: transition rates, selection rules. Interaction of radiation with matter. Applications. Quantum mechanics of atoms and molecules. (F)

PHYS 4813 Atomic Physics 3 Credit Hours
(Slashlisted with PHYS 5813) Prerequisite: PHYS 4803. Hydrogen atom: fine structure, hyperfine structure, and external field effects; helium and many-electron atoms; two-level atom: rotating wave approximation, Rabi oscillation, and Bloch sphere; atom interferometry; broadening mechanisms; saturation spectroscopy; photon echoes. No student may earn credit for both 4813 and 5813. (Sp)

PHYS 4960 Directed Readings 1-4 Credit Hours
1 to 4 hours. Prerequisite: good standing in University; permission of instructor and dean. May be repeated; maximum credit four hours. Designed for upper-division students who need opportunity to study a specific problem in greater depth than formal course content permits. (Irreg.)

PHYS 4970 Seminar-Selected Topics in Physics 1-3 Credit Hours
1 to 3 hours. Prerequisite: permission of instructor. May be repeated with change of subject; maximum credit six hours. (Irreg.)

PHYS 4990 Independent Study 1-3 Credit Hours
1 to 3 hours. Prerequisite: three courses in general area to be studied,permission of instructor and department. May be repeated; maximum credit six hours. Contracted independent study for topic not currently offered in regularly scheduled courses. Independent study may include library and/or laboratory research and field projects. (F, Sp, Su)

PHYS 5000 Introduction to Graduate Studies in Physics 0 Credit Hours
Prerequisite: Graduate standing. The course is an introduction to research in general as well as specific research done within the department. It will familiarize students with departmental procedures, improve their teaching of Physics, and convey the expectations and demands of a career in Physics or Astronomy. (F)

PHYS 5013 Mathematical Methods in Physics 3 Credit Hours
Prerequisite: graduate standing. Orthogonal transformations and tensor analysis; partial differential equations and special functions; Green's functions; perturbation theory; calculus of variations; theory of complex variables; integral definition of special functions. (F)

PHYS 5153 Classical Mechanics 3 Credit Hours
Prerequisite: PHYS 3053 or equivalent. Hamilton's principle, Lagrange's equations, mechanics of particles and rigid bodies, Hamilton's equations, canonical transformations, Poisson brackets, action-angle variables. (F)

PHYS 5163 Statistical Mechanics 3 Credit Hours
Prerequisite: PHYS 4153 or equivalent. Classical and quantum statistical mechanics, fluctuations, thermodynamics, ideal gases, phase equilibrium and transitions, Bose-Einstein and Fermi-Dirac statistics, blackbody radiation, Einstein-Debye model, electrons in metals, critical exponents, spin models. (Sp)

PHYS 5213 Nuclear and Particle Physics 3 Credit Hours
(Slashlisted with 4213) Prerequisite: 4803; graduate standing. Basic nuclear structure, nuclear models, radioactivity, nuclear reactions. Particle interactions and families, quark model, weak decays of quarks and leptons. No student may earn credit for both 4213 and 5213. (F)

PHYS 5223 Optics 3 Credit Hours
(Slashlisted with PHYS 4223) Prerequisite: Graduate standing. Geometrical optics; optical systems; optical aberrations; electromagnetic optics; diffraction theory; Fourier optics; interference; optical coherence and statistical properties of light; advanced topics such as, e.g., lasers and fiber optics. No student may earn credit for both 4223 and 5223. (Irreg.)

PHYS 5243 Solid State Physics 3 Credit Hours
(Slashlisted with 4243) Prerequisite: 4803; graduate standing. Crystal structure, electrons in simple metals, electron band theory, semiconductors, superconductivity, phonons. No student may earn credit for both 4243 and 5243. (Sp)

PHYS 5293 Electronic, Optical and Magnetic Properties of Materials 3 Credit Hours
Prerequisite: Graduate standing and permission of instructor. This course surveys the electronic, optical and magnetic properties of materials and how these properties can be designed for specific applications. Topics include: forces, energies and timescales in condensed matter, electrons in crystalline semiconductors, electromagnetic waves in matter, optical and transport properties of polymers and small molecules, origins of magnetization in materials, structural and magnetic order/disorder phase transitions. (Irreg.)

PHYS 5393 Quantum Mechanics I 3 Credit Hours
Prerequisite: PHYS 4803 or equivalent. Topics in nonrelativistic quantum mechanics including the Heisenberg and Schrodinger pictures, Dirac formalism, angular momentum, bound states of spherically symmetric potentials, spin and angular momentum coupling, density matrix, 1d potential scattering. (Sp)

PHYS 5403 Quantum Mechanics II 3 Credit Hours
Prerequisite: PHYS 5393. Time-independent perturbation theory, time-dependent perturbation theory, electromagnetic interactions, potential scattering, symmetry and statistics, multiparticle systems, relativistic quantum mechanics including Klein-Gordon and Dirac equation. (F)

PHYS 5573 Electrodynamics I 3 Credit Hours
Prerequisite: PHYS 4183 or equivalent. Electrostatics; Poisson equation; solution via Green's functions; ponderable media; magnetism and Ampere's law; Faraday's law; Maxwell equations, solution via potentials; gauge fixing; advanced and retarded Green's functions; causality. (Sp)

PHYS 5583 Electrodynamics II 3 Credit Hours
Prerequisite: PHYS 5573. Electromagnetic waves and radiation; scattering and diffraction; special relativity and relativistic electrodynamics; radiation by moving charges. (F)

PHYS 5813 Atomic Physics 3 Credit Hours
(Slashlisted with PHYS 4813) Prerequisite: Graduate standing and PHYS 4803. Hydrogen atom: fine structure, hyperfine structure, and external field effects; helium and many-electron atoms; two-level atom: rotating wave approximation, Rabi oscillation, and Bloch sphere; atom interferometry; broadening mechanisms; saturation spectroscopy; photon echoes. No student may earn credit for both 4813 and 5813. (Sp)

PHYS 5910 Problems in Natural Science 1-2 Credit Hours
1 to 2 hours. Prerequisite: admission to candidacy for degree of Master of Natural Science. (F, Sp, Su)

PHYS 5960 Directed Readings 1-3 Credit Hours
1 to 3 hours. Prerequisite: graduate standing and permission of department. May be repeated; maximum credit twelve hours. Directed readings and/or literature reviews under the direction of a faculty member. (F, Sp, Su)

PHYS 5970 Seminar--Selected Topics in Modern Physics 1-3 Credit Hours
1 to 3 hours. Prerequisite: permission. May be repeated with change of subject matter; maximum credit for master's degree six hours, for doctor's degree 12 hours. (F, Sp, Su)

PHYS 5980 Research for Master's Thesis 2-9 Credit Hours
Variable enrollment, two to nine hours; maximum credit applicable toward degree, four hours. (F, Sp, Su)

PHYS 5990 Special Studies 1-4 Credit Hours
Prerequisite: 12 hours of physics, permission. May be repeated with change of subject matter; maximum credit for a master's degree four hours, for a doctor's degree ten hours. (F, Sp, Su)

PHYS 6213 Advanced Particle Physics 3 Credit Hours
Prerequisite: 5213, 5403 or equivalents. The theory and phenomenology of the "standard model" of particle physics which encompasses the electro-weak and strong interactions. Topics will include: symmetries, groups and conservation laws; bound states, quarkonium; Feynman diagrams, QED; QCD; weak interactions; gauge theories. (Irreg.)

PHYS 6243 Advanced Solid State Physics 3 Credit Hours
Prerequisite: 4243, 5403, or equivalents. The physics of metals, semiconductors and insulators. Free electron theory, crystal structure and phonons, electron band theory, semiclassical model, applications to electronic and optical properties of solids, effects of magnetic fields. (Irreg.)

PHYS 6283 Advanced Atomic/Molecular Physics 3 Credit Hours
Prerequisite: Graduate standing and PHYS 5403 (QMII), PHYS 5813 (AMOI), or equivalent. Beyond the two-level atom approximation: effects such as lambda system, STIRAP, dark states, and slow light; Doppler-free spectroscopy; optical pumping; collective atomic effects; laser cooling; Bose-Einstein condensates; electronic wave functions of atoms and molecules: variational principle, Hartee-Fock, and configuration interaction; molecular interaction potentials; interaction of light and molecules. (Irreg.)

PHYS 6333 General Relativity 3 Credit Hours
Prerequisite: 5013, 5583. The mathematical and physical basis for the relativistic theory of gravitation; the principle of equivalence; tensor analysis; Einstein's field equations; tests of general relativity; gravitational collapse; cosmology; toward a quantum theory of gravity. (Irreg.)

PHYS 6433 Quantum Field Theory I 3 Credit Hours
Prerequisite: Graduate standing and PHYS 5403. Canonical quantization of scalar and spinor fields; quantum electrodynamics; perturbation theory and Feynman diagrams; radiative corrections. (Irreg.)

PHYS 6443 Quantum Field Theory II: Gauge 3 Credit Hours
Prerequisite: Graduate standing and PHYS 6433. Path integral quantization; renormalization; renormalization group equations; gauge theories of strong and electroweak interactions. (Irreg.)

PHYS 6453 Quantum Field Theory III: Beyond the Standard Model 3 Credit Hours
Prerequisite: Graduate standing and PHYS 6443. Majorana spinors and neutrino masses, neutrino oscillations; strong CP problem and axions; grand unified theories; supersymmetry and supergravity; extra spacetime dimensions; introduction to string theory. (Irreg.)

PHYS 6543 Advanced Quantum Optics 3 Credit Hours
Prerequisite: Graduate standing, PHYS 5393, PHYS 5403, PHYS 5573, and PHYS 5813, or equivalent; Recommended - PHYS 5223. This course introduces students to advanced topics in quantum optics, with reference to both historic and current state-of-the-art developments. Students will be introduced to core concepts such as quantum noise, phase-space, atom-light interactions, entanglement, and open systems. Students will learn how to apply these theoretical concepts to experimental systems that study the generation and manipulation of quantum states of light. (Irreg.)

PHYS 6663 Non-Relativistic Many Body Theory 3 Credit Hours
Prerequisite: Graduate standing, PHYS 5393 (QMI), PHYS 5403 (QMII), PHYS 5573 (EMI), PHYS 5153 (Class Mech), and PHYS 5163 (Stat Mech), or equivalent. This course introduces students to several many-body treatments and illustrates the techniques on a variety of examples, focusing on applications of historical importance and recent modern developments. The course focuses on non-relativistic (as opposed to relativistic) quantum many-body techniques and applications. Students will be introduced to mean-field theory, Green's functions, broken symmetries and transformations, path integrals, and diagrammatic techniques. (Irreg.)

PHYS 6860 Advanced Topics in Mathematical Methods in Physics 1-3 Credit Hours
1 to 3 hours. Prerequisite: 5013 or permission. May be repeated with change of content; maximum credit nine hours. Topics covered will be selected by instructor and announced prior to the term in which it will be offered. The course is intended to offer material currently used in theoretical physics. (Irreg.)

PHYS 6960 Directed Readings 1-3 Credit Hours
1 to 3 hours. Prerequisite: graduate standing or permission of instructor. May be repeated; maximum credit six hours. Directed readings and/or literature review under the direction of a faculty member. (Irreg.)

PHYS 6970 Special Topics/Seminar 1-3 Credit Hours
1 to 3 hours. Prerequisite: graduate standing or permission of instructor. May be repeated; maximum credit 12 hours. Special topics or seminar course for content not currently offered in regularly scheduled courses. May include library and/or research and field projects. (Irreg.)

PHYS 6980 Research for Doctoral Dissertation 2-16 Credit Hours
2 to 16 hours. Prerequisite: Graduate standing and permission of instructor; may be repeated. Directed research culminating in the completion of the doctoral dissertation. (F, Sp, Su)

PHYS 6990 Independent Study 1-3 Credit Hours
1 to 3 hours. Prerequisite: Graduate standing and permission of instructor. May be repeated; maximum credit nine hours. Contracted independent study for a topic not currently offered in regularly scheduled courses. Independent study may include library and/or laboratory research and field projects. (Irreg.)

Faculty

Last Name	First/Middle Name	Middle init.	OU Service start	Title(s), date(s) appointed	Degrees Earned, Schools, Dates Completed
Abbott	Braden	K	2000	PROFESSOR 2013	PhD, Purdue, 1994; MS, Purdue, 1992; BA, Univ of Minnesota Morris, 1989
Abraham	Eric	R	1998	ASSOCIATE PROFESSOR 2004	PhD, Rice Univ, 1996; BA, St. Olaf College, 1991
Altuntas	Emine		2023	ASSISTANT PROFESSOR 2023	PhD, Yale, 2017; BA, Amherst, 2011
Baer	Howard	A	2008	PROFESSOR 2008	PhD, Univ of Wisconsin, 1984; MS, Univ of Wisconsin, 1981; BS, Univ of Wisconsin, 1979
Biederman	Grant		2020	ASSOCIATE PROFESSOR 2020	PhD, Stanford Univ, 2007; MS, Yale Univ, 2002; BS, Univ of Oklahoma, 2001
Blume	Doerte		2017	PROFESSOR 2017	PhD, Georg-August Univ, 1998; BS, Georg-August Univ, 1995
Bumm	Lloyd	A	2001	ASSOCIATE PROFESSOR 2007	PhD, Northwestern Univ, 1991; BS, Clarkson Univ, 1982
Burzynski	Jackson		2025	ASSISTANT PROFESSOR 2025	PhD, Univ. of Mass. Amherst, 2021; MS, Univ. of Mass. Amherst, 2018; BS, Tufts Univ., 2016
Dai	Xinyu		2011	ASSOCIATE PROFESSOR 2017	PhD, Penn State Univ, 2004; BS, Peking Univ, 1998
Gutierrez	Phillip		1989	PROFESSOR 2001	PhD, Univ of California Riverside, 1983; MS, Univ of California Riverside, 1980; BS, Univ of California Riverside, 1976
Hayden	Michael	R.	2024	ASSISTANT PROFESSOR 2024	PhD, New Mexico State Univ, 2015, B.S. Univ of Washington, 2010
Javadi	Alisa		2023	ASSISTANT PROFESSOR 2023	PhD, Univ of Copenhagen, 2015
Kao	Chung		2000	PROFESSOR 2013	PhD, Univ of Texas at Austin, 1990; MS, Univ of Oregon, 1985; BS, National Taiwan Norman Univ, 1980
Kilic	Mukremin		2011	ASSOCIATE PROFESSOR 2017	PhD, Univ of Texas at Austin, 2006; BS, Bogazici Univ, 1999
Marino Valle	Alberto		2012	ASSISTANT PROFESSOR 2012	PhD, Univ of Rochester, 2006; MS, Univ of Rochester, 2002; BS, Universidad de Monterrey, 1998
Matt	Sean		2023	PROFESSOR 2023	PhD, Univ of Washington, 2002; MS, Univ of Washington, 1998; BS, Univ of Arizona, 1996
Mullen	Kieran	J	1994	PROFESSOR 2007	PhD, Univ of Michigan, 1989; BS, Georgetown Univ, 1982
Nielsen	Nikole		2024	ASSISTANT PROFESSOR 2024	PhD, New Mexico State Univ, 2015, MS, New Mexico State Univ, 2013, BS, Michigan State Univ, 2009
Santos	Michael	B	1993	PROFESSOR 1997	PhD, Princeton Univ, 1992; MA, Princeton Univ, 1989; BS, Cornell Univ, 1986
Schwettmann	Arne		2014	ASSISTANT PROFESSOR 2014	PhD, Univ of Oklahoma, 2012; MS, Univ of North Texas, 2003; BS, Universität Hannover, 2001
Sinha	Kuver		2017	ASSISTANT PROFESSOR 2017	PhD, Rutgers Univ, 2008
Stupak	John		2016	ASSISTANT PROFESSOR OF PHYSICS AND ASTRONOMY, 2016; ASSISTANT PROFESSOR ENGINEERING PHYSICS	PhD, SUNY at Stonybrook, 2012; BS, Fairfield Univ, 2007
Uchoa	Bruno		2011	PROFESSOR 2023	PhD, State Univ of Campinas, 2004; BS, State Univ of Campinas, 1997
White	Daniel	R	2018	ASSISTANT PROFESSOR 2018	PhD, Ohio State Univ, 2016; BS, Univ of Oklahoma, 2008
Zhu	Bihui		2021	ASSISTANT PROFESSOR 2021	PhD, Univ of Colorado, 2017

Astronomy, B.S.

Minimum Total Credit Hours: 120
Major Hours: 35

Minimum Upper-Division Hours: 48

Overall GPA - Combined and OU: 2.00
Major GPA - Combined and OU: 2.00

Program Code: B080

- **A grade of C or better must be earned in each required Astronomy and Physics course and in the required Mathematics courses.**

Major Requirements

- **Some courses required for the major may also fulfill University General Education and/or Dodge College of Arts & Sciences Requirements.**

Code	Title	Credit Hours
Astronomy		
ASTR 2513	Introductory Astrophysics	3
ASTR 3103	Stars	3
ASTR 3113	Galaxies and Cosmology	3
Physics		
PHYS 1205	Introductory Physics I for Physics Majors	5
PHYS 1215	Introductory Physics II for Physics Majors	5
PHYS 2203	Introductory Physics III: Modern Physics	3
PHYS 3043	Physical Mechanics I	3
PHYS 3053	Physical Mechanics II	3
PHYS 4310	Senior Research Project I	2
PHYS 4320	Senior Research Project II	2
Choose one of the following:		3
HSTM 3013	History of Science to the Age of Newton	
HSTM 3023	History of Science Since the Seventeenth Century	
PHYSICS course at the 3000-level or higher		
Total Credit Hours		**35**

Major Support Requirements

Code	Title	Credit Hours
CHEM 1315	General Chemistry	5
MATH 1914	Differential and Integral Calculus I [1]	4
MATH 2924	Differential and Integral Calculus II [1]	4
MATH 2934	Differential and Integral Calculus III [1]	4
MATH 3413	Physical Mathematics I	3
Total Credit Hours		**20**

[1] MATH 1823, MATH 2423, MATH 2433, and MATH 2443 may also be used to meet the Calculus sequence requirement.

General Education and College Requirements

Courses for fulfillment of General Education and Dodge College of Arts & Sciences requirements must be from the approved General Education course list published in the Class Schedule or at http://www.ou.edu/gened/courses. **Courses graded P/NP will not apply.**

MINIMUM OF 40 HOURS REQUIRED FOR UNIVERSITY-WIDE GENERAL EDUCATION

Code	Title	Credit Hours
Core Area I: Symbolic and Oral Communication		
English Composition (6 hours)		
ENGL 1113	Principles of English Composition	3
ENGL 1213	Principles of English Composition	3
or EXPO 1213	Expository Writing	
Language (0-13 hours in the same language)		
The college requirement cannot be met by high school coursework.		
Beginning Course		0-5
Beginning Course, continued		0-5
Intermediate Course (2000 level) [1,2]		0-3
Mathematics (3 hours)		
Choose one course from the General Education Mathematics list		3
Core Area II: Natural Science (7 hours, including one laboratory component)		
Biological Science		
Choose an approved General Education Natural Science course with one of the following prefixes: BIOL, HES, MBIO, or PBIO [1]		3-4
Physical Science		
Choose an approved General Education Natural Science course with one of the following prefixes: AGSC, ASTR, CHEM, GEOG, GEOL, GPHY, METR, or PHYS [1]		3-4
Core Area III: Social Science (6 hours)		
P SC 1113	American Federal Government	3
Choose one course from the General Education Social Science list		3
Core Area IV: Arts and Humanities (18 hours)		
Artistic Forms		
Choose one course from the General Education Artistic Forms list		3
Western Culture		
HIST 1483	United States to 1865	3
or HIST 1493	United States, 1865 to the Present	
Choose one course from the General Education Western Culture list (excluding HIST 1483/1493)		3
World Culture		
Choose one course from the General Education World Culture list		3
Additional Core IV Upper-Division Arts & Humanities courses		
Choose one course from Artistic Forms, Western Culture, or World Culture [1,3]		3
Choose one course from Artistic Forms, Western Culture, or World Culture [1,3]		3
Core Area V: First Year Experience (3 hours)		
Choose one course		3
Total Credit Hours		**56**

[1] College of Arts and Sciences Requirements: college requirements are not automatically fulfilled by a previous degree.
[2] One course at the intermediate level or demonstrated competency at that level
[3] 6 upper-division hours, 2 courses, at the 3000- 4000-level. ***Must be outside the major.***

Free Electives

Electives to bring total applicable hours to the minimum total required for the degree including 48 upper-division hours.

Information Concerning General Rules, Regulations and Minimum Requirements

Arts and Sciences Hours: At least 80 semester hours of liberal arts and sciences courses are required for a BA degree. At least 55 semester hours of liberal arts and sciences courses are required for a BS degree.
Pass/No Pass Enrollment: A maximum of 16 semester hours of free elective credit may be attempted under this option.
Individual Studies (e.g., courses titled "Independent Study"): A maximum of 12 total semester hours may be counted toward graduation, excluding Honors Reading and Honors Research.
P.E. Courses: No physical education activity courses will be counted toward the 120 semester hours of acceptable credit for graduation.
Senior Institution Hours: A minimum of 60 semester hours applied toward graduation must be earned at senior (4-year) institutions.
Residency:

- At least 15 of the final 30 hours applied toward the degree or at least 50 percent of the hours required by the institution in the major field must be satisfactorily completed at the awarding institution.
- At least 15 semester hours of upper-division major work must be completed in residence at OU.
- OU correspondence courses are ***not*** considered resident credit.

Grade Point Averages: Students must earn a minimum over all 2.00 for each of the following: Combined Retention GPA (all college grades), OU Retention GPA, GPA for all major courses, and GPA for all major courses taken at OU. Some schools and departments of the College have higher minimum grade point averages required for their students.

Suggested Semester Plan of Study

This plan shows one possible grouping of courses that would allow students to graduate in four years. Please refer to the front of the degree checksheet for official requirements. Students must consult with Dodge College of Arts and Sciences and/or Department of Physics and Astronomy academic advisors to verify that courses selected each semester fulfill the recommended plan and satisfy University, College of Arts and Sciences, and Astronomy major requirements.

Freshman		
First Semester		**Credit Hours**
ENGL 1113	Principles of English Composition (Core I)	3
MATH 1914	Differential and Integral Calculus I [1]	4

3 6 upper-division hours, 2 courses, at the 3000- 4000-level. ***Must be outside the major.***

Free Electives

Electives to bring total applicable hours to the minimum total required for the degree including 48 upper-division hours.

Information Concerning General Rules, Regulations and Minimum Requirements

Arts and Sciences Hours: At least 80 semester hours of liberal arts and sciences courses are required for a BA degree. At least 55 semester hours of liberal arts and sciences courses are required for a BS degree.
Pass/No Pass Enrollment: A maximum of 16 semester hours of free elective credit may be attempted under this option.
Individual Studies (e.g., courses titled "Independent Study"): A maximum of 12 total semester hours may be counted toward graduation, excluding Honors Reading and Honors Research.
P.E. Courses: No physical education activity courses will be counted toward the 120 semester hours of acceptable credit for graduation.
Senior Institution Hours: A minimum of 60 semester hours applied toward graduation must be earned at senior (4-year) institutions.
Residency:

- At least 15 of the final 30 hours applied toward the degree or at least 50 percent of the hours required by the institution in the major field must be satisfactorily completed at the awarding institution.
- At least 15 semester hours of upper-division major work must be completed in residence at OU.
- OU correspondence courses are ***not*** considered resident credit.

Grade Point Averages: Students must earn a minimum over all 2.00 for each of the following: Combined Retention GPA (all college grades), OU Retention GPA, GPA for all major courses, and GPA for all major courses taken at OU. Some schools and departments of the College have higher minimum grade point averages required for their students.

Suggested Semester Plan of Study

This plan shows one possible grouping of courses that would allow students to graduate in four years. Please refer to the front of the degree checksheet for official requirements. Students must consult with Dodge College of Arts and Sciences and/or Department of Physics and Astronomy academic advisors to verify that courses selected each semester fulfill the recommended plan and satisfy University, College of Arts and Sciences, and Physics major requirements.

Freshman		
First Semester		**Credit Hours**
ENGL 1113	Principles of English Composition (Core I)	3
MATH 1914	Differential and Integral Calculus I	4
PHYS 1205	Introductory Physics I for Physics Majors	5
First Year Experience (Core V)		3
	Credit Hours	**15**
Second Semester		
ENGL 1213 or EXPO 1213	Principles of English Composition (Core I) or Expository Writing	3
MATH 2924	Differential and Integral Calculus II	4
PHYS 1215	Introductory Physics II for Physics Majors	5
Beginning Language (Core I)		5
	Credit Hours	**17**
Sophomore		
First Semester

Free Elective, upper-division (3000-4000-level)		3
Free Elective, upper-division (3000-4000-level)		3
	Credit Hours	**14**
Second Semester		
PHYS 4320	Senior Research Project II	2
Arts & Humanities, upper-division, outside major (Gen. Ed.)		3
Biological Science without lab (Core II)		3
Free Elective, upper-division (3000-4000-level)		3
Free Elective, upper-division (3000-4000-level)		3
	Credit Hours	**14**
	Total Credit Hours	**120**

[1] Students may substitute MATH 1823, MATH 2423, MATH 2433 and MATH 2443 calculus sequence instead of MATH 1914, MATH 2924, and MATH 2934.

Physics (Professional), B. Phys.

Minimum Total Credit Hours: 120
Major Hours: 45
Minimum Upper-Division Hours: 48

Overall GPA - Combined and OU: 2.00
Major GPA - Combined and OU: 2.00

Program Code: B781

- **A grade of C or better must be earned in each required Physics and Mathematics course.**

Major Requirements

- **Some courses required for the major may also fulfill University General Education and/or Dodge College of Arts & Sciences Requirements.**

A total of 45 hours in Physics is required, including the courses listed below.

Code	Title	Credit Hours
PHYS 1205	Introductory Physics I for Physics Majors	5
PHYS 1215	Introductory Physics II for Physics Majors	5
PHYS 2203	Introductory Physics III: Modern Physics	3
PHYS 2303	Electronics	3
PHYS 3043	Physical Mechanics I	3
PHYS 3053	Physical Mechanics II	3
PHYS 3183	Electricity and Magnetism I	3
PHYS 3302	Advanced Lab I	2
PHYS 3312	Advanced Lab II	2
PHYS 3803	Introduction to Quantum Mechanics I	3
PHYS 4153	Statistical Physics and Thermodynamics	3
PHYS 4310	Senior Research Project I	2
PHYS 4320	Senior Research Project II	2
Choose two of the following:		6
PHYS 4183	Electricity and Magnetism II (strongly recommended)	
PHYS 4213	Nuclear and Particle Physics	
PHYS 4243	Solid State Physics	
PHYS 4803	Introduction to Quantum Mechanics II (strongly recommended)	
PHYS 4813	Atomic Physics	
Total Credit Hours		**45**

Major Support Requirements

Code	Title	Credit Hours
Choose one of the the following:		0-5
CHEM 1315	General Chemistry	
One year of high school chemistry		
MATH 1914	Differential and Integral Calculus I [1]	4
MATH 2924	Differential and Integral Calculus II [1]	4
MATH 2934	Differential and Integral Calculus III [1]	4
MATH 3413	Physical Mathematics I	3
MATH 3423	Physical Mathematics II	3
Choose 3 upper-division elective hours in mathematics		3
Total Credit Hours		**21-26**

[1] MATH 1823, MATH 2423, MATH 2433 and MATH 2443 may also be used to meet this requirement.

General Education and College Requirements

Courses for fulfillment of General Education and Dodge College of Arts & Sciences requirements must be from the approved General Education course list published in the Class Schedule or at http://www.ou.edu/gened/courses. **Courses graded P/NP will not apply.**

MINIMUM OF 40 HOURS REQUIRED FOR UNIVERSITY-WIDE GENERAL EDUCATION

Code	Title	Credit Hours
Core Area I: Symbolic and Oral Communication		
English Composition (6 hours)		
ENGL 1113	Principles of English Composition	3
ENGL 1213 or EXPO 1213	Principles of English Composition Expository Writing	3
Language (0-13 hours in the same language)		
The college requirement cannot be met by high school coursework.		
Beginning Course		0-5
Beginning Course, continued		0-5
Intermediate Course (2000 level) [1,2]		0-3
Mathematics (3 hours)		
Choose one course from the General Education Mathematics list		3
Core Area II: Natural Science (7 hours, including one laboratory component)		
Biological Science		
Choose an approved General Education Natural Science course with one of the following prefixes: BIOL, HES, MBIO, or PBIO [1]		3-4
Physical Science		
Choose an approved General Education Natural Science course with one of the following prefixes: AGSC, ASTR, CHEM, GEOG, GEOL, GPHY, METR, or PHYS [1]		3-4
Core Area III: Social Science (6 hours)		
P SC 1113	American Federal Government	3
Choose one course from the General Education Social Science list		3
Core Area IV: Arts and Humanities (18 hours)		
Artistic Forms		
Choose one course from the General Education Artistic Forms list		3
Western Culture		
HIST 1483 or HIST 1493	United States to 1865 United States, 1865 to the Present	3
Choose one course from the General Education Western Culture list (excluding HIST 1483/1493)		3
World Culture		
Choose one course from the General Education World Culture list		3
Additional Core IV Upper-Division Arts & Humanities courses		
Choose one course from Artistic Forms, Western Culture, or World Culture [1,3]		3
Choose one course from Artistic Forms, Western Culture, or World Culture [1,3]		3
Core Area V: First Year Experience (3 hours)		
Choose one course		3
Total Credit Hours		**56**

[1] College of Arts and Sciences Requirements: college requirements are not automatically fulfilled by a previous degree.

[2] One course at the intermediate level or demonstrated competency at that level

[3] 6 upper-division hours, 2 courses, at the 3000- 4000-level. ***Must be outside the major.***

Free Electives

Electives to bring total applicable hours to the minimum total required for the degree including 48 upper-division hours.

[1] Students may substitute MATH 1823, MATH 2423, MATH 2433 and MATH 2943 calculus sequence instead of MATH 1914, MATH 2924, and MATH 2934.

[2] At least 4 hours of upper-division General Education will be required to complete the 48 hour upper-division requirement.

Astronomy, Minor

Minimum Total Credit Hours: 26
Minimum Upper-Division Hours: 9

Program Code: N080

- **The requirements for a minor must be completed concurrently with the major degree requirements.**
- **No minor may be added by completing courses after receiving the bachelor's degree.**

At least six (6) credit hours must be earned in courses acceptable for residence credit by standards set forth by the Dodge College of Arts and Sciences, excluding transfer, correspondence, and examination (AP, CLEP, Advanced Standing) credit. Courses for the minor may not be taken Pass/No Pass.

No single course may be used by a student to satisfy a major requirement and a minor requirement. A course may be used, however, to satisfy both a major support requirement and a minor requirement.

Requests to substitute a minor requirement must be approved in writing by the Department of Physics & Astronomy.

Required Courses

Students must successfully complete at least 26 hours of courses acceptable for major credit in Astronomy, including at least nine (9) hours at the upper-division level.

Code	Title	Credit Hours
PHYS 1205 or PHYS 2514	Introductory Physics I for Physics Majors General Physics for Engineering and Science Majors	4-5
PHYS 1215 or PHYS 2524	Introductory Physics II for Physics Majors General Physics for Engineering and Science Majors	4-5
PHYS 2203	Introductory Physics III: Modern Physics	3
PHYS 3043	Physical Mechanics I	3
ASTR 2513	Introductory Astrophysics	3
ASTR 3103	Stars	3
ASTR 3113	Galaxies and Cosmology	3
MATH 2443	Calculus and Analytic Geometry IV	3
Total Credit Hours		**26**

- Minors in the Dodge College of Arts & Sciences are available to all undergraduate students at OU. If the minor is officially declared, successfully completed, and noted on the graduation application, the student's transcript will so indicate at the time the bachelor's degree is posted.

Physics, Minor

Minimum Total Credit Hours: 22
Minimum Upper-Division Hours: 9

Program Code: N780

- **The requirements for a minor must be completed concurrently with the major degree requirements.**
- **No minor may be added by completing courses after receiving the bachelor's degree.**

At least six (6) credit hours must be earned in courses acceptable for residence credit by standards set forth by the Dodge College of Arts and Sciences, excluding transfer, correspondence, and examination (AP, CLEP, Advanced Standing) credit. Courses for the minor may not be taken Pass/No Pass.

No single course may be used by a student to satisfy a major requirement and a minor requirement. A course may be used, however, to satisfy both a major support requirement and a minor requirement.

Requests to substitute a minor requirement must be approved in writing by the Department of Physics & Astronomy.

Required Courses

Students must successfully complete at least 22 hours of courses acceptable for major credit in Physics, including at least nine (9) hours at the upper-division level.

Code	Title	Credit Hours
PHYS 1205	Introductory Physics I for Physics Majors [1]	5
PHYS 1215	Introductory Physics II for Physics Majors [1]	5
PHYS 2203	Introductory Physics III: Modern Physics	3
or PHYS 3223	Modern Physics for Engineers	
PHYS 3043	Physical Mechanics I	3
Choose one of the following:		3
PHYS 3053	Physical Mechanics II	
PHYS 3183	Electricity and Magnetism I	
PHYS 3803	Introduction to Quantum Mechanics I	
Choose one of the following:		3-6
MATH 3113 & MATH 3333	Introduction to Ordinary Differential Equations and Linear Algebra I (both courses, 6 hours) [2]	
MATH 3413	Physical Mathematics I (one course, 3 hours) [2]	
Total Credit Hours		**22**

[1] PHYS 1205 and PHYS 1215 may be replaced by PHYS 2514 and PHYS 2524. If completing PHYS 2514 and PHYS 2524, students must also complete either PHYS 1311 and PHYS 1321 or PHYS 2303 or PHYS 3302.

[2] These MATH courses are acceptable for the minor although they do not meet the major credit requirement.

- Minors in the Dodge College of Arts & Sciences are available to all undergraduate students at OU. If the minor is officially declared, successfully completed, and noted on the graduation application, the student's transcript will so indicate at the time the bachelor's degree is posted.

Physics, M.S.

Minimum Total Hours (Thesis): 30

Minimum Total Hours (Non-Thesis): 32

Program Code: M780

Required Courses

Thesis Option (standard)

Code	Title	Credit Hours
Choose 14-16 hours of PHYS and/or ASTR courses at the 4000-level or above (note that 4000 level courses must carry graduate credit)		14-16
PHYS 5980	Research for Master's Thesis	2-4
Choose 12 hours of other graduate coursework as approved by the advisory committee		12
Total Credit Hours		**30**

Thesis Option (Astrophysics)

Code	Title	Credit Hours
ASTR 4303	Stellar Astrophysics [1]	0 or 3
Choose 6 hours of ASTR courses numbered 5000 or above		6
Choose 12 credit hours of PHYS and/or ASTR courses at the 4000-level or above. (note that 4000 level courses must carry graduate credit)		12
PHYS 5980	Research for Master's Thesis	2-4
Choose 5-10 hours of other graduate coursework as approved by the advisory committee, to bring total graduate credit hours to 30		5-10
Total Credit Hours		**30**

[1] If presented as undergraduate credit, this course does not count towards the 30 hours required for the degree.

Non-Thesis Option

Code	Title	Credit Hours
Choose 20 hours of PHYS and/or ASTR courses at the 4000-level or above (note that 4000 level courses must carry graduate credit) [1]		20
Choose 12 hours of other graduate coursework as approved by the advisory committee		12
Total Credit Hours		**32**

[1] May not include PHYS 5980.

Notes

- **Non-thesis students must pass the internal departmental qualifying exams on Quantum Mechanics, Electrodynamics, and Classical & Statistical Mechanics.**
- **The Comprehensive Exam can be either the General Exam for admission to doctoral candidacy (for students pursuing a doctorate) or a separate written paper and oral exam (for students exiting with a Masters).**

General Requirements for all Master's Degrees

The master's degree requires the equivalent of *at least* two semesters of satisfactory graduate work and additional work as may be prescribed for the degree.

All coursework applied to the master's degree must carry graduate credit.

Master's degree programs which require a thesis consist of *at least* 30 credit hours. All non-thesis master's degree programs require *at least* 30 credit hours.

Credit transferred from other institutions must meet specific criteria and is subject to certain limitations.

Courses completed through correspondence study may *not* be applied to the master's degree.

To qualify for a graduate degree, students must achieve an overall grade point average of 3.0 or higher in the degree program coursework and in all resident graduate coursework attempted. A student must also have at least a 3.0 in all coursework (including undergraduate coursework if any).

Additional information for master's degree students may be found in the Graduate College Bulletin.

Astrophysics, Ph.D.

Minimum Total Hours: 90

Program Code: D082

Program Requirements

Code	Title	Credit Hours
Required Physics & Astronomy Coursework (30 hours)		
PHYS 5000	Introduction to Graduate Studies in Physics	0
PHYS 5013	Mathematical Methods in Physics	3
PHYS 5153	Classical Mechanics	3
PHYS 5163	Statistical Mechanics	3
PHYS 5393	Quantum Mechanics I	3
PHYS 5573	Electrodynamics I	3
Additional five core courses (15 hours) that cover applications of physics principles in astrophysical settings can be selected from ASTR and PHYS courses at the 5000 level and above (excluding 5980 and 6980) or in related fields at the G4000 level and above if approved by the advisory committee and the graduate liaison		15
Additional Coursework (60 hours)		
PHYS 6980	Research for Doctoral Dissertation (minimum 2 hours)	2-60
Additional graduate-level coursework as needed to reach 90 post-baccalaureate hours, as approved by the advisory committee		0-58
Total Credit Hours		**90**

Note:

The General Exam consists of a written paper and oral presentation on an area related to proposed thesis. The General Exam can only be taken after passing the internal departmental qualifiying exams.

General Requirements for Doctoral Degrees

A student should expect to spend at least the equivalent of three full academic years beyond the bachelor's degree to obtain the doctoral degree. During this period the student will take appropriate graduate coursework, successfully complete the general examination, and successfully defend and submit the final dissertation.

All coursework applied to the doctoral degree must carry graduate credit.

The doctoral degree requires at least 90 post-baccalaureate hours, including both formal coursework and hours of research.

The minimum hour requirement for a specific doctoral degree program cannot be waived.

No more than one-half of the credit hours, both OU and overall, excluding Research for Doctoral Dissertation (6980), may be *S/U*-graded coursework.

The student must be in residence at OU for at least two consecutive 16-week semesters during the pursuit of the doctoral degree while enrolled and engaged in coursework or research activities as prescribed by the major academic unit.

For more detailed regulations and requirements for Doctoral degrees, please consult the Graduate College Bulletin: http://www.ou.edu/gradcollege/forms/bulletin

Physics, Ph.D.

Minimum Total Hours: 90

Program Code: D780

Program Requirements

Code	Title	Credit Hours
Required Physics and/or Astronomy Coursework (36 hours)		
PHYS 5000	Introduction to Graduate Studies in Physics	0
PHYS 5013	Mathematical Methods in Physics	3
PHYS 5153	Classical Mechanics	3
PHYS 5163	Statistical Mechanics	3
PHYS 5393	Quantum Mechanics I	3
PHYS 5403	Quantum Mechanics II	3
PHYS 5573	Electrodynamics I	3
PHYS 5583	Electrodynamics II	3
15 hours in PHYS and ASTR coursework at the 5000-level and above (excluding 5980 and 6980), or in related fields at the graduate-4000-level and above as approved by the advisory committee and graduate liaison [1]		15
PHYS 6980	Research for Doctoral Dissertation (minimum 2 hours)	2
Additional Coursework (52 hours)		
Additional graduate-level coursework as needed to reach 90 post-baccalaureate hours, as approved by the advisory committee		52
Total Credit Hours		**90**

[1] If the dissertation topic is in Astronomy, the curriculum must include at least 12 hours of Astronomy courses, including ASTR 4303 and any ASTR courses at the 5000-level or above, excluding 5980 and 6980.

Note:

The General Exam consists of a written paper and oral presentation on an area related to proposed thesis. The General Exam can only be taken after passing the internal departmental qualifiying exams on Quantum Mechanics, Electrodynamics, Classical & Statistical Mechanics and (if appropriate) Astrophysics.

General Requirements for Doctoral Degrees

A student should expect to spend at least the equivalent of three full academic years beyond the bachelor's degree to obtain the doctoral degree. During this period the student will take appropriate graduate coursework, successfully complete the general examination, and successfully defend and submit the final dissertation.

All coursework applied to the doctoral degree must carry graduate credit.

The doctoral degree requires at least 90 post-baccalaureate hours, including both formal coursework and hours of research.

The minimum hour requirement for a specific doctoral degree program cannot be waived.

General Information

The Department of Political Science is the academic home for faculty, staff members, undergraduate students, and graduate students who share a love of politics and a devotion to learning. The department offers two undergraduate degrees, one in political science and the other in public and nonprofit administration. Master's degrees in both political science and public administration are offered, and also a doctorate in political science.

The Department of Political Science is among the most intellectually eclectic at the University of Oklahoma. Faculty and students pursue research and study in topics as varied as American politics, comparative politics, international relations, public policy, public administration, and political theory. There are no intellectual or methodological orthodoxies. A diverse faculty and group of students pursue a multiplicity of paths to knowledge.

Affiliated with the department are the Carl Albert Congressional Research and Studies Center, the OU POLL (Public Opinion Learning Laboratory), the Institute for Public Affairs, International and Area Studies, the Institute for American Constitutional Heritage, and the Center for Applied Social Research.

Programs & Facilities

Special Facilities and Programs

The Carl Albert Congressional Research and Studies Center is a unique and nonpartisan institution that strengthens representative democracy through scholarship, learning, and service. Established in 1979 by the Oklahoma State Regents for Higher Education and the Board of Regents of the University of Oklahoma, the center is a living tribute to the ideals, leadership, and accomplishments of the Honorable Carl Albert, native Oklahoman, University of Oklahoma alumnus, Rhodes Scholar, 46th Speaker of the U.S. House of Representatives.

The University of Oklahoma's Public Opinion Learning Laboratory is a state-of-the-art survey research facility on the OU campus in Norman, Oklahoma. Established by President Boren, the purpose of the OU POLL is to conduct research on public opinion, in order to foster knowledge about public affairs and to assist in the conduct of research on public policy important to University departments, state and local governments, media organizations, other public and private entities, and the general public. The OU POLL is located in Alley A9, Cross Center, on OU's Norman campus. Contact the OU POLL's Director, Amy Sue Goodin for more information.

The Institute for Public Affairs, established in 1995, conducts applied research on public policy issues affecting Oklahoma. The Institute provides policy research and technical assistance, training and leadership development, and civic education for public sector and non-profit audiences. The Institute draws on the diverse backgrounds, interests, and expertise represented among the faculty throughout the University. Faculty associated with the Institute work in the areas of policy analysis and policy formulation, program design, program evaluation, and design and assessment of operating systems such as budgeting and personnel. For more information, contact Dr. Scott Robinson, Director, 455 West Lindsey, Room 205, Norman, OK 73019-2002.

Student Organizations

Undergraduate and graduate students who qualify are invited to join Pi Sigma Alpha, the national political science honorary society. Other student organizations of interest to department majors are: Political Science Club, Student Association for Public Administration, OU Pre-Law Club, Model UN.

Scholarships

The Department of Political Science awards a variety of scholarships to undergraduates every spring. In addition to administering the prestigious Robert Dean Bass Memorial Scholarship, our department faculty

nominate undergraduates for paper awards based on exceptional papers written in political science courses.

Undergraduate Study

Bachelor of Arts

The department offers these majors:

- Political Science (p. 698)
  Students that choose political science can take courses in American politics, public policy, public administration, comparative politics, international relations or political theory.
- Political Science: Elections and Campaign Management (p. 701)
  The Elections and Campaign Management concentration provides a concentrated education in campaigns and voter behavior.
- Public & Nonprofit Administration (p. 706)
  Students that choose public and nonprofit administration will focus their coursework in public policy and public administration.

Accelerated Dual Degree Programs

- Political Science, Bachelor of Arts/Master of Public Administration (p. 714)
  Students to simultaneously receive a Political Science Bachelor of Arts degree and the Master of Public Administration degree.
- Political Science, Bachelor of Arts/Master of Arts (p. 711)
  Students to simultaneously receive a Political Science Bachelor of Arts degree and the Political Science Master of Arts degree.
- Public and Nonprofit Administration, Bachelor of Arts/Master of Arts (p. 716)
  Students to simultaneously receive a Public and Nonprofit Administration Bachelor of Arts degree and the Political Science Master of Arts degree.
- Public and Nonprofit Administration, Bachelor of Arts/Master of Public Administration (p. 718)
  Students to simultaneously receive a Public and Nonprofit Administration Bachelor of Arts degree and the Master of Public Administration degree.

Minors

The department offers these minors:

- Political Science (p. 710)
- Public Affairs & Administration (p. 710),
- Elections & Campaign Management (p. 708)
- Nonprofit Organizational Studies (p. 709)
- Non-Governmental Organizations (p. 709).

Careers

The study of political science and public administration is an excellent foundation for careers in law and law enforcement; government service at the national, state, and local levels, from federal agencies to city managers; politics, such as campaign management or lobbying or elective office; professional research for a "think tank;" labor relations; political journalism; teaching at the secondary and university levels; the diplomatic corps; management in the public and nonprofit sectors, in such areas as health care management and human resource management; consulting; international business; urban planning and development; business management; and policy analysis.

Graduate Study

Areas of Specialization

American politics, comparative politics, international relations, political theory, public administration, public policy, and research methods.

Master of Arts

The Master of Arts (p. 721) in Political Science degree provides excellent preparation for doctoral work for those in public non-profit, or private careers who find further professional development necessary. The degree program provides a basic minimum of structure to ensure that participants will obtain the necessary groundwork in political science. Beyond the basic requirements, there is an opportunity for significant specialization in the fields of most interest to the student.

