The online Bachelor of Arts in Interdisciplinary Studies with a major in Organizational Leadership demonstrates how ethics, conflict resolution, diversity, social processes, and more interact to affect a leader's decision-making at the individual, team, and organizational levels. Students explore different leadership styles, developing the strategies necessary to inspire growth and change within an organization and cultivate vital leadership skills in others.

Additional Online Degree Programs

Criminal Justice, Bachelor of Science

The online Bachelor of Science in Criminal Justice is designed for those who want to protect and serve the community. By providing a broad-based foundational understanding of the justice system, this program helps build leadership and conflict resolution abilities while integrating current, real-world issues. Whether students currently work or hope to work in law enforcement, corrections, homeland security, or juvenile justice, or victim services and restorative justice, this bachelor's program will help them develop skills to confront any challenge. Topics include theories of criminal behavior, basic scientific process, deviance/social controls, investigations, criminal justice administration, and restorative justice processes.

Organizational Leadership, Bachelor of Arts

The online Bachelor of Arts in Organizational Leadership follows an applied approach to the study and practice of leadership. This bachelor-degree program provides students with specific, work-related principles resting on a foundation of a well-rounded liberal education. Students will learn to approach new ideas, projects, and challenges by drawing upon multiple perspectives, and thereby will increase their ability to lead others and enhance the overall leadership capacity of the organizations where they work, consult, or serve.

Undergraduate Minor Programs

Criminal Investigation Minor

The Minor in Criminal Investigation and Intelligence Analysis introduces students to a core function of law enforcement and security operations. For approximately two decades, information technology and computer analytics have steadily improved the capabilities of crime analysis, crime forecasting, and homeland security operations. These functions frequently support and augment criminal and security investigations of every kind.

Criminal Justice Minor

The Minor in Criminal Justice allows students in other undergraduate programs at OU to explore the issues of crime, law and the criminal justice system, emphasizing courts, criminal procedure, corrections and emerging issues and trends in law enforcement. Students get a solid understanding of the criminal justice system by studying theories in policing, criminal behavior, American judicial processes, and the American correctional system.

Organizational Leadership Minor

The Minor in Organizational Leadership provides non-majors with a basic understanding of organizational behavior/leadership theories and equips students with a set of leadership skills to make positive, well-informed contributions to an organization's mission.

Restorative Justice Minor

The Minor in Restorative Justice emphasizes services to crime victims, offenders, and communities, aiming to repair the damage done by crime. Persons working in restorative justice professions serve as victim advocates, counselors, mediators, court officers, probation and parole officers, crime prevention and restoration experts.