Master of Public Administration

The degree is designed to provide the student with an understanding and knowledge of government and its environment. As a professional program, emphasis is placed upon learning those administrative concepts, processes, and techniques that are associated with managing the public's business. The academic base for the M.P.A. consists of required courses which include research methods, evaluation, and budgeting and area requirements in management, public policy, organizations, and American political process. The program integrates the theoretical with the practical dimensions of administration and encourages a broad academic and professional perspective. M.P.A. graduates typically enter the public or not-for-profit sectors, although many graduates have used the expertise gained in the program to enter and/or enhance careers in business and corporate enterprises. Public Administration offers classes in multiple formats and at multiple locations. Courses are scheduled in the evening, weekends, online and during the day. The program can be completed on the Norman or Tulsa campuses, and our faculty routinely teach MPA courses at the OU Health Sciences Center in Oklahoma City.

- Master of Public Administration (p. 722)
- Public Management, Master of Public Administration (p. 723)
- Non-Profit Management, Master of Public Administration (p. 722)
- Public Policy, Master of Public Administration (p. 724)

Graduate Certificates

- Non-Profit Management (p. 724)

Doctoral Programs

The Political Science PhD (p. 724) program at the University of Oklahoma is one of the most diverse, well-established doctoral programs in the region. The program offers seven fields of study, which include American politics, comparative government, international relations, public administration, public policy, political theory and research methods. Doctoral students work closely with nationally recognized faculty who publish widely, are active in leadership positions in national and international professional associations, and are involved in editing leading journals in their fields. Students play a significant part in the intellectual life of the Department, participating in informal research-in-progress sessions, attending talks hosted by job candidates, and preparing papers for presentation at professional conferences.

Opportunities for research and funding are provided by programs affiliated with the department, including the Carl Albert Congressional Research and Studies Center, the Institute for Public Affairs, the International Programs Center, the OU POLL, the Center for Risk, Crisis

and Resilience, the Center for Applied Social Research, and International and Area Studies.

Courses

NPNG 2033 Introduction to Nonprofits 3 Credit Hours
A comprehensive overview of the nonprofit sector, its characteristics, and how to manage a nonprofit organization. Examines a wide range of management issues today's nonprofits face in pursuing their missions and daily operations. (F, Sp)

NPNG 3033 Nonprofit Management 3 Credit Hours
Prerequisite: NPNG 2033 or permission of department. A more detailed look at how to manage or govern a well-run nonprofit organization efficiently. Combines academic theory with real-life experience, equipping students with the tools required to effectively lead a nonprofit organization. (F, Sp)

NPNG 3193 Nonprofits and Public Policy 3 Credit Hours
(Crosslisted with P SC 3193) Prerequisite: P SC 1113. Examines how nonprofit organizations advocate for their causes through the public policy process as well as how public policy influences nonprofit missions and funding. It also explores more broadly the role of nonprofit organizations in democracy and the various ways they interact with government, including collaborative and conflictual relationships with government. (Irreg.)

NPNG 3910 Nonprofit Internship 1-3 Credit Hours
1 to 3 hours. Prerequisite: junior standing and permission of instructor. May be repeated; maximum credit six hours. Interns observe and participate in functions, processes and actions of nonprofit organizations. This experience can enhance a student's knowledge of the requirements, benefits and lessons of working in the public or non-profit sector. (F, Sp, Su)

NPNG 4033 Leadership & Planning 3 Credit Hours
Prerequisite: NPNG 3033 or permission of instructor. A continuation of nonprofit organization management, with emphasis on board members, volunteers, paid staff, accountability, interactions, risk management, finances, and trending. (Sp)

NPNG 4103 Nonprofit Human Resource Management 3 Credit Hours
Prerequisite: NPNG 2033 and junior standing, or permission of instructor. Provides a comprehensive overview for those interested in entering the fundraising field or learning more about methods, technology and concepts in the development area of the nonprofit sector. The sources of funding and how to apply fundraising strategies will be studied. (Irreg.)

NPNG 4203 Fundraising and Philanthropy 3 Credit Hours
Prerequisite: NPNG 2033 and senior standing or permission of instructor. Provides a comprehensive overview for those interested in entering the fundraising field or learning more about methods, technology and concepts in the development area of the nonprofit sector. The sources of funding and how to apply fundraising strategies will be studied. (Irreg.)

NPNG 4303 Communications and Public Relations in Nonprofit Organizations 3 Credit Hours
Prerequisite: NPNG 2033 and senior standing or permission of instructor. Provides students with the concepts and tools to conduct research and analyses, identify and evaluate target markets, explore opportunities to effectively communicate with new clients, donors and volunteers, and design effective web-based and social media tactic as part of an integrated marketing and communication strategy will be learned. (F)

NPNG 4533 Donor Stewardship and Grant Writing 3 Credit Hours
Prerequisite: NPNG 2033 and NPNG 3033. This course will cover three aspects of nonprofit development work, including database management, grant writing, and special events (Sp)

NPNG 4970 Special Topics/Seminar 1-3 Credit Hours
1 to 3 hours. Prerequisite: Senior standing or permission of instructor. May be repeated; maximum credit nine hours. Special topics or seminar course for content not currently offered in regularly scheduled courses. May include library and/or laboratory research and field projects. (Irreg.)

NPNG 5033 Nonprofits: The Sector and The System 3 Credit Hours
Prerequisites: graduate standing or permission of instructor. Understanding the relationship between government and nonprofits is fundamental for the survival of the sector. Nonprofits implement public policy, receive government funding, respond to natural disasters, and help form legislation. The course includes an examination of broad theoretical, empirical and practical spectrum of nonprofit-public collaborations, conflicts, and resultant policy implications. (Irreg.)

NPNG 5413 Nonprofit Law and Policy 3 Credit Hours
Prerequisites: graduate standing or permission of instructor. Examines how policy influences nonprofits and how nonprofits impact policy. It will address the role of nonprofits in public policy and how laws shape nonprofit involvement by reviewing state and federal policy including legal forms, fundraising regulations, and employee compensation. Students will gain an understanding of nonprofit activities within a basic legal framework. (Irreg.)

NPNG 5701 Nonprofit Fundraising and Grantmaking 1 Credit Hour
Prerequisites: graduate standing or permission of instructor. Assists students in securing resources for nonprofits by understanding techniques for fundraising, conducting prospect research, practicing appropriate stewardship, leading campaigns for various types of giving, writing grants, utilizing technology to facilitate resource development, and implementing creative approaches to fundraising. (Irreg.)

NPNG 5711 Nonprofit Financial Management 1 Credit Hour
Prerequisites: graduate standing or permission of instructor. Introduces financial concepts required for effective management of nonprofit organizations. Offers an opportunity to learn about nonprofit accounting, budget management, financial planning, tax issues, grant compliance, audits, cash flow management, and capital financing. (Irreg.)

NPNG 5721 Nonprofit Human Resources 1 Credit Hour
Prerequisites: graduate standing or permission of instructor. Focuses on the knowledge and skills required by those who manage personnel. The course provides a solid base to understanding human resource management and applying that to work-life situations for those considering a career in management. Also investigates the essential concepts and federal laws that shaped human resource management. (Irreg.)

P SC 1113 American Federal Government 3 Credit Hours
Not accepted for major credit. A study of the structure, organization and powers of the executive, legislative and judicial branches including relationships between state and national governments. Emphasis upon political processes and popular government; elections, political parties, pressure groups, voting behavior. (F, Sp, Su) [III-PSC] .

P SC 2013 Introduction to Political Analysis 3 Credit Hours
Prerequisite: P SC 1113 or department permission; for majors only. Scientific method and the variety of approaches to a science of politics; problems of research design; methods and techniques of systematic political inquiry. (F, Sp)

P SC 2103 Politics in America 3 Credit Hours
Prerequisite: P SC 1113. Focuses on the practice of politics in the United States and the forces and ideas that shape political conflict and determines who wins. The three major national institutions of American government are considered: Congress, the presidency, and the judiciary. Examines their constitutional bases of power, their evolving relationships, and their roles in contemporary policymaking. Also considers how ideas and power relationships influence the shape of political conflict. Contemporary political issues will be integrated into course content. (F)

P SC 2503 Global Politics 3 Credit Hours
Prerequisite: P SC 1113. Introduces sources of continuity and change in world politics. Emphasis is given to the struggle for power and search for peace among state and non-state actors. Additional topics include the relevance of international law, foreign policy decision-making, balance of power, collective security, and moral choices in international politics. (F)

P SC 2603 Governments Around the World 3 Credit Hours
Prerequisite: P SC 1113. Gateway course in political science and international and area studies. Provides an introduction to the varieties of politics and governmental systems around the world. Students will develop skills in comparative analysis to understand why countries have distinct types of government. (F, Sp, Su) [IV-WC] .

P SC 2703 Justice, Liberty and the Good Society 3 Credit Hours
Prerequisite: P SC 1113. An introduction to the literature about the best form of government, how a just and free society should be designed, and what difficulties stand in the way of our pursuit of the good society. Topics may include: the classic idea of a republic, theories shaping American democracy, the theory of equality and liberty, and contemporary ideas for the critical analysis and improvement of democracy. (F, Sp)

P SC 2970 Special Topics 1-3 Credit Hours
Special Topics. 1 to 3 hours. May be repeated; maximum credit nine hours. Special topics course for content not currently offered in regularly scheduled courses. May include library and/or laboratory research, and field projects. (Irreg.)

P SC 3020 Problems in American Government and Politics 1-3 Credit Hours
1 to 3 hours. Prerequisite: 1113 or permission of instructor. May be repeated with change of subject matter; maximum credit nine hours. Will not assume prior knowledge on the part of the students in reference to the topics under examination. The focus is on the national government, including the political processes and policies that relate to it. (F, Sp)

P SC 3023 Law and Courts 3 Credit Hours
Prerequisite: 1113 or permission of the instructor. This is an introduction to the judicial process, origin and sources of law, and the relationship between courts and other sectors of the American political system. It will focus on the criminal justice system, civil justice system, constitutional law, judicial selection, judicial policymaking, and how interest groups use the courts. (F)

P SC 3033 Religion and Politics in America 3 Credit Hours
Prerequisite: 1113. Examines the diverse religious traditions in America and explores their political manifestations. Assesses the religious impact on voting, lobbying, political mobilization and political culture. Particular attention will be paid to the strategic environment in which religious political actors must operate. [IV-WC] .

P SC 3043 Gender, Power and Leadership in Politics and Public Administration 3 Credit Hours
(Crosslisted with WGS 3043) Prerequisite: 1113. Focuses on the relationship between gender, power, leadership, and government in politics and public administration. Causes of under-representation of women in elected office and the bureaucracy are explored. Historical, social, psychological, and organizational barriers are considered. (Irreg.)

P SC 3063 Religion and the American Constitution 3 Credit Hours
Prerequisite: P SC 1113. This course examines the vital role of religion in the American Constitution, its antecedents and contemporary interpretations. (F)

P SC 3073 Immigration Politics 3 Credit Hours
Prerequisite: P SC 1113 or permission of instructor. An examination of the politics of immigration in America. Includes lively debate, in addition to daily discussions of current events involving immigration. Emphasis will be placed upon the development of a unique research project that examines an important question, puzzle, or aspect of immigration in American politics. (Irreg.)

P SC 3083 The Politics of Criminal Justice 3 Credit Hours
Prerequisite: P SC 1113. How does a political community best provide security to its members while also respecting the rights of all of its citizens? This course is an examination of the relationship between political variables and crime rates, police behavior, court dynamics and sentences, and prison practices and functions. (Irreg.)

P SC 3090 Special Topics 1-3 Credit Hours
Prerequisite: 1113 or permission of instructor. May be repeated with change of content; maximum credit nine hours. Topics considered will deal with issues whose subject matter spans two or more subfields of the undergraduate curriculum in political science and/or public affairs and public administration. (Irreg.)

P SC 3093 Minority Political Behavior 3 Credit Hours
Prerequisite: P SC 1113. Examination of racial minority status in American politics. Addresses such broad topics as: racial and ethnic identity; political mobilization; statutory and legal intervention in the electoral process; the politics of immigration, acculturation, and identification; theories of minority representation; and what shapes political behavior among African-Americans, Latinos, Asian Americans, and Native Americans. (Irreg.)

P SC 3113 Bureaucracy and Citizenship 3 Credit Hours
Prerequisite: 1113 or permission of instructor. Focuses upon various aspects of political life in bureaucratic society, including the scope of contemporary public programs and their impact on society, and extent and character of citizens' bureaucratic encounters, administrative pathology, bureaucratic helping, appeals of administrative decisions, bureaucratic accountability and democratic theory, and the future of citizen-bureaucratic relations. (Sp)

P SC 3123 Social Statistics 3 Credit Hours
(Crosslisted with SOC 3123) Prerequisite: SOC 1113 and any General Education Math EXCEPT Philosophy 1113 or Philosophy 3113. Descriptive and inferential statistics as they are used in sociology to analyze survey and macro-level data. Problems of research design and interpretation of analysis in sociological theory are major topics. A grade of C or better in this course is a prerequisite for Sociology capstone courses. (F, Sp, Su)

P SC 3133 Politics and Public Administration 3 Credit Hours
Prerequisite: 1113 and sophomore standing. Examines the concept of the political role of the bureaucracy and the impact of other government institutions on bureaucratic structure, functions and behavior. The role of the bureaucracy in public policy making and the influence of politics on policy implementation is analyzed. (F) [III-SS] .

P SC 3143 U.S. Congress 3 Credit Hours
An introduction to the legislative process, with emphasis upon the United States Congress: the legislative process, committee systems; legislative leadership; the legislator and constituents; lobbyist and interest groups; legislative-executive relations. (Sp)

P SC 3163 The American Presidency 3 Credit Hours
Prerequisite: 1113. Examination of the constitutional, electoral, administrative and political aspects of the contemporary American presidency; ending with an assessment of its capabilities in the context of its demands. (F)

P SC 3170 Problems in Public Administration 1-3 Credit Hours
1 to 3 hours. Prerequisite: five hours of political science or three hours of another social science, or junior standing and permission of instructor. May be repeated with change of subject matter; maximum credit nine hours. Special topics and/or problems in the field of public administration not covered in the regular curriculum or by supervised individual study. The course will involve readings appropriate to the subject matter and requires completion of a substantial paper. Additional requirements will be covered by the instructor in the syllabus. (Irreg.)

P SC 3173 Administration & Society 3 Credit Hours
Prerequisite: P SC 1113; Majors only. This course introduces you to public administration. We focus on understanding the purpose, structures, functions, and challenges related to operating publicly funded programs and how these dynamics relate to organizations in the public, non-profit and private sectors. (F, Sp)

P SC 3183 Politics of Government Budgeting 3 Credit Hours
Prerequisite: P SC 1113. Provides an introduction to budgeting and the budgetary process in American government. Budgeting decision-making about government revenues and expenditures will be presented. (Sp)

P SC 3193 Nonprofits and Public Policy 3 Credit Hours
(Crosslisted with NPNG 3193) Prerequisite: P SC 1113. Examines how nonprofit organizations advocate for their causes through the public policy process as well as how public policy influences nonprofit missions and funding. It also explores more broadly the role of nonprofit organizations in democracy and the various ways they interact with government, including collaborative and conflictual relationships with government. (Irreg.)

P SC 3203 Sexuality, Gender, and the Law 3 Credit Hours
Prerequisite: P SC 1113 or permission of the instructor. The course will examine a number of the most politically significant legal debates regarding gender and sexuality. Though the issues covered will vary by semester, they will include many of the following: discrimination on the basis of gender and sexual orientation, reproductive rights, the regulation of pornography, same-sex marriage, sexual harassment in the workplace, and the right to sexual privacy. (Irreg.)

P SC 3213 Law, Politics, and Society 3 Credit Hours
Prerequisite: 1113 or permission of instructor. Examines how courts and other political actors use law to solve problems and how judicial decisions incorporate legal and political considerations. It explores how law shapes or alters the political community, the extent that law changes to fit needs of society, and the role of politics in interpretation of law. (Sp)

P SC 3220 Topics in Public Policy 1-3 Credit Hours
1 to 3 hours. Prerequisite: 1113. May be repeated with change of content; maximum credit six hours. Research and investigation on selected topics in public policy. (Irreg.)

P SC 3223 Making Public Policy 3 Credit Hours
Prerequisite: P SC 1113; Majors and Minors only. Provides a rigorous introduction to the important components, concepts, and dominant theories of public policy in the context of federal, state, local, and foreign policymaking processes in the United States. (Irreg.)

P SC 3233 Environmental Policy and Administration 3 Credit Hours
Prerequisite: 1113. Characterizes the evolution of public sector involvement in protection of the environment; addresses current issues associated in environmental protection including administrative efficiency and effectiveness and intergovernmental relations, and assesses potential solutions to emerging environmental problems. (F)

P SC 3263 Social Welfare 3 Credit Hours
Prerequisite: ENGL 1213 or EXPO 1213. Introduction to the basics of welfare policy in the United States. To do so, we will review the history of this policy area from early efforts in Western Europe up to the changes made by, and the impacts of, the Personal Responsibility and Work Opportunity Act of 1996 which did away with the Aid to Families with Dependent Children (AFDC) program and ushered in TANF (Temporary Assistance to Needy Families). There will be a specific focus on the logic behind policy components (to include examining competing theories of human behavior and how they relate to relief efforts), their evolution, and the role of the political environment in fostering change. (Sp)

P SC 3273 Privatization 3 Credit Hours
Prerequisite: P SC 1113 or permission of instructor. Exposes students to competing theories regarding the privatization of publicly provided services (such as fire and police protection, road construction and maintenance, refuse collection, child protective services, and maintenance of public parks) with a particular focus on the supposed benefits and problems. (F)

P SC 3313 Urban Government and Politics 3 Credit Hours
Structure and function of urban governments and analysis of politics in urban areas. (F)

P SC 3323 State Government 3 Credit Hours
The organization, structure, functions, and administration of American state and local governments; federal-state relations; constitutions and legal systems; legislative, executive, and judicial departments; a study in the political process; problems of metropolitan areas; fiscal and administrative systems. (F)

P SC 3333 Civic Engagement 3 Credit Hours
Prerequisite: PSC 1113. This course is an introduction to civic engagement. Students will learn about actions everyday citizens take to improve the world around them. Readings, lectures, and discussions cover who participates, who doesn't, and why; the evolution of civic engagement over time; the effectiveness of specific mobilization strategies; and how local, statewide, federal, and international societies are changed by such efforts. (Irreg.)

P SC 3403 Interest Groups and Social Movements 3 Credit Hours
Role of interest groups and collective action in the political process; theory of collective action and development of American pressure groups; group organization and internal behavior; patterns of external behavior; collective action and foreign political systems; and organized interests and democratic government. (F)

P SC 3413 American Political Parties 3 Credit Hours
A descriptive and critical examination of the political processes in the United States, with special reference to the role and organization of political parties and their relationship to voter behavior and the popular control of government. (Irreg.)

P SC 3423 Public Opinion 3 Credit Hours
Relies on three basic themes as a framework for the study of public opinion: coalitions, elites and masses. More specific subjects studied include political socialization, the parties and the media. Students may not take both P SC 3423 and P SC 4013 for credit. (Irreg.)

P SC 3433 Voters and Campaigns 3 Credit Hours
Prerequisite: 1113. Covers some of the literature on voting behavior and political campaigns: political socialization; political participation; election studies; influence on voting such as party, candidate, issues, and group affiliations; the legal framework and impact of reform; election outcomes and their policy import. Coverage of the campaign process includes party and interest group activity, campaign financing, strategy, the media, and campaign reform. (Irreg.)

P SC 3440 Mentored Research Experience 3 Credit Hours
0 to 3 hours. Prerequisites: ENGL 1113 or equivalent, and permission of instructor. May be repeated; maximum credit 12 hours. For the inquisitive student to apply the scholarly processes of the discipline to a research or creative project under the mentorship of a faculty member. Student and instructor should complete an Undergraduate Research & Creative Projects (URCP) Mentoring Agreement and file it with the URCP office. Not for honors credit. (F, Sp, Su)

P SC 3443 Mass Media and American Politics 3 Credit Hours
Prerequisite: 1113. Role of mass media in American politics including origin and development of relationship between press and politics, how the press covers politics, effects of mass media on public opinion, political elites, and institutions. (Irreg.)

P SC 3483 Campaign Management 3 Credit Hours
Prerequisite: departmental permission and P SC 1113. Addresses practical aspects of campaign management including information about the decisions campaign managers make in gathering information, raising money, harnessing technology, honing and disseminating messages, and targeting volunteers/voters in the context of aiding a candidate in running for/winning office. Explores practical lessons on campaign management and provides hands-on training through the use of existing electoral databases and on-campus resources. (Irreg.)

P SC 3493 Congress: Politics, Policy and the Constitution 3 Credit Hours
Prerequisite: P Sc 1113. Introduces students to theory and research on the role of the Congress under the U.S. Constitution and the relationship of the Congress to the coordinate branches of the federal government, as well as to the state governments in interpreting and applying the Constitution. Experience in original archival research on the politics, policies and constitutional struggles of the Congress through the Carl Albert Congressional Research & Studies Center will be gained. (Irreg.)

P SC 3533 International Organizations and Law 3 Credit Hours
Prerequisite: P SC 1113 and sophomore standing. This course examines the origins, the sources and the impact of International law in a globalized world. It will begin by examining theories of international law. linking these with different world views of international relations. The course will also focus on the state of international law in a range of areas, as well as how international organizations shape international law. (Irreg.)

P SC 3543 United States-Latin American Relations 3 Credit Hours
Prerequisite: Sophomore standing or departmental permission. This course studies both the historical development and current problems of conflict and cooperation between the United States and the countries of Latin America, and the ways their interactions affect each country's security, politics, economy, society, and culture. (Irreg.) [IV-WC].

P SC 3550 Topics in International Relations 1-3 Credit Hours
1 to 3 hours. Prerequisite: 1113 or permission of instructor. May be repeated with change of content; maximum credit nine hours. Systematically explores contemporary problem areas in international relations. Will not assume prior knowledge on the part of the students in reference to the topics under examination. Meets in a seminar format where emphasis will be placed on classroom presentations and extensive research papers. (Irreg.)

P SC 3553 International Political Economy 3 Credit Hours
Prerequisite: 1113. Focus on patterns, processes, and problems of international trade, monetary, technological, and investment relations. Deals with the roles played by key international organizations in managing conflict and cooperation among states. Students learn to apply theoretical approaches in analyzing issues in the global economy. (F) [IV-WC] .

P SC 3563 United States Diplomatic History 3 Credit Hours
Prerequisite: none. A survey of American diplomatic history from the War for Independence to the present, emphasizing relations with major European, Latin American and Far Eastern countries. [IV-WC] .

P SC 3573 Great Power Politics 3 Credit Hours
Prerequisite: P SC 1113. Explores the meaning of power in politics and diplomacy, relations among great powers in different historical settings, arguments for and against realism as a theory of international politics, different strategies for projecting power, whether moral choices are relevant in the realm of power politics, and the importance of geopolitics in the 21st century map of world affairs. (Irreg.)

P SC 3583 Masters & Commanders: Wartime Strategy and Statecraft 3 Credit Hours
Prerequisite: P SC 1113. Based on Andrew Roberts' Masters And Commanders: How Roosevelt, Churchill, Marshall and Alanbrooke Won the War in the West. Focuses on debates between the four principals and senior Allied officials in shaping the grand strategy of the West during the Second World War. Attention is devoted to disagreements about military necessities and about the structure of the postwar world. (Sp)

P SC 3600 Topics in Comparative Politics 1-3 Credit Hours
1 to 3 hours. Prerequisite: 1113 or permission of instructor. May be repeated with change of content; maximum credit nine hours. Will examine contemporary issues in politics and government around the world. Meets in a seminar format where emphasis will be placed on classroom presentations and research. (Irreg.)

P SC 3633 Politics of Authoritarian Regimes 3 Credit Hours
Prerequisite: P SC 1113 and sophomore standing. This course invites students to think critically about non-democratic political systems. We explore some important authoritarian countries/regions and explore how autocrats there come to power and maintain power. We consider debates about whether insitutions- such as political parties and legislatures- matter in authoritarian regimes. Finally, we examine the tools of authoritarian governance, including repression, cooptation, redistribution, propaganda and censorship. (F)

P SC 3643 Democracies and Democratization: A Comparative Inquiry 3 Credit Hours
Prerequisite: 1113. Studies the theory, history, causes, and prospects for democracy in the world, beginning with ancient Greece and ending with the challenges of democracy and democratization in countries around the world today. Although primarily a social science course, questions about the philosophical underpinnings of democracy are also raised. (Sp) [IV-WC].

P SC 3653 Government and Politics of Latin America 3 Credit Hours
Prerequisite: 1113 or permission of instructor. General survey of structure, organization and operation of Latin American governments. Problems of dictatorship, underdevelopment, social reform and relations with the United States are covered. (F) [IV-WC] .

P SC 3663 Politics of the Middle East 3 Credit Hours
Prerequisite: 1113 or permission of instructor. This course surveys the developments in current domestic politics in Middle Eastern countries. It will focus on the process of state building, great power politics, Islam and political ideologies, economic crises, and regime stability and change. (Irreg.)

P SC 3703 From Plato to Machiavelli, the Classic Art of Politics 3 Credit Hours
Prerequisite: 1113 and sophomore standing. Study of the origins of political science or political philosophy in the thought of classical antiquity and of the continuing influence of the classic works. Topics may include: Plato and Aristotle's attempt at a systematic political science; Thucydides on democracy and war; the interaction of religion and politics; and the early modern rebirth of the classical republican era. (F) [IV-WC] .

P SC 3713 The Idea of a Liberal Society 3 Credit Hours
Prerequisite: 1113 and sophomore standing. Study of the major works of modern political thought that inspired the idea of a rights-oriented liberal society. Readings vary, but may include Thomas Hobbes and John Locke, their followers and critics in later centuries (such as Montesquieu, Rousseau, Kant, Hegel, and Mill), and those who later subjected the liberal idea to fundamental criticism (Marx, Nietzsche, and others). (Sp) [IV-WC] .

P SC 3723 Foundations of American Politics 3 Credit Hours
An examination of the principal issues and ideas of the American colonial, revolutionary and founding periods and their influence on, and relevance to contemporary American politics.

P SC 3763 Field Research Methods and Community Engagement: The Oklahoma City Exit Poll 3 Credit Hours
Prerequisite: P SC 1113. Trains students as field researchers for an election exit poll. In addition to learning how to design relevant and valid questionnaire items, students will participate as survey enumerators on the day of the election. As part of the course students will receive CITI certification demonstrating their expertise as researchers. (Irreg.)

P SC 3843 Education Policy 3 Credit Hours
Prerequisite: P SC 1113. This course will provide a thorough overview of the actors, institutions, and issues relevant to contemporary K-12 education policy in the United States. In providing such an overview, the course will address both longstanding areas of debate, such as the primary purpose of education and the financing of schools, as well as hot-button issues of the day. (Irreg.)

P SC 3873 Transnational Politics 3 Credit Hours
Prerequisite: P SC 1113. Transnational Politics is about political phenomena that not only cross national borders, but transcend them. This includes the transnationalization of production by multinational companies; the transnationalization of culture by international advocacy organizations; and the transnationalization of insurgency by "terrorist" groups. We will evaluate the processes driving these trends, and consider their implications for both domestic and international politics. (Irreg.)

P SC 3910 Government Internship 2-3 Credit Hours
2 to 3 hours. Prerequisite: good academic standing with 45 semester hours completed, including nine hours of political science; permission of instructor. May be repeated; maximum credit six hours. Interns observe and participate in the functions, processes and actions of governmental institutions at the federal, state and local level. Grade of S/U based on completion of directed readings, an academic research paper, performance reports. (F, Sp, Su)

P SC 3923 World Happiness 3 Credit Hours
(Crosslisted with IAS 3923) Prerequisite: Junior standing or permission of instructor. This course explores and compares, in detail, the breadth and expression of global happiness philosophical concepts in the east and west leading to modern global and societal well-being measures and well-being policies in nations around the world. (Irreg.)

P SC 3943 Campaigns Through Film 3 Credit Hours
Prerequisite: P SC 1113. Through the lens of documentary films, this course will examine various facets of campaigning for political office in the United States. (Irreg.)

P SC 3953 Bhutan Democracy and Happiness 3 Credit Hours
Prerequisite: P SC 1113. This is a comparative politics course that examines comparative theories of democratization and happiness with Gross National Happiness (GNH) policy and democratization in Bhutan. Incorporated in the examination of GNH is an examination of other non-Gross Domestic Product global measures of societal progress such as the Happy Planet Index, Human Development Index, and United Nations Millennial Development Goals. (Irreg.) [IV-WDC].

P SC 3960 Honors Reading 1-3 Credit Hours
1 to 3 hours. Prerequisite: admission to Honors Program. May be repeated; maximum credit six hours. Will consist of topics designated by the instructor in keeping with the student's major program. The topics will cover materials not usually presented in the regular courses. (F, Sp, Su)

P SC 3970 Honors Seminar 1-3 Credit Hours
1 to 3 hours. Prerequisite: admission to Honors Program. May be repeated: maximum credit six hours. The projects covered will vary. The content will deal with concepts not usually presented in regular coursework. (F, Sp)

P SC 3980 Honors Research 1-3 Credit Hours
1 to 3 hours. Prerequisite: admission to Honors Program. May be repeated; maximum credit six hours. Will provide an opportunity for the gifted Honors candidate to work at a special project in the student's field. (F, Sp, Su)

P SC 3990 Independent Study 1-3 Credit Hours
1 to 3 hours. Prerequisite: one course in general area to be studied; junior standing; permission of instructor and department. May be repeated; maximum credit six hours. Through a written contract, independent study may be arranged for a topic not currently offered in regularly scheduled courses. Independent study may include library and/or laboratory research and field projects. (F, Sp, Su)

P SC 4020 Problems in American Government 1-3 Credit Hours
1 to 3 hours. May be repeated with change of content; maximum credit nine hours. Focus on the national government, including the political processes and policies that relate to it. (Irreg.)

P SC 4023 Community Scholars 3 Credit Hours
Prerequisite: P SC 1113. Service-learning course allows students to become participants in community activities and organizations designed to address community needs. At the same time, students develop skills and abilities for critical thinking, group problem-solving, and effective civic engagement. Combines community service and academic learning to examine how local government agencies work along side community organizations, mainly nonprofit organizations, to meet the needs of their community. (F)

P SC 4033 Capitol Scholars: A Service Learning Course 3 Credit Hours
Prerequisite: P SC 1113 and permission of instructor. The course uses service-learning and weekly seminars to focus on institutions, policy-making and politics in legislative settings. (Sp)

P SC 4043 Public Policy Implementation 3 Credit Hours
(Slashlisted with P SC 5043) Prerequisite: P SC 1113. This course examines how public laws are implemented. It investigates actors, institutions and processes influential in decisions and actions regarding public program delivery. No student may earn credit for both 4043 and 5043. (Irreg.)

P SC 4083 Strategies in Politics and Public Policy 3 Credit Hours
(Slashlisted with P SC 5083) Prerequisite: P SC 1113. Politics involves the interaction of people who seek to use mechanisms of collective choice to further their goals. This undergraduate course focuses on how political institutions translate the preferences of individuals into social choices. What strategies can individuals employ to influence social choices? This class addresses these questions through theories of individual decision making, social choice, and collective action. No student may earn credit for both 4083 and 5083. (Irreg.)

P SC 4093 Capstone Seminar in Political Science 3 Credit Hours
Prerequisite: Majors only, P SC 1113, PSC 2013, senior standing and permission of department. Capstone seminar for majors in political science. Explores topics in political science for students with substantial background in the discipline and includes a significant writing component. Specific subtitles will vary. (F, Sp) [V].

P SC 4143 Policy/Program Evaluation 3 Credit Hours
Prerequisite: P SC 1113. Introduces the planning and implementation of a variety of evaluation types and methods. Considers the utilization of findings in a political environment. (Irreg.)

P SC 4193 The Profession of Public Management 3 Credit Hours
Prerequisite: 1113 or permission of instructor. Open to undergraduate students only. Focuses on the internal administrative processes of public agencies, concentrating on the generic management functions of planning, directing and controlling as they relate to the development and implementation of public policy programs. (Irreg.)

P SC 4203 Capstone Seminar in Public Affairs and Administration 3 Credit Hours
Prerequisite: Majors only, PSC 1113, PSC 2013, senior standing, and permission from department; May be repeated once with change of content. The focus and subtitle will vary. Develops the ability to analyze and interpret the subject matter; contains a substantial writing component. (F, Sp) [V].

P SC 4220 Problems in Public Policy 1-3 Credit Hours
1 to 3 hours. Prerequisite: 1113 or permission of instructor. May be repeated with change of content; maximum credit nine hours. Research and investigation on selected problems in the field of public policy. (Irreg.)

P SC 4253 Theories of the Policy Process 3 Credit Hours
Prerequisite: P SC 1113 and Junior standing or permission of instructor. In this course, we will review the concepts and theories that underlie the study of public policy in political science. We will not focus on specific policy areas (e.g., environmental or health policy), but rather on lenses and techniques, which are argued to be applicable to all policy domains, to understand why and how policies are enacted, changed, and/or terminated. (F)

P SC G4263 American Constitutional Law I: Governance 3 Credit Hours
Prerequisite: P SC 1113. Chronological exploration of the role of constitutional principles and the United States Supreme Court in the historical and contemporary political struggles concerning the structure, distribution, and uses of national governmental power in the American polity. Examines the Constitution's allocation of powers vertically between the national government and the states, and horizontally among the legislative, executive, and judicial branches. (F)

P SC G4283 American Constitutional Law II: Civil Rights and Civil Liberties 3 Credit Hours
Prerequisite: P SC 1113 or permission of instructor. Investigates the character, function, and enforcement of civil rights and civil liberties in the American constitutional system. (Sp) [IV-WC] .

P SC 4323 Political Communication 3 Credit Hours
(Crosslisted with COMM 4323) Prerequisite: COMM 1113 or P SC 1113 and junior standing or permission of instructor. This course considers the role of communication in democracy. Topics include the kinds of information necessary to sustain democratic systems, the ways in which citizens are informed about public affairs, the function of news media in democratic systems, and how citizens, media and political leaders interact. (F, Sp)

P SC 4493 Architecture of Democracy 3 Credit Hours
(Slashlisted with P SC 5493; Crosslisted with ARCH 4493) Prerequisite: P SC 1113 or permission of instructor. This course explores how space, place and values come together in public spaces, by reviewing the evolution of architecture as it relates to human governance; introducing methods for assessing and designing physical space as an expression of human values; examines the social meaning and behavioral impact of spaces; studies the expression of democratic values in public spaces. No student may earn credit for both 4493 and 5493. (Irreg.)

P SC 4903 Social Movement Theory 3 Credit Hours
(Slashlisted with P SC 5903) Prerequisite: P SC 1113. This course will focus on major political theories that assess social movements and public policymaking. It will also examine when and why social movements occur, who joins or supports social movements, how social movements are organized, what are the impacts of social movements, the role of the state and social movements, and why social movements decline. No student may earn credit for both 4903 and 5903. (Irreg.)

P SC 4960 Directed Readings 1-4 Credit Hours
1 to 4 hours. Prerequisite: good standing in University; permission of instructor and dean. May be repeated; maximum credit four hours. Designed for upper-division students who need opportunity to study a specific problem in greater depth than formal course content permits. (Irreg.)

P SC 4970 Special Topics/Seminar 1-3 Credit Hours
1 to 3 hours. Prerequisite: Senior standing or permission of instructor. May be repeated; maximum credit nine hours. Special topics or seminar course for content not currently offered in regularly scheduled courses. May include library and/or laboratory research and field projects. (Irreg.)

P SC 4990 Independent Study 1-3 Credit Hours
1 to 3 hours. Prerequisite: three courses in general area to be studied; senior standing; permission of instructor and department. May be repeated; maximum credit six hours. Through a written contract, independent study may be arranged for a topic not currently offered in regularly scheduled courses. Independent study may include library and/or laboratory research and field projects. (F, Sp, Su)

P SC 5003 Introduction to Public Administration 3 Credit Hours
Prerequisite: graduate standing. An introductory graduate seminar surveying the field of public administration and its role and position in contemporary government, providing a basis from which to undertake advanced studies of theoretical and substantive nature. Attention will be given to key themes in past and present of mainstream public administration, such as the foundation, personnel, organization, and policies of government. (F, Sp, Su)

P SC 5013 History and Theory of Urban Planning 3 Credit Hours
(Crosslisted with RCPL 5013) Prerequisite: open to seniors in social science departments, civil engineering and architecture, and to graduate students in regional and city planning. An introductory course on the history and theory of contemporary planning, focusing on the physical, social, institutional and economic structure and dynamics of human settlements, and on the role and responsibilities of the professional planner. (F)

P SC 5023 Problems in American Government 3 Credit Hours
Prerequisite: 12 hours in political science or senior standing and permission of instructor. May be repeated with change of content; maximum credit nine hours. Content varies with instructor. The focus is on the national government, including the political process and policies that relate to it. (Irreg.)

P SC 5033 Foundations of Nonprofit Management 3 Credit Hours
Prerequisite: graduate standing. Introduces broad theories and managerial practices in the field of nonprofit management. The main foci of the course are to provide theoretical foundations of the nonprofit sector by examining its nature, scope, legal frameworks, functions, and policy implications and to examine various managerial challenges nonprofit organizations face due to their unique sector positions and how they respond to those challenges. Challenges are multifaceted (leadership, financial, personnel, performance evaluation and accountability, governmental relations) and the course will provide several case studies for students to review and seek potential solutions in individual as well as group settings. (Irreg.)

P SC 5043 Public Policy Implementation 3 Credit Hours
(Slashlisted with 4043) Prerequisite: graduate standing. This course examines how public laws are implemented. It investigates actors, institutions and processes influential in decisions and actions regarding public program delivery. No student may earn credit for both 4043 and 5043. (Irreg.)

P SC 5053 Agenda-Setting in Public Policy 3 Credit Hours
Prerequisite: graduate standing. This class will focus on agenda-setting and policy change - that is, how policy agendas are determined and their impact on policy change. In so doing, we will examine the role that various actors play (including public administrators), the impact of focusing events, political institutions, and the media. (Irreg.)

P SC 5063 Nonprofits and the Public Sector Relations 3 Credit Hours
Prerequisite: graduate standing. Explores various issues that arise from collaborative efforts between the nonprofit and government sectors in delivering public services. Includes an examination of a nonprofit-public sector collaboration and partnership, especially the nature of nonprofit-public sector strategic alliances, the dynamics of service delivery networks, and the effectiveness of collaborations. The role of nonprofits and the policy implications in social service contracting are examined. (Irreg.)

P SC 5083 Strategies in Politics and Public Policy 3 Credit Hours
(Slashlisted with P SC 4083) Prerequisite: graduate standing. Politics involves the interaction of people who seek to use mechanisms of collective choice to further their goals. This course focuses on how political institutions translate the preferences of individuals into social choices. What strategies can individuals employ to influence social choices? The class addresses these strategies through theories of individual decision making, social choice, and collective action. No student may earn credit for both 4083 and 5083. (Irreg.)

P SC 5093 Grants and Contracts 3 Credit Hours
Prerequisite: graduate standing. This course discusses how to write a strong grant or contract proposal along with strategies for successful implementation of the resulting project. The focus will be on project development and project management for public and nonprofit sectors. (Irreg.)

P SC 5103 Organizations: Design, Structure and Process 3 Credit Hours
Prerequisite: full graduate standing or permission of instructor. Analyzes large, complex organizations, particularly governmental units and other public sector agencies. Attention will be given to the principal theoretical models for their design and structure. Also seeks to understand system-subsystem relationships in the processes of decision making, communication, influence, leadership and technology. (F)

P SC 5113 Federalism and Intergovernmental Relations 3 Credit Hours
Covers the origins, development, and operational aspects of federalism in the U.S. Intergovernmental relations as the dynamics of federalism are studied as they impact on decision-making, administrative and fiscal patterns. Decentralization and reorganization are analyzed as they affect the administration of national programs. (Sp)

P SC 5123 The Making of American Foreign Policy 3 Credit Hours
A study of American policy formulation with its problems and limitations. Current American foreign policies and alternate courses of action are examined critically. (Irreg.)

P SC 5133 Strategic Planning and Performance Measurement 3 Credit Hours
Prerequisite: graduate standing or permission of instructor. Introduces students to strategic planning, performance measurement, and benchmarking in the public sector. Provides an overview of strategic management and illustrates the development, implementation and reformulation of public policy and operational strategy. Emphasis on the changes in an organization's environment. (Irreg.)

P SC 5143 Program Evaluation and Applied Policy Analysis 3 Credit Hours
Prerequisite: graduate standing. Methodology of planning and evaluating government policies and programs. Emphasizes research design, economic analysis of public policies and programs, and methods for handling threats to validity of research results. (F)

P SC 5170 Problems in Public Administration 2-3 Credit Hours
2 to 3 hours. May be repeated; maximum credit six hours. Research and investigation on selected problems of public administration. Some alternative subjects; administrative theory and organizational theory; bureaucracy; organization and management; government corporations; administrative policy making; responsibility and accountability. (Irreg.)

P SC 5213 Risk, Public Policy, and Law 3 Credit Hours
Prerequisite: graduate standing. This seminar will focus on how concepts of risk serve to justify and shape public policies, legal rules, and risk management practices. It will introduce some of the primary methods for analyzing potentially risky policies and managing risk. We will begin with a focus on the definition of risk as it applies to public policy, and as it has been used to analyze and inform policies and laws designed to address risks. We will then turn to the differences between formal assessments of risk and the "perceived risks" and social, political and institutional responses that typically drive public policy. These concepts will then be applied to a set of specific cases in current public policies that involve the intersection of environmental, energy, natural disaster, and security concerns. (Irreg.)

P SC 5233 Health Policy 3 Credit Hours
Prerequisite: graduate standing. This course is designed to provide students with a clear understanding of the nature and dynamics of health policy making and administration in the United States. (Irreg.)

P SC 5243 Managing Public Programs 3 Credit Hours
Introduces MPA students to the general principles of management as they are applied in the public sector. Topics include: systems theory, systems design (PERT), organization design, techniques of supervision, public sector labor relations, public sector personnel practices, agency interface with political actors in the environment. (Irreg.)

P SC 5253 Human Resource Administration 3 Credit Hours
An analysis of the structure and role of manpower in all levels of U.S. government, focusing on the development of the public service, manpower planning, unionization of public employees and recent trends in public personnel relations. (Sp)

P SC 5263 Congress in the Political System 3 Credit Hours
Prerequisite: graduate standing or permission of instructor. Empirically based course considering United States Congress and its role in American political system; examination of relationships between Congress and other institutions and actors. Possible topics include: Congress and the Presidency, interest groups, and lobbyists; Congress and Supreme Court; Congress and foreign policy; Congress and executive bureaus. (F)

P SC 5273 Law, Courts, and Social Change 3 Credit Hours
Prerequisite: Graduate Standing. This course will consider some of the central ways in which law, politics, and society intersect, examining law's ability to constrain behavior and belief; the relation between law and power; the use of rights to mobilize and empower minority groups; the practice and culture of litigation. The theoretical inquiry will be grounded in the study of specific social movements. (Sp)

P SC 5283 Problems in Law and the Constitution 3 Credit Hours
Content varies. Intensive analysis of specific problems in legal or constitutional theory. Topics could include: Slavery and the constitution, capitalism and constitutional order, constitutional crisis and failure, law and morality, jurisprudence. (Irreg.)

P SC 5293 Administration, Ethics and American Government 3 Credit Hours
Prerequisite: graduate standing. An exploration of the role of ethics in American government, especially in public administration. Topics to be studied include codes of professional ethics for administrators, ethics and constitutionalism, law and ethics, and the ethical implications of differing approaches to administrative work and to democracy. (Irreg.)

P SC 5343 Public Policy and Inequality 3 Credit Hours
Prerequisite: graduate standing or permission of instructor. Explores alternative definitions of equality and their implications in terms of public policy. Specific topics include the role of issue definition and agenda-setting in policy formation, the causes and politics of inequality, the difficulties in measuring inequality, and institutional dynamics that exacerbate or ameliorate inequality. (F)

P SC 5353 State and Local Public Finance and Budgeting Systems 3 Credit Hours
(Crosslisted with RCPL 5353) Prerequisite: graduate standing or permission. An overview of the process and methods for local capital improvement programs and capital budget preparation, and an examination of the relationships between local development policies and fiscal decision making, including revenue potential. (CE)

P SC 5363 Public Financial Management 3 Credit Hours
Prerequisite: graduate standing or permission of instructor. Introduces students to important concepts, procedures, and skills associated with managing public monies. Major topics include government accounting, debt management, forecasting, cash management, and capital budgeting. (Irreg.)

P SC 5373 Education Policy 3 Credit Hours
Prerequisite: graduate standing. This course is designed to give students an overview of the major policy issues in primary, secondary, and higher education. Special attention will be given to how these issues relate to prominent theories of the policy process. (Irreg.)

P SC 5383 Survey of Political Communication 3 Credit Hours
(Crosslisted with COMM 5383) Prerequisite: graduate standing. Embraces the premise that meaningful democracy requires an effective political communication system. Examines some of the tensions between the requirements of democracy and the forms of communication that have emerged to meet them, exploring the roles of political leaders, citizens, and the mass media in the evolution of a democratic political information system. (Irreg.)

P SC 5400 Problems in Political Behavior 2-3 Credit Hours
2 to 3 hours. Prerequisite: graduate standing, qualified senior by permission of instructor. May be repeated; maximum credit six hours. Content varies, representative topics would include interdisciplinary contributions to the study of political behavior, political socialization, decision making, voting behavior, belief systems, political violence, personality and politics and political culture. (Irreg.)

P SC 5423 Mass Politics: Public Opinion, Voting, Realignment 3 Credit Hours
A survey of the literature on public opinion, voting behavior and realignment (or electoral change). Additional topics may include political socialization, participation and elite-mass interactions. (Irreg.)

P SC 5433 Constitutional Law and Politics 3 Credit Hours
Prerequisite: Graduate standing. Examines the U.S. Constitution, its development and interpretation. Attention is given to understanding how the U.S. Supreme Court interacts with other governing institutions and policy makers. Provides a foundation for the different methodological approaches to studying constitutionalism, courts, and judges. Explores judicial behavior, the courts, and public opinion. (Sp)

P SC 5493 Architecture of Democracy 3 Credit Hours
(Slashlisted with P SC 4493; Crosslisted with ARCH 5493) Prerequisite: Graduate standing or permission of instructor. This course explores how space, place and values come together in public spaces, by reviewing the evolution of architecture as it relates to human governance; introducing methods for assessing and designing physical space as an expression of human values; examining the social meaning and behavioral impact of spaces; and studying the expression of democratic values in public spaces. No student may earn credit for both 4493 and 5493. (Irreg.)

P SC 5513 International Relations Theory 3 Credit Hours
Overview and appraisal of the state of the field of international relations. Primary emphasis will be placed on scope and method issues and on a review of theoretical attempts to explain general and specific aspects of international relations. (Irreg.)

P SC 5550 Problems in International Relations 2-3 Credit Hours
2 to 3 hours. May be repeated; maximum credit six hours. Analysis of current international conflicts and problems with study of possible solutions. May include study of the role and current problems of the United Nations. (Irreg.)

P SC 5600 Problems in Comparative Government 2-3 Credit Hours
2 to 3 hours. May be repeated; maximum credit six hours. Content varies, but involves systematic comparative treatment of such central themes as the transitional society, change and revolution, modernization, political groups, constitutionalism, and bureaucracy. (Sp)

P SC 5603 World Happiness Policy and Theory 3 Credit Hours
Prerequisite: Graduate Standing. This course explores and compares at the graduate student level, in detail, the breadth and expression of global happiness philosophical concepts in the east and west leading to modern global and societal well-being measures and well-being governmental policies in nations around the world. (Irreg.)

P SC 5653 Democracies and Democratization 3 Credit Hours
Prerequisite: graduate standing or permission of instructor. Examines the historical sources of modern democracy, the causal factors underlying the genesis and survival of democracy, the dynamics of democratic breakdowns and transitions from authoritarian rule, and the problems of democratic regime consolidation and quality. (Irreg.)

P SC 5683 Politics in Latin America 3 Credit Hours
Prerequisite: graduate standing or permission of instructor. Covers recent approaches to understanding politics in Latin America, with an emphasis on questions of transitions to democracy and regime stability, the nature of democratic rule, and the role of political institutions, the economy, and the military. (F)

P SC 5693 Global Urban Politics & Theory 3 Credit Hours
Prerequisite: Graduate standing. The course will examine differing theories related to power and influence in global urban governance and politics. We will also examine broader visions and proposals to revitalize and enhance global urban living. Finally, we will consider the current state of global urban politics and where it might go in the future. (Irreg.)

P SC 5803 Emergency Management 3 Credit Hours
Prerequisite: graduate standing. Large scale emergency events (including natural disaster, technological risks, and terrorist attacks) create novel challenges for our political system. This course will review the basic logic of our emergency management policy system along with the basic skills needed to succeed as an emergency manager. (Irreg.)

P SC 5903 Social Movement Theory 3 Credit Hours
(Slashlisted with P SC 4903) Prerequisite: Graduate standing. This course will focus on major political theories that assess social movements and public policymaking. It will also examine when and why social movements occur, who joins or supports social movements, how social movements are organized, what are the impacts of social movements, the role of the state and social movements, and why social movements decline. No student may earn credit for both 4903 and 5903. (Irreg.)

P SC 5910 Government Internship 2-8 Credit Hours
2 to 8 hours. Prerequisite: 15 hours of political science or 24 hours of social science. May be repeated; maximum credit eight hours. (F, Sp, Su)

P SC 5913 Introduction to Analysis of Political and Administrative Data 3 Credit Hours
Prerequisite: Graduate standing, majors only. Presents an introduction to the foundations and use of quantitative methods in political science/public administration. Topics covered include: conducting systematic research in political science/public administration, measurement theory, bivariate analysis, hypothesis testing and statistical inference. A student may not receive credit for this course and P SC 5923. (F)

P SC 5923 Introduction to Analysis of Political Data 3 Credit Hours
Prerequisite: Graduate standing and departmental permission. Introduces research methods and statistical analysis for political science, including basic statistics. Students put these elements into practice by developing a basic research project. Oriented toward development and utilization of quantitative procedures and interpretation of results, instead of theoretical issues and the mathematical derivation of formulas. A student may not receive credit for this course and P SC 5913. (F)

P SC 5933 Intermediate Analysis of Political Data 3 Credit Hours
Prerequisite: 5913; 5000-level prerequisite. Continues the study of the foundations and use of quantitative methods in political science. Topics covered include: probability theory, distribution theory, control table analysis, analysis of variance and correlation and regression analysis. (Sp)

P SC 5940 Advanced Research Methods: Special Topics 1-3 Credit Hours
1 to 3 hours. Prerequisite: 5913 or permission of instructor. May be repeated with change of subject matter; maximum credit six hours. Provides introduction into advanced qualitative or quantitative analytical methods for students who will pursue a career in research. Topics will vary but may include such methodologies as ethnographic, cultural, discriminant, or factor analysis. (Irreg.)

P SC 5950 Research Problems 2-5 Credit Hours
2 to 5 hours. May be repeated with change of subject matter; maximum credit ten hours. Students must indicate field of research and hours credit at the time of enrollment. To be subdivided topically as follows: American national government, public administration, American state and local government, public law, popular government, international relations, comparative government, political theory, elections and political behavior, behavioral laboratory. (F, Sp, Su)

P SC 5953 Qualitative Research Methods 3 Credit Hours
Prerequisite: P SC 5913 or permission of instructor. This course provides graduate-level training in qualitative research methods as preparation for dissertation research. The course begins by orienting students towards research traditions and epistemological issues. It then considers a range of options for designing research and achieving causal inference. The last third of the course covers concrete tools that researchers may deploy while conducting fieldwork. (Irreg.)

P SC 5960 Directed Readings 1-3 Credit Hours
1 to 3 hours. Prerequisite: graduate standing or permission of instructor. May be repeated; maximum credit six hours. (F, Sp, Su)

P SC 5963 Capstone in Public Administration 3 Credit Hours
Prerequisite: graduate standing. The primary role of government is to address the collective problems, needs, and challenges faced by its citizenry. Government addresses these issues through the development, enactment, and implementation of public policy. This class takes an analytical approach, broadly defined, to studying collective problems and government responses to these problems. The end product of this study will be a research paper. (Sp)

P SC 5970 Special Topics/Seminar 1-3 Credit Hours
1 to 3 hours. Prerequisite: Graduate standing or permission of instructor. May be repeated; maximum credit nine hours. Special topics or seminar course for content not currently offered in regularly scheduled courses. May include library and/or laboratory research and field projects. (Irreg.)

P SC 5980 Research for Master's Thesis 2-9 Credit Hours
Variable enrollment, two to nine hours; maximum credit applicable toward degree, six hours. (F, Sp, Su)

P SC 5990 Independent Study 1-3 Credit Hours
1 to 3 hours. Prerequisite: Graduate standing and permission of instructor. May be repeated; maximum credit nine hours. Contracted independent study for a topic not currently offered in regularly scheduled courses. Independent study may include library and/or laboratory research and field projects. (Irreg.)

P SC 6003 Political Science: Survey of a Discipline 3 Credit Hours
Prerequisite: admission to doctoral program in political science. Traces the development of the discipline of political science as well as the epistemological and theoretical foundations of the field. Emphasis is given to the role of research design for political analysis. Attention also is devoted to the professional norms and expectations of an academic career in political science. (Every third semester)

P SC 6023 Field Seminar in American Politics 3 Credit Hours
Prerequisite: graduate standing. Seminar designed to introduce as much of the field of American politics as possible. Includes epistemology and paradigms, institutionalism, the various political institutions that structure our politics, and the role of the individual in American politics. (Irreg.)

P SC 6103 Field Seminar in Public Administration 3 Credit Hours
Prerequisite: graduate standing. Review of the field of public administration. Investigates epistemology and paradigms of the field and considers the role of bureaucratic organizations in the American system of governance. (Irreg.)

P SC 6113 Foundations in Public Administration 3 Credit Hours
Prerequisite: graduate standing or permission of instructor. Broad overview of the public administration literature. Historical underpinnings of the subfield and its evolution. Focuses on the frameworks and theories scholars have developed to understand public administration generally. Both theoretical and empirical research are reviewed to examine the "big picture." (Irreg.)

P SC 6133 Foundations in Public Policy 3 Credit Hours
Prerequisite: graduate standing or permission of instructor. Gives students a broad overview of the public policy literature. We examine the historical underpinnings of the subfield and familiarize ourselves with its evolution. The course is not substantive in the sense of studying particular policy areas (e.g., environmental, education), but rather focuses on the frameworks and theories scholars have developed to understand the policy process generally. Both theoretical and empirical research are reviewed in an effort to examine the "big picture." (Irreg.)

P SC 6223 Field Seminar in Public Policy 3 Credit Hours
Prerequisite: permission of the instructor. A capstone seminar for doctoral students who have substantially completed public policy coursework in preparation of information on completing theories, frameworks, approaches, analytical tools, and guiding principles central to the study of the formulation, implementation, and evaluation of public policy. Attention also will be given to crosscutting topics such as values in the policy process, the role(s) of the policy analyst; ethics; and the utilization and misutilization of the results of social science research. (Irreg.)

P SC 6960 Directed Readings 1-3 Credit Hours
1 to 3 hours. Prerequisite: graduate standing or permission of instructor. May be repeated; maximum credit six hours. Directed readings and/or literature review under the direction of a faculty member. (Irreg.)

P SC 6970 Special Topics/Seminar 1-3 Credit Hours
1 to 3 hours. Prerequisite: graduate standing or permission of instructor. May be repeated; maximum credit 12 hours. Special topics or seminar course for content not currently offered in regularly scheduled courses. May include library and/or research and field projects. (Irreg.)

P SC 6980 Research for Doctoral Dissertation 2-16 Credit Hours
2 to 16 hours. Prerequisite: Graduate standing and permission of instructor; may be repeated. Directed research culminating in the completion of the doctoral dissertation. (F, Sp, Su)

P SC 6990 Independent Study 1-3 Credit Hours
1 to 3 hours. Prerequisite: Graduate standing and permission of instructor. May be repeated; maximum credit nine hours. Contracted independent study for a topic not currently offered in regularly scheduled courses. Independent study may include library and/or laboratory research and field projects. (Irreg.)

Workman	Samuel	G	2014	ASSISTANT PROFESSOR OF POLITICAL SCIENCE, 2014	PhD, Univ of Washington, 2009; MA, Univ of Washington, 2005; MA, West Virginia Univ, 2003; BS, West Virginia Univ Inst of Tech, 2001

Political Science, B.A.

Minimum Total Credit Hours: 120
Major Hours: 33
Minimum Upper-Division Hours: 48

Overall GPA - Combined and OU: 2.00
Major GPA - Combined and OU: 2.00

Program Code: B790 P617

Major Requirements

- **The Department of Political Science does *not* permit major coursework to also fulfill General Education or Dodge College of Arts and Sciences requirements.**
- **P SC 1113 does not count for major credit.**

Code	Title	Credit Hours
Research Methods		
P SC 2013	Introduction to Political Analysis	3
Distribution Requirements		
Choose four courses, one course each from 4 of the following 6 groups: (p. 700) [1]		12
Group I: American Politics		
Group II: Comparative Politics		
Group III: International Relations		
Group IV: Public Administration		
Group V: Public Policy		
Group VI: Political Theory		
Electives		
Choose 15 hours of P SC electives, which must include at least 12 hours of upper-division courses		15
Capstone		
P SC 4093	Capstone Seminar in Political Science [2]	3
Total Credit Hours		**33**

[1] A list of the courses approved for each group may be obtained in the Political Science Department or on the departmental website.
[2] This course should be taken during the senior year. (The capstone course must be completed with a grade of C or better.)

General Education and College Requirements

Courses for fulfillment of General Education and Dodge College of Arts & Sciences requirements must be from the approved General Education course list published in the Class Schedule or at http://www.ou.edu/gened/courses. **Courses graded P/NP will not apply.**

MINIMUM OF 40 HOURS REQUIRED FOR UNIVERSITY-WIDE GENERAL EDUCATION

Code	Title	Credit Hours
Core Area I: Symbolic and Oral Communication		
English Composition (6 hours)		
ENGL 1113	Principles of English Composition	3
ENGL 1213	Principles of English Composition	3
or EXPO 1213	Expository Writing	
Language (0-13 hours in the same language)		
The college requirement cannot be met by high school coursework.		
Beginning Course		0-5
Beginning Course, continued		0-5
Intermediate Course (2000 level) [1,2]		0-3
Mathematics (3 hours)		
Choose one course from the General Education Mathematics list		3
Core Area II: Natural Science (7 hours, including one laboratory component)		
Biological Science		
Choose an approved General Education Natural Science course with one of the following prefixes: BIOL, HES, MBIO, or PBIO [1]		3-4
Physical Science		
Choose an approved General Education Natural Science course with one of the following prefixes: AGSC, ASTR, CHEM, GEOG, GEOL, GPHY, METR, or PHYS [1]		3-4
Core Area III: Social Science (6 hours)		
P SC 1113	American Federal Government	3
Choose one course from the General Education Social Science list		3
Core Area IV: Arts and Humanities (18 hours)		
Artistic Forms		
Choose one course from the General Education Artistic Forms list		3
Western Culture		
HIST 1483	United States to 1865	3
or HIST 1493	United States, 1865 to the Present	
Choose one course from the General Education Western Culture list (excluding HIST 1483/1493)		3
World Culture		
Choose one course from the General Education World Culture list		3
Additional Core IV Upper-Division Arts & Humanities courses		
Choose one course from Artistic Forms, Western Culture, or World Culture [1,3]		3
Choose one course from Artistic Forms, Western Culture, or World Culture [1,3]		3
Core Area V: First Year Experience (3 hours)		
Choose one course		3
Total Credit Hours		**56**

[1] College of Arts and Sciences Requirements: college requirements are not automatically fulfilled by a previous degree.
[2] One course at the intermediate level or demonstrated competency at that level
[3] 6 upper-division hours, 2 courses, at the 3000- 4000-level. ***Must be outside the major.***

Free Electives

Electives to bring total applicable hours to the minimum total required for the degree including 48 upper-division hours.

Information Concerning General Rules, Regulations and Minimum Requirements

Arts and Sciences Hours: At least 80 semester hours of liberal arts and sciences courses are required for a BA degree. At least 55 semester hours of liberal arts and sciences courses are required for a BS degree.
Pass/No Pass Enrollment: A maximum of 16 semester hours of free elective credit may be attempted under this option.
Individual Studies (e.g., courses titled "Independent Study"): A maximum of 12 total semester hours may be counted toward graduation, excluding Honors Reading and Honors Research.
P.E. Courses: No physical education activity courses will be counted toward the 120 semester hours of acceptable credit for graduation.
Senior Institution Hours: A minimum of 60 semester hours applied toward graduation must be earned at senior (4-year) institutions.
Residency:

- At least 15 of the final 30 hours applied toward the degree or at least 50 percent of the hours required by the institution in the major field must be satisfactorily completed at the awarding institution.
- At least 15 semester hours of upper-division major work must be completed in residence at OU.
- OU correspondence courses are ***not*** considered resident credit.

Grade Point Averages: Students must earn a minimum over all 2.00 for each of the following: Combined Retention GPA (all college grades), OU Retention GPA, GPA for all major courses, and GPA for all major courses taken at OU. Some schools and departments of the College have higher minimum grade point averages required for their students.

Suggested Semester Plan of Study

This plan shows one possible grouping of courses that would allow students to graduate in four years. Please refer to the front of the degree checksheet for official requirements. Students must consult with Dodge College of Arts and Sciences and Department of Political Science academic advisors to verify that courses selected each semester

fulfill the recommended plan and satisfy University, College of Arts and Sciences, and Political Science major requirements.

Freshman

First Semester		Credit Hours
ENGL 1113	Principles of English Composition (Core I)	3

Free Electives

Electives to bring total applicable hours to the minimum total required for the degree including 48 upper-division hours.

Information Concerning General Rules, Regulations and Minimum Requirements

Arts and Sciences Hours: At least 80 semester hours of liberal arts and sciences courses are required for a BA degree. At least 55 semester hours of liberal arts and sciences courses are required for a BS degree.
Pass/No Pass Enrollment: A maximum of 16 semester hours of free elective credit may be attempted under this option.
Individual Studies (e.g., courses titled "Independent Study"): A maximum of 12 total semester hours may be counted toward graduation, excluding Honors Reading and Honors Research.
P.E. Courses: No physical education activity courses will be counted toward the 120 semester hours of acceptable credit for graduation.
Senior Institution Hours: A minimum of 60 semester hours applied toward graduation must be earned at senior (4-year) institutions.
Residency:

- At least 15 of the final 30 hours applied toward the degree or at least 50 percent of the hours required by the institution in the major field must be satisfactorily completed at the awarding institution.
- At least 15 semester hours of upper-division major work must be completed in residence at OU.
- OU correspondence courses are ***not*** considered resident credit.

Grade Point Averages: Students must earn a minimum over all 2.00 for each of the following: Combined Retention GPA (all college grades), OU Retention GPA, GPA for all major courses, and GPA for all major courses taken at OU. Some schools and departments of the College have higher minimum grade point averages required for their students.

Suggested Semester Plan of Study

This plan shows one possible grouping of courses that would allow students to graduate in four years. Please refer to the front of the degree checksheet for official requirements. Students must consult with Dodge College of Arts and Sciences and Department of Political Science academic advisors to verify that courses selected each semester fulfill the recommended plan and satisfy University, College of Arts and Sciences, and Public Affairs and Administration major requirements.

Freshman

Total Credit Hours	**120**

[1] The American Political Institutions Major Elective must be chosen from: P SC 3113, P SC 3143, P SC 3163, P SC 4273, or P SC 4283.

Elections & Campaign Management, Minor

Minimum Total Credit Hours: 15
Minimum Upper-Division Hours: 9

Program Code: N339

- **The requirements for a minor must be completed concurrently with the major degree requirements.**
- **No minor may be added by completing courses after receiving the bachelor's degree.**

At least six (6) credit hours must be earned in courses acceptable for residence credit by standards set forth by the Dodge College of Arts and Sciences, excluding transfer, correspondence, and examination (AP, CLEP, Advanced Standing) credit. Courses for the minor may not be taken Pass/No Pass.

No single course may be used by a student to satisfy a major requirement and a minor requirement. A course may be used, however, to satisfy both a major support requirement and a minor requirement.

Requests to substitute a minor requirement must be approved in writing by the Department of Political Science.

Required Courses

Students must successfully complete at least 15 hours of coursework, including at least nine (9) hours at the upper-division level.

This program requires a minimum 2.00 GPA (both OU and Combined) in the minor coursework.

Code	Title	Credit Hours

Program Code: N805

- **The requirements for a minor must be completed concurrently with the major degree requirements.**
- **No minor may be added by completing courses after receiving the bachelor's degree.**

At least six (6) credit hours must be earned in courses acceptable for residence credit by standards set forth by the Dodge College of Arts and Sciences, excluding transfer, correspondence, and examination (AP, CLEP, Advanced Standing) credit. Courses for the minor may not be taken Pass/No Pass.

No single course may be used by a student to satisfy a major requirement and a minor requirement. A course may be used, however, to satisfy both a major support requirement and a minor requirement.

Requests to substitute a minor requirement must be approved in writing by the Department of Political Science.

Students must successfully complete at least 15 hours of courses acceptable for major credit in Public Affairs and Administration, including at least nine (9) hours at the upper-division level. Note that introductory

courses are not counted toward this total. Up to three (3) hours of other Political Science courses may be substituted with the permission of the Department of Political Science.

Required Courses

Each of the courses to be offered to students minoring in Public Affairs and Administration is part of the curriculum of the bachelor's degree in Public Affairs and Administration. As courses are added to the bachelor's curriculum, they will also be available to students taking the minor. Only three (3) courses from outside of the department are included. One of these courses is NPNG 2033; the other two (2) courses are offered by Economics. They have been included in the curriculum of the minor in Public Affairs and Administration because they emphasize public sector activities which are not covered in any political science courses.

Code	Title	Credit Hours
Choose 15 hours acceptable for major credit in Public Affairs and Administration, including at least nine (9) hours at the upper-division level, from the following:		15
NPNG 2033	Introduction to Nonprofits	
ECON 3713	Governmental Relations to Business	
ECON 4353	Public Finance: Issues and Taxation	
P SC 3043	Gender, Power and Leadership in Politics and Public Administration	
P SC 3113	Bureaucracy and Citizenship	
P SC 3123	Social Statistics	
or SOC 3123	Social Statistics	
P SC 3133	Politics and Public Administration	
P SC 3170	Problems in Public Administration	
P SC 3183	Politics of Government Budgeting	
P SC 3193	Nonprofits and Public Policy	
P SC 3220	Topics in Public Policy	
P SC 3233	Environmental Policy and Administration	
P SC 3313	Urban Government and Politics	
P SC 3323	State Government	
P SC 3910	Government Internship [1]	
P SC 3960	Honors Reading [1]	
P SC 3970	Honors Seminar [1]	
P SC 3980	Honors Research [1]	
P SC 3990	Independent Study [1]	
P SC 4033	Capitol Scholars: A Service Learning Course [1]	
P SC 4043	Public Policy Implementation	
P SC 4143	Policy/Program Evaluation	
P SC 4193	The Profession of Public Management	
P SC 4213		
P SC 4220	Problems in Public Policy	
P SC 4990	Independent Study [1]	

[1] A maximum of three (3) hours from P SC 3910, P SC 3960, P SC 3970, P SC 3980, P SC 3990, P SC 4033, or P SC 4990 may apply. Course content must be Public Affairs and Administration related.

- Minors in the Dodge College of Arts & Sciences are available to all undergraduate students at OU. If the minor is officially declared, successfully completed, and noted on the graduation application, the student's transcript will so indicate at the time the bachelor's degree is posted.

Political Science, B.A./M.A.

Minimum Total Credit Hours: 144
Major Hours: 33
Minimum Upper-Division Hours: 48

Overall GPA - Combined: 3.50 **OU:** 3.00
Major GPA - Combined: 3.50 **OU:** 3.00

Program Code: A789/F790 Q528

Major Requirements

- **The Department of Political Science does *not* permit major coursework to also fulfill General Education or Dodge College of Arts and Sciences requirements.**
- **P SC 1113 does not count for major credit.**

Code	Title	Credit Hours
Research Methods		
P SC 2013	Introduction to Political Analysis	3
Distribution Requirements		
Choose four courses, one course each from 4 of the following 6 groups: (p. 700) [1]		12
Group I: American Politics		
Group II: Comparative Politics		
Group III: International Relations		
Group IV: Public Administration		
Group V: Public Policy		
Group VI: Political Theory		
Electives		
Choose 3 hours of upper-division Political Science electives		3
Capstone		
P SC 4093	Capstone Seminar in Political Science [2]	3
Total Credit Hours		**21**

[1] A list of the courses approved for each group may be obtained in the Political Science Department or on the departmental website.
[2] This course should be taken during the senior year. (The capstone course must be completed with a grade of C or better.)

- A minimum of 30 undergraduate upper-division free elective hours is needed to bring the total applicable hours to 144, including 48 upper-division hours.

M.A. Component

Code	Title	Credit Hours
Graduate Core [1]		
P SC 5923	Introduction to Analysis of Political Data	3
P SC 5933	Intermediate Analysis of Political Data	3
P SC 6003	Political Science: Survey of a Discipline	3
Choose one of the following:		3-6

P SC 5950	Research Problems (Non-Thesis option, 3 hours)	
P SC 5980	Research for Master's Thesis (Thesis option, 6 hours)	
Major Emphasis		
Choose at least 9 hours in the emphasis, selected from a list maintained by the academic unit and approved by the Graduate College [2]		9
Secondary Emphasis		
Choose at least 9 hours in the emphasis, selected from a list maintained by the academic unit and approved by the Graduate College [3]		9
P SC Graduate Electives		
Choose Graduate-level electives to bring total applicable hours to 144, selected from a list maintained by the academic unit and approved by the Graduate College		3-6
Total Credit Hours		**36**

1 These 12 hours are shared with undergraduate degree.
2 Major Emphasis Areas: American Government and Politics, Political Theory, Comparative Government and Politics, International Relations, Public Administration, Public Policy.
3 Secondary Emphasis Areas: American Government and Politics, Political Theory, Comparative Government and Politics, International Relations, Political Methodology, Public Administration, Public Law, Public Policy.

General Education and College Requirements

Courses for fulfillment of General Education and Dodge College of Arts & Sciences requirements must be from the approved General Education course list published in the Class Schedule or at http://www.ou.edu/gened/courses. **Courses graded P/NP will not apply.**

MINIMUM OF 40 HOURS REQUIRED FOR UNIVERSITY-WIDE GENERAL EDUCATION

Code	Title	Credit Hours
Core Area I: Symbolic and Oral Communication		
English Composition (6 hours)		
ENGL 1113	Principles of English Composition	3
ENGL 1213	Principles of English Composition	3
or EXPO 1213	Expository Writing	
Language (0-13 hours in the same language)		
The college requirement cannot be met by high school coursework.		
Beginning Course		0-5
Beginning Course, continued		0-5

Choose one course from Artistic Forms, Western Culture, or World Culture [1,3]		3
Core Area V: First Year Experience (3 hours)		
Choose one course		3
Total Credit Hours		**56**

1 College of Arts and Sciences Requirements: college requirements are not automatically fulfilled by a previous degree.
2 One course at the intermediate level or demonstrated competency at that level
3 6 upper-division hours, 2 courses, at the 3000- 4000-level. ***Must be outside the major.***

Free Electives

Electives to bring total applicable hours to the minimum total required for the degree including 48 upper-division hours.

Information Concerning General Rules, Regulations and Minimum Requirements

Arts and Sciences Hours: At least 80 semester hours of liberal arts and sciences courses are required for a BA degree. At least 55 semester hours of liberal arts and sciences courses are required for a BS degree.
Pass/No Pass Enrollment: A maximum of 16 semester hours of free elective credit may be attempted under this option.
Individual Studies (e.g., courses titled "Independent Study"): A maximum of 12 total semester hours may be counted toward graduation, excluding Honors Reading and Honors Research.
P.E. Courses: No physical education activity courses will be counted toward the 120 semester hours of acceptable credit for graduation.

Senior Institution Hours: A minimum of 60 semester hours applied toward graduation must be earned at senior (4-year) institutions.
Residency:

- At least 15 of the final 30 hours applied toward the degree or at least 50 percent of the hours required by the institution in the major field must be satisfactorily completed at the awarding institution.
- At least 15 semester hours of upper-division major work must be completed in residence at OU.
- OU correspondence courses are ***not*** considered resident credit.

Grade Point Averages: Students must earn a minimum over all 2.00 for each of the following: Combined Retention GPA (all college grades), OU Retention GPA, GPA for all major courses, and GPA for all major courses taken at OU. Some schools and departments of the College have higher minimum grade point averages required for their students.

Suggested Semester Plan of Study

This plan shows one possible grouping of courses that would allow students to graduate in four years. Please refer to the front of the degree checksheet for official requirements. Students must consult with Dodge College of Arts and Sciences and Department of Political Science academic advisors to verify that courses selected each semester fulfill the recommended plan and satisfy University, College of Arts and Sciences, and Political Science major requirements.

[1] College of Arts and Sciences Requirements: college requirements are not automatically fulfilled by a previous degree.
[2] One course at the intermediate level or demonstrated competency at that level
[3] 6 upper-division hours, 2 courses, at the 3000- 4000-level. ***Must be outside the major.***

Free Electives

Electives to bring total applicable hours to the minimum total required for the degree including 48 upper-division hours.

Information Concerning General Rules, Regulations and Minimum Requirements

Arts and Sciences Hours: At least 80 semester hours of liberal arts and sciences courses are required for a BA degree. At least 55 semester hours of liberal arts and sciences courses are required for a BS degree.
Pass/No Pass Enrollment: A maximum of 16 semester hours of free elective credit may be attempted under this option.
Individual Studies (e.g., courses titled "Independent Study"): A maximum of 12 total semester hours may be counted toward graduation, excluding Honors Reading and Honors Research.
P.E. Courses: No physical education activity courses will be counted toward the 120 semester hours of acceptable credit for graduation.
Senior Institution Hours: A minimum of 60 semester hours applied toward graduation must be earned at senior (4-year) institutions.
Residency:

- At least 15 of the final 30 hours applied toward the degree or at least 50 percent of the hours required by the institution in the major field must be satisfactorily completed at the awarding institution.
- At least 15 semester hours of upper-division major work must be completed in residence at OU.
- OU correspondence courses are ***not*** considered resident credit.

Grade Point Averages: Students must earn a minimum over all 2.00 for each of the following: Combined Retention GPA (all college grades), OU Retention GPA, GPA for all major courses, and GPA for all major courses taken at OU. Some schools and departments of the College have higher minimum grade point averages required for their students.

Suggested Semester Plan of Study

This plan shows one possible grouping of courses that would allow students to graduate in four years. Please refer to the front of the degree checksheet for official requirements. Students must consult with Dodge College of Arts and Sciences and Department of Political Science academic advisors to verify that courses selected each semester

fulfill the recommended plan and satisfy University, College of Arts and Sciences, and Political Science major requirements.

Freshman

First Semester		Credit Hours
ENGL 1113	Principles of English Composition (Core I)	3
HIST 1483 or HIST 1493	United States to 1865 (Core IV) or United States, 1865 to the Present	3
P SC 1113	American Federal Government (Core III)	3
Social Science (Core III)		3
First Year Experience (Core V)		3
	Credit Hours	**15**
Second Semester		
ENGL 1213 or EXPO 1213	Principles of English Composition (Core I) or Expository Writing	3
Math (Core I)		3
Western Culture (Core IV)		3
World Culture (Core IV)		3
Natural Science without lab (Core II)		3
	Credit Hours	**15**

Sophomore

First Semester		
P SC 2013	Introduction to Political Analysis	3
P SC 3173	Administration & Society	3
Natural Science with lab (Core II)		4
Beginning Language (Core I)		5
	Credit Hours	**15**
Second Semester		
P SC 3223	Making Public Policy	3
Beginning Language continued (Core I)		5
Artistic Forms (Core IV)		3
Public Administration/Public Policy course		3
American Political Institutions course		3
Free Elective		1
	Credit Hours	**18**

Junior

First Semester		
Public Administration/Public Policy course		3
Arts & Humanities, upper-division, outside major (Gen. Ed.)		3
Intermediate Language		3
Upper Division Free Elective (3000-4000-level)		3
Upper Division Free Elective (3000-4000-level)		3
Upper Division Free Elective (3000-4000-level)		3
	Credit Hours	**18**
Second Semester		
P SC 4203	Capstone Seminar in Public Affairs and Administration	3
Arts & Humanities, upper-division, outside major (Gen. Ed.)		3
Upper Division Free Elective (3000-4000-level)		3
Upper Division Free Elective (3000-4000-level)		3
Upper Division Free Elective (3000-4000-level)		3
	Credit Hours	**15**

Senior

First Semester		
P SC 5923	Introduction to Analysis of Political Data (shared)	3
P SC 5933	Intermediate Analysis of Political Data (shared)	3
P SC 6003	Political Science: Survey of a Discipline (shared)	3
Upper Division Free Elective (3000-4000-level)		3
	Credit Hours	**12**
Second Semester		
Graduate Major Emphasis		3
Graduate Secondary Emphasis		3
Upper Division Free Elective (3000-4000-level)		3
Graduate-level Elective		3
	Credit Hours	**12**

Fifth Year

First Semester		
Graduate Major Emphasis		3
Graduate Secondary Emphasis		3
Upper Division Free Elective (3000-4000-level)		3
Graduate-level Elective		3
	Credit Hours	**12**
Second Semester		
P SC 5980 or P SC 5950	Research for Master's Thesis (3 hrs shared - this plan assumes 3 hrs of 5950 for Non-Thesis MA option) or Research Problems	3
Graduate Major Emphasis		3
Graduate Secondary Emphasis		3
Upper Division Free Elective (3000-4000-level)		3
	Credit Hours	**12**
	Total Credit Hours	**144**

Public & Nonprofit Administration, B.A./M.P.A.

Minimum Total Credit Hours: 144
Major Hours: 33
Minimum Upper-Division Hours: 48

Overall GPA - Combined and OU: 3.50
Major GPA - Combined and OU: 3.50

Program Code: A806/F805 Q559

Major Requirements

- **The Department of Political Science does *not* permit major coursework to also fulfill General Education or Dodge College of Arts and Sciences requirements.**
- The undergraduate major requires 33 hours, 18 of which must be upper-division. The graduate major requires 36 hours, 12 of which must be shared with the undergraduate major.

Code	Title	Credit Hours
Introductory Courses

[2] Secondary Emphasis Areas: American Government and Politics, Political Theory, Comparative Government and Politics, International Relations, Public Administration, Political Methodology, Public Law, Public Policy.

General Requirements for all Master's Degrees

The master's degree requires the equivalent of *at least* two semesters of satisfactory graduate work and additional work as may be prescribed for the degree.

All coursework applied to the master's degree must carry graduate credit.

Master's degree programs which require a thesis consist of *at least* 30 credit hours. All non-thesis master's degree programs require *at least* 30 credit hours.

Credit transferred from other institutions must meet specific criteria and is subject to certain limitations.

Courses completed through correspondence study may *not* be applied to the master's degree.

To qualify for a graduate degree, students must achieve an overall grade point average of 3.0 or higher in the degree program coursework and in all resident graduate coursework attempted. A student must also have at least a 3.0 in all coursework (including undergraduate coursework if any).

Additional information for master's degree students may be found in the Graduate College Bulletin.

NPNG 5711	Nonprofit Financial Management	1
NPNG 5721	Nonprofit Human Resources	1
Total Credit Hours		**15**

A graduate *certificate* is not a graduate *degree*. A graduate degree represents a program of independent inquiry beyond the depth of coursework alone, while a graduate certificate represents a set of courses only.

- All courses must be taken at OU. No transfer credit will apply.
- No course substitutions are permitted for graduate certificates.
- Coursework applied to a graduate certificate cannot be more than five years old as of the semester the graduate certificate is awarded.
- Students must earn a grade point average of 3.00 or higher on all coursework applied to the graduate certificate.

Political Science, Ph.D.

Minimum Total Hours: 90

Program Code: D790

Program Requirements

- The Ph.D. program requires a minimum of 90 post-baccalaureate hours. A master's degree is not required.
- At least 2 semesters in residence as a full-time student are required.

P SC 5950	Research Problems	3
P SC 6003	Political Science: Survey of a Discipline	3
Fields		

9 hours minimum of coursework in three of eight fields, as approved by the committee chair and graduate liaison, and selected from a list maintained by the academic unit and approved by the Graduate College: [1]		27
American Government & Politics		
Comparative Government & Politics		
International Relations		
Political Methodology		
Political Theory		
Public Administration		
Public Law		
Public Policy		
Dissertation in an Examined Field		
P SC 6980	Research for Doctoral Dissertation	2-44
Additional Hours		
Additional field coursework, electives or master's credit as needed to meet the degree total, as approved by the committee chair and graduate liaison, and selected from a list maintained by the academic unit and approved by the Graduate College.		7-49
Total Credit Hours		**90**

[1] Students must complete a General Examination (written and oral) in two of the three fields. (Political Methodology is a secondary examining field only. Public Law is a non-examining third field only.)
Up to 12 hours may be taken from outside the Political Science department, with not more than 6 hours from any one outside department and not more than 6 hours applied to any one Field of Study.

General Requirements for Doctoral Degrees

A student should expect to spend at least the equivalent of three full academic years beyond the bachelor's degree to obtain the doctoral degree. During this period the student will take appropriate graduate coursework, successfully complete the general examination, and successfully defend and submit the final dissertation.

All coursework applied to the doctoral degree must carry graduate credit.

The doctoral degree requires at least 90 post-baccalaureate hours, including both formal coursework and hours of research.

The minimum hour requirement for a specific doctoral degree program cannot be waived.

No more than one-half of the credit hours, both OU and overall, excluding Research for Doctoral Dissertation (6980), may be *S/U*-graded coursework.

The student must be in residence at OU for at least two consecutive 16-week semesters during the pursuit of the doctoral degree while enrolled and engaged in coursework or research activities as prescribed by the major academic unit.

For more detailed regulations and requirements for Doctoral degrees, please consult the Graduate College Bulletin: http://www.ou.edu/gradcollege/forms/bulletin

General Information

The Department of Psychology was founded in 1928. The primary emphasis of the department is on psychology as an experimental and applied science. At the present time, the department is focused on the areas of cognitive psychology, social psychology, quantitative psychology, industrial/organizational psychology, developmental psychology, neuroscience, personality/individual differences.

At the undergraduate level, our department offers students an exceptional education that is flexible enough to support a wide range of career paths. Our undergraduate degree programs provide students with the opportunity to develop the type of broad and rich introduction to scientific psychology that will support a wide variety of post-graduate interests, whether they are to further graduate training in such areas as clinical or experimental psychology, pursue graduate training in other professional areas, such as medicine, law, or business, or to immediately seek meaningful employment in the contemporary workplace.

The programs of graduate training in the department are designed to produce experimental psychologists who are capable of assuming positions in academia, as well as industry and government. In a rigorous but cooperative and congenial atmosphere, high-quality research psychologists are trained to contribute to the body of knowledge of scientific psychology, as well as to disseminate and apply psychological knowledge.

The department provides research training by means of a curriculum that requires students to be involved in research beginning with their first enrollment and continuing every semester thereafter.

Programs & Facilities

Laboratory and Teaching Facilities

The laboratory and teaching facilities of the Department of Psychology include the Brain and Cognitive Development lab, Snyder Lab, Center for the Study of Human Operator Performance (C-SHOP), Mumford Lab, Day Lab, and Connelly Lab. SONA is a website that the Department uses to manage all experiments.See Undergraduate Research Opportunities for more details.

Scholarships and Financial Aid

At the undergraduate level, the department offers The Outstanding Psychology Students (TOPS) scholarships to outstanding psychology students with at least junior standing and a superior record in coursework.

At the graduate level, the department has been able to provide financial support to most of those students wishing to be supported. Summer support is available on a competitive basis. The Charles Gettys Award and a Graduate Student Teaching Award are presented annually

for outstanding research and teaching by a graduate student in the department.

Student Organizations

The University of Oklahoma Psychology Club's purpose is to encourage, stimulate, and maintain excellence in psychology and to facilitate and further knowledge in psychology among students.

Psi Chi is the National Honor Society in Psychology, founded in 1929 for the purposes of encouraging, stimulating, and maintaining excellence in scholarship, and advancing the science of psychology. Membership is open to graduate and undergraduate men and women who are making the study of psychology one of their major interests.

Undergraduate Study

Students considering a major in psychology should contact an academic advisor in the Department of Psychology.

Bachelor of Arts

The Bachelor of Arts (p. 736) in Psychology provides the student with experience and training necessary to pursue post-baccalaureate education in psychology and other professional areas or to secure employment immediately following completion of the undergraduate degree, and with the broad education essential to the formation of a well-rounded, informed individual.

Bachelor of Science

The Bachelor of Science (p. 739) in Psychology is designed to provide additional training and experience in research to those students who want greater mastery in basic sciences and methodology. The B.S. degree program is most appropriate for those students who want to significantly enhance their competitive standing for admission to doctoral training in psychology - although it should be noted that the majority of our B.A. degree students have been highly successful in achieving graduate school acceptance as well.

Minors

- Pre-Health Social Sciences Minor (p. 742)
- Psychology Minor (p. 742)

Careers in Psychology

For an excellent introduction to careers in psychology, with a description of many subfields and job domains, please see the APA Careers guide published by the American Psychological Association (APA).

Psychologists assume many different roles. For example, they work as teachers, researchers, service providers, administrators, and consultants. Because psychologists perform such diverse tasks, they work in many different settings: colleges and universities, elementary and secondary schools, private practices, hospitals, human service agencies, business and industry, and government.

The following are just some of the fields that graduates with bachelor's degrees in psychology have entered: administration and management, business and industry, casework, child care, employment interviewing, health services, marketing and public relations, personnel, probation and parole, psychiatric assisting, research or laboratory assisting, sales, teaching, and technical writing. Students pursuing the bachelor's degree as a terminal degree are encouraged to seek academic counseling on an intensive level with a faculty advisor, and to consult closely with the University's job placement service.

Graduate Study

Areas of Specialization

Areas of specialization in graduate training include cognitive psychology, social psychology, industrial-organizational, and quantitative psychology. In addition to these four specializations, researchers in the department also work in one or more of three integrative, cross-cutting specialties: developmental, neuroscience, and personality/individual differences.

The programs of graduate training in the department are designed to produce experimental psychologists who are capable of assuming positions in academia, as well as industry and government. In a rigorous but cooperative and congenial atmosphere, high-quality research psychologists are trained to contribute to the body of knowledge of scientific psychology, as well as to disseminate and apply psychological knowledge.

Graduate Certificates

- Human Resource Management (p. 747)
- Organizational Psychology (p. 747)
- Organizational Research (p. 747)
- Project Management (p. 748)

Degree Programs

Master of Arts

The Department of Psychology offers an innovative Master of Arts in Organizational Dynamics program at the Schusterman Center at OU-Tulsa. The program emphasizes research combined with practical application. After completing core courses, students specialize in one of three general tracks: Organizational Dynamics (p. 743), Human Resource Management (p. 743) or Project Management. (p. 745) Students interested in this program should consult with faculty members at OU-Tulsa.

Master of Science

The Master of Science (p. 746) in Psychology degree is conferred as a mark of progress toward the Ph.D. or as a terminal degree.

Doctor of Philosophy

To complete the Ph.D. program in either standard Psychology (p. 749) or Industrial and Organizational Psychology (p. 749), a student must complete 90 hours of coursework beyond the bachelor's degree. The individual student, in consultation with a faculty advisory committee, will design a unique course of study that reflects the student's interests and career goals. Successful completion of all coursework, the Ph.D. general exams, and the dissertation is required for the Ph.D.

Students interested in our Quantitative program also take two courses from the mathematics department: Calculus-based mathematical statistics and linear algebra. The pre-requisite calculus courses for these may be taken at OU if the student does not have them at the time of admission.

General Requirements for MS and Ph.D.

A continuing involvement in directed or independent research is expected to be a part of the student's program of doctoral study. The department has no language requirements, but a student's Advisory Committee may recommend the development of competence in other areas of study (e.g., computer science, industrial engineering, mathematics, philosophy

of science, history of science, physiology) of potential benefit to the student's particular professional development and interests.

As a vital part of the graduate training program in psychology, all graduate students are required to be engaged in a training assignment each term. These assignments vary according to the needs and professional aspirations of the student. They are designed to supplement the more formal coursework by a variety of pre-professional activities such as assisting in research, teaching, etc., under faculty supervision. The training assignment increases in responsibility as the student progresses. The amount of time required of the student varies from 10–20 hours per week, depending upon level of progress, the type of assignment, etc. The purpose of these assignments is to train the student in some of the types of activities that the student will ultimately be engaged in after the degree is received.

A student's progress toward the Ph.D. degree is evaluated annually. Additionally, first-year students are evaluated after the first semester. The purpose of these evaluations is to provide feedback to the student and to assess the student's proficiency based on academic coursework, progress in research, and potential for significant contributions to the profession.

Courses

ODYN 5113 The Psychology of Leadership 3 Credit Hours
Prerequisite: graduate standing or permission of instructor. Focuses on the theories, principles, and practice of leadership in organizational settings; particular focus on technologically based organizations, leading change in organizations, and leading teams. (Irreg.)

ODYN 5133 Teams and Motivation 3 Credit Hours
Prerequisite: graduate standing or permission of instructor. Team formation, socialization and identity, team problem solving, individual and collective motivation, conflict and power, learning and team development, and group liabilities. (Irreg.)

ODYN 5153 Design, Evaluation, and Statistics 3 Credit Hours
Prerequisite: graduate standing or permission of instructor. Covers applied research designs such as quasi-experimental and correlation designs; covers basic statistics, hypothesis testing, correlation/multiple regression, and quality control models. Focus will be on application of statistics in organizational problem solving. (Irreg.)

ODYN 5163 Applied Measurement and Analysis 3 Credit Hours
Prerequisite: graduate standing or permission of instructor. Focuses on teaching principles and practices of individual and organizational assessment, covering concepts such as validity, reliability, survey and instrument development, and characteristics of organizational data. Techniques for analyzing organizational data and conducting program evaluation will also be discussed. (Irreg.)

ODYN 5183 Capstone Project 3 Credit Hours
Prerequisite: Graduate standing and ODYN 5973, or permission of instructor. This capstone project will involve real-world application of the material covered in the program. (Irreg.)

ODYN 5223 Performance Management 3 Credit Hours
Prerequisite: Graduate standing or permission of instructor. Covers basic approaches to motivating and developing individuals to perform well within organizational settings; includes discussion of alternative methods for measuring and assessing individual, team, and organizational performance. (Irreg.)

ODYN 5233 Training and Career Development 3 Credit Hours
Prerequisite: graduate standing or permission of instructor. Overview of principles, theories, and practices of learning and development in organizations. Application of various training techniques and designs will be covered as well as roles of different organizational constituencies in employee training and development. (Irreg.)

ODYN 5243 Staffing, Selection, and Compensation 3 Credit Hours
Prerequisite: graduate standing or permission of instructor. Focuses on recent, state-of-the-art processes and technologies for organizational staffing, personnel selection, and employee benefits and pay. Relevant theories in these areas will be reviewed. (Irreg.)

ODYN 5253 Organizational Behavior, Change, and Development 3 Credit Hours
Prerequisite: graduate standing or permission of instructor. Explores theories and practices related to the planned process of changing an organization or group's culture to increase organizational productivity and effectiveness. Topics such as organizational assessment and diagnosis, continuous learning, problem solving sessions, reward systems, visioning, and empowerment will be covered. (Irreg.)

ODYN 5263 Human Resource Management Systems and Techniques 3 Credit Hours
Prerequisite: Graduate standing or permission of instructor. Survey of theory and practice in primary areas of human resource management such as workforce planning, recruiting, selection and staffing, performance management, compensation, and training and development. Focuses on a systems approach to human resource management, including how aspects of HRM are interrelated, as well as strategies and technologies being used to perform various HRM functions. (Irreg.)

ODYN 5283 Employee Health, Safety and Wellness 3 Credit Hours
Prerequisite: Graduate standing or permission of instructor. Focuses on health, safety and wellness issues relevant to the workplace. Individual, social, situational and environmental factors that affect workplace health, safety and wellness will be covered, including topics such as: stress and burnout; work-life conflict; workplace safety and injury prevention; legal and regulatory compliance; and workplace conflict, aggression, and violence. (Irreg.)

ODYN 5293 Work and Life Integration 3 Credit Hours
Prerequisite: Graduate standing or permission of instructor. This course is designed to teach students about the interactive relationship between the family system and the work system. With the changing demographics of the workforce comes a stronger need to assess the relationship between these two major areas of life on one another. Such topics as work/family conflict, childcare issues, role conflict, marital satisfaction, and work satisfaction are covered. (Irreg.)

ODYN 5313 Planning Processes and Strategy Development 3 Credit Hours
Prerequisite: graduate standing or permission of instructor. Overview of principles and practices of planning and strategy development. Planning processes will be examined at micro as well as macro organizational levels; organizational strategies such as succession planning and workforce planning will be discussed. (Irreg.)

ODYN 5323 The Psychology and Practice of Project Management 3 Credit Hours
Prerequisite: graduate standing or permission of instructor. Focuses on strategies and steps involved in developing project proposals and work plans. Includes topics such as needs assessment, budgeting, resource utilization, managing diverse project teams, troubleshooting, and others. (Irreg.)

ODYN 5333 Customer Service and Market Analysis 3 Credit Hours
Prerequisite: Graduate standing or permission of instructor. Principles, theories and applications of market analysis and customer service will be reviewed; techniques for gathering, assessing, and analyzing market and customer data will be covered; and techniques for improving customer service will be discussed. (Irreg.)

ODYN 5343 Organizational Communication 3 Credit Hours
Prerequisite: graduate standing or permission of instructor. Overview of theories and systems of communication in organizational settings. Various forms and effectiveness of communication as well as purposes and strategies at different organizational levels will be covered. (Irreg.)

ODYN 5353 Global Business Practices and Ethics 3 Credit Hours
Prerequisite: graduate standing or permission of instructor. Covers the relationship between organizations and global markets. Explores how organizational systems work together to meet global demands, system breakdowns, and assessment of organizational performance. (Irreg.)

ODYN 5383 Emerging Topics in Project Management 3 Credit Hours
Prerequisite: Graduate standing or permission of instructor. In-depth examination of existing and emerging issues and problems facing project management professionals who work as internal or external consultants. May include issues such as risk management, project selection, conflict resolution, and strategic management decision processes. (Irreg.)

ODYN 5393 Creativity and Innovation in Organizations 3 Credit Hours
Prerequisite: Graduate standing or permission of instructor. This course focuses on theories of creativity and its assessment at the individual, group/team, and organizational level. Assumptions and predictions of the theories will be presented and discussed. A special focus will be on the stages of creative processes and their facilitation. (Irreg.)

ODYN 5413 Positive People Practices 3 Credit Hours
Prerequisite: Graduate standing or permission of instructor. Positive people practices are those practices undertaken by organizations that seek to treat five stakeholder groups (society, partners, investors, customers, and employees) as equally important to achieving the organization's vision and mission. This class will discuss a variety of positive people practices and examine diverse organizations that implement such policies effectively. (Irreg.)

ODYN 5513 Knowledge Management in Project-Driven Organizations 3 Credit Hours
Prerequisite: Graduate standing or permission of instructor. This class will focus on the 3rd generation of knowledge management and do so with a project-centric strategy. It is a project-centric environment that makes knowledge management most feasible for active, growing organizations. Students will learn methods and tools they can use to bring a sense of order to organizational knowledge. (Irreg.)

ODYN 5960 Directed Readings 1-3 Credit Hours
1 to 3 hours. Prerequisite: graduate standing and permission of department. May be repeated; maximum credit twelve hours. Directed readings and/or literature reviews under the direction of a faculty member. (F, Sp, Su)

ODYN 5970 Special Topics/Seminar 1-3 Credit Hours
1 to 3 hours. Prerequisite: Graduate standing or permission of instructor. May be repeated; maximum credit nine hours. Special topics or seminar course for content not currently offered in regularly scheduled courses. May include library and/or laboratory research and field projects. (Irreg.)

ODYN 5973 Proposing and Presenting Research 3 Credit Hours
Prerequisite: admission to Organizational Dynamics master's program. Students in the course will learn to (a) read, synthesize and summarize existing research in organizational dynamics; (b) develop a research proposal that is founded in real world problems, that is based on sound research principles, and that meets accepted standards for professional and scholarly publication. The proposal, on approval of the faculty, may serve as the prospectus for either the professional project or the master's thesis. (F, Sp)

ODYN 5980 Research for Master's Thesis 2-4 Credit Hours
Prerequisite: permission of instructor. Supervised research in area agreed upon by the student and the instructor. (F, Sp, Su)

ODYN 5990 Independent Study 1-3 Credit Hours
1 to 3 hours. Prerequisite: Graduate standing and permission of instructor. May be repeated; maximum credit nine hours. Contracted independent study for a topic not currently offered in regularly scheduled courses. Independent study may include library and/or laboratory research and field projects. (Irreg.)

PSY 1113 Elements of Psychology 3 Credit Hours
A survey of the scientific study of human behavior. Emphasis is placed upon scientific method, basic life processes, mechanisms of adaption, individual differences and group behavior. Students have the opportunity to be exposed to the research process either by serving as participants in research experiments or by conducting reviews of research topics. (F, Sp, Su) [III-SS].

PSY 2001 Career Exploration for Psychology 1 Credit Hour
Prerequisite: PSY 1113 or concurrent enrollment. This course will explore the range of career options in psychology and other fields available to those with bachelor's and graduate psychology degrees, and provide academic planning assistance. Sub-disciplines within the field of psychology will be examined as well as graduate school application processes. (F, Sp, Su)

PSY 2003 Understanding Statistics 3 Credit Hours
Prerequisite: MATH 1005 or satisfactory score on math placement assessment. An introductory applied statistics course which will focus on descriptive and inferential statistical methods. Emphasis will be placed on in-class activities and homework which help the student learn by experience. Topics include measures of central tendency and variability, z-scores, normal distribution, correlation, regression, sampling distributions, hypotheses testing, t-tests and chi-square tests. Laboratory (F, Sp, Su) [I-M].

PSY 2403 Introduction to Personality 3 Credit Hours
Prerequisite: PSY 1113 or permission of instructor. Introduces the classic theoretical perspectives in personality psychology and establishes a solid foundation for understanding personality dynamics. The emphasis is on personality theories representing (but not limited to) the psychodynamic, trait, cognitive, behavioral, and humanistic perspectives. (F, Sp, Su)

PSY 2503 Computing for Behavioral Sciences 3 Credit Hours
Students will learn to identify the parts and functions of personal computers. Building on that basic knowledge, such topics as developing and publishing a web page, collecting data from participants through the web, and using the advanced features of Excel for statistical analysis will be covered. Programming languages will include HTML and JavaScript. (F, Sp, Su)

PSY 2603 Lifespan Development 3 Credit Hours
Prerequisite: PSY 1113. Survey of the psychological changes across the life span; the changes in cognitive, social, emotional, and physiological development from conception to death will be included. (F, Sp, Su)

PSY 2970 Special Topics 1-3 Credit Hours
1 to 3 hours. Prerequisite: May be repeated; maximum credit nine hours. Special topics course for content not currently offered in regularly scheduled courses. May include library and/or laboratory research, and field projects. (Irreg.)

PSY 3003 Advanced Undergraduate Statistics 3 Credit Hours
Prerequisite: PSY 2003 or PSY 2113. Review of previous material, SAS, multiple comparisons, two-way ANOVA, power calculations, repeated measures designs, multiple linear regression, general linear model, nonparametric methods. Designed to help students prepare for graduate statistics courses. (Irreg.)

PSY 3083 Animal Behavior 3 Credit Hours
(Crosslisted with BIOL 3083) Prerequisite: BIOL 3013 or permission of instructor. Animal behavior from an evolutionary perspective. The effects of natural selections on mechanisms underlying behavior and on diversity of behavior among and within species. (F, Sp)

PSY 3114 Research Methods: Applications and Experimental Design 4 Credit Hours
Prerequisite: Major in Psychology; PSY 1113; PSY 2003 or PSY 2113. Examines how new discoveries are made in psychology through the scientific method. Primary goal is to prepare students to conduct an independent research project to address a theoretical question, analyze and interpret the data, and present the data to others in both written and oral form. Laboratory. (F, Sp, Su)

PSY 3203 Cognitive Psychology 3 Credit Hours
Prerequisite: PSY 1113. Surveys how people extract relevant information from their environment and store, retrieve and utilize such information at a later time. Topics will include memory storage and retrieval, attention, imagery, mnemonic devices and other cognitive processes. (F, Sp, Su)

PSY 3313 Positive Psychology 3 Credit Hours
Prerequisite: PSY 1113. Survey of positive psychology--the scientific study of the conditions and processes that contribute to the flourishing or optimal functioning of people, groups, and institutions. Topics include research methods, models of well-being, positive emotions, positive relationships, engagement and flow, self-regulation and grit, goals and habits, optimism and hope, as well as applications and interventions.

PSY 3323 Experiencing Psychology in the Classroom 3 Credit Hours
Prerequisite: PSY 1113 or equivalent and permission of instructor; may be repeated; maximum credit 6 hours. Students will explore the principles of evidence-based pedagogy, classroom management, and effective communication while serving as an Undergraduate Teaching Assistant (UTA) in PSY 1113 Elements of Psychology. Students will develop essential skills and knowledge required to support the Elements of Psychology Coordinator and contribute to the learning experience of their peers. Elective only; may not be used toward major/minor. (F)

PSY 3423 The Psychology of Learning and Teaching 3 Credit Hours
Prerequisite: PSY 1113 and junior standing. This course explores how cognitive principles shape effective learning and teaching practices in higher education. This course bridges theoretical understanding with practical application, examining how memory works, how attention is managed, and how motivation influences academic success. Students will analyze learning environments, discover evidence-based study strategies, and develop skills to optimize academic performance. (Sp)

PSY 3440 Mentored Research Experience 3 Credit Hours
0 to 3 hours. Prerequisite: PSY 1113 or equivalent, and permission of instructor; May be repeated; maximum credit 12 hours. For the inquisitive student to apply the scholarly processes of the discipline to a research or creative project under the mentorship of a faculty member. Student and instructor should complete an Undergraduate Research & Creative Projects (URCP) Mentoring Agreement and file it with the URCP office. Not for honors credit. (F, Sp, Su)

PSY 3613 Developmental Psychology: Infancy through Adolescence 3 Credit Hours
Prerequisite: PSY 1113; PSY 2003 or PSY 2113, or permission of instructor. Introduces themes, theories, and scientific research on cognitive, social, and emotional development from infancy through adolescence. Explores fundamental psychological questions of how we become who we are, what factors cause children's development of behavior and mind, and what leads to the diversity of developmental outcomes. No student may earn credit for both PSY 2603 and PSY 3613. (Irreg.)

PSY 3703 Social Psychology 3 Credit Hours
Prerequisite: PSY 1113. The science of how people think and feel about, relate to, and influence one another. Topics include classic and contemporary research on stereotypes, persuasion, attitude change, emotions, the self-concept, aggression, impression formation, and altruism, among others. (F, Sp, Su)

PSY 3713 Psychology of Belonging 3 Credit Hours
Prerequisite: Junior standing and PSY 1113. In this course, I invite you to explore the role that belonging plays in your life. This course will guide students through a scientific understanding of belonging as developed in classic and contemporary psychological research. Students will then analyze and apply the scientific principles of belonging to gain a deeper understanding of themselves, others, and societal systems. (Irreg.)

PSY 3753 Introduction to Industrial Organizational Psychology 3 Credit Hours
Prerequisite: PSY 1113 and PSY 2003 or PSY 2113 or permission of instructor. Industrial Organizational psychology covers psychological theories and their practical applications to the workplace. The course covers issues of critical relevance to the well-being of individuals and organizational performance. Topics include, but are not limited to, motivation, selection, training, assessment, performance management, satisfaction, teams, and leadership. (F, Sp, Su)

PSY 3803 Physiological Psychology 3 Credit Hours
Prerequisite: PSY 1113 or equivalent; and BIOL 1114 or BIOL 1124 or equivalent. Provides an introduction to physiological and neurological foundations of behavior. Some emphasis will be placed on contemporary issues and theoretical models. (F, Sp)

PSY 3960 Honors Reading 1-3 Credit Hours
1 to 3 hours. Prerequisite: admission to Honors Program, PSY 2003 or PSY 2113, and permission of department. May be repeated; maximum credit six hours. Will consist of topics designated by the instructor in keeping with the student's major program. The topics will cover materials not usually presented in the regular courses. (F, Sp, Su)

PSY 3970 Honors Seminar 1-3 Credit Hours
1 to 3 hours. Prerequisite: admission to Honors Program; PSY 2003 or PSY 2113. May be repeated; maximum credit six hours. The projects covered will vary. The content will deal with concepts not usually presented in regular coursework. (Irreg.)

PSY 3980 Honors Research 1-3 Credit Hours
1 to 3 hours. Prerequisite: admission to Honors Program, PSY 2003 or PSY 2113, and permission of department. May be repeated; maximum credit six hours. Will provide an opportunity for the gifted Honors candidate to work at a special project in the student's field. (F, Sp, Su)

PSY 3990 Independent Study 1-3 Credit Hours
1 to 3 hours. Prerequisite: one course in general area to be studied, PSY 2003 or PSY 2113, and permission of department. May be repeated; maximum credit, six hours. Contracted independent study for topic not currently offered in regularly scheduled courses. Independent study may include library and/or laboratory research and field projects. (F, Sp, Su)

PSY 4023 Measurement in Psychology 3 Credit Hours
Prerequisite: PSY 1113, and PSY 2003 or PSY 2113; and junior standing. Introduction to the measurement of psychological constructs (e.g., intelligence, personality, motivation). Emphasis on foundational psychometric concepts, latent variable modeling, and practical skills for scale development and evaluation. Topics include reliability, validity, factor analysis, item response theory, and scoring. Designed for students interested in research, clinical assessment, or other fields involving the measurement of latent constructs. (Irreg.)

PSY 4113 Capstone Survey of Major Fields in Psychology 3 Credit Hours
Prerequisite: Major in Psychology; PSY 3114 or permission of instructor; senior standing. Lecture-based course focusing on major areas of psychology. Attempts to instill in the student an understanding of the integration and diversity of the field of psychology. Content and title vary with instructor. (F, Sp) [V].

PSY 4143 Capstone Service Learning 3 Credit Hours
Prerequisite: Major in Psychology; PSY 2403, PSY 3114, PSY 4453; senior standing and permission of instructor. Students apply learning from other courses to a project of significant community need. Classes are held both on campus and on-site. Students will develop a written description of the experience and the psychological principles applied. (F, Sp) [V].

PSY 4153 History of Psychology 3 Credit Hours
Prerequisite: PSY 1113. Survey of psychology's history, from early philosophical roots to the modern era. Special emphasis placed on historical trends, schools of thought, and important figures. (F)

PSY 4243 Decision Making and Problem Solving 3 Credit Hours
Prerequisite: PSY 2003 or PSY 2113, and PSY 3203. Review of issues in inductive thinking, deductive reasoning, inference generation, problem solving, insight, expertise, algorithms, and heuristics. The emphasis will be on current research investigations. (Irreg.)

PSY G4253 Selected Topics in Cognitive Science 3 Credit Hours
Prerequisite: PSY 1113 and PSY 3114 and PSY 3203, and PSY 2003 or PSY 2113; or permission of instructor. May be repeated with change of content; maximum credit 6 hours. Seminar focusing on specific issues in cognitive science. Topics include memory representation and retrieval, symbol and referent processing, knowledge structure, expert and novice differences, imagery, and others. (Irreg.)

PSY 4263 Psychology and Law 3 Credit Hours
Prerequisite: 3114. Examines some of the most important points of contact between the fields of psychology and the law, including eyewitness identification, the prison system, juries, and confessions and interrogations. (Irreg.)

PSY 4283 Neural Bases of Perception and Cognition 3 Credit Hours
Prerequisite: Junior standing; PSY 1113, PSY 2003, and PSY 3114; PSY 3203, PSY 3803, or permission of instructor. Survey of the ways in which the structures and functions of the nervous system support psychological experience, including basic perception, attention, memory, and complex cognition. Topics to be emphasized may vary by semester. (Irreg.)

PSY 4313 Motivation 3 Credit Hours
Prerequisite: PSY 2003 or PSY 2113. Primary motivational states and learned motivational states (e.g., fear, frustration, anxiety, etc.) will be considered as well as emotion and curiosity. Topics of current interest in both human and animal motivation will also be covered. (Irreg.)

PSY 4333 Psychology of Death & Dying 3 Credit Hours
Prerequisite: PSY 1113. Examines theory, research, and issues in the psychology of death and dying. Topics may include the development of death concepts, death anxiety in society the needs of the dying person, the psychology of grieving, and unexpected losses. (Irreg.)

PSY 4343 Health Psychology 3 Credit Hours
Prerequisite: PSY 1113 or an introductory Biology course. Health psychology examines the bi-directional relationship between psychology and health. Topics include, but are not limited to, physiological and psychological factors that influence perceptions of stress, the links between stress and illness, the psychosocial influences on health enhancing and health compromising behaviors, adjustment to illness and coping, pain, sociocultural factors and health, and personality and health. (F, Sp, Su)

PSY G4403 Advanced Personality 3 Credit Hours
Prerequisite: PSY 1113, PSY 2403, and junior standing or permission of instructor. Advanced personality course focusing on modern and current theoretical and empirical research. Introduces the research methods personality psychologists use to make substantive contributions to the scientific understanding of human thoughts, feelings, and behaviors. Topics include (but are not limited to) field dependence, autonomy, sex/gender, subjective well-being, dominance, leadership, sensation-seeking, risk-taking, pain tolerance, sensation reducing/augmenting, and locus of control. (Irreg.)

PSY 4413 Behavioral Addictions 3 Credit Hours
Prerequisite: PSY 1113. This course provides a conceptualization of behavioral addictions and brief overview of the varied forms of addictive behaviors and treatments, including gambling, online gaming, food addiction, pornography addiction, sex addiction, compulsive shopping, Internet addiction, and a variety of impulse control disorders, among others. Attention is given to the relationship between behavioral addictions and substance addictions across a number of domains. (Irreg.)

PSY 4423 Eating Disorders 3 Credit Hours
Prerequisite: PSY 1113. Eating Disorders provides an introduction to the characteristics and criteria associated with a variety of forms of disordered eating. It covers Pica, Avoidant-Restrictive Food Intake Disorder, anorexia nervosa, bulimia, binge eating disorder, and compulsive overeating, among others, and overviews key features of their causes, presentation, and treatment. (Irreg.)

PSY 4433 Clinical Psychology 3 Credit Hours
Prerequisite: PSY 1113, PSY 2003 or 2113, and PSY 4453. A survey of the field of Clinical Psychology. Topics include but are not limited to the following: Current Issues in the field, such as training and ethics; Psychological assessment; and Psychotherapy. Evidence-Based Practice in Psychology (EBPP) is emphasized. (F, Sp)

PSY 4443 Law, Counseling, & Psychology 3 Credit Hours
Prerequisite: PSY 1113 and PSY 2003; junior standing. This course deals with topics at the interface of psychology, counseling, and the law. There are many points of contact between these fields, including eyewitness identification, confessions, and interrogations, forensic confirmation biases, jury decision-making, the death penalty, the impact of and rationale for incarceration, evaluation of competency, mental illness, deception detection, plea bargains, the impact of race, etc. (Irreg.)

PSY 4453 Abnormal Psychology 3 Credit Hours
Prerequisite: PSY 1113 and PSY 2003; or permission of instructor. An examination of the major clinical and research findings in the field of abnormal psychology. Topics include studies of conflict, anxiety, neurosis, character disorders, schizophrenia, and psychotherapy. (F, Sp)

PSY 4463 Child Psychopathology 3 Credit Hours
Prerequisite: PSY 4453. Seminar that focuses on multiple facets of child psychopathology. The primary objective of the course is to provide foundational in-depth knowledge of childhood disorders, their etiology, and evidence-based assessments and treatments. Developmental pathways for each disorder within a biopsychosocial framework will be emphasized. Additionally, a variety of special topics relevant to working with children and adolescents will be addressed. (Irreg.)

PSY 4473 Native American Mental Health & Wellbeing 3 Credit Hours
Prerequisite: Junior standing and PSY 1113. This course will provide students with a general understanding of the impact of historical trauma on Native Americans' mental health and wellbeing through a biopsychosocial framework. Topics include the complexities of behavioral health, contemporary issues of Native American behavioral health, and an introduction to various behavioral health treatments. (F, Sp)

PSY 4510 Applications of Psychology Practicum 1-3 Credit Hours
1 to 3 hours. Prerequisite: PSY 2003 or PSY 2113, 12 hours of psychology, permission of instructor. May be repeated; maximum credit six hours; undergraduates limited to two enrollments. Individualized field experiences in an area of interest in psychology. (F, Sp)

PSY 4523 Sport & Exercise Psychology 3 Credit Hours
Prerequisite: PSY 1113, and PSY 2003 or PSY 2113, and junior standing; or instructor permission. Course discusses how psychological principles can be used by physical educators, coaches, and athletes in everyday situations and to cultivate peak performance and personal growth, and also many practical issues relevant to students, such as anxiety and stress; confidence and coping strategies; skill acquisition and training; attention control; goal setting; self-regulation; coaching and leadership, cohesion; burnout; injuries; and career options. (Irreg.)

PSY 4613 Current Topics in Developmental Psychology 3 Credit Hours
Prerequisite: PSY 2003 or PSY 2113, and PSY 2603 or PSY 3613; or permission of instructor. May be repeated with change of content; maximum credit 6 hours. An advanced seminar dealing with contemporary issues in developmental psychology. Content will vary with the instructor. (Irreg.)

PSY 4633 Social and Personality Development 3 Credit Hours
Prerequisite: PSY 1113, and PSY 2603 or PSY 3613. Explores theory and research in social and personality development from infancy through adolescence. Topics covered include attachment, temperament, emotional development, moral development, peer relationships, gender development, prosocial and antisocial behavior, and the influence of parenting, child care, and other important developmental contexts on the behavior and adjustment of children and adolescents. (Irreg.)

PSY 4653 Cognitive Development 3 Credit Hours
Prerequisite: PSY 2603 or PSY 3613. This course explores classic and contemporary theory and research on cognitive development from infancy through adolescence, including perceptual development, attention and memory, conceptual development, language, and social cognition. (F, Sp)

PSY 4673 Psychology of the Family 3 Credit Hours
Prerequisite: PSY 2603. This course addresses family structure and functioning as they affect human development from pregnancy through adulthood. Topics covered include the influence of parents, siblings, and grandparents; childless and childfree families; and family resilience. (F, Sp)

PSY 4703 Psychology of Leadership 3 Credit Hours
Prerequisite: Senior standing or permission of instructor. Provide students with an understanding of the psychological principles underlying leadership in government, industry, and society. Review psychological research on leadership and management, examining topics such as leadership skills, leading changes in organization, leader-follower relationships, and leadership tactics. Students will participate in various exercises to analyze leadership strategies and assess their potential strengths and weaknesses as leaders. (Sp)

PSY 4713 Prejudice and Civil Rights 3 Credit Hours
Prerequisite: PSY 1113. The Psychology of Prejudice and Civil Rights examines systems of privilege, oppression, and institutionalized discrimination that influence and help maintain racism, sexism, heterosexism, and classism and their psychological consequences on the individual and society. This course is designed to acquaint you with a modern conceptualization of these issues and provide you with a more comprehensive understanding of this field. (Irreg.)

PSY 4723 Moral Psychology 3 Credit Hours
Prerequisite: Junior Standing. This course focuses on moral behavior and reasoning informed by empirical science and philosophy. Topics may include moral motivation, moral responsibility, character traits, virtues, cross-cultural differences, reactive attitudes, moral development, and applied issues. (Irreg.)

PSY 4733 Selected Topics in Social Psychology 3 Credit Hours
Prerequisite: junior standing or permission of instructor. May be repeated once with change of topic; maximum credit six hours. Content varies with the instructor. Deals with central topical areas of study in social psychology (i.e., attitudes and social cognition; person perception; groups and group dynamics; or theory construction). (Irreg.)

PSY 4763 Work, Stress, and Health 3 Credit Hours
Prerequisite: PSY 1113; PSY 2003 or PSY 2113; and PSY 3753. This Work, Stress, and Health course is the interdisciplinary study of how psychological factors influence employee health and wellness in the workplace. (Irreg.)

PSY 4793 Psychology of Groups 3 Credit Hours
Prerequisite: 1113. Provides students with an understanding of the psychological principles underlying group behavior. Topics covered will include group formation and development, cohesion and norms, social influence, power, inter-group relations, stereotyping and prejudice, group decision making, diversity within groups, stigma in the workplace, social identity, leadership in groups, group performance, and staffing organizational groups. (Irreg.)

PSY 4863 Sensation and Perception 3 Credit Hours
(Slashlisted with PSY 5863) Prerequisite: PSY 1113; BIOL 1114 or BIOL 1124. This course provides an overview of the human sensory systems and how they contribute to and are interpreted by the human brain in the act of perception. Students will develop a greater appreciation of the vast array of sensory experiences possible across sensory systems and species, as well as how perception molds those sensations to actively "create" our world. No student may earn credit for both 4863 and 5863. (Irreg.)

PSY 4910 Instructional Aides 1-3 Credit Hours
1 to 3 hours. Prerequisite: PSY 1113 and PSY 2003 or PSY 2113; junior standing (or honors students); majors with grade point averages of at least 3.00 and acceptance of an application, or by invitation by faculty member. May be repeated once, maximum credit six hours. Designed for students contemplating graduate school to offer experience in all aspects of instruction. Individual assignments of special instructional tasks in psychology. Supervised instructional experience will be part of each enrollment. (F, Sp, Su)

PSY 4920 Current Topics in Basic and Applied Psychology 1-3 Credit Hours
1 to 3 hours. Prerequisite: PSY 1113, and PSY 2003 or PSY 2113; May be repeated with change of content; maximum credit 9 hours. Content and number of credit hours varies with instructor and section. Focus on current topics in psychology not covered in existing course offerings. Intended for purpose of offering high interest course topics during regular semester, summer, and intersession. (F, Sp, Su)

PSY G4940 Seminar in Psychology 1-3 Credit Hours
1 to 3 hours. Prerequisite: PSY 1113, and PSY 2003 or PSY 2113; and junior standing; or departmental permission. May be repeated with change of content; maximum credit 6 hours. Advanced seminar dealing with contemporary issues and problems in psychology. Content varies with instructor. (F, Sp, Su)

PSY 4960 Directed Readings 1-4 Credit Hours
1 to 4 hours. Prerequisite: good standing in University; permission of instructor and dean. May be repeated; maximum credit four hours. Designed for upper-division students who need opportunity to study a specific problem in greater depth than formal course content permits. (Irreg.)

PSY 4970 Special Topics 1-3 Credit Hours
Special Topics. 1 to 3 hours. Prerequisite: Junior standing or permission of instructor. May be repeated; Maximum credit nine hours. Special topics course for content not currently offered in regularly scheduled courses. May include library and/or laboratory research, and field projects. (Irreg.)

PSY 4990 Independent Study 1-3 Credit Hours
1 to 3 hours. Prerequisite: PSY 2003 or PSY 2113, PSY 3114, three courses in general area to be studied, and permission of instructor. May be repeated; maximum credit six hours. Contracted independent study for topic not currently offered in regularly scheduled courses. Independent study may include library and/or laboratory research and field projects. (F, Sp, Su)

PSY 5003 Psychological Statistics I 3 Credit Hours
Prerequisite: graduate standing and undergraduate statistics course, or permission of instructor. Applied statistics with emphasis upon statistical problems in behavioral sciences research. Includes probability, descriptive statistics, estimations and test of hypotheses. Techniques covered in depth include t-test, one and two factor ANOVA methods, multiple comparison methods (e.g., Scheff, Tukey, Ryan, etc.), and the robustness of these techniques to violation of their assumptions.

PSY 5013 Psychological Statistics II 3 Credit Hours
Prerequisite: 5003 or equivalent, or permission of instructor. The general linear model is covered as it applies to the analysis of variance including fixed, mixed, and random models, individual comparisons, analysis of covariance, and multiple regression. Also, some nonparametric techniques are discussed including chi-square and distribution free procedures.

PSY 5203 Survey in Cognitive Psychology 3 Credit Hours
Prerequisite: graduate standing or permission. Survey of the field of cognitive psychology designed to provide a foundation for the study of human higher mental processes. Topics include: pattern recognition, attention, episodic memory, semantic memory, psycholinguistics, comprehension, reasoning, decision making and problem solving.

PSY 5280 Seminar in Cognitive Processes 1-4 Credit Hours
1 to 4 hours. Prerequisite: 5203 or permission of instructor. May be repeated with change of subject matter; maximum credit six hours. Considers special topics in cognitive psychology emphasizing recent research literature.

PSY 5403 Survey in Developmental Psychology 3 Credit Hours
Prerequisite: graduate standing in the department or permission of instructor. Survey of classic and contemporary research in developmental psychology. (Irreg.)

PSY 5423 Current Theories in Social Psychology 3 Credit Hours
Prerequisite: graduate standing and permission of instructor. An overview of current theory and research in social psychology, including such topics as motivated cognition, automatic and controlled processing, stereotyping, impression formation, attributions, the self-concept and self-regulation, relationships, emotions, attitudes, altruism, and aggression. (Irreg.)

PSY 5703 Survey of Industrial Psychology 3 Credit Hours
Prerequisite: Graduate standing. This course is intended to provide an overview of the key principles and practices of Industrial/Organizational psychology with an emphasis on work analysis and the selection, assessment, and development of human resources. This course will also examine legal and ethical issues faced by I/O psychologists as well as strategic workforce planning. (Irreg.)

PSY 5713 Training and Development 3 Credit Hours
Prerequisite: 5703. Design and development of training courses as well as practical considerations in the delivery of training in organizational settings. (Sp)

PSY 5723 Selection and Assessment in Organizations 3 Credit Hours
Prerequisite: 5703. Covers a variety of substantive topics including; the choice and design of personnel selection tools, validation of employment tests, legal issues regarding personnel assessment and selection, assessment of intelligence, experience, personality and integrity, the use of common assessment methods such as situational judgment tests, interviews, biodata, and assessment centers, frame-of-reference training, theoretical and empirical literature regarding assessment center technology, and development and administration of an assessment center. (Irreg.)

PSY 5733 Techniques in Industrial and Organizational Psychology 3 Credit Hours
Prerequisite: 5703. Provides an overview of how to develop and apply several methodologies and techniques that I/O psychologists commonly use to address organizational needs. During this course we will explore topics such as basic consulting skills, job analysis, individual assessment and selection, biodata, performance appraisal, ad organizational surveys. Some basic familiarity with these areas is assumed. This class focuses on how to develop and implement these types of applications in organizational settings. (Irreg.)

PSY 5743 Survey of Organizational Psychology 3 Credit Hours
Prerequisite: Graduate standing. The purpose of this course is to provide a broad overview of important topics defining organizational psychology and organizational behavior from a psychological perspective, covering topics such as organizational socialization, commitment, networks and culture, conflict and negotiation, organizational change, and counterproductive work behavior. (Irreg.)

PSY 5753 Cognition in Organizations 3 Credit Hours
Prerequisite: Graduate standing. Organizational cognition has become a key sub-discipline in the fields of organizational behavior and organizational psychology. This course will examine the nature of knowledge in organizations and how this knowledge is used in decision-making. It will also examine key cognitive processes (e.g. creative problem solving processes, forecasting, causal analysis) involved in organizational cognition along with key applications. (Irreg.)

PSY 5763 Individual Differences 3 Credit Hours
Prerequisite: Graduate standing. Understanding of the sources of human variation provides a basis for many psychology-based interventions. This course reviews critical findings, major theories, and research methods employed in studying the major content areas involved in the study of individual differences, covering general domains such as cognitive, motivational, dispositional/trait, and group-based individual differences. (Irreg.)

PSY 5783 Seminar in I/O Psychology 3 Credit Hours
Prerequisite: Graduate standing; May be repeated with change of topic; maximum credits 12 hours. The purpose of this course is to provide a general course number that can be repeated with a change of content. A variety of courses will be taught under this number such as Organizational Cognition, Organizational Ethics, Innovation in Organizations, and Individual Differences. (Irreg.)

PSY 5863 Sensation and Perception 3 Credit Hours
(Slashlisted with PSY 4863) Prerequisite: Graduate Standing; introductory biology recommended. This course provides an overview of the human sensory systems and how they contribute to and are interpreted by the human brain in the act of perception. Students will develop a greater appreciation of the vast array of sensory experiences possible across sensory systems and species, as well as how perception molds those sensations to actively "create" our world. No student may earn credit for both 4863 and 5863. (Irreg.)

PSY 5901 Foundations of Psychological Science I 1 Credit Hour
Prerequisite: admission to graduate psychology program. Overview of current research in psychological science. Discussion of ethics, professional development, the pedagogical arts, methodology and grantsmanship. Participants complete a first year research project including a grant proposal, presentation at a professional meeting and presentation at departmental speaker series.

PSY 5911 Foundations of Psychological Science II 1 Credit Hour
Prerequisite: 5901. Continuation of 5901. Advanced topics in professional development, research planning, funding and communication.

PSY 5960 Directed Readings in Psychology 1-4 Credit Hours
1 to 4 hours. Prerequisite: graduate standing, permission of instructor, adviser and dean. Maximum credit nine hours. Supervised reading of selected topics in psychology by agreement of instructor and student. (F, Sp, Su)

PSY 5970 Pre-Master's Research in Psychology 1-4 Credit Hours
Prerequisite: graduate standing; pre-master's status; permission of instructor. May be repeated; maximum credit nine hours. Supervised research in area agreed upon by student and instructor. Students conducting research for the master's thesis should enroll in 5980. (F, Sp, Su)

PSY 5980 Research for Master's Thesis 2-9 Credit Hours
Variable enrollment, two to nine hours; maximum credit applicable toward degree, four hours. (F, Sp, Su)

PSY 5990 Independent Study 1-3 Credit Hours
1 to 3 hours. Prerequisite: Graduate standing and permission of instructor. May be repeated; maximum credit nine hours. Contracted independent study for a topic not currently offered in regularly scheduled courses. Independent study may include library and/or laboratory research and field projects. (Irreg.)

PSY 6013 Factor Analysis and Structural Equation Models 3 Credit Hours
Prerequisite: 5003, 5013 or equivalent. Several exploratory factor analysis models are discussed including principle factors, maximum likelihood, and alpha-factors analysis. Factor-analytic-like models such as components analysis and image analysis are also covered. Offers an overview of the application of structural equations in the social sciences. (Irreg.)

PSY 6023 Psychometrics 3 Credit Hours
Prerequisite: Graduate standing; PSY 5003, PSY 5013 or equivalent. Graduate-level introduction to psychometrics. Emphasis on fitting and interpreting latent variable models as well as the scale development process. Topics include reliability, validity, factor analysis, item response theory, score meaning, and the Standards for Educational and Psychological Testing. (Irreg.)

PSY 6033 Hierarchical Linear Models 3 Credit Hours
Prerequisite: Graduate standing and PSY 5013. Data in education, psychology, public health, and other applied sciences are often clustered or show a hierarchical structure. This course introduces HLM as an effective way to model relationship among variables while addressing of dependencies between observations. Students will learn the basic ideas and technical details of HLM, as well as have opportunities to apply the methods to real-world data. (Irreg.)

PSY 6063 Seminar in Quantitative Psychology 3 Credit Hours
Prerequisite: 5013 or permission of instructor. May be repeated with change of topic; maximum credit 15 hours. The topic or topics to be covered depend upon the faculty member or members in charge of the seminar at the time it is offered.

PSY 6073 Experimental Design for Psychology 3 Credit Hours
Prerequisite: 5003, 5013, or permission of instructor. Classical experimental design applied to research problems in the behavioral sciences; completely randomized, randomized blocks, factorial, Latin square, fractional factorial and repeated measures designs, confounding, and related topics are discussed. (F)

PSY 6223 Quantitative Models in Cognition 3 Credit Hours
Prerequisite: 5203 or permission. Survey of quantitative models in cognition, with an emphasis on memory and reaction time. Techniques for model testing and development will be taught and supported by exercises.

PSY 6280 Advanced Seminar in Cognitive Processes 1-4 Credit Hours
1 to 4 hours. Prerequisite: 5203 or permission. May be repeated with change of subject matter; maximum credit 12 hours. Special topics in human learning and memory or in memory and cognitive processes will be considered in detail, emphasizing recent research literature and development of research proposals. (Irreg.)

PSY 6323 Teaching in the Social Sciences 3 Credit Hours
Prerequisite: Graduate standing and permission of instructor. The purpose of this course is to prepare you to excel as an independent instructor, whether you are teaching for the first time or already have experience as an instructor of record. The class is designed with a practical focus on preparing course materials, creating assignments, delivering content, managing interactions, and evaluating student work. (Sp)

PSY 6423 Seminar in Social Psychology 3 Credit Hours
Prerequisite: graduate standing and permission of instructor. May be repeated with change of topic; maximum credit nine hours. Intensive study of major problem areas in social psychology, including intrapersonal processes, group dynamics, the self, and research methods. Course topic will vary. (Irreg.)

PSY 6433 Seminar in Theories of Personality 3 Credit Hours
Prerequisite: graduate standing in Psychology or permission of instructor. May be repeated with change of topic; maximum credit 12 hours. Intensive exploration of both traditional and modern theories of personality. Examples from several major categories of personality theory are examined through intensive primary readings, writing, and discussion. (Irreg.)

PSY 6443 Stress, Health, and Identity 3 Credit Hours
Prerequisite: Graduate standing and Instructor permission. The focus of this course is to consider theoretical perspectives, methods, and research findings in the study of stress, health, and identity. Course content includes perspectives on stress, coping, and health; research on advancing health equity and justice; and multiple facets of identity as they relate to adjustment, well-being, and health from social and developmental psychology perspectives. (Irreg.)

PSY 6453 Seminar in Interpersonal Relationships 3 Credit Hours
Prerequisite: Graduate standing and permission of instructor. Covers classic and contemporary theories and findings in the social psychological literature on interpersonal relationships, with a focus on the biological, motivations, social and personality factors that contribute to attraction, closeness, satisfaction, and stability in dyadic relationships. (Irreg.)

PSY 6643 Seminar in Developmental Psychology 3 Credit Hours
Prerequisite: graduate standing or permission of instructor. May be repeated with change of topic; maximum credit 12 hours. Involves in-depth study of theory and research in major areas of developmental psychology, e.g., social cognition, peer relations, emotions, temperament and personality, morality, aggression, theory of mind. (Irreg.)

PSY 6703 Advanced Seminar in Industrial and Organizational Psychology 3 Credit Hours
Prerequisite: 5703. May be repeated with change of content; maximum credit nine hours. Focus in-depth on one or more topics examining the area with respect to new theoretical developments and major research findings. Topics may include active, emergent research areas likely to lead to changes in theoretical and professional practice including motivation, team effectiveness, work and family issues, changes in job design, etc. (Sp)

PSY 6713 Leadership Theories, Research, and Practice 3 Credit Hours
Prerequisite: 5703. This graduate seminar examines the theoretical and empirical research as well as case studies on a variety of topics in the field of leadership, leadership dyads, outstanding forms of leadership (transformational, charismatic, pragmatic), politics, leading innovation and change, assessing leadership effectiveness, gender and leadership, and cross-cultural leadership. (Irreg.)

PSY 6910 Readings in Psychology 1-4 Credit Hours
1 to 4 hours. Prerequisite: advanced graduate standing (post-master's). May be repeated; maximum graduate credit nine hours. Supervised reading for advanced students. Topics chosen by agreement of instructor and student.

PSY 6923 History of Psychology 3 Credit Hours
Prerequisite: graduate standing. Introduction to origin of modern psychology within science. Origins are examined from the ancient Greeks through philosophy, physiology, and astronomy. Special emphasis placed on the historical trends and the people involved.

PSY 6930 Res-Cognitive Process, Sensation-Perception, Physiological Psy 1-6 Credit Hours
1 to 6 hours. Prerequisite: by permission of instructor only. May be repeated; maximum graduate credit eighteen hours. Supervised laboratory research on major projects in an area of mutual interest with a faculty member. Upon advice of the instructor involved, enrollment for work on minor research projects in the above areas may alternatively be in 4990. (F, Sp, Su)

PSY 6940 Research in Personality: Social and Developmental Psychology 1-6 Credit Hours
1 to 6 hours. Prerequisite: by permission of instructor only. May be repeated; maximum graduate credit 18 hours. Supervised individual laboratory research on major projects in an area of mutual interest with a faculty member. Upon advice of the instructor involved, enrollment for work on minor research projects in the above areas may alternatively be in 4990. (F, Sp, Su)

PSY 6960 Research in Industrial and Organizational Psychology 1-6 Credit Hours
1 to 6 hours. Prerequisite: 5703 and permission of instructor. May be repeated; maximum credit twelve hours. Provide guided research experiences preparatory for master's and doctoral degrees. Topics selected in consultation with faculty member may include leadership, management ethics, and motivation. Exposure to key aspects of the research process including literature reviews, study design, data analysis, report preparation, proposal writing, paper presentation, and article writing. (F, Sp, Su)

PSY 6970 Post-Master's Research in Psychology 1-4 Credit Hours
Prerequisite: master's degree and permission of instructor. May be repeated; maximum credit 12 hours. Supervised research for advanced graduate students on major projects of mutual interest with a faculty member. (F, Sp, Su)

PSY 6980 Research for Doctoral Dissertation 2-16 Credit Hours
2 to 16 hours. Prerequisite: Graduate standing and permission of instructor; may be repeated. Directed research culminating in the completion of the doctoral dissertation. (F, Sp, Su)

PSY 6990 Independent Study 1-3 Credit Hours
1 to 3 hours. Prerequisite: Graduate standing and permission of instructor. May be repeated; maximum credit nine hours. Contracted independent study for a topic not currently offered in regularly scheduled courses. Independent study may include library and/or laboratory research and field projects. (Irreg.)

Faculty

Last Name	First/Middle Name	Middle init.	OU Service start	Title(s), date(s) appointed	Degrees Earned, Schools, Dates Completed
Cai	Huajian		2023	ASSOCIATE PROFESSOR OF PSYCHOLOGY, 2023	PhD, East China Normal Univ, 2022; MS, East China Normal Univ, 1996; BA, East China Normal Univ, 1993
Campbell	Nicole	J	2000	PROFESSOR OF PSYCHOLOGY, 2019; ASSOCIATE PROFESSOR OF PSYCHOLOGY, 2008	PhD, Arizona State Univ, 1997; MA, Arizona State Univ, 1993; BS, Texas A&M Univ, 1990
Carter-Sowell	Adrienne	R	2021	PROFESSOR OF PSYCHOLOGY, 2021	PhD, Purdue Univ, 2010; MS, Purdue Univ, 2007; BA, Univ of Virginia, 1990
Carvallo	Mauricio	R	2007	ASSOCIATE PROFESSOR OF PSYCHOLOGY, 2013	PhD, SUNY at Buffalo, 2007; MA, SUNY at Buffalo, 2003; BA, Univ of California-Los Angeles, 1998
Cavazos	Jenel	N	2003	ASSOCIATE PROFESSOR OF PSYCHOLOGY, 2015; ADJUNCT ASSOCIATE PROFESSOR OF LIBERAL STUDIES, 2015	PhD, Univ of Oklahoma, 2009; MS, Univ of Oklahoma, 2006; BA, Univ of Oklahoma, 2003
Chevalier	Tess		2018	SENIOR LECTURER, 2025	Ph.D., Univ of Wyoming
Cokely	Edward	T	2015	PROFESSOR OF PSYCHOLOGY, 2018; PRESIDENTIAL RESEARCH PROFESSOR, 2015	PhD, Florida State Univ, 2007; MS, Florida State Univ, 2003; BA, Cal State Univ-Fresno, 2001
Connelly	Shane			PROFESSOR OF PSYCHOLOGY	PhD, George Mason Univ
Connelly Mumford	Mary	S	1999	PROFESSOR OF PSYCHOLOGY, 2014; GEORGE LYNN CROSS RESEARCH PROFESSOR, 2023; ADJUNCT ASSOCIATE PROFESSOR OF LIBERAL STUDIES, 2011; PROFESSOR OF PSYCHOLOGY, 2014	PhD, George Mason Univ, 1995; MA, George Mason Univ, 1992; BA, Loyola College, 1989
Cross	Steph	R	2024	LECTURER, 2024	PhD, Univ of Oklahoma, 2021; MS, Univ of Oklahoma, 2018; MA, Univ of Oklahoma, 2013; BA, Our Lady of the Lake Univ, 2010
Day	Eric	A	2001	PROFESSOR OF PSYCHOLOGY, 2014	PhD, Texas A&M Univ, 1998; MS, Central Florida Univ, 1993; BS, James Madison Univ, 1991
Ethridge	Lauren	E	2021	ASSOCIATE PROFESSOR OF PSYCHOLOGY, 2021	PhD, Univ of Georgia, 2011; BS, Univ of Georgia, 2002; BA, Univ of Georgia, 2002
Feltz	Adam		2018	PROFESSOR OF PSYCHOLOGY, 2024; ASSOCIATE PROFESSOR OF PSYCHOLOGY, 2018	PhD, Florida State Univ, 2018; MA, Northern Illinois Univ, 2004; BA, Univ of South Carolina, 1998
Freeman	Erin	K	2017	ASSOCIATE PROFESSOR OF PSYCHOLOGY, 2017	PhD, Univ of Oklahoma, 2011; MPsy, Univ of Dallas, 2003; BA, Univ of Dallas, 2002
He	Yaqing		2024	ASSISTANT PROFESSOR OF PSYCHOLOGY, 2024	PhD, Univ of Illinois Urbana-Champaign, 2024; MA, Univ of Illinois Urbana-Champaign, 2018; BA, Anhui Normal Univ China, 2016
Heo	Ihnwhi		2026	ASSISTANT PROFESSOR OF PSYCHOLOGY, 2026	PhD, Univ of California Merced, 2026; MSc, Utrecht Univ, 2021; BA, Sungkyunkwan Univ, 2019
Kim	JeongJin		2025	ASSISTANT PROFESSOR OF PSYCHOLOGY, 2025	PhD, George Mason Univ, 2025; MA, George Mason Univ, 2022; MA, Yonsei Univ, 2019; BA, Univ of Wisconsin-Madison, 2016
Kisamore	Jennifer	L	2003	PROFESSOR OF PSYCHOLOGY AT TULSA, 2023; ORGANIZATIONAL DYNAMICS PROGRAM COORDINATOR, 2019; ASSOCIATE PROFESSOR OF PSYCHOLOGY AT TULSA, 2009; ADJUNCT ASSOCIATE PROFESSOR OF LIBERAL STUDIES, 2013	PhD, Univ of South Florida, 2003; MA, Univ of South Florida, 1999; BA, Univ of South Florida, 1994
Manapat	Danielle	M	2025	ASSISTANT PROFESSOR OF PSYCHOLOGY, 2025	PhD, Arizona State Univ, 2023; MA, California State Univ, 2019; BA, Univ of California Santa Barbara, 2015

Manapat	Patrick	D	2024	ASSISTANT PROFESSOR OF PSYCHOLOGY, 2024	PhD, Arizona State Univ, 2022; MA, California State Univ, 2017; BA, California State Univ, 2015
Mayeux	Lara		2004	PROFESSOR OF PSYCHOLOGY, 2024; CHAIR, DEPARTMENT OF PSYCHOLOGY, 2023; CHAIR, INSTITUTIONAL REVIEW BOARD, 2013; ASSOCIATE PROFESSOR OF PSYCHOLOGY, 2010; ADJUNCT ASSOCIATE PROFESSOR OF LIBERAL STUDIES, 2011; CHAIR, INSTITUTIONAL REVIEW BOARD, 2013	PhD, Univ of Connecticut, 2003; MA, Univ of Connecticut, 2000; BS, Texas Christian Univ, 1998
McCollum	Duncan	L	2025	LECTURER, 2025	PhD, Univ of Oklahoma, 2024; MS, Univ of Oklahoma, 2019; BA, Univ of Oklahoma, 2014
Moore	Andrew	J	2026	LECTURER, 2026	PhD, Univ of Florida, 2025; BS, Univ of Oklahoma, 2017
Nelson	Elizabeth		2024	INSTRUCTOR, 2024	MS, East Central Univ, 2012; BS, Univ of Central Oklahoma, 2008
Sladek	Michael	R	2022	ASSISTANT PROFESSOR OF PSYCHOLOGY, 2022	PhD, Arizona State Univ, 2018; MA, Arizona State Univ, 2015; BA, Northwestern Univ, 2013
Snyder	Lori	A	2004	PROFESSOR OF PSYCHOLOGY, 2022; ASSOCIATE PROFESSOR OF PSYCHOLOGY, 2010; DISTINGUISHED FACULTY FELLOW, OFFICE OF THE VICE PRESIDENT FOR RESEARCH, 2016	PhD, Colorado State Univ, 2004; MS, Colorado State Univ, 2001; BA, Earlham College, 1997
Song	Hairong		2009	PROFESSOR OF PSYCHOLOGY, 2026; ASSISTANT PROFESSOR OF PSYCHOLOGY, 2009	PhD, Univ of California Davis, 2009; MA, East China Normal Univ, 2004; BS, Dalian Univ, 2001

General Education and College Requirements

Courses for fulfillment of General Education and Dodge College of Arts & Sciences requirements must be from the approved General Education course list published in the Class Schedule or at http://www.ou.edu/gened/courses. **Courses graded P/NP will not apply.**

UNIVERSITY-WIDE GENERAL EDUCATION (MINIMUM 40 HOURS) AND COLLEGE REQUIREMENTS

Code	Title	Credit Hours
Core Area I: Symbolic and Oral Communication		
English Composition (6 hours)		
ENGL 1113	Principles of English Composition	3
ENGL 1213	Principles of English Composition	3
or EXPO 1213	Expository Writing	
Language (0-13 hours in the same language)		
The college requirement cannot be met by high school coursework.		
Beginning Course		0-5
Beginning Course, continued		0-5
Intermediate Course (2000 level) [1,2]		0-3
Mathematics (3 hours)		
Choose one course from the General Education Mathematics list		3
Core Area II: Natural Science (7 hours, including one laboratory component)		
Biological Science		
Choose an approved General Education Natural Science course with one of the following prefixes: BIOL, HES, MBIO, or PBIO [1]		3-4
Physical Science		
Choose an approved General Education Natural Science course with one of the following prefixes: AGSC, ASTR, CHEM, GEOG, GEOL, GPHY, METR, or PHYS [1]		3-4
Core Area III: Social Science (6 hours)		
P SC 1113	American Federal Government	3
Choose one course from the General Education Social Science list		3
Core Area IV: Arts and Humanities (18 hours)		
Artistic Forms		
Choose one course from the General Education Artistic Forms list		3
Western Culture		
HIST 1483	United States to 1865	3
or HIST 1493	United States, 1865 to the Present	
Choose one course from the General Education Western Culture list (excluding HIST 1483/1493)		3

World Culture	
Choose one course from the General Education World Culture list	3
Additional Core IV Upper-Division Arts & Humanities courses	
Choose one course from Artistic Forms, Western Culture, or World Culture [1,3]	3
Choose one course from Artistic Forms, Western Culture, or World Culture [1,3]	3
Core Area V: First Year Experience (3 hours)	
Choose one course	3
Total Credit Hours	**56**

1 College of Arts and Sciences Requirements: college requirements are not automatically fulfilled by a previous degree.
2 One course at the intermediate level or demonstrated competency at that level
3 6 upper-division hours, 2 courses, at the 3000- 4000-level. ***Must be outside the major.***

Free Electives

Electives to bring total applicable hours to the minimum total required for the degree including 48 upper-division hours.

Information Concerning General Rules, Regulations and Minimum Requirements

Arts and Sciences Hours: At least 80 semester hours of liberal arts and sciences courses are required for a BA degree. At least 55 semester hours of liberal arts and sciences courses are required for a BS degree.
Pass/No Pass Enrollment: A maximum of 16 semester hours of free elective credit may be attempted under this option.
Individual Studies (e.g., courses titled "Independent Study"): A maximum of 12 total semester hours may be counted toward graduation, excluding Honors Reading and Honors Research.
P.E. Courses: No physical education activity courses will be counted toward the 120 semester hours of acceptable credit for graduation.
Senior Institution Hours: A minimum of 60 semester hours applied toward graduation must be earned at senior (4-year) institutions.
Residency:

- At least 15 of the final 30 hours applied toward the degree or at least 50 percent of the hours required by the institution in the major field must be satisfactorily completed at the awarding institution.
- At least 15 semester hours of upper-division major work must be completed in residence at OU.
- OU correspondence courses are ***not*** considered resident credit.

Grade Point Averages: Students must earn a minimum over all 2.00 for each of the following: Combined Retention GPA (all college grades), OU Retention GPA, GPA for all major courses, and GPA for all major courses taken at OU. Some schools and departments of the College have higher minimum grade point averages required for their students.

Suggested Semester Plan of Study

This plan shows one possible grouping of courses that would allow students to graduate in four years. Please refer to the front of the degree checksheet for official requirements. Students must consult with Dodge College of Arts and Sciences and Department of Psychology academic advisors to verify that courses selected each semester fulfill the recommended plan and satisfy University, College of Arts and Sciences, and Psychology major requirements.

Pre-Health Social Sciences, Minor

Minimum Total Credit Hours: 21
Minimum Upper-Division Hours: 9

Program Code: N795

- **The requirements for a minor must be completed concurrently with the major degree requirements.**
- **No minor may be added by completing courses after receiving the bachelor's degree.**

At least six (6) credit hours must be earned in courses acceptable for residence credit by standards set forth by the Dodge College of Arts and Sciences, excluding transfer, correspondence, and examination (AP, CLEP, Advanced Standing) credit. Courses for the minor may not be taken Pass/No Pass.

No single course may be used by a student to satisfy a major requirement and a minor requirement. A course may be used, however, to satisfy both a major support requirement and a minor requirement.

Requests to substitute a minor requirement must be approved in writing by the Department of Psychology.

Required Courses

Students must successfully complete at least 21 hours of courses, including least nine (9) hours at the upper-division level.

Code	Title	Credit Hours
Required Courses		
PSY 1113	Elements of Psychology	3
PSY 2003	Understanding Statistics	3
or SOC 3123	Social Statistics	
PSY 3203	Cognitive Psychology	3

General Requirements for all Master's Degrees

The master's degree requires the equivalent of *at least* two semesters of satisfactory graduate work and additional work as may be prescribed for the degree.

All coursework applied to the master's degree must carry graduate credit.

Master's degree programs which require a thesis consist of *at least* 30 credit hours. All non-thesis master's degree programs require *at least* 30 credit hours.

Credit transferred from other institutions must meet specific criteria and is subject to certain limitations.

Courses completed through correspondence study may *not* be applied to the master's degree.

To qualify for a graduate degree, students must achieve an overall grade point average of 3.0 or higher in the degree program coursework and in all resident graduate coursework attempted. A student must also have at least a 3.0 in all coursework (including undergraduate coursework if any).

Additional information for master's degree students may be found in the Graduate College Bulletin.

Minor		
A sequence of at least three courses (minimum 9 hours) selected in accordance with departmental policy, as approved by the advisory committee and graduate liaison.		9
Breadth		
Two courses (6 hours) in Psychology areas outside the major and minor areas, as approved by the advisory committee and graduate liaison.		6
Dissertation		
PSY 6980	Research for Doctoral Dissertation (minimum 2 hours)	2
Electives		
Additional coursework to reach 90 post-baccalaureate hours, as required by doctoral advisory committee		49-52
Total Credit Hours		**90**

General Requirements for Doctoral Degrees

A student should expect to spend at least the equivalent of three full academic years beyond the bachelor's degree to obtain the doctoral degree. During this period the student will take appropriate graduate coursework, successfully complete the general examination, and successfully defend and submit the final dissertation.

All coursework applied to the doctoral degree must carry graduate credit.

The doctoral degree requires at least 90 post-baccalaureate hours, including both formal coursework and hours of research.

The minimum hour requirement for a specific doctoral degree program cannot be waived.

No more than one-half of the credit hours, both OU and overall, excluding Research for Doctoral Dissertation (6980), may be *S/U*-graded coursework.

The student must be in residence at OU for at least two consecutive 16-week semesters during the pursuit of the doctoral degree while enrolled and engaged in coursework or research activities as prescribed by the major academic unit.

For more detailed regulations and requirements for Doctoral degrees, please consult the Graduate College Bulletin: http://www.ou.edu/gradcollege/forms/bulletin

General Information

The academic study of religion is a vibrant and vital part of OU's liberal arts curriculum. It is in this discipline that we attend to the ways humans all over the world think about questions of life and death; engage in processes of making meaning, manifesting joy, and of grieving; and create and respond to cultures and institutions of power. Students emerge from our major with a strong foundation in deeply culturally-grounded critical thinking, an ability to interrogate and critique forms of power, and a nuanced understanding of the human condition. Our majors and minors have gone on to pursue careers in a wide variety of fields and professions including especially law, medicine, nonprofit work, and education. No matter what their line of work, our alumni are prepared to honor difference, embrace complexity, and lead with integrity.

It is very important to all of us in Religious Studies to see students develop intellectually, find and follow their intellectual and academic interests, and develop their personal and career aspirations during their undergraduate years. We are a warm and welcoming community of scholars and mentors with a commitment to education as well as to the success of the students who pass through our courses and our doors on the way to becoming educated and critically-thinking citizenry, whatever their career choices. Our commitment to your education is directly linked to our hopes and aspirations for the quality of your life, including the quality of your intellectual life after you leave OU and for years beyond.

We invest in the success of our students at several levels. What that means is simply that you're not a statistic. We are interested in far more than checking you off a list or clicking on an online box once you've graduated. We measure success by a host of factors beyond the achievement of a diploma. You can view each semester's Religious Studies course lists on our website.

Please explore this website and the Department of Religious Studies website to learn more. Our faculty offer courses in a variety of specializations leading to a BA degree, and we offer an inviting, welcoming, and rigorous scholarly community. Welcome!

Programs & Facilities

Visit our Department of Religious Studies website to learn more about scholarships, departmental events, information for prospective students, careers in Religious Studies, our undergraduate support system, and our faculty and staff.

The Department of Religious Studies sponsors or co-sponsors numerous programs featuring a variety of prominent speakers and authors each year. In addition to speaking in classes and meeting with students, most of these visitors present public lectures on religious dimensions of important contemporary issues. The public lectures are open to the wider OU campus and local community.

The department encourages community with our student, faculty, staff, and alumni. We host monthly events for students and faculty. Alumni and various guests are at times invited to discuss religious studies, careers, and the broader world beyond OU.

The Department of Religious Studies currently provides several partial scholarships each year in a competitive process for RELS majors and minors.

Undergraduate Study

With a Bachelor of Arts in Religious Studies (p. 754) or a Minor in Religious Studies (p. 758) you learn:

- A broader perspective of the world around us and a nuanced understanding of the human condition
- Critical thinking and analytic reasoning
- An ability to interrogate and critique forms of power
- Teamwork skills with diverse groups
- Culturally-grounded critical judgement and decision making
- How to be an effective oral and written communicator
- How to utilize complex problem-solving skills

Our OU Religious Studies graduates do amazing things! We have alumni (majors and minors) with various career paths, many of which include nonprofit work, education, medicine, and law. They've gone on to become:

- State representatives
- Intelligence analysts for the FBI
- Staff attorneys for the Choctaw Nation

- Nonprofit tax attorneys
- Attorneys and counselors at law
- Supervisors of library programs
- Special collections assistants at university research libraries
- Physical therapists
- Residents in family medicine
- Psychiatric physician assistants
- Caseworkers in child protective services
- Elementary school art teachers
- Program managers at the Family Safety Center
- Vicars, senior pastors, priests
- Occupational safety specialists
- AP statistics and mathematics instructors
- University faculty
- Freelance writers
- Managers in mortgage servicing

RELS can easily pair with double majors and multiple minors. Some RELS courses may count toward your major or minor and your GenEd requirements at the same time. Our website posts the Religious Studies course lists each semester.

Courses

RELS 1113 Introduction to Religious Studies 3 Credit Hours
Facilitates understanding of human behaviors and products that are identified as religious. Includes critical engagements with ideas and practices of authority, transcendence, value, meaning, and collectivity. Provides strong foundation in culturally-grounded critical thinking, a nuanced understanding of how humans construct their worlds, and the ability to interrogate forms of power. (F, Sp, Su) [IV-WC].

RELS 1123 Introduction to World Religions 3 Credit Hours
An introduction to some of the world's major religious traditions, including study of their internal diversity and how they change over time. Close attention is also paid to the ways the categories of "religion" and "world religions" shape the way we understand one another and the world around us. (F) [IV-WDC].

RELS 1213 Judaism and Christianity in Conversation and Conflict 3 Credit Hours
This course introduces students to academic study of Judaism and Christianity, including their relationship to one another in antiquity and today. Our approach is comparative, historical, and analytical as we examine the development of these major religious traditions over time and the diversity both between and within them. (Irreg.) [IV-WC].

RELS 1313 Religious Controversies in the United States 3 Credit Hours
This course will examine religious controversies as an engaging way to learn about the history of religion in the United States. These controversies will allow us to think critically about the ways differing historical circumstances and changing social attitudes affect what we perceive as a "controversy," as well as what a socially acceptable "solution" is. (Irreg.) [IV-WC].

RELS 2103 New Religions in the Modern US 3 Credit Hours
(Crosslisted with HIST 2103) Examines the history of minority groups in the U.S. religious landscape. We will focus on religious outsiders - those known variously as cults, sects, alternative religions, and new religious movements to gain understanding of their history. (Irreg.)

RELS 2133 History of Christian Traditions 3 Credit Hours
Explores Christian beliefs and practices from ancient origins to the present day. Examines key texts and observes how and why certain thinkers and events were crucial to the development of the Christian religious tradition, and how ideas and practices were contested (internally and externally) and adapted according to cultural context. (Sp) [IV-WC].

RELS 2303 Introduction to Islam 3 Credit Hours
An introduction to a selection of major Islamic beliefs, texts, stories, practices, rituals, ethical norms, institutions, and debates. History, concepts, and examples are presented with an eye toward interpreting writings by Muslim authors with a diversity of backgrounds and outlooks. (Irreg.) [IV-WDC].

RELS 2313 Religion and Black Popular Music 3 Credit Hours
Examines the relationship between black religions and black popular music in the U.S. Key areas of emphasis include the cultural, social, religious, political, and economic dimensions (the "context") of genres from spirituals to ragtime, blues, jazz, gospel, rock & roll, rhythm and blues, reggae, soul, disco, house, and hip hop. (Sp) [IV-AF].

RELS 2613 Pilgrims and Pilgrimage 3 Credit Hours
Prerequisite: Sophomore standing or permission of instructor. This course examines pilgrimage as a common feature among distinct modern-day and historical religions and assesses the role of pilgrimage in shaping western civilization. The course investigates the motivations of ancient, medieval, and modern pilgrims; considers the appeal of commercial pilgrimage in the twenty-first century; and reflects on the distinction between pilgrimage and tourism. (Irreg.) [IV-WC].

RELS 2653 Approaches to the Study of Religion 3 Credit Hours
Examines ways religion may be studied in order to better understand it. The course will include theory and the methodologies of the social sciences and humanities. (Sp) [IV-WC].

RELS 2703 History of Buddhist Traditions 3 Credit Hours
An introductory study of Buddhist traditions focusing on sacred texts and core concepts. Examines the historical development of Buddhism in India, the formation of Theravada, Mahayana, and Vajrayana Buddhism, and local variations in Southeast Asia, East Asia, and the modern West. (Irreg.) [IV-WDC].

RELS 2713 History of Hindu Traditions 3 Credit Hours
Introduces students to the historical development of the many traditions that come under the umbrella of what we now call "Hinduism." Particular attention paid to the ways in which Hindu ways of being have been influenced by many factors in South Asian history, and have constantly been debated and in flux. (Irreg.) [IV-WDC].

RELS 2960 Directed Readings 1-3 Credit Hours
1 to 3 hours. Prerequisite: permission of instructor. May be repeated; maximum credit six hours. Consists of topics designated by the instructor in keeping with the student's major. Topics will cover materials not usually presented in the regular course offerings. (F, Sp, Su)

RELS 2970 Special Topics 1-3 Credit Hours
1 to 3 hours. Prerequisite: May be repeated; maximum credit nine hours. Special topics course for content not currently offered in regularly scheduled courses. May include library and/or laboratory research, and field projects. (Irreg.)

RELS 3043 Special Topics in Religion, Social Organization & Politics 3 Credit Hours
Prerequisite: junior standing or permission of instructor. May be repeated with a change of content; maximum credit nine hours. An examination of issues and topics in religion, social organization and politics. (Irreg.

RELS 3103 Famous Bibles 3 Credit Hours
Prerequisite: Junior standing or permission of instructor. The Bible is one of the most famous books ever produced and distributed. But it wasn't always a book, and it has never been singular. The Bible exists in material form as varied and multiple. This course explores the historical circumstances of the production of particular bibles through attention to famous, and infamous, Bibles in Jewish and Christian history. (Irreg.)

RELS 3153 Jesus Interpreted 3 Credit Hours
Prerequisite: junior standing or permission of instructor. Examines varied portrayals of Jesus of Nazareth in literature, scholarship, and film, ranging from ancient gospels to contemporary scholarly and cinematic portrayals. Primary texts include canonical and non-canonical gospels from antiquity, modern scholarly reconstructions of the historical Jesus, and contemporary Jesus films. (Irreg.) [IV-WC].

RELS 3173 Women and the Bible 3 Credit Hours
Prerequisite: Junior standing or permission of instructor. A study of biblical literature through narratives from the Bible featuring women. Using a variety of perspectives, including historical, literary, and ideological approaches, we consider what these texts tell us about sex, gender, masculinity, and femininity in the ancient world and also how these texts have been interpreted through time to shape attitudes about women, gender, and sexuality. (Irreg.) [IV-WC].

RELS 3193 Biblical Literature 3 Credit Hours
Prerequisite: junior standing or permission of instructor. Examines Biblical texts to observe the Bible as the scriptural background of both Judaism and Christianity; modern scholarship and current debates surrounding the composition, themes, content, and dating of Biblical texts; historical and geographic circumstances surrounding the composition of biblical texts; the Bible as cultural inscription, the various ways the Bible is read today, and its impact on modern culture. (Irreg.) [IV-WC].

RELS 3233 Money, Power, and God(s): Religion and Economy East and West 3 Credit Hours
Prerequisite: Junior standing or permission of instructor. An exploration of the intertwining of religious and economic modes of human life, particularly in Euro-American and South Asian contexts. The course disrupts the received categories of "religion" and "economy" to uncover the ways that humans think about what is valuable, good, and precious and how they seek to create a world in which each emerges. (Sp) [IV-WDC].

RELS 3283 Religion, Colonialism, and Nationalism in India 3 Credit Hours
(Crosslisted with HIST 3283) Prerequisite: HIST 1923, HIST 2723, RELS 1123, or RELS 2713 or junior standing or permission of instructor. Examines the ways that boundaries between communities and polities have been made and unmade throughout South Asian history. We take British colonialism and anti-colonial nationalisms in modern India as our primary case study. (Irreg.) [IV-WDC].

RELS 3323 Religion and Social Change 3 Credit Hours
Prerequisite: Junior standing or permission of instructor. What is social change? What is religion? What is the relationship between religion and social change? This course examines how global movements have intersected with religious communities and practices in the 20th and 21st centuries in the hope of producing a world where all life, both human and non-human, can flourish. (Irreg.)

RELS 3353 Religion and Black Political Thought 3 Credit Hours
Prerequisite: Junior standing or permission of instructor. Examines the relationship between black religions and black political thought in the U.S. Key areas of emphasis include the cultural, social, religious, political, and economic dimensions (the "context") informing the "decolonial turn" in black religious and political thought. (Irreg.)

RELS 3440 Mentored Research Experience 3 Credit Hours
0 to 3 hours. Prerequisites: ENGL 1113 or equivalent, and permission of instructor. May be repeated; maximum credit 12 hours. For the inquisitive student to apply the scholarly processes of the discipline to a research or creative project under the mentorship of a faculty member. Student and instructor should complete an Undergraduate Research & Creative Projects (URCP) Mentoring Agreement and file it with the URCP office. Not for honors credit. (F, Sp, Su)

RELS 3533 The Qur'an 3 Credit Hours
Prerequisite: Junior standing or permission of instructor. Intensive study of the Qur'an, its major themes, and literary forms, with attention to a range of classical and contemporary discourses about the Qur'an, emphasizing the great variety of ways in which Muslims and non-Muslims have analyzed and interpreted the Qur'an. (Irreg.) [IV-WDC].

RELS 3543 Islamic Law 3 Credit Hours
Prerequisite: Junior standing or permission of instructor. A close reading and discussion of primary texts (scriptural, classical, and modern) and accounts of court cases, focused on one aspect of Islamic law such as equity, violence, authority, or gender. (Irreg.) [IV-WDC].

RELS 3563 Islamic Theology 3 Credit Hours
Prerequisite: junior standing or permission of instructor. A close reading and discussion of primary texts (the Qur'an creeds, classical theological arguments, and modern writings) on major theological problems such as salvation, God, revelation, and religious pluralism. (Irreg.) [IV-WDC].

RELS 3593 Hermeneutics: Approaches to Interpreting the Bible and the Qur'an 3 Credit Hours
Prerequisite: Junior standing or permission of instructor. A historical and philosophical excursion through the landscape of hermeneutics--the theory of how to interpret texts, especially scriptures. We will explore how Christians, Muslims, and modern European philosophers have answered the question of where meaning comes from and how it should be discovered (or created), focusing on how to interpret the Bible and the Qur'an. (Sp)

RELS 3613 Roman Religion 3 Credit Hours
(Crosslisted with HIST 3613) Prerequisite: junior standing or permission of instructor. The course examines religious practices and beliefs in the Roman world from the founding of the Roman Republic to Late Antiquity, including conceptions of the divine, ways of worshiping the gods, civic and private religion, conceptions of the afterlife, magic, the mystery religions and salvation, and philosophical religions, through a survey of literary and archaeological evidence. (Irreg.)

RELS 3623 Paul and Christian Origins 3 Credit Hours
Prerequisite: junior standing or permission of the instructor. Explores who Paul claimed to be within his own Jewish and then Greco-Roman first-century context. Explores the letter-writing medium, his view of law, the role of women, resurrection and afterlife, and his goals for the church. (Irreg.)

RELS 3733 Tibetan Buddhism 3 Credit Hours
Prerequisite: junior standing or permission of instructor. A survey of Tibetan Buddhism, sometimes referred to as "Vajrayana" or "Tantric Buddhism," considered in relation to the socio-cultural history of late Medieval India. Themes include monastic institutions, reincarnate lama traditions, death and dying, and contemporary political issues. A major theme will be the "image of Tibet"--the mythologization of Tibet, the Tibetan people, and their culture in foreign imagination. (Irreg.) [IV-WDC].

RELS 3743 History of Daoist Traditions 3 Credit Hours
Prerequisite: junior standing or permission of instructor. Examines history, practices, and worldviews of the greater Daoist tradition as it developed and took shape over Chinese history focusing on the social and cultural forces that shaped its development, and the views, practices, and goals of specific Daoist schools. A study of the formation of Daoist identity and community, material culture, construction of sacred space, and self-cultivation techniques. (Irreg.) [IV-WDC].

RELS 3763 Chinese Religions 3 Credit Hours
Prerequisite: Junior standing or permission of instructor. This course introduces students to major religious traditions of China: Confucianism, Daoism, Buddhism, and popular religion. These religious traditions are considered in reference to the historical development of their respective worldviews, practices, and institutions as well as the manner in which they have mutually influenced each other over the course of that historical development. (Sp) [IV-WDC].

RELS 3773 Altered States of Consciousness 3 Credit Hours
Prerequisite: Junior standing or permission of instructor. Altered states of consciousness are conditions of subjectivity noticeably different from one's ordinary waking consciousness. They are common human experiences that are induced, experienced, and interpreted variously across cultures and religious traditions. This course introduces altered states of consciousness as an object of critical inquiry, considers different techniques for inducing them, and examines how they are incorporated into religious cultures. (Irreg.) [IV-WDC].

RELS 3813 Animals, Art, and Religion 3 Credit Hours
Prerequisite: Junior standing or permission of instructor. This interdisciplinary seminar analyzes recent work in animal studies that bridges religious studies, Black studies, Native American studies, feminist and queer theory, anthropology, performance studies, biology, and art history. We'll explore the significance of representational forms in shaping understandings of animality and religion across a variety of artistic practices, including film, theater, photography, poetry, sculpture, painting, and literature. (Irreg.)

RELS 3823 Queer Religion 3 Credit Hours
(Crosslisted with WGS and LGBT 3823) Prerequisite: Junior standing or permission of instructor. This interdisciplinary seminar engages a range of methods and theoretical approaches to queer studies and religion. The course explores questions including: What is the relationship between queer life and religious life? Is religion ever queer? Is queerness ever religious? What do scholars mean when they label religion (or other objects of study) as queer or queer-able? (Irreg.) [IV-WC].

RELS 3833 Archaeology of the Lands of the Bible 3 Credit Hours
(Crosslisted with HIST 3833) Prerequisite: junior standing. Examines the lands, cultures, and people associated with the Hebrew Bible and the New Testament through a chronological survey of archaeological evidence and investigates the relationship between archaeology and biblical texts. The course also investigates archaeological evidence for Jewish and Christian practices in late Roman Palestine as well as archaeological and architectural evidence for early Islamic Jerusalem. (Sp) [IV-WC].

RELS 3853 Sin and History 3 Credit Hours
Prerequisite: Junior standing or permission of instructor. This seminar examines how Christian ideas about sin have intersected with race, sexuality, and gender throughout American history. If sin haunts America's past and present, what are the perils and possibilities of talking about sin and history? We will investigate this question by engaging feminist and queer theory, Black studies, literature, film, history, religious studies, and Christian theology. (Irreg.) [IV-WC].

RELS 3893 Greek Religion 3 Credit Hours
(Crosslisted with HIST 3893) Prerequisite: junior standing or permission of instructor. Examines the religious rituals, beliefs, and sacred sites of the ancient Greeks. Considers such topics as the relationship between myths and ritual, sacred time and space, concepts of the afterlife, and the role of religion in the family and city-state. (Irreg.)

RELS 3900 Special Topics 1-4 Credit Hours
1 to 4 hours. Prerequisite: junior standing or permission of instructor. May be repeated with change of topic; maximum credit nine hours. Topics in Religious Studies not accommodated by the existing curriculum. (Irreg.)

RELS 3960 Honors Reading 1-3 Credit Hours
1 to 3 hours. Prerequisite: Admission to Honors Program. May be repeated; maximum credit six hours. Consists of topics designated by the instructor in keeping with the student's major program. Topics will cover materials not usually presented in the regular course offerings. Will provide an opportunity for the gifted Honors candidate to work at a special project in the student's field. (F, Sp, Su)

RELS 3970 Honors Seminar 1-3 Credit Hours
1 to 3 hours. Prerequisite: admission to Honors Program. May be repeated; maximum credit six hours. Subjects covered vary. Deals with concepts not usually treated in regular courses. (Irreg.)

RELS 3980 Honors Research 1-3 Credit Hours
1 to 3 hours. Prerequisite: Admission to Honors Program. May be repeated; maximum credit six hours. Consists of topics designated by the instructor in keeping with the student's major program. Topics will cover materials not usually presented in the regular offerings. Will provide an opportunity for the gifted Honors candidate to work at a special project in the student's field. (F, Sp, Su)

RELS 3990 Independent Study 1-3 Credit Hours
1 to 3 hours. Prerequisite: 1113, Anthropology 1823, Philosophy 1203 or 2403; junior standing, and permission of instructor. May be repeated; maximum credit six hours. Through a written contract, independent study may be arranged for a topic not currently offered in regularly scheduled courses. Independent study may include library and/or field projects. (F, Sp, Su)

RELS 4053 History of Magic 3 Credit Hours
(Crosslisted with HSTM and HIST 4053) Prerequisite: Junior standing or permission of instructor. This course is an investigation of the category of magic, magical practices, and the place of magic in society from antiquity to the modern world. (Irreg.) [IV-WC].

RELS 4323 Capstone 3 Credit Hours
Prerequisite: Major in Religious Studies and permission of instructor. Capstone provides the opportunity to integrate knowledge about the major and apply it to a project culminating in a presentation and senior paper. The project will develop a selected problem, issue, or controversy in religious studies. (F, Sp) [V].

RELS 4640 Field Study in Religious Studies 1-6 Credit Hours
(Slashlisted with RELS 5640) 1 to 6 hours. Prerequisite: junior standing and permission of instructor or RELS program. May be repeated with change of content/location; maximum credit 12 hours. Students participate in excavation and field study of material culture. Course combines lectures, lab, discussion, and/or research. The subject matter depends upon the specific summer session. No student may earn credit for both 4640 and 5640 for the same content/location. (Su)

RELS 4960 Directed Readings 1-4 Credit Hours
1 to 4 hours. Prerequisite: good standing in University; permission of instructor and dean. May be repeated; maximum credit four hours. Designed for upper-division students who need opportunity to study a specific problem in greater depth than formal course content permits. (Irreg.)

RELS 4970 Special Topics/Seminar 1-3 Credit Hours
1 to 3 hours. Prerequisite: Senior standing or permission of instructor. May be repeated; maximum credit nine hours. Special topics or seminar course for content not currently offered in regularly scheduled courses. May include library and/or laboratory research and field projects. (Irreg.)

RELS 4990 Independent Study 1-3 Credit Hours
1 to 3 hours. Prerequisite: 1113, Anthropology 1823, Philosophy 1203 or 2403; senior standing, and permission of instructor. May be repeated; maximum credit six hours. Through a written contract, independent study may be arranged for a topic not currently offered in regularly scheduled courses. Independent study may include library and/or field projects. (F, Sp, Su)

RELS 5640 Field Study in Religious Studies 1-6 Credit Hours
(Slashlisted with RELS 4640) 1 to 6 hours. Prerequisite: graduate standing, permission of instructor or RELS program. May be repeated with a change of content/location; maximum credit twelve hours. Students will participate in excavation and field study of material, social, and visual culture. Combines lectures, lab, discussion, and/or research. The subject matter depends upon the specific summer session. No student may earn credit for both 4640 and 5640. (Su)

RELS 5960 Independent Study In Religious Studies 1-3 Credit Hours
1 to 3 hours. Prerequisite: graduate standing and/or permission of instructor. May be repeated with change of content; maximum credit nine hours, maximum of six hours with one professor/instructor. Independent study/directed reading arranged between the professor and student on a special topic in religious studies, to give students the opportunity to complete intensive readings in field of study under direct guidance of the student's advisory committee. F, Sp, Su)

RELS 5970 Special Topics/Seminar 1-3 Credit Hours
1 to 3 hours. Prerequisite: Graduate standing or permission of instructor. May be repeated; maximum credit nine hours. Special topics or seminar course for content not currently offered in regularly scheduled courses. May include library and/or laboratory research and field projects. (Irreg.)

RELS 5990 Independent Study 1-3 Credit Hours
1 to 3 hours. Prerequisite: Graduate standing and permission of instructor. May be repeated; maximum credit nine hours. Contracted independent study for a topic not currently offered in regularly scheduled courses. Independent study may include library and/or laboratory research and field projects. (Irreg.)

RELS 6960 Advanced Readings in Religious Studies 1-3 Credit Hours
1 To 3 Hours. Prerequisite: permission of instructor; student must be at PhD level. May be repeated with change of content; maximum credit nine hours. Advanced independent study/directed reading, arranged between the professor and student on a special topics in religious studies. Designed to give students the opportunity to complete intensive readings in field of study under direct guidance of his/her advisory committee. (F, Sp, Su)

RELS 6970 Special Topics/Seminar 1-3 Credit Hours
1 to 3 hours. Prerequisite: graduate standing or permission of instructor. May be repeated; maximum credit 12 hours. Special topics or seminar course for content not currently offered in regularly scheduled courses. May include library and/or research and field projects. (Irreg.)

RELS 6990 Independent Study 1-3 Credit Hours
1 to 3 hours. Prerequisite: Graduate standing and permission of instructor. May be repeated; maximum credit nine hours. Contracted independent study for a topic not currently offered in regularly scheduled courses. Independent study may include library and/or laboratory research and field projects. (Irreg.)

Religious Studies, B.A.

Minimum Total Credit Hours: 120
Major Hours: 30
Minimum Upper-Division Hours: 48
Upper-Division Hours Within Major: 15

Overall GPA - Combined and OU: 2.25
Major GPA - Combined and OU: 2.25

Program Code: B820

Major Requirements

- Some courses required for the major may also fulfill University General Education and/or Dodge College of Arts & Sciences Requirements.
- No course may be used more than once to satisfy major requirements, and courses counted for the major may not be used for other majors or minors, except for support requirements.
- The major requires at least 30 hours with at least 15 hours of upper-division courses.
- **A grade of C or better must be earned for each course fulfilling requirements for the Religious Studies degree.**

Code	Title	Credit Hours
Required Courses		
RELS 2653	Approaches to the Study of Religion	3
RELS 4323	Capstone	3
Major Electives		
Choose 24 hours of major electives; at least 15 hours must be RELS courses, the remaining 9 hours may be chosen from the approved list of elective courses maintained by the department (p. 756)		24
Total Credit Hours		**30**

General Education and College Requirements

Courses for fulfillment of General Education and Dodge College of Arts & Sciences requirements must be from the approved General Education course list published in the Class Schedule or at http://www.ou.edu/gened/courses. **Courses graded P/NP will not apply.**

MINIMUM OF 40 HOURS REQUIRED FOR UNIVERSITY-WIDE GENERAL EDUCATION

Code	Title	Credit Hours
Core Area I: Symbolic and Oral Communication		
English Composition (6 hours)		
ENGL 1113	Principles of English Composition	3
ENGL 1213	Principles of English Composition	3
or EXPO 1213	Expository Writing	
Language (0-13 hours in the same language)		
The college requirement cannot be met by high school coursework.		
Beginning Course		0-5
Beginning Course, continued		0-5
Intermediate Course (2000 level) [1,2]		0-3
Mathematics (3 hours)		
Choose one course from the General Education Mathematics list		3
Core Area II: Natural Science (7 hours, including one laboratory component)		
Biological Science		
Choose an approved General Education Natural Science course with one of the following prefixes: BIOL, HES, MBIO, or PBIO [1]		3-4
Physical Science		
Choose an approved General Education Natural Science course with one of the following prefixes: AGSC, ASTR, CHEM, GEOG, GEOL, GPHY, METR, or PHYS [1]		3-4
Core Area III: Social Science (6 hours)

Choose one course		3
Total Credit Hours		**56**

1. College of Arts and Sciences Requirements: college requirements are not automatically fulfilled by a previous degree.
2. One course at the intermediate level or demonstrated competency at that level
3. 6 upper-division hours, 2 courses, at the 3000- 4000-level. ***Must be outside the major.***

Free Electives

Electives to bring total applicable hours to the minimum total required for the degree including 48 upper-division hours.

Information Concerning General Rules, Regulations and Minimum Requirements

Arts and Sciences Hours: At least 80 semester hours of liberal arts and sciences courses are required for a BA degree. At least 55 semester hours of liberal arts and sciences courses are required for a BS degree.
Pass/No Pass Enrollment: A maximum of 16 semester hours of free elective credit may be attempted under this option.
Individual Studies (e.g., courses titled "Independent Study"): A maximum of 12 total semester hours may be counted toward graduation, excluding Honors Reading and Honors Research.
P.E. Courses: No physical education activity courses will be counted toward the 120 semester hours of acceptable credit for graduation.

Senior Institution Hours: A minimum of 60 semester hours applied toward graduation must be earned at senior (4-year) institutions.
Residency:

- At least 15 of the final 30 hours applied toward the degree or at least 50 percent of the hours required by the institution in the major field must be satisfactorily completed at the awarding institution.
- At least 15 semester hours of upper-division major work must be completed in residence at OU.
- OU correspondence courses are ***not*** considered resident credit.

Grade Point Averages: Students must earn a minimum over all 2.00 for each of the following: Combined Retention GPA (all college grades), OU Retention GPA, GPA for all major courses, and GPA for all major courses taken at OU. Some schools and departments of the College have higher minimum grade point averages required for their students.

Suggested Semester Plan of Study

This plan shows one possible grouping of courses that would allow students to graduate in four years. Please refer to the front of the degree checksheet for official requirements. Students must consult with Dodge College of Arts and Sciences and Department of Religious Studies academic advisors to verify that courses selected each semester fulfill the recommended plan and satisfy University, College of Arts and Sciences, and Religious Studies major requirements.

	Total Credit Hours	**120**

[1] If the Western Civilization & Culture Gen. Ed. requirement is satisfied by a major course, a lower-division elective is to be selected.
[2] If the World Culture Gen. Ed. requirement is satisfied by a major course, a lower-division elective is to be selected.
[3] The Religious Studies major requires 24 hours of major electives: 15 hours must be RELS courses; the remaining 9 hours may be chosen from the list of approved electives maintained by the department. Since 15 upper-division hours are required within the major, some of the major elective courses listed in the semester grid must be selected at the upper-division level to ensure this requirement is met.

Religious Studies Major Elective Lists

- **For the most current course lists, please contact the Department of Religious Studies**
- **Required courses: RELS 2653 Approaches to the Study of Religion (3 hours) and RELS 4323 Capstone (3 hours)**
- At least 24 total major elective hours are required for the B.A. in Religious Studies.

Approved RELS Courses (at least 15 hours required)

Code	Title	Credit Hours
RELS 1113	Introduction to Religious Studies	3
RELS 1123	Introduction to World Religions	3

Religious Studies, Minor

Minimum Total Credit Hours: 15
Minimum Upper-Division Hours: 9

Program Code: N820

- **The requirements for a minor must be completed concurrently with the major degree requirements.**
- **No minor may be added by completing courses after receiving the bachelor's degree.**

At least six (6) credit hours must be earned in courses acceptable for residence credit by standards set forth by the Dodge College of Arts and Sciences, excluding transfer, correspondence, and examination (AP, CLEP, Advanced Standing) credit. Courses for the minor may not be taken Pass/No Pass.

No single course may be used by a student to satisfy a major requirement and a minor requirement. A course may be used, however, to satisfy both a major support requirement and a minor requirement.

Requests to substitute a minor requirement must be approved in writing by the Department of Religious Studies.

Required Courses

Students must successfully complete at least 15 hours of coursework, with at least 12 hours in Religious Studies, including at least nine (9) hours at the upper-division level.

Code	Title	Credit Hours
Choose 12 hours of RELS courses, 9 hours of which must be upper division		12
Choose 3 hours from the acceptable elective course list maintained by the department (p. 756)		3
Total Credit Hours		**15**

- Minors in the Dodge College of Arts & Sciences are available to all undergraduate students at OU. If the minor is officially declared, successfully completed, and noted on the graduation application, the student's transcript will so indicate at the time the bachelor's degree is posted.

Asian Religions, Undergraduate Certificate

Minimum Total Credit Hours: 15
Minimum Upper-Division Hours: 9

Curriculum GPA - Combined and OU: 2.25

Program Code: T032

This program is PENDING approval for DELETION

Certificate Requirements

This certificate requires 15 hours, 9 hours of which must be upper division.

Reserve Officers Training Corps

The Reserve Officers' Training Corps is a group of college and University-based officer training programs for training commissioned officers of the United States Armed Forces. While ROTC graduate officers serve in all branches of the U.S. military, the U.S. Marine Corps and the U.S. Coast Guard do not have their own respective ROTC programs but graduates of Naval ROTC programs have the option to serve as officers in the Marine Corps contingent on meeting Marine Corps requirements.

Commissioning opportunities in the Air Force, Army, Marines, Navy at the University of Oklahoma:

- Air Force ROTC - Aerospace Studies (p. 760)
  - Aerospace Studies, Minor (p. 761)
- Army ROTC - Military Science (p. 761)
  - Military Science, Minor (p. 764)

- Naval ROTC - Naval Science (p. 764)
  - Naval Science, Minor (p. 766)

Air Force ROTC - Aerospace Studies

General Information

For over 60 years, some of the best and brightest from the University of Oklahoma (OU) Detachment 675 have served their country as pilots, navigators, space operations officers, engineers, doctors, nurses, mathematicians, communications officers, acquisition managers, and a host of other occupations. Today, that tradition continues for the cadets at the Air Force Reserve Officer Training Corps (Air Force ROTC) Detachment 675 on the Norman campus.

Air Force ROTC offers men and women the opportunity to earn a commission as an Air Force or Space Force officer while they complete requirements for their first bachelor's degree. Interested students may join Air Force ROTC during any semester in their first year of college and during the Fall of their second year of college without any obligation or commitment. OU students completing the entire program will also earn a minor in Aerospace Studies.

Air Force ROTC is the largest and oldest source of commissioned officers for the U.S. Air Force. Air Force ROTC's stated mission is to "develop premier leaders of character for tomorrow's Air Force." Air Force ROTC units are located on 140 college and university campuses with 1,000 additional institutions of higher learning participating in cross-town agreements that allow their students to attend Air Force ROTC classes at a nearby "host" college or university.

Anyone interested in a challenging and rewarding opportunities to study and work with some of our nation's best women and men should contact the Recruiting Officer at afrotc@ou.edu or call us at (405) 325-3211. You may also visit our web page.

Commissioning Requirements Through Air Force ROTC

All requirements must be met for a degree according to the University of Oklahoma, as well as completion of certain courses required by the Department of the Air Force.

Air Force ROTC Benefits

Air Force ROTC can help students with the high cost of earning a college degree. The Department of the Air Force also offers a competitive benefits package as compared to other career opportunities upon completion of an undergraduate or graduate degree. In addition to these benefits, participants appreciate the team spirit that comes with being a member of Air Force ROTC, and enjoy social and extracurricular activities.

Scholarships

High School Seniors or Graduates

Competitive scholarships are available to high school seniors and high school graduates not enrolled full-time in college. Although the Department of the Air Force needs engineering, mathematics, computer science, meteorology, physics, language and nursing majors, many scholarships are also available to those in non-technical degree programs including world languages. Students must apply for scholarships online.

In-College Students

Air Force ROTC awards partial and full tuition scholarships available for qualified applicants. For more information and an on-line application visit the Air Force ROTC website. Along with tuition money, scholarship recipients receive a textbook allowance each semester and a monthly living expenses stipend during the academic year.

Minor

OU students who complete the entire program will earn an Aerospace Studies Minor (p. 761).

Courses

AERO 1011 Introduction to the Department of the Air Force - Heritage and Values 1 Credit Hour
Prerequisite: concurrent enrollment in AERO 1300. This course provides an introduction to the Air and Space Forces, hopefully encouraging students to pursue an AF career. The course also lays the foundation for becoming an Air or Space professional by outlining our heritage and values. As a foundational course, AERO 1011 also provides a historical perspective with lessons on war, AF operations, and principles of airpower. (F)

AERO 1021 The Air Force Today 1 Credit Hour
Prerequisite: departmental permission; concurrent enrollment in 1300. A study of aerospace defense, missile defense, general purpose forces and aerospace support forces. The mission, resources and operation of tactical air forces, with special attention to limited war; and a review of Army, Navy and Marine general purpose forces. (Sp)

AERO 1300 Leadership Laboratory 0 Credit Hours
Prerequisite: concurrent enrollment in AERO 1011, 1021, 2011, 2021, 3013, 3023, 4013 or 4023 or permission. Designed to introduce the student to the customs and courtesies associated with the Air Force. Also provides a practicum for the initial development of leadership and command abilities. (F, Sp)

AERO 2011 Team and Leadership Fundamentals I 1 Credit Hour
Prerequisite: Corequisite: AERO 1300. This course is designed to provide a fundamental understanding of both leadership and team building. It is imperative that students are taught from the beginning that there are many layers to leadership, including listening, understanding themselves, being a good follower and problem solving efficiently. Students should demonstrate basic verbal and written communication skills. (F)

AERO 2021 Team and Leadership Fundamentals II 1 Credit Hour
Prerequisite: Corequisite: AERO 1300. This course is designed to continue providing a fundamental understanding of both leadership and team building. It is imperative that students are taught from the beginning that there are many layers to leadership, including listening, understanding themselves, being a good follower and problem solving efficiently. Students should demonstrate basic verbal and written communication skills. (Sp)

AERO 3013 Air Force Leading People and Effective Communication I **3 Credit Hours**
Prerequisite: Departmental Permission; Corequisite: AERO 1300. This course is designed to build on the leadership fundamentals taught in AERO 2021. The students will have the opportunity to utilize their skills as they begin more of a leadership role in the detachment. The goal is for students to have a more in-depth understanding of how to effectively lead people. Concurrent enrollment in AERO 1300 is required. (F)

AERO 3023 Air Force Leading People and Effective Communication 2 **3 Credit Hours**
Prerequisite: AERO 3013 or Departmental Permission; Corequisite: AERO 1300. This course is designed to build on the leadership fundamentals taught in AERO 3013. The students will have the opportunity to utilize their skills as they begin more of a leadership role in the detachment. The goal is for students to have a more in-depth understanding of how to effectively lead people. Concurrent enrollment in AERO 1300 is required. (Sp)

AERO 4013 American National Security I **3 Credit Hours**
Prerequisite: 3023 or departmental permission. Conceptual study of the U.S. national security policy examining the formulation, organization and implementation of national security; the context of national security; the evolution of strategy; and the management of conflict. Included is a block of instruction on the military justice system. Concurrent enrollment in 4100 is required. (F)

AERO 4023 American National Security II **3 Credit Hours**
Prerequisite: 4013 or departmental permission. Examines U.S. national security policy in the international setting; arms control and peacekeeping efforts; and civil-military interaction. Includes a study of the military profession and officership. Designed to provide future Air Force officers with a background in the profession and U.S. national security policy so that they can function effectively in today's Air Force. Concurrent enrollment in 4100 is required. (Sp)

Aerospace Studies, Minor

Minimum Total Credit Hours: 16
Minimum Upper-Division Hours: 12

Program Code: N013

The requirements for a minor must be completed concurrently with the major degree requirements.

No minor may be added by completing courses after receiving the bachelor's degree.

No single course may be used by a student to satisfy a major requirement and a minor requirement. A course may be used, however, to satisfy both a major support requirement and a minor requirement.

Both two and four-year Air Force ROTC programs are offered.

Students who elect not to participate in the General Military Course may substitute a five-week summer field training period for this requirement.

Four-year cadets participate in a four-week training period during the summer between their sophomore and junior years.

Required Courses

Code	Title	Credit Hours
General Military Course		
AERO 1011	Introduction to the Department of the Air Force - Heritage and Values	1
AERO 1021	The Air Force Today	1
AERO 2011	Team and Leadership Fundamentals I	1
AERO 2021	Team and Leadership Fundamentals II	1

FAX: (405) 325-3320
ouarmyrotc@ou.edu
www.soonerstrong.com

General Information

The training goals of the OU Army ROTC are to develop cadets mentally, physically, and scholastically. The course focuses on developing basic soldier skills, leadership qualities, physical fitness, and officership. The intent of the program is to prepare college-age men and women to lead American Soldiers in armed conflict. Upon graduation those who complete their Military Science and degree requirements will be commissioned as second lieutenants and serve as officers in either the Active Army, Army National Guard or Army Reserve.

Since Army ROTC is a university elective course, enrollment into Army ROTC can be done online or through your OU academic advisor **after** being accepted into The University of Oklahoma.

Contact Army ROTC for more information concerning requirements and enrollment..

Minor in Military Science

Cadets cannot major in Military Science, but have the option of adding the Minor in Military Science (p. 764) to their degree. To enroll in this option students should see their academic counselor.

Green to Gold

The Green to Gold program seeks talented young enlisted soldiers who have decided to leave, or are considering leaving, active duty to attend college. Quality enlisted soldiers with officer potential who have served at least two years on active duty are allowed to voluntarily request discharge from active duty, and enroll in Army ROTC to earn baccalaureate degrees and commissions as Second Lieutenants.

Critical Language Incentive Program

Cadets studying any of 70 languages designated by the Department of the Army as "critical" can receive up to $2,500 each year for receiving passing grades. Current languages eligible for the bonus pay include Arabic, Chinese, Japanese, Korean, Pashto, Persian, Portuguese, Russian and over 60 more. This program is eligible to Basic Course and Advanced Course cadets. To apply, students must submit a proposal to the Professor of Military Science at the beginning of the semester. Bonuses are paid at the end of the semester in which a successful grade was achieved.

Ranger Challenge

Ranger Challenge is the varsity sport of Army ROTC. Each year students compete for a spot on an eight-man team to compete against other colleges in a series of military events. Events include a medical assault course, grenade assault course, one rope bridge, assembly/dis-assembly of an M16 rifle, obstacle course, improvised raft course, and a 10k ruck march. Try-outs are rigorous, and the training requires a commitment of additional time and dedication. Winners of regional competitions go on to compete at the national level against ROTC departments from across the country.

Summer Training Opportunities

Each summer selected students who are enrolled in Military Science have the opportunity to attend Airborne, Air Assault, Mountain Warfare training, or Cadet Troop Leader Training. These courses are offered to cadets on a voluntary and limited basis. Unlike CIET and CLC, which are specifically for ROTC cadets, these are regular US Army courses and cadets attend right along side current Army soldiers and officers.

Simultaneous Membership Program

The Simultaneous Membership Program (SMP) allows enlisted members of the National Guard and Army Reserve to enroll in ROTC courses as a means of earning an officer's commission. While in the SMP students continue to drill with their current unit while taking Military Science courses, but are given the rank of cadet, are placed in officer trainee positions within their units, receive E-5 drill pay, and are non-deployable for as long as they are in school. SMP cadets receive all the tuition benefits available from the National Guard or Army Reserve in addition to ROTC benefits, such as the monthly stipend and scholarship opportunities. Upon graduation SMP participants have the option of serving on Active Duty, or part-time in the National Guard or Army Reserves.

SMP Scholarship Opportunities

Students currently serving (or soon enlisting) in the Army National Guard or Army Reserves can apply for the Dedicated Reserve component scholarships for either the National Guard or US Army Reserves. With a Dedicated Scholarship Reservists and Guardsmen continue to drill with their current unit while enrolled in Military Science, and receive National Guard or Army Reserve education benefits in addition to the scholarship benefits listed above. Please speak to a scholarship and enrollment officer for full details. Upon graduation, DED scholarship winners will not be considered for Active Duty appointments, and serve their military commitment with part-time service as officers in the Army National Guard or Army Reserves.

SMP Non-Scholarship Opportunities

Eligible students, who do not wish to obligate their military career to a Reserve component, may compete to serve Active Duty upon commissioning. This opportunity will include a promotion to E-5 and a monthly ROTC stipend. Students may also be eligible for any benefits earned; Montgomery GI Bill, GI Bill Kicker, or Post 9-11 GI Bill®[1] Benefits.

Campus-Based Scholarship Program

Campus-based scholarships are available to eligible students at the University of Oklahoma and are merit based; awarded to students that are enrolled in the Army ROTC Program and apply for a scholarship. These cadets prove themselves through their moral character, college GPA, leadership potential, and PT test scores. Application can be made by contacting the Military Science Department.

High School Scholarship Program

The High School Scholarship application process is for high school students planning on attending a four-year college program. Contact your high school academic advisor or campus Military Science department for more information.

Financial Assistance

All students enrolled in Military Science are furnished with necessary military science textbooks, equipment and uniforms at no cost. All advanced course students and scholarship winners are paid a monthly stipend. The OU Army ROTC can provide tuition assistance each year based on merit and need. There are over a dozen other military scholarships and awards that students may compete for each year. Award deadlines and requirements vary and require current enrollment in Military Science classes.

Veterans

Qualified veterans may receive Basic Course credit enabling them to complete Army commissioning requirements in two years in the Advanced Course. Veterans receive the same benefits as other students in addition to their GI Bill and VA benefits. Veterans, as well as current Army Reserve and National Guard soldier/students, are also eligible to compete for scholarships.

Medical/Pre-Med Students

Army ROTC provides a pathway to becoming an Army doctor (including dentists and veterinarians) in specialties ranging from Anesthesiology and Cardiology to Radiology and Vascular Surgery. Cadets with pre-med majors receive the same training—with the same requirements—as every other cadet while they complete ROTC. Upon graduation they are commissioned as second lieutenants, but instead of immediately beginning their officer service, cadets who are accepted into a medical school may delay their military obligation until completion of the medical training, at which time they enter service as officers in the Army Medical (Dental, or Veterinarian) Corps.

After completing a bachelor's degree, opportunities for fully-funded medical training are available under two programs: the Armed Forces Health Professions Scholarship Program (HPSP), and the Uniformed

Services University of the Health Sciences (USUHS). The HPSP scholarship can be used at any accredited medical school in the United States, and includes full tuition and a stipend of over $2000 per month. USUHS is a DOD medical school located in Bethesda, MD, and offers free tuition plus second lieutenant pay, benefits and allowances for all four years of school.

[1] GI Bill® is a registered trademark of the U.S. Department of Veterans Affairs (VA). More information about education benefits offered by VA is available at the official U.S. government Web site at http://www.benefits.va.gov/gibill.

Courses

M S 1011 Military Conditioning 1 Credit Hour
A physical conditioning course using exercises developed for use by the US Army and classroom instruction. This is a progressive program of exercise that promotes muscular strength and endurance, cardio-respiratory endurance, flexibility, and a healthy body fat content. Classroom instruction includes nutrition and the aspects of physical fitness in accordance with military service. (F, Sp, Su)

M S 1113 Introduction to Leadership I 3 Credit Hours
Introduction to the organization of the US Army and the ROTC program. Overview of leadership principles, problem solving, military fitness, and effective communication. Introduces small unit tactics, map reading, land navigation, and the principles of officership. Laboratory (F)

M S 1213 Adaptive Leadership and Professional Competence 3 Credit Hours
Prerequisite: MS 1113 or department permission. Introduces students to the personal challenges and competencies that are critical for adaptive leadership. Students learn the basics of the communications process and the importance for leaders to develop the essential skills to effectively communicate in the Army. Students will examine the Army Profession and what it means to be a professional in the U.S. Army. Laboratory. (Sp)

M S 2323 Foundations of Leadership I 3 Credit Hours
Prerequisite: M S 1113 and M S 1213; or permission of the department. Examines the challenges of leading tactical teams in the complex Contemporary Operating Environment. Highlights dimensions of terrain analysis, patrolling, and operation orders. Further study of the theoretical basis of the Army leadership framework. Covers troop leading procedures, Army problem solving, land navigation, squad organization, fundamentals of the offense and defense, and battle drills. Laboratory (F)

M S 2423 Foundations of Leadership II 3 Credit Hours
Prerequisite: M S 2323, or permission of department. Develops knowledge, understanding and skill in land navigation, military operations, leadership and basic tactics. Instruction focuses on applying leadership and management theory to the area of organization effectiveness. Laboratory (Sp)

M S 3123 Adaptive Team Leadership 3 Credit Hours
Prerequisite: M S 2423. Uses increasingly intense situational leadership challenges to build skill in leading tactical operations. Exercises focus on platoon level tactics in combat, stability, and support operations. Students conduct military briefings and develop proficiency in preparing orders, decision making, and building effective teams. Laboratory (F)

M S 3223 Applied Team Leadership 3 Credit Hours
Prerequisite: M S 3123. Theory, methods and principles for understanding leadership and behavior in groups. Analysis of the leader's role in directing and coordinating the efforts of individuals and small units in the execution of offensive and defensive tactical missions, to include communication systems, internal defense/development and the military team; intelligence gathering, and the role of the various branches of the Army. Laboratory (Sp)

M S 3413 United States Military History and Heritage: 1607-Present 3 Credit Hours
Prerequisite: M S 1113, M S 1213, and ENGL/EXPO 1213; or Departmental Permission. This course will develop a student's awareness of the relationship of the U.S. military to American society. It will cover the evolution of war and strategy, the progression of military professionalism, the history and purpose of joint operations, as well as the role of history and heritage in understanding the US Army as a profession. Commissioning requirement for Army ROTC. (F, Sp)

M S 3440 Mentored Research Experience 3 Credit Hours
0 to 3 hours. Prerequisite: ENGL 1113 or equivalent, and permission of instructor; May be repeated, maximum credit 12 hours. For the inquisitive student to apply the scholarly processes of the discipline to a research or creative project under the mentorship of a faculty member. Student and instructor should complete an Undergraduate Research & Creative Projects (URCP) Mentoring Agreement and file it with the URCP office. Not for honors credit. (F, Sp, Su)

M S 3980 Honors Research 1-3 Credit Hours
1 to 3 hours. Prerequisite: admission to Honors Program; May be repeated, maximum credit six hours. Provides an opportunity for the gifted Honors candidate to work at a special project in the student's field. (F, Sp, Su)

M S 4213 Seminar in Leadership and Management 3 Credit Hours
Prerequisite: advanced standing in military science. Analysis of selected leadership and management problems involved in staff organization and function, and military justice. Application of leadership principles, stressing responsibilities of the leader, and affording experience through practical exercises. Obligations and responsibilities of an officer on active duty; chain of command; and officer-enlisted relationships. Laboratory (Sp)

M S 4223 Mission Command and the Company Grade Officer 3 Credit Hours
Prerequisite: M S 4123. Introduces students to the challenges of mission command and gaining an understanding of the Army Profession. Students learn the basics of what mission command is and how it is used in Army operations. Students will examine the Army Profession and what it means to be a professional in the U.S. Army. (Sp)

M S 4510 Seminar in Military Leadership 1-3 Credit Hours
1 to 3 hours. Prerequisite: junior standing and permission of department. May be repeated with change of content; maximum credit nine hours. Students will learn various theories of leadership and organizational culture and gain practical experience in the application of those theories within a peer leadership setting. Additionally, the course may include elements of military history, social theory, ethics, and military law. (Irreg.)

M S 4610 Comparative Military History 1-3 Credit Hours
1 to 3 hours. Prerequisite: 3610 or permission of department chair. May be repeated; maximum credit three hours. Students will examine events leading to national and world crisis. Focus points will be socio-economic as well as goals and personalities of political and military leaders. (F, Sp)

Military Science, Minor

Minimum Total Credit Hours: 15

Program Code: N700

The requirements for a minor must be completed concurrently with the major degree requirements.

No minor may be added by completing courses after receiving the bachelor's degree.

No single course may be used by a student to satisfy a major requirement and a minor requirement. A course may be used, however, to satisfy both a major support requirement and a minor requirement.

Courses may not be taken Pass/No Pass.

All courses applied toward the Minor in Military Science must be completed with at least a C grade.

To earn a Minor in Military Science a student must complete a minimum of 15 credits, including all of the following:

- The Basic Course (or have placement credit, such as having completed Basic Training)
- The Advanced Course
- 3 hours of Military History.

Required Courses

Code	Title	Credit Hours
Basic Course Requirements		
All of the following must be completed (placement credit may be awarded for prior military service, Basic Training, or high school JROTC):		
M S 1113	Introduction to Leadership I	
M S 1213	Adaptive Leadership and Professional Competence	
M S 2323	Foundations of Leadership I	
M S 2423	Foundations of Leadership II	
Advanced Course Requirements		
M S 3123	Adaptive Team Leadership	3
M S 3223	Applied Team Leadership	3
M S 4213	Seminar in Leadership and Management	3
M S 4223	Mission Command and the Company Grade Officer	3
Military History		
Choose 3 hours from a list of history courses within the department; the following is recommended:		3
HIST 4453	American Military History 1860-Present	
Total Credit Hours		**15**

Minors are available to all undergraduate students at OU. If the minor is officially declared, successfully completed, and noted on the graduation application, the student's transcript will so indicate at the time the bachelor's degree is posted.

Naval ROTC - Naval Science

Captain Rodney Thomas, U.S. Navy,
290 West Brooks St., Room 12
Norman, OK 73019-4102
Phone: (405) 325-2021
FAX: (405) 325-7639
navalrotc@ou.edu
https://www.ou.edu/rotc/navy

General Information

The Naval ROTC is a highly competitive program maintained for one purpose — to educate and train qualified men and women for service as commissioned officers in the Marine Corps and in the Navy as unrestricted line officers. The officer's commission is earned by the successful completion of degree requirements in the student's chosen academic field of study, and the completion of the naval science curriculum. The increasingly technical complexion of today's military prompts many NROTC midshipmen to enroll in demanding majors that will place them at the forefront of tomorrow's technology.

Naval Science courses are open to all accepted University of Oklahoma students. The courses are accredited. The Naval ROTC program consists of specific naval technical courses, University courses, and leadership development seminars. No military obligation is incurred until a student accepts a scholarship. In addition to their diploma at graduation, a NROTC graduate is commissioned and placed on active duty as a leader, as well as the exciting opportunity to proudly serve our country as a naval aviator, submarine officer, surface warfare officer, special warfare officer (SEAL), explosive ordnance disposal officer or Marine officer.

Students selected to participate in The University of Oklahoma's NROTC Program make their own arrangements for college enrollment and room and board. They take the normal course load required by the college or university for degree completion as well as courses required for participation in NROTC. Additionally, all midshipmen are required to follow specific academic guidelines. Contact Naval ROTC for information concerning specific requirements.

Naval Science Minor

Students have the option of adding the Naval Science Minor (p. 766) to their degree, and should consult their academic counselor to enroll.

Scholarships

OU NROTC offers opportunities for students to earn a commission in a variety of ways; NROTC scholarships, college program and enlisted commissioning programs. Visit NROTC for more information on scholarship application requirements. Selected applicants for the NROTC Scholarship Program are awarded scholarships through a highly competitive national selection process. Scholarship selectees receive full tuition, books, educational fees at the University of Oklahoma, and a monthly subsistence allowance.

High School Seniors - 4 Year Scholarship Program

Qualified high school seniors can elect to apply for a 4-Year Scholarship that will lead them to a career as a naval officer in the United States Navy or Marine Corps.

Available Program for College Students

Students enrolled at The University of Oklahoma who wish to pursue a Navy or Marine Corps career may enroll into NROTC as a college program student. College program students who perform well academically, physically, and professionally may be awarded with a full scholarship that will cover his/ her remaining semesters. College program students who are awarded with the scholarship will also receive a monthly stipend and a stipend for textbooks every semester.

College Program

ROTC College Program

The College Program is for incoming freshman or sophomore students who desire a commission in the United States Navy or Marine Corps who have not been selected for the NROTC National Scholarship. Students accepted to the NROTC College Program are required to participate in all NROTC events and activities to be eligible for NROTC benefits. Students can apply for a scholarship at the end of the freshman and sophomore years. All NROTC College Program students are eligible for IN-STATE tuition.

Non-Affiliated Students

Non-Affiliated Scholarships are for freshman or sophomore students who desire a commission in the United States Navy or Marine Corps but have not previously participated in NROTC. Students selected for two- or three-year NROTC scholarship receive the associated scholarship benefits going forward and matriculate toward a commission in the United States Navy or Marine Corps. Participation in all NROTC events and activities is required to maintain scholarship. Additionally, students are required to take the applicable Naval Science classes in addition to your normal classes.

Visit NROTC Scholarships for additional information is available.

Financial Assistance

Regardless of financial situation, it is highly recommended that students submit a Free Application for Federal Student Aid (FAFSA). Admission to an educational institution is not needed to submit a FAFSA. A Student Aid Report (SAR) will then be sent, which will list for what aid the student is qualified. If OU is listed on the FAFSA, the OU Financial Aid Services office will also receive he Student Aid Report.

MECEP – Marine Enlisted Commissioning Education Program

The Marine Enlisted Commissioning Education Program (MECEP) is an enlisted to officer commissioning program designed to provide outstanding enlisted Marines the opportunity to serve as Marine Corps officers. Marines selected for MECEP who successfully complete Officer Candidates School and graduate with a Bachelor's Degree will be commissioned a Second Lieutenant in the U.S. Marine Corps.

STA-21 - Seaman to Admiral Program

STA-21 is designed to provide an opportunity for Navy enlisted personnel who possess outstanding qualifications and motivation for a naval career to obtain a commission. The STA-21 Program will keep all participants on active duty at their current enlisted pay grade. This means they will receive all the pay, allowances, benefits, and privileges they currently enjoy and will still be eligible for enlisted advancement while in the program.

Activities

Midshipmen students, on a voluntary basis, may participate in a diversified field of unit-sponsored activities. These include precision drill teams, color guard, rifle and pistol team, intramural athletics, endurance team, unit publications such as the "Flaghoist," midshipmen social and professional organizations, and fleet orientation trips. Participation in extracurricular activities is not limited solely to those areas sponsored by the Naval ROTC unit. Midshipmen are encouraged to participate in a broad spectrum of University activities.

Summer Training

Summer training is provided to midshipmen in fleet units worldwide. The training is for the individual's introduction and participation in fleet operations. Additionally, such training assists the midshipmen in requesting a military specialty prior to commissioning. In the summer prior to starting college, scholarship candidates and selected College Program candidates will attend the NROTC Indoctrination Program and Naval Station Great Lakes. College Program students that do not attend prior to their Freshman year will attend between their Freshman and Sophomore year.

Scholarship students, between their freshman and sophomore years, participate in a four-week career orientation program in which a week is spent each with Naval Aviation, Submarine Force, Surface Force, and the Marine Corps. Between their sophomore and junior years, Midshipmen attend a four-week cruise on various commands throughout the fleet serving in the capacity of enlisted sailors. During the period between the junior and senior years, Navy option midshipmen participate in a cruise on maritime platforms in various areas of the world serving in the capacity of junior officers. Additionally, Navy option midshipman will attend Sea Trials, a professional and military training and evaluation. For the Marine Corps option midshipmen, six weeks of training is conducted at Quantico, Virginia. Funds are provided to the individual for summer training.

Career Opportunities

The qualified young men and women who complete the Naval ROTC Program at the University will not have to worry about seeking employment after graduation. Upon graduation, midshipmen are commissioned as officers in either the Navy or Marine Corps, and during their final semester are allowed to choose their military specialty from among those fields for which they are qualified. Navy ensigns can select a career in aviation, surface warfare, submarines, explosive ordnance disposal or special warfare. The Marine Corps second lieutenants have a choice between aviation, cyber and ground fields, including infantry, artillery, armor, communication-electronics, combat engineering, intelligence, air control, computer systems, logistics and manpower.

Courses

N S 0110 Leadership Development 0 Credit Hours

Designed to expose NROTC students to the professional development of a military officer. This is accomplished through military drill, guest lecturers, command situation and role enactment training. The goal is to better prepare young men and women to serve as naval officers in various fleet assignments. (F, Sp)

N S 1123 Introduction to Naval Science 3 Credit Hours
Presents an overview of the mission and organization of the Department of Defense with particular emphasis on the Naval Service. Among the topics covered are military law, leadership fundamentals, naval heritage, naval customs and traditions, and career opportunities for Navy and Marine Corps officers. The course is designed for freshmen enrolled in NROTC but is open to all interested students. (F)

N S 1133 Sea Power And Maritime Affairs 3 Credit Hours
Sea Power And Maritime Affairs. Traces The Development Of Sea Power And Analyzes Its Influence On Maritime Strategy Through The Study Of Major Events In Naval History. Students Will Develop An Appreciation For The Overlapping Roles That National Interests, Technical Advances, Maritime Strategists, And Individual Leaders Play In The Formulation Of U.S. Security Strategy And Policy. (Sp)

N S 2113 Leadership and Management 3 Credit Hours
Designed to teach introductory-level leadership and management concepts and applications to sophomore-level Naval ROTC midshipmen and all other interested University students. (F)

N S 2133 Navigation 3 Credit Hours
Introduction to marine navigation, including both traditional and electronic navigation theory and practical applications. Includes concepts in navigational safety, rules of the nautical road, and an introduction to relative motion. (Sp)

N S 3223 Naval Ship Systems I: Naval Engineering Systems 3 Credit Hours
Prerequisite: N S 1123 or permission of instructor. Detailed study of the engineering principles that define Naval Ship Systems. Course focus is on the application of electrical, mechanical, and computer engineering while introducing concepts in ship design, hydrodynamics, and the steam cycle. (F)

N S 3333 Evolution of Warfare 3 Credit Hours
Prerequisite: ENGL 1213 or equivalent. Examines the evolution of warfare throughout history by focusing on warfare concepts, historical case studies, common threads, themes, military leadership, and the relationship between the elements of national power and the strategic, operational, tactical, and technical aspects of war. (Sp)

N S 3433 Naval Ship Systems II - Naval Weapons Systems 3 Credit Hours
Prerequisite: N S 3223 or permission of instructor. Outlines the engineering principles of weapons systems. Course focus is on the application of radar, sonar, and ballistics while introducing the concept of weapons employment through the detect to engage sequence. (Sp)

N S 3990 Independent Study 1-3 Credit Hours
1 to 3 hours. Prerequisite: permission of instructor and junior standing. May be repeated once with change of content. Independent study may be arranged to study a subject not available through regular course offerings. (F, Sp, Su)

N S 4433 Naval Operations and Seamanship 3 Credit Hours
Prerequisite: 2133 or permission of instructor. Advanced navigation concepts, including applications to shipboard evolutions and operations. Overview of operational security and tactical communications. Introduction to the law of the sea and international maritime law, naval warfare doctrine and joint operations. (F)

N S 4443 Fundamentals of Maneuver Warfare 3 Credit Hours
Prerequisite: ENGL 1213. To provide students with the necessary knowledge to understand the fundamentals of maneuver warfare and appreciate the complexities and dynamics posed by the art and science of warfare. (Sp)

N S 4633 Naval Leadership and Ethics 3 Credit Hours
Prerequisite: Junior standing or permission of instructor. An examination of leadership, ethical concepts, and management of naval (Navy and Marine Corps) resources. Objective is to learn the leadership skills, ethical expectations, and management techniques necessary to succeed as a naval officer in leading people and using limited resources in the most efficient manner. Encompasses leadership and ethics readings, and discussion of the uniform code of military justice. (F, Sp)

Naval Science, Minor

Minimum Total Credit Hours: 18 (Marine Option) or 24 (Naval Option)

Program Code: N737

The requirements for a minor must be completed concurrently with the major degree requirements.

No minor may be added by completing courses after receiving the bachelor's degree.

No single course may be used by a student to satisfy a major requirement and a minor requirement. A course may be used, however, to satisfy both a major support requirement and a minor requirement.

Courses may not be taken Pass/No Pass.

The minor is open to all students, not just those participating in the NROTC program.

Marine Option

Code	Title	Credit Hours

General Information

Social work education has been a part of the curriculum at the University of Oklahoma since 1917. A separate School of Social Work was established in 1935. The graduate program was fully accredited in 1957 and has maintained continuous accreditation. The school became the Anne and Henry Zarrow School of Social Work in 2009 and moved into its state-of-the-art facility Anne and Henry Zarrow Hall in the fall of 2011.

Social work is a profession devoted to the enhancement of human well-being and to the alleviation of poverty and oppression. Social workers strive to promote the empowerment and well-being of individuals, families, communities, and organizations in an increasingly global society. The expansion of human service programs and areas of practice utilizing social work knowledge and skills has created a demand for professional social workers. Social work offers a challenging and exciting career for the individual who is motivated to help others and has a personal commitment to the advancement of social justice.

The school prepares practitioners who will use an integrated combination of theories, conceptual knowledge, values, and skills to serve diverse client and community systems. The undergraduate program and the foundation requirements of the graduate program are based on a generalist model that emphasizes skills, knowledge, and values basic to all social work practice.

The curriculum recognizes the importance of moving students forward through approaches to mastery and competence that instills within students the necessary attitudes, motivation, knowledge, and skills required for sound practice. The curriculum prepares students for life-long learning within specific domains of their own choosing. Each degree program anticipates student movement into particular domains formed by human need and social issues, social policies, systems of care, and particular organizations.

Programs & Facilities

Field Education Program

The Field Education program welcomes students to the practicum experience, prospective social work students, current students at the University of Oklahoma Anne & Henry Zarrow School of Social Work, or prospective Field Instructors. With a Field Education office on both the Norman and Tulsa campuses, placements are coordinated across Oklahoma in over 300 affiliated agencies offering students direct learning experiences with individuals, families, groups, and communities. Sites provide the supervision and resources needed to develop competent social workers.

Child Welfare Professional Enhancement Program

The Child Welfare Professional Enhancement Program (CWPEP) is a title IV-E partnership between the University of Oklahoma, The Oklahoma Department of Human Services, and the US Department of Health and Human Services Administration for Children and Families. The purpose of this partnership is to enhance and support Oklahoma's public child welfare workforce.

Knee Center for Strong Families

The Knee Center for Strong Families sponsors academic and community-oriented programs in the fields of social work, public health (including mental health), and fine arts in three core areas: Visiting lectureships, workshops, seminars, meetings of scholars, conferences, symposia, and forums; planning grants or "seed money" to develop programs that might have continuous funding from other sources; and underwriting research on the planning and development of educational programs to enhance family life in Oklahoma.

Center for Social Work in Healthcare

The Center for Social Work in Healthcare is dedicated to promoting and supporting the optimal use of the social work profession in health care settings, with an emphasis on primary health care settings. This is accomplished through the provision of educational opportunities and supports to social work students who have demonstrated an interest in interdisciplinary practice in health care. The center supports and participates in Oklahoma projects and programs focused on improving primary and community health, and supporting the increased use of evidence based social work practice in health care. In addition, the Center provides technical assistance and resources to primary care practices that are interested in developing social work positions within their practices, or improving the use of social work in their interdisciplinary teams.

Continuing Education

The Anne and Henry Zarrow School of Social Work Program for Continuing Education seeks to provide high quality continuing education events to Oklahoma social workers. Events are held on both the Norman and Tulsa campuses as well as Northwest Oklahoma.

Haruv USA at OU-Tulsa

Haruv USA at the University of Oklahoma-Tulsa is a new venture bringing together the best of two worlds — the unique expertise and international leadership of the Haruv Institute paired with the research-based educational knowledge and expertise of OU-Tulsa and the Anne and Henry Zarrow School of Social Work. An initiative of the Charles and Lynn Schusterman Family Foundation, Haruv USA will focus on comprehensive, inter-professional education and training for students and professionals who touch the lives of children from a wide variety

of settings, along with research for the identification, prevention, and treatment of child abuse and neglect, with an emphasis on underserved children and families.

Center for Child Welfare Training & Simulation

Operating within the University of Oklahoma Anne & Henry Zarrow School of Social Work, the Center for Child Welfare Training & Simulation is committed to supporting the highest quality training and professional development for the child welfare system of Oklahoma. The center utilizes the extensive resources at OU, faculty resources and professional partnerships to develop curricula, tools for evaluation, and consultation for workforce development. The center's mission is to prepare and support a highly skilled and stable workforce to ultimately advance the safety, permanency, and well-being of children in Oklahoma.

Scholarship and Financial Aid

The Anne and Henry Zarrow School of Social Work is dedicated to helping students fund their education by providing opportunities for internal (within the University) as well as external (outside of the University) scholarships.

OU also offers a wide variety of scholarships as does the College of Arts and Sciences. All financial need based scholarships for both undergraduate and graduate students are available through the Centralized Academic Scholarship Hub (CASH).

The School of Social Work provides a limited number of departmental scholarships to qualified students in the Social Work program. For graduate students and Tulsa undergraduate students, information about how to complete the online application is disseminated in the spring semester to both current students and new admits via email. Norman campus undergraduate students should apply through OU's Centralized Academic Scholarship Hub (CASH) for all departmental, college, and need based scholarships.

The school has a limited number of Graduate Research Assistant positions available that offer both a tuition waiver, a stipend, and health insurance. Information about how to apply for a GRA position is disseminated in the spring semester to both current students (via email) and new students (via acceptance packets) or as information becomes available.

OU Financial Aid Services administers federal, state, institutional and private aid programs.

The Child Welfare Professional Enhancement Program (CWPEP) is a stipend and tuition assistance program specifically designed to encourage future MSWs and BSWs to work in the child welfare field.

The Zarrow Mental Health Stipends support students in Masters level foundation and concentration year practicum in Tulsa.

The Center for Social Work in Healthcare provides stipends for students interested in a health-related practicum.

Leadership Education in Neuro-developmental and Related Disabilities (LEND) is a nationwide training program sponsored by the Maternal Child Health Bureau of the United States Department of Health and Human Services. In Oklahoma, LEND prepares graduate students for leadership roles as professionals with interdisciplinary skills to support community-based partnerships with professional colleagues, clients, and families.

Undergraduate Study

The Bachelor of Arts (p. 777) in Social Work program is designed to prepare social workers to assume entry-level professional roles in human and social service systems. In addition to the academic expectations, social work students are expected to demonstrate professional behavior which reflects a commitment to the ethics of the social work profession.

The role of the social worker involves helping people from a variety of backgrounds and with a range of problems, so it is important that the social work student not permit personal issues to interfere with this role and that the student have the emotional and psychological resources to render effective assistance to those in need.

Graduates of the baccalaureate program are eligible for membership in the National Association of Social Workers. They are also eligible to apply for advanced standing in the M.S.W. program at the University of Oklahoma or other graduate programs in social work. Following two years of supervised practice, they are eligible to apply for a license in the State of Oklahoma.

The School of Social Work fully subscribes to and is guided by the NASW Code of Ethics. Social work program applicants and students are expected to demonstrate professional behavior which reflects a commitment to the ethics of the social work profession as exemplified in the Code of Ethics. Behavior and statements contrary to these ethical principles may result in denial admission or review of continuance in the School's programs. Examples of behavior which warrant such denial or a review include, but are not limited to, derogatory oral and written statements towards other students, faculty, and/or persons from populations reflecting racial, ethnic, handicapped status, religious, socioeconomic, gender, and sexual orientation differences. Students are responsible for knowing and adhering to the NASW Code of Ethics. The most recent version can be read and downloaded from the internet through the national NASW website.

Additionally, the school publishes its own standards compatible with NASW in its Student Performance Policy (PDF).

Graduate Study

Master of Social Work

The Master of Social Work degree (MSW) is designed to prepare students for advanced professional practice within an organizational context. The curriculum is an advanced integrative design that balances a broad skill base with the opportunity to specialize in the electives that are offered. The MSW is offered in both Norman and Tulsa in both full-time and part-time format and an online format. Advanced Standing status at both campuses and online is available to students who have completed a bachelor's degree in social work from an accredited program within the past seven years and who meet additional criteria.

- Social Work, Master of Social Work (p. 779)
- Social Work: Advanced Standing, Master of Social Work (p. 780)

See MSW Admission Information for admission details.

Graduate Certificates

The Anne and Henry Zarrow School of Social Work offers a Graduate Certificate in Social Work with American Indians (p. 780). This is independent from the degree even though courses overlap. Certificates cannot be added post graduation. Typically obtaining a certificate does not add courses to your degree but rather specifies the electives taken.

Dual Degrees

Master of Social Work and Master of Public Health - The joint MSW-MPH program strengthens public health social work through coursework graduate social work students undertake in both programs.

Master of Social Work and Master of Arts in International Studies - The joint MSW-MAIS program prepares students for a globally integrated practice environment that addresses global social, political and economic justice issues, whether in the realm of international diplomacy, the international economy, humanitarian aid and economic development assistance, or international advocacy.

Doctor of Philosophy

- Social Work, Ph.D. (p. 781)

Courses

S WK 2113 Introduction to Social Work 3 Credit Hours
Prerequisite: sophomore or junior standing. Defines the profession of social work and describes its historical development. Provides foundation knowledge in social work values, professional ethics, and the history of social welfare and social services policy in the United States. (F, Sp)

S WK 2223 Statistics for Social Work 3 Credit Hours
Prerequisite: MATH 1005 or satisfactory score on math placement assessment. Introduction to statistics and data analysis in social work and the helping professions. Covers descriptive statistics (univariate and bivariate), inferential statistics (estimation and significance tests) and data interpretation (causality and generalizability). (F, Sp, Su) [I-M].

S WK 2970 Special Topics/Seminar 1-3 Credit Hours
1 to 3 hours. Prerequisite: Permission of instructor. May be repeated; maximum credit nine hours. Special topics or seminar course for content not currently offered in regularly scheduled courses. May include library and/or laboratory research and field projects. (Irreg.)

S WK 3003 Interviewing Skills for Generalist Practice 3 Credit Hours
Prerequisite: majors only. Introduction to basic interviewing and communication skills utilized in culturally sensitive, generalist social work practice. Emphasis on the development of self-awareness and skill development and on providing both didactic and experiential learning. (F)

S WK 3013 Professions in Social Work 3 Credit Hours
Prerequisite: Junior standing. This course provides an overview of social work as a profession, including central concepts and theories, values and ethics and career pathways. The profession's historical development is included along with a focus on poverty and economic disparity, human rights and social justice, and human diversity. It provides an introduction to the generalist practice model across system levels. (Su)

S WK 3103 Generalist Practice with Individuals and Families 3 Credit Hours
Prerequisite: majors only. First of three generalist social work practice courses explicates a generalist perspective that focuses on the knowledge, values, skills, and techniques appropriate for engagement, assessment, intervention and evaluation with individuals and families. (F)

S WK 3113 Generalist Practice with Families and Groups 3 Credit Hours
Prerequisite: Junior standing and S WK 3103 or concurrent enrollment. The second of three generalist social work practice courses; explicates a generalist perspective that focuses on the knowledge, values, skills and techniques appropriate for engagement, assessment, intervention, and evaluation with families and small groups. (F, Sp)

S WK 3233 Human Behavior: Individuals and Families 3 Credit Hours
Prerequisite: majors only. Within a social systems framework and bio-psychosocial perspective, students learn empirically based theories which deal with life-span development and family dynamics. This course provides a theoretical foundation for micro-level generalist practice. (F)

S WK 3313 Social Welfare Policy: Analysis and Practice 3 Credit Hours
Prerequisite: majors only. An undergraduate level historical and descriptive review of federal and state social welfare programming, introduction to social welfare policy analysis, and the role of the social work profession in affecting change in social welfare policy. (Sp)

S WK 3323 Understanding Social Determinants of Health 3 Credit Hours
Prerequisite: Majors only. Course prepares students for generalist practice by equipping them with systems-oriented perspective on individual and community wellbeing. It emphasizes ethical and evidence-informed approaches to working with populations impacted by disparities in opportunity, access, and health. Using SDOH as an organizing framework, the course fosters analytical and communication skills essential for addressing human needs across micro, mezzo, and macro contexts. (F)

S WK 3440 Mentored Research Experience 3 Credit Hours
0 to 3 hours. Prerequisites: ENGL 1113 or equivalent, and permission of instructor. May be repeated; maximum credit 12 hours. For the inquisitive student to apply the scholarly processes of the discipline to a research or creative project under the mentorship of a faculty member. Student and instructor should complete an Undergraduate Research & Creative Projects (URCP) Mentoring Agreement and file it with the URCP office. Not for honors credit. (F, Sp, Su)

S WK 3960 Honors Reading 1-3 Credit Hours
1 to 3 hours. Prerequisite: admission to Honors Program. May be repeated; maximum credit six hours. Will consist of topics designated by the instructor in keeping with the student's major program. The topics will cover materials not usually presented in regular coursework. (F, Sp, Su)

S WK 3970 Honors Seminar 1-3 Credit Hours
1 to 3 hours. Prerequisite; admission to Honors Program. May be repeated; maximum credit six hours. The projects covered will vary. The content will deal with concepts not usually presented in regular coursework. (Irreg.)

S WK 3980 Honors Research 1-3 Credit Hours
1 to 3 hours. Prerequisite: admission to Honors Program. May be repeated; maximum credit six hours. Will provide an opportunity for the gifted Honors candidate to work at a special project in the student's field. (F, Sp, Su)

S WK 3990 Independent Study 1-3 Credit Hours
1 to 3 hours. Prerequisite: permission of instructor and junior standing. May be repeated once with change of content. Independent study may be arranged to study a subject not available through regular course offerings. (F, Sp, Su)

S WK 4003 Forensic Social Work 3 Credit Hours
(Slashlisted with S WK 5003) Prerequisite: Junior standing. This course provides an overview of forensic social work practice and theory. Additionally, it illustrates skills for working with diverse populations across the lifespan and across diverse settings, such as community, medical, school, child welfare, mental health and addictions, and juvenile and criminal justice settings. No student may earn credit for both 4003 and 5003. (Irreg.)

S WK 4033 Trauma-Informed Practice in Child Welfare 3 Credit Hours
(Slashlisted with S WK 5033) Prerequisite: Senior standing; Students who are being funded by the Child Welfare program are required to take this course. This course will provide a multi-dimensional exploration of trauma and the importance of trauma informed child welfare practice. Skill development focuses on building a strong knowledge base concerning trauma that will support ethical social work practice and an emphasis on strengths-based social work service delivery. This course also brings forward the concepts of trauma informed organizational practice. No student may earn credit for both 4033 and 5033. (Su)

S WK 4053 Preventing and Treating Substance Use Disorders 3 Credit Hours
(Slashlisted with S WK 5053) Prerequisite: Junior standing or permission of instructor. Students will be introduced to the fundamentals of the prevention and treatment of substance use disorders. Course emphasizes best practices in the areas of treatment and prevention of substance use disorders, and the strategic prevention framework. Cultural influences and issues important to special populations will be also reviewed. No student may earn credit for both 4053 and 5053. (Irreg.)

S WK 4063 Social Work with Older Adults 3 Credit Hours
(Slashlisted with S WK 5063) Prerequisite: Upper-division standing or permission of instructor. Focus is on issues of significance to social work or social welfare. This course focuses on the knowledge, skills and techniques appropriate for engagement, assessment, intervention and evaluation with older adults and their family caregivers. No student may earn credit for both 4063 and 5063. (Irreg.)

S WK 4083 Undergraduate Social Work Research Methods I 3 Credit Hours
Prerequisite: senior standing and S WK 2223 or equivalent. Introduction to the design and implementation of quantitative and qualitative research methods appropriate to social work practice evaluation and program evaluation. (F)

S WK 4093 Undergraduate Social Work Research Methods II 3 Credit Hours
Prerequisite: S WK 4083. Introduction to applied data analysis methods appropriate to research in social work practice evaluation and human services program evaluation. (Sp)

S WK 4103 Generalist Practice with Organizations and Communities 3 Credit Hours
Prerequisite: S WK 3113; Majors only. Third of three methods courses in the social work practice sequence using a generalist model focuses on knowledge, values and skills requisite for social work practice with various client systems. Course emphasizes development of knowledge and skills specific for assessment and intervention with organizations and communities. (Sp)

S WK 4163 Child Abuse and Neglect 3 Credit Hours
(Slashlisted with S WK 5163) Prerequisite: upper-division standing or permission of instructor. Introduction to the field of child abuse and neglect. Examines the history of the field, different forms of abuse and neglect, causative factors, abuse and neglect dynamics, treatment approaches, the social services system, and prevention strategies. No student may earn credit for both 4163 and 5163. (Irreg)

S WK 4170 Special Topics in Social Work and Social Welfare 2-3 Credit Hours
(Slashlisted with S WK 5170) 2 to 3 hours. Prerequisite: upper-division standing or permission of director. May be repeated with change of content; maximum credit nine hours. Focus is on issues significant to social work or social welfare. No student may earn credit for both 4170 and 5170 on the same topic. (Irreg.)

S WK 4311 BASW Practicum Planning 1 Credit Hour
Prerequisite: Majors only; permission of instructor. This course provides structure and support to students as they complete the necessary university-based and agency-based onboarding tasks to secure an educationally focused and professionally supervised practicum placement in a community-based agency or program. Students must be enrolled in SWK 4311 during the semester prior to enrolling in SWK 4315 - Social Work Practicum I. (F, Sp, Su)

S WK 4313 Practicum Seminar I 3 Credit Hours
Prerequisite: senior standing, majors only; corequisite: 4315. The integration of classroom course content with the learning of practice skills in the field setting. (F, Sp, Su)

S WK 4315 Practicum I 5 Credit Hours
Prerequisite: majors only, senior standing; corequisite: S WK 4313. A structured, educationally directed experience in social work practice, provided under the supervision of a qualified social worker as practicum instructor. (F, Sp, Su)

S WK 4323 Practicum Seminar II 3 Credit Hours
Prerequisite: Social Work BASW majors only; S WK 4313; senior standing; corequisite: S WK 4325. This is the Capstone course for the BASW. The purpose of this course is for students to demonstrate application of major social work content including social work research, social welfare policy, human behavior in the social environment, human diversity, and social work practice in the context of a field practicum setting. (F, Sp, Su)

S WK 4325 Practicum II 5 Credit Hours
Prerequisite: S WK 4315 and S WK 4313; majors only; senior standing; permission of instructor; corequisite: S WK 4323. A continuation of the educational experience in S WK 4315. In combination with Practicum Seminar II (S WK 4323), this course comprises the General Education capstone experience in social work. (F, Sp, Su) [V].

S WK 4573 Disaster Response in Japan: A Human Rights Approach 3 Credit Hours
(Slashlisted with S WK 5573) Prerequisite: Junior standing or instructor permission. This course provides experiences and knowledge of how human advocacy services are provided to victims of disasters in Japan, man-made or natural. This is the study abroad program which was cultivated within the frameworks of Experiential and Transformative Learning theories, specifically for students to gain knowledge of and experience in global human rights aspects in social work. No student may earn credit for both 4573 and 5573. (Sp) [IV-WDC].

S WK 4753 Child and Adolescent Psychopathology: Assessment and Treatment 3 Credit Hours
(Slashlisted with S WK 5753) Prerequisite: Junior standing or permission of instructor. Provides an overview of clinical information necessary to effectively assess, diagnose and provide social work treatment for children and adolescents in need of mental health services. The course incorporates both person-in-environment and strengths perspective in the understanding of how to serve children and families dealing with childhood disorders. No student may earn credit for both 4753 and 5753. (Irreg.)

S WK 4960 Directed Readings 1-4 Credit Hours
1 to 4 hours. Prerequisite: good standing in University; permission of instructor and dean. May be repeated; maximum credit four hours. Designed for upper-division students who need opportunity to study a specific problem in greater depth than formal course content permits. (Irreg.)

S WK 4970 Special Topics/Seminar 1-3 Credit Hours
1 to 3 hours. Prerequisite: Senior standing or permission of instructor. May be repeated; maximum credit nine hours. Special topics or seminar course for content not currently offered in regularly scheduled courses. May include library and/or laboratory research and field projects. (Irreg.)

S WK 4990 Independent Study 1-3 Credit Hours
1 to 3 hours. Prerequisite: three courses in general area to be covered; permission of instructor and undergraduate program coordinator. May be repeated; maximum credit six hours. Contracted independent study for topic not currently offered in regularly scheduled courses. Independent study may include library and/or laboratory research and field practicum projects. (F, Sp, Su)

S WK 5003 Forensic Social Work 3 Credit Hours
(Slashlisted with S WK 4003) Prerequisite: Graduate standing. This course provides an overview of forensic social work practice and theory. It illustrates skills for working with diverse populations across the lifespan and across diverse settings, such as community, medical, school, child welfare, mental health and addictions, and juvenile and criminal justice settings. No student may earn credit for both 4003 and 5003. (Irreg.)

S WK 5033 Trauma-Informed Practice in Child Welfare 3 Credit Hours
(Slashlisted with S WK 4033) Prerequisite: Graduate standing; Students funded by the Child Welfare program are required to take this course. This course will provide a multi-dimensional exploration of trauma and the importance of trauma-informed child welfare practice. Skill development focuses on building a strong knowledge base concerning trauma that will support ethical social work practice and an emphasis on strengths-based social work service delivery. The course also brings forward the concepts of trauma-informed organizational practice. No student may earn credit for both 4033 and 5033. (Su)

S WK 5043 Introduction to Advanced Integrative Practice3 Credit Hours
Prerequisite: Requires admission to MSW Advanced Standing program. This seminar course is designed to enhance the preparation of Advanced Standing students for graduate study in social work. This course orients students to graduate level writing and research, the generalist practice model, Social Work in Oklahoma, simulation as a tool for skill development, and an introduction to the Decision Case model. Individualized student professional development is emphasized. (Su)

S WK 5053 Preventing and Treating Substance Use Disorders 3 Credit Hours
(Slashlisted with S WK 4053) Prerequisite: Graduate standing or permission of instructor. Students will be introduced to the fundamentals of the prevention and treatment of substance use disorders. Course emphasizes best practices in the areas of treatment and prevention of substance use disorders, and the strategic prevention framework. Cultural influences and issues important to special populations will be also reviewed. No student may earn credit for both 4053 and 5053. (Irreg.)

S WK 5063 Social Work with Older Adults 3 Credit Hours
(Slashlisted with S WK 4063) Prerequisite: Graduate standing or permission of instructor. Focus is on issues of significance to social work or social welfare. This course focuses on the knowledge, skills, and techniques appropriate for engagement, assessment, intervention, and evaluation with older adults and their family caregivers. No student may earn credit for both 4063 and 5063. (Irreg.)

S WK 5083 Social Work Research Methods 3 Credit Hours
Prerequisite: Graduate standing in Social Work. Introduction to the design and implementation of quantitative and qualitative research methods used to evaluate the effectiveness of social work practice and policies. (F)

S WK 5153 Seminar on Community Health 3 Credit Hours
Prerequisite: graduate standing in social work or permission of instructor. This is an intensive course that immerses students within the OU-Tulsa School of Community Medicine Summer Institute. A variety of experiential learning methods are combined into an interdisciplinary setting. Full participation in the Summer Institute is required in addition to specific assignments relevant to social work. (Irreg.)

S WK 5163 Child Abuse and Neglect 3 Credit Hours
(Slashlisted with S WK 4163) Prerequisite: graduate standing or permission of instructor. Introduction to the field of child abuse and neglect. Examines the history of the field, different forms of abuse and neglect, causative factors, abuse and neglect dynamics, treatment approaches, the social services system, and prevention strategies. No student may earn credit for both 4163 and 5163. (Irreg.)

S WK 5170 Special Topics in Social Work and Social Welfare 2-3 Credit Hours
(Slashlisted with S WK 4170) 2 to 3 hours. Prerequisite: graduate standing or permission of instructor. May be repeated with change of content; maximum credit 12 hours. Focus is on issues significant to social work or social welfare. No student may earn credit for both 4170 and 5170 on the same topic. (Irreg.)

S WK 5213 Infant Mental Health 3 Credit Hours
Prerequisite: graduate standing in social work or permission of instructor. This course provides an overview of clinical and policy information necessary to effectively assess, and provide treatment for children ages 1 - 5 years and their families. (Irreg.)

S WK 5253 Alcohol and Other Drugs 3 Credit Hours
Prerequisite: graduate standing in Social Work or permission of instructor. Integrated focus on the action of drugs and the consequences of AOD use, abuse, and addiction. Historical and current policies as well as issues are also examined. Attention is given to diverse populations, research findings and theoretical perspectives. (Irreg.)

S WK 5263 Biopsychosocial Aspects of Health and Behavior 3 Credit Hours
Prerequisite: graduate standing or permission of instructor. The primary focus of this course is on enhancing knowledge and understanding of biological determinants of health and behavior as they interact with the environmental dimensions of health and behavior. These issues will be discussed in relation to the individual, and family, as well as ethical and policy and program implications. (Irreg.)

S WK 5283 Tribal-U.S.Child/Family Welfare Policy and Practice 3 Credit Hours
Prerequisite: graduate standing. Examines and critically analyzes the policies, regulations, and organizational change issues that aim to improve the lives of children, youth, and families from tribal and United States backgrounds. The contexts, forces, and ideologies that produce the often-changing goals and methods of agencies serving children and their families at a tribal, state, and national levels will be examined. Emphasis will be placed on current opportunities and dilemmas facing Indian child welfare programs and public and private child welfare agencies. Using social and behavioral science research and information related to diversity and social justice, critical frameworks for assessing and analyzing child welfare policies, service systems, and organizational structures will be developed. It is highly recommended that S WK 5293: Social Work with American Indians be taken prior to this course. (Irreg.)

S WK 5293 Direct Practice with Diverse Students, Disabilities, & Transition 3 Credit Hours
Prerequisite: S WK 5103 or EDSP 5093 or permission of instructor; Social Work or Educational Psychology graduate students only. An overview of the theory and skills needed to work with diverse students including students with disabilities as they prepare to transition from school to adult life. Focuses on the knowledge, values, skills, and techniques appropriate for engagement, assessment, intervention and evaluation with diverse students preparing for transition. (Su)

S WK 5303 American Indian Behavioral Health 3 Credit Hours
Prerequisite: graduate standing. Provides the knowledge, skills, and self-awareness necessary for culturally relevant behavioral health services to tribal populations located in the United States. Knowledge will encompass traditional tribal conceptualizations of mental health and the impact of colonization. Indigenous and Western theories will frame the development of skills for mental health and substance abuse assessment, interventions, and prevention with individuals, families, and communities with a particular focus on tribal youth. It is highly recommended that S WK 5293: Social Work with American Indians be taken prior to this course. (Irreg.)

S WK 5313 Policy Practice in Social Work: Analysis and Advocacy 3 Credit Hours
Prerequisite: graduate standing in Social Work. A historical and descriptive review of federal and state social welfare programming, an introduction to practice skills of policy analysis, and advocacy in affecting development, change, or implementation of social welfare policy. (F, Sp)

S WK 5333 Understanding Social Determinants of Health 3 Credit Hours
Prerequisite: graduate standing in Social Work. Course prepares students for generalist practice by equipping them with systems-oriented perspective on individual and community wellbeing. It emphasizes ethical and evidence-informed approaches to working with populations impacted by disparities in opportunity, access, and health. Using SDOH as an organizing framework, the course fosters analytical and communication skills essential for addressing human needs across micro, mezzo, and macro contexts. (F)

S WK 5343 Social Work with American Indians 3 Credit Hours
Prerequisite: graduate standing in Social Work, Native American Studies or junior/senior undergraduate standing in Social Work or Native American Studies. An introduction to issues influencing social work among American Indians. Knowledge of tribal culture, historical and contemporary oppression, sovereign status, and current service contexts will be framed against the strengths and empowerment perspectives. The skills and values unique to social work with American Indians will be developed to form the essential foundation for effective practice across the individual, family, clan, community, and tribal nation. (Irreg.)

S WK 5353 International Child Welfare 3 Credit Hours
Prerequisite: graduate standing. Comparative study of child welfare policies and practices in Israel and the United States through study abroad. Content areas include international and comparative frameworks in policy and practice analyses, child welfare practices in the United States and Israel, governmental and not-for-profit sectors for the protection of children and their families, cross-cultural learning exchanges with social work students and social workers in Israel and the United States. (Su)

S WK 5363 Health & Social Work 3 Credit Hours
Prerequisite: graduate standing or special permission for undergrads. Designed to develop practice-based knowledge of social work in health care settings, medical terminology, health care provisions, interdisciplinary teams, and insurance issues; the effects of illness and disease on the patient and families, the importance of patient rights and the intersection of culture, gender, age, class, and sexual orientation, on the interactions between the patient, healthcare system and professionals. (Irreg.)

S WK 5373 Theory, Practice, and Evaluation with Individuals 3 Credit Hours
Prerequisite: Graduate standing in Social Work. This course provides the theoretical background, practice skills, and research experience necessary for generalist social work practice and evaluation at the individual level. The generalist intervention model is the foundation for teaching the knowledge, values, skills, cognitive, and affective processes necessary for engagement, assessment, intervention, and evaluation with individuals. (F, Sp)

S WK 5383 Theory, Practice, and Evaluation with Families and Groups 3 Credit Hours
Prerequisite: Graduate standing in Social Work. This course addresses foundation-level components of theory, practice, and evaluation related to generalist social work practice with families and groups. Students learn key explanatory theories about how families and groups operate, and are introduced to generalist practice models for practice with these client types. Students also learn about how to effectively evaluate practice with families and groups. (F, Sp)

S WK 5393 Theory, Practice, and Evaluation with Communities and Organizations 3 Credit Hours
Prerequisite: Graduate standing in Social Work. Exploration of the generalist perspective focusing on the knowledge, values, skills, and techniques appropriate to assessment and interventions with organizations and communities. (F, Sp)

S WK 5403 Professional Social Work 3 Credit Hours
Prerequisite: Graduate standing in Social Work. This course is an overview of social work as a profession, including central concepts and theories, values, ethics, and career pathways. The profession's historical development is included along with a focus on poverty and economic disparity, human rights and social justice, and human diversity. It provides an introduction to the generalist practice model across system levels.

S WK 5410 Foundation Year Practicum Planning 0 Credit Hours
Prerequisite: Graduate standing in Social Work and permission of instructor. This course provides structure and support to students as they complete the necessary university-based and agency-based onboarding tasks to secure an educationally focused and professionally supervised practicum placement in a community-based agency or program. (F, Sp, Su)

S WK 5413 Social Work Practicum I 3 Credit Hours
Prerequisite: Graduate standing in Social Work, and permission of practicum coordinator. Professionally supervised foundation year practicum placement in an area social service agency. (F, Sp, Su)

S WK 5423 Social Work Practicum II 3 Credit Hours
Prerequisite: Graduate standing in Social Work, and S WK 5413 or concurrent enrollment. A professionally supervised practicum placement in an area social service agency; a continuation of S WK 5413. (F, Sp, Su)

S WK 5433 Human Lifespan Development 3 Credit Hours
Prerequisite: Graduate standing in Social Work. Within a social systems framework and biopsychosocial perspective, students learn empirically-based theories that deal with lifespan development and family theory. This course provides an introduction to small group dynamics and development as well as a theoretical foundation for micro and mezzo level generalist practice. (F, Sp)

S WK 5513 Client-Centered Direct Practice 3 Credit Hours
Prerequisite: Graduate standing in Social Work. This course addresses clinical practice across the lifespan with application to individuals, families, and groups. Evidenced informed practice provides a framework within which empirically supported treatment modalities are explored as they relate to the intersecting domains of trauma, substance abuse, and mental health. (F)

S WK 5523 Macro Systems in Practice 3 Credit Hours
Prerequisite: Graduate standing in Social Work. This course utilizes an advanced generalist perspective focused on advancing the knowledge, values, skills, and techniques appropriate to engagement, assessment, and intervention with organizations and communities. (F)

S WK 5533 Hope Centered Theory & Practice 3 Credit Hours
Prerequisite: Graduate standing. Hope Theory & Practice explores the foundation of hope and its role as a protective factor for well-being especially in the context of trauma, adversity, and stress. Social Workers are uniquely positioned to implement hope-centered practice models at the micro and macro levels to promote well-being for individuals, families, organizations, and systems. (Irreg.)

S WK 5563 Integrative Practice with Children and Families 3 Credit Hours
Prerequisite: Graduate standing. This course provides students with specific knowledge and skills utilized when working with children and adolescents within their family systems. (Irreg.)

S WK 5573 Disaster Response in Japan: A Human Rights Approach 3 Credit Hours
(Slashlisted with S WK 4573) Prerequisite: Graduate standing or permission of instructor. This course provides experiences and knowledge of how human advocacy services are provided to victims of disasters in Japan, man-made or natural. This is the study abroad program which was cultivated within the frameworks of Experiential and Transformative Learning theories, specifically for students to gain knowledge of and experience in global human rights aspects in social work. No student may earn credit for both 4573 and 5573. (Sp)

S WK 5723 Human Services Administration 3 Credit Hours
Prerequisite: Graduate standing. Social work selective course offered first to social work master's level students who have completed a foundation level macro social course. Primary attention is given to the roles of administrator and planner in social work/social welfare settings with additional emphasis on grant writing and resource development. (Irreg.)

S WK 5733 Mental Health Assessment and Diagnosis 3 Credit Hours
Prerequisite: graduate standing in social work or permission of instructor. Designed to assist the student in understanding & using the prevailing psychiatric taxonomic system, the diagnostic & statistical manual of mental disorders (DSM 5). Prepares students to function in clinical settings where familiarity with the DSM 5 criteria & the multi-axial diagnostic framework is fundamental knowledge. Additionally, students will examine the benefits and risks of this psychiatric taxonomy. (Irreg.)

S WK 5753 Child and Adolescent Psychopathology: Assessment and Treatment 3 Credit Hours
(Slashlisted with S WK 4753) Prerequisite: Graduate standing in social work or permission of instructor. Provides an overview of clinical information necessary to effectively assess, diagnose, and provide social work treatment for children and adolescents in need of mental health services. The course incorporates both person-in-environment and strengths perspective in the understanding of how to serve children and families dealing with childhood disorders. No student may earn credit for both 4753 and 5753. (Irreg.)

S WK 5783 Human Sexuality 3 Credit Hours
Prerequisite: Graduate standing in Social Work or instructor permission. This course provides graduate students with social work knowledge of human sexuality in social work practice. The primary goal of the course is to increase social worker's competence and understanding of human sexuality concepts based on theory, research and practice. (Irreg.)

S WK 5810 Concentration Year Practicum Planning 0 Credit Hours
Prerequisite: Graduate standing in Social Work and permission of instructor. This course provides structure and support to students as they complete the necessary university-based and agency-based onboarding tasks to secure an educationally focused and professionally supervised practicum placement in a community-based agency or program. (F, Sp, Su)

S WK 5816 Social Work Practicum III 6 Credit Hours
Prerequisite: Graduate standing in Social Work, S WK 5513, S WK 5523, and permission of instructor. This course offers an educationally focused and professionally supervised practicum placement in a social service agency and requires a minimum of 550 clock hours at an assigned practicum site. (Sp, Su)

S WK 5826 Social Work Practicum IV 6 Credit Hours
Prerequisite: Graduate graduate standing in Social Work, S WK 5513, S WK 5523, and permission of instructor. This course offers an educationally focused & professionally supervised practicum placement in a social service agency & requires a minimum of 550 clock hours at an assigned practicum site. (Sp, Su)

S WK 5833 Social Work with Sexual and Gender Minorities 3 Credit Hours
Prerequisite: Graduate standing in social work. This course addresses advanced micro, mezzo, and macro-level social work practice with individuals identifying as lesbian, gay, bisexual, transgender, queer and/or questioning, intersex, asexual, two-spirit (LGBTQIA2S+). (Irreg.)

S WK 5883 Military Social Work 3 Credit Hours
Prerequisite: Graduate standing. Theoretical and practical approaches to clinical practice with military families. Overview of common social issues in the military system and demands on the family dynamic. (Irreg.)

S WK 5960 Directed Readings 1-4 Credit Hours
1 to 4 hours. Prerequisite: graduate standing in Social Work and permission of the department. Directed readings and/or literature reviews under the direction of a faculty member. May be repeated; maximum credit six hours. (F, Sp, Su)

S WK 5970 Special Topics/Seminar 1-3 Credit Hours
1 to 3 hours. Prerequisite: Graduate standing or permission of instructor. May be repeated; maximum credit nine hours. Special topics or seminar course for content not currently offered in regularly scheduled courses. May include library and/or laboratory research and field projects. (Irreg.)

S WK 5973 Advanced Integrative Seminar 3 Credit Hours
Prerequisite: Graduate standing in Social Work. This is an advanced integrative seminar for concentration year students taken in the final semester. The course builds on foundation and concentration course work throughout the MSW curriculum using critical thinking that incorporates micro and macro systems case analysis and decision-making. (Sp)

S WK 5980 Research for Master's Thesis 2-6 Credit Hours
Prerequisite: permission of instructor. Research for Master's thesis. Variable enrollment, two to six hours; maximum credit applicable toward degree: six hours. (F, Sp, Su)

S WK 5990 Independent Study 1-3 Credit Hours
1 to 3 hours. Prerequisite: Graduate standing and permission of instructor. May be repeated; maximum credit nine hours. Contracted independent study for a topic not currently offered in regularly scheduled courses. Independent study may include library and/or laboratory research and field projects. (Irreg.)

S WK 6003 Theories for Social Work 3 Credit Hours
Prerequisite: Graduate standing in social work or departmental permission. This course examines social work theories, analyzing their assumptions and empirical basis. Students explore historical contexts, research effectiveness, and major theories from diverse disciplines. Additionally, they delve into unique theories related to their interests, gaining insight into broader philosophical and empirical methods supporting social work. (F)

S WK 6011 Doctoral Professional Seminar I 1 Credit Hour
Prerequisite: Graduate standing in social work or departmental permission. This one-hour seminar delves into career opportunities for Ph.D. in social work holders, covering academia, research, policy, and more. Participants learn to create a strategic professional development plan during their doctoral studies and post-Ph.D. years. The session also provides insights into job search processes for academic, post-doc, research, and policy positions. (F)

S WK 6013 Applied Quantitative Research Methods 3 Credit Hours
Prerequisite: Graduate standing in social work or departmental permission. This course delves into the diverse landscape of quantitative research designs, covering five key types. Participants explore the nuances of Descriptive, Survey, Correlational, Quasi-experimental, and Experimental Research designs. Through engaging discussions and practical applications, learners gain a comprehensive understanding of each design's purpose, methods, and potential contributions to empirical inquiry in various fields. (F)

S WK 6021 Doctoral Professional Seminar II 1 Credit Hour
Prerequisite: Graduate standing in social work or departmental permission. This one-hour seminar covers crucial aspects of academic progression. Topics include selecting an advisor and dissertation committee, faculty presentations, conference participation, and publishing endeavors. Faculty members provide insights and guidance, ensuring students gain valuable knowledge in navigating academia. The seminar concludes with reflections and next steps, fostering a comprehensive understanding of key academic milestones. (Sp)

S WK 6023 Applied Qualitative Research Methods 3 Credit Hours
Prerequisite: Graduate standing in social work and completion of CITI Human Subjects Training. This course builds on qualitative research skills, focusing on conceptualization, design, and data collection in social work and related fields. It addresses research problems, design considerations, and theory's role, encompassing qualitative traditions like biography, phenomenology, grounded theory, ethnography, and case study. It explores qualitative data collection methods such as observation, interviews, focus groups and document analysis. (F)

S WK 6031 Doctoral Professional Seminar III 1 Credit Hour
Prerequisite: Graduate standing in social work or departmental permission. In this one-hour teaching seminar, participants explore essential elements of effective teaching, mentoring, and ethical considerations. Faculty presentations guide the discussion on preparing for teaching, emphasizing mentoring, and advising students, and addressing ethical aspects. The seminar concludes with reflections and next steps, ensuring participants gain valuable insights to enhance their teaching, mentoring, and ethical practices. (F)

S WK 6033 Social Work Andragogy and Methods 3 Credit Hours
Prerequisite: Graduate standing in social work or departmental permission. The Social Work Andragogy and Methods course delves into adult learning principles and effective teaching for social work. Prioritizing andragogical approaches, it caters to the distinct needs of adult learners. The curriculum encompasses practical methods for social work education, integrating theory with hands-on techniques for effective instruction across diverse settings. (Sp)

S WK 6041 Doctoral Professional Seminar IV 1 Credit Hour
Prerequisite: Graduate standing in social work or departmental permission. This course navigates diverse career paths in research, policy, and international work. Participants explore their interests, learn to craft a professional vita, and draft effective cover letters. The module on obtaining external funding covers fellowship basics, research funding exploration, and proposal development skills. The job search segment addresses crucial considerations, interview preparation, and efficient research communication. (Sp)

S WK 6043 Advanced Qualitative Data Analysis 3 Credit Hours
Prerequisite: Graduate standing in social work and completion of CITI Human Subjects Training. This advanced qualitative data analysis course explores intricate methodologies for analyzing qualitative data. Students delve into advanced coding techniques, thematic analysis, and interpretive frameworks. Emphasis is on refining skills in uncovering nuanced insights, triangulating data sources, and crafting comprehensive narratives. The course integrates practical applications, fostering expertise in handling complex qualitative research challenges. (Sp)

S WK 6053 Advanced Quantitative Data Analysis 3 Credit Hours
Prerequisite: Graduate standing in social work and completion of CITI Human Subjects Training. This advanced inferential statistics course focuses on practical statistical analysis. Students explore the role of statistics in research, learn terminology, apply appropriate techniques, and interpret findings in economics, business, nursing, and medical research. Topics include data graphing, hypothesis testing, chi-squared, ANOVA, regression, correlation, and decision-making under uncertainty. (Sp)

S WK 6980 Research for Doctoral Dissertation 2-16 Credit Hours
2 to 16 hours. Prerequisite: Graduate standing; may be repeated. Directed research culminating in the completion of the doctoral dissertation. (F, Sp, Su)

Social Work, B.A.

Minimum Total Credit Hours: 120
Major Hours: 49
Minimum Upper-Division Hours: 48

Overall GPA - Combined and OU: 2.50
Major GPA - Combined and OU: 2.50

Program Code: B840 (B841 Online)

Major Requirements

- **Some courses required for the major may also fulfill University General Education and/or Dodge College of Arts & Sciences Requirements.**
- Social Work majors must earn at least a 2.50 overall grade average; at least a 2.50 grade average in required social work courses; an S in S WK 4315 and S WK 4325; and at least a C in all required social work courses and the major support requirements.
- Students must earn a minimum GPA of 2.25 to be eligible for admission.

Prior to Junior Year: Students who have completed prerequisites and meet the minimum grade requirement must file an application to be admitted to the program. ***Because admission is competitive, not every applicant will be admitted.***

Additional Core IV Upper-Division Arts & Humanities courses		
Choose one course from Artistic Forms, Western Culture, or World Culture [1,3]		3
Choose one course from Artistic Forms, Western Culture, or World Culture [1,3]		3
Core Area V: First Year Experience (3 hours)		
Choose one course		3
Total Credit Hours		**56**

1 College of Arts and Sciences Requirements: college requirements are not automatically fulfilled by a previous degree.

2 One course at the intermediate level or demonstrated competency at that level

3 6 upper-division hours, 2 courses, at the 3000- 4000-level. ***Must be outside the major.***

Free Electives

Electives to bring total applicable hours to the minimum total required for the degree including 48 upper-division hours.

Information Concerning General Rules, Regulations and Minimum Requirements

Arts and Sciences Hours: At least 80 semester hours of liberal arts and sciences courses are required for a BA degree. At least 55 semester hours of liberal arts and sciences courses are required for a BS degree.
Pass/No Pass Enrollment: A maximum of 16 semester hours of free elective credit may be attempted under this option.
Individual Studies (e.g., courses titled "Independent Study"): A maximum of 12 total semester hours may be counted toward graduation, excluding Honors Reading and Honors Research.
P.E. Courses: No physical education activity courses will be counted toward the 120 semester hours of acceptable credit for graduation.
Senior Institution Hours: A minimum of 60 semester hours applied toward graduation must be earned at senior (4-year) institutions.
Residency:

- At least 15 of the final 30 hours applied toward the degree or at least 50 percent of the hours required by the institution in the major field must be satisfactorily completed at the awarding institution.
- At least 15 semester hours of upper-division major work must be completed in residence at OU.
- OU correspondence courses are ***not*** considered resident credit.

Grade Point Averages: Students must earn a minimum over all 2.00 for each of the following: Combined Retention GPA (all college grades), OU Retention GPA, GPA for all major courses, and GPA for all major courses taken at OU. Some schools and departments of the College have higher minimum grade point averages required for their students.

Suggested Semester Plan of Study

This plan shows one possible grouping of courses that would allow students to graduate in four years. Please refer to the front of the degree checksheet for official requirements. Students must consult with Dodge College of Arts and Sciences and School of Social Work academic advisors to verify that courses selected each semester fulfill the recommended plan and satisfy University, College of Arts and Sciences, and Social Work major requirements.

General Requirements for all Master's Degrees

The master's degree requires the equivalent of *at least* two semesters of satisfactory graduate work and additional work as may be prescribed for the degree.

All coursework applied to the master's degree must carry graduate credit.

Master's degree programs which require a thesis consist of *at least* 30 credit hours. All non-thesis master's degree programs require *at least* 30 credit hours.

Credit transferred from other institutions must meet specific criteria and is subject to certain limitations.

Courses completed through correspondence study may *not* be applied to the master's degree.

To qualify for a graduate degree, students must achieve an overall grade point average of 3.0 or higher in the degree program coursework and in all resident graduate coursework attempted. A student must also have at least a 3.0 in all coursework (including undergraduate coursework if any).

Additional information for master's degree students may be found in the Graduate College Bulletin.

Social Work: Advanced Standing, M.S.W.

Social Work with American Indians, Graduate Certificate

Minimum Total Hours: 15

Program Code: G104 (Online: G105)

The Anne and Henry Zarrow School of Social Work offers an embedded Graduate certificate in Social Work with American Indians. Typically obtaining a certificate does not add courses to your MSW degree but rather specifies the electives taken.

Courses cannot be double counted towards more than one graduate certificate, and certificates cannot be added post-graduation.

Certificate Requirements

Code	Title	Credit Hours
S WK 5343	Social Work with American Indians	3
S WK 5303	American Indian Behavioral Health	3
S WK 5283	Tribal-U.S.Child/Family Welfare Policy and Practice	3
Choose 6 hours from S WK and/or NAS as approved by the Graduate Liaison and Social Work with American Indians Certificate Coordinator		6
Total Credit Hours		**15**

A graduate *certificate* is not a graduate *degree*. A graduate degree represents a program of independent inquiry beyond the depth of coursework alone, while a graduate certificate represents a set of courses only.

- All courses must be taken at OU. No transfer credit will apply.
- No course substitutions are permitted for graduate certificates.
- Coursework applied to a graduate certificate cannot be more than five years old as of the semester the graduate certificate is awarded.
- Students must earn a grade point average of 3.00 or higher on all coursework applied to the graduate certificate.

Social Work, Ph.D.

Minimum Total Hours: 90

Program Code: D840 (Online: D841)

Program Requirements

Code	Title	Credit Hours
Core Courses

Choose 6 hours of graduate level courses in Advanced Statistics or Methods		6
Dissertation Research		
S WK 6980	Research for Doctoral Dissertation	5
Additional Coursework		
A master's degree in social work (30-60 hours) is mandatory, and students may transfer up to 44 hours from their completed MSW or MSSW. Individuals transferring 30-44 hours will require 1-15 additional coursework hours to achieve 90 post-baccalaureate hours, subject to approval by the advisor and doctoral committee.		45
Total Credit Hours		**90**

General Requirements for Doctoral Degrees

A student should expect to spend at least the equivalent of three full academic years beyond the bachelor's degree to obtain the doctoral degree. During this period the student will take appropriate graduate coursework, successfully complete the general examination, and successfully defend and submit the final dissertation.

All coursework applied to the doctoral degree must carry graduate credit.

The doctoral degree requires at least 90 post-baccalaureate hours, including both formal coursework and hours of research.

The minimum hour requirement for a specific doctoral degree program cannot be waived.

No more than one-half of the credit hours, both OU and overall, excluding Research for Doctoral Dissertation (6980), may be *S/U*-graded coursework.

The student must be in residence at OU for at least two consecutive 16-week semesters during the pursuit of the doctoral degree while enrolled and engaged in coursework or research activities as prescribed by the major academic unit.

For more detailed regulations and requirements for Doctoral degrees, please consult the Graduate College Bulletin: http://www.ou.edu/gradcollege/forms/bulletin

General Information

The Department of Sociology has two interrelated missions: to provide the highest quality education at the baccalaureate, master's, and doctoral levels, and to foster state-of-the-art research among faculty and graduate students. Teaching and research in the department help meet the needs of the state and nation by addressing important social issues. The undergraduate program contains two degree options, one in general

sociology and one in criminology. Graduate level areas of concentration are class stratification, criminology and deviance, family, gender, cross-national Sociology, race and ethnicity, religion, and social psychology. Contemporary issues within these areas are emphasized, and their historical, comparative, and global dimensions are explored. Through research, we seek to update and refine knowledge in each area to assist in formulating and evaluating social policy.

At both the undergraduate and graduate levels, coursework in Sociology provides an analytic research emphasis for studying, understanding, and explaining major issues. Research in these areas updates and refines knowledge and, further, helps formulate and evaluate social policy.

The undergraduate curriculum in sociology prepares students for jobs in a wide-variety of occupations and for admission to advanced degree programs, especially in sociology, law, and criminal justice. The graduate program provides more intensive instruction and stimulates further intellectual growth and maturity. Graduate students completing a degree in sociology typically find employment in academic settings as professors and researchers, and in the public or private sectors as statistical analysts and research coordinators. The quality of the programs in sociology can be measured by the successful placement of our graduates in agencies, corporations, graduate and professional programs, research settings, and colleges and universities.

A major strength of the department's graduate program is its training in research methods and statistics. The department maintains its own computer lab equipped with advanced statistical package software. Core seminars in statistics and methods encourage participation in all phases of research, from research design to data collection and analysis to the presentation of findings. Strength in this area complements coursework in the department's three substantive areas of interest, and encourages students to be independent researchers and informed teachers. The department's graduate students regularly present research papers at professional meetings, and have been very successful in winning competitions with these papers.

Programs & Facilities

Inside-Out Prison Exchange Program

The Inside-Out Prison Exchange Program is an educational program tailored to effectively facilitate dialogue across difference. It originated as a means of bringing together campus-based college students with incarcerated students for a semester-long course held in a prison, jail or other correctional setting.

ADQUANT - Advanced Quantitative Methods Working Group

The Advanced Quantitative Methods Working Group (ADQUANT) is a collaborative forum for the discussion and dissemination of quantitative approaches to data analyses across the social sciences. We are interested in developing an understanding of advanced statistical methods and facilitating interdisciplinary approaches to data analyses throughout the OU campuses and beyond.

Sociology and Criminology Club

The purpose of the Sociology/Criminology Club (SCC) is to provide a forum for undergraduate students who are interested in criminology and sociology. The mission of the SCC is to inform its members about careers, internships, graduate study, and other opportunities available in criminology and sociology and to provide a setting in which they can meet and socialize with other students who share similar interests.

Undergraduate Study

Bachelor of Arts

The Department of Sociology at OU offers two options within the Bachelor of Arts in Sociology program: the General Sociology (p. 791) option and the Criminology (p. 794) option. The general sociology option gives students a broad education in the field of sociology, and students can select any type of upper-division sociology electives to complete the major. The criminology option focuses on criminology, a specialized area within sociology, so students on this track take upper-division electives that focus on the nature, extent, causes, and control of criminal behavior.

Students considering a major in Sociology should contact the department for assistance in selecting courses which contribute to the student's educational and career plans. Students who intend to pursue careers in social agencies, corporations, or research settings will be advised regarding courses most appropriate to those interests. Students wishing to enroll in graduate or professional school will be advised regarding courses normally prerequisite to such work.

Minors

- General Sociology Minor (p. 796)
- Criminology Minor (p. 796)

Accelerated Bachelor's and Master's Degree (BA/MA Program)

The sociology department is excited to offer an accelerated Bachelor's and Master's Degree in Sociology. This program is designed to be completed in 5 years, with students leaving the program with a Bachelor's degree in Sociology or Criminology as well as a Master's Degree in Sociology.

This track provides the same rigorous training in graduate level sociology/criminology, social scientific research methods, and producing publication quality sociological/criminological research as our terminal graduate Master's Degree, but is designed to be completed co-currently with the final series of upper division undergraduate coursework. We believe this track provides our outstanding undergraduate students with a head start on their graduate careers as well as some of the job opportunities made available by completing an advanced social science research degree.

Graduate Study

Admission Requirements

See Department of Sociology graduate programs page for admission information.

Masters Programs

The Master of Arts in Sociology (p. 800) program emphasizes the learning of research methods and statistics in conjunction with chosen substantive area(s) of interest. The department offers six different courses in which graduate students develop research skills.

The Master of Science in Criminal Justice (p. 800) program focuses on the practices and knowledge bases needed to be a successful in the criminal justice workforce. Students explore both the theoretical aspects of criminal justice and applied practices. Combining the knowledge of specific, work-related principles with the mind-set of a liberal education, allows students to approach new ideas, projects, and challenges by

drawing upon multiple perspectives. Electives in the Criminal Justice program can be utilized to pursue specific areas of interest and to develop greater depth of expertise in particular areas of criminal justice study, such as leadership/administration, restorative justice, drug abuse policy & management, or corrections.

Doctoral Program

The Ph.D. in Sociology (p. 802) emphasizes the learning of research methods and statistics in conjunction with chosen substantive area(s) of interest. With few exceptions, the student seeking the Sociology Ph.D. anticipates a career in teaching and/or research. Departmental requirements emphasize professional competence in sociology as a whole, especially research methodology, and expertise in two fields within sociology. At the PhD level, the student should acquire a broad knowledge of the fundamentals of sociology and a focused specialization in two substantive areas of expertise.

A plan of study, filed formally with the Dean of the Graduate College, should develop the student's knowledge of and expertise in sociology broadly defined, as well as two substantive areas of sociological expertise. The plan of study must include the core requirements for the MA plus one additional theory course. This is especially important to highlight for students who are transferring credits from other universities or entering the doctoral program with a Master's degree in a related field. The plan of study must contain sufficient coursework to prepare a student for the general examination. The program of coursework and the committee can be amended as needed. A maximum of 44 credit hours may be transferred from other universities with the permission of a student's advisory committee and the Dean of the Graduate College.

The purpose of the graduate coursework is to prepare the student for the general examination and the dissertation. The accumulation of coursework, in and of itself, does not constitute progress toward the degree.

The general examination in sociology consists of a written component and an oral component. It usually is taken in the fall semester of the third year of the program. Once the relevant elements of the written component of the exam are considered satisfactory, then the student may proceed to the oral component of the general exam. In cases where the student's written answers were considered satisfactory but the performance on the oral component of the exam was not, they will retake the oral component of the general exam in the following semester (timing to be determined in consultation with the student's committee). A second unsatisfactory performance on the oral component of the general exam will result in dismissal from the program.

The doctoral dissertation is written and defended under the guidance of the student's doctoral committee consisting of five members of the graduate faculty, at least one of whom is from outside the Department of Sociology.

Ph.D. students, having sole responsibility for teaching a course in the Department, are also required to take Professionalization Seminar and the Teaching Seminar (SOC 5831).

Courses

CRJU 5013 Foundations of Criminal Justice 3 Credit Hours
Prerequisite: Graduate standing and majors only. This course explores key criminological theories including classical, biological, psychological, and sociological perspectives, evaluating their relevance to criminal behavior. It examines the structure, function, and challenges of the American criminal justice system, including law enforcement, courts, and corrections. Emphasizing the integration of theory and practice, students learn to assess policies and develop informed solutions to contemporary crime issues. (F, Sp, Su)

CRJU 5063 Research Methods for Criminal Justice 3 Credit Hours
Prerequisite: graduate standing, CAS 5003 and CAS 5013; or permission of dean. Introduces students to conducting and evaluating scientific research of the criminal justice system. Research methods overview the basics of research methodologies, with a focus on measurement and data collection. Statistical analysis overviews basic statistical techniques for analysis of criminal justice data, with a focus on both descriptive and inferential statistics. (F, Sp, Su)

CRJU 5073 Quantitative Research and Analysis 3 Credit Hours
Prerequisite: Graduate standing and CRJU 5063; or permission of academic advisor. This course is designed as an introduction to quantitative statistical methods and their application in criminology and criminal justice research. The course features an overview of the use and interpretation of descriptive, inferential, and predictive statistics. Basic regression and data analysis techniques are discussed, along with bivariate and multivariate techniques. (F, Sp, Su)

CRJU 5083 Qualitative Research Methods in Criminal Justice 3 Credit Hours
Prerequisite: Graduate standing and CRJU 5063; or permission of academic advisor. This course is an introduction to the use of qualitative research methods and analysis in criminal justice research, including practical application of methods addressed in the course. (F, Sp, Su)

CRJU 5113 Theoretical Foundations of Criminal Justice 3 Credit Hours
Prerequisite: graduate standing. Enhances students' understanding of criminal theory focusing on critical analysis of major theoretical perspectives in a social, historical and political context. (F, Sp, Su)

CRJU 5123 Criminal Justice Administration 3 Credit Hours
Prerequisite: Graduate standing and Majors only. This course provides an in-depth examination of criminal justice administration through a focus on criminal justice organizations, emphasizing how structure, environment, and human behavior shape organizational performance in policing, courts, and corrections. Students explore fundamental organizational concepts, formal structures, and the broader political, legal, and community environments in which criminal justice agencies operate. (F, Sp, Su)

CRJU 5133 Criminal Justice Policy Development 3 Credit Hours
Prerequisite: graduate standing. Students will learn how to measure policies against established standards of practice and case law, writing model policies to gain experience in the process, and evaluating policies to see if they actually work. (F, Sp, Su)

CRJU 5153 Ethical Decision Making in Criminal Justice 3 Credit Hours
Prerequisite: graduate standing. Principles from the major ethical positions charted by Plato, Aristotle, Hume, Mill, Kant, and Rawls. Students will combine these principles with codes of practice and current case law, examine case vignettes and discuss the ethical components of each case. (F, Sp, Su)

CRJU 5163 Program Evaluation 3 Credit Hours
Prerequisite: Criminal Justice Majors only and graduate standing. This graduate course introduces program evaluation concepts and practice, including public policy analysis. It explores evaluation functions, components, types, ethics, causation, and limitations. Students will review actual evaluations, present, and design their own program evaluation for a social intervention or criminal justice policy. The course emphasizes understanding evaluation constraints, communication of designs and results, and best dissemination practices. (F, Sp, Su)

CRJU 5173 Social Issues in Criminal Justice 3 Credit Hours
Prerequisite: Graduate Standing and Majors Only. This course examines how major U.S. social issues intersect with the criminal justice system. Students analyze policies and alternatives addressing inequality across race, class, gender, sexual orientation, homelessness, and mental illness. Using case studies and policy analysis, the course highlights how social conditions influence justice practices and explores innovative approaches that advance equity and reform. (F, Sp, Su)

CRJU 5183 Juvenile Justice 3 Credit Hours
Prerequisite: Graduate standing and majors only. This course examines the United States juvenile justice system, historically intended to rehabilitate youth. It explores demographic differences including urban, rural, gender, race, and socioeconomic status across law enforcement, courts, and corrections. The course also analyzes how juvenile crime is measured, evaluates the accuracy of various methods, and considers the impact of these measurements on the justice system. (F, Sp, Su)

CRJU 5203 Victimology and Restorative Justice 3 Credit Hours
Prerequisite: graduate standing, CAS 5003, and CRJU 5113; or permission of dean. A survey of the evolving field of victimology from its preoccupation with the study of the victim as a co-active participant in crime to the reemergence of the victim as the focus of the criminal justice system and public policy. This course will also examine the corollary reemergence of the concept of restorative justice. (F, Sp, Su)

CRJU 5213 Mediation & Conflict Resolution for Criminal Justice Professionals 3 Credit Hours
Prerequisite: graduate standing, CAS 5003, and CRJU 5113; or permission of dean. An examination of practical strategies for managing and resolving conflicts in criminal justice professions. (F, Sp, Su)

CRJU 5223 Community Corrections in the 21st Century 3 Credit Hours
Prerequisite: graduate standing, CAS 5003, and CRJU 5113; or permission of dean. Introduction to the topics of probation, parole, and other alternatives to incarceration, collectively referred to as Community Corrections. Emphasis will be placed on the role of research and program evaluation in determining policy/program effectiveness. (F, Sp, Su)

CRJU 5263 Restorative Justice Programs for Drug Offenders 3 Credit Hours
Prerequisite: graduate standing, CAS 5003, and CRJU 5113; or permission of dean. An exploration of the restorative justice model focusing on how drug courts have implemented key principles of restorative justice programs to deter crime and improve public health. (F, Sp, Su)

CRJU 5283 Human Trafficking and Prostitution 3 Credit Hours
Prerequisite: Graduate standing, CAD 5003 and CRJU 5113. This course will unpack the international debate on trafficking and prostitution by examining the intersections of contemporary social issues, gender bias, poverty, social hierarchies, and culture that perpetuate human trafficking. We will critique mainstream trafficking frameworks that often result in re-victimization of vulnerable people and explore feminist debates on sex work and competing policy approaches to regulating sex work. (F, Sp, Su)

CRJU 5303 Correctional Leadership 3 Credit Hours
Prerequisite: graduate standing, CAS 5003, and CRJU 5113; or permission of dean. A review of leadership styles, core competencies demonstrated by effective correctional leaders, skills sets needed for each managerial level within corrections, and elements of leadership that effect the development of a collaborate and dynamic workforce. (F, Sp, Su)

CRJU 5343 Mental Illness and the Criminal Justice System 3 Credit Hours
Prerequisite: graduate standing, CAS 5003, and CRJU 5113; or permission of dean. An examination of mental illness in the criminal justice system. (F, Sp, Su)

CRJU 5353 Women and Crime 3 Credit Hours
Prerequisite: graduate standing, CAS 5003 and CRJU 5113; or permission of dean. Provides an in-depth examination of women and crime, particularly in the United States, from a sociological perspective, focusing on theoretical explanations, women as offenders, women as victims of crime, and societal responses to female crime. (F, Sp, Su)

CRJU 5363 Penology 3 Credit Hours
Prerequisite: graduate standing, CAS 5003 and CRJU 5113; or permission of dean. An exploration of key issues and emerging themes in scholarship on penology and corrections. Specific attention will be devoted to the United States and the significant correctional issues that it faces including theories of punishment, the history of incarceration, the current state of corrections in the United States, international comparisons in prisons, and an investigation of the future of incarceration. (F, Sp, Su)

CRJU 5403 Drug Enforcement Operations and Management 3 Credit Hours
Prerequisite: graduate standing, CAS 5003, and CRJU 5113; or permission of dean. This course will examine how criminal justice professionals administer and manage drug investigations. Administrative topics will include personnel issues, policy development, and budgeting. Operational management topics will include informant management, undercover operations, tactical operations, wire-intercepts, and money laundering investigations. (F, Sp, Su)

CRJU 5413 Substance Abuse and Crime in the United States 3 Credit Hours
Prerequisite: graduate standing, CAS 5003, and CRJU 5113; or permission of dean. An examination of substance abuse trends in the United States. Topics include the interrelationship between substance abuse and dependency, substance abuse treatment and the criminal justice system, and the effectiveness of drug policies and programs. (F, Sp, Su)

CRJU 5423 Global Drug Trafficking, Narco-Terrorism, and United States Drug Policy 3 Credit Hours
Prerequisite: graduate standing, CAS 5003, and CRJU 5113; or permission of dean. An examination of the global nature of drug supply and demand, organizations involved in drug trafficking and narco-terrorism, and the implementation of US drug policies at the local, state, and federal levels. (F, Sp, Su)

CRJU 5453 The Federal Criminal Justice System 3 Credit Hours
Prerequisite: Criminal Justice Majors only and graduate standing. This course provides an overview of the federal criminal justice system, including federal courts, judges, prosecutors, law enforcement, and distinctions from state systems. It covers prosecution steps, constitutional protections, sentencing guidelines, and examines issues like prosecutorial discretion, FISA court, plea bargaining, and jury selection affecting federal justice administration. (F, Sp, Su)

CRJU 5463 Gangs in the United States 3 Credit Hours
Prerequisite: graduate standing, CAS 5003 and CRJU 5113; or permission of dean. Gang formation, risk factors for joining gangs, and the efficacy of different types of prevention, intervention and interdiction policies. The historical backgrounds of gangs, drugs, and violence in America, as well as current issues related to these subjects, will be explored. (F, Sp, Su)

CRJU 5513 Studies in Police Leadership 3 Credit Hours
Prerequisite: graduate standing, CAS 5003, and CRJU 5113; or permission of dean. An exploration of the dynamics of leadership within the law enforcement context, including the history and evolution of police administration, general leadership theories, management best practices, as well as contemporary issues confronting the profession. (F, Sp, Su)

CRJU 5533 Crime Analysis for Intelligence-Led Policing 3 Credit Hours
Prerequisite: graduate standing, CAS 5003, and CRJU 5113; or permission of dean. Introduction to crime analysis and the use of data to intelligently prevent and/or interdict crime. (F, Sp, Su)

CRJU 5583 Cyber-Forensics 3 Credit Hours
Prerequisite: graduate standing, CAS 5003, and CRJU 5113; or permission of dean. An examination of the legal, ethical and technical aspects of cyber-forensics. (F, Sp, Su)

CRJU 5700 Advanced Topics in Criminal Justice 2-9 Credit Hours
2 to 9 hours. Prerequisite: graduate standing. May be repeated with change of content; maximum credit 12 hours. Advanced studies in various criminal justice topics, offered under stated titles determined each semester by the instructor involved. (F, Sp, Su)

CRJU 5920 Internship in Criminal Justice 2-6 Credit Hours
2 to 6 hours. Prerequisite: graduate standing, CAS 5003, and permission of dean. May be repeated; maximum credit six hours. 2-6 hours. Field experience directly related to study focus in the Criminal Justice program. Requirements include some combination of journal, progress reports, written summary of experiences, or academic paper, and a possible comprehensive examination over these materials. (F, Sp, Su)

CRJU 5953 Demonstration Project 3 Credit Hours
Prerequisite: Criminal Justice Majors only and graduate standing. The Demonstration Project is meant to be the culmination of the MS program in Criminal Justice. It gives students an opportunity to demonstrate the skills they have developed in the program, providing a "final experience" that fits with their specific interests. (F, Sp, Su)

CRJU 5960 Directed Readings in Criminal Justice 2-9 Credit Hours
2 to 9 hours. Prerequisite: graduate standing, CAS 5003, and completion of first concentration course; or permission of dean. May be repeated with change of content; maximum credit 9 hours. In-depth study of literature on a topic related to the student's program of study; variable content. (F, Sp, Su)

CRJU 5970 Special Topics/Seminar 1-3 Credit Hours
1 to 3 hours. Prerequisite: graduate standing, CAS 5003, and completion of first concentration course; or permission of dean. May be repeated; maximum credit nine hours. Special topics or seminar course for content not currently offered in regularly scheduled courses. May include library and/or laboratory research and field projects. (Irreg.)

CRJU 5980 Research for Master's Thesis 2-9 Credit Hours
2 to 9 hours. Prerequisite: graduate standing, CAS 5003, CAS 5013, and completion of first concentration course; or permission of dean. May be repeated; maximum credit six hours. Research and writing of a thesis for completion of PACS graduate degrees. (F, Sp, Su)

CRJU 5990 Independent Study 1-3 Credit Hours
1 to 3 hours. Prerequisite: graduate standing, CAS 5003, and completion of first concentration course; or permission of dean. May be repeated; maximum credit nine hours. Contracted independent study for a topic not currently offered in regularly scheduled courses. Independent study may include library and/or laboratory research and field projects. (Irreg.)

SOC 1113 Introduction to Sociology 3 Credit Hours
The fundamental concepts of sociology; foundations of group life; social change, processes, and problems. (F, Sp, Su) [III-SS] .

SOC 1523 Social Problems 3 Credit Hours
Analysis of major social problems of contemporary U.S. and policy debates concerning them. Examination of social science theory and research that are relevant to understanding these problems. Development of social institutions in which social problems occur. (F, Sp, Su) [IV-WC] .

SOC 2001 Career Exploration for Sociology 1 Credit Hour
Prerequisite: SOC 1113. This course will explore the range of career options in sociology and other fields available to those with bachelor's and graduate sociology degrees, and provide academic planning assistance. Sub-disciplines within the field of sociology will be examined as well as graduate school application processes. (F, Sp, Su)

SOC 2970 Special Topics 1-3 Credit Hours
1 to 3 hours. Prerequisite: May be repeated; maximum credit nine hours. Special topics course for content not currently offered in regularly scheduled courses. May include library and/or laboratory research, and field projects. (Irreg.)

SOC 3023 Sociology of Organized Crime 3 Credit Hours
Prerequisite: Sophomore standing and higher or permission from instructor. The course examines the mafias from several perspectives: historical, political, cultural and sociological. In addition, the course focuses on a comparative analysis of the mafias in the United States and Italy. (Irreg.)

SOC 3123 Social Statistics 3 Credit Hours
(Crosslisted with P SC 3123) Prerequisite: SOC 1113 and any General Education Math EXCEPT Philosophy 1113 or Philosophy 3113. Descriptive and inferential statistics as they are used in sociology to analyze survey and macro-level data. Problems of research design and interpretation of analysis in sociological theory are major topics. A grade of C or better in this course is a prerequisite for Sociology capstone courses. (F, Sp, Su)

SOC 3133 Methods of Social Research 3 Credit Hours
Prerequisite: SOC 1113 and MATH 1005 or satisfactory score on math placement assessment or any General Education Math course. Basic elements of the scientific method as applied to the study of human group life. Examines the problem of conceptualization, the formulation of hypotheses, designs of proof, the interdependence of theory and fact and the techniques and procedures for assembling and ordering of data. A grade of C or better in this course is a prerequisite for Sociology capstone courses. (F, Sp, Su)

SOC 3353 Race, Class and Gender 3 Credit Hours
(Crosslisted with WGS 3353) Prerequisite: junior standing or permission of instructor. Explores the intersections of race, ethnicity, class, gender and sexuality. Focus is on how systems of power and oppression reinforce each other,how they intersect in shaping social structure and individual experiences, and how the systems of oppression are mutually reinforcing. Theories and practice of intersectionality, how gender, race, class and other categories of identity are constructed and reproduced in social, political and economic structures, and experienced in every day life. (F, Sp)

SOC 3363 Sociological Theory 3 Credit Hours
Prerequisite: SOC 1113 and ENGL 1213 or EXPO 1213; majors only; not open to freshmen. Consideration of classical sociologists including Durkheim, Weber, and Marx. Attention is devoted to the application of classical theories to current research issues. (F, Sp)

SOC 3440 Mentored Research Experience 3 Credit Hours
0 to 3 hours. Prerequisites: ENGL 1113 or equivalent, and permission of instructor. May be repeated; maximum credit 12 hours. For the inquisitive student to apply the scholarly processes of the discipline to a research or creative project under the mentorship of a faculty member. Student and instructor should complete an Undergraduate Research & Creative Projects (URCP) Mentoring Agreement and file it with the URCP office. Not for honors credit. (F, Sp, Su)

SOC 3523 Criminology 3 Credit Hours
Prerequisite: 1113 or sophomore standing. A study of the nature and causes of various forms of deviant and illegal behavior, especially serious personal injury and property crimes (e.g., homicide, burglary). While some consideration is given to biological and psychological explanations, the primary focus is on sociological theories that attempt to explain crime, criminality, and victimization in modern societies. (F, Sp)

SOC 3533 The System of Criminal Justice 3 Credit Hours
Prerequisite: 1113 or permission of instructor. An analysis of the sociological literature on the American system of criminal justice, viewed as a system of social control. Emphasis is on the functional significance of the system in relation to the various interests represented in the law. Attention given to special problems in each of the major components of the system: law enforcement, the administration of justice and corrections. (F, Sp)

SOC 3543 Sociology of Deviance 3 Credit Hours
Prerequisite: SOC 1113 or permission of instructor. The sociological study of deviant behaviors. Focus is on sociological theories and processes by which behaviors are defined as deviant, and how these definitions affect the individual. (F, Sp)

SOC 3553 Sociology of Law 3 Credit Hours
Prerequisite: 1113 or permission of instructor. Provides a sociological understanding of the interrelationship between law and society. Covers the origins of law, types of legal systems, theories of punishment, and examines law as an independent variable (i.e., as a mechanism for social change) and as a dependent variable (i.e., how laws are created or changed by social pressure). (F, Sp)

SOC 3573 Sexuality, Media, and Crime 3 Credit Hours
Prerequisite: ENGL 1213 or EXPO 1213. The sociological constructions of gender and sexuality will be examined through the context of several forms of American media including advertising, television, and film. Also examines stigma, hate crimes, and violence based on gender and sexuality including LGBTQ identities/experiences. (Irreg.)

SOC 3583 Federal Criminal Justice System 3 Credit Hours
Prerequisite: SOC 1113 or permission of instructor; course not open to freshmen. This course provides an overview of the federal criminal justice system, including the structure and functions of the federal court system, distinctions between state and federal justice systems; federal law enforcement agencies and types of crimes prosecuted by the U.S. Department of Justice and federal punishment under the United States Sentencing Guidelines including critical issues and policies. (Irreg.)

SOC 3593 Sexual Deviance and Society 3 Credit Hours
Prerequisite: ENGL 1213 or EXPO 1213. A critical examination of the sociology of deviant sexual behaviors. Investigations of deviance, criminology and gender through the study of sexual behavior, sex crimes, and victimology. (Irreg.)

SOC 3603 Sociology of Education 3 Credit Hours
Prerequisite: SOC 1113. Examines a variety of historical and contemporary educational issues. Major themes include the function of education in society, racial/ethnic segregation in public schools, the relationship between education and social mobility, and school reform. (Irreg.)

SOC 3613 Global Social Problems 3 Credit Hours
Prerequisite: SOC 1113 or Junior standing. Provides an overview of pressing global social problems with attention to developing insights into the conceptual analyses of meaningful solutions from a sociological perspective. Readings discuss the relationships among various levels of the social system, so that social roots of pressing issues are recognized and used as a tool to suggest alternative approaches to address them. (Irreg.) [III-SS].

SOC 3623 Sociology of Race and Ethnicity 3 Credit Hours
Prerequisite: SOC 1113 or permission of instructor. This course explores the historical and contemporary issues surrounding the impact that race and ethnicity have on U.S. society. You will examine how racial and ethnic criteria often guide important economic, political, and social decisions that affect access to resources by various groups, usually having significant consequences for the individual. (Irreg.)

SOC 3643 Population and Society 3 Credit Hours
Prerequisite: SOC 1113 or permission of instructor. Introduction to population study. Analysis of human mortality, fertility and migration. Evaluation of demographic theories with emphasis on social and cultural factors. (Irreg.)

SOC 3663 Sociology of Music 3 Credit Hours
Prerequisite: Junior standing. The course is an historical, theoretical, and sociological exploration of music. The course addresses diverse topics such as how the current system of music developed, the distinction between high culture and popular culture, and the ways race, gender, class and other social distinctions influence the production and consumption of music. (Irreg.) [III-SS].

SOC 3683 Wealth, Power, and Prestige 3 Credit Hours
Prerequisite: 1113 or sophomore standing or above. Examines the systems in which the central elements of class stratification--wealth, power, and prestige--are created and distributed and addresses the issue of "who gets how much and why?". Topics include a review of the theories and evidence in current stratification studies and an assessment of the racial, ethnic, and religious correlates of inequality. (F, Sp)

SOC 3703 Italian Westerns in Global Context 3 Credit Hours
Prerequisite: Sophomore Standing or Department Permission. Students will classify, critique, and compare Italian Western films, especially those released in the late 1960s. Students will collaborate to explore and construct knowledge about the economic, political, and social contexts for the production and consumption of this film genre, both in Italy and globally. Students will develop an appreciation for these films from academic and popular culture perspectives. (Irreg.)

SOC 3713 Medical Sociology 3 Credit Hours
Prerequisite: SOC 1113 or permission of instructor. A study of cultural and class factors in health and morbidity. Focus is on the social organization of medical services, including discussion of the hospital as a social institution. The role of medical and paramedical personnel and the interaction of the medical system with other social institutions such as government, church, education, and family. (Sp)

SOC 3723 Sociology of Family 3 Credit Hours
Prerequisite: 1113 or sophomore standing or above. The sociological study of the family as an institution; the origin and development of the family; the interrelationships of the family and the larger society; the environmental conditions which seem to favor the development and continuance of the major family forms; the rise of the modern democratic family; characteristic patterns of change in the contemporary family. (F, Sp) [IV-WC] .

SOC 3733 Sociology of Gender 3 Credit Hours
Prerequisite: 1113 or permission of instructor. Sociological analysis of the reinforcement of gender roles by the major institutions of society. Examine the effects on gender roles of education, mass media, economics, public policy, law, religion, and society. (Irreg)

SOC 3773 Sociology of Religion 3 Credit Hours
Prerequisites: SOC 1113 or sophomore standing. Using the perspectives and methods of social science, and particularly sociology, the common social dimensions of all religions including moral definitions; micro-level processes of membership, conversion and socialization; the life-cycle of religious institutions; and religion's relationship to health, science, and important institutions like the American family, economy, and politics will be examined. (F, Sp, Su)

SOC 3803 Inequality in A Global Perspective 3 Credit Hours
Prerequisite: SOC 1113 or sophomore standing or above. Examines the causes and consequences of socioeconomic inequality in contemporary societies (including the United States) by using theories and research evidence from the vantage point of international political economy. Topics include the nature, structure, and hierarchy of the global economy; the link between international and national distributions of wealth and power; and the racial, ethnic, and religious correlates of social inequality. (Irreg.)

SOC 3813 Individual and Society 3 Credit Hours
Prerequisite: ENGL 1213 or EXPO 1213. Introduction to social psychological theories and findings. Covers socialization, identity development, emotions, social interaction, deviant behavior, and small group behavior. (Irreg.)

SOC 3843 Sociology of Aging 3 Credit Hours
Prerequisite: 1113 or permission of instructor. Comprehensive description of the dimensions of aging. The point of departure is the notion that to talk meaningfully about one aspect of aging requires consideration of its other dimensions. (Irreg)

SOC 3853 Sociology of the Body 3 Credit Hours
Prerequisite: SOC 1113. Examines various forms of body modification from a sociological perspective including: sociological theories on the body, body modification conceptualized as "body art," normalization surgeries, and cosmetic modifications. (Irreg.)

SOC 3893 Environment, Ecology and Society 3 Credit Hours
Prerequisite: SOC 1113 or permission of instructor. Examines relationships between environmental factors and human social arrangements. The class will be organized around these and a number of related topics, which will help to shape the readings, lectures, and discussions. (Irreg.)

SOC 3900 Special Topics in Sociology 1-3 Credit Hours
1 to 3 hours. Prerequisite: 1113 or permission of instructor. May be repeated with change of content; maximum credit six hours. Cover topics not currently offered in regularly scheduled courses. (Irreg)

SOC 3903 The Sociology of Urban Street Gangs 3 Credit Hours
Prerequisite: SOC 1113 and SOC 3523 and junior standing. Focusing on a sociological understanding of gangs, this course will provide an overview of research on gangs and theoretical perspectives of gang membership, while paying close attention to the interplay of social structure, gang dynamics, and the life-course of individual gang members. (Irreg.)

SOC 3913 The Death Penalty in the United States 3 Credit Hours
Prerequisite: 1113 and 3523. Provides an overview of capital punishment in the United States, and Oklahoma in particular, from a sociological perspective. History of capital punishment in the United States specific cases related to the death penalty, and arguments for and against the use of capital punishment. (Irreg.)

SOC 3923 Alcohol, Drugs and Society 3 Credit Hours
Prerequisite: 1113 and 3523. Explores sociological explanations of alcohol and drug use with a special emphasis on current issues in the United States. (Irreg.)

SOC 3933 Inside/Out: Drugs, Alcohol, and Society 3 Credit Hours
Prerequisite: SOC 1113, SOC 3523, and departmental permission; Course not open to Freshmen. This is an "inside-out" course. Taught with half enrollment of "inside students" from a correctional facility and "outside students" from OU. Explores sociological explanations of alcohol and drug use with a special emphasis on current issues in the United States. (Irreg.)

SOC 3943 Inside/Out: The Family and Crime 3 Credit Hours
Prerequisite: SOC 1113, SOC 3523 and departmental permission; Course not open to Freshmen. The "Inside-Out" Prison Exchange Program is an opportunity for students from OU and a group of prison residents to exchange ideas about a variety of issues. Our focus is the family and crime, and we will delve into causes of crime, the role of families, the effects of contact with the criminal justice system on families and communities, etc. (Irreg.)

SOC 3953 Juvenile Justice 3 Credit Hours
Prerequisite: 1113 or permission of instructor. Course examines criminal measurement of juvenile crime, theories of delinquency, legal rights of juveniles and the juvenile justice system. (Irreg.)

SOC 3960 Honors Reading 1-3 Credit Hours
1 to 3 hours. Prerequisite: 1113 and permission of instructor and admission to Honors Program. May be repeated; maximum credit six hours. Will consist of topics designated by the instructor in keeping with the student's major program. The topics will cover materials not usually presented in the regular courses. (Irreg)

SOC 3970 Honors Seminar 1-3 Credit Hours
1 to 3 hours. Prerequisite: 1113 or permission of instructor and admission to Honors Program. May be repeated; maximum credit six hours. The projects covered will vary. The content will deal with concepts not usually presented in regular coursework. (Irreg)

SOC 3973 Sociology of Violence 3 Credit Hours
Prerequisite: SOC 1113 and SOC 3523. An examination of the causes, correlates and consequences of various forms of violent crime. An emphasis on the social nature of violence, social institutions related to violence and the social costs of violence. (F, Sp)

SOC 3980 Honors Research 1-3 Credit Hours
1 to 3 hours. Prerequisite: 1113 or permission of instructor and admission to Honors Program. May be repeated; maximum credit six hours. Will provide an opportunity for the gifted Honors candidate to work at a special project in the student's field. (Irreg)

SOC 3983 Women, Girls and Crime 3 Credit Hours
Prerequisite: SOC 1113 and SOC 3523, or permission of instructor. In-depth examination of crime and the justice system as it relates to girls and women. The focus will be on girls and women as victims, girls and women as offenders, and criminal justice responses to girls and women. (F, Sp)

SOC 3990 Independent Study 1-3 Credit Hours
1 to 3 hours. Prerequisite: permission of instructor and junior standing. May be repeated once with change of content. Independent study may be arranged to study a subject not available through regular course offerings. (F, Sp, Su)

SOC 3993 Sociology of Gender and Sexuality in the Media 3 Credit Hours
Prerequisite: ENGL 1213 or EXPO 1213. The sociological constructions of gender and sexuality will be examined through the context of several forms of American media including advertising, television, and film. Explores how manifestations of "normative" behaviors are reproduced and maintained through media representations of gender and sexuality. Examines advertising, television, and film as they relate to societal shifts in attitudes toward gender and sexuality. (Irreg.)

SOC 4033 Sociology of Housing 3 Credit Hours
(Slashlisted with SOC 5033; Crosslisted with RCPL 4033) Prerequisite: ENGL 1213 or EXPO 1213, Junior standing, and Departmental Permission. This course introduces students to socioeconomic, political, and equity issues in housing. Students will engage with planning and policy issues to understand the history of housing and interventions for diverse populations. Topics will cover primarily U.S. Housing policy and practices with some comparative international examples. No student may earn credit for both 4033 and 5033. (Irreg.)

SOC 4113 International Migration 3 Credit Hours
Prerequisite: Junior standing. This course will use sociological theory to understand structural and cultural factors that shape social change in Europe and present real challenges to full participation. (Su) [III-SS].

SOC 4373 Sociology of Climate Change 3 Credit Hours
(Slashlisted with SOC 5373) Prerequisite: SOC 1113 or SOC 1523. The course will prepare students to analyze the climate crisis, including its origins, impacts, and its entanglements with other issues. The course examines potential pathways toward climate stability and climate justice. These issues are examined through a sociological lens while also engaging relevant scholarship in the humanities and other social sciences. No student may earn credit for both 4373 and 5373. (F) [III-SS].

SOC 4603 Internship in Sociology 3 Credit Hours
Prerequisite: SOC 1113, SOC 3123, SOC 3133, and at least two of the following: SOC 3523, SOC 3533, SOC 3543, SOC 3553, SOC 3623, SOC 3683, SOC 3723, SOC 3733. Work experience in the field of sociology under the supervision of a faculty member. While the instructor will assist in finding internship opportunities, the ultimate responsibility is with the student. Internships may be served in any setting related to the field of sociology. Student will be required to develop a paper linking the work experience to scholarly research in sociology. (F, Sp, Su)

SOC 4643 Teaching Assistant Practicum 3 Credit Hours
Prerequisite: SOC 1113 and departmental permission; may be repeated; maximum credit six hours. The Teaching Assistant Practicum is an opportunity for students to work as a TA for a faculty member. Students are assigned to work with a specific faculty member or a specific course. Students gain experience in grading and course management. (Irreg.)

SOC 4843 Capstone in Criminology 3 Credit Hours
Prerequisite: SOC 1113, SOC 3123 (C or better), SOC 3133 (C or better), and at least two of the following: SOC 3363, SOC 3523, SOC 3533, SOC 3543, SOC 3553, SOC 3583, SOC 3623, SOC 3923, SOC 3953, and permission of instructor. Students will actively participate in an in-depth analysis and discussion of current research topics in the sociological study of criminology (crime and delinquency, deviance, sociology of law, criminal justice). Students will use material learned in Sociology 3123, 3133 and 3000-level substantive courses and will be required to demonstrate in written assignments their ability to understand and critique current quantitative research. (F, Sp) [V] .

SOC 4873 World Religions and Society 3 Credit Hours
(Slashlisted with SOC 5873) Prerequisite: sophomore standing. The course examines the major world religions, how they develop historically and in the context of other social institutions. Hinduism, Buddhism, Confucianism, Taoism, Judaism, Christianity, Islam, and Native Traditions will be considered. Students will study how religious institutions are influenced by, and have an influence on, societies and the people in them. No student may earn credit for both 4873 and 5873. (Irreg.) [IV-WDC].

SOC 4943 Capstone in General Sociology 3 Credit Hours
Prerequisite: SOC 1113, SOC 3123 (C or better), SOC 3133 (C or better), and at least two of the following: SOC 3363, SOC 3523, SOC 3623, SOC 3643, SOC 3683, SOC 3713, SOC 3723, SOC 3733, SOC 3753, and permission of instructor. As a component of this course, students will actively participate in an in-depth analysis and discussion of a current research topic or topics in sociology. Students will be expected to use material they have learned in Sociology 3123 and 3133, as well as material in substantive courses, and will be required to demonstrate their ability to understand and critique research. (F, Sp) [V] .

SOC 4960 Directed Readings 1-4 Credit Hours
1 to 4 hours. Prerequisite: good standing in University; permission of instructor and dean. May be repeated; maximum credit four hours. Designed for upper-division students who need opportunity to study a specific problem in greater depth than formal course content permits. (Irreg.)

SOC 4970 Special Topics/Seminar 1-3 Credit Hours
1 to 3 hours. Prerequisite: Senior standing or permission of instructor. May be repeated; maximum credit nine hours. Special topics or seminar course for content not currently offered in regularly scheduled courses. May include library and/or laboratory research and field projects. (Irreg.)

SOC 4990 Independent Study 1-3 Credit Hours
1 to 3 hours. Prerequisite: Fifteen hours of Sociology (including 1113, 3123, 3133) and permission of instructor and department. May be repeated; maximum credit six hours. Contracted independent study for topic not currently offered in regularly scheduled courses. Independent study may include library and/or laboratory research and field projects. (F, Sp, Su)

SOC 5033 Sociology of Housing 3 Credit Hours
(Slashlisted with SOC 4033; Crosslisted with RCPL 5033) Prerequisite: Graduate standing, departmental permission, and instructor permission. This course introduces students to socioeconomic, political, and equity issues in housing. Students will engage with planning and policy issues to understand the history of housing and interventions for diverse populations. Topics will cover primarily U.S. Housing policy and practices with some comparative international examples. No student may earn credit for both 4033 and 5033. (Irreg.)

SOC 5143 Program Evaluation 3 Credit Hours
Prerequisite: Graduate standing. Methodology of planning and evaluating government policies and programs. Emphasizes research design, economic analysis of public policies and programs, and methods for handling threats to the validity of research results. (Irreg.)

SOC 5283 Fundamentals of Sociological Statistics 3 Credit Hours
Prerequisite: SOC 3123 and SOC 3133, or graduate standing in Sociology, or permission of instructor. Advanced statistical concepts and analysis; analysis of variance and covariance; multiple regression analysis; use of computers for statistical analysis. (Irreg.)

SOC 5293 Advanced Methods of Social Research 3 Credit Hours
Prerequisite: SOC 3123 and SOC 3133, or graduate standing in Sociology, or permission of instructor. Advanced research methodology; heavy focus of attention will be on concept measurement, index formation and survey research. (Irreg.)

SOC 5313 Qualitative Research Methods 3 Credit Hours
Prerequisite: graduate standing. Survey of different qualitative methodological strategies used in the social sciences to collect, code, and analyze information. (Sp)

SOC 5333 Seminar in the Criminal Justice System 3 Credit Hours
Prerequisite: graduate standing in Sociology or permission of instructor. A critical examination of the American system of criminal justice. Attention will be given to the unique problems of the system and to each of its component parts. Special emphasis will be placed on the role of extralegal factors in discretionary decision-making by the principal actors within the system. (Irreg.)

SOC 5373 Sociology of Climate Change 3 Credit Hours
(Slashlisted with SOC 4373) Prerequisite: Graduate standing and departmental permission. The course will prepare students to analyze the climate crisis, including its origins, impacts, and its entanglements with other issues. The course examines potential pathways toward climate stability and climate justice. These issues are examined through a sociological lens while also engaging relevant scholarship in the humanities and other social sciences. No student may earn credit for both 4373 and 5373. (F)

SOC 5383 Social Stratification 3 Credit Hours
Prerequisite: graduate standing in Sociology or permission of instructor. In-depth treatment of sociological theories, methods and research in the area of stratification and inequality. (Irreg.)

SOC 5483 Advanced Regression Analysis 3 Credit Hours
Prerequisite: SOC 5283 and graduate standing in Sociology or permission of instructor. A graduate-level introduction to linear regression analysis. Focuses on theory and empirical applications including topics such as model specification, estimation, interpretation, inferences, and assumptions diagnostics. (Irreg.)

SOC 5523 Criminology 3 Credit Hours
Prerequisite: graduate standing in Sociology or permission of instructor. Examines the patterns and correlates of crime at the individual, situational, and aggregate levels. Also includes examination of the history of criminological thought as well as contemporary explanations of crime, with an emphasis on critical evaluation of these explanations. (Irreg.)

SOC 5543 Deviance and Social Control 3 Credit Hours
Prerequisite: graduate standing in Sociology or permission of instructor. A critical examination of the literature on deviance and social control with special emphasis on the scope of the field. The frame of reference for the examination will consist of one or more of the major theoretical perspectives in sociology: the functional, the conflict and the symbolic interactionist. (Irreg.)

SOC 5623 Race and Ethnicity 3 Credit Hours
Prerequisite: graduate standing in Sociology or permission of instructor. Review of concepts and terminology of social differentiation, and in-depth study of the theories of prejudice and discrimination, power and dominance, and patterns of inter-group relations. Includes a history and analysis of race and ethnicity in the United States and other selected countries. (Irreg.)

SOC 5683 Categorical, Panel, and Advanced Statistical Analyses 3 Credit Hours
Prerequisite: SOC 5483 or permission of instructor. The primary focus of this course will be on the application of categorical outcome regression models for social scientific research questions. The course will also provide a broad-based overview of some advanced statistical models commonly used in the social sciences including basic longitudinal/panel statistical models, hierarchical linear models, and a number of approaches to handling missing data in regression analysis. (Irreg.)

SOC 5713 Program Evaluation Practicum 3 Credit Hours
Prerequisite: Graduate standing and departmental permission. Field experience. Students will observe and document how working professionals perform their job responsibilities. Students will also participate in performing tasks under supervision by program professors and on-site staff. (Irreg.)

SOC 5723 Sociology of the Family 3 Credit Hours
Prerequisite: graduate standing in Sociology or permission of the instructor. Analysis of the family as a social institution, focusing on the problems created by changes in the family. The family is examined in historical, cross cultural and demographic perspectives. Applications include consideration of alternative arrangements, including discussion of the probable future of family arrangements in Western society. (Irreg.)

SOC 5733 Sociology of Gender 3 Credit Hours
Prerequisite: graduate standing in Sociology or permission of instructor. Theoretical and empirical approaches to the study of gender within several substantive areas of sociology such as family, work, race and ethnicity, and social class. (Irreg.)

SOC 5743 Religion Seminar 3 Credit Hours
Prerequisite: Graduate standing, majoring in sociology or permission of instructor/department. The course considers theoretical perspectives on religion. In connection with that, it examines the major world religions, including how they developed historically and in the context of other social institutions. The course examines how religious institutions are influenced by, and have an influence on, societies and the people in them, considering the contemporary world in its comparative and historical context. (Irreg.)

SOC 5790 Special Sociological Issues 2-3 Credit Hours
2 to 3 hours. Prerequisite: graduate standing in Sociology and permission of instructor. May be repeated with change of content; maximum credit 12 hours. Intensive survey of the literature in a selected area of sociology under the direction of a member of the staff. Instructors rotate each semester. (Irreg.)

SOC 5821 Professionalization Seminar 1 Credit Hour
Prerequisite: Graduate standing and majors only. Prepares students for careers in academia. Comprised of units covering research and service. (Irreg.)

SOC 5823 Social Demography 3 Credit Hours
Prerequisite: graduate standing in Sociology or permission of instructor. Introduction to the four variables that comprise the subject matter of demography: fertility, mortality, migration, and age structure. Sources of demographic data for the study of these variables are examined and basic demographic statistics are covered. (Irreg.)

SOC 5831 Teaching Seminar 1 Credit Hour
Prerequisite: graduate standing in Sociology. Preparation for teaching sociology. Taken prior to assignment of sole responsibility for teaching a course in sociology. (Irreg.)

SOC 5873 World Religions and Society 3 Credit Hours
(Slashlisted with SOC 4873) Prerequisite: graduate standing. The course examines the major world religions, how they develop historically and in the context of other social institutions. Hinduism, Buddhism, Confucianism, Taoism, Judaism, Christianity, Islam, and Native Traditions will be considered. Students will study how religious institutions are influenced by, and have an influence on, societies and the people in them. No student may earn credit for both 4873 and 5873. (Irreg.)

SOC 5933 Sociological Theory 3 Credit Hours
Prerequisite: graduate standing in Sociology or permission of instructor. Intensive analysis of the original writings of classical sociologists including Durkheim, Weber and Marx. Attention is devoted to the application of classical theories to current research issues. (Irreg.)

SOC 5960 Directed Readings in Sociology 1-4 Credit Hours
Prerequisite: Graduate standing, twelve hours of upper-division sociology. No more than six hours may be counted toward the M.A. degree. No more than twelve hours may be counted toward the Ph.D. degree. Intensive survey of literature in a selected area of sociology under the direction of a sociology faculty member. (F, Sp, Su)

SOC 5970 Special Topics/Seminar 1-3 Credit Hours
1 to 3 hours. Prerequisite: graduate standing in Sociology or permission of instructor. May be repeated; maximum credit nine hours. Special topics or seminar course for content not currently offered in regularly scheduled courses. May include library and/or laboratory research and field projects. (Irreg.)

SOC 5980 Research for Master's Thesis 2-9 Credit Hours
Variable enrollment, two to nine hours; maximum credit applicable toward degree, four hours. (F, Sp, Su)

SOC 5990 Independent Study 1-3 Credit Hours
1 to 3 hours. Prerequisite: Graduate standing and permission of instructor. May be repeated; maximum credit nine hours. Contracted independent study for a topic not currently offered in regularly scheduled courses. Independent study may include library and/or laboratory research and field projects. (Irreg.)

SOC 6343 Special Topics in Criminology 3 Credit Hours
Prerequisite: graduate standing in Sociology or permission of instructor. May be repeated; maximum credit 12 hours. Covers in depth one significant topic in the area of criminology such as, but not limited to, deterrence, longitudinal research, ecology of crime, drugs and alcohol, societal reaction theory, macro-normative theory, micro-normative theory, penology, mental illness, victimology, and violence. (Irreg.)

SOC 6353 Life Course Seminar 3 Credit Hours
Prerequisite: Graduate standing in Sociology or permission of instructor; May be repeated; maximum credit 12 hours. Covers in depth a topic in the area of demography such as, but not limited to, migration, mortality, fertility, population composition, and segregation. (Irreg.)

SOC 6373 Sociology of Sexualities 3 Credit Hours
Prerequisite: Graduate standing in Sociology or permission of instructor. Considers sociological understandings of sex and sexualities, LGBTQ identities/experiences, and heteronormativity with an emphasis on gender, power, and intersectionalities. (Irreg.)

SOC 6903 Issues in Sociological Theory 3 Credit Hours
Prerequisite: SOC 5933 and graduate standing in Sociology or permission of instructor. M.A. students may enroll only once; Ph.D. students may repeat the course once with a change of topic; maximum credit six hours. Examines a particular sociological theory in detail at a level appropriate for students who have completed SOC 5933. Topics will vary and may include conflict theory, functionalism, symbolic interactionism, exchange theory, etc. (Irreg.)

SOC 6960 Directed Readings 1-3 Credit Hours
1 to 3 hours. Prerequisite: graduate standing or permission of instructor. May be repeated; maximum credit six hours. Directed readings and/or literature review under the direction of a faculty member. (Irreg.)

SOC 6970 Special Topics/Seminar 1-3 Credit Hours
1 to 3 hours. Prerequisite: graduate standing in Sociology or permission of instructor. May be repeated; maximum credit 12 hours. Special topics or seminar course for content not currently offered in regularly scheduled courses. May include library and/or research and field projects. (Irreg.)

SOC 6980 Research for Doctoral Dissertation 2-16 Credit Hours
2 to 16 hours. Prerequisite: Graduate standing and permission of instructor; may be repeated. Directed research culminating in the completion of the doctoral dissertation. (F, Sp, Su)

SOC 6990 Special Studies in Sociology 1-4 Credit Hours
1 to 4 hours. Prerequisite: eighteen hours of sociology and permission of instructor. Individual research in a selected field; a problem is analyzed under the direction of a member of the staff. (F, Sp)

Sociology - General Option, B.A.

Minimum Total Credit Hours: 120
Major Hours: 33
Minimum Upper-Division Hours: 48

Overall GPA - Combined and OU: 2.00
Major GPA - Combined and OU: 2.00

Program Code: B845 (B844 Online)

Major Requirements

- **Some courses required for the major may also fulfill University General Education and/or Dodge College of Arts & Sciences Requirements.**

Code	Title	Credit Hours
Sociology Core		
SOC 1113	Introduction to Sociology	3
SOC 3123	Social Statistics	3
SOC 3133	Methods of Social Research	3
SOC 3363	Sociological Theory	3
SOC 4943	Capstone in General Sociology	3
Substantive Area Courses		
Choose five courses from the Substantive Area course list (p. 792)		15
Major Elective Courses		
Choose one additional Sociology course which may be chosen from courses listed in Substantive Area		3
Total Credit Hours		**33**

NOTES

- PHIL 1113 Intro. to Logic will not satisfy the prerequisite to enroll in SOC 3123 Social Statistics or SOC 3133 Methods of Social Research.
- Both SOC 3123 and SOC 3133 must be completed with a grade of C or higher BEFORE the capstone.
- The capstone course should be taken the FINAL SEMESTER in residence at the university. It is only offered in Spring and Fall semesters.
- We suggest using free elective hours to help students utilize their academic skills after graduation by completing a minor or any service-learning designated class. Service-learning designated classes can be found by searching for SERV when enrolling. These classes are also very beneficial: CAS 3091 Career Planning for Arts & Sciences and CAS 4113 Life After OU-Survival Course

Substantive Area Courses

Code	Title	Credit Hours
SOC 2523	Global Social Problems	3
SOC 3523	Criminology	3

Total Credit Hours	**56**

1 College of Arts and Sciences Requirements: college requirements are not automatically fulfilled by a previous degree.
2 One course at the intermediate level or demonstrated competency at that level
3 6 upper-division hours, 2 courses, at the 3000- 4000-level. ***Must be outside the major.***

Free Electives

Electives to bring total applicable hours to the minimum total required for the degree including 48 upper-division hours.

Information Concerning General Rules, Regulations and Minimum Requirements

Arts and Sciences Hours: At least 80 semester hours of liberal arts and sciences courses are required for a BA degree. At least 55 semester hours of liberal arts and sciences courses are required for a BS degree.
Pass/No Pass Enrollment: A maximum of 16 semester hours of free elective credit may be attempted under this option.
Individual Studies (e.g., courses titled "Independent Study"): A maximum of 12 total semester hours may be counted toward graduation, excluding Honors Reading and Honors Research.
P.E. Courses: No physical education activity courses will be counted toward the 120 semester hours of acceptable credit for graduation.
Senior Institution Hours: A minimum of 60 semester hours applied toward graduation must be earned at senior (4-year) institutions.
Residency:

- At least 15 of the final 30 hours applied toward the degree or at least 50 percent of the hours required by the institution in the major field must be satisfactorily completed at the awarding institution.
- At least 15 semester hours of upper-division major work must be completed in residence at OU.
- OU correspondence courses are ***not*** considered resident credit.

Grade Point Averages: Students must earn a minimum over all 2.00 for each of the following: Combined Retention GPA (all college grades), OU Retention GPA, GPA for all major courses, and GPA for all major courses taken at OU. Some schools and departments of the College have higher minimum grade point averages required for their students.

Suggested Semester Plan of Study

This plan shows one possible grouping of courses that would allow students to graduate in four years. Please refer to the front of the degree checksheet for official requirements. Students must consult with Dodge College of Arts and Sciences and Department of Sociology academic advisors to verify that courses selected each semester fulfill the recommended plan and satisfy University, College of Arts and Sciences, and Sociology major requirements.

Major Elective Courses		
Choose two additional Sociology courses not listed in Criminology Substantive Courses		6
Total Credit Hours		**33**

NOTES

- PHIL 1113 Intro. to Logic will not satisfy the prerequisite to enroll in SOC 3123 Social Statistics or SOC 3133 Methods of Social Research.
- Both SOC 3123 and SOC 3133 must be completed with a grade of C or higher BEFORE the capstone.
- The capstone course should be taken the FINAL SEMESTER in residence at the university. It is only offered in Spring and Fall semesters.
- We suggest using free elective hours to help students utilize their academic skills after graduation by completing a minor or any service-learning designated class. Service-learning designated classes can be found by searching for SERV when enrolling. These classes are also very beneficial: CAS 3091 Career Planning for Arts & Sciences and CAS 4113 Life After OU-Survival Course

Sociology - General, Minor

Minimum Total Credit Hours: 18
Minimum Upper-Division Hours: 9

Program Code: N845

- **The requirements for a minor must be completed concurrently with the major degree requirements.**
- **No minor may be added by completing courses after receiving the bachelor's degree.**

At least six (6) credit hours must be earned in courses acceptable for residence credit by standards set forth by the Dodge College of Arts and Sciences, excluding transfer, correspondence, and examination (AP, CLEP, Advanced Standing) credit. Courses for the minor may not be taken Pass/No Pass.

No single course may be used by a student to satisfy a major requirement and a minor requirement. A course may be used, however, to satisfy both a major support requirement and a minor requirement.

Requests to substitute a minor requirement must be approved in writing by the Department of Sociology.

Required Courses

Students must successfully complete at least 18 hours of courses acceptable for major credit in Sociology, including at least nine (9) hours at the upper-division level. SOC 3890 will *not* count toward this total.

Code	Title	Credit Hours
Required Course		
SOC 1113	Introduction to Sociology	3
Electives		
Choose four courses from the Sociology Minor Electives list (p. 796)		12
Choose one additional course in Sociology at the 3000-level or above [1]		3

Free Electives

Electives to bring total applicable hours to the minimum total required for the degree including 48 upper-division hours.

Information Concerning General Rules, Regulations and Minimum Requirements

Arts and Sciences Hours: At least 80 semester hours of liberal arts and sciences courses are required for a BA degree. At least 55 semester hours of liberal arts and sciences courses are required for a BS degree.
Pass/No Pass Enrollment: A maximum of 16 semester hours of free elective credit may be attempted under this option.
Individual Studies (e.g., courses titled "Independent Study"): A maximum of 12 total semester hours may be counted toward graduation, excluding Honors Reading and Honors Research.
P.E. Courses: No physical education activity courses will be counted toward the 120 semester hours of acceptable credit for graduation.
Senior Institution Hours: A minimum of 60 semester hours applied toward graduation must be earned at senior (4-year) institutions.
Residency:

- At least 15 of the final 30 hours applied toward the degree or at least 50 percent of the hours required by the institution in the major field must be satisfactorily completed at the awarding institution.
- At least 15 semester hours of upper-division major work must be completed in residence at OU.
- OU correspondence courses are ***not*** considered resident credit.

Grade Point Averages: Students must earn a minimum over all 2.00 for each of the following: Combined Retention GPA (all college grades), OU Retention GPA, GPA for all major courses, and GPA for all major courses taken at OU. Some schools and departments of the College have higher minimum grade point averages required for their students.

Suggested Semester Plan of Study

This plan shows one possible grouping of courses that would allow students to graduate in four years. Please refer to the front of the degree checksheet for official requirements. Students must consult with Dodge College of Arts and Sciences and Department of Sociology academic advisers to verify that courses selected each semester fulfill the recommended plan and satisfy University, College of Arts and Sciences, and Sociology major requirements.

CRJU 5953	Demonstration Project	3
Electives		
Choose eighteen hours of graduate electives from a list maintained by the academic unit and approved by the Graduate College (p. 800)		18
Total Credit Hours		**30**

General Requirements for all Master's Degrees

The master's degree requires the equivalent of *at least* two semesters of satisfactory graduate work and additional work as may be prescribed for the degree.

All coursework applied to the master's degree must carry graduate credit.

Master's degree programs which require a thesis consist of *at least* 30 credit hours. All non-thesis master's degree programs require *at least* 30 credit hours.

Credit transferred from other institutions must meet specific criteria and is subject to certain limitations.

Courses completed through correspondence study may *not* be applied to the master's degree.

To qualify for a graduate degree, students must achieve an overall grade point average of 3.0 or higher in the degree program coursework and in all resident graduate coursework attempted. A student must also have at least a 3.0 in all coursework (including undergraduate coursework if any).

Additional information for master's degree students may be found in the Graduate College Bulletin.

Criminal Justice M.S. Electives

- For the most current list of graduate-level Criminal Justice elective courses, please consult an advisor in the Department of Sociology.

Applied Research and Program Evaluation, Graduate Certificate

Minimum Total Hours: 15

Program Code: G210

Program Requirements

Code	Title	Credit Hours
Required Courses		
SOC 5143	Program Evaluation	3
SOC 5713	Program Evaluation Practicum	3
Research Methods and Statistics Electives Courses		
Choose 9 credit hours from the electives course list maintained by the department or approved by the Graduate College. (p. 801)		9
Total Credit Hours		**15**

A graduate *certificate* is not a graduate *degree*. A graduate degree represents a program of independent inquiry beyond the depth of coursework alone, while a graduate certificate represents a set of courses only.

- All courses must be taken at OU. No transfer credit will apply.
- No course substitutions are permitted for graduate certificates.
- Coursework applied to a graduate certificate cannot be more than five years old as of the semester the graduate certificate is awarded.
- Students must earn a grade point average of 3.00 or higher on all coursework applied to the graduate certificate.

Applied Research and Program Evaluation Electives

- For the most current list of approved electives, please consult the Department of Sociology.

SOC 5683	Categorical, Panel, and Advanced Statistical Analyses	3

Other relevant social science, policy science, behavioral science courses in research methods and statistics. (Students must seek approval for courses other than those listed above).

Sociology, Ph.D.

Minimum Total Hours: 90

Program Code: D845

Program Requirements

Code	Title	Credit Hours
Required Courses (20 hours)		
SOC 5283	Fundamentals of Sociological Statistics	3
SOC 5293	Advanced Methods of Social Research	3
SOC 5483	Advanced Regression Analysis	3
SOC 5683	Categorical, Panel, and Advanced Statistical Analyses	3
SOC 5821	Professionalization Seminar	1
SOC 5831	Teaching Seminar	1
SOC 5933	Sociological Theory	3
SOC 6903	Issues in Sociological Theory	3
Dissertation Research (2 hour minimum, 24 hour maximum)		
SOC 6980	Research for Doctoral Dissertation	2-24
Additional Coursework		
Additional graduate credit hours as needed to reach 90 post-baccalaureate hours, with approval by doctoral advisory committee [1]		46-68
Total Credit Hours		**90**

[1] Minimum of 46 hours, at least 12 hours must be housed in the Department of Sociology at the 5000-level or above. 12 hours of electives may be Directed Readings (5960), cross-listed courses housed outside the department, or other courses outside the department.

A maximum of 34 credit hours may be transferred from other universities with the permission of a student's advisory committee and the dean of the Graduate College.

General Requirements for Doctoral Degrees

A student should expect to spend at least the equivalent of three full academic years beyond the bachelor's degree to obtain the doctoral degree. During this period the student will take appropriate graduate coursework, successfully complete the general examination, and successfully defend and submit the final dissertation.

All coursework applied to the doctoral degree must carry graduate credit.

The doctoral degree requires at least 90 post-baccalaureate hours, including both formal coursework and hours of research.

The minimum hour requirement for a specific doctoral degree program cannot be waived.

No more than one-half of the credit hours, both OU and overall, excluding Research for Doctoral Dissertation (6980), may be *S/U*-graded coursework.
